REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the ablest writers unfold, each in his own Britain and Ireland, but also of Continental Europe, are constantly brought the shortest possible time in advance of all other publications. Being reprints of the leading British Reviews, they afford to readers the most prompt, authentic, and satisfactory views of the progress of Science, Philosophy, Art, Religion, and the important questions of the past and of today, are treated in their pages as the learned alone have treated them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies Blackwood holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For all four of the Reviews, - - 12.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one Review, - - 7.00 "
For Blackwood and two of the Reviews, - - 10.00 "
For Blackwood and three of the Reviews, - - 13.00 "
For Blackwood and the four Reviews, 15.00 "

Postage is added to the above. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of twenty per cent. will be allowed on Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent to one address for $12.80. Four copies of the four Reviews and Blackwood, for $48, $12 a year. Postage added. Circulars containing a copy of this to the Prospectus of the work, in addition to the above clubbing.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1870 will be entitled to receive one of the Reviews of 1869. New Subscribers to all the five may receive any one of the Reviews for 1869.

☞ Volume premiums to subscribers are discount to Clubs, and be allowed, unless the money is remitted direct to the Publishers. No premiums can be given to Clubs.

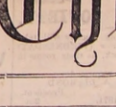

Circulars with further particulars may be had on application.

Two vols., Royal Octavo, 1600 pages, and numerous Engravings Price $7. 75 Mailed, Postpaid.

CONCENTRATED LYE.

AMONGST the many important features of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Means and Ends are some what hazy, has put the stamp of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
BERNET & DOYLE, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened the fine and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned, beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on by them

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerrikon, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventillated, are cheerful for families; while the cuisine will be unexceptionable, and no pains will be spared to administer to the comfort of guests. The proprietors, having leased the building the premises, are prepared to offer ex ry inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THE splendid weekly, greatly enlarged and improved to 16 pages, is now entering upon a new volume, and a new year. Every number is filled with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Machinery; Agricultural Implements; Agriculture; Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all professions or trades in the family, will find the SCIENTIFIC AMERICAN useful to them.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes, containing nearly one thousand pages, and many hundred engravings. Terms—$3 a year; $1.50 half year; $1 a club of four. Clubs for one year, at $2 00 each; $5 with a spare copy to the person getting up the club. Specimen copies sent free. Single copies of the celebrated Steel Plate Engraving, Men of Progress.

In connection with the publication of the Scientific American, Munn & Co. are Solicitors of American and Foreign Patents, have had 25 years' experience in the business. An charge is made for opinions and advice. Persons who have sketches and models of inventions, should write to us. Patents are procured on the best terms. Models of inventions should be sent as early as possible after conception. Drawings must be on hard smooth paper, and the machine should be represented in its most interesting point of view. Examinations at the Patent Office should be made before an application is filed. Copies of the claims of any patent issued since 1866 will be furnished for one dollar. Address all letters and remittances to

MUNN & CO.,
Publishers of the Scientific American,
37 Park Row, New York.

REMOVAL
TO THE
NEW BLOCK.

Henry Rosenberg,

BEGS to announce that he has removed to the NEW BLOCK, on the site of the OLD ONE,
opposite the Wood Market, where he will be happy to see all his old customers and the public generally, and exhibit to them one of the finest and best assorted stocks of
GOLD & SILVER WATCHES,
CHAINS, JEWELLRY,
Clocks, Electro-Plated Spoons,
&c., &c., ever brought to Belleville.
All goods warranted what they are represented to be.
All kinds of jobbing and repairing done promptly and at moderate rates.
Call and inspect the Stock before purchasing.
H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 92 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite can be supplied at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep au courant of what is passing in the world around them.
For this purpose no medium is so good as a first-class magazine.
We recommend to ladies, who desire a one useful and sensible as well as fashionable,
DEMOREST'S ILLUSTRATED MONTHLY
as the very best periodical that we know.
It is twice complete in its departments than any other
Its fashions are more unique & unique than any are authentic and original, and no doubt copies of French and German models.
It gives with every number fashionable patterns, with a supply, during the year, of that any lady needs for the cutting of her own and her children's wardrobe.
It is always high-toned, and its contributors include some of the best women in the country.
The Ladies' Chat department is valuable and useful information upon every subject.
In short the best book for the millions and one thousand of the household; the best magazine for the girls & children; music, temperance, and other topics interesting to ladies; all conducted by ladies and edited by a lady.
Any subscriber, present or future, may order any back number at any time and have it sent.
The engravings in all done in fine and artistic. From the original painting by Addie M. Spencer, and besides the one plate each over every number, that if dollars and cents were ordered he is able to be the most perfect and beautiful steel engraving ever published, and consequently $10 00 will not procure another that combines so much interest and beauty.
In fact, it offers to her Christmas worth $5 00, and other premiums worth nearly as much, one of us as agent for ours subscriber, post free, and all necessary premiums for a club.
Subscription price, $3.00 per annum. Commence any time.
Single copies 25 cts. Specimen copies, with circulars, mailed free on receipt of 13 cts.
Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK

The Ontario Farmer
Second Year of Publication.

THIS ably conducted popular and invaluable rural Journal, well, and other January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & H. Myers having purchased the proprietary interest in it, and become its publishers, in the belief that this region of country is peculiarly adapted to the profitable growth of many agricultural resources and progress needs and will be greatly assisted, especially to the resources of the farm and garden.
THE ONTARIO FARMER will continue to be edited by the Hon. W. McCrae, who has secured valuable aid to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. Other practical writers, as Prof. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, M. W. Ed. and other eminent contributors have written to the Ontario Farmer, and no pains will be spared to secure the co-operation of the best writers on agriculture and horticulture, in adding variety and interest to its columns.
During the coming year engraved portraits of prize animals at the ann. Provincial Exhibitions, will from time to time appear in the Ontario Farmer. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarvis, of New York.
Special attention will continue to be given to the advancement of education, the progress of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.
The attention of farm implement-makers and merchants is invited to the Ontario Farmer as a most suitable advertising medium. Terms—to cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.
Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ $2 to Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies in Clubs of any number, at Seventy-Five Cents each, free of postage.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.
Belleville, April 27, 1870. d&w85-w1

VICK'S FLORAL GUIDE
FOR 1871.

The first edition of one hundred and fifty thousand copies of Vick's illustrated Catalogue of Seeds and Floral Guide, is published and ready to send out - 100 pages and an Engraving of almost every desirable Flower and Vegetable. It is elegantly printed on fine tinted paper, illustrated with three hundred fine Wood Engravings and two beautiful
COLORED PLATES.
The most beautiful and the most instructive Floral Guide published. A German Edition published, in all other respects similar to the English.
Sent free to all customers of 1870 as rapidly as possible, without application. Sent to others who order them, for ten cents, which is not half the cost. Address
JAMES VICK,
Rochester, N. Y.

Corn and Pork.

If hogs are to be sold at present prices, what chances are there for any profit to the producer?

To this we reply, the fattening of the hog, even at the lowest price, will result in a splendid business to the farmer. The corn crop is every where admitted to be immense, and will necessarily be sold at a low price, and the most economical way of getting the crop to the market, as is well known, is to feed as much as possible to the hogs, and drive it through on the hoof.

Every producer and intelligent farmer understands perfectly, and acts continually, upon the fact that one bushel of corn properly fed, and with good care for the hogs, will make ten pounds of gross pork. From this admitted fact we deduce the following:

Corn fed out at 12½ cents per bushel will fatten hogs at 1¼ cents per pound gross.

Corn fed out at 20c per bushel will fatten hogs at 2 cents per pound gross.

Corn fed out at 25 cents per bushel will fatten hogs 2½ cents per pound gross.

Corn fed out at 30 cents per bushel will fatten hogs at 3 cents per pound gross.

Corn fed out at 35 cents per bushel will fatten hogs at 3½ cents per pound gross.

Corn fed out at 40 cents per bushel will fatten hogs at 4 cents per pound gross.

Corn fed out at 45 cents per bushel will fatten hogs at 4½ cents per pound gross.

Corn fed out at 50 cents per bushel will fatten hogs at 5 cents per pound gross.

Corn fed out at 55 cents per bushel will fatten hogs at 5½ cents per pound gross.

Corn fed out at 60 cents per bushel will fatten hogs at 6 cents per pound gross.

Now, compute what a 230 pound hog will cost at a given rate for stock hogs.

A stock hog weighing 130 pounds, bought at 6 cents, will equal $9.

One hundred pounds weight added on ten bushels of corn, at 25 cents, $2 50.

Total value of hog would be $11 50.

This would make the animal cost just 4 and 3 cents per pound, and the farmer has sold his corn, in this calculation, at twenty-five cents per bushel.

We confidently believe that there will be ample profit to the farmer the present year at low figures for hogs; and it adds another powerful argument to sustain all the position we have taken.

A Montana vigilance committee ought a very obnoxious character, set him on a mule, and to'd him he had precisely fifteen minutes to leave the country. He replied, "Gents, if this mule don't bark, fire'll answer."

A planter at Lexington, Ky., fired a shot into his cabbage patch on Monday, si was his custom of an evening, and the next morning he had to go to the expense of burying a neighbour. His cabbage held out better since.

"My dear," said a stockbroker to his wife, "do you think I shall ever be worth fifty thousand?" "Ain't it worth that to you? said the confiding spouse. "Yes, said the other half, "but I can't put you out at interest."

Ex Governor Eyre has settled down in the country. The total fund raised for this gentleman was £15,000. More than half of this was absorbed by law costs, and expenses and he received a cheque for £7 000. The Government will pay him £4 000 to defray the cost of his defence, this being the rule when the defendant is a Government servant put on his trial for charges relating to his official duties.

Swearing is as universal as sin. Just as every race and every individual make use of some stimulant, whether it be tobacco or gossip, pugilism or sermon hunting, dram drinking or morning calls, so all of us, whether pious or wicked, habitually swear in some of the thousand fashions which lie open to the wit or the stupidity of man.

Just as a traveller was writing his name on the register of a Leavenworth hotel, a bed-bug appeared and took its way across the page. The man paused, and remarked: "I've been bled by St. Joe fleas, bitten by Kansas City spiders, and interviewed by Fort Scott greybacks; but I'll be shot if I ever was in a place before where the bedbugs looked over the hotel register to find out where your room was!"

The oyster business of Virginia is increasing with every subsequent year. One oyster concern in Norfolk, which used to do only a moderate business, now employs 1 300 persons daily in packing and shipping those bivalves. The people thereabouts are now calling for capital where with to extend the business to immense proportions. They think their oyster beds a greater mine of wealth than the gold placers of California.

Queen Victoria did a very graceful and gracious little act in lately. Hearing that the ex-Empress had mentioned that among the articles specially regretted which she had been compelled to abandon in her hasty flight was an album given to her long ago by the Queen, containing various interesting portraits, Queen Victoria immediately gave orders that a fac-simile should be made and despatched to the imperial refugee.

No SMOKING ALLOWED!—Old Dr. Searos, of New London, in his later years, kept a drug store. A gentleman one day purchased a cigar of the Doctor, and lighting it, began to smoke. "Please do not smoke in the store," said Dr. S., politely, "it is against our rule." "But you sell cigars," rejoined the gentleman. "Sell 'em to smoke, don't you?" "Yes, sir, we sell cigars," replied the doctor, a little sharply, "and we sell physic; but we don't allow it to operate in the store."

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.	
" 4 Express	6:23 "	
" 8 Mixed	9:45 "	
" 2 Express	6:15 P. M.	
GOING EAST.		
No. 1 Express	11:10 A. M.	
" 7 Mixed	2:40 P. M.	
" 3 Night Express	12:35 A. M.	

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do West	5:15 p m.	6:15 p m.
Night Mail going East	10:00 p m.	12:35 a m.
do do West	2:30 p m.	6:23 a m.
Stirling, Marmora, Harrowsmith, &c	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c	1:30 p m.	11:45 a m.
Madoc, Tweed, Hungerford, &c., every Tuesday, Thursday and Saturday	1:30 p m.	11:45 a m.
Hillier, Ameliasburgh, Redperville, &c., every Tuesday, Thursday and Saturday	6:00 a m.	5:30 p m.

Mails for Picton and village and Consecon and Napanee, and close at 2:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 10:00 p m.; by the steamers which sail from American ports every Saturday at 2:00 p m.

☞ Registered Letters must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 3.

OUR FRENCH LETTER.—Our regular French letter will be found in another column, and though it has been on the way nearly a month it is none the less interesting, giving as it does details which are not found elsewhere.

GRAND TRUNK OF CANADA.—The traffic receipts on this company's lines, 1,377 miles in length, for the week ending the 3rd ult., amounted, as per Atlantic cable, to $33,230, an increase of $1,400.

PENITENTIARY WARDENSHIP.—Saturday's *Gazette* contains the appointment of John Creighton, Esq., as Warden of the Provincial Penitentiary at Kingston, in place of the late Mr. Ferres. The appointment is a good one Mr. Creighton being well qualified for the duties of his office.

RUNAWAY.—Last night a horse ran away, starting from a railway crossing on the west side of the river a short distance above the railway bridge. A lady who was seated in the sleigh, was thrown out, without being much hurt, and an old man was run over by the animal during his career.

POLICE COURT.—It speaks well for the morals of our community that there were no prisoners for trial at the Police Court this morning, when it is considered that yesterday was a public holiday, and that there was an exciting election contest going on. Election days are generally made the excuse of topers for a jolly spree; but this old practice seems happily to be dying out here. Not a case of any kind came before the Magistrate this morning.

SNOW STORM.—A heavy snow storm raged this morning for several hours. The snow was very fine and wet, and the drift was tremendous, in consequence of the high wind which prevailed. Roads and sidewalks are blocked, and, while pedestrians suffer a great deal of inconvenience, those who drove were still more incommoded by the falling snow, with which the air was thick. News of the elections in the country is consequently slow in coming to hand.

SNOW BALLING.—On the streets yesterday, during the progress of the election contest, large crowds of men and boys were gathered here and there, indulging in the sport of snow-ball pelting. Every vehicle was a mark for them to throw at, many a hard knock being received by the occupants of sleighs and cutters as they dashed past. One driver of a sleigh essayed to charge with a heavy whip, into the crowd whence had come a hard snow-ball which struck his face; but such a summary mode of redress greated his advance that he was glad to beat a retreat to his vehicle and drive off as rapidly as possible. The rough sport was carried on in a good-humored manner, and no arrests were made, the small force of police being unable to do anything more than look on.

MASON THE WHISKEY INFORMER.—This noted character, after having served a time in gaol for perjury has now fallen foul of the Ontario Legislative Assembly, and the Law Society by commencing legal proceedings against the former *Telegraph* against the Hon. John Sandfield Macdonald as to head of the Ontario Government for not having the doors of the house of Parliament open outwards. The same informer is also waging war against the Law Society on account of the doors of Osgoode Hall having a similar defect. The Hon. John Hillyard Cameron and Mr. Hugh N. Gwynne have been summoned by Mason to answer to the complaint he make. The informer takes these proceedings under and by virtue of chap 22 of 29 and 30 Vic., entitled "An Act to regulate the means of egress from public buildings." In case of conviction the fine imposed is $50—one half of which goes to the informer.

An independent candidate for sheriff over in Nevada, who had been treated on sour kraut and lager beer to an extent to affect his speech, has laid down his platform: "Sa-pose I'm elected sheriff and I hear out mit der pops, and der pops thinks a lidle too much and I thinks a lidle too much too; I vot arrest dem. No; I prings dem around de corner and tells dem to go home. Dat is vot I do."

The Municipal Elections.

THE MAYORALTY.

The municipal elections, which came off on the 2nd January, were productive of more than usual interest, the contest for the Mayoralty being lively. It was apparent, from the first, that the organization of Mr. Holden's party was much superior to Mr. Robertson's, his teamsters being supplied with printed lists of the voters, by which means they were enabled to bring their voters forward at an early hour. Starting with a majority, in most of the Wards, it continued to increase until noon. The lack of organization amongst Roberts son's friends enabled them to do this, the teams in his interest standing here and there idle while those of his opponent were bringing voters to the polls in scores. In the afternoon more effort was put forth, which had the effect of sensibly decreasing the majority. But it was too late—effort was useless and discouraging in the face of a large adverse majority. The struggle was continued to the close with unremitted vigor. At the close of the polls, the vote in the different Wards stood:—

SAMSON WARD.

Holden	138
Robertson	99
	39

KETCHESON WARD.

Robertson	113
Holden	110
	3

COLEMAN WARD.

Holden	166
Robertson	143
	23

BALDWIN WARD.

Holden	137
Robertson	124
	13
Majority for Holden	71

AFTER THE CLOSE

of the polls, a number proceeded to the Town Hall, where Messrs. Robertson and Holden addressed their friends in short speeches thanking them for what they had done. The friends of the successful candidate then formed a procession of some twenty or thirty sleighs, and, headed by the band, proceeded through the principal streets of the town to Mr. Holden's residence, where he made them a short speech, and the crowd dispersed, and in an hour the town was as quiet as if no election had been held.

COUNCILLORS.

KETCHESON WARD.

As we informed our readers some days ago, there was no contest in this Ward Messrs. John Lewis, S. B. Smith and William Legate having been returned without opposition.

COLEMAN WARD.

In this Ward the chief interest in the election of Councillors was centered, no less than nine candidates going to the poll. The phases of the contest were varying, sometimes one being a few votes ahead and then another cropping up at the head of the poll. At the close it was found that Messrs. Bull, Fahey and Vandusen were elected. The following is the state of the poll at the close:

Samuel J. Bull	161
Peter Fahey	161
J. G. Vandusen	147
Dr. Bardett	131
S. H. Partlett	116
Paul Beckett	99
Charles Martin	57
Joseph Wilson	25
Parker Mills	14

SAMSON WARD.

In this Ward it was seen, from the first, that Dr. Hope, Messrs. Henderson and Foster, would be elected. The vote at the close stood:

Dr. Wm. Hope	170
Geo. E. Henderson	163
W. A. Foster	143
James Clarke	81
E. W. Davy	73

BALDWIN WARD.

This Ward was also the scene of a lively contest, which, after a hard day's work on the part of the candidates and their friends, resulted as follows:

Reuben S. Patterson	210
John J. B. Flint	208
John A. Reed	166
Neil McArthur	122

THE COUNCIL

for 1871, will therefore consist of Thos. Holden, Mayor, Messrs. John Lewis, Samuel Smith, William Legate,* R. S. Patterson, John J. B. Flint, John L. Reed,* Dr. Hope,* George E. Henderson, W. A. Foster, Samuel J. Bull,* Peter Fahey* and J. G. Vandusen. Those marked with an * are new members.

Township Elections.

RAWDON.

In the Township of Rawdon the contest was between the old Reeve, Geo. Conley, and Andrew Glass, and resulted in the election of Mr. Glass by six majority. The Councillors, Andrew Glass, Reeve; Thomas Walker, Deputy Reeve; Messrs. James Cook, Samuel Bailey, and Joseph Doak, Councillors.

MADOC.

The contest was between Mr. Wood and Mr. Cross. The vote at the close of the poll stood: Wood, 190; Cross, 155; Peter Vancleek, Deputy Reeve. Councillors, Messrs. Wm. Blair, John Tassie, and S. Ross.

THURLOW.

In Thurlow, J. J. Farley was elected Reeve by acclamation; and the election resulted in John Diamond and H. Ashley, Deputy Reeves; and Owen Weese and Hugh Campbell Councillors.

TYENDINAGA.

We have not received the full returns, but learn that John White has been returned by a large majority, and Donald Anderson and Wm. McLaren Deputy Reeves.

HUNTINGDON.

Thos. Emo has been elected Reeve by a large majority.

THURLOW.

James Cumming, Reeve by acclamation; G. H. Gordon, W. H. Ausin, Robt. Francis and A. Parent, Councillors. A Parent being unable to qualify, there will be a new election.

STIRLING.

Peter Chard elected Reeve; B. Stedman, D. McDougall, Uriel Wright and Jos Feeney, Councillors. All elected by acclamation.

HUNGERFORD.

In the Township of Hungerford the contest was exceedingly close. At the close of the polls the vote stood as follows. For Reeve: James Reid, 262; John Allen, 252. For Deputy Reeve: R. Gabourie, 241; George Stokes, 176; William White, 59; Wm. Burley, 1. For Councillors: John Newton, 238; James Clare, 209; Patrick Casey, 143; Sidney Way, 200; Richard Waterhouse, 237; Owen Foley, 159; Paul Larkin, 196. Mr. Reid is consequently elected Reeve, Mr. Gabourie Deputy Reeve, and Messrs. Clare, Newton and Waterhouse Councillors.

French Correspondence.

ARRAS, Dec. 10.

I can now very well understand how Parisians must feel under their incarceration, from having been 'invested' for ten days by the Germans in Amiens. Not a newspaper, not a letter arrived—worse, not a means of despatching any communications, not even by balloon. There was the German post, which by making application could be allowed to take your correspondence on any subject except the war and politics, as if one could write from France without alluding to both. Some few strangers felt the isolation so intolerable that they resolved to run the blockade, to which I subscribed myself. I can also well understand Parisians willing to join a Trochu sortie to escape from the great city prison. *Ah ça*, with nothing but our ordinary passports we set out, in theory resolved to maintain, like the European powers, a neutral attitude, but determined to make a 'struggle for life,' should such become necessary. Among the Franc tireurs we had many right good fellows, and trusted that having met with so many German officers at the hotels, they would grant us a respite before being hanged or shot for treading on delicate ground without permission. A Prussian *pas* would affront our French friends, the want of it annoy the Germans.

We had not got well clear of the city of Amiens, when a cannonade was heard, and in the distance Uhlans beckoned us back, which was kind but unnecessary, as we had not the slightest intention to become an eye witness of any skirmishing. After a time the Franc tireurs were met with, and matters with old acquaintances were soon fixed up. Here we met with a practical illustration of 'save us from our friends.' An officer insisted on handing an escort of his Franc tireurs to protect us from any Uhlans, which was the most efficacious method of ensuring us the fate reserved for all the members of the Free Shooting Corps, immediate execution. There was no time to remonstrate against so dangerous a civility, so we bowed to Fate, each consoling his companion that whoever survived was to write a glowing account of the last moments of those who would fall. However, we arrived in Arras, 'o'er a' the ills o' life victorious' for that day, the inhabitants receiving us in their town something like the fly in amber, wondering how we got there. Among the items of latest news was an account of the evacuation of Amiens by the Prussians, the town being in insurrection, of no end of big wigs being shot for their pusillanimity in handing over the city to the Prussians, all of which was creditable to the inventor and very humorous to us who left the locality a few hours before and saw no such wonders. Arras is preparing for the Germans. What the town can do or will do, I leave till the trial comes.

I have been very much disappointed in Amiens. I had formed a high estimate of its citizens, and expected "beautiful" results. The real battle of Amiens was fought on the 27th November, the two previous days were devoted to severe skirmishing up for a position. At daylight it commenced, and was altogether an affair of artillery, there was a brilliant charge by the Prussian hussars, against batteries served by the French marines, who fought till they were cut down to the last man. Two regiments of the line held ahead against the Prussian infantry gallantry, both sides suffering severely. A battalion of Mobiles fought excellently, but were unable to withstand the unflinching front of the enemy. The National Guards did nothing, their artillery, had it been well-officered and brought into action at the right moment, the Prussians would have had to retire, as they themselves admitted. The enemy turned the French positions on all points, but the day being very hazy, the field of battle extending over seven miles, was later-perceived with hills, and he did not know the extent of his success or his proximity of the town which lay at the mercy of his artillery. However, the French did not know at once, the magnitude of their danger, so the general impression was that France was successful, and that the next day, Monday, would prove it. But General Farre, Bourbaki's successor, soon ascertained the state of the case, and in a few hours after midnight ordered a retreat of the "army of the north." Many blame him for this, but he could gain nothing by continuing the fight, which would involve the destruction of the city, and the making prisoners of the bulk of his army, the moment day-light showed the Prussians their advantages.

The retreat of the army was like all other retreats, wild and disorderly, but nothing approaching a panic, as the soldiers had five hours clear start. Men threw away rifles, knapsacks &c., but these were picked up by French bands and sent after them. At break of day, the Germans, Saxons principally, some Prussian regiments, and a few Bavarians formed, to drive the enemy from his supposed position behind the field works, but found the birds had flown; they had, therefore, a walk over the course, direct into the town, which they quickly occupied. There was no occasion to call on the people to lay down their arms, such had already been done, when they found the proclamation of the Prefect announcing the retreat, and that of the Mayor stating that the city had been abandoned by its defenders.

The Prussians had not more than 18,000 troops engaged, but they had reserves under Manteuffel within a day's march. The French forces were about 28,000, but not the one half were engaged, their losses over the three days fighting were 1,200 killed, 3,400 wounded, and nearly 2,000 prisoners. The Prussians had 70 officers placed *hors du combat*, and 1,200 men. Although the city was taken, the citadel held out, it was surrendered by rifle men, who picked off the Commander. His death put a termination to the cannonade from the citadel, which could only, from its low position injure the town. The next morning the Germans had three batteries in position, and a fortnight's siege before them, when the white flag was run up, the garrison surrendered, with only a soldier on either side being killed or wounded, the captain excepted, whose body was "laid out" in a chapel, and subsequently buried on the ramparts, with all military honors by the conquerors.

The fine levied on Amiens, by that celebrated town-taker, Manteuffel, was 3,180,000 francs, but has since been increased to six millions of francs. The Prussians have conducted themselves most becomingly, a few petty thefts being the only reprehensible acts committed. The soldiers have plenty of money, and pay for what they want in the way of "extras." At first the shop keepers declined to take German coin, but soon got over such scruples, as the victors announced French money would be given if desired. The citizens were very much at first at the position they found themselves in, and were for a moment in a mood to sign any peace; but strange, when the enemy marched in, their wonderful discipline, simple but most complete organization, instead of cowing the inhabitants made them more war-like. A sort of understanding spread, that every one should keep within doors, and the city, generally so lively up to eleven o'clock at night, was still at seven as a cemetery. The Prussians went about their business all the same; marched, reviewed, played their music, and scoured the country, and finally leaving 9,000 men, started off to Rouen, where they remain.

The working classes, who were marked dangerous, conducted themselves well—they threw up a few barricades to keep their hands in, and relieved the tobacco shops of all their stock of *ca oral*, not to be left without a pipe full when the Prussians came to "requisition." As honest confession is good for the soul, I avow I was the receiver of such—" convey the wise it call"—and fortunately as before twenty-four hours not even a specimen of tobacco could be had, and as for cigars, you would only attempt such as a last extremity. But saddest in the history of the battle, was the liability evinced to the French wounded by the population, and which almost makes me believe feeling has altogether fled from the French. Amiens is a very rich, luxurious town—wants for nothing—has all to even excess. Yet not a hand was extended to the 1200 French heroes who remained unseen and three days on the field, till carried off by the few peasantry who remained, by strangers and German soldiers, and then no comfortable home was opened to receive men whose wounds made you shudder to look at and whose cries of pain can never cease to ring in the ear. A few "hospitable" people placed stables, cow houses, &c., at the disposal of the wounded—places without windows—floors moist, wet, not a bundle of straw, not a bed, not the shadow of bedding —there lay the sick till fed, clothed and cured, by the English ambulances—till medically treated by their two doctors—assisted by two French physicians who nobly stood by their companions in arms when the others fled. But the Amiens never gave a thought to the indescribable suffrings of their soldiers—they might groan, mortify and die—they themselves had warm homes and groaning tables. I don't think history could find a parallel for such hideous, culpable unkindness.

One met daily the Prussian officers at the *table d'hote*. I was struck with their great simplicity and earnestness. They never allude to their successes, and are not at all desirous to return to Waterland till France be crushed. They do mean to cripple this unhappy country for a century, if possible, and ridicule the idea of surrendering Alsace and Lorraine. They admit the magnitude of the task they have in hand—that of subjugating a nation —they acknowledge the French never fought more bravely than before Amiens, and they recognize the daily increasing power of resistance among the people. But they will pursue their task to the bitter end—will march to the farthermost point of the country till France demands peace, and what they think more important is in a position to secure it. They seem to have an utter detestation of the Franc-tireurs, and vow to give them no quarter, which may be readily believed, since they have kept their word wherever they had an opportunity. They are full of stories about French cruelty to their men when taken prisoners or wounded, but I have not been able to trace anything in the way of a crime committed in cool blood. In the way of excesses when passion blinds both sides alike to mercy, things may be done, probably are, which in calmer moments would be shunned.

I have also met with excellent opportunities of ascertaining the state of French feeling. It continues to increase in hatred. There is no difference of opinion, that the Germans are to exterminate the French nation—to plunder them to the last farthing. They avowthat up to Sedan, the Tuscons had *raison d'etre*—but that subsequently their aggression has no pallation. There are no thoughts of peace, no political differences, but every where zeal to stake life and fortune on the national issue. There is one man who is regarded as a common benefactor, although at first sneered at and ridiculed—that is Gambetta. He is their Bismarck, who has welded French unity by blood and iron. His patriotism has won the support of the various parties in France—his decision of character has infused new energies into every measure and partner of the national defence. In a very short time he has brought order out of the chaos he seathed by the fall en empire, he has reformed armies out of raw materials, that can keep the flanked victors even at bay for awhile, and retreat while obstinately fighting Prussia is only doing its duty —is now in the 75th day of its siege—complains of no want of food, is more politically united than ever, because Bismarck mocked their pride in asserting Parisians had not the courage to starve, not the Reds patriotism to resist them. Paris resents the insults, her sorties, if they have not succeeded, nor character aid by a definite end, are at least plucky and obstinate. She has found out that her antagonist has not the character of invulnerability—and will model the patience of his investment, by a patience of privation. It is not unlikely the city can make the effort to hold out for six or eight weeks longer. There are 40,000 horse a good for *pot-au-feu*—the bread gives no anxiety—oil is not a scarcity, and wine is abundant. With the evidences of preparation I see every where around me—with the want of arms being daily supplied, with young troops beginning to give, as well as receive fire, I cannot see that France intends to yield. She wants officers now, or rather generals—these cannot be made in a day. She has filled up so many voids within the last two months, she may yet succeed in this. The Germans speak respectfully now of their foes.

Belgium appears to have become the great centre for Napoleonic intrigues. The ex-dynasty has started a journal, printed in Brussels, and sends thousands of it gratuitously to all the French prisoners in Germany. It is edited by Cassagnac, *pere*, an able man whose name does not figure to advantage in "Secret Papers" published. This attempt to bid for a return of the Bonaparte has had for consequence, something like a unanimous burst of indignation from the French officers in Germany. As a proof of the toleration enjoyed under the Republic, the curious paper has free liberty to enter France. The nation wants only a government that it can control, and a policy that will not be "Red." Gambetta is making the foundation for a "Moderate Republic."

News Condensed.

—Troops are concentrating in south-western Russia.

—Discount on American invoices, 10 per cent for the current week.

—Field Marshal Mosero, of the Austrian army, died at Vienna on the 2nd inst.

—A man named Graham, convicted at the last general sessions in Toronto of an indecent assault upon a little girl, is to be whipped for his offence.

—A number of farmers residing in the vicinity of Frankyn's Gate, Pittsburgh, lately formed a club and paid the road company the amount of the lease, in order to secure a free road.

—The Montreal Telegraph Company has again made a reduction in its rates, all messages being now charged 25 cents for the first ten words, and 1 cent for each additional word.

—There are nearly seven thousand French Canadians employed in the factories and workshops of Connecticut.

—A Bridgeport, Connecticut, father had his son arrested for stealing. The boy was fined seventeen dollars, and being a minor the fine was exacted from the father.

—A divorce case in Ireland has elicited the fact that the lady was in the habit of drinking rum and milk before breakfast, five bottles of porter during the day, and of chastising her husband with the furniture, and on one occasion knocked him down and sat on his head.

Walks about the Premises.

The season is upon us, when good hard walks about our dwellings, barns and out houses generally, are very desirable on many accounts—health, convenience and comfort being among the chief. Many of our agricultural readers neglect this home duty! How many allow the paths even to their houses to be almost impassable in moist weather! And so with the paths to the barn, or different stable doors, to the hog pens, cattle yards, &c. We have known persons to wade through water, mud and manure for eight months in the year, to get at these several places, at the expense of lamp feet and nasty boots, instead of providing a footway of stones, coal-ashes or boards, either of which could be made at a small expense and a few hours of time and labor. Especially is this neglect to be condemned when the females of the family are the sufferers. We have many times seen the way to the wood-pile, coal-bin, spring-house, chicken-yard and other indispensable points, totally unfit to be used by them. If any one thinks there is any economy in this, he is grievously mistaken. To say nothing as to the loss of time in wading through the mud, the wear-and-tear of shoe-leather and injury to garments would alone pay the entire expense of providing good, dry walks but when the question of health, of suffering and doctor bills are taken into account, it ought to be sufficient to drive every negligent, unsympathizing head of a family, whether in town or country, to follow the suggestions herein made. A man who will not look after the reasonable needs and comforts of his household, does not deserve to have a family.—*Germantown Telegraph.*

A little boy was relating a story he had heard one day. His ideas becoming confused in some way, he could not find words to express his meaning. At last he said: "Well, I know enough big words, but I don't know where to put them in."

SAVE ME FROM MY FRIENDS.—A story was told upon himself by a man who was notorious as a long-winded talker. Said he, 'Seeing my friend Jones being bored by a man, who had him buttonholed, and was talking him blind, I called to Jones that I wanted to see him at once on particular business. He came to me, when I explained to him that I had no particular business, but merely called him away from being talked to death.' 'Very much obliged,' said Jones, 'but (looking very anxiously about him) who on earth shall I find to save me from you?

The Summerside, P. E. I. *Progress* reports that on the eighth instant at Sea Cow Head, a daughter of Mr. James Sherry was found in bed in her brother's house with her throat cut from ear to ear. The young woman whose name was Ann, was considered a little simple. It is somewhat singular that no knife or other weapon was found on or near the woman. It is supposed that she must have committed the desperate deed somewhere in the fields, and afterwards crawled to her brother's house. This is the more likely, as there was not much blood either on the body or on the bed. Her recovery is said by Dr. Jamieson to be impossible.

THOMAS WILLS, Esq.,

WE, the undersigned electors of Baldwin Ward respectfully request that you will allow yourself to be nominated as School Trustee for Baldwin Ward for the ensuing term and pledge ourselves to endeavor to secure your election:

Wm. Ellis, James Brown,
Edmond Chandler, E. W. Holton,
F. McAnnany, H. Holden, M. D.,
G. V. N. Relyea, Esq.,
And 104 others.

Belleville, Dec. 27th, 1870.

REPLY.

To Fred. Ellis, Jas. Brown, Edmond Chandler, E. W. Holton, F. McAnnany, H. Holden, M. D., G. V. N. Relyea, Esq.,

GENTLEMEN,—Your large and flattering Requisition calling on me to allow myself to be put in nomination for a School Trustee in Baldwin Ward has been presented. After having given it due consideration I regret to find that I cannot devote to said office as much time as I know to be necessary for the proper performance of the duties of the trust; I must, therefore, most respectfully decline your very kind request, and at the same time heartily thank you for this generous acknowledgement of my former services in the improvement of our Town Schools.

I am, Gentlemen,
Your obedient servant,
THOS. WILLS.

IN compliance with the above requisition, I, ALEXANDER ROBERTSON, Mayor of the Town of Belleville, do hereby proclaim MONDAY, the 26th day of December next, and MONDAY, the 2nd day of January, A. D. 1871, as PUBLIC HOLIDAYS, and request a due observance of the same.

A. ROBERTSON,
Mayor.

MAYOR'S OFFICE,
Belleville, Dec. 24, 1870.

Latest by Telegraph.

BY ATLANTIC CABLE.

Midnight Despatches.

LONDON, Jan. 2.—Meziores has been occupied by the Germans. The French evacuated other advance posts north-east of Paris.

Since the reduction of Fort Avron the forts around Paris are silent.

The 20th Prussian division repulsed a superior French force in the rear of Vendome, capturing some guns.

In an engagement near Arras 175 French infantry were taken prisoners.

Additional artillery is now on the way to Paris. The number of siege guns, all calibres, now in front of Paris, is 1,500.

NEW YORK, Jan. 2.—The *Herald's* Versailles special of the 28th ult. says:—The Prussian troops are daily becoming more dissatisfied that nothing is done to hasten the siege. The Germans have every cities heavy enough to send shot into Paris, but not for have been employed with effect. Within the last few days all the heavy guns have been brought to a particular point to destroy one or two forts, and a tremendous effort will be made to capture them. I have told you before of the difficult nature of the country around Meudon and Clamart, between forts Vanves and Montrouge. The obstacles are now nearly insurmountable to a force trying to get out. Valerien has been strengthened with advanced works, as well as forts D'Issy, D'Ivry, and Bicetre. These forts are doing a deal of damage, and afford full employment to the besiegers. Batteries of small guns will be brought to bear upon them. The Duke of Mecklenburg has been here and Prince Albrecht is coming for consultation. The result of the deliberations so far appears to be that the army of Frederick Charles will content itself simply protecting the besiegers. All the troops outside the camp will remain on the defensive until reinforcements arrive. Guns and ammunition arrive slowly, notwithstanding the almost superhuman energy exercised.

SPAIN.

Prim's Murder.

Great Excitement.

MADRID, Dec. 31.—The death of Gen. Prim has intensified the excitement in this city. Information set to from his wounds and amputation of the arm was found necessary though it did not save his life. He retained consciousness to the last, and when made aware of the rapid approach of death bade adieu to his friends and it is said expressed much anxiety for the safety of the King.

The greatest apprehension of an outbreak of the conspirators exists, but the Government is making prepa ations to allay the excitement.

The Cortes has adopted a resolution in honor of the memory of General Prim. It declares that the deceased deserved well of his country, and places his family under the protection of the nation. The Cortes also passed a vote of confidence to the government.

ROME.

ROME, Jan. 1.—King Victor Emmanuel left Rome to-day amid enthusiastic demonstrations. Before his departure he made a donation of 250,000 francs for charitable purposes, and begged the municipality to devote to a similar object the sums intended to defray the expenses of the festivities on the occasion of his visit.

GREAT BRITAIN.

LONDON, Jan. 2.—The report that a commission was to be sent to the United States, to settle the dispute about the Fisheries is untrue.

The Prussian Government explains the sinking of the British colliers in the Seine by stating that they were placed at to bring them to.

The navigation of the Thames is obstructed by ice.

The French iron-clad Guyenne has been ordered to leave Queenstown.

A Prussian corvette is hovering off Dungarvon.

LONDON, Jan. 2.—The Empress Eugenie gave a reception on New Year's day to the French exiles. Among the guests were the Duke De Persigny, the Marquis De Lavalette, M. Rouher and many other distinguished men of the Empire.

Morning Despatches.

Gladstone Asked to Resign.

The Conference.

Cardwell at Oxford.

The Bombardment.

Flood in Rome.

NEW YORK, Jan. 3.—The World's special, dated London, 2nd, says: The constituents of Gladstone have signed a petition asking him to resign, because the policy has reduced them to pauperism.

The address to Gladstone gives as reasons why he should resign, the destruction of trade through a parsimonious economy; the silence in the dockyards, a fact of which Russia seems cognizant; the suicidal apathy amidst the terrible complications on European questions, and the aggression of Prussia.

The Government at Bordeaux has designated Jules Favre to represent France at the Conference.

The Right Hon. Mr. Cardwell, Minister of War, in a speech at Oxford to-day, eulogized Bright for his services to the country. He refuted the reports of the insufficiency of the army, and contrasted the armaments of England, Prussia and the United States. The British Government, he declared, was resolved to transmit to its successors an unsullied inheritance, and to uphold the honor of England and the Queen.

The *Herald's* special from Berlin says: It has been determined at Versailles to continue the bombardment until peace has been declared or Paris capitulated.

Rome has been visited by the severest flood known here since 1530, causing an immense loss of property. The rain lasts 48 hours. The lower city is entirely submerged, and the Florence railway is interrupted.

General Sheridan had a grand reception here last night.

MOVILLE, Jan. 2.—The steamship 'Scandinavian,' from Portland, has arrived.

A Cough, Cold, or Irritated Throat, if allowed to progress, result in fatal consumption. Bronchial affections, Hoarseness and Asthma, BROWN'S BRONCHIAL TROCHES Reaches direct to the parts, and give almost instant relief. In Hoarseness, Sore Throat, Clergymen and Singers use them. Obtain only the genuine Brown's Bronchial Troches, which have proved their efficacy by a test of many years. Among testimonials attesting their efficacy are the following:

E. H. CHAPIN, D.D., N.Y.
HENRY WARD BEECHER, Brooklyn, N.Y.
N.P. WILLIS, New York.
HON. G.A. PERKINS, Ex-Gov. Mass.
Dr. G.F. BOARDMAN, Boston.
PROF. EDWARD S. FOLLEN, N.Y.

Purchase only the genuine and observe the name. Sold everywhere at 25 cents per box.

"Troches," if called, sold by the ounce, are a poor imitation and nothing like Brown's Bronchial Troches which are sold only in boxes with fac-simile of the Proprietors.

JOHN I. BROWN & SON,
Boston.

On outside wrapper of box. Will prove Government stamp attached to each box.

The cure is prompt with the Troches; it is important as a test for the purchaser to order Lozenges of obtaining the genuine Brown's Bronchial Troches.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

French Successes.

300 Prussians Drowned.

LONDON, Jan. 3.—A severe engagement in which the French were successful preceded the evacuation of the town of Grey by the Germans. The reports that the German army of the Loire has retired on Gein are apparently confirmed.

The London 'Telegraph' announces on authority that the demands made upon Prussia by the British Cabinet, relative to the seizure and sinking of the English colliers in the Seine are in a fair way of adjustment.

BORDEAUX, Jan. 3.—A portion of General Chanzy's army is now strongly posted near Vendome. Engagements along the Loire for the past week past have all been success for the French. Near Lisbaire 1,200 prisoners were taken by the French. The Prussian column recently lost 800 men by drowning, in attempting to cross the Loire on the ice.

SPECIAL NOTICES.

CAUTION—HYPOPHOSPHITES—FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.—Has preparation is entirely different in its component parts and effects from all other remedies called HYPOPHOSPHITES. The genuine has the name of FELLOWS & CO., blown on the bottle, and is the only article of the kind selling at $1 50 per bottle. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is prescribed by the first physicians in every city and town where it has been introduced, and is a thoroughly orthodox preparation.

Price $1 50 a bottle; 6 for $7 50. Sold by apothecaries and by F. Gundill & Co., wholesale agents, Montreal. d&w1w

Allen's Lung Balsam!

The best remedy for the cure of CONSUMPTION and ALL DISEASES OF THE LUNGS. It causes the lungs to throw out matter to the throat without irritating those delicate organs (the Lungs) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is very pleasant to take, good natured and gives good satisfaction.

The result of its use is the proof of its great value. Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale.

Perry Davis & Son, Montreal, General wholesale Agents for the Dominion. d & w1m

The Last Great Success.

DIPTHERIA CURED.

PAIN-KILLER, for long used with uniform success in curing, Coughs, sudden Colds, Bronchial and Throat affections and so many pains by family use and kept by them as a household medicine, has overcome this terrible disease Diphtheria, and has effected marvellous cures.

Read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Youngtoon, Burmah:—

"My son was taken violently sick with Diphtheria, Cold, Sore Throat, Burning Fever and Sore Throat. I counted one morning ten little vesicles in his throat, very white, and his tongue, toward the roof, just like a watermelon full of seeds; the remainder coated dark as black as a knife blade. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a change, with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and the inward doses so, often covered with blood. He was taken on Sunday; on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, with castor oil and heartshorn for his neck. It seemed to be a wonderful cure, and I can but wish it known to the many poor mothers in our land, who are losing so many children by this dreadful disease."

The Pain Killer is sold the world over by Druggists and Medicine dealers.

Price: 25 and 50 cents per bottle.

Examine the bottle well when purchasing to be sure you get the genuine made by Perry Davis & Son. d&w1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77dw

STAR'S BALSAM OF WILD CHERRY

COUGHS COLDS CONSUMPTION LUNG DISEASES

The American Agriculturist,

Post Free,

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 pages, well printed and finely illustrated, published monthly, and containing a large amount of valuable information in every number.

It will be found of great value and interest to be performed in the Farm, in the Orchard and Garden, in the Dwelling, etc.

It has been the principal feature with which the publishers have labored to make it a welcome visitor to every family.

The contributors for Children and Youth are prepared with special attractions and to hold their readers to habits of active usefulness and to intelligent reading.

The subscription for the American Agriculturist and the Advance (reviewed above) is only $1.50 a year; four copies for $5; eight copies for $10; and any larger number at the rate of $1.25 each; or ten copies and one free to the getter up of the club, for $12.50; twenty copies and one free for $25. Specimens sent free.

ENLARGEMENT
OF THE
THE "GAZETTE."

THE enlarged and improved publication of the Gazette will commence with the first number of the year, 1871, and will be greatly improved in every department. It will be the aim of the Editor to make the Gazette a first-class family paper, and to this end no pains will be spared to secure the best literary matter, and the most reliable and interesting news.

THE EDITORIAL DEPARTMENT

will be under the control of the Editor, and will contain articles on such subjects as may be deemed of the most importance to the farming community, and will be conducted in a manner calculated to benefit the agricultural interests of the country.

THE COMMERCIAL REPORTS

will be carefully prepared, and will be the most reliable reports published. Subscribers may rely upon it that it is the intention of the Editor to make the Gazette the best paper for the money published in the County, and no pains will be spared to attain that end.

THE LOCAL DEPARTMENT

Of the Gazette will receive the careful attention of every member of the staff, and no pains will be spared to render it interesting to every reader. Every item of local news will be carefully collected and published in the Gazette.

THE TELEGRAPHIC NEWS

Of the Gazette is very full, and includes, as usual, despatches from all parts of the Dominion.

TWO Serious Inquiries Answered.

The Liberty of the Press	Latest Local News.
The Interesting Debates in Parliament	Legal and Legislative Intelligence.
The Latest Telegraphic News	Correspondence.

Affording to the reader each morning a complete and connected summary of events throughout the World.

AS AN ADVERTISING MEDIUM

The Gazette may commend itself to any person having any business to advertise, being a paper of large circulation and extensively copied throughout the world.

TERMS OF SUBSCRIPTION.

Payment must in every case accompany the order. The Gazette is published every morning except Sunday, and will be delivered in the City at the rate of $4 per annum, or $1 per month. It will be sent by mail, and will also be furnished to the City and Country Press Clubs, to be issued in a form to suit their convenience.

The Weekly Gazette

Will also appear regularly on the usual day, and will contain all the news that is sent by mail, and a careful selection from the City Daily. The arrangements of the mail service have been so changed that the Weekly will reach all parts of the country in advance of the Toronto papers, and will be mailed to subscribers at 50 cents per annum, if paid in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects ever before here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most powerful of the vegetable kingdom. The Sarsaparillas and other foreign roots yielding their strengthening qualities to the Resolvent, Vegetable Blood, Tissue, Heal, Pulmonary medicine and Invigorant, and combined with the Iodides of the proper seasons, from the native soil, under the supervision of intelligent gentlemen of medical science, employed exclusively for Dr. Radway & Co., so that no spurious substances or worthless roots can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and knowledge of Chemists in this branch alone for the wonderful improvements it has secured to the curative range of Dr. Radway's Resolvent, especially the

SARSAPARILLIAN RESOLVENT,

now so far in advance of any other agents; for none in the history of medicine was such a medicine that so completely purified, built up, repaired, sound to strong, healthy, vigorous, and beautiful without, the least injurious conditions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CLEANSES THE SYSTEM FROM ANY AND ALL
FLESH-MAKING QUALITIES.
It supplies the system with vitality or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouths, Throat and Stomach, Skin and Blood.
It increases the weight and appetite.
IT STOPS ALL WASTING DISCHARGES.
It increases the repairs and diminishes the waste.
It increases the products of decay.
It exterminates the poisons, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Ulcers and Sores.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood, and womanhood when poverty, disease, or illness, are deficient or exhausted.
It cures Leucorrhœa, Whites, and Female Weakness of change of life—cessation of Menses.

To those who seek Health.

There is here a man, woman or child, but suffers from any disease, if their systems are still in a condition to receive nourishment, that does not receive benefit from the use of Dr. Radway's Resolvent, or other vital organs not wasted beyond the process of repair, or tissues not destroyed beyond the regenerative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the vitals and decomposition stopped, and the slowness of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, LIVER or others organs are wasted, ulcerated, and their fine tissue broken down, and secretions altered beyond the regenerative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, be restored to a live perhaps for years; for no matter how low the vital forces may be, if the person can be brought under the influence of the tissue and flesh-making medicine, the results will be greater than the most sanguine would believe. BLOOD WILL RETURN that has lost its strength, purity, and nourishment to enable it to look healthful and clear, and the wasting stop, and the process of decay and decomposition.

CONSUMPTION, SCROFULA, Brighty disease of the Kidneys, Abdominal Stimulus and Ulcers, Female Venereal, are developed through the process of Depositing in the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases will be found in the first stage and will be cured and curedby the use of the Sarsaparillian Resolvent.

WHAT IS THE CHANGE.

A person who has used a single bottle of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary Organs, will perceive a marked change in her health for the better after taking the Sarsaparillian Resolvent. *As the blood becomes more pure, rich, strong, and life-sustaining, and is enabled to hold in solution its natural elements of Albumen, Fibrine, Corpuscules and other elements of disease, decomposition and decay will be dissolved in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper and healthful secretions. Instead of Urine Bile, the Pancreatic Juice and other Fluids being thrown off in the circulation, these secretions will be directed for expulsion from the system through their proper channels. Instead of Insalubrious fats in its system, to correct these secretions, and to enable each organ to secrete a healthy gland in discharging its proper functions, health can never be restored: Sup ply the system with the Sarsaparillian Resolvent. Radway's Sarsaparillian Resolvent secures this important end in the most speedy manner, which the Sarsaparillian Resolvent as advertised as Blood Purifyers.*

No matter how deeply seated or engrafted in the bones, muscles, glands, organs, or tissues disease and corruption may be, the influences of the Sarsaparillian Resolvent will (and it is guaranteed it will) find cure), the strong body with reptiles, will so change the system that the most corrupt matter in the blood will in a minute be dead and decomposing matter, and expelled by the proper channels of living structure, leaving sound by rich, pure, and strong blood, by the Sarsaparillian Resolvent, which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Organ and Gland. Thus it is Made blood, as well as the nourishing, consti tuent in the blood, and its purity, that is imparted when entering in the circulation, it exterminate from the blood every trace of the blood's most terrible diseases, whether caused by the effects of mercurial poison, or strumous disease, or Mercury, Corrosive Sublimate, i. e., the Corrosive Poison, Scrofula, Cancer, Cutaneous, and other agents but very have accumulated in the bones, tissues fibrilla, cartilage, membranes, and other tissues, family complaint that may have run through half a dozen generations.

Scrofula consumption, syphilis, mercurial and badly treated Venereal in its many forms Blood Poison, Disease, Ulcers, Sores, Mouth, Tumors, Boils in the glands an other parts of the system, Sore Eyes, Catarrh, Discharges from the Ears, and the worst forms of Skin Diseases, Erysipelas, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Blotches, Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all wasting and painful Urinary Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it the editor of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Stricture and all Diseases of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy and Dropsical Swellings, are rapidly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Desmarteau, Esq., Collector of Customs, Beauharnois, Canada East, had for nine years TWO LARGE ULCERS on his thigh, the other on his leg. He has at tended all kinds of medicine and the skill o the most celebrated physicians in Montreal and parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, and with Radway's Pills and Ready Relief. He used only three bottles of the Sarsaparillian Resolvent, and a few boxes of Pills and Ready Relief, as a lotion, a wash of the Ready Relief and Sarsaparillian Resolvent internally. The sores which completely cured him. Here is a man th, has proved a great benefit to himself and family for nine years, and cured at a cost of less than $2.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of W. River, owner of nearly half the town, had a running sore on the side of Mills. Holds Ale, and had his knee of large of poor medicine. He can send 15 years. He covered his body, and for $6.00 a bottle of Sarsaparillian Resolvent, and he was entirely well. Also cleaned object I ever saw. At my request he was put under the treatment of many who have been of Sarsaparillian Resolvent, Ready Relief and Pills One month's use of them on returning home, he told his father, who then told me that his son was completely cured. A host of many who have been cured of Sore Throat, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with our boxes of Pills and a Vial of

SARSAPARILLIAN RESOLVENT

WINDSOR STATION, QUEBEC, CANADA EAST,
March 11, 1869.

DR RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep. A bout the fifth dose I was cheerful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued the use of bottles and now all signs of sickness, disease and threatening Consumption have left me entirely. I am perfectly cured. JONATHAN FREELAND.

N B.—The gentleman was not known to have been under the treatment of the best physicians in Canada—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent.

MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,
439, ST. PAUL STREET, MONTREAL

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old prices of $1.50 per day will not be departed from. We, therefore, do not ask for custom on the score of cheapness, but we do speak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS.

(1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

This always leads in the matter of boldness to commence in its pages whatever is useful, whatever is pleasing, whatever is pure, dignified, and virtuous in sentiment, with whatever may adorn rational minds and cultivated taste. For its literary department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to do so during the year 1871. Such names as

MARION HARLAND, IRA CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. OLNHSON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK contains fourteen each year superior to the challenge engravings usually published in this country, often in book of 4 periodical.

COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXCELLENT PATTERNS.—We give frequently a pattern almost every number, sometimes covering twenty-four, and sometimes only designs in embroidery.

ORIGINAL MUSIC—four, five or six pages of music, which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—Also in this are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH DEPARTMENT.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Nursery, Kitchen, Toilet, Parlor, etc.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 00
Four copies, one year,	10 00

Godey's Lady's Book and an extra copy to the person getting up the club, making six copies,

F. PAPINEAU.
Belleville, Oct. 17, 1870. 148tf

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. In scrofulous cases of Scrofula its discipline, where the system is seconded, saturated with scrofulous corruption, has been purified and cured by it. scrofulous contamination until they were chiefly all—the have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, its unseen and unfelt forces of the system corrupting the blood, undermine and invites the attack of other fatal diseases, and is constantly sapping the foundations of life. Hereditary taint, transmitted from parent to child, through the whole family, or from one generation to another, through many successive generations, is more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Liver Complaint, Kidney Disease, Rheumatism, Ulcerous* affections of the mucous and nervous systems.

Ayer's Sarsaparilla and Mercurial Diseases are cured by it, though a long time is required for the full eradication of the disease. If taken faithfully and long continued use of this medicine will cure the most obstinate. *Scrofulous Sores, Old Ulcerations, and Female Diseases*, are commonly rapidly relieved, and always by this powerful, purifying and invigorating effect. Minute directions for each case are found in our Almanac, published gratis. *Rheumatism* and *Gout*, when dependent on humors in the blood, are always cured by this remedy, which expels the poisons that cause the disease. *Neuralgia*, or *Tic Doloureux*, and *Syphilitic* affections of the bones, are also cured by it. *Erysipelas, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or ulcerations of the skin, are literally driven out by it. *Tumors, Boils, Carbuncles, Blotches, Pimples, Blood Poisons*, and all diseases arising from impure blood, are thoroughly eradicated by it. *Pimples, Blotches, Blood Poisons*, and all diseases arising from impure blood, are thoroughly eradicated by it. *Pimples, Blotches, Blood Poisons*, and all diseases arising from impure blood, are thoroughly eradicated by it.

Long Life Secured.

Let every woman resolve on the critical period passes in safety who uses Ayer's Sarsaparilla. Remember, and no sickness ensues from its use. Let this advice be heeded by every one of the thousands who are suffering from the ills to which flesh is heir, and health will be restored.

ALL FEMALE DIFFICULTIES,

from the earliest stage of female derangement from Retention, Suppressions, Irregularities, Incontinence, Hemorrhages or Whites, to the last stage of Prolapsus or Falling of the Womb, Ulceration, Inflammation, Bearing-down Pains, Scirrhus or Cancer, Neuralgia, Hysteria, Hypochondria, Blues, Hysterics, Sick Headache, Nervous Prostration, Debility, Spasms, Fits, Epilepsy, and all Nervous Affections, are controlled and cured by the use of Sanford's Extract of Sarsaparilla. Let no woman suffer herself to be deceived by any of the numerous compounds of Sarsaparilla, which, while they contain little or no curative power, are sold on the reputation of this. Ask for Sanford's Extract of Sarsaparilla, and insist upon having it. Sold by druggists everywhere.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything been so widely and deeply upon the confidence of mankind, as this excellent remedy for pulmonic complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in the estimation of the people, as its better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to the severest forms of disease, it is equally efficient at the same time the most effectual remedy that can be given for the milder varieties of pulmonic complaints, and the patient restored to sound health by the use of *Cherry Pectoral*. Consumption is known to prey the disorders of the Lungs and Throat, that the most obstinate of them yield to it. Many a dying case would reach them under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chills and Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not, like Quinine, palliate neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous drug is used in it, however, in the substances which are calculated to destroy the number and importance of its cures in the autumnal months, when Fever and Ague prevails, believe without a parallel in the history of Acne medicine. Every trial it has made in the most distressing cases of the radical cure effected, is obtainable cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through, miasmatic districts, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints* arising from disordered action of the Liver, it is an excellent remedy, stimulating the liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is the best remedy known, and has performed wonderful cures where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold by all druggists the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' Musical Monthly. It is issued on the first of each month, and gives all the new and best music of the day. Music from each year-issue, PETERS' Kosket, Bishop, Thomas Banks, Foster, Winner, Root, Perkins, Hyland, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper, full size, from full music plates every piece of which is after wards put in sheet form, from the same plates, and sold for not less than 30 cents each, and all we ask for this valuable Magazine is 3 cents a copy or $3 year, $1.50 for six months, and we guarantee to every yearly subscriber at least $25 pieces of new music, or $3 per year.

We do not PETERS' MUSICAL MONTHLY to pay us, but because we give too much music for the money. It is in small supply to introduce our new music to the musical world. Our subscribers will pay and like the music we give them. Their musical friends hear the music they like in sheet form from their music dealers, and will ask for it. It is published at the Mammoth Music store, 1306 Chestnut St., Phila. New York, where every thing in the Music line can be had. Please send for our new 1870 catalogue, which is promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH. For 1870. $1,500 CASH.

A VALUABLE PREMIUM FOR ALL.

THE most widely illustrated weekly journal of POPULAR SCIENCE, MECHANICS, NEW INVENTIONS, RAILROADING, AGRICULTURE, HORTICULTURE, and the kindred arts. Fifty-fifth year of the best of January, one circulation far exceeding that of any similar publication.

EDITORIAL DEPARTMENT of the ablest. American writers very conclusive, and none but the most reliable practical information will be found here. Every number has 16 superb pages and numerous original engravings. Terms for 1870: $3.20 a year by mail. Discount to clubs. Liberal inducements to canvassers. Send for circulars. Patents are obtained for inventions by MUNN & CO., who conduct the largest practice before the Patent Office. Their Handbook about the Patent Laws, Patents, Caveats, Trade Marks, Copyrights, etc., sent free. Address MUNN & CO., Publishers, 37 Park Row, New York.

A MILLION READERS.

Whoever reads the Scientific American is entertained and instructed by its contents. It is the best paper of its kind in the world.—*Boston Journal.*

MEN OF PROGRESS—AMERICAN INVENTORS will find in the SCIENTIFIC AMERICAN a complete history of *NEW INVENTIONS.* The Publishers of the SCIENTIFIC AMERICAN possess the most Extensive Patent Practice in the world, and have unequaled facilities for obtaining Patents in the United States, England, France, Germany and other countries. Inventors who have made their discoveries, and examiners in the Patent Office, are employed in this establishment. Inventors who have made their discoveries, and want to know whether they are patentable or not, should write to us, and send a sketch or model. Our charges are moderate. We make no charge unless we obtain a patent. We advise inventors whether they can obtain patents or not, free of charge. Patents are obtained on the best terms. A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this Agency, with the name and residence of the patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often effected. Any person who has made a new discovery or invention can ascertain, free of charge, whether a patent can probably be obtained, by writing to the undersigned. We also send free our Hand Book about the Patent Laws, containing full directions how to obtain patents, with cautions and suggestions which may prevent the ruin of the inventor. Models of new inventions and sketches should not be sent until after writing to us. All correspondence is strictly confidential. Address for the paper, or concerning patents, MUNN & CO., 37 Park Row, New York.

TO INVENTORS AND MECHANICS

The Publishers of the SCIENTIFIC AMERICAN have had large experience in procuring patents for inventions in the United States and Foreign countries, and will be happy to confer with inventors in regard to the novelty of their improvements, and to inform them how they may proceed to obtain their rights. A handsomely illustrated weekly paper, containing the names and residences of all persons who have taken patents during the week, and a brief description of the principal new inventions. Terms for Scientific American, one year three dollars; six months, one dollar and a half. Specimen copies sent gratis. To Clubs of 10 and upwards, terms two dollars each per annum. Address all letters and remittances to the Publishers

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or the business that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most elegant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that could be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be non-exceptionable, and no pains will be spared in ministering to the comfort of guests in the prop ietory, having leased the adjoining premises, are prepared to offer every inducement to the Sirling and Fair Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of the public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THE splendid weekly, greatly enlarged and improved at the commencement of its new volume, presents forty columns every published. Every number contains fifty original practical articles, including a popular record of the progress of Science and Industry. Illustrations, Descriptions, and Explanations of New Discoveries, Inventions, Implements, Processes, and Trades, with Engravings, numerous and costly.

Every Department of Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and People of all Trades or Tastes will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save many times the cost of a year to thousands. Workshop and Factory are never closed, therefore the Scientific American is always needed to post them. The following are some of the many subjects discussed in the Scientific American:—Reports of all the leading scientific and mechanical journals of the world, the contents of which are carefully examined, and the most interesting facts noted with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumens of nearly one thousand pages, equivalent in size to nearly four ordinary books, containing more reading matter than many costly works.

Terms—$2 a year; $1 half year; clubs of Ten Copies for one year, at $1 50 each; $15 with a fifteenth premium to the person who forms the Club. Specimens sent free. Address MUNN & Co., Publishers of the Scientific American, 37 Park Row, New York.

The best way to remit is by money order, payable to order of MUNN & Co., 37 Park Row, N. Y., who have had forty-five years experience in the business, and have the largest establishment in the world. Patents are obtained on the best terms. A pamphlet, containing full directions how to obtain patents, sent free. Address as above.

For instructions concerning American and European Patents, Caveats, Rejected Cases, Hints on Selling Patents, Rules and Precedents of the Patent Office, the new Patent Laws, Examinations, Decisions, Extensions, etc., etc., send for Instruction Book, which will be sent free on application. All business strictly confidential. Address
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

REMOVAL
TO THE
NEW BLOCK.

Henry Rosenberg,

BEGS to announce that he has removed to the NEW BLOCK, on the site of the
OLD STAND,
opposite the Wood Market, where he will be happy to see all his old customers and the public generally, and exhibit to them one of the finest and best assorted stocks of
GOLD & SILVER WATCHES,
CHAINS, JEWELLRY,
Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.
All goods warranted what they are represented to be.
All kinds of jobbing and repairing done promptly and at moderate rates.
Call and inspect the Stock before purchasing.
H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.
C. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to aporise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all else that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep themselves aware of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies who desire one useful and desirable as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best paper periodical that we know.

It is far more complete in its departments than any other in fashions, new, unique designs they are each and every one, and also, solid copies of French and German models.

It gives each every number full-sized patterns, which supply, during the year, a library any lady needs for the cutting of her own and children's wardrobe.

It is always highclassed, and its contributors include some of the best writers in the country.

Its *Ladies' Club* affords valuable and useful information on every subject.

It is the best medium for the utilities and ornaments of the household; the best magazine for literature, music, fashion plates, and other topics interesting to ladies; all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

Helps offers a large and magnificent Parlor Steel engraving, 25 by 30 inches, entitled "The Poet in the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Miss M. Spencer, and, besides the cop, right cost over seven hundred dollars, and as we ordered by artists to be the most perfect and beautiful steel engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums more than a hundred, for the inducement to secure subscribers, post free, and extraordinary premiums for clubs.

Subscription price, $2.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.
Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, so essential to the best interests of Canada's agricultural and horticultural resources and progress, needs and will fully sustain a first-class weekly publication, devoted to interests of the farm and garden.

The ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, whose universally acknowledged ability as a practical writer in the Journals and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Wood and Hon. Geo. Brown, Buckland, Hon. D. W. Allan, Mr. W. Edwards and other eminent contributors have written for the Ontario Farmer, and no pains will be spared to render its continued success one of the most interesting agriculturists and horticulturists, in adding variety and importance to contents.

During the coming year engraved portraits of prize animals at the annual Provincial Exhibition, with from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those unsurpassable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Horticulture, the promotion of Arts and Manufactures, and as during the past year, each subscriber will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers seed-merchants, nurserymen, dairymen, and others, is invited to the *Ontario Farmer* as a most desirable advertising medium. Terms—six cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements. Non-subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 336 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies in Clubs of any number, at Seventy-five Cents each, free of postage.

GENERAL CLUB RATES FOR 1870.
Clubs of 6 subscribers, - - - - $ 4.00

Song of the Sewing Machine.

BY THE EDITOR OF THE "GOLDEN RULE."

Tow Hoon made the world to sigh,
When the "Song of the Shirt" was his theme,
I doubt if there's many will cry
O'er the song of the Sewing Machine.
Alas! for the poor white slave,
In poverty, hunger and dirt,
Stitching a shroud as well as a shirt!

Stitch! Stitch! stitch!
When the sun was unclouded and bright,
And stitch-stitch-stitch,
When the lamps on the street were alight,
Seam and gusset and band,
Band and gusset and seam,
The graveyard washed by the needle and thread,
Ere the birth of the Sewing Machine.

Whir! whir! whir!
A change in music—hurra!
Whir-whir-whir,
The Sewing Machine's under way.
Seam and shuttle and wheel,
Wheel and shuttle and seam, [fly,
And the needles, my eye, how the fairy things
And the lines run off in a stream.

Work! work! work!
As spry as a 2-20 team,
And work-work-work,
As the shining part by steam;
And you look for the boiler below,
But that only shows you are green,
For the hand of the fay of to-day,
Is the power of the sewing Machine.

Work! work! work!
It works without wailing to tell,
It never gets weary nor sick,
And it never goes out for a walk,
Its tectotal record is clear;
It never fails fast days to keep [Dear,
Nor grumbles, how queer, that bread should be
While Sewing Machines are so cheap.

You may tell of the advent of spring,
How the measure's flowers are drest,
How the robin has woke up the wings,
And the swallow is building her nest.
The fields may be glowing or gay,
The song-birds make voice the bowers, [full,
If there's thread on the spool, and the oil flask is
It needs not for music our flowers.

Work! work! work!
When the summer has come and sped,
And work-work-work,
When the harvest moon lights up the glade,
And the fields are all hoary with frost,
And the orchards in gold are arrayed,
And in gorgeous attire that rustling a dress,
The forest-trees hold most aerial.

Stitch! stitch! stitch!
Till the wearied one lay on the bier;
And the song of the fairy, with a dolorous pitch,
Like a dead-march fell on the ear.
Whir! whir! whir!
A ride little minute I ween,
Yet sweeter by far, then tute or guitar,
Is the voice of the Sewing Machine.

O! maids who have chanteys to exam,
O! men who make trees o'er to turn,
Come see how their life machinery,
Will save you a world of work.
Have done with your sewing by hand,
It makes you both fretful and pale (health,
If you wish to get wealth, and to husband your
You must purchase a Sewing Machine!

Death of Gen. Prim.

It has not, unfortunately, been the fate of General Prim to witness the completion of the project to secure the occupation of the throne of Spain. He has fallen a victim to the bullets of the assassins, and the Spaniards are called to mourn the death of one of their chieftains while they are yet shouting an enthusiastic welcome to their new and youthful King. The wounds inflicted when the General was leaving the Cortes have proved fatal, and he died on Friday night, after a strange and eventful career.

General Prim was born at Reus, in Catalonia, on the 6th of December, 1814, and was therefore a little over fifty-six years of age. In the civil war which took place when Isabella was declared Queen he was devoted to the Regent and Queen-Mother, Maria Christina, and won by his bravery the rank of Colonel. This was in 1837, and after the flight of Regent he opposed the Dictatorship of Espartero, joining for that purpose the Progressistes. He was accused of complicity in the insurrection of Saragossa in 1843, and, taking refuge in France, again became an adherent of Carlistus. Barcelona chose him as deputy to the Cortes in 1843, when he returned to Spain. He continued to oppose Espartero, and headed an unsuccessful insurrection in his native city, Reus. Espartero went out, and the prospects of Prim became brighter. He was elevated by the Queen-mother, grateful for past services, to the rank of General, was made Count of Reus, and Governor-General of Madrid. He did not long enjoy these honors, being disgraced by the Queen for the suspiciously dilatory manner in which he endeavored to quell a Catalonian insurrection, and tried for high treason and complicity in an attempt to assassinate Varyaez. He was adjudged guilty of high treason, and sent to prison for a few months, but acquitted of knowing anything about the assassination. Nothing more was heard of him until the outbreak of the Russian war in 1853, when he appeared as a soldier of fortune with Omar Pasha on the banks of the Danube, where he added considerably to his military reputation, especially in the engagements of Silistria and Oltenitza. He returned from the East in 1856, and was received with much enthusiasm, returned from his experience in the Turkish army. For the next four years he was performing legislative duties as well, and was made a Senator. He won considerable distinction in the campaign in Morocco, where he commanded a division, and for his services was created a Grandee of Spain and Marquis of Castillejos. He was appointed to the command of the Spanish portion of the allied expedition against Mexico in 1861, but on arriving at Vera Cruz in the earlier part of the next year, a disagreement occurred, and Prim withdrew the Sp

the future, and he found this far more difficult than wielding a sword under the crescent, or putting down an incipient Carlist rebellion. In the management of political affairs in Spain, after the flight of Isabella, Prim must be credited with patriotism, want of selfishness, and considerable statesmanship. In conjunction with Serrano and others, a Provisional Government was established until a suitable King should be chosen, it having been decided that the monarchical form of Government should be continued. The deplorable consequences that followed the negotiations with the Hohenzollern Prince need not here be referred to. Turning to the ill-use of Savoy, a Prince was found who would accept the crown and all its responsibilities. It is to be hoped that this wretched murder will not be an unfavorable omen for the seemingly fortunate and distinguished career just opened to Amadeus. It is singular that not one of the six men who are said to have taken part in the assassination have been arrested, and it is reported that they have escaped. The cowardly crime should have the most severe punishment, and it is not improbable that the assassins will yet be made to suffer.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4.00 A. M.
" 4 Express	6.20 "
" 8 Mixed	9.45 "
" 2 Express	6.15 P. M.
GOING EAST.	
No. 1 Express	11.10 A. M.
" 7 Mixed	2.40 P. M.
" 3 Night Express	12.25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, JANY. 4.

COURT OF REVISION.—A meeting of the Court of Revision for the winding up of affairs, will be held in the Town Hall tomorrow night at 7 o'clock.

CANADIAN SOCIETY.—A meeting of the Native Canadian Society will be held at their meeting room, Coleman's Hall, tonight, at 7½ o'clock.

TOWN COUNCIL.—The last meeting of the old Council will be held on Friday night, instead of Monday night, as formerly appointed.

THE MAYORALTY.—The official declaration of the result of the election for Mayor was made at the Town Hall at noon to-day. Mr. Holden was declared duly elected by a majority of 71.

SCIENTIFIC AMERICAN.—We have received the New Year's number of this valuable scientific weekly, which is the leading publication of its class in America. The prospectus, which see for terms, etc., will be found in another column.

BILL STAMPS.—The sale of bill stamps has been changed from the Post Office Department to the Inland Revenue, so that parties wanting bill stamps will find them at the Inland Revenue Office, Front Street.

WORKINGMEN'S TEMPERANCE ASSOCIATION.—The following members were elected as the staff of officers for the Workingmen's Temperance Association for the ensuing quarter:—R. Tannahill, P.; John Addison, 1st V.; W. H. Dame, 2nd V.; Joshua Cornelius, R. S.; John A. Macinnes, F. S.; James Macoun, T.; John T. McCreary, C.; John Cook, A. C.; C. Tuite, Warder.

CANADIAN ILLUSTRATED NEWS.—This week's number of the *Illustrated* contains several very good illustrations, the best of which is the meeting of the Presbyterian Synod in Montreal. There are also views of Albert College, Belleville, and the Penitentiary, Kingston, which, together with several other illustrations and a large amount of excellent reading matter, make up a capital number.

DRAMATIC.—The Nellie Nelson Burlesque and Sensation troupe is announced to appear at the Masonic Music Hall to-morrow (Thursday) night. As most of the members of the company are old favorites here, having performed in this place at various times under different managers, it is unnecessary to say much in their praise. They have lately been performing, with success, in the State of New York and in other places east. The pieces to be presented to-morrow night are the sensational drama of "Lost in London" and the laughable farce of "Crossing the Line."

PAINFUL.—It was a pitiful, and painful sight to see, last night, a little boy, of apparently from 10 to 12 years old, leading his drunken father home down Front Street. Ever and anon the man would roll heavily from side to side, dragging the little fellow after him and almost loosening his hold of his parents coat, to which, however, he clung with affectionate tenacity. When last seen, they were in a homeward direction disappearing with many a lurch on the part of the man.

HEARTH AND HOME.—With the commencement of the year a great improvement has been made in this always well conducted and popular journal. The size has been enlarged to twenty pages, and the publishers promise still greater exertions to please their readers in future. The illustrations are fine specimens of the wood cutter's art, a fine portrait of Garibaldi being especially commendable. Orange Judd & Co., publishers, 245 Broadway, New York.

Township Elections.

TYENDINAGA.

We have received the full returns from this Township, and they are as follows:

For Reeve—John White, 464; Thomas Deasy, 132. For Deputy Reeve: Donald Anderson, 380; William McLaren, 348; Charles Hudson, 272. For Councillors: Jacob Eaton, 451; Andrew Denike, 320; James Meagher, 300; John Skelly, 169; Benjamin Allison 95. The Council therefore consists of John White, Reeve; Donald Anderson, and William McLaren Deputy Reeves; Jacob Eaton and Andrew Denike Councillors. Mr. Deasy retired at noon.

RAWDON.

In the Township of Rawdon the contest was between the old Reeve, Geo. Couley, and Andrew Glass, and resulted in the election of Mr. Glass by six majority. The vote at the close stood, Andrew Glass, 219; Geo. Conley, 213. For Councillors, James Cook, 267; Samuel Bailey, 237; Joseph Dock, 237; John Stewart, 230; Samuel Vandevoort, 212. The Council for 1871 is, Andrew Glass, Reeve; Thomas Walker, Deputy Reeve. Messrs. James Cook, Samuel Bailey, and Joseph Doak, Councillors. Mr. Walker was elected Deputy Reeve by acclamation.

HUNTINGDON.

The Council for this year consists of Thos. Emo, Reeve; James Findlay, John R. Sills, Matthew Robertson and Richard Newton, Councillors. The vote stood at the close of the poll; Thos. Emo, 158; Henry Ostrom, 87; Matthew Robertson, 179; John R. Sills, 173; James Findlay, 151; Richard Newton, 130; John Wood, 69; John Ashley, 56; James Foster, 47; and Geo. Graham, 39.

AMELIASBURGH.

The election in Ameliasburgh resulted in the return of William Anderson Esq., M. P. P., Reeve. The vote was: Anderson, 286; Roblin, 241; majority for Anderson 45: Deputy Reeve; Reuben Young. Messrs. Wm. G. Stafford, F. J. Osborne, and James M. Squier, Councillors.

SIDNEY.

Baltus Rose, Reeve; John Rowe and C. Armstrong, Deputy Reeves; Robt. Grass and Jas. A. Chisholm, Councillors.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 4th.

VAGRANCY.

Mary Long, one of the old customers at the bar of the Court, who had been liberated from *Instance sits* this morning, was brought up on the usual charge and sent back to Mr. Meyers' for 60 days.

FAST DRIVING OVER THE BRIDGE.

Thomas Comelford was charged by the police with driving over the upper bridge faster than a walk. The case being found proved, a fine of $1 and costs was imposed.

FURIOUS DRIVING.

Robert McCrudden was charged with furious driving on the streets. In defence it was shown that the horses had started to run and that the driver was attempting to hold them. This being the case, the Magistrate dismissed the complaint.

Two other cases were laid over till Monday.

Sir Stafford Northcott.

Sir Stafford Northcott, speaking recently of Canada, said there was a very strong feeling in Ontario against annexation, and in his belief, no other portion of the Empire was of greater value to England. He hoped soon to see Canada's resources largely developed by the completion of the great railway system now in progress. 'Canada' said he, "is invaluable, few countries offering such advantages." One of the Washington reporters has been interviewing General Schenck, the new Minister to England. He thinks that Great Britain is much annoyed at the conduct of the Canadian authorities in the fishery business; and that England would gladly relinquish her possessions on this continent if anybody had courage enough to "bill the cat." It is his opinion that something more than dollars and cents will be required to consummate the settlement of the Alabama claims, and hints that England will be asked to give the Americans the full right of the St. Lawrence and fishing privileges as indemnity for her share in the destruction of American shipping by rebel cruisers. The General has not received his instructions yet, but thinks they will allow him a fair margin for his own discretion in advocating the claims of his Government.

News Condensed.

—Judge Torrance, at Montreal, lately fined several jurors $20 each for intemperate at Court.

—Mr. Rollo Campbell, the oldest printer in Montreal, died yesterday, at the age of 67. For many years he was publisher of the *Pilot*.

—The steamer *Robert N Lowe*, which arrived at St. John's, Newfoundland, on Friday evening, short of coal and provisions, will leave today to continue to watch for favorable weather to grapple for the broken Atlantic cables.

—During the first eleven months of this year the sales of salt at Goderich, Ontario, amounted to 131,000 bbls. It is expected, says a local journal, that 250,000 bbls. will be got on in market in 1871.

—Rome has had forty-eight hours of continued rain, and the rivers are overflowing with the rushing angry flood, which is submerging all the lower part of the "Eternal City." The destruction of property will cost a considerable sum. The "oldest inhabitant" has no recollection of a more destructive flood, and it is asserted that there has been nothing like it since 1530.

School Trustees.

TUESDAY, Jan. 3.

A regular meeting of the Board of Common School Trustees—the last of the old Board—was held in the Town Hall tonight.

PRESENT.—Messrs. McAnnany, (Chairman) Wensley, Glass, Sawyer, Tennant and Falkiner.

The minutes of the previous meeting were read, approved and signed.

A communication was read from Miss Scarlett, resigning her position as teacher in School No. 2.

Applications for the vacancy in School No. 2 were read from Misses Lucetta Morden and Lavina E. Hogle, and for No. 5 from Ellen Leech and Bessie McKay.

Several accounts were presented and referred to the Finance Committee, who forthwith reported, recommending their payment.

The report was, on motion of Mr. Glass, seconded by Mr. Sawyer, adopted.

The Local Superintendent's quarterly report was then read as follows:—

To P. McAnnany, Es., Chairman of the Board of Common School Trustees.

SIR,—I beg to report for the information of the Board, that I have held the statutory examinations of the Common Schools for the quarterly term ending December 31st, as follows:—

Friday, December 16th, School No. 1, Prof. J. Macoun, teacher. This School I found on the day of examination, as on every other occasion on which I visited it, in excellent order, the children quiet and attentive, and the teacher assiduous in the discharge of his duty. The examination of the school was very pleasing. The pupils, considering the tender age of most of them, were well advanced in their learning, and thoroughly grounded in the lessons they had been taught. The average attendance for the quarter is 81.17.

Wednesday, December 21st, School No. 3, Mr. Stephen Pashley, teacher, Miss Rankin, assistant. In the junior department this school is very full, and the children apparently making sufficient progress. In the senior department the attendance was very thin, there being only about 23 pupils present. The reading and spelling of the senior classes in this school was particularly good, but the pupils did not exhibit an equal degree of advancement in their other studies.

Thursday Dec. 22nd, School No. 4, Mr. Wm. McKeown, teacher, Miss G. Urquhart, Assistant. I visited the junior department of this School first, and found Miss Urquhart with 65 scholars of tender age, in the basement story of the old hospital building. The room has no ceiling; nothing but the bare joists and the flooring boards to separate it from the room above, so that the shuffling of feet in the upper room, especially during the change of the classes, must be a great annoyance to the teacher, and a serious impediment to the advancement of her scholars. In my opinion, Miss Urquhart deserves great credit for the amount of knowledge she has managed to impart to her pupils, under circumstances of such disadvantage and discouragement. I have to request the Trustees to furnish for her use a series of "Lesson Cards," the want of which she feels very much.

The pupils in Mr. McKeown's classes, by the manner in which they went through their exercises in reading, spelling, the definition and derivation of words, arithmetic, grammar and geography, gave evidence of careful and efficient labor on the part of the teacher, and industry and attention on the part of the scholars. As in No. 1, the writing is scarcely up to the level of the other branches.

There were 57 scholars present in this department, being a total of 122 for the whole. The general average of the school for three months is 139 73.

Friday, Dec. 23rd, School No. 2, Mr. N. Vermilyea, teacher, Assistants, Misses Templeton, Ostrom and Scarlett. The examination of this school occupied the whole day, from nine o'clock in the morning till after five in the afternoon. Commencing with the junior (Miss Scarlett's) department, the examination of these little pupils was exceedingly interesting, from the readiness and accuracy with which they answered the several questions addressed to them by their teacher and myself. Miss Scarlett's method and manner seemed well calculated to arrest the attention and win the confidence of the children, never retaining them so long upon one subject as to allow them to become tired of it, and never permitting them to sit idle, but while engaged in teaching one section of the class, giving the other a few simple words, or the letters of the alphabet on the black-board to copy in the meantime. And really it was very pleasing to see how correctly, neatly, and even elegantly some of these small children could copy the forms of the letters on their slates.

The classes of Misses Ostrom and Templeton also showed indications of good and careful teaching, concerning which I shall not at present enter into particulars. The examination of Mr. Vermilyea's own classes afforded me much satisfaction, though from the more advanced age and longer attendance at school of many of the pupils, I was prepared to expect, and exact more from them than from their juniors in the other schools. The writing in this school is a specialty, being fully up to the degree of proficiency of the other branches. Several of the female pupils also read some pieces of poetry in a very pleasing manner. After the examination was concluded, I had the pleasure of presenting several prizes, given by Mr. Vermilyea and Misses Templeton and Scarlett to their pupils for "general proficiency," "good conduct," and "regular attendance." I may also mention that the pupils presented Mr. Vermilyea with several volumes of poetry, and an address of gratulation, and a similar address, with a beautiful writing desk, to Miss Scarlett.

The prosperous and efficient state of this School is largely owing to the excellent accommodation the Board have provided, the separate class rooms isolating the classes from each other, and relieving the teachers from everything that might disturb their minds, or divert their attention from the work in hand; while the arrangement of the galleries enables them to overlook all their pupils at once. The number of scholars present in the several departments was as follows: Miss Scarlett, 63; Miss Ostrom 68; Miss Templeton, 67; Mr. Vermilyea, 60; 257 in all, while the general average is 250 258.

I am sorry to report that in general very little interest is taken by the parents and friends of the scholars, in the examinations. At No. 4 school about six or eight persons were present. At No. 5 about the same number. At No. 3 perhaps a dozen attended, and at No. 2, myself alone. At No. 2, *in the afternoon*, a large company were present. I shall therefore, provided the Board approves, hold the examinations in future in the afternoon, as many persons cannot leave their domestic occupations to attend a forenoon's examination, who might probably be induced to attend in the after part of the day, and from opinion that it would not be decidedly, both on the teachers and children, if a greater share of attention could be excited in the public mind towards our schools.

The recent date of my appointment prevents me from giving a comparative statement of the progress of the schools during the past three months.

In conclusion I think I have good grounds on which to congratulate the Trustees on the general efficiency of the schools under their management. The scholars exhibit an encouraging degree of proficiency, the teachers are earnest and industrious, and anxious to promote the mental and moral improvement of the children under their care. If some of them have not fully attained the results at which they aimed, I am satisfied that it is not from any wilful negligence on their part, but because they are perhaps themselves deficient in some point of method or of manner, which neutralizes their efforts, and impedes the progress of their pupils. I shall endeavour to be much among them, to give them such assistance and advice as close observation may suggest, and experience enable me to give.

I have the honor to be Sir,
Your obedient servant,
JAMES BELL,
Local Superintendant C. S.

Belleville, Jan. 3rd, 1871.

The Chairman said he was glad to learn that all the Schools were in so satisfactory a condition. The suggestion regarding the holding of the examinations in the afternoon would no doubt be carried out by the new Board.

On motion of Mr. Sawyer, seconded by Mr. Glass, the resignation of Miss Scarlett was accepted.

Mr. Sawyer moved, seconded by Mr. Glass, That Miss Lucetta Morden be appointed teacher in School No. 5.—Carried.

Mr. Tennant moved, seconded by Mr Wensley, That Miss McKay be appointed Assistant Teacher in School No. 2, at a salary of $350 per annum.—Carried.

The Chairman then said as it was not probable that all the members of the Board would meet again, he would take occasion to thank them, singly and collectively, for their courtesy on all occasions during the past year. It, possibly, he had occasionally erred in ruling, for all men were fallible, they should attribute it rather to an error in judgment than to any bad intention. He would now invite the members of the Board, the Superintendent, and the representatives of the press, to join him in a supper of oysters.

These remarks of the Chairman were received with loud applause, after which the Board adjourned *sine die*.

Living in Canada vs. United States.

A correspondent in Kingston, signing himself "Veritas," sends the following to the *Globe*:—

SIR,—After a residence of twelve years in the state of New York, before, during and after the war, I left the United States for England, my native country, in search of a more congenial climate, and these little *creature* comforts we English more than any other people pine after. In my absence of two years ramble over England, Wales, France, &c., I found that those countries were quite as expensive, if not more so, than the United States, in spite of her fearful taxation, and that consequently my income (being a limited one) would not suffice to support my little family. I borrowed from a friend £75, and sailed immediately for Canada West, and on referring to my account book, I find at the end of a year I shall have repaid £10 of the loan I am in possession of, £30 worth of furniture, besides having lived in comparative luxury. In this city (Kingston) the necessaries of life are 50 per cent. lower than in any other part of Europe. In rural districts in England we pay 7d. and 9d. for meat, 1s, 3d. and 1s. 4d. for butter. In Kingston, the best market in the Dominion, we buy excellent beef for 3½c. per lb.; pork 6c and 7c; butter, 22c. The immense advantage of Canada over the United States, in my opinion, consists in the additional safety of life and property, of being able to procure all the necessaries and luxury of any European city (which you cannot in the United States,) of having your own Church to attend, and lastly, the great *desideratum* of living under a government that all true Englishmen Canadians prefer, (and very properly so) to a foreign one. The Americans, as a people, will compare favorably with any nationality, but my experience has satisfied me there is no country so foreign to an educated Englishman as the United States, and no country where prejudice exists so intensely against England and her people, and finally, no country so prejudicial to the moral principles of young persons.

A correspondent of the Sarnia *Observer*, who writes from Campaign Co., Ill., says: "Indvise those who have good homes in Canada to stay in them. Land here is getting so high in value that it is out of the reach of all but those who have plenty of money; and from what I have said in reference to the high rates of interest paid for money, it may easily be guessed most of the people are free from that of that commodity. I came here because I thought the soil was good, and that, being farther south and west, the climate would be better; but if it is milder, it is not near so healthy as in Canada. In winter the heat of the sun thaws the snow more or less every day, making it sloppy and uncomfortable for the feet, and in summer it is so strong that it is very weakening. I have hardly ever met with a Canadian in this country, but say he would rather be in Canada than here, as it is almost universally admitted that the advantages are more than counterbalanced by the drawbacks.

'Paddy, my boy,' said a gentleman to an Irishman, whom he observed fishing away at a favorite stream, 'that must be a fine stream for trout.' 'Faith, and it sure must be that same; for I have been seen standing here this three hours, and not one of 'em will stir out of it.'

A PERPLEXED FRENCHMAN.—A Frenchman said to an American, "There is you word in your language I do not comprehend, and all ze time I hear it. Tattleto, tattleto—Vat you means by tattleto?" The Amer can insisted that there was no such word in English. While he was saying so, his servant came to put coal on the fire when he said, "There John, that'll do." The Frenchman jumped up, exclaiming, 'Taro, tattleto, you say him yourself, sare; vat means tattleto?'

Another exploit by Francs Tireurs is related in a German letter. On two Uhlan companies being sent to Nemours, where they arrived late in the evening, they inquired for the Mayor. A suspicious looking person presented himself, whom the officer refused to recognize, and at length the real Mayor was found. On being questioned he stated positively that no hostile troops or Franc Tireurs were in the place. A respectable inhabitant was detained as a hostage, and the troops, consisting of two lieutenants, two ensigns, and about 60 men, quartered themselves in a large farmhouse, stationed outposts, and left the horses saddled and bridled. About 1.30 a piercing cry from the sentry was heard, and from all sides, through doors, loopholes, and windows, shot after shot fell on the sleeping Uhlans. An officer, a subaltern, and four men escaped; the fate of the others is still uncertain. The next day a detachment of the 2nd Army was sent to Nemours to punish the outrage.

NELLIE NELSON'S

REQUISITION.
THOMAS WILLS, Esq.,
WE, the undersigned electors of Baldwin Ward respectfully request that you will allow yourself to be nominated as School Trustee for the Baldwin Ward for the ensuing term, and pledge ourselves to endeavor to secure your election:

Fred. Ellis, James Brown,
Edmond Chandler, R. W. Holton,
F. McAnnany, R. Holden, M.D.,
G. V. N. Relyea, Esq.,
And 104 others.

Belleville, Dec. 27th, 1870.

REPLY.

To Fred. Ellis, Jas. Brown, Edmond Chandler, E. W. Holton, F. McAnnany, R. Holden, M. D., G. V. N. Relyea, Esquires, and one hundred and four other electors of Baldwin Ward.

GENTLEMEN,—Your large and flattering Requisition calling on me to allow myself to be put in nomination for a School Trustee in Baldwin Ward has been presented. After having given it due consideration I regret to find that I cannot devote to said office as much time as I know to be necessary for the proper performance of the duties of the trust; I must, therefore, most respectfully decline your very kind request, and at the same time heartily thank you for this generous acknowledgement of my former services in the improvement of our Town Schools.

I am, Gentlemen,
Your obedient servant,
THOS. WILLS.

A Nice Christmas Present !
ONE of the best and cheapest Sewing Machines in the Dominion, which can be purchased from
R. M. CLARKE & SON,
at manufacturer's prices. We have been appointed agents for the HOME SHUTTLE FAMILY SEWING MACHINE.
This machine makes the same stitch as the Singer, Wheeler & Wilson, Lockman or any other *high priced* machines, and is sold at a great deal lower price, viz: The Hand Machine, $18; the same, with Stand and Treadle, $26, complete with Hemmer, Gauge, &c. For samples of sewing or any other particulars, address or call on R. M. CLARKE & SON.
72 Front Street, Belleville.
N. B.—Machines taken to the houses of intending purchasers, for trial, anywhere in the County, free of charge.
We are also agents for the Gardiner Patent Sewing and Knitting Machines.
Belleville, Dec. 20, 1870. d197,w45:tf

SPECIAL INDUCEMENTS.
TO completely clear out his stock,
Wm. Johnson
offers his entire stock of Mink Furs at a cash discount of 10 per cent. This will enable those who intend purchasing to do so at this early season of the year at exceedingly low prices. As there are only some twenty-five sets left, customers will find it to their advantage to call early.
☞ All these Furs are of this season's manufacture.

CUSTOMERS SAY
Wm. Johnson
has the best stock of good, well tanned
BUFFALO ROBES
IF YOU WANT
Sensible Christmas Presents,
look at Wm. JOHNSON'S stock.

Latest by Telegraph.

BY ATLANTIC CABLE.

Midnight Despatches.

The War in France.

NEW YORK, Jan. 9.—A despatch to the Tribune from Paris, under date of the 31st ult., says: Coal cannot be bought as it has all been used for casting cannon and by the railways and mills. Wood is nearly gone. The trees of the Bois de Boulogne and the Boulevards are now being cut. The total number of deaths during each of the last two weeks was 2,700. Bread is plentiful. It is not rationed and is expected to last to the end of February.

The Prussians continue their field operations notwithstanding the cold weather. General Trochu says Fort Avron was evacuated voluntarily to escape the Prussian shells, their guns being of larger range than those of the French.

The French papers here are joyful over the reported resignation of the Gladstone Ministry. The continued victories of Chanzy over Frederick Charles causes a general enthusiasm.

The *Electeur Libre* admits a discussion to its columns, as to whether the French should prolong resistance or not. The same paper of the 31st December demands more energetic military measures, making incessant attacks upon the Prussians, governed, and quotes the *Presse* as saying that the authorities show sluggishness and hesitation.

L'Evenenis complains that the inhabitants of Remi and Nanterre have been notified to take refuge in Paris to escape Prussian shells, and says that an attack on Valerien is expected to commence immediately.

The *Patrie* has been suspended for three days for giving information to the enemy.

The troops are being cantoned because of the severe cold. No less than six hundred cases of frost bite occurred in one night. Field works are impossible, the frost being twenty inches deep. The government affirms that held works have been suspended temporarily.

GREAT BRITAIN.

LONDON, Jan. 3.—The cable between Malta and Alexandria, which cost the English Government over £2,000,000, has been sold to the Malta and Alexandria telegraph company, together with all the stores on hand, for $126,000.

MALTA, Jan. 3.—The submarine cable between this island and Tripoli, has suddenly ceased to work.

ROME.

THE POPE AND THE CHRISTMAS FESTIVITIES.

NEW YORK, Jan. 3.—A despatch to the *Herald* from Paris, dated the 27th ult., says:—

"By order of a bull issued at Christmas, the usual imposing church ceremonies in honor of that festival were dispensed with. But few social festivities were indulged in and the occasion was altogether one of gloom and dulness. The liberals through the journals attack the Pope because of his voluntary absence from St. Peter's at Christmas."

American Despatches.

San Domingo Resolution.

Gov. Hoffman's Message.

WASHINGTON, Jan. 4.—None doubt the passage of the Senate San Domingo resolutions by the House, but it is generally regarded as uncertain, if not improbable, that there remains sufficient time for the proposed commission to visit San Domingo and devote proper investigation to the subject to secure an intelligent report on all matters concerning which Congress men are most anxious to be informed.

ALBANY, Jan. 4.—Governor Hoffman sent in his annual message to the Legislature yesterday. He recommends economy and retrenchment, and makes a practical suggestion in that direction with regard to the new capital now being constructed at Albany, and which threatens to involve an almost unlimited expenditure. In regard to the canal he opposes more enlargement, and recommends an adherence to the general policy of low tolls adopted by the last legislature. Regarding the tariff he says: We are made to endure the evils of an oppressive and ill-regulated tariff of duties and have no immediate prospect of substantial relief. The principle of special protection is at war with the general welfare of the world. We are the only great power which commands extended coasts on both oceans, and are a maritime people by inheritance, yet we have become, within a few years, by the suicidal operation of our laws, destitute of shipping. Not only have we been driven from the ocean but on our great lakes, Canadian built vessels are gradually drawing trade away from us, because costing much less they can accept lower rates of freight. Shipbuilding, in which a few years ago we excelled the world, has become a lost art among us. The Governor strongly opposes federal interference in elections.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 4.—More reliable information has been received as to the movements of the French army of the north. It appears to have occupied the towns of Ashett and Beauvoir after a trifling resistance from the Germans. The towns of Ervillers and Bulraignes were also carried by the French after hard fighting. The losses on both sides are heavy.

VERSAILLES, Jan. 3.—The bombardment of the forts on the east side of Paris continues with such effect that only fort Nogent replies to the German fire.

BORDEAUX, Jan. 4.—The following is official. Gen. Faidherbe sends the following despatch to the Minister of War, under date of January 3rd: We have fought a battle near Bapaume which lasted from 8 a. m. to 6 p. m. of Monday. We have driven the Prussians from all their positions and villages occupied by the enemy. Their losses are enormous; ours are serious.

ALLEN'S LUNG BALSAM is warranted to break up the most troublesome Cough in an incredibly short time. There is no remedy that can show more evidence of real merit than this Balsam, for curing Consumption, Coughs, Colds, Asthma, Croup, &c.

We all consider Iron the embodiment of strength and power, but how few are aware that it is this same element in the system, that gives us strength and vigor, and that an insufficiency of it causes weakness and debility. The Peruvian Syrup, a proxitude of iron, is prepared expressly to supply this vitalizing element.

TO THE WEAK, THE WORN, AND THE WEARY, the Editor of the *Boston Recorder* says: "We can most unhesitatingly recommend the Peruvian Syrup, a protected solution of the protoxide of iron, to all the weak, the worn, and the weary, having richly experienced its benefits. It possesses all the qualities claimed for it by its proprietor.

On the 28th ult., by the Rev. John Walton, at the W. M. Parsonage, Sidney, Mr. Charles W. Lake to Miss Amie J. McEwen, both of Sidney.

On the 28th ult., by the Rev. John Walton, at the residence of the bride's father, in Sidney, John Carr, Esq., to Miss Mary Anne, daughter of Andrew Lott, Esq.

SPECIAL NOTICES.

CAUTION—HYPOPHOSPHITES—FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.—This preparation is entirely different in its combination and effects from all other remedies called HYPOPHOSPHITES. The genuine has the name of FELLOWS & Co., blown on the bottle, and is the only article of the kind selling at $1 50 per bottle. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is prescribed by the first physicians in every city and town where it has been introduced, and it is a thoroughly orthodox preparation.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

A Cough, Cold, or Irritated Throat, if allowed to progress, results in serious pulmonary and Bronchial affections, oftentimes incurable.

BROWN'S BRONCHIAL TROCHES Reaches directly the parts, and give almost instant relief in Bronchitis, Asthma, and Catarrh; they are medical. Obtain only the genuine Brown's Bronchial Troches, which have proved their efficacy by a test of many years. Among testimonials attesting their efficacy are letters from—

E. H. CHAPIN, D. D., N. Y.
HENRY WARD BEECHER, Brooklyn, N. Y.
N. P. WILLIS, New York.
Hon. C. A. PEIRCE, Pres. Mass. Senate.
Dr. G. F. BIGELOW, Boston.
Prof. EDWARD NORTH, Clinton, N. Y.

Surgeons in the army, and others of eminence. Sold everywhere at 25 cents per box.

"Troches," so called, sold by the ounce, are a poor imitation and nothing like Brown's Bronchial Troches, which are sold only in boxes with fac-simile of the Proprietors.

JOHN I. BROWN & SON,
on outside wrapper of box, and private Government stamp attached to each box.

The care in putting up the Troches is important as a security to the purchaser in order to be sure of obtaining the genuine Brown's Bronchial Troches. D&W 2m

Allen's Lung Balsam!

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless to the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is the proof of its great value. Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale.

Perry Davis & Son, Montreal, General wholesale Agents for the Dominion. d & w1m

The Last Great Success.

DIPTHERIA CURED,

PAIN-KILLER, so long used with uniform success in curing, Coughs, sudden Colds, Bronchial and Throat Affections and so many prized by families and kept by them as a household medicine, has overcome this terrible disease Diptheria, and has effected marvellous cures.

Read the following extract from a letter from Mrs. Eliza B. Mason, wife of Rev. Francis Mason, Tounghoo, Birmah:—

"My son was taken violently sick with Diptheria, Cold Chills, Burning Fever and Sore Throat. I counted one morning ten little vesicles in his throat, very white, and his tongue, toward the roof, just like a watermelon full of seeds; the remainder coated as thick as a knife's blade. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain-Killer for a gargle, with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and he raised them up, often covered with blood. He was taken on Sunday; on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, with castor oil and heartshorn for his neck. It seemed to me a wonderful cure, and I can but wish it known to the many poor mothers in our land who are losing so many children by this dreadful disease."

The Pain-Killer is sold the world over by Druggists and Medicine dealers.

Price, 25 and 50 cents per bottle.

Examine the bottle well when purchasing to be sure you get the genuine made by Perry Davis & Son. d&wim

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1870. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 117, London, Ont. 772w

CANADA

COUGHS COLDS
STAR'S BALSAM OF WILD CHERRY
CONSUMPTION LUNG DISEASES

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, useful matter, profusely and beautifully engraving in every annual volume.

It contains Articles by the Editor and Contributors to be performed on the Farm, in the Orchard and Garden, etc.

It is prepared for practical intelligent working men.

The Household Department is valuable to every household.

The Department for Children and Youth is prepared with a view of how to furnish amusement and to educate as well as entertain, and cannot fail to please.

Quarterly Lists of Recent Additions to the Patent Office Agricultural (about 110 each) is so large that it can be given to but few (one to a subscriber) and is therefore sent to (only) ten cents or $1.00; twenty or more, 5 cents each; specimen copies 15 cents each.

☞ *Try it a year.*

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Gazette, have much pleasure in announcing that the proprietors of the GAZETTE have greatly enlarged and otherwise improved that paper, and have issued the new type from the foundry of C. P. Pelsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who will endeavor to furnish a readable paper for all classes of readers. Special care will be taken to give the latest and most reliable information on all matters of interest to farmers, mechanics and workingmen. Public questions will be discussed in the plainest language, and in a tone of courtesy and independence, although

THE COMMERCIAL REPORTS

The publishers feel confident that the extensive circulation of a paper like the GAZETTE will give to advertisers a most desirable medium for bringing their goods and merchandise before the notice of the public. The GAZETTE will make its circulation among the farmers of the Gazette unquestionably equal to, if not greater than, any other paper published in this city. Of the circulation referred to above, a large proportion of the Gazette will be made a necessity to merchants in all parts of the Dominion, connected with the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the GAZETTE will be made a first rate organ of every event of importance occurring in the city. Every person desirous of having a full report of proceedings, city improvements, etc., will find in the GAZETTE a reliable guide.

THE TELEGRAPHIC NEWS

Of the GAZETTE will be full, reliable and complete, special despatches from all parts of the Dominion.

The GAZETTE is published regularly at

The Editorial Rooms, } Just East Local News,
The Counting House, } Just West Legal
and Printing Office, } Intelligence.
Just South Telegraphic and Literature,
All Over.

After giving the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The GAZETTE is unquestionably superior to any other paper published, having a larger circulation than any two other leading morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Before increasing the subscription price to parties in the Country, the proprietors will still remain the same. It will be as at present $4 per year, or 50 cents per month if delivered, and will always be furnished in the city and by News agents, to whom it is sent by cash, at 4 cts. each per week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and by next week will be issued in the same form and arrangements of the present weekly, so as to give interesting and complete editions of the week's news.

The Country Gazette will continue to be mailed to subscribers at $2 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's Sarsaparillian Resolvent,

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, and contains the curative virtues of the most active principles of the vegetable kingdom. The Sarsaparillian and other foreign and fragrant vegetable extracts that enter into the composition of this non-mercurial, purely vegetable, Blood Purifying Resolvent, are selected and gathered with the greatest care in the principal growing districts, from the native soil, under the supervision of intelligent agents—experienced botanists, employed expressly for the purpose, and instructed so that no spurious substances or worthless roots are permitted to be mixed with the pure.

It costs Dr. Radway & Co. over $20,000 (thirty thousand dollars) per annum for the purchase and the expenses of scientific botanists in this branch alone that the most wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine has there been discovered one so completely builds up, repairs, and makes sound and strong, healthy, vigorous, and beautiful, wherever, in weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body by this

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND PLESH-MAKING QUALITIES.
it supplies the system with caloric or heat-making properties.
it cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Glands, Mouth, Throat and Skin and body.
it increases the natural and healthy secretions.
IT STOPS ALL WEAKENING DISCHARGES.
it increases the repairs and diminishes the waste.
it exterminates the products of decay.
it resolves Tumors, Nodes, Ulcers and Scrofula.
it makes the skin clear and beautiful.
it heals Fever Sores and old Ulcers.
it cures all Scrofulous diseases, are deficient or exhausted in essence women from the pests incident to change of life or cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however exalted the condition of their systems may be, in addition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs are worn at beyond the process of repair, or if capable of sustaining the requisite process of HEALTHY

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay and loss assist be dismissed from the body.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative powers of medicine, daily, and will by the use of the Sarsaparillian Resolvent, continue to invigorate for years, and for the better part of the total forces may be, if the system can be brought up to the healthy standard of this force and make medicine the result will be greater than the wastes and the BLOOD WILL receive that high degree of health, purity and nourishment to make it the source in healthful solution all its constituents, and stop the process of decay and its consequences.

CONSUMPTION. SCROFULA. Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of VENEREAL DISEASE, with the poisonous effects of the toxin from the blood either in the Lungs, Skin, Kidneys, Bones, or Cellular Tissue, in the most aggravated cases in their advanced stage can both be checked and cured by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Kidneys, Spermatic Ducts, Bladder, Womb, or Urinary difficulties, will experience a great change for the better for the better site taking the Sarsaparillian Resolvent. As the blood becomes more pure, rich, strong, and sound in being, and is caused to hold in solution all the constituents, the deposits of Tuberculous matter and other elements of disease, destructions and decay will be assimilated in the Lungs, Kidneys, Skin and other Organs, and each of these Organs will secrete their proper constituted secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be liberated for expulsion from the system through their proper channels. If medicine fails in its influence in the purification of the secreted duct secretions, and to so that each organ or secreting gland in discharging its proper functions, health can never be restored, and people will be suffering humanity. **Radway's Sarsaparillian Resolvent is exactly the important remedy that has heretofore existed in all these remedial agents assimilated as Blood Purifyers.**

No matter how deeply seated or engrafted in the bones, cartilages, glands, viscera, or bones disease, and no matter how many, the influence of the Sarsaparillian Resolvent will pervade the system, and secretions with such constituents as to resolve and remove the poisonous matter and decomposition, and the stamina of health will be given with sound and living structure, new and healthy blood, and strong blood. By its chemical action which the Sarsaparillian Resolvent has upon the secretions from the blood in the process of digestion into Chyme and Chyle, being the source of blood, as well as the nourishment, it causes it to convert into blood, and its specific action when entering the circulation, it purifies every atom of virus from the blood, and resolves every cell deposit of disease, whether caused by depression of some specific poison, or virulent disease, is the Sarsaparillian Resolvent. Under its use Tumors, Chloride of Mercury, Calomel, and other agent that may be accumulated in the bones, tissues cartilages, or glands, are from some constitutional family complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, mucous diseases, Bright's disease, Kidney complaints, Glandular Disease, Ulcers in the Throat Mouth, Bones, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Diseases from the Edges, Tetter, Salt rheum, Scurfiness, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Pimples, Blotches, Worms in the Flesh, Tumors, Cancers in the Womb, and all unhealthiness and indecent discharges, Night Sweats, Loss of Sperm, and all weakening Life Principle are within the curative range of the Sarsaparillian Resolvent, and in a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Kidneys, Bladder, Kidney Wounds, Dropsy, Diabetes, and all who are incorrectly informed by Surgeons of Water or Brick Dust Deposits, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, 79 Cavalier, Montreal.

G. Denault, of St. Timothee. County of Beauharnois, Canada West, had for twenty years Scrofulous ULCERS. one on his thigh, the other on his ankle. Last report by letter, "Both ulcers are healed and the skin the most celebrated doctors in Montreal could not cure of running sores. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, and with **Radway's Pills and Ready Relief**, it used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and then, at the same time, with the Ready Relief and Sarsaparillian Resolvent, diluted with water which completely healed the sores, and he has since had no unpleasant symptoms of boils, discharges, or any of his former complaints, and cured me of one of less than four dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, Vermont, nearly half his body was one solid scab of Paper Mills. Hicks, &c. sold me of his know Sleep, never rest, nearly half his body was one solid scab, covering the entire body—head, face, neck, chest, back, and legs. I saw him in September last, and he was the most revolting human object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Pills and Ready Relief.** One month since, on returning to Canada, I saw the father, who told me that his son was entirely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Scald Head, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats and Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,
March 11, 1868.

DR. RADWAY—This is to certify that I was taken with bleeding in the lungs, night sweats, and was induced to use your **Sarsaparillian Resolvents.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After taking one bottle the bleeding was stopped, and the night sweats ceased. I continued to use six bottles and one vial of your sickness, disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures. Many of these are truly marvellous. In virulent cases of Scrofula in children, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders which have long gravated by the scrofulous constitution until they were painfully afflicting, have been cured by it, and a great number of publicly known citizens have added their testimony to the same fact. Hardly a neighborhood in almost every section of the country, but the public is acutely used by it. We, therefore, be informed of its virtues.

Scrofula pervades more of the most destructive enemies of our race. Often, its unseen and baleful taint of the system is inherited from parent to offspring, and invites the attack of enfeebling or fatal diseases, without exciting a manifestation of its presence. Then it seems to breed infection throughout the body, and to render every variable wound or sore inveterate. Only one or other of its hideous forms, either on the surface or within the system, is likely to be developed. Sometimes it is Salt Rheum, with loathsome sores; sometimes it is Erysipelas, or Rose, or Pimples, or Blotches, or Boils, or Tumors formed in the liver, or in the glands; its presence by eruptions on the skin, or foul ulcer ations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is an excellent way to secure ourselves against disease when we are exposed to it. Persons afflicted with the following complaints will generally find immediate relief, and in time a permanent cure, by the use of this SARSAPARILLA: *Tetter, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions of a similar nature. Also in the more concealed forms, as *Dyspepsia, Dropsy, Liver Disease, Piles*, and in the distressing and the various *Uterous* affections of the muscular system.

Syphilis or Venereal and *Mercurial Diseases* are frightfully prevalent, and no remedy has been more astonishing these obstinate maladies by any medicine than by this compound. Its use for either of this malignant disease in the complaint. *Leucorrhœa or Whites, Uterine Hemorrhages*, and *Female Weaknesses* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, free to all druggists. Also, for

Rheumatism and *Gout*, when actually in the system, this remedy has been found to drive the poison against tendencies to the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising from derangement of the digestive organs or the blood. This *SARSAPARILLA* is a great remedy for the ailments and the grave troubles those who are *Languid* and *Listless, Despondent, Restless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Nervousness*. Its effects immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine has anything been so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men in the civilized world, it has been tried in affliction, as it has become better known. Its uniform character and virtues have commanded the confidence of the lungs and throat, have made it known as a remedy for them, based on merit alone. While unequal to subdue forms of disease and to young children, it is certainly better than the best of any that can be given for incipient consumption, and the danger ous affections of the throat and lungs. In the early vision against sudden attacks of *Croup*, it should be kept in every family, as it checks the disease if not sometimes subject to colds and coughs, all should be furnished with this antidote for them.

Although settled consumption baffles the triumph incurable, all great numbers of cases where the disease is thought to be settled have been completely cured, and the patient restored to good health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers and great professional men use it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known, that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth Zinc, nor any other mineral or poisonous substance whatever, it is nowise injurious any patient. The number of worthless nostrums in the form of Bitters, are literally herded accounts, and we believe we have conferred a benefit on the afflicted and upon the public is gratified by the acknowledgments we have received of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Disconsolated persons, either resident in, or travelling through unhealthy districts, should be protected by taking the *AGUE CURE* daily.

For *Liver Complaint*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the liver to healthy regular action.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the best and latest pieces of music. The following authors will appear in the next number: Kinkel, Bishop, Thomas, Howe, Peters, Foy, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is either sold at retail for 30 cents or 40 cents each. The subscription price is $3 per year, $1.75 for six months. Specimen copies sent free. We guarantee to every yearly subscriber at least 492 pages of choice new music, by the best authors.

We do not expect PETERS' to pay, but we expect MUSICAL Monthly to pay on its merits. Therefore we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear it, and order it. And many of these become subscribers. Remember! every yearly subscriber gets, during the year, at least 12 pieces of the best music, all of which are afterwards sold at sheet music prices, and will be worth over $60. It is published at the Mammoth Music store of J. L. PETERS, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

FEVER AND AGUE.

Notwithstanding the great range of Fever and Ague Ailments, as a fact Radway's Ready Relief has been and experience prove it to be the Best and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Acute Pain, Chronic Complaint or preparation of Quinine, Arsenic, Mercury, Calomel or Mercury—in fact, no remedy in the world will cure this disease so positively and speedily as

Radway's Ready Relief.

No, not one. Thousands, from every section of the United States, Africa, Mexico, South America, Cuba and Europe, Panama and the Islands of the Pacific, have proved that Radway's Ready Relief is the great remedy for Fever and Ague, and hundreds of other painful diseases, and that it will cure them.

RADWAY'S READY RELIEF,

aided by Radway's Pills, will not only cure the worst cases, but will subject the system to such a thorough Ague and all other Fevers.

One 25 cent Bottle of

Radway's Ready Relief

Is better and more certain for all Fevers than 25 Attacks Ague, when taken according to the directions. Commence taking Radway's Pills and Ready Relief at 50 to 75 cents per day, according to the violence of the disease, and when the Fever and Ague is broken, take

One 25 cent bottle of Radways Ready Relief, diluted in one gallon of good water, and drink freely of equal in quantity to tea and coffee.

Six bottles of the 50 cent Pain Killer, Radway's Ready Relief, will cure any case of Fever and Ague. All remedies may but poor imitations of Radway's Ready Relief.

The bottle of Radway's Ready Relief is 50 cents and 25 cents as a Pain Remedy and for Fever and Ague will secure every household from sickness, suffering and death.

Radway's Ready Relief can be purchased of any druggist, or any of the agents, for 50 cents per bottle.

$1,500 Cash Prizes.

In addition to the above premium, the Publishers will pay fifteen hundred in CASH PRIZES for little or no effort sent to them by the 1st of February. Persons who want to compete for these prizes should send at once for Prospectus and blanks for reports.

Terms for Scientific American, one year three dollars; six months, a dozen weeks, one dollar, postage free. To Clubs of 10 and upwards, terms two dollars and fifty cents per annum. Specimen copies and free address the Publishers MUNN & CO., 37 Park Row, New York.

How to obtain PATENTS—A pamphlet of Patent Laws and instructions to inventors sent free.

Long Life Secured.

Let every person who is suffering the ordeal period pass their sufferings with Radway's Sarsaparillian Resolvent, and all who have passed that period and are suffering from some one complaint with Radway's Ready Relief and Pills, and they will find a speedy relief and a sure cure for them, and be free with freedom from the ills of life.

ALL FEMALE DIFFICULTIES,

from the simplest to the most complex, from Retention to Profluence, the most aggravated forms of Ulcerations, Irregularities, Displacements, Hemorrhages and Suppressions, Whites, Barrenness, Impotency, Sterility, Diseases of the Womb, Bladder, Kidneys, Nervousness, Hysterics, Spasms, Pains, Aches, Weakness, Debility, Dizziness, Sick Headache, Nervous Prostration, Hysteria, Fits, Epilepsy, Spasms, Tremors, Sleeplessness, Blues, Melancholy, Hypochondria, Mental Aberrations, Loss of Memory, Impotency, Involuntary Discharges, Pains in the Back, Kidneys, Bladder, Womb, Pelvic Region, Groins, Thighs, Legs, Feet, Nervousness, Trembling, Sinking Feelings, Indigestion, Dyspepsia, Biliousness, Jaundice, Sick Stomach, Heartburn, Sour Eructations, Flatulency, Fluttering, Sinking, Goneness, Nausea, Vomiting, Bowels, Piles, Constipation, Costiveness, Blotches, Boils, Pimples, Eruptions, Tetter, Salt Rheum, Scurfiness, Itch, Scrofula, Consumption, Glandular Affections, Ulcerations, Syphilis, Mercurial Affections, Rheumatism, Gout, Dropsy, Fever and Ague, Chills and Fever, Inflammations, Congestions of the Lungs, Sore Throat, Difficult Breathing, Palpitation of the Heart, Hysterics, Croup, Diphtheria, Catarrh, Influenza, Headache, Toothache, Neuralgia, Rheumatism, Cold Chills, Ague Chills.

The application of the Ready Relief to the part where pain or disease exists is sufficient to relieve in ease and comfort.

20 to 60 Drops in a Teaspoonful in Water will, in a few moments, cure

Cramps, Spasms, Sour Stomach, Heartburn, Sick Headache, Diarrhœa, Dysentery, Colic, Wind in the Bowels.

The above doses taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus, Dysentery, And all Painful Discharges of the Bowels.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent pain or sickness from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Jamieson & Paine's Family Bitters. They are all the common fusel oil alcohol as a basis, and have as much virtue as Radway's Ready Relief.

Some of these imitations are scented with cinnamon bark, in imitation of a Spice Bitters, and a solution of Ammonia—used in the genuine—Peruvian Syrup, to deceive the purchaser, as does the Peruvian the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen bottles, $2.50 cents. Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the United States and sections of all languages. **All for Radway's Ready Relief.**

New Principles of Medication.

[*Vide: Radway's Ready Relief, Rays Going Into and Sara-parillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and adapted to any form of people at once, and without the least inconvenience to the patient. Some of our new remedies are in the form of pills, others in liquid, and others in dry form in their medicines—but the ingredients are all the same the world over. The U. S. and other governments have paid their formulas and copies taken from the U. S. Pharmacopœia, &c., hence, they claim superiority of merit for their preparations, on the science of medicine would be a new epoch. Take, for instance, the most popular remedy in the day—Quinine—and the claim to adjuncts forming the efficient compound of one of the most powerful drugs in the whole range of chemistry, pharmacopœia, physiologists, etc., more or less, combine these agents as we do. Some of the most valuable remedies in Medicine are deficient of good sterling, reliable medicines. The formulas of preparing the official drugs are in the hands of druggists, and when the drug comes to put up specific remedies, on the old authorities and time honored principles, they are offered to the public. *Radway's Ready Relief,

CONCENTRATED LYE.

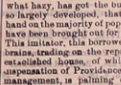

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the same Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Mcum and Tcum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange supposition of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accomodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $3.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as having been connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

GOLD & SILVER WATCHES,

CHAINS, JEWELLRY,

Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.

All goods warranted what they are represented to be.

All kinds of jobbing and repairing done promptly and at moderate rates.

Call and inspect the Stock before purchasing.

H. ROSENBERG.

Belleville, Sep. 1868. 122-tf

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in a workmanlike manner, and at the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to know are present of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best periodical that we know.

It is more complete in its departments than any other The fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, at least any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies calculated to assist in making our houses attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 36 inches, entitled "The Picnic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that can compare so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the Magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,

838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, well, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, on the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. CLARKE, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Youle Hind, Professor Buckland, Dr. C. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists in every variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jones, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, florists, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—8 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 5 Subscribers, - - $ 5.00
Club of 10 " - - 8.00

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sensible and useful, and prevents tooth-ache; no matter how far decayed. Price, 2s. 6d., 5s., and 10s. See Gabriel's Celebrated Dental Preparations.

GABRIEL'S ODONTO ENAMEL, STOPPING, for permanently filling decayed teeth, stopping to remain white and as firm as the tooth itself. The fluidity of this solution ensures front teeth and prevents decay. Will stop it teeth. Price 5s.

GABRIEL'S ODONTO TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any trace of tartar, and is perfectly harmless to the enamel. Price 1s. 6d.

GABRIEL'S ODONTO TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence recommended for the relief in cases of Tic, Neuralgia, and Toothache, as it forms a most refreshing mouth-wash; it removes the unhealthy appearance of the mouth, and by toning the breath, strengthening the gums, and is most invaluable to smokers. Price 6s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parts or complete sets, on Messrs. Gabriel's new system of sending particulars of their cases, with a reminance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

VICK'S FLORAL GUIDE

FOR 1871.

The first edition of one hundred and fifty thousand copies of Vick's Illustrated Catalogue of Seeds and Floral Guide, is published and ready to send out—100 pages and an Engraving of almost every desirable Flower and Vegetable. It is elegantly printed on fine tinted paper, illustrated with three hundred fine Wood Engravings and two beautiful

COLORED PLATES.

The most beautiful and the most instructive Floral Guide published. A German Edition published, in all other respects similar to the English.

Sent free to all customers of 1870 as rapidly as possible, without application. Sent to all others who order them, for ten cents, which is not half the cost. Address

JAMES VICK,

Rochester, N. Y.

Mr. Blake, the Quebec Press and the Arbitration.

We are already beginning to discover the effects produced in Quebec by Mr. Blake's remarks on the arbitration question.

L'Ordre, of Montreal, says: "Mr. Blake has made a declaration of the highest importance, *which must be the first article of a new programme in the organization of new political combinations.* He has discussed the question of the arbitration, and with a number of precautions, so as not to wound the ambitious sentiments of public opinion in Upper Canada, *has clearly given to understand that the arbitration commission acted in an unjust manner towards Lower Canada.*"

Mr. Blake may strive to explain away his words, but we have in the opinion here expressed not only their true secret but a thorough and explicit statement of the way in which they are understood in the Province of Quebec.

Another French paper, *Le Courier du Canada*, discourses after this fashion:

"The Legislative Assembly of Ontario continues the debate on the address. The ministerial partizans are in great grief because Mr. Blake seemed to sustain the Province of Quebec on the question of the arbitration. *Let us say in this case once more the good dispositions of the Reform party of Ontario.* Mr. Pardee and other opposition speakers have not feared to say that if Quebec could establish that an injustice had been committed towards her, the Reform party would not hesitate to demand its reparation."

It would hardly do for the leader of the opposition and his friends to say that their words did not bear the interpretation put upon them here. What are those words thought of in Quebec? We present the answer in the extracts we have quoted, and, doubtless, we shall have many more like them before a week is out. The Attorney General was right—Mr. Blake is playing in the Assembly of Ontario the game of his party in the Dominion Parliament. We do not say that he may not achieve some success in this way, but we do not envy him the success which he may accomplish by imperilling the interests of his own Province. What care the Grits for a matter of $6,000,000 if they can get their party into power! The public sentiment of Ontario is not of this character, however, and we much mistake if Mr. Blake and his friends be not called to a strict account for the gross injustice which, in the matter of the arbitration, they have done to the Province they so grossly misrepresent in the Legislature.—*Leader.*

Harnessing Horses to the Sleigh.

The long suffering horse is abused in many ways. Perhaps no abuse is more common—though other abuses may be more cruel—than the manner in which he is harnessed. Besides the ill fitting, miserably calculated harness which galls his back and breast, the blinders, checks and iron bits, which are but relics of barbarism and which no humane man who gives attention to the subject will the loose ways in which he is attached, especially to sleighs in winter, most deserve condemnation.

It is not unfrequently the case that farmers and those who use their horses for drawing loads both on wagons and sleighs, shift from one to the other the neck yoke and whiffletrees without reference to their fitness. Were these right anywhere, the fault might be even less than it is, but often, though difference in length, the horse is compelled to go sideways, or partly so. It is readily seen that if a horse is single he must draw direct, strait ahead, in order to exert his full strength, and it is no less true that a team, when the horses work toward one another, as when the neck yoke is longer—in either case going sideways—cannot exert its full strength. This evil is greatly aggravated when the horse is brought into the snow path, as he has thus to make a constant effort to prevent being pulled out of it. It needs no reasoning to prove that the horse should always be attached to wagon or sleigh so as to draw strait ahead, and when attached to sleighs, the neck yoke and double whiffletree should be of such length that the horse may go on the middle of the path. It is not uncommon with horses in spring, that have been used improperly on sleighs, for the hair on one side or other (commonly on the inside, from the double whiffletree being too long) to be entirely worn off, and the places sore from the constant chafing, and yet drivers not see the cause. This is an evil which can be easily remedied, and should be.

THE CAMPHOR TREE.—The camphor tree grows in China, and is a most useful and magnificent production of the vegetable kingdom. The Chinese affirm that it sometimes attains the height of three hundred feet, and a circumference greater than the extended arms of twenty men could embrace. Camphor is obtained from the branches by steeping them when fresh cut. Besides this valuable ingredient, the camphor tree is one of the principal timber trees of China, and is used not only in building, but in most articles of furniture. Camphor-wood trunks are in demand all over the globe to pack woollens or furs, or any article liable to be destroyed by moths, as they are said to be insect proof. It is also a light and durable wood.

Punch thinks a good motto for Highland pipers, "Blow, gentle Gaels."

A Portland man wanted to gain admission to a panorama at half price on the ground that he had but one eye.

A learned doctor has given his opinion that tight lacing is a public benefit, inasmuch as it kills off all the foolish girls and leaves the wise ones to grow into women.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

Daily Intelligencer.

BELLEVILLE, THURSDAY, JANY. 5.

CHRIST CHURCH.—A vestry meeting in Christ Church is called for to-morrow evening at 7½ o'clock.

POLICE COURT.—There being no prisoners for trial, and it not being a regular Court day, there were no cases for disposal by the Police Magistrate this morning.

THE PULLMAN CARS.—Another Pullman sleeping car to run between Toronto and Montreal, made its first trip this week. It is named the 'Ottawa.'

TO-NIGHT.—The Nellie Nelson troupe at the Masonic Music Hall. The Hall will be comfortably heated, two large stoves having been set up.—The Court of Revision at the Town Hall.

THE SYNOD OF ONTARIO.—The vestry at Picton meets on the 9th instant, to express its opinion on the subject of the removal of Bishop Lewis to Ottawa and the election and support of a coadjutor in Kingston.

BRITISH COLUMBIA.—From late advices from British Columbia, it is thought that the elections have resulted in favor of confederation, and it is believed that the Legislature of that Province will meet at an early day and sanction the Union with Canada.

THE WINTER FISHERIES IN THE CHARLOTTE ISLANDS.—A Quebec exchange says: 'The American schooners are down in force. They have already taken their departure loaded with frozen herring, for which they left on the Islands somewhere about $5,000. Other schooners are loading.'

WATER.—The pump on the East side of Front Street opposite the Albion Hotel, requires repairing. People living in the vicinity, who usually get their supplies from this tank, are now compelled to travel a considerable distance for the water they require for household use.

EARTHQUAKE.—A severe shock of earthquake was felt on Tuesday night, between 6.20 and 6.30, in several villages along the Ottawa, between Granville and Montreal. It was not felt in the metropolis, however, nor in Ottawa. The shock lasted about fifteen seconds. It appears to have crossed the river diametrically about that vicinity, travelling from north-east to south-west, or *vice versa*.

WEEK OF PRAYER.—The noon-day prayer meetings at Ontario Hall daily have been largely attended, as have the nightly meetings in the churches. There will be daily meetings in Ontario Hall for the remainder of the week; but no meeting on Saturday night, the series of special services concluding on Sunday in Ontario Hall, Rev. Mr. Lewis officiating.

THE GUN OF THE PERIOD.—An English paper of the 16th instant says: "The final operation in the construction of the new experimental 35-ton gun was completed in the royal gun factories yesterday afternoon. It will be ready to be proved at Plumstead and Shoeburyness in about a fortnight. It is to throw a bolt weighing 700 lbs, and will cost something like £2,200.

THE BATTLE OF THE STOMACH.—Paris now a days is evidently no place for gluttons, and the stomachs which have been used to luxurious fare must have a hard battle to fight. The conditions of Parisians recalls to mind the lines written by Hudebras long ago:—

For 'tis not now whose stout and bold,
But who bears hunger best, and cold;
And he's approved the most deserving
Who longest can hold out at starving;
And those achieve the most renown
That bring the others stomachs down.

COUNTERFEIT CANADIAN NOTES.—The Toronto *Globe* says: "We were shown yesterday a $1 bill, of the Province of Canada, which, by an old trick, had been cleverly altered to represent one of four dollars. The change is made by pasting light tissue paper over the figures and altering the letters of the 'one,' the letter 'E' being stamped in. There are no notes of four dollars issued by the Dominion."

A HARD FATE.—The explosion at Birmingham has brought out the fact that boys and girls have been worked over-time making cartridges in the laboratory department of the Royal Arsenal at woolwich. the struggle for subsistence is so keen that the children entreated to be kept on the books, notwithstanding the provisions of the factory act. One cannot help pitying the fate of children forced, for the sake of food, to commence the drudgery of life before the age of 12.

LIBERAL CONTRIBUTIONS.—At the annual gathering of the Wesleyan Methodist Sabbath Schools in Montreal on the 2nd inst., sixteen hundred children and two hundred teachers were present. The children's Christmas missionary collections amount to $2,000, an increase of over $200 over last year.

MASONIC.—By dispensation from the Grand Z., says the Montreal *Gazette* of Jan. 4th a Chapter to be known as Montreal Chapter was constituted last evening. The meeting was held in the lodge room of St. Paul's Lodge, St. Catherine's street, when the following officers were installed and invested by the Grand Superintendent of the District, R. E. Companion F. Montague Sowdon:—E. Companions Arthur Fletcher Z.; Alexander Chisolm, H.; S. R. Parsons, J. Companions Richard Rowe, S. E.; W. E. Beach, S. N.; W. Niven, T.; P. M. McTavish, P. S.; T. C. Stratton, S. S.; W. H. Dean, J. S. R. E. Companion Noxon, Janitor. After the business of the Chapter, the Companions adjourned to the ante-room, where an hour was most pleasantly spent in social intercourse.

Work for Next Session.

Work is already beginning to be carved out for the next session of the Dominion Parliament. Amongst the new applications to that Legislature we find the following:

Notice is given from Montreal that application will be made at the ensuing Session of the Dominion Parliament for an Act of Incorporate the "Mutual Insurance Company of Canada."

Notice is given for an Act to incorporate a Company for constructing, maintaining and working Railways and other Public Works in the Dominion of Canada and British North America, and for other purposes.

For an Act to authorise the Corporation of the Village of Trenton to impose "Harbor Dues, Rents, or Tolls upon goods, wares and merchandize, received at or shipped from the Port of Trenton, and to impose Duties and Tolls upon logs, timber, pine, cedar, and railway ties, passing down the River Trent through the Port of Trenton.

For an Act to incorporate "The Toronto Corn Exchange Association," with all necessary powers.

For an Act to incorporate a Company under the name of the "Winnepeg and Hudson's Bay Navigation Company," for the improvement of the navigation of the chain of waters between Fort Garry and Hudson's Bay, by way of Lake Winnipeg and Nelson River, and for other purposes connected therewith.

For an Act to authorize the Erie and Magasa Railway Company to alter the guage of the track thereof as the directors may determine, and lay down three or more rails; also to enable said Company to amalgamate or incorporate itself with any other Railway Company.

For an act to incorporate the Mutual Life Assurance Association of Canada, for the transaction of Life Assurance business in all its branches for the mutual benefit of the members of the Association.

Ontario Legislature.

WEDNESDAY, Jan. 4th, 1871.

The House re-assembled yesterday after the Christmas adjournment.

A number of petitions were presented.

Dr. Boulter introduced a Bill to amend the Act respecting Dentistry.

In answer to Mr. Blake Attorney General Macdonald stated that the Government would be ready to proceed with the School Bill to-morrow, (Thursday).

Attorney General Macdonald suggested that as there was a very thin House it would be judicious to adjourn without proceeding with any business till to-morrow.

The House then adjourned at 2.40.

Amongst the notices of motion we observe the following:

Mr. Blake—on Wednesday he will move the following resolutions:

1. The cold-blooded murder for his outspoken loyalty to the Queen, of Thomas Scott, lately a resident of this Province, and an emigrant thence to the North-West, has impressed this house with a deep feeling of sorrow and indignation; and in the opinion of this House every effort should be made to bring to trial the perpetrators of this great crime, who, as yet, go unwhipt of Justice.

2. That an humble address be presented to His Excellency the Lieut. Governor, embodying the foregoing resolution, and praying him to take such steps as may be best calculated to further its views.

RED RIVER NEWS.

From our Red River exchanges just received, we copy the following:—

Says the *News Letter*, Dr. Schultz's organ:—For the information of those in Canada, who have any curiosity in the matter, we give the following quotation of market prices prevailing in Winnipeg at the present time, from which they can judge whether farming pays in this country. And in comparing these prices with those which they obtain, they must bear in mind that everything can be grown here at about one-third of what it can be at home. Here we have no tax-collector to visit us every year, nor are any of our cereals subject to any of the insect pest which render wheat growing so precarious in Canada; but our land produces wonderful crops with what they would call "slovenly farming"; how much it would yield under skilful management we leave them to calculate.

Wheat, (spring) per bus, 5s	$1 25
Barley, per bus, 4s 6d	1 13
Beef, per 100, 37s 6d to 40s	10 00
Pork, per 100, 54s 3d to 59s 4d	16 88
Butter, packed, per lb., 1s 4d	33
Poultry, cheese, eggs and vegetables of every kind find ready sale at equally remunerative prices. Potatoes average half-a-dollar all the year round.	

REIL AND THE ELECTIONS.

A requisition, signed by the electors of St. Vital, has been sent to Reil, requesting him to be their representative for the Local Legislature. Reil answered that he considered himself honored by that demand; that he was always ready to serve his country; but that, owing to circumstances he thought it better not to accept. Resolutions asking Reil to be a candidate for the House of Commons, were proposed and carried unanimously, in three public meetings.

For The Daily Intelligencer.

Autobiography.

SIR,—Permit me to give to an admiring public an "A. B." to my already published Autobiography. It is important that all the antecedents of one so blessed should be known. With your permission, I say:

Having been so villianously portrayed by one whom I immediately afterwards took by the hand and caressed, upon the principle that good should be returned for evil, it is but fair to the world that a few chronological facts should be published, and as I did not tell the whole truth in the first edition of my autobiography, which was devoured with such rapidity that it is already exhausted, I deem it not only expedient, but profitable, to supplement that edition, like Mrs. Stowe to Uncle Tom's Cabin, with a Key, which I trust will be as interesting as the original story. Well, to begin:

Like other mortals I had a father and mother, the one a Yankee the other somewhere in Asia, and as it is a well established fact in physiology that in the animal kingdom, a cross improves the breed, I am better than my ancestors. On the banks of that far-famed inland water, the Bay of Quinte, I first saw day-light; hence I am what "John A." calls a "Bay Quinte Boy;" and though making profession s of temperance, am a good judge of Bay Quinte cocktails, Brandy smashes, and Moira River Beer, using it regularly for the stomach sake. I grew up like other boys, and having a literary pattern of mind entered a printing office at an early age, and so precocious was I, that at 20 years of age I took charge of the literary department of an influential journal, which I conceived and brought into life in the city of Napanee. My whole efforts were given to the support of the Reform wing of the McNab-Morin coalition, that is, I became the organ of the French party in power in Lower Canada, which ruled Upper Canada at that time, and which culminated in Cartier being at the head of it. I remained in that place for four years and then flattened out, though I tried every means to make the concern a success, even to joining the Orangemen, out of which society I was subsequently kicked. Disgusted with such a place, and such a people, I seized the occasion of a split which had been made in the Reform party, in and about the City of the Bay, and under favorable auspicies removed to that city, started another journal in the interest of what is known as the "Baldwin Reformers." The old reform organ had joined the Philistines, and the Davy-Brown-Bell party were organless. I piped away upon that string until the time for another election rolled round, when a representative of this old Reform party, was brought out to oppose the man who created consternation in the ranks of that party a few years previous. Well, after cogitating for some time upon the frailties of poor human nature—the probabilities of a speculation, and the success of our Candidate. I racked my brain and indicted a leader, pointing out what a representative of the people should be. Just as the crowning panegyric was being penned in favor of Brown, I heard a gentle tapping at my chamber door, and in came two gentlemen, who from the genial smile upon their countenance, I knew meant business. My penetration did not deceive me. A bargain was struck, I was to receive $500 for jumping Jim Crow, and singing the praises of Wallbridge. I may remark, *en passant*, that though $500 was promised, I received but $400. I had written an article in favor of Brown, was that to be lost to the electors? Not at all. One of the gentlemen took it and wound it up with "Such a man is Wallbridge!" Some men are base enough to insinuate that this was "bribery." I tell these miscreants that I "never received a dollar in my life, that I did not give value for." What if I did turn my back upon those who brought me here, and supported me. What if I did after having written an article in favor of one man change it in favor of another for $400. Who is base enough to say that was bribery? Out upon such absurd sentimentality, I gave my paper, I got their money—money for principle, principle for money. The references to bribery are therefore unfortunate.

Shortly after this exploit, which I challenge any Bay Quinte Boy to excel, I found a few Grits in Kingston who wanted an organ to run out John A. Money was procured, an establishment purchased, and off I was again in full blast. I run the length of my tether, and then by a Bay of Quinte fluke, became, with my kin, sole proprietors of the establishment. I then did good service in the cause of Uncle Sam, for which I was amply rewarded by a United States Consulaship, during the holding of which I wrote in favor of John A. and the coalition, for a paper not over thirty miles from Belleville. Time rolled on, and I got my walking ticket. A mission then presented itself. There was the old *Chronicle* still laboring away, and ought to be destroyed; so I again took my pen and began the work of demolition, that ere I had made a breach in the battlements, a discharge from the enemy's nine ounce took effect—I run up the white flag, cried *pecavi*, surrendered at discretion, and for a consideration became the ardent admirer, defender, and laudator of him, who had fired the shot. The scene changed, and another mission presented itself—that of annihilating the old Tory *Intelligencer*. At this I am at present engaged—at this I shall continue, until I *see* and *feel* cause to change.

"Principle," methinks I hear some one say, that's played; money is my principle, and he who pays best can have my services and the columns of my newspaper. It is quite immaterial to me, who rules, so long as I profit by it. No such old fogy notions as principle, ever troubles me, I always give value for anything received, and if it pays I have sufficient sagacity to change as often as the dollars justify it.

End of the second volume. A third may appear ere long. Biography is always read with avidity, and this addition will, I am sure, be exhausted in a short time.

WEATHERCOCK.

First Locomotive — Interesting Relic.

The Allentown (Pa) *Chronicle* says:

The first locomotive that ever did service in the United States is now lying outside of a foundry at Carbondale, Luzerne county. It ought to be preserved somewhere as an interesting relic of the early days of railroading. The following description of that trip, taken from Dr. Hollister's history of the Lackawanna Valley, will be read with interest.

The first locomotive introduced and worked in America, was run upon the Delaware and Hudson Railroad, in the year 1828, and Hone's Dale (named from the late Phillip Hone) offered its friendly glen for the purpose of conducting the experiment. This locomotive, called the "Stourbridge Lion," was built in England, of the best workmanship and material and most approved pattern of that date. The road passed out of Honesdale by a sharp northwestern curve, with a moderate grade, and was carried over the Lackawanna by a long hemlock trestling, considered too frail by many to support the great weight of the mysterious looking engine all ready for the hazardous journey.

As the crowd gathered from far and near, expecting that bridge, locomotive and all would plunge into the stream the moment passage was attempted, no one dared to run the locomotive across the chasm but Major Horatio Allen, who amid exultation and praise, passed over the bridge and a portion of the road in safety. The engine, however was abandoned, as the slender trestling forming much of the body of the road, sufficiently strong for ordinary cars, was found too feeble for "the weight and ware." Major Allen, in his account of this first trip of a locomotive on this continent, says: "As I placed my hand on the throttle, I was undecided whether I would move slowly or with a fair degree of speed; but believing that the road would prove safe, and preferring, if we go down, to go down handsomely and without any evidence of timidity, I started with considerable velocity, passed the curve over the creek safely, and was soon out of hearing of the vast assemblage. At the end of two or three miles I reversed the valve, and returned without accident, having thus made the first railway trip by locomotive on the western hemisphere."

Food for Horses.

A correspondent in Taunton, Mass., who has had charge of a gentleman's stable containing some very fine horses (among them the celebrated Grand Duchess) for ten years, gives us his experience of feeding horses as follows:—

"First feed them with dry feed if they are sound. A horse should moisten his food with the secretions from the glands of the mouth, which will be more abundant with dry than wet food. But if the horse has the 'heaves' or is 'wind-broke,' he should on no account be fed with dry food. Oats form the most natural and nutritious food for the horse. For keeping a horse in good condition, the amount of food given should be determined by the person having charge of the animal basing his judgment on the size of the horse, also on the amount of labor, performed. My regular feed is:—Oats, 3 quarts; cracked corn, one quart in the morning and at noon. At 6 p. m. three quarts short's, which is a simple nourishment, and serves to keep the bowels regular and in good condition. Of course, the quantity should be varied according to the degree of exercise taken by the horse.

"As often as once a week, a change of food should be made—one feed of cut hay and meal, or cut hay with shorts will do. Carrots, given occasionally, will give a fine, silky appearance to the coat. Musty hay or oats should never be given. Let the food be the best of its kind—it is in the end the cheapest.

News Condensed.

—Work has commenced on the Canada Southern Railway.

—Mr. Taylor, Clerk of the Senate, Ottawa, is dangerously ill.

—The Intercolonial Commissioners will meet at Ottawa the 15th inst.

—Thermometer at Ottawa Tuesday night 22° below zero.

—It is said the Dominion Parliament will meet on the 10th of February.

—The roads in New Brunswick are blocked up with snow.

—The mercury at Ottawa has been 18 degrees below zero.

—Scarlet fever rages with fearful and fatal malignancy in Hamilton.

—There were 11,185 prisoners brought to the Montreal Police Station during 1870.

—Twenty miles back of Ottawa, the roads are almost impassable on account of the depth of snow.

—There is no truth in the rumor of the retirement of the Hon. A. Campbell from the Postmaster Generalship.

—Certain bankers of Berlin have been sentenced to long terms of imprisonment for participation in the subscriptions to the recent French loan.

—A Sacramento paper says the wild geese are so plenty in California that they give as much annoyance to railroad men as the grasshoppers in summer.

—There are just now building on the Thames three vessels for Russia, which with very slight trouble might be converted into formidable war ships.

—A rather strong minded young woman at Tuftonborough, Mass., who thought she had been courted as long as necessary, procured a certificate, took her too passive lover to a minister, and married him.

—An Arkansas man sentenced to be hanged, is in a bad way. The neighboring carpenters refuse to build the gallows, and the Sheriff don't know how. The prisoner is a carpenter himself, and the Sheriff has tried several times to have him build it, but he says "he'll be hanged if he will."

A Portland man wanted to gain admission to a panorama at half price on the ground that he had but one eye.

A WHALE NAVIGATING THE NORTH-WEST PASSAGE.—One of the whale ships in this harbor recently captured a whale in the Arctic Seas, which had in its carcass a harpoon. This harpoon was known to be long to a ship which was at that time cruising in the Northern Seas, on the other side of the continent. The whale had evidently passed from one open sea to the other by way of the Pole. He must have found open water, for even a whale must come up at short intervals to blow. It is certain that the Polar Sea is navigable for whales from one side of the continent to the other. But while it does not follow that the ships would follow the same track, the fact cited is one of considerable interest. Ship masters may be able to navigate the Polar Sea when they know as much of the high latitudes as this whale with a harpoon sticking in his back.—*Honolulu Commercial Advertiser.*

Brown—"Well, I always make it a rule to tell my wife everything that happens.' Smith—'Oh my dear fellow, that is nothing! I tell my wife lots of things that never happen at all.'

A lady recently said to a servant: "I wish you would step over and see how old Mrs. Jones is this morning." He returned in a few minutes with the information that Mrs. Jones was seventy-two years old.

A sea-captain, invited to meet the committee of a society for the evangelization of Africa, when asked, "Do the subjects of King Dahomey keep Sunday?" replied: "Yes, sir; everything else they can lay their hands on."

COMFORTABLE SUICIDE.—Hall, a queer genius, had made frequent promises to his friends he would put an end to himself. One stinging cold night he vowed he would go out and freeze to death.—About seven o'clock he returned shivering, and snapping his fingers. 'Why don't you freeze?' asked a loving relative. 'By Jove!' said the pseudo suicide, 'when I freeze to death I mean to take a warmer night than this for it.'

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attended by his homœopathic preparation of cocoa has never been surpassed by any speculation. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

CHRIST CHURCH.

IN compliance with a requisition, I beg to call a Vestry Meeting for to-morrow, FRIDAY EVENING, at 7½ o'clock. Meeting to be held in the Vestry Room of Christ Church.

☞ A full attendance is requested.

JAS. A. CHARTERS,
Church Warden.

Belleville, Jan. 5, 1871. 209-2i

Midnight Despatches.

The War in France.

Army of the North Victorious.

William the Victorious altered his plans.

LONDON, Jan. 4.—More reliable information has been received as to the movement of the French army of the North. It appears to have occupied the towns of Achelt and Briscourt after a trifling resistance from the Germans. The towns of Evillers and Behaignes were also carried by the French after hard fighting. The losses on both sides are heavy.

BRUSSELS, Jan. 4.—King William has abandoned the idea of entering Paris upon the capitulation. The forts of Paris are to be garrisoned and provisioned for two years, and the Germans are to hold Alsace, Lorraine, Belfort, Bitche, and the line of communication with Paris. After the unconditional surrender, which alone will be accepted, the Garde Nationale will be armed and be made responsible for the preservation of order in the capital, and the Corps Legislatif will be summoned to meet on the third of the following month.

GREAT BRITAIN.

Changes in the War Department.

NEW YORK, Jan. 4.—A London special to the World says:

The Duke of Cambridge is about to be succeeded by Lord Napier of Magdala as Commander-in-Chief of the army, and Mr. Cardwell, Secretary of State for War, by Lord Strathairn. England is determined to arm.

SPAIN.

The New King's Visit to Prim's Widow.

MADRID, Jan. 3.—Prince Amadeus, immediately after his arrival in the capital, paid a visit to the widow of Gen. Prim, and in a feeling manner expressed his sympathy for her in her bereavement. He then proceeded to the Chamber of Cortes and took the oath as King of Spain.

The enthusiasm of the people is universal.

The Russian Question.

LONDON, Jan. 3.—The Prussian Government has declined to accord the Austrian demand on the Powers for a fresh guarantee for the security of the navigation of the Lower Danube.

Morning Despatches.

Prim's Funeral.

The New German Empire.

NEW YORK, Jan. 4.—The *Herald's* special from Madrid, dated the 4th says: Prim's body was removed to-day to the Church of Nicodemus without disturbance. There were 60,000 people out and a very imposing procession took place. The carriage in which the assassination occurred was in the procession; its sides riddled with bullets, and its glass windows shattered. The body lies in state until Tuesday.

The steamers Wisconsin from Liverpool, and Missouri from Havana have arrived.

BERLIN, Jan. 4.—The *Herald's* special says: Von Beusk's despatch of the 26th was met with a hearty reception here. The New German Empire under the leadership of Prussia is recognized without conditions, and hopes are expressed that amicable relations between the two empires will be productive of great good to both countries.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

NEW YORK, Jan. 5.—A special despatch from Havre dated the 3rd, reports Bourbaki marching on the Germans, and that Chausey, at Lemans, is constantly pushing ahead with troops in flying columns. Ten thousand troops are marching on Paris via Chartres. Garibaldi is at Dijon doing very little. Gen. Faidherie is at Arras, preparing a movement on Manteuffel, probably with the intention of joining Bourbaki who is on the road to Germany to form a junction with the army of the North. There are now in Havre 16,000 troops outside in the neighborhood of Balbec, 20,000 exclusive of regular Frahc-tireurs and cavalry. The formal movement has commenced to-day. There is a general exodus of troops by railroad.

The way "to minister to a mind diseased" is to take Peruvian Syrup, a protected solution of the *protoxide of iron*, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

COUGH CURED.—Chas. F. North, of London, Ontario, writes that he has been cured of a cough that gave him great pain, and he was considered nearly gone with consumption. This wonderful medicine was Allen's Lung Balsam. Sold by every Druggist.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only bush any whispers of discontent in the Dominion; and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonee Indian remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

We all consider Iron the embodiment of strength and power, but how few are aware that it is this same element in the system, that gives us strength and vigor, and that an insufficiency of it causes weakness and debility. The Peruvian Syrup, a proxitude of iron, is prepared expressly to supply this vitalizing element.

TO THE WEAK, THE WORN, AND THE WEARY, the Editor of the *Boston Recorder* says, "We can most unhesitatingly recommend the Peruvian Syrup, a protected solution of the protoxide of iron, to all the weak, the worn, and the weary, having richly experienced its benefits. It possesses all the qualities claimed for it by its proprietor.

Especially for You,

The substance of volumes of medical advice may be compressed into a sentence, thus: Keep the digestive organs in a vigorous condition, the bowels regular, and the liver fairly up to its work, and you have no fear of the question. Puzzling as it may seem, every man and woman who is acquainted with the virtues of Brown's Sugar Coated Pills, can answer the query properly. Their extraordinary properties cover the whole ground. Is the stomach weak and spasmodic? They give vigor and activity. Are the bowels constricted? They relax and regulate them. Is the liver sluggish or congested? They bring it back to its duty. Is their office to aid? They bring it into natural conditions, without unnerving the system to an extent sufficient to cause any dire force, without suffering, of the organs of nutrition, and they do it. Many complaints of the organs referred to are complicated with disorders that affect the skin; the muscles, the flesh, and the glands. In all cases, that great detergent, Bristol's Sarsaparilla, will expedite and complete the cure.

SPECIAL NOTICES.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will cause the formation of good healthy blood by its action on the Digestive Organs, the Lacteals, the Heart, Lungs and Nervous System. "Persons suffering from impure blood, or whose health is going way, either as ministers or those who study closely, will find in the SYRUP the material to build them up and the tonic to keep them there." DR. CLAY.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

Chorister French Parish Church, Montreal.

F. DUCHARME.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief. HENRY WILKES,

Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will touch our harp to say "A Blessing on Mrs. Winslow," for helping her services and escape the griping, colicking and teething pangs. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Hive Syrup, Godfrey's, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the prospectus of her Soothing Syrup for Children Teething. If we had the power, we would make her Queen of the Nursery, as she is now Queen of Babies. 25 cents per bottle. Sold by all Druggists. Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations. 1d-W-3m

ALLEN'S LUNG BALSAM is warranted to break up the most troublesome Cough in an incredibly short time. There is no remedy that can show more evidence of real merit than this Balsam, for curing Consumption, Coughs, Colds, Asthma, Croup, &c.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 17-2w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Who is Mrs. Winslow!

At this question frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and Nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Good Words for the Pain-Killer.

"A medicine no family should be without."—Montreal Transcript.

"We can confidently recommend the Pain-Killer."—Toronto Baptist.

"It is the most effectual remedy we know of for aches, pains, flesh wounds, &c."—St. John's News, P. Q.

"We advise that every family should have so effectual and speedy a Pain-Killer."—Amherst (N. S.) Gazette.

"Our own experience is a bottle of Pain-Killer is the best physician a traveller can have."—Hamilton Spectator.

THE PAIN-KILLER IS USED BOTH INTERNALLY AND EXTERNALLY.

WHEN TAKEN INTERNALLY it relieves the most acute pain instantly, affording relief and comfort to the patient suffering from cramp and pain in the stomach, rheumatic or neuralgic pains in any part of the system, and in bowel complaints it is a sovereign remedy.

WHEN USED EXTERNALLY it is equally efficacious and it is the best liniment in the world. It is eminently a Household Medicine. Send to the nearest Druggist and get a bottle Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
d&wlm Montreal, P. Q.

The Last Great Success.

DIPTHERIA CURED.

PAIN-KILLER, so long used with uniform success in curing Coughs, sudden Colds, Bronchial and Throat Affections and so many prized by families and kept by them as a household medicine, has overcome this terrible disease Diptheria, and has effected marvellous cures.

One of the most startling cures I have a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Toungboo, Birmah:—

"My son was taken violently sick with Diptheria, Cold Chills, Burning Fever and Sore Throat. I counted one morning ten little vesicles in his throat, very white, and his tongue, toward the roof, just like a watermelon full of seed. The remainder coated as thick as a knife blade. So many children have died around me, I was afraid to call a physician, and thought I would try your Pain-Killer for a gargle, with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and he raised them up, often covered with blood. He was taken on Sunday; on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, with castor oil and heartshorn for his neck. It seemed to me a wonderful cure, and I can but wish it known to the many poor mothers in our land who are losing so many children by this dreadful disease."

The Pain-Killer is sold the world over by Druggists and Medicine dealers.

Price: 25 and 50 cents per bottle.

Examine the bottle well when purchasing to be sure you get the genuine made by Perry Davis & Son.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } By VIRTUE of
To Wit: } Two Writs of Fieri

Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thompson, Plaintiff, as James D. Davern, Robert Weller and Charles Davis, Defendants; and David Priestly and Thomas Priestly, Plaintiffs, as J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of, redemption of, in and to all those certain parcels or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Off Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1854, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (Yes from all nauseous drugs) now offered to the afflicted of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is founded on a new principle of Medical Chemistry, from the native curative properties of the most valuable vegetable productions in the world. The Sarsaparillian and other foreign roots yielding extracts that, in combination with the active principles of Stillingia, Yellow Dock, Queen's Delight, Burdock, Blood Root, Dandelion, Mandrake, Poke, Pine-making medicines are selected and gathered at the greatest care in the proper season, from the native soil, under the supervision of intelligent, experienced botanists, who, employed exclusively for Dr. Radway & Co., to find no expense or trouble spared to procure such as can possibly be relied with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone that the wonderful improvements it has secured to the curative virtues of the Sarsaparillian Resolvent, especially the

SARSAPARILLIAN RESOLVENT,

are now known to and over again : for none but the history of medicine was such a medicine this completely build up, repair, and restore sound strong, healthy, vigorous, and beautiful without the constant drug-from-them considerations, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS CONSTRUCTING AND PLESH-MAKING QUALITIES
It expels the system with all impurities or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin, Scrofula.
It increases the weight and appetite.
IT QUICKLY ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the waste.
It eliminates the products of decay.
It resolves Tumors, Nodes, Hart Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures all Kidney, Bladder, Gland, and Stricture.
It makes the water clear and pass freely.
It cures Dyspepsia, and gives it the vigor of manhood those who, from weakness of the digestive organs, are deficient or exhausted in essence woman from the purile incident to change of life—every female.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to be built up, repaired and sustained by the reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, be restored to active perhaps for years ; for no matter how low the fire of life may burn, if the bellows can be brought under the influence of this tissue and flesh-making principle, it will be generated in as great abundance as the BLOOD WILL receive that high degree of health, purity, and nourishment to sustain it to be in healthful solution all its constituents, and stop the process of waste and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of MERCURY, are developed through the blood. Ulcers of the Throat, Nose, Skin, Kidneys, Bladder or Cellular Tissue, and these diseases in their advanced stages can be cured by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will perceive the first marked change in her health for the better after taking the Sarsaparillian Resolvent. *As the blood becomes more pure, rich, strong, and sustaining, and is enabled to hold in solution its nutritious constituents, the deposits of Tuberculous matter and other elements of decay, decomposition and disease will be dismissed in the Lungs, Kidneys, Skin and other Organs ; and each of these Organs will acted their proper constituent secretions. Instead of Urine like the Purest Spring Water, and other Solid Matter absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails to be carried into the system, to correct these secretions, and to assist each organ or secreting gland in discharging their proper functions, health can never be restored ; hap-pily for the people of humanity,* Radway's Sarsaparillian Resolvent *secures this important want that has heretofore existed in all these remedial agents advertised as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones, abscesses and corruptions may be, the mysteries of this powerful agent—the blood and other fluids that supply the tissues with such constituents as to resolve and exterminate the disease, and decomposing matter, and by its place with sound and living structure, nourished by rich, pure, and strong blood, from the chemical action which the Sarsaparillian Resolvent has on the secreting glands in the process of digestion into Chyme and Chyle, before it is mixed with the nourishing elements and ingredients it converts into blood, and its specific action when entering in the circulation, it exterminates the diseases and humors from the blood, and resists away all deposits of disease, whether caused by the use of mercury, corrupted poison, or virulent poison, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other drugs that may have accumulated in the bones, tissues cartilages, joints, or fluids, or from any other unholy complaint that may have run through half a life-time.

Scrofula, Consumption, syphilis, mucous taint in the system, Rheumatism, Gout, Erysipelas, Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Cutaneous Discharges from the Ears, and the worst forms of Skin Diseases, Erysipelas, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, Leucorrhœa and all Female Weaknesses, Discharges, Night Sweats, Loss of Sperm, and all Wasting of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and in a few days' use will convince any person using it for either of these forms of Disease, of its great power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all are rapidly and surely influenced by Stoppage of Water, or Pain-ful Discharges, and by a few days' use are effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Esq., Confectionery, Montreal.

G. Donault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS on his Leg, which defied the skill of the most resident all kinds of medicine and the skill of the most eminent Doctors in Montreal and other parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, in connection with Radway's Pills and Ready Relief. He used one bottle of the Resolvent, one box of Pills per cent, and two or three bottles of Radway's Pills, and used as a wash of the Ready Relief. Before the Sarsaparillian Resolvent, diluted with water which completely healed him. He is now a well and hearty man, and spent hundreds of dollars, doctoring for nine years, and received in a out of less than five dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, Orange County, Vermont, was induced to see Dr. Radway, Esq., hold one of his known merchants, Mr. Harry Hall, who was cured of a bad case of Scrofula, covering the entire body—head, breast, back, arms, legs, &c., in a few months in September last, and he was the most revolting appearance of human being I ever saw. He was put under the treatment of Radway's Sarsaparillian Resolvent, Radway's Ready Relief and Pills. One month since, on returning to Canada, I saw the father, who told me that he was now completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Heads, &c., and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1870.

DR. RADWAY :—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was stopped and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel myself fully restored to health.
JONATHAN FREELAND.

N.B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the sold price of $1.50 per day will not be increased. It will be my study to speak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS.

(1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been one of the publishers to combine in its pages whatever is useful, whatever is pleasing, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and refined entertainment. For the Lovely Department, in most years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish stories for the Lady's Book unless some unforeseen contamination until they were gainfully afflicting, have been employed in such great numbers in almost every section of the country that the public scarcely needs to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt foe fastens upon the constitution of a newly-born babe, and invites the attack of enfeebling or fatal diseases, and at once begins a succession of its representatives, as it ascends to breed infection throughout the body, and to lay the foundation for future horrible sufferings. Into one or other of its hideous forms, either on the surface or among the vitals, all the ills that flesh inherits may be suddenly deposited in the lungs or heart, or tumefy found in the liver, or it dwells in its presence by eruptions on the skin, or foul ulcers at some one part of the body. Hence the importance of a knowledge of this *Sarsaparilla* is adapted to all scrofulous affections, and is the most powerful antidote to the scrofulous poison of the system. Persons afflicted with the following complaints generally find immediate relief, and, in most cases, by the use of this SARSAPARILLA : *Tetter, St. Anthony's Fire, Rose or Erysipelas, Pimples, Blotches, Boils, Tumors, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions of the skin. *Ulcerations of the Mucous Membranes*, whether in the throat, stomach, or other internal organs, are rapidly cured by such case are found in our Almanac, to be had gratis of the agents below named, or of any regular dealer. *Rheumatism* and *Gout*, of a specific character, have been remedied in numerous instances by this powerful alterative. *Syphilis or Venereal* and *Mercurial Diseases* are mastered by it, though in bad cases a long time is required for establishing a cure, as it is intended to put in thorough working order the whole system, and to remove entirely the obstructed passages of the blood. This SARSAPARILLA is a great remedy for the strength and purity of the blood. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervousness, Indigestion, Sick Headache*, or *Fears*, or any of the affections symptomatic of *Weakness*, will find in Sarsaparilla a tried and convincing evidence of its restorative power upon trial.

Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. During a long series of years, and among most of the races of men in the civilized world, it has been in constant use, as it has become better known. Its uniform success and wonderful cures of apparently desperate cases of the lungs and throat, have made it known as a reliable protection against them. When adopted in the milder forms of disease and to young children, it is in no less degree the safest remedy known, and can be given for incipient consumption, and the dangerous affections of the throat and lungs, with confidence against sudden attacks of *Croup*, it should always be kept at hand. Every family, indeed, is sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled consumption is thought incurable, still great numbers of cases where the disease was supposed to be settled, have been cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of these yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in frequent doses, and no one generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills and Fever, Periodical or Bilious Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, or any other form of mineral poison, or other form of whatever, it in nowise injures any patient. The most unbounded confidence may be placed in this remedy, and the public may rest assured that in all districts, are literally beyond account, and we believe without a parallel in the history of the world. Where our pride is gratified by the acknowledgements we receive from all parts of the country of its cures in cases, and where other remedies had wholly failed. Even in communities, either residents in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE.

For *Liver Complaints*, arising from torpidity of the Liver, in other words, from indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Sick Headache, Loss of Appetite, Faintness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Gout, Jaundice of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH. For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 superior pages embellished with fine engravings of Machinery, Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thinking country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all patents issued at Washington, with specifications of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have associated with them the most complete knowledge of the progress of Invention and Discovery throughout the world, with a view to make the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January 1st, 1871, a splendid Steel Engraving by John Sartain of Philadelphia, entitled :

"MEN OF PROGRESS—AMERICAN INVENTORS,"

the plate costing nearly $4,000 to engrave and contains fourteen likenesses of illustrious American Inventors. It is a superb work of art.

Single parts, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American before the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

$1,500 Cash Prizes.

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 15, 1871. Persons who want to compete for these prizes, should send at once for prospectus and blanks for ascertaining.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimens sent *free* address the Publishers MUNN & CO.,
Publishers, Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every man and woman trying on the dangerous period purchase their systems with Radway's Sarsaparillian Resolvent, and all whose systems have been shattered by suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, added with Radway's Pills, and they will enjoy such a high state of health as to make life a boon to them, and bring life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

arose the earliest stage of female suffering from Retro-FFrof the Catamenia, through all the troubles and dangers of the Womb, Uterus, Bladder, Kidneys, Impotency, Irregularities, Leucorrhœa, Hemorrhages, Ulcerations, Chronic Catarrh, Bad Humor of Pyramus, illness, or Weakness of Blood, and all painful symptoms. Pains, Aches, Giddiness, and the every complaint of Sickness peculiar to the female sex, are cured *RADWAY'S* Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with each of you as suffer from Indigestion, and its usual accompaniments, Habitual Costiveness, Piles, Biliousness, Fever, &c. Before accomplishing a cure, is intended to you in Brissels' Sugar Coated Pills, the only certain and perfect purgative known, to cleanse the obstructed passages of the system. Pains, Aches, Giddiness, and the every complaint of Sickness peculiar to the female sex, are cured *RADWAY'S* Sarsaparillian Resolvent.

Health, or Disease.

As the blood is the fountain of life, so will it be found to be the fountain of health or disease. Keep the blood pure with Radway's Sarsaparillian Resolvent, and health will follow. Impure blood is the cause of Scrofula, Consumption, Bronchitis, Ulcers, Sore Eyes, Rheumatism, Gout, Neuralgia, Tumors, Cancer, Erysipelas, Boils, Carbuncles, Pimples on the Face, Blotches, Worms, Fever Sores, Scurvy, Dropsy, Salt Rheum, Female Weaknesses, Chronic Mercurial Diseases, Diseases from Imprudence, and many other complaints.

Sores, Ulcers, Tumors.

Sores, Ulcers, Tumors, Cancerous Humors, Cancer, Scrofula, Scrofulous Sores, Blood Boils, Erysipelas, Fever Sores, Scaly or Rough Skin, Pimples on the Face, Blotches, Worms, Spots, Pain in the Bones, Joints and Limbs, Female Weakness, Syphilis, Venereal, Mercurial Disease, Gout, Dropsy, Salt Rheum, Rheumatism, Neuralgia, Consumption, Bronchitis, Coughs, Colds, Sore Throat, Mouth, Chronic Mercurial Diseases, Diseases from Indiscretion, Diseases from Imprudence, and many other complaints.

Scrofula, Consumption, Syphilis, Mercury.

Scrofula, Consumption, Syphilis, Mercury, Bronchitis, Coughs, Colds, Sore Throat, Mouth, Ulcers, Tumors, Cancerous Humors, Cancer, Scrofula, Scrofulous Sores, Blood Boils, Erysipelas, Fever Sores, Scaly or Rough Skin, Pimples on the Face, Blotches, Worms, Spots, Pain in the Bones, Joints and Limbs, Female Weakness, Syphilis, Venereal, Mercurial Disease, Gout, Dropsy, Salt Rheum, Rheumatism, Neuralgia, Consumption, Bronchitis, Coughs, Colds, Sore Throat, Mouth, Chronic Mercurial Diseases, Diseases from Indiscretion, Diseases from Imprudence, and many other complaints.

Sarsaparilla, Mercury, Iodide of Potassium.

Sarsaparilla, Mercury, Iodide of Potassium, Scrofula, Consumption, Syphilis, Venereal, Mercurial Disease, Gout, Dropsy, Salt Rheum, Rheumatism, Neuralgia, Consumption

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For all four of the Reviews, - - 12.00 "
For Blackwood's Magazine, - - - 4.00 "
For Blackwood and one Review, - 7.00 "
For Blackwood and any two of the Reviews, - - - - 10.00 "
For Blackwood and three of the Reviews, - - - - 12.00 "
For Blackwood and the four Reviews 15.00 "

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of twenty per cent. will be allowed to Clubs of four or more persons. Thus, four copies of any one or of one Review will be sent to one address for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

PREMIUMS TO NEW SUBSCRIBERS.

New subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* or 1870, *New Subscribers to* all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers. No* premiums can be given to Clubs.

Circulars with further particulars may be had on application.

Two vols., Royal Octavo, 1600 pages, and numerous Engravings Price $7. ☞ Mailed, cat-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Will this individual, whose ideas of Manure and Team are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

J. A. HARTE, Druggist,

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square; in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade—and as their Tables will be reasonable, they hope to obtain a large share of public patronage
H. HOGAN & CO.

H. ROSENBERG.
Belleville, Sep. 1868. 122-1f 32 1f

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a FIRST-CLASS HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other its fashions are more unique, because they are authentic and original, and not lifted copies, of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always handsomely and its contributors include some of the finest talent in the country.

Its *Leaders' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for horticultural purposes; and, in short, upon all and every topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 25 by 45 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address, W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. Weirs having purchased a proprietary interest in it, and become its publishers, in the belief that the region of country, second to no part of Canada in agricultural and horticultural resources, will liberally and well support a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who acknowledges with pleasure, and to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Ed wards and other eminent gentlemen have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding to the use and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the prosperous of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 24 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies. One copy of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.
Club of 5 Subscribers, - - $ 4.00
Club of 12 " - - 9.00
Club of 20 " - - 12.00
And all over 20, at 75c per copy, free of postage.

GABRIEL'S
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d, or 36 cents. Sold at Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO-LEVIGATED STOPPING, for preserving front teeth. Warranted to remain white and a firm to the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop in teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing, preserving the teeth, imparting a natural redness to the gums, whitens the teeth without injury between them any traces of powder, and gives brilliancy to the enamel. Price 2s 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Purifies the breath, and forms a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Toothache, Neuralgia, &c. It forms a most refreshing mouth-wash; has the most grateful effect in preserving the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 3s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in portal or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other dentists (which do not prove satisfactory) at moderate charges.
Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

(From Blackwood for December.)

Whilst two great powers were preparing for that fearful war which is now devastating the provinces of France, a small military expedition was being organized on the shores of Lake Superior for an advance into the Red River Territory. The writer of this article has just returned from Fort Garry, having taken part in the many wild adventures by flood and field encountered during the recent march there, participating in the excessive toil and constant exposure entailed upon all ranks during that curiously interesting operation. It had been determined upon in the spring, and the circumstances which necessitated it may be briefly described as follows:—

After many years of fruitless negotiation between Canada and the Hudson Bay Company, in which England acted as a sort of go-between, or mutual friend, it was arranged, in 1869, that the undefined country known as Rupert's Land, together with all the territorial rights appertaining to the Company in North America, should be transferred to the recently established Dominion of Canada for the sum of $300,000. That was practically the arrangement; but there was a three-cornered ceremony to be gone through first, in accordance with which, those vast outlying portions of the empire were to be legally transferred on paper to England, and then made over by royal proclamation to the Dominion.

The country had long been in the possession of the Hudson Bay Company, who had received a charter in 1670 from Charles II. granting them sovereign rights over a large portion of the North American continent. In the days of that gallant monarch our geographical knowledge of the western hemisphere was but small, and consequently the description of the limits given over to their jurisdiction, as recorded in the charter, was very vague. It may be fairly assumed that this uncertainty of title was one of the chief causes why the Company had never been desirous of having its claim inquired into by courts of law.

In 1773 a rival trading company—the "North Western"—was started; and in 1812 Lord Selkirk attempted to form a colony of Sutherlandshire Highlanders on the Red River, but the attempt was little better than a failure. These two Companies—the Hudson Bay and the North-Western—having contended with one another for the valuable fur trade of the country to their mutual injury, and until both were nearly ruined, united in the year 1813, both being since then merged in one under the ancient title of the Hudson Bay Company.

In order to carry on commercial operations, it was essential to have a certain number of white men at each of their numerous posts scattered over the continent from its western shores to where Canadian civilization, advancing from the Atlantic, was met with. Each of these posts soon became the nucleus of a small community. European women were scarce, and communication with England was both difficult and tedious, so men were obliged to content themselves with Indian wives, and a half-breed population was the result. For inland navigation along the many lakes and rivers that form such a network over a large proportion of our North American possessions, there is no better man than the French Canadian voyageur. A large number of them have been in the Hudson Bay service, which accounts for the fact of the French and English languages being spoken by about equal numbers on the banks of Red River. The language of the voyageur class, no matter from what race he may have sprung, has long been French; and the officers of the Company, speaking both languages, have always found it simpler to speak French than to take any trouble to teach their servants English.

French Canadian priests and Jesuit missionaries from France soon established themselves everywhere under the protection of the Company, and with their usual zeal quickly built up their church a considerable following amongst the families of a mixed origin. People conversant with the ways of priestcraft in other countries will easily understand the influence they obtained amongst a rural and scattered population in such an isolated place as Red River. Although the Hudson's Bay Company officers were the rulers *de jure*, the priests were so *de facto*.

At first sight it may appear strange that this could take place in a settlement where the Protestants and Romanists were about equal in numbers; but when it is remembered that the former consisted of several nationalities, and of still more numerous sects without any recognized ruler, and with many divergent interests, it can readily be understood how the smaller half, acting and voting as a unit under the direction of a wily bishop, backed up by a well-disciplined staff of obedient priests, maintained an unquestioned supremacy. So much was this the case that the legal rulers were only too glad to govern through their influence.

Two great influences were at work preventing the occupation of these vast prairies. First, the Hudson's Bay Company; and secondly, the Roman Catholic priesthood.

To have opened them out for colonization would have been suicidal to a Company enjoying the monopoly of the Indian trade. It would also have seriously affected the

supply of fur, as the number of wild animals decreases in a geometrical ratio, whilst population goes on increasing only in an arithmetical one. Its governing body has therefore for years back endeavored in a quiet way to keep the country as unknown and as much to themselves as possible, and to deter emigrants from going there by depreciating its value in the eyes of the world; so much so that many believed it to be a desert where grasshoppers ruled in summer, and an almost life-destroying cold in winter.

As for the Roman Catholic priesthood, they were desirous of gradually building up there another French Province, where the language, religion and laws of Lower Canada might be perpetuated, and which in times to come might, in conjunction with it, be some counterpoise to the steadily increasing, and by them much dreaded, preponderance of Ontario. They hoped to mould the Red River into what they would have described as a peaceful, orderly and contented people, but which, in the exact and cold-blooded language of Protestantism, meant an ignorant and superstitious peasantry, reorguising only as law that which was announced from their altars; destitute of education, except such as their priestly teachers thought fit to give them; taught only the *patois* which passes current there for French, so that they should be unable to read English papers; and only just sufficiently well off in that fertile land to enable them to lead a lazy life. In fine, both Company and priesthood were determined to oppose an emigration which would be destructive to the trading monopoly of the one, and to the unquestioned authority of the other. Both combined in describing the country as unfit for settlement, and quite recently a Roman Catholic Bishop, who has long resided in the North-West, published an interesting work upon that country, but fell of starting statements as to the fearful severity of its climate, and of its general unsuitability for farming purposes. He endeavored, as far as possible, to depreciate its value politically, so as to have deterred the Government of Canada from taking steps towards opening out communication with it.

Canada, a thickly wooded country, only affords a home to settlers after years of toil spent in clearing the land. The Western Province, now known as Ontario, has long been the go-ahead portion of British North America, whilst that to the east, now called Quebec, was always lethargic, progress being neither known nor desired there. The former is Protestant, and traditionally loyal to the English Crown; whilst the latter is as priest ridden as Spain, and peopled by a race of French origin, whose loyalty is only comparative, and as it were a choice between two evils, that is, between English and American rule. The priestly party know that under the latter neither their religion, their language, nor their Church property would be protected as it is by law, indeed it is doubtful if even their language and customs would be tolerated; so that there is much more of resignation than of cordiality in their adherence to our sway.

The inhabitants of these two Provinces lying side by side—not even divided by any natural boundary, as England is from France—have always maintained their original national characteristics. Those of Quebec evince a contentedness with their lot in life, and a dislike to change of all sorts, not only as regards their manners and customs, but even their place of residence; whilst those of Ontario, descended from British ancestors, retain that love for adventure and that spirit of enterprise for which our countrymen are so generally celebrated.

TO BE CONTINUED.

Going Rapidly to the Dogs.

Will we be charged with unstability if we say we had something like a feeling of certainty that the whole country, sick and surfeited with mismanagement, was going rapidly to the dogs? Have we not the evidence of this in the valuable paper contributed to the *Year Book* by Mr. James Young, Mr. P., on the "Dominion of Canada?" Mr. Young, an old newspaper man, is one of the bright lights of Brownism. He was one of the orators at the Clear Grit dinner in this city. He is a "free and accepted" member of the sect. Yet, what do we find him saying in his paper? Listen, ye unwashed Grits. For Canada, Mr. Young says:—"It can be fairly claimed that it stands prominently forward among the nations at the present time, rivalling any in general prosperity, and the happiness enterprise, and intelligence of its people." If anything could convince us of the wretched government we have had for some years, it is such a statement as this. But Mr. Young does not stop here. He goes into figures. He tells us that whilst the debt of the United States represents $8.75 per head, and that of Victoria, one of the Australian colonies, $3.16, the debt of Canada, of which so much has been said, is only 93 cents a head. In fact, of all the countries in the world, Canada has the lowest *per capital* debt, except Brazil, an undeveloped empire which stands on a par with it. With many more figures to the same effect, to which we shall have to refer hereafter, Mr. Young sets forth our peculiarly happy position, declaring with emphasis that Canada "is one of the most lightly taxed and cheapest countries in the world to live in."

We hardly expected this from a Brownite. We thank Mr. Brown for his honesty, nevertheless. In a candid review of our position he was compelled to speak the truth—and that Canada is one of the cheapest and most lightly taxed countries in the whole round of creation.

Does this, we ask, evidence good or bad government? We put the question to the electors of Canada.—*Toronto Leader.*

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—"The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps has obtained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the nutritive laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Tu.

Daily Intelligencer.

BELLEVILLE, FRIDAY, JANY. 6.

TOWN COUNCIL.—The old Council meets for the last time to-night in the Town Hall at 8 o'clock.

EPIPHANY.—To-day being the holy-day of the Epiphany was observed as such by the Roman Catholics. There were services in St. Thomas and the Roman Catholic Churches.

RIEL SAID TO BE POISONED.—A despatch from St. Paul, Jan. 5th, says: A rumor is afloat that Riel, of Red River notoriety, has been poisoned.

MARMORA.—The following is the Council for 1871:—Hugh Jones, Reeve; Solomon Johns, Sr., Ira J. Cook, Adam Airhart and T. P. Pearce, Councillors.

FISHING LICENSES.—The Marine and Fisheries Department is granting licenses to fish in some of the large lakes, in the County of Ottawa. These are the first fishing licenses ever granted for the Ottawa waters.

CANAL COMMISSIONERS.—The Canal Commissioners will meet on the 18th inst., at Ottawa, to consider the answers of the various Boards of Trade and others to the circular of enquiry in relation to Canal improvements, issued some time since by the Commissioners.

LECTURE.—We learn that Colonel G. L. Dennison will deliver a lecture on "The young men of Canada—their duty to the Dominion," some evening during the coming week. The fame of the lecturer as an author will doubtless attract a crowd. The lecture will be delivered under the auspices of the Canadian Society.

MASONIC HALL.—The performance of Nellie Nelson's troupe in the Masonic Music Hall last night was well attended, and the rendition of the pieces played was quite equal to expectations that had been formed. The company will appear again to-night in Craven's serio-comic drama of "Milky White," and the American farce of the "Fifteenth Amendment."

A NUISANCE.—The dragging about, by little boys, of hand-sleighs, upon the sidewalks is a great and *growing* nuisance. Many a fall and hard knock on the shins result to pedestrians from the want of a restraint upon this practice on the principal streets. Young Canada should be cautioned by the police or have his sleigh sequestrated.

A GOOD BEGINNING.—The project of 'Free Roads and no Tolls,' which the Kingston *Whig* advocated as the panacea for the ills that afflict that city has met its first success and what is more encouraging, says the *Whig*, from among the yoemanry themselves. The farmers living in the vicinity of Franklyn's Gate, Pittsburg, formed a club, and bid in the gate this year. Then they subscribed and paid the Road Company the amount of the lease, and thereby the road is thrown open to every one.

HEAVY SNOW STORM.—The London *Free Press* of the 5th inst. says since the middle of last week one of the most terrible snow-storms that has ever visited Ontario has raged in the County of Huron, completely suspending travel from Goderich for three days. The Grand Trunk from Stratford to Goderich was completely snowed up, drifts on the track in some places being twenty feet deep. Trains only get through yesterday. The storm is said to have been without a parallel in the district.

RAILWAY MEETINGS.—A meeting was held in Frankford, at Sager's Hall, on Friday, 30th ult., to discuss the question of the route of the Grand Junction Railway. Mr. Goldsmith was called to the chair, and the meeting addressed by Mr. Joseph Way and a number of other parties. There were about seventy-five persons present, and when a motion was made, only one voted against a proposition to grant a bonus in aid of the road. A similar meeting was held at Chisholm's Rapids on the evening of the 31st, in the school house, from 40 to 50 persons being present. After the question had been discussed for some little time, a resolution was passed unanimously in favor of the project. The ball rolls—keep it moving.

MAKE A NOTE OF IT.—The heathen Chinese have some notions that might be advantageously adopted by Christians. The way they celebrate their holidays is one of them. The first thing they do is to pay off all debts and square accounts to a fraction. Money matters having been thus adjusted, they next make up old quarrels, and shake hands all round. Having thus got square, pecuniarily and socially, they eat, drink and are merry, and finally wind up with a sparkling discharge of Chinese fire crackers. The paying of debts and the making up of quarrels is certainly a good way to begin a celebration of holidays.

A HUGE SELL.—Some parties in Napanee, not having the fear of a deceived public before their eyes, got up a "sell" on the residents of Napanee a few days ago. Their mode of procedure was to advertise a great female minstrel show, with an enticing programme, "Black Crook," and other tit-bits of the same kind figuring prominently in the bill. The night of entertainment—Tuesday last—came, the audience thronged the Hall, and finally the curtain rose, displaying not the expected females, but a number of the street arabs of the town, who started a wild sort of jig. The sell was at once apparent and a rush was made for the ticket office, but the genius who presided there had vamoosed, carrying with him the funds. So the disconsolate sold ones returned home, determined to be better informed before patronizing another entertainment of the same kind.

The Common Schools of Ontario.

Turning again to the Annual Report of the Chief Superintendent of Education, we find that the whole number of School sections reported was 4,598, being an increase of 43, chiefly in new townships. The schools reported as kept open, was 4,524. The number of free schools is steadily increasing, and it will not be many years before the free system extends over the whole country. The number of free schools now is 4,131, being an increase of 148; those partly free, that is with a rate-bill of twenty-five cents or less per month, is 393, being a decrease of 101.

During the year 169 school houses were built in counties, of which 44 were brick, 30 stone, 67 frame, and 28 log. Only one school house in a city is reported as having been built during the year; 4 in towns and 2 in incorporated villages. The number of school houses reported is 4,553, of which 815 are brick, 427 stone, 1,817 frame, 1,469 log.

The number of school visits shows that there is less interest taken than in former years, the decrease being no less than 7,396. The Superintendent is unable to give any explanation of this fact, but hopes it does not indicate any diminution of zeal and interest in Common School education on the part of those whose duty, and interest, and privilege it is to elevate and strengthen public opinion in this first work of civilization, and by personal presence and counsel to prompt and encourage the most indifferent parents to educate their children.

Under the heading of school lectures we find a gratifying increase, and it is stated the number of visits to schools by Local Superintendents is equal to the requirements of the law.

The average time of keeping the schools open, including the holidays, was eleven months and four days. This is nearly twice the average time of keeping open the Common Schools in the States of Pennsylvania and Ohio, and about three months more than the average time of keeping them open in the States of New York and Massachusetts—arising chiefly from our making the apportionment of the School Fundto School Sections, not according to population, but according to the average attendance and the time of keeping open such schools—that is, according to the work done in such schools.

Of the 4,524 schools reported, the daily exercises were opened and closed with prayers in 3,127 of them, being an increase of 66. The Bible was read in 3,002 schools.

The maps and globes, and most of the other apparatus used in the Schools, are now manufactured in Canada, forming a new and interesting branch of Canadian manufacture. Blackboards are used in 4,423 schools—increase, 169; globes are used in 1,283 schools—increase, 49; maps are used in 3,693 schools—increase, 163.

The statistics relating to Separate and Grammar Schools will appear in a future number.

County Court Term.

HANNAH vs. ROBERTSON.—Rule Nisi for non-suit. Mr. Dickson shows cause and Mr. Diamond supports.

DAFOE vs. DEACUP.—Rule for non-suit. Mr. Dickson shows cause and Hon. L. Wallbridge supports.

Legislature of Ontario.

THURSDAY, Jan. 6.

A number of petitions were presented, and a number of private bills introduced.

Hon. Mr. Richards moved that the House do resolve itself into committee on Tuesday next to consider the resolutions of which he had given notice respecting the Crown and Clergy lands of Ontario. In offering the motion the hon. gentleman stated that the Government had power to fix the price of lands at which the public lands should be sold, but it never had power to refund any of the price of the said lands. The Government had determined upon bringing in a bill for the purpose of giving it power to make a rebatement of the principal and interest due on the Clergy and Crown lands, and it had also decided since the recess to add the Grammar School lands. It was not the intention of the Government to make any rebatement in connection with the Common School lands, because according to the decision of the arbitrators those lands were invested for the benefit of Ontario and Quebec, and the revenue to be collected therefrom would have to be accounted for.

A lengthy debate took place which was continued until 10:20 p.m., when it was adjourned until Monday.

The Russian Question.

LONDON, Jan. 5.—M. Jules Favre has informed Count Bismarck through Mr. Washburne that he knows nothing of the European Conference and will not leave Paris to attend it.

—Mr. Creighton assumed the duties of Warden of the Kingston Penitentiary on the 31st inst.

Court of Revision.

The Court of Revision met last night for winding up the business of the year, as appointed, and concluded their labors. During the sittings of the Court the following cases were disposed of:—

Thos. Cliff—dog. Struck off.

Belleville Gas Company—Over assessment. To remain as assessed.

John Parker Thomas—Over assessment. To remain as before.

E. B. Frallick—dog. Struck off. Office in Ketchoson Ward to remain as assessed.

John L. Reed—Personal property. Reduced from $5,000 to $500.

David Brennan—wrong assessment. By consent of Mr. Henderson, struck off. Brennan & Campbell were assessed to himself.

Rev. John Grier—remission of taxes. Taxed as in former years; to pay $20 in Coleman ward and $26 in Samson ward.

Mr. Robertson—for three lots owned by Jacob Cronk. Put in non-resident list.

Geo. H. Haymes—personal property. Declaration not sworn to, and could not be entertained.

Geo. E. Henderson—vacant premises in Samson and Ketcheson Wards. And of taxes for vacancy passed in accordance with law.

Bleecker Estate. A similar case, in which two thirds taxes were remitted.

Wm. Brenton was omitted off the roll in Samson Ward. By his consent to be assessed for house, $1,250.

John Cook—Error in assessment. Amended.

Marchmont.—The Court referred this appeal to the Council.

Jas. Lister—Vacant ruins. To remain as assessed.

Wm. Walsh—Premises owned by Jacob Cronk. Struck off.

Henry Wilkins—Wrongly assessed for lot in Baldwin Ward. Placed on non-resident list.

John McCarty—For remission. To remain as assessed.

Flint & Yeomans—Mill taxes reduced to $100 in consequence of nothing being done in the mill this summer. Boarding house adjoining mill reduced to $10 on ground of non-occupation.

School and poll tax remitted in sundry cases.

R. Bullen and E. Holden—Half store assessed twice. Struck off Holden.

Daniel Mackenzie—Boat house assessed twice. Struck off.

Barton S. Gilbert—Office assessed twice. Struck off.

Wm. H. Vermilyea—Real estate reduced from $1000 to $400, the assessors stating that there must have been an error.

A large number of remissions, recommended by the collector, were made.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

FRIDAY, Jan. 6th.

A "CHARIVARI" AND ITS CONSEQUENCES.

Sarah Fegan charged Robt. Thompson, Hugh Kyle, John O'Mealia, James O'Mealia, John Lawlor, Louis Mosette, John Joss, and others unknown with unlawfully, riotously and wantonly beating and ill-treating her on the night of the 3rd inst.

The complainant was sworn and testified that, it being reported that she was married to a colored man, and that, on the night in question, a crowd, amongst whom were the parties above named, gathered at her house. These persons were very disorderly, having with them horns and other instruments and pistols, with which they made a great noise. Lawlor went into her house and raised disorder. Thompson shoved her while on the sidewalk. Mosette kicked her on the shin, while the rest snowballed her.

The witness created a good deal of merriment from the manner in which she gave her evidence. A large crowd was in Court, considerable interest being manifested.

Ormond Taylor was sworn, and said he was with Thompson on the night in question. Saw Mrs. Fegan at Covert's corner, calling the boys' parents everything. Several boys were calling out, 'where's the buck nigger?' Thompson told Mrs. Fegan to go home and it would be better for her. Did not think James O'Mealia was there. (Complainant did not recognize him, and he was discharged.) Kyle and Joss were not there. Thinks there was no premeditated disturbance.

The case was adjourned until to-morrow, to admit of the production of further evidence.

News Condensed.

—The London *Advertiser* claims that the election of Mr. Holden, as Mayor of Belleville, was a Reform victory.

—A learned physicist announces that this globe will support life for 26,000,000 years longer.

—Politeness is like an air cushion—there may be nothing in it but it eases our joints wonderfully.

—Montreal is in danger of another flood, the ice being piled up as high as the revetment wall.

—W. T. Farrel's store at Farran's Point, together with the instruments, books, &c., of the Montreal Telegraph Company's office, was destroyed by fire on the 5th inst. Loss, $10,000.

HOW MARRIED WOMEN ASSERT THEIR RIGHTS IN TEXAS.—A correspondent of the Denton (Texas) *Monitor* says, that a handsome, dashing woman rode into a village in that region a few days ago; alighting from her horse, went rapidly to a drinking saloon, where a number of sovereigns were having a 'high time.' She singled out the finest-looking man in the crowd, and, walking up to him, seized him by the arm, and ordered him to put down the glass which he was about to drain. He dashed down the glass, and ran away; the lady followed, and finally cornered him in the billiard room. She told him in a firm, determined voice, that the place he was in, and the course he was pursuing, would not answer for her husband; that he was wasting her property and that she would no longer consent to be disgraced and impoverished by him. She took his pistol from him, cocked it, and presented it at him, and told him he must leave or die. He concluded to leave. She marched him out as a prisoner of war, to where his horse was hitched, ordered him to mount, and in a few minutes the two were leaving town, the wife riding in the rear of her captured lord, with his six-shooter in her hand.

Midnight Despatches.

French Success in the North.

A Battle on the Loire.

Forts Bombarded Continuously.

Siege nearly at an end.

LILLE, Jan. 5.—A battle fought by the Army of the North on the 3rd resulted in a great victory for our arms. General Faidherbe reports that the fighting lasted ten hours, and that he expelled the Prussians from all their positions and occupied the villages held by them in the morning. The losses on both sides were heavy. The villages of Rapaume and Behagues were totally destroyed.

The fortress of Peronne, in the department of the Somme, has been nearly destroyed by the bombardment which commenced last week, but it still holds out.

The Prussians in force attacked the French on the left bank of the Seine to-day. The result is not yet known. No particulars of the battle have come in.

LONDON, Jan.—The Paris correspondent of the *Times* thinks the further resistance of Paris will be brief, and that food will fail before the end of the present month.

NEW YORK, Jan. 5.—A despatch to the *Herald* dated at Versailles on the 22nd says:—

"The bombardment of the forts on the north east of Paris continues vigorously and uninterruptedly. The return fire is weak, especially from Noisy and Rosny, and the destruction of the forts is certain. It is believed the attack is intended to prevent a sortie from that side, and is only preliminary to a general bombardment. Events are evidently pressing towards a climax. Information here leads to the belief that Chanzy is making a desperate effort to advance on Paris via Chartres.

"Bismarck has been confined to bed for the past few days with a bad cold. He is now recovering.

"Reports from Paris state that serious quarrels exist between the members of the Government, and also that deep resentment is expressed against some of the acts of the delegates at Bordeaux."

The War in France.

A Heavy Fog.

Charged with Treason.

VERSAILLES, Jan. 5.—A heavy fog prevailed all day yesterday and prevented an attack on a fort. Von Goeben has dispersed Faidherbes' army. The reports that General de Chanzy is advancing are confirmed.

BORDEAUX, Jan. 5.—The 'Liberte' charges Baron Erlanger with being an active agent of the Prussian commissariat. Another person will go to the Conference from Paris

IRELAND.

LONDON, Jan. 5.—The Presbyterians of Belfast have denounced Mr. Gladstone for the interest displayed by him in the welfare of the Pope.

FROM SPAIN.

MADRID, Jan. 5.—The general elections will be held on February first. The King walked the streets last night, accompanied by Serrano and Topete.

The Alabama Claims.

LONDON, Jan. 5.—It is rumored that a Prussian courier has been captured by the France tireurs near the Belgian frontier, and that on his person was found despatches urging the United States to press the Alabama claims. The report is hardly credited here.

The *Times* has an article on the Alabama claims question in which it says that England only desires by fair concessions to a frank allowance to bring about the settlement of this foolish quarrel which alienates two great nations allied by blood and sympathy.

American Despatches.

Schenck Again.

Reinforcements from Spain in Cuba.

Probable Rupture between England and Spain.

WASHINGTON, Jan. 6.—It was determined by the Ways and Means Committee of the House yesterday to tender to General Schenck, before his departure for England, a complimentary dinner. Invitations have been extended to the Senate, Finance Committee, Vice Pres't Colfax, Speaker Blaine, and Secretaries Fish and Boutwell. It is understood that Schenck will not be expected to refer in any speech he may make on the occasion to his future action in England.

NEW YORK, Jan. 6.—A newspaper correspondent at Havana mentions the arrival of reinforcements from Spain, numbering 31 officers and 21,777 men; also that Captain-General Valmaseda is punishing for disloyalty; that there are indications of a disturbance between England and Spain, owing to the seizure by the letter of the British schooner 'Victoria'; and that the volunteers of Havana find it impossible to live on Government rations, hence a subscription has been started to supply them with other food.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, January 5.—General Manteuffel telegraphs from Amiens on the 3rd that General Bentheim, with troops from the first army corps, attacked the French early on the morning of that day, on the left bank of the Seine, and captured 2 cannon, 3 flags and 500 prisoners. General Bentheim telegraphs from Blosen on the 4th, confirming the above, and adds that he has pursued the enemy beyond Bourgashard. The battle lasted throughout the day.

VERSAILLES, January 5.—The bombardment of the southern forts of Paris commenced at 9 o'clock this morning.

NEW YORK, Jan. 6.—Late foreign advices state that Sir R. Murchison is pronounced out of danger, but much shook by his recent indisposition.

There is a report that Dr Livingstone has arrived at Mozambique, and that he was waiting for a vessel bound for England.

The steamship 'Algeria' has arrived from Liverpool.

—Garrotting has become a favorite amusement at Montreal. On the 3rd inst., so early as half-past 7 in the evening, a gentleman of high repute was knocked down and robbed in one of the most respectable and orderly streets in the city. The garroters escaped.

Eccentricities of Authors.

Bulwer rit 'Night and Mornin.' What he did with the rest of the day is not stated.

Collins rit 'After Dark.' Perhaps he couldn't write so well by day.

Lo Fanu, he rit 'All in the Dark.' I don't see how he did it without a lite.—How could he see to dot the i's or cross the t's?

Some other wrote 'Round in the Wheel.' an unkumfortable posish to rite in, bound to a wheel. Thunder!

Carpenter rit 'Six Months at the White House.' I spose that was as long as he stade there, his time bein' out.

Gilmore roat 'Four years in the Saddle,' so 'tis red He must hov hed a 'quiet horse.'

Miss Mullock rowte 'Nothing New.' This cood be set to meany others with grate propriety.

Harrington rit 'Inside.' I take it for granted that most people do. It wouldn't be kumfurtable ritein on the sidewalk in rainy weather.

Some other, hoo didn't give us his name wrote 'Altogether Wrong.' A good meney he'z cayne I from his rite, but her he hed the sfrunterry to give us their names, bein lost to shame.

Mrs. Mackenzie Daniels rote 'After Long Years.' Sensible woman. It sum ov the rest of 'em would wait till they git to the age of discretion, it would be better fur awl konserned.

—Water navigation between Kingston and Cape Vincent ceased for the winter on the 31st inst.

SPECIAL NOTICES.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will cause the formation of good healthy blood by its action on the Digestive Organs, the Muscles, the Heart, Lungs and Nervous System. "Persons suffering from impure blood, or whose health is going way, either as ministers or those who study, will find in the Syrup the true material to build them up and the tonic to keep them there."
DR. CLAY.
Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal.
d&w1w

Bronchitis, Coughs, Asthma, and all disorders of the Throat and Lungs, are relieved by using Dow's Bronchial Troches.
I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.
C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.
Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. EGGLESTON.
It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.
T. DUCHARME,
Chorister French Parish Church, Montreal.
When somewhat hoarse from cold or over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
HENRY WILKES,
Pastor of Zion Church Montreal.
Sold by all Dealers in Medicine at 25 cents a box. 47 2m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, at Chambersburg, Penn.:
A BENEFACTRESS.
Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our boy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the gripping, cracking and teething stage. We confess every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.
We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, aside in a physical savour to the Infant Race. 25 cents per bottle. Sold by all Druggists.
Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.
d&w-4m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 772w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—
"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * *
I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."
Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime as a nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No mortum has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.
Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47 2m.

DIRECTORS—Hon. ROBT. READ, M. L., JOHN COOK, Esq., R. W. WILLIAM, B. A., M.D., LEWIS CHURCHSHANK, Esq., ROBERT E. GRAHAM, Esq., SAMUEL GILBERT, Esq., JOHN ROW, Esq.
JAS. H. PECK, SECRETARY-TREASURER.
BANKERS—The MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expenses of working the Farms by each Branch is proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care; to furnish amusement of a healthful, safe knowledge and sound moral principles.

CIRCULATION.—TWENTY-FIVE THOUSAND of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 a year ; four copies for $3 ; ten copies for $12 ; twenty or more, $1 each ; 8 sample copies, 10 cents each.

☞ Try it a year. ORANGE JUDD & CO.
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having purchased the *Gazette*, and become the proprietors of the *Gazette*, have greatly enlarged and otherwise improved the latter, having now printed on new type from the foundry of C. T. Palgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the Province of Journalism. Editorials are furnished upon all the live topics of the day, with regards to different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent dictation.

THE COMMERCIAL REPORTS.

The publishers fully appreciate the importance and importance of accurate and full Commercial reports in a newspaper aspiring to take rank as the great commercial metropolis of the Dominion, and have made special arrangements which will make the commercial columns of the *Gazette* unquestionably the leader. Reports of Fairs, notes and accuracy or information to those of any other paper published in the City. By the publication of Sectarian talent in this important department the *Gazette* will be made a monthly or semi-monthly visitor to all the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legislative influence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is now fully and minutes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials,	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all poisonous or disturbing effects) of the present day.—Radway's

SARSAPARILLIAN RESOLVENT,

a preparation on new principles of Medical Chemistry, from the active curative properties of the most valuable vegetable productions in the world. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicines are selected and gathered with the greatest care as to genuine reason, from the native soil, under the supervision of intelligent agents—experienced botanists—employed exclusively for Dr. Radway & Co.—to find in their primitive substances or worthless rock can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and personal attendance, and other large and heavy incidental expenses of scientific experiments in his research to find the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, over the old system of

SARSAPARILLIAN RESOLVENT,

now pays for the outlay, more than ever, for none but the best ingredients. The supreme test such a medicine has to be completely healthy up, repair, and build sound strong, healthy, vigorous, and beautiful women, and sound and broken-down constitutions, is

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS THE VERY ELEMENTS AND FLESH-MAKING QUALITIES.
It supplies the system with elaborate or heat-making properties.
It cures all Exculcated diseases and Ulcerated discharges of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the appetite and digestion.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the waste.
It exterminates the products of decay.
It cures Female Tumours, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It cures Rheumatism, Neuralgia, Piles and Tetter.
It cures Barrenness, and invests with the vigour of manhood those who from weakness or disease, are deficient or exhausted to repair women with the fertile incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, **however stated of disease**, that their systems are still in a position to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not worn at beyond the process of repair, or if capable of sustaining the renovating power of DR. RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay and disease exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are not wasted, ulcerated, or the functions interrupted and secretions altered beyond the reparative power of medicine, and will by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years, and recover ; for the vital force may be, if the system can be brought under the influence of this remedy, and the aid of medicine, the repairs will be greater than the wastes and decay, and the blood will have that degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of VENEREAL are developed through the system opposite from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue ; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Bowels, Stomach, Womb, or Urinary difficulties, will experience a marked change in his health for the better on using the **Sarsaparillian Resolvent.** *At the blood becomes more pure, rich, strong, and vitalizing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs, and each or third Day signs will accompany their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other Fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence in the purpose, and these secretions, and so do not each organ or secreting gland in discharging it, proper functions, health can never be restored. That is why for suffering humanity,* **Radway's Sarsaparillian Resolvent** *possesses this important merit, and has heretofore existed in all these remedial agent which are required to*

No matter how deeply seated or engrafted in the system Cancers, glands, organs, or tissues disease, and corruption may be, the influence of these powerful agents on the Blood and other fluids will surely find the lurking place with repairs, will so charge the system with such constituents as to resolve and eradicate from it all foreign and decomposing matter, and destroy its place with sound and living structure, nourishment, health, strength, and strong bodily and chemical action which the Sarsaparillian Resolvent has in every instance established in the human system.

In the process of digestion into Chyme and Chyle, before the Food can be taken up, as well as nourishing, it represents it converts into blood, and its specific action on the blood, by the circulation, it is conveyed to every atom of vrea from the blood, and resists all the inroads of disease, whether caused by the seizure of some specific poison, or virulent disease, or Mercurial Disease, Contagious Blood Poisons, Chloride of Mercury, Calomel, and other agent. Has been in accumulation in the bones, joints, cartilages, or joints, or from some transmitted taint or complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, mucous or bilious diseases, Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the Breast or other parts of the system. Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Rash, Spots, Pimples, Worms in the Flesh, Tumors, Cancers in the Womb, and all wasting and painful Diseases, Discharges, Night Sweats, Loss of Sperm, and it will work in the following manner : Take of the curative range of the Sarsaparillian Resolvent, and a few days' use with proven to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Stricture and all Complaints of the Urinary Organs, Kidneys, Bladder, Weakness, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Pain or Dull Heavy Sensation in the Small of the Back, effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. S. Chapman, Druggist, Brockville, Travellers Secretary.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS on his leg, which defied the skill of all that resisted all kinds of medicine and the skill of he best Doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** with **Radway's Pills and Ready Relief.** He used only about two bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, in all, about a wash of the **Ready Relief** of **Sarsaparillian Resolvent,** diluted with water which completely healed up the two ulcers, and previously spent hundreds of dollars, doctoring and was told he was cured at a cost of less than five dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, county of Orange, Vermont, had for nearly half the county, in the business of Paper Mills, Hotels, &c., told me of his knowledge of my remedies, and that for 15 years, was covered with one SOLID SCAB, covering from his neck to his knee—trunk, thighs, legs, and all. I saw him in September last, and he was in the most revolting state I ever saw. At my request he was put under the treatment of the Sarsaparillian Resolvent, **Ready Relief and Pills** One month after, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have suffered from Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDEN STATION, Ontario, Canada West,
Dec. 1st, 1870.

DR. RADWAY :—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian at Brockville. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued using the bottles and now all signs of sickness, disease and threatening Consumption has left me. Radway's have truly been fully recovered. JONATHAN FREELAND.

N. B.—The gentleman above was well known to have been under the treatment of the best physicians in Canada—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent.

Commercial Agent for Ontario

PRINCIPAL DEPOT.
439, ST. PAUL STREET, MONTREAL

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened for the season under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the only price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, and whatever is refined, with what will interest and amuse. For the Low-ery Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish stories for this year 1870. Such names as

MARION HARLAND, MRS. CHURCHILL,
LOUISE S. GORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK outlines fourteen each year together with a variety of others, which cannot be equalled in the country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness like world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet in our pieces, containing twenty, thirty, and sometimes forty designs in embroidery.

MUSICAL MUSIC.—but it's in the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in the country that gives home designs in the Lady's Book.

DRAWING LESSONS.—In this we are also alone.

WE have no space to enumerate all the EXCELLENCIES, and beauties of

GODEY'S INVALUABLE REGISTRY

upon every subject, for the Boudoir, Nursery, Kitchen, Sick and Lady's Table.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give a real satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters.
FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established world wide fame, its staying qualities, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and vicious Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled ; it is pleasant and palatable to the taste, it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them ; it gently creates a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Dyspepsia in its most obstinate forms, Sick Headache, Nausea and Nervousness (caused by Debauch) Biliousness, Costiveness, Indigestion, Dizziness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Impurities of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Diseases, Affections of the Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville :

G. C. Borrodaile,
E. Chandler,
Charters & Co.,
James Bamsby,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Belleville, Oct. 17, 1870. 143tf

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, at home and abroad, in many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Syphilitic affections and disorders, which have long grassated by the scrofulous taint in our systems, are completely eradicated by its use. Mercurial diseases, the effects of injudicious dosing, are counteracted by it. Even those formed in the liver, or it shows its power over this great organ when other cures fail. Many of the worst maladies that afflict mankind will be found to originate in the blood. Hence the occasional need of a blood purifier, and hence the great benefit to be derived from the use of Ayer's Sarsaparilla in all cases where such a remedy is required. Impure blood is the cause of many painful and dangerous diseases. Keep it pure, and the health of the body will be good, and disease will have no foothold. Expel it when it is vitiated, or when sickness is in the system, and you will be restored to health and vigor. Many people suffer from sores, blotches, and pimples on the surface of the body. Others are troubled with internal complaints of various names and natures. All these arise from impure blood. Ayer's Sarsaparilla will purify the blood, and thereby cure all diseases that have their origin in this fluid. Many of the worst cases of Scrofulous disease, Erysipelas, Eruptions, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Pimples, Blotches, and other forms of cutaneous disease, have been cured by this remedy. Also in the more concealed forms of disease, such as Dropsy, Heart Disease, Pain, Tightness, Neuralgia, and the various derangements of the female system, it has proved its virtues. Ayer's Sarsaparilla is a great tonic for Nervousness and Debility. It will build up the strength and invigorate the nerves. Those who are languid and listless, Despondent, Restless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative powers in this.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Thomas Dunks, Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Colds, Coughs, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among nearly all classes of men it has held a character higher in their estimation, as it has become better known. Its uniform success in curing the most dangerous affections of the lungs and throat, have made it known as a reliable antidote for the most insidious diseases that settle in those organs, and so wherever disease of this character is prevalent, there the public are sure to be found in greatest numbers, and there the Cherry Pectoral has been longest used, and is most highly valued. Indeed, when once employed in the treatment of any case of Throat or Lung disease, it is unnecessary for the sufferer to seek further for a remedy, and useless for the physician to prescribe any other. The number and character of the cures it has effected in every section of the country, are literally beyond account, and we believe there is no community in which there are not living witnesses to its potency. Many of these publish their cases

The Daily Intelligencer.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in these pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 10.00 "
For any three of the Reviews, - - 12.00 "
For all four of the Reviews, - - 15.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one of the Reviews, 7.00 "
For Blackwood and any two of the Reviews, 10.00 "
For Blackwood and three of the Reviews, - 13.00 "
For Blackwood and the four Reviews, 15.00 "

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of twenty per cent. will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent to one address for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one of the Reviews* or 1870. New Subscribers to all the five may receive *any two of the Reviews* for 1870.

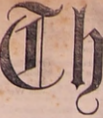

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is *remitted direct to the Publishers.* No premiums can be given to Clubs.

Circulars, with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed that he has tried his hand on the majority of popular articles which have been brought out for the last few years This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange supposition of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are desirable for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep au courant of what is passing in the world around them.

For this purpose no medium at so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other its fashions are more unique, its designs are authentic and original, and no blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It has always been hand-some, and its contributors include some of the finest talent in the country.

Its *Lodies' Club* affords valuable and useful information every subject.

It is the best magazine for the utilities and ornamentation of the household; the best paper upon fashion, horticulture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 23 by 31 inches, entitled "The Picnic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by critics to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure stories that cannot be so much comfort and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary inducements for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that the people of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and *ought* to sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who will manage the paper as heretofore, to be the ablest agricultural writer in the Dominion; and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in the interest and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*.

Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairymen, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 324 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, a *Free Copy* of each number, at *Seventy-Five Cents* each, free of postage.

MERCHANT Tailor and Clothier, Front St., Belleville, over Tickell's Furniture Store. Garments made to measure and warranted to fit. 1136m

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY
MESSRS. GABRIEL,
Dentists,
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL for stopping decayed teeth. Renders the tooth sound and useful, and stops tooth ache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S ORIENTAL ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and a firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop as many as you like. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and preserving the teeth, and imparting a natural redness to the gums, whereon the teeth are inserted, thereby preserving their true character, and gives full-blazed to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a beautiful whiteness, and invigorates the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for the relief in the cases of Tic, Neuralgia, and Toothache, and forms a very refreshing wash, and imparts the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums; and is most invaluable to Smokers. Price 4s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in perfect or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with impressions of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other dentists, (which do not prove satisfactory) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

☞ All letters to be addressed to 64 LUDGATE HILL, LONDON.

Are You Insured ?

THE WESTERN, of Toronto, Fire and Marine Assurance Company, are prepared to effect risks in both branches, through their Agent, M. B. ROBLIN, on the most reasonable terms.

☞ All claims promptly settled.

The Sergeant of the Fiftieth.

Out of blackened clouds of powder,
Gazed the moon upon the night;
Where had rolled the battle's thunder,
Ere the coming of the night.
An old sergeant of the Fiftieth
To his general made report:
"Present four, and 7—all wounded—
Praised be God we hold the fort!"

Weak and trembling were his accents,
For his blood was almost spent,
But the general asked him gruffly
What this foolish trifling meant;
Where his company was quartered.
Turning to his comrades four,
He made answer: "Pardon general;
Shot and shell have left no more!"

"These the mitrailleuse have spared us,
Five poor wounded, these alone;
Sharp and fierce the shock of battle,
But the enemy are gone!"
"Then return to your battalion,
Comrade brave," the general said,
"Pardon, general; here you see them,
On the crimson sod are laid!"

"All the rest!" the general murmured,
Gnawing at his moustache grey,
"Sorely my poor boys are beaten;
Cursed be their task to-day!
Still, we took those murderous cannon!
To your regiment now repair."
With low voice, replied the sergeant:
"Pardon, general; they are here."

Seizing with his hand the sergeant's,
Tears dissolved the general's pride;
"God avert more such misfortunes!"
In a quivering voice he cried.
"Friends, the eagle which we followed,
And the flag are they lost too?"
"Never!" and the bloody tatters
From his breast the soldier drew!

—From the French of Le Guillet.

Children Changing.

When our children are about us, we should anticipate the time when, as in the case of the patriarch, they will all be away.

"How the children leave us, and no traces
Linger of that smiling angel band—
Gone! Forever gone, in their places
Weary men and sighing woman stand."

Watch, and within the brief circuit of a year, sometimes even in the course of a few months, you will see a change in the little faces. Take photographs of them, and if you happen to lay them by for a few years, and then open the book, you will have a surprise. You will have something like the feeling—"Why, I have lost these children. Surely they have gone from me. Has God taken them?" No. They are "about" you still. They are beside you now, looking at the pictures of themselves. They can see no resemblance to the image they see every day in the glass. So they vanish from us, even when they live and we see them no more. The infant is the infant but for a little. The little girl with the ringlets is a wayfarer who is tarrying with you only for a night. She will go on again in the morning towards womanhood. And the sunny boy will keep her company on the way to manhood. Very soon you will see touches of the manhood and the womanhood on their faces. Then will come their loves, their marriages, their cares, their children—and you will be grandfather and grandmother before you know. Many are taking these hours contentually while yet they are not old. Their children conspire to crown them without their leave, although, generally, much to their delight. Then a few years more, and your children's children will leave you as they shoot up to men and women. You will have to reach across two generations then to find the children.

Not can we forget that there are always some who far outstrip us out—who do not glide away on feet along the earthly ways, but who have wings woven in silence on which they fly to the fields of heaven. We have spoken of the facial changes as children grow up to be men and women; but there is another change which sometimes comes on a young face, which betokens a growth quite out of this world, a putting on of the beauty and glory of another. A change this, and at first to see, sorrowful exceedingly to our earthly affections. Yet a change growing more and more fair to look on, a rebuke to our sorrow, a life-long memory to our love.

"Have we not sought that smiling
On some beloved face,
As if some heavenly sound were willing
The soul from its earthly place;
The distant sound and sweet
Of the Master's coming feet?

We may clasp the loved ones faster,
And plead for a little while;
But who can resist the Master?
And we read by that brightening smile
That the trend we do not hear
Is drawing surely near.

Then gently enters the Master,
Through the room His garments sweep,
And our trembling hearts beat faster,
And our eyes forget to weep,
For now we can hear him say
'Thou shalt be there to-day.'"

—London Recorder.

The Old Fashioned Mother.

Thank God, some of us have had an old fashioned mother. Not a woman of the period, enameled and painted, with her great chignon, her curls and bustle; whose white jewelled hands never left the clasp of baby fingers; but a dear old fashioned, sweet-voiced mother, with eyes in whose clear depth the love light shone, and brown hair, just threaded with silver, lying smooth upon her faded cheek. Those dear hands, worn with toil, gently guiding our totteriog steps in childhood, and smoothing our pillow in sickness; ever reaching out to us in yearning tenderness, when her sweet spirit was baptized in the pearly spray of the beautiful river. Blessed is the memory of an old fashioned mother. It floats to us now like the beautiful perfume, from some wood-

land blossoms. The music of other voices may be lost, but the entrancing melody of hers will echo in our souls forever. Other faces may fade away and be forgotten, but hers will shine on until the light from Heaven's portals will glorify our own. When in the fitful pastoss of busy life our feet wander back to the old homestead, and crossing the well worn threshold, stand once more in the low quaint room, so hallowed by her presence, how the feeling of childish innocence and dependence comes over us, and we kneel down in the molten sunshine, streaming through the western window—just where long years ago, we knelt by our mother's knee, lisping "Our Father." How many times, when the tempter lures us on, has the memory of those sacred hours, that mother's words, her faith and prayers, saved us from plunging into the deep abyss of sin. Years have filled great drifts between her and us, but they have not hidden from our sight the glory of her pure unselfish love.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger.....	4:00 A. M.
" 4 Express.....	9:45 "
" 8 Mixed.....	9:45 "
" 2 Express.....	6:15 P. M.

GOING EAST.

No. 1 Express.....	11:10 A. M.
" 7 Mixed.....	9:40 P. M.
" 3 Night Express.....	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East....	10:15 a m.	11:10 a m.
do do do West....	5:15 p m.	6:15 p m.
Night Mail going East....	9:00 p m.	12:25 a m.
do do do West....	9:00 p m.	6:30 a m.
Stirling, Marmora, Harold, &c.....	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.....	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Hallowway, &c.....	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Redorville, &c., everyTuesday, Thursday and Saturday....	6:00 a m.	5:30 p m.

Mails for Picton and vicinity are sent via Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—2:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

J. H. MEACHAM,
Post Master.

Daily Intelligencer.

BELLEVILLE, SATURDAY, JANY. 7.

ARRIVAL.—The steamship *North American* arrived at Portland at 7 o'clock this morning.

THE HON. JOHN ROSS.—The many friends of the Hon. JOHN ROSS, so long a resident of Belleville, will regret to learn that he is dangerously ill in Toronto. The *Globe* of the 6th says: "It is not thought that he will survive many hours, dropsy having set in."

WHISKEY MASON.—This noted informer, after having run amuck against the tavern keepers, has sought higher game, having had a tilt at the House of Assembly and Osgoode Hall, for not having their doors open outward. He has now fallen foul of the Press, by charging the Toronto *Telegraph* with advertising a raffle.

Municipal Elections.

DUNGANNON AND FARADAY.—The first election for these United Townships resulted in the election of J. R. Tait, Reeve; Dermot Kavanagh, James Gould, Augustus Kennedy, and J. C. George, Councillors.

TUDOR.—In the United Townships of Tudor, Wollaston, Limerick and Cashel, the successful candidates are—Jacob Caldwell, Reeve; James McGregor, John Ray, Peter Gonter, and William Blackburn, Councillors.

SIDNEY.—The following are the official returns of the vote in this township. For Reeve, Ballis Rose 392; Robt. Bird 187; majority for Rose 235. For Deputy Reeve, C. Armstrong 321; John Rowe 298; E. Sills 143; A. Anstee 127. For Councillors, Robt. Gross, 346; James Chisholm 273; — Massey 209; John Flindell 201. The Council for 1871, therefore consists of B. Rose, Reeve; C. Armstrong and John Rowe, Deputy Reeves; Robert Grass and J. A. Chisholm, Councillors.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

SATURDAY, Jan. 7th.

THE FRIEHER CASE.

Mr. Howell appeared for the defence and stated that he had as yet received no answer from the Department in reference to the case, and asked for a further adjournment. The case was accordingly allowed to stand over for another week.

THE "CHARIVARI" CASE.

This cause *celebre* was quite as successful in drawing a large audience as it was on its first hearing yesterday, an eager interest being manifested in the proceedings.

Patrick Murphy was sworn, and said he saw a large number of boys and young men on the sidewalk near Mrs. Fegan's, none of whom, however, were recognized by him.

Robert Hunter, sworn.—Saw a little "fray" on the night of the 3rd; saw a few boys running up and down the sidewalk, making a noise; this was on the next street; saw Lawlor, Jose, Thompson, John O'Mealia, Robt. Arthurs, and Hugh Kyle; none of these made any noise; saw Mrs. Fegan, she was talking to the boys.

James O'Mealia was called for the defence, and said that Mosette was with him that night at John Leavens'.

The defence set up was mistaken identification.

The Magistrate, in giving judgment, said the evidence adduced was not sufficient to convict the prisoners. He would, however, warn them and all present against engaging in charivaris or any other sports of that kind, as they were contrary to the law. The prisoners were then discharged.

The Crown Land Policy.

It will be a matter for congratulation, and a subject of surprise to many of our readers, when they learn that the Commissioner of Crown Lands, the Hon. Stephen Richards, has at length loosened the iron policy, which has hitherto governed his department. Though somewhat tardy in doing justice to those who have become actual settlers, and whose arrears of principal and interest now amount to more than the value of their lands, the present proposition will meet with the general approval of the people of Ontario. Mr. Richards moved that the House go into Committee of the Whole to consider the following resolutions:—

"1. That in the opinion of this House, it is expedient that the Lieutenant-Governor in Council should have authority to reduce the price of any Crown or Clergy Lands sold previously to 1st July, 1867, where it shall appear that such lands have been sold at prices beyond their fair value, and that such prices remain unpaid. Also, to make such abatement of the arrears of interest upon the unpaid instalments of the purchase money of any Crown or Clergy Lands sold prior to the said date as may appear equitable and just. And also, by order in Council, to confer such authority upon the Commissioner of Crown Lands.

"2. That such reduction and abatement should be confined to cases in which the purchasers from the Crown or those claiming under them are in occupation of such lands as actual settlers and residents thereon."

The intention of the Government is to appoint an Inspector, whose duty it shall be to investigate and inquire into each claim as it is presented, and upon his report will the Ministry take the responsibility of acting. The mode proposed is the least expensive, and will prove the most effective that could be devised. True to their antecedents the opposition is inconsistent with itself. The appointment of Commissioners by Government, has been a fruitful source of complaint and condemnation on the part of the opposition press, and opposition members. Now these same parties, as will be seen by reading the debate are condemning the Ministry for proposing to act before a Commission shall have reported. The truth is, the opposition cannot hide the chagrin which they feel at the loss of so fruitful a topic for the coming election—justice to the settlers, being taken from them. Had a proposition been made to appoint a Commission, Ontario would have resounded with the cry, that it was a delay to tide over this important subject until after another election, and to avoid the responsibilities of acting. The settler will trouble himself very little about these clap-trap buncombe speeches, provided his case is equitably considered, which we believe from the tone of the debate, it will be.

There is yet another point in connection with the settlement of the Crown Lands, that has not been considered by the Ministry; or if considered, no policy has been propounded. We refer specially to settlers in the Free Grant districts. It is well known to the Commissioner, and every member of the House, who has given the subject any consideration, that there are a large number of hardy and adventurous men, who penetrated into the most northern townships, before there were even surveyed; discovered what government agents denied existed, good land for settlement, pitched their tents, cleared the forest, cut roads at their own expense, and then toil ed for years, before the Government even sent in the surveyor, against all the deprivations that attend settlers under the circumstances. And had it not been for this lumbermen, who purchased all the surplus products of their lands, would have been driven from necessity, from sections of country which have now been erected into municipalities; and which but for them would have still been the home of the bear and wolf, instead of man. Well, these sections of country have been thrown into Free Grant Territory, but has the original settler, the man to whom all the credit of bringing the territory under the notice of the government, been allowed to avail himself of the Free Grant policy? Not at all. These settlers have to pay for their lands, while those who go into the territory now, can select any of the vacant lands, and receive it free for settling upon it. Let us give a case in point to illustrate our argument.

There is a small number of hardy Scotchmen, who, some years ago, penetrated into the Township of McClure, over a hundred miles north of Belleville, cut a road at their own expense from the Hastings Road to where they settled, and hewed out of the wilderness a home for themselves and their families. Last year the township was surveyed, and opened to free grant settlers. Any reasonable person would suppose those who first proved to the government that men could live in that country, would receive the greatest consideration from the Commissioner of Crown Lands, and have their patents issued to them, and be paid for opening the roads. But no. They are asked to pay for their lands, while the new comers who use the roads that were built out of the private means of those who spied out the land, are given land free. The policy is wrong, and we hope ere the House rises to see some member bring this subject before the House, if Mr. Richards cannot be made to see the equity of these settlers' claims. Carlow, Mayo and other townships, furnish similar instances.

In many of these Townships the settlers are unable to procure lumber for building purposes, many having to hew logs for flooring, and split hollow trees for roofing, owing to speculators having monopolized the mill sites, and neither build mills nor allow others to do so. These parties should be compelled to build at once, or their location rights forfeited. The Government should, if it desires to settle these lands, take energetic steps in this matter, compel the building of mills, and give the original settlers their patents free. If the Ministry will not do this of its own accord, let the House take it in hand and order it done.

—A letter received from Paris, and dated December 10th, says: "We have sufficient food to last us till Easter. Only during the past few days have we eaten salt meat. As to eating rats and dogs, that is a lie invented by the Prussians."

—During 1870, 1,004 vessels of 738,446 tons entered the Port of Quebec, being an increase over 1869 of 11 vessels and 54,332 tons. In the same period there cleared outward 1,007 vessels of 729,402 tons, being an increase over 1869 of 18 vessels and 63,308 tons.

Town Council.

Tuesday, Jan. 6.

The Council met, in a [illegible] with a call from the Mayor.

PRESENT.—His Worship the Mayor, Messrs. Henderson, Kelso, Smith, Lewis, Patterson, Vandusen, Holden, Foster, Beckett and Flint.

The minutes of the last meeting were read and approved.

A number of accounts were presented.

A notice of action was received from J. T. Hayden & Co., if an account of theirs be not paid.

Hon. B. Flint made application for remission of taxes on Miss McPherson's "Home" for emigrants at Marchmont.

The license Inspectors reported, recommending the change of the license for the Dafoe House to G. C. Borrodaile.

FERRY.

Mr. Lewis presented the final report of the Ferry Committee, respecting the erection of a dock on the Prince Edward shore, that they had secured the site desired. Only one tender had been received, but it had been decided to leave the matter for the decision of the new Council, as other tenders had been promised.

POOR AND SANITARY.

The Poor and Sanitary Committee reported that $979.96 had been expended during the year, or less than the estimate, and thanking Messrs Rathbun for 21 cords of wood.

MARKET AND POLICE.

The Market and Police Committee reported, recommending that $3 each be granted to Constables McCrudden and, Downes for extra services.

FINANCE.

The report of the Finance Committee was presented. It recommends the payment of a number of accounts, and that $160 be placed to the credit of the Mayor as an acknowledgement of his very acceptable and dignified manner as presiding officer of the Council.

The report of the Ferry Committee was adopted.

WAYS AND MEANS.

The Council went into Committee of the Whole on Ways and Means. Mr. Flint in the Chair.

The report of the Finance Committee was read.

On an item of account for Poor and Sanitary, Mr. Henderson asked how items for poor and sanitary were brought before the Committee in the report of the Finance Committee, instead of by the Chairman of the Poor and Sanitary Committee? Also, if he kept vouchers for the expenditure?

Mr. Vandusen replied that he kept books, and was prepared to show them if required; but it would involve too much labor to report in detail. He thought the Committee was quite satisfied with the way in which the expenditure was conducted.

Mr. Henderson said no chairman had a right to give orders on the Treasurer. This mode of conducting business would have to be remedied in future. There had been a good deal of talk outside about the way the money had been paid out.

Mr. Vandusen said the money voted to his credit from time to time, was for wood. In giving orders on the Treasurer he had followed the example of his predecessor.

Mr. Lewis said the money had been placed to Mr. Vandusen's credit on the books of the Treasurer, so that he might use it as required.

Mr. Holden agreed with Mr. Lewis. It was all right, so long as the amount was not overdrawn.

The discussion here closed, and the report was adopted.

The report of the Market and Police was adopted.

HARBOR AND TOWN PROPERTY.

Mr. Kelso moved the adoption of the Harbor and Town Property Committee's report, which has already been before the Council twice.

On the clause for remission of a certain amount of dues to Messrs. Rathbun, and a sum of $25 to James Meagher for demurrage occasioned by obstruction in the harbor,

Mr. Holden was opposed to any remission on logs, except such as came from Trenton, as it seemed to him prejudicial to the commerce of the town to compel manufacturers to pay dues twice. It was unreasonable that, if their logs were subject to a tax at another place, to levy dues on the lumber manufactured here.

Mr. Kelso repeated his explanations on the subject at last meeting. He considered the Council would act wisely in making the reduction, as there were likely to be few years like last season, when no logs were brought down the river. Other places gave liberally to gentlemen to establish manufactures within their limits, and we should deal liberally with those we had, in order to retain them.

Mr. Vandusen gave a verbatim repetition of his speech at last meeting.

Mr. Henderson doubted the legality of making the remission. He suggested an amendment in the By-law, to allow of remission being made on logs brought from Trenton and sawn here. He believed we should foster all avenues of trade, but deemed it wise not to injure ourselves in so doing.

Mr. Kelso said the Government would allow of no discrimination between timber brought from different points. He could not ascertain the exact number of logs brought from Trenton and other places to be sawn here by Messrs. Rathbun. He would take a vote on the question.

Mr. Holden thought that, instead of this being a dangerous precedent, it was a good one, as Mr. Rathbun would not bring his logs here from Trenton and manufacture them, when he could do so at Mill Point free. The consequences would be that he would give up his mill here. He (Mr. H.) would favor the amendment of the By-law, as Mr. Henderson had suggested, and in one or two other points.

Mr. Lewis didn't think there was any power of remission in the By-law.

Mr. Kelso, after some further discussion on the legal bearings of the matter, said it would be carrying out the purposes of the act, which limited the application of the money to harbor purposes to see it in the manner suggested.

Mr. Henderson suggested that the matter be laid over for the new Council, when it could be considered and the By-law amended.

Mr. Holden would second Mr. Kelso's motion and have a vote on the subject.

Mr. Henderson moved, seconded by Mr. Vandusen, for the laying over of the first clause of the report.

YEAS—Messrs. Henderson, Smith, Lewis, Beckett, and Vandusen.—5.

NAYS—Messrs. Kelso, Holden, Foster, Patterson, and Robertson.—5.

The chairman voted with the yeas, and declared the amendment carried.

Mr. Holden moved the payment of the Selectors of Jurors.—Carried.

Mr. Henderson brought up the application of the Hon. Billa Flint respecting the remission of taxes on Marchmont, which the Committee had not power to do, but recommended that the remission be made.

The application was granted.

The taxes of Mrs. Brodie were also ordered to be remitted.

The Mayor asked an explanation regarding the application for remission of taxes on Dr. Lister's burnt buildings.

Mr. Henderson explained that the taxes were levied after the fire, and the Court of Revision had no power to make a further reduction.

The Committee rose and reported. The report was adopted.

Mr. Holden moved, seconded by Mr. Foster, That the time for the reception of the Collector's roll be extended until the 31st January.—Carried.

Mr. Holden moved, seconded by Mr. Foster, That a tavern license be issued to G. C. Borradaile.—Carried.

The Council then adjourned and met again for the adoption of the minutes, which were accordingly read and adopted.

The Mayor then said that, in retiring to private life at the end of his term of office, after a connection of seven years with municipal affairs, he had to thank the members of the Council for their kindness and consideration upon all occasions. In days gone by there had been little difference, but he had never seen more cordiality of feeling than during the year now gone. He would now hand over the reins to Mr. Holden, satisfied that that gentleman would give a satisfactory account of his stewardship. He concluded by inviting the Council, the Clerk, the Harbor Master and the reporters to his residence to partake of supper.

The Council then adjourned.

SUPPER AT THE MAYOR'S.

After the adjournment of the Council, the Councillors and other invited guests proceeded to the residence of Mr. Robertson, where, after a short time spent in pleasant social intercourse, a most *recherche* entertainment was served, the table being liberally supplied with all the delicacies of the season.

The party was increased by the addition of Dr. Stewart and Mr. Tannahill. Mr. Diamond, Police Magistrate, had also been invited, but was, from illness, unable to be present. When the viands had been discussed,

Mr. Holden rose, and, in a short and highly complimentary speech, proposed the health of Mrs. and Mr. Robertson, whom he lauded for his uniform cordiality, dignity and courtesy in his conduct of the business of the Town. It was a source of regret to him that their present relations were about to be severed. No one in town had endeared himself more to his friends than Mr. Robertson by his social and courteous attributes. He held feelings of the highest respect and esteem towards the Mayor, which, he had no doubt would continue. (Applause.)

Mr. Robertson thanked Mr. Holden for proposing Mrs. Robertson's health and his own. In retiring from office, he thanked them, one and all, for their courtesy and kindness towards himself, in his official capacity. The result of the recent contest, by leaving him to stay at home, would enable him to devote a larger share of time to his private and professional business. He wished any ill feeling engendered by the contest to be buried in oblivion. Mr. Holden, who was to succeed him, would, he had no doubt—being experienced in municipal affairs—make a good Mayor, and fulfil the expectations of his friends. (Hear, hear.)

At the conclusion of his speech, Mr. Robertson proposed the health of Mr. Holden, which sentiment having been duly honored,

Mr. Holden made a few remarks in reply, saying he hoped to fill the office as acceptably as his predecessor in the civic chair, and that at the end of his term of service he would retire with the same good wishes.

At the conclusion of Mr. Holden's speech the party separated, highly pleased with the evening's entertainment.

Around Town.

Syntax—the tax on whiskey.

The weather grows colder again.

Down on slippery side-walks—pedestrians.

The best thing out—some of the old councillors.

The Collector has been given until the 31st instant for the return of his rolls.

The new town Council meets for organization on Monday next, January, at noon.

The St. George's Society meets on Thursday evening next, the regular monthly meeting night.

Nellie Nelson's burlesque troupe performed at Masonic Hall last night, with but indifferent success.

Mr. Falkiner will address the school electors of Coleman Ward at the Western House on Monday night.

The County Council holds its meeting for the purpose of organization at the Shire Hall, room, on the fourth Tuesday in January.

The week of prayer closes to-morrow with service in Ontario Hall, conducted by the Rev. Richard Lewis. The meetings have uniformly been largely attended.

Those who wish to vote at the coming school elections should pay their taxes, as it is only such who can vote. The polls remain open for two days.

The town wore its busiest aspect to-day. The weather—fine, though cold—induced large numbers of visitors to visit town. So numerous were the sleighs on Front Street that it was difficult to cross at many places. Business was excellent.

Some of the hills in town, the side-walks of which are icy from the recent soft weather, have been rendered all but impassable to pedestrians by the boys' pastime of coasting down them on hand sleighs. A little attention on the part of the authorities is needed to remedy this evil.

Run-aways are becoming common again. There was one yesterday and another this afternoon, both of which resulted in broken sleighs. If people will leave their horses untied during the cold weather, no other result [illegible] enforcement of the By-law compelling the tying of horses is the only remedy.

The skating rink is a success. The ice is crowded each night, and on Wednesday night, when the band performed in the rink, the outside public were present in large numbers.

At a meeting of Moira Fire Company No. 1, held last night, a letter was read from Captain Quinn, resigning his position on account of a change of residence. The resignation was accepted, and the following changes made in consequence: J. W. Walker, late 1st Lieutenant, was elected Captain; W. H. Dame, 1st Lieutenant; A. E. Fry, 2nd Lieutenant.

The manner in which the School elections are conducted leaves little speculation as to the success of candidates; as, from the fact of the election immediately following the nomination, other candidates than those openly in the field are likely to be sprung upon the electors at the eleventh hour. So near as can be ascertained at present, the following are the probable candidates.

Baldwin Ward.—Mr. Tennent, the retiring Trustee, offers for re-election. A requisition to Dr. Relyea has called that gentleman into the field. *Ketchenon Ward.*—Mr. Robertson, who retires, will not offer for re-election. Mr. G. S. Tickell, in response to a requisition, is now in the field. James Hambly, W. W. Dean and R. Jellett are mentioned as candidates. *Sampson Ward.*—Mr. McAnnany offers for re election; no opposition has yet been heard of, and it is probable that the late Chairman of the Board will be returned by acclamation. *Coleman Ward.*—Mr. Falkiner offers for re election. Mr. R. N. Bennett, butcher, is out in opposition, and other gentlemen are mentioned as probable candidates.

News Condensed.

—There were only forty-one murders in New York in 1870.

—Western adaptation of the words of the poet: Loathe the poor Indian.

—A Cincinnati lager beer firm does business under the style of A. Schwill & Co.

—The San Francisco 'Bulletin' estimates the value of the yearly fruit crop of California at $5,000,000.

—The Government has records of graves of 315,355 Union soldiers, of whom 143,465 remain unknown.

—The amount subscribed in Toronto to the testimonial to Sir John A. Macdonald already exceeds $23,000.

—It is said that the old County of Leinster, now Montcalm, has subscribed $100,000 to the stock of the North Shore Railway.

—The regular yearly man who cleans out his flues with gunpowder is now a resident of the town cemetery. They are building a skating rink where his house stood.

—Mechi says that in 1852 England imported $90,000,000 worth of cotton, manufactured it, supplied the wants of her own people, and had $150,000,000 to export.

—The first public flogging under the new Act took place in Toronto gaol yesterday. The victim of the 'cat' was James Greenwood, lately convicted of an indecent assault upon a child.

—A heavy snow storm has prevailed in the counties of Grey, Bruce and Huron since Monday. There are drifts in many places from 6 to 20 feet high.

REQUISITION.

TO G. V. N. RELYEA, Esq.,

Midnight Despatches.

The War in France.

Progress of the Siege of Paris.

The Engagement at Havre.

A Decided German Success.

Germans Victorious at Bapaume.

French Repulsed at All Points.

NEW YORK, Jan. 6.—A special despatch to the 'World' from London says:

Jules Favre is coming here. General Trochu accuses the garrison at Avron of contemptible cowardice.

VERSAILLES, Jan. 5.—Gen. Manteuffel reports that an attack made by considerable masses of the enemy was repulsed near Sophignes on Monday with small loss on our side and heavy loss to the enemy, including 2,000 prisoners. On Tuesday Gen. Von Goeben with the 15th division victoriously repelled an attack of the army of the North near Bapaume. At the end of the last fight the enemy began a retreat which soon became disastrous to them in consequence of the close pursuit of our cavalry. We have already taken 500 prisoners.

LONDON, Jan. 5.—The French army of the north returned to its encampment near Royelles after the battle of the 3rd instant, General Faidherbe, in an order of the day, says:—

"SOLDIERS—In the battle of Pont Noyelles you victoriously held your positions. At Bapaume you carried all the positions of the enemy. This time he will not deny your victory. By your valour and constancy you have deserved well of our country. As soon as we have obtained provisions and ammunition we will continue operations."

The Prussians, on the morning of the 4th, surprised and dispersed a French force on the left bank of the Seine near Rouen, capturing three stands of colours, two cannon and 450 prisoners.

Gen. Glumer commanding the German forces in the valley of the Saone, reports that he evacuated Dijon in accordance with orders from headquarters and reached Vesoul on the 29th ult. He adds that he still holds the passage of the river Saone.

Morning Despatches.

American Despatches.

Murder and Robbery.

Recall of Motley.

Spain and United States.

ALBANY, Jan. 6.—This evening, just as the 8:30 Boston train started from the Union Depot in this city to cross the Hudson River Bridge, a man sprang into the American Express Company's car and shot the express messenger, Thomas A. Halpine. The robber then took the keys from the messenger and opened the safe, from which he abstracted $2,259 in bills. He accomplished all this while crossing the bridge, and on arriving at East Albany jumped off the train and made his escape. Halpine's recovery is not considered possible.

WASHINGTON, Jan. 7.—The President will on Monday send all correspondence, telegrams, &c., in the State Department relating to the recall of Minister Motley, together with the latter's letter of vindication.

It is officially known here that negotiations are in progress for the appointment of a joint commission by the United States and Spain for the settlement of claims arising out of the Cuban insurrection.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 6.—It is said that the casemates of Fort Rosny, east of Paris, have been destroyed by the fire of the German guns. The German heavy guns at Meudon, southeast of Paris, as well as other batteries in that direction, are now in position and ready for use.

The average mortality of the German regiments engaged in the siege of Paris up to the 31st ult., is stated at 2 per cent.

A despatch from Havre says the people are disgusted at the inactivity of General Fetingers. The Germans have reappeared at Valery and Yoelot.

The Prussian garrison at Rouen have been reinforced. The advance of the French from Havre which is to be aided by gunboats, awaits the departure of ice from the Seine.

GREAT BRITAIN.

LONDON, January 6.—It is said that the British Government has ordered 80,000 Roper rifles.

Four sailors have been suffocated by charcoal in the forecastle of an Italian brig.

Ontario Legislature.

FRIDAY, Jan. 6.

A number of private bills, of which notice has been given, were introduced.

Hon. Mr. Cameron moved the second reading of the School Bill, explaining its provisions at length.

A lengthy debate resulted, which lasted until the adjournment of the House at 11:20 p. m.

The Bill was read a second time, and the House will go into Committee of the Whole upon it on Tuesday next.

Hon. Mr. Richards gave notice that, on Monday, the House do form itself into a Committee of the whole to consider the following resolutions:—

1. That in the opinion of this House, it is expedient that the Lieutenant Governor in Council should have authority to reduce the price of any Grammar School lands sold previously to 1st July, 1867, where it shall appear that such lands have been sold at prices beyond their value, and that such prices remain unpaid. Also, to make such abatement of the arrears of interest upon the unpaid instalments of the purchase money of any Grammar School lands sold prior to the said date as may appear equitable and just. And, also, by Order in Council, to confer such authority upon the Commissioner of Crown Lands.

2. That such reduction and abatement should be confined to cases in which the purchasers from the Crown or those claiming under them are in occupation of such lands as actual settlers and residents thereon.

How Wars are Precipitated.

A certain king, it is said, sent to another king, saying, 'Send me a blue pig with a black tail, or else——.' The other, in high dudgeon at the presumed insult, replied, 'I have not got one, and if I had——.' On this weighty cause they went to war for many years. After a satiety of glories and miseries, they finally bethought themselves that, as their armies and resources were exhausted, and their kingdoms mutually laid waste, it might be well to consult about the preliminaries of peace; before this could be concluded, a diplomatic explanation was first needed of the insulting language which formed the ground of the quarrel. 'What could you mean,' asked the second king of the first, 'by saying 'send me a blue pig with a black tail, or else——?' 'Send me a blue pig with a black tail, or some other color,' replied the first king. 'But,' retorted he, 'What could you mean by saying 'I have not got one, and if I had——?' 'Why, of course, if I had I should have sent it,' an explanation which was entirely satisfactory, and peace was concluded accordingly.

SPECIAL NOTICES.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Ruegger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold or exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 3m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. C. Waiter, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our many to say 'A Blessing on Mrs. Winslow!' for saying her service and escape the griping, cricking and teething rage. We endorse every word set forth in the Prospectus. It performs precisely what it professes to perform, in the case of the teething child. Away with Cordial, Paregoric, Drops, Laudanum, and every other Narcotic by which the babe is drugged into stupidity, and rendered dull and lifeless for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, assist it, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists. Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.
1&W-8m

Parties who have used Johnston's Patent Weather Protectors will be certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:3m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and the millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-3m.

CANADA LIFE ASSURANCE COMPANY

ESTABLISHED 1847.

THE principal features of this Company are

RATES LOWER than any other Company.

PROFIT BONUSES LARGER than any other Company.

ABSOLUTE SECURITY, and

LIBERALITY in its dealings with its assured.

The Company has, in the part 23 years, paid $700,000 for death claims, and has never contested one.

A comparison of the Company's Profit Bonuses, and its Rates for Assurance, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the head office in Hamilton, Ont.

JAS H. PECK, SECRETARY-TREASURER.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } By VIRTUE of
To Wit: } two Writs of Fieri
Facias issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, as James D. Davern, Robert Weller and Charles Davis, Defendants and David Priceathy and Thomas Kelso, Plaintiffs, as, J. D. Davern, Defendant ; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Front Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rutledge, D. P. L. S., which said said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871. at the hour of twelve o'clock, noon.

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Garden and in the Dwelling, etc., etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate Knowledge and sound moral principles.

CIRCULATION.—Terse.—The circulation of the American Agriculturist (about 125 000) is so large that it can be furnished for the low price of $1. 60 a year ; for 4 copies for $5 ; ten copies for $12 ; twenty or more, $1 each ; all extra copies, 15 cents each.

Try it a year.

ORANGE JUDD & CO.
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having consented to withdraw from the business proprietors of the *Gazette* have greatly enlarged and otherwise improved the latter, having now issued on new type from the foundry of C. T. Palgrave & Co.

THE EDITORIAL DEPARTMENT

is under the charge of able and experienced writers, who have secured a high reputation as the ablest of journalists. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to endorsement as a representative of metropolis of the Dominion, and have completed arrangements which will fully realize that object. Reports of the *Gazette* in unsurpassed excellence in point of fullness and accuracy of information will be found in the only paper published in this city. By the employment of Reuter's latest improvements the Cable department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city legal intelligence, sporting news, etc., etc., reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is of the very latest, and receives special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ability of its Editorials.	The best Local News.
The most reliable Commercial Reports.	Full Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
BY
DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) acts equally well in cases of hero, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry from the active curative properties of the most powerful remedies of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding those that enter into the composition of* Dr. Radway's Sarsaparillian Resolvent, *Extracts, Gums, Herbs, Fat-making materials and Alkalies are extracted and combined in such a manner as to secure, from the native soil, under the supervision of the inventor, the most perfect and concentrated combination, compound, or preparation of the kind ever discovered, employed exclusively by Dr. Radway & Co. so that the most important virtues of each and every root can possibly be mined with the pure.*

In each Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of eminent chemists in this branch alone. Hut the wonderful improvements it has secured to the curative power of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

which is now, and over and over again ; for none in the history of medicine was such a medicine that so completely and quickly builds up every part, and makes strong, healthy, vigorous, and beautiful without, the weak and diseased within, as does

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT GIVES ACTIVITY, STRENGTH AND FLESH-MAKING QUALITIES.
It arouses the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin, on and body ;
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the waste.
It eliminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures all Scrofula, Glteri, and Stricture.
It makes the water clear and pass freely.
It cures all Kidney, Bladder and Urinary diseases.
It increases the vigor of nourished those who, from weakness or disease, are reduced to a skeleton, and is the means to rescue a woman from the perils incident to change of life, and restore her to health.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wast all beyond repair, but may be built up, and a body retaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decay arrested stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions destroyed and secretions altered beyond the reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, be restored in five perhaps for years ; for no matter how low the vital forces may be, if the system can be brought under the influence of the tissue and flesh-making principles, which relieve the waste of the system, and the BLOOD WILL receive that high degree of nourishment, purity, and quantity to enable it to hold in healthful solution all its constituents, and stop the process of wasting and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the system, and deposits from the blood either in the Lungs, Skin, Kidneys, Under or Cellular Tissue ; and these diseases in their advanced stage can be built up and cured only by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands or Womb, or any urinary difficulties, will experience a marked change in her health for the better after taking Dr. Radway's Sarsaparillian Resolvent. As the blood becomes more pure, rich, strong, and nourished, it is enabled to hold in solution the various constituents, the deposits of Tuberculous matter are either arrested or dismissed, decomposition ceases, and will be diminished in the Lungs, Kidneys, Skin and other Organs ; and each of these Organs will receive their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed by the circulation from the system through their proper channels. If medicine fails in its influence on the system, and these secretions, and the waste not each organ or secreting gland is not arresting it proper functions, health can never be restored ; hap pily for the afflicted Dr. Radway's Sarsaparillian Resolvent secures this important want that no hereditary constitutional disease can withstand, as advertised as Blood Purifyers.

To name how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of the Sarsaparillian agent on the blood and other fluids that supply the living tissues, repairs, sells as clamps the sores with such constituents as to resolve and secrete outside the blood and decomposing matter, and by supply its place with sound and living structure, nourished by the blood, and strong blood. By its chemical action which the Sarsaparillian Resolvent has on the secretions taken into the stomach and its process of digestion into Chyme and Chyle, before it is mixed with the blood, as well as the nourishment it converts into blood, and its specific action when received into the circulation, it penetrates every atom of veins from the blood, and vessels, every all deposits of disease, whether caused by the action of poisons, contagious matter, Scrofula, Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, or any other agent that may have accumulated in the bones, tissues, ligaments, &c., and by its influence on the secretions, tonically completed that may have run through half a century of existence.

Scrofula, Consumption, syphilis, uncures and Kindred Diseases, Glandular Disease, Ulcers in the Throat Mouth, Tumors, Sores in the glands an other parts of the system, Bone Pains, Mercurial Diseases in the Ears, and the worst Forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Blotches, Spots Worms in the Flesh, Tumors, Cancers in the Mouth, and all weakening and putrid Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bright's Kidneys, Womb, Dropsy Diabetes, and all cases where there is commenced by Stoppage or Watery, or Painful Discharges, are speedily cured and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, C.E., labored for nine years TWO LARGE ULCERS, one on his thigh, the other on his leg, that resisted all kinds of medicine and the skill of the physicians, and he was in constant pain in both parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, also with Radway's Pills and Ready Relief. He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and was, as it seems, a wash of the Ready Relief. The Sarsaparillian Resolvents, diluted with water which evidently cured him. Here is a man long and previously spent hundreds of dollars, doctored by nine years, and cured at a cost of less than *Ten* dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, Vermont, has been long afflicted with scrofula per of Paper Mills. Hotels, &c., told me of his know ledge of its effects on him. His arm, aged 15 years, was covered with one SOLID SCAB, covering the entire fore-hand, from the wrist to the elbow. He died in September last, and he was the most revolting an diseased object I ever saw. At my request he was put under the treatment of Radway's Sarsaparillian Resolvent, Ready Relief and Pills. One month since, on returning to Canada I met his father, who then told me that he was completely cured. I know of many who have been cured of Fever Sores, Eruption of the skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,

Dr. RADWAY :—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvents. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatening Consumption have disappeared. I feel my health fully restored. JONATHAN FIRELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Canada—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent. GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,

ALBION HOTEL,
MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, belong for patronage in a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS.
(1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

It has always been the aim of the publishers to combine in its pages whatever is useful, whatever is pleasing, whatever is pure, dignified, and virtuous in sentiment, with whatever may adorn rational and refined womanhood. For its Literary Department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. OGDA, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other Magazine.

BEAUTIFUL STEEL PLATE.

Of these the Lady's Book stands, fearless each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a colored plate sheet to our patrons, containing tweedy, thirty, and sometimes forty designs in embroidery.

CROCHET & MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives those designations the Lady's Book.

FRENCH LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a GRAND DEPARTMENT.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TITLED ENGRAVINGS.—Each is a series of engravings that can be stitched together and framed, forming a great attraction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from a cure in many of which are truly marvellous. Extensive cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the severity and long continuation until they were considered utterly incurable, have been conquered in such great numbers in almost every section of the country, that the public confidence can be informed of its virtues or none.

It purifies and cures the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, at a time when a development of its presence. Again, it prepares the blood throughout the body, and, at any time, and on occasion, rapidly develops into one or other of its loathsome forms, and the sufferer is among the victims.

Ayer's Sarsaparilla, by its alterative power, will expel this foe from the blood, and thus secure health, or thereby prevent the development of disease. Systems thus purified are fortified against future attacks.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for the system to entirely eradicate the effects of Mercury, that long continued use of this medicine will cure the complaint. *Leucorrhœa, or Whites, Uterine Ulcerations, and Female Diseases*, are commonly cured by a few bottles of this medicine. It is a strengthening and invigorating effect. Minute directions for each case are found in the pamphlet supplied gratis. *Rheumatism and Gout*, when caused by specific poisons, are thoroughly expelled from the blood, yield quickly to it, as also *Liver Complaints, Dropsy, Erysipelas, Blotches, Eruptions of the Liver, and Jaundice*, when arising from the same cause. *Salt Rheum* is cured by purifying the blood. This *SARSAPARILLA* is a great reliance for the strength and vigor of the system. Those who are *Languid, Listless, Dispirited, and Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the many painful symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine has any thing been so widely and deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men in the civilized world, it has been in constant use, as it has become better known. Its uniform control over the most dangerous affections of the lungs and throat, have made it known as a reliable protector from them. While adapted to milder forms of disease and to young children, it is the bold resistance it has offered to the fatal progress of the more inveterate consumption, and the dangerous affections of the throat and lungs. As a protection against the sudden attacks of colds, it should be kept on hand in every family, as indeed as all are liable to them, and few are willing to calmly submit to them, when so simple a remedy as this can be obtained, which will control them.

Although comparatively new, it has obtained incurable, still great numbers of cases where the disease was supposed to be beyond the reach of medicine, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside without disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

As generally as its virtues are known, we need not publish the certificates of them here, or do most from seeing the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Bilious Fever, Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic Quinine, Bismuth nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and variety of cures it has effected in these districts, are literally beyond account, and we believe without a parallel in the history of the world ; and we take great pride in gratified by the acknowledgments we receive of the radical cures effected in obstinate cases of Fever and Ague, which had wholly baffled

Unacclimated persons, either resident in, or travelling through districts where Fever and Ague is located by taking the *AGUE CURE* daily.

For Liver Complaint, Listlessness, and inability of the Liver, it is an excellent remedy, stimulating the liver to healthy action.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, restoring the secretions to healthy values, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all around the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY, issued on the first of each month, and given all the latest and best

AUTHORSALIAS, PETERS' Ricket, Bishop, Thomas, Danks, Hewitt, Hewitt, Foley, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper, and from full size music plates, every piece of which is either newly printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is a trial subscription of 50 cents for three months ; and we guarantee to every yearly subscriber at least $10 worth of choice new music. We do not PETERS' MUSICAL Monthly to Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers like and enjoy the music we give them. Their musical friends hear it, "musician like," and buy it in sheet music form where we make our profits. Remember! every yearly subscriber gets, during the year, at least 150 pieces of new best music, all of which we afterward print in sheet form, and sell for over $60. It is published in the Mammoth Music Room of J. L. PETERS, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

The splendidly illustrated weekly journal of PRACTICAL SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages, profusely filled with fine engravings of Machinery & Inventions. Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A perusal of so much intrinsic value, at the low price of $1 a year, ought to have, in this thriving country, A MILLION READERS.

Whoever reads the Scientific American is entertained and instructed, without being wearied with dry details or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND FOREIGN INVENTIONS*. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Inventions and Discovery throughout the world ; and with a view to the greater security of a correct, during which time it has held the first place in Scientific and Mechanical literature, and has a larger corps of editors and writers, the large and splendid Steel Engraving by John Sartain, of Philadelphia, entitled

MEN OF PROGRESS—AMERICAN INVENTORS

the plate costing nearly $4,000 to engrave and contains fourteen likenesses of illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of two dollars. The picture is also offered as a premium for clubs of subscribers.

$1,500 Cash Prizes.

In addition to the above premium, the Publishers will offer fifteen hundred in Cash Prizes, as follows, to subscribers sent in by February 10, 1870. Persons who want to compete for these prizes should send at once for prospectus and blanks for names.

A Gold Watch will be given for any one year three dollars ; six months, a dollar and a half ; four months, one dollar. To Clubs of 10 and upwards, a liberal cash premium and fifty cents per annum. Specimen copies sent free address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO OBTAIN PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare herself against the many ills that are sure to prevail, and all whose manses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and their health will be restored, and long life and vigor secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

Even the earliest stage of irregularity, from Retention's of the Catamenia, through all stretchings and displacements of the Womb, Ulcerated Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hysteria, Chlorosis, Dysmenorrhœa, Sterility, Bulk of System, Heaviness, or Weakness of Blood, and all painful affections ; Pains, Aches, Giddiness, and in fact every complaint peculiar to females, in females sex, are cured as Radway's Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with words of you as a sufferer from Indigestion and its usual accompanime nt, Habitual Costiveness. The means of relief are simple and easy of accomplishing a cure, is ardered to you in Brisicle Sugar Coated Pills, the only cathartic now offered to an afflicted community, that will not only secure the most complete and perfect cleansing of the alimentary canal from all accumulations, but will restore the natural tonicity of the digestive and secretive organs. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from Indigestion, Biliousness, impure blood or humors, Brisicle's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all*. Such agents for the purpose of relief or removal of any sellet disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry, in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT ALTERATIVE PILL, that can be taken or administered with the certainty of producing a

THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body from either a dose to table spoonful, without any distress, or pain, or inconvenience.

Although containing all the drug-purgatives, and its adjuncts, forming the official compound ; or of the purgatives, of aloes, jalap, &c. Physicians and druggists know that purgatives, more or less, conditions these agents as uncertain, uncertain, &c. The Materia Medica is deficient of good, sterling reliable medicines. The formulas of preparing the official pills are based on wrong principles. While adapted to claim to put up specific remedies, on the old uncertain rules prepared by physicians, and received by them by the public. *Radway's Ready Relief, Sarsaparillian* and here are now standard remedies, and every one of

PERFECT PURGATIVE PILLS

is purged without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $4 a year ; $2 for six months ; $1 for three months.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION well developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange supposition of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Harnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $3. 40
June 17th, 1870.

St. James' Hotel,
MONTREAL

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are conceded for families; while the manage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the building promises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most widely circulating journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every family in the land. Worship and Farm Work, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to more than four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pamphlet, containing all the written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

Belleville, Sep. 1868. 122-tf 52 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a Fine Hearse and Carriage, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is required provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number, colored patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making their homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 20 by 25 inches, entitled "The Present on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven hundred dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

It also offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free. Address

W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January, 1871, be issued from the City of Hamilton, On' Messrs. T. & R. White having purchased a property interest in it, and become its publishers, in the belief that the region of country, second to no part of Canada, for agricultural and horticultural resources and progress, needs and well ably sustains a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jackson, of New York.

Special attention will continue to be given to the advancement of Education, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at Seventy-Five Cents each, free of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

(*From Blackwood for December.*)

The men of Ontario have always suspected the truth of the statements made regarding the great prairie country which every one knew lay between the Red River and the Rocky Mountains. For years back their gaze has been fixed upon that territory, longing for the privilege of planting it with grain, and of establishing themselves in a country where rumour said that luxuriant crops were obtainable without either the labor of clearing it from timber or the cost of manuring it.

The distance from Canada was so great, and the intervening difficulties were of such magnitude, that it was impractically out of the power of farmers or of the ordinary class of emigrants to make a journey there. Unless, therefore, Government stepped in, and, by opening out roads and improving the almost continuous line of water communication existing between Lake Superior and Lake of the Woods, enabled the working class to reach Fort Garry at a reasonable cost, the Red River country never could be settled by British subjects.

A few disinterested travellers, such as English officers on leave, bent on buffalo hunting, now and then penetrated into the much aspersed land, and came back telling of its boundless plains and unparalleled fertility, but as it is the English fashion to pooh-pooh information coming from such sources, their reports received but little attention.

The secret was tolerably well kept for many years; but at last so much pressure was put upon the Canadian Government that an exploring expedition was despatched by it in 1858, with orders to report fully upon the resources of the North-West Territory. The results of these explorations were published the following year, and the people of Canada learnt, on official authority, that it was fertile beyond the most sanguine expectations. A few settlers from Ontario soon after established themselves in the neighborhood of Fort Garry, and so gave birth to a party whose policy was progress, and whose constantly repeated demand was—"Open out communication between us and Canada; let us have plenty of emigrants; all we require is population and facilities for carrying our produce to a market." It was soon known as the "Canadian Party;" and its feeling was disseminated throughout the neighboring provinces through the columns of a newspaper established under its auspices at the village of Winnipeg, in the neighborhood of Fort Garry.

As may easily be understood, this party of progress soon came into collision with those already described as bent on keeping back the country, giving birth to very angry feelings between the two sections into which public opinion thus became divided. As all the Canadians who had settled there, backed up by the press of Ontario, were on one side, and the great mass of the French-speaking people on the other, the difference of opinion coinciding with the difference of origin, the parties quickly assumed a national aspect, and the priests endeavoured to give it a religious one also.

The Hudson Bay Company being governed by a Board of Directors in London, who were aloof from the direct influence of local feeling, was first of the two divisions comprising the reactionary party to perceive that the time had arrived, when they must choose between withdrawing from their hitherto obstructive policy with profit to themselves, or seeing their power to obstruct taken forcibly from them. A disposition on their part to treat for the voluntary surrender of their undefined and disputed rights soon resulted in a bargain being arranged in 1869 by which they were to receive the sum already stated, retaining possession of all their forts and posts, together with a large acreage of land in their vicinity.

The Ministry of Canada, backed up by public opinion throughout the country, at once took a Bill passed for the establishment of a government in this newly-acquired province. We are warned by a French proverb that the first step in all transactions is a most important one; and that with the Dominion Government towards establishing their authority was no exception to the rule. Their first direct step was to send forward surveyors to plot out the country into townships; and this was the actual circumstance that gave rise to the first overt act of rebellion on the part of the French people there. The men employed upon this service, as well as their assistants and followers, were all either from England or from Ontario, and therefore seem to have thought themselves entitled to look down with a sort of patronizing pity upon the half-breed race already occupying, or as many thought encumbering, the soil there. Around these surveyors, as round a centre, were collected a small band of Canadians, who had followed in their wake, hoping to obtain large grants of land and make fortunes when the new Government was established.

The people of the country were thoroughly discontented at the cavalier way in which they had been treated, as their will had never been consulted by any of the three parties who had arranged the terms of transfer. A feeling of irritation was abroad, which the bearing of the surveyors and other Canadians towards them served to increase beyond measure. Many of the latter began to stake out farms for themselves, which they openly declared they meant to claim as soon as the new Governor had arrived.

The Hudson Bay Company's officials residing in the territory were loud-spoken in denouncing the bargain entered into by their Directors in London: they said it in-

jured them materially, without providing any compensation for the loss they were about to sustain; that they, the working bees of the hive, were to receive nothing, whilst the drones of stockholders in England were to get all the honey in the shape of £300,000.

The English speaking farmers, although thoroughly loyal, and anxious for annexation with Canada,so as to be delivered from what many called the 'thraldom of the Hudson Bay Company,' regarded the transfer in no favour ble light. They thought they should have been consulted: and the injudicious silence of the Canadian Ministry with reference to the form of government to be established caused many divisions amongst this party. Although they would have scorned to take part in any actual resistance against the establishment of the new order of things, yet they were by no means sorry to see the Ottawa Ministry in difficulties. They considered themselves slighted and were sulky in consequence. They had no intention of giving themselves any trouble to aid a Government that had not only failed to consult or consider their interests, but had ignored their existence altogether.

With the exception, therefore, of the small handful of Canadian adventurers already alluded to, no one residing in the settlement in 1869 was pleased with the arrangement, and many were loud-spoken in denouncing it. Where such active elements of discontent existed, it may easily be imagined how simple it was to fan the smouldering embers into the flame of active rebellion.

The previous political history of the country was curious, from the fact of there never having been any active Government whatever. There was nominally a Governor and a Council, in whom resided all sovereign powers. A lawyer's clerk had been converted into a judge by the Hudson Bay Company, and consequently there was an impression abroad, be it true or untrue, that no one could look for impartial justice being done in any case in which that corporation was interested. There was a code of laws, but there was no police, so the rulers had to depend upon a few special constables sworn in from time to time as required, for the execution of the law's decree.

Upon several occasions the law had been forcibly resisted with success; men condemned to imprisonment in suits in which the Company was interested, had been released from their cells under the walls of Fort Garry by a crowd of sympathizing friends, who had assembled for that purpose. Not many years ago four men had combined together and proclaimed a Republic. One was named President, and two others appointed the principal ministers of this liliputian Government. Amongst the first acts of this self-constituted trinity was a decree condemning the fourth conspirator to death. This fourth man was a German tailor, and as he constituted in his own person, the whole of the population recognizing the authority of these *sei disant* rulers, there was no one to carry the sentence into execution. Whether it was owing to the discredit which this powerlessness to enforce their decrees brought upon them,or from the general loyalty of the people to British institutions, we know not; but this Republic was as short-lived as a butterfly, and its appearance and disappearance caused as little excitement and had as little influence on the Red River world as would the advent or departure of such an insect.

This trifling incident is merely related to convey an idea of the state of society which existed there up to 1868. The people lived in peace and harmony with one another. They paid no taxes, and were so little accustomed to the machinery of a government, or the responsibilities of having to make laws or administer them themselves,that when these few adventurers tried to impress upon their minds the glories resulting from the exercise of the noble right of self government, following up their lessons by proclaiming a republic, the inhabitants of the Red River Territory merely laughed.

The only politics which existed—and they were of recent growth—consisted in being for or against the Hudson Bay Company. A monopoly must always be obnoxious to the majority, and never, even in feudal times, has there been a more rigid one than that established formerly throughout the great North-west by that corporate body. No one else could import anything into the country, or send any furs out of it; and it may be said that no one could either buy or sell except from the Hudson Bay officials. Even at this moment the whole of the inland communications are in its hands; and no banking arrangements can be made except through its agents. Notwithstanding the heavy expenses entailed by the conveyance of goods over the great distances that separate the country from civilization, yet it will always be to many a subject for wonder how it was that the Company generally was not ten fold richer. Even since the monopoly of trade was abolished, the Company still practically received a percentage in some way or other upon every business transaction that took place.

The only export from the country was fur; an Indian comes to sell skins; after some bargaining he agrees to take so much money for them. He is paid in powder, shot, or other goods, which are sold to him at a great profit, whilst the purchased articles are exported to Europe, and again sold at a great profit. In this manner a double advantage was obtained; and consequently it is remarkably strange that the affairs of the Company have not been for some years back in as flourishing a condition as they have been. There is only one solution to be arrived at, which is that it has long been badly served and administered abroad.

The enemies of the Company were numerous in Canada, and had made themselves felt even within its own territory of Rupert's Land. Every year added to their numbers. Those born there said their poverty was owing to the country being cut off from all outside trade and emigration by the direct action the Company took to keep things in *statu quo*. All Canadians or others who penetrated into the country, and settled there joined this discontented party, which had assumed such importance previous to the arrangements being made for the transfer of the country that had the Company refused to comply with it and persisted in its former policy of seclusion, it would soon doubtless have had all power forcibly arrested from it by the Canadian party within its own territory.

Unfortunately the arrangement entered into had an air of purchase about it, and a cry resounded throughout the Nor' West that its inhabitants were being bought and sold like so many cattle. With such a text the most commonplace of democrats could preach for hours; and poor indeed must have been their clap-trap eloquence if an ignorant and impressionable people such as these at Red River had not been aroused by it.

The surveyors were at work all through the autumn of 1867,and in prosecuting their operations frequently ran lines across the farms of men whose language could not speak, and with whom they had no feelings in common. A report soon got abroad that the Canadian Government intended possessing themselves of all the land for the purpose of allotting it amongst the host of emigrants, who, rumour said, were to follow the establishment of the new order of things. A large proportion of farmers could produce no title deeds to the lands they claimed; many could not even assert what is generally recognized as the outward visible symbol of possession in such matters namely, the fact of their being fenced in. The country had never been regularly laid off for settlement; but according as each successive settler occupied land, he had followed the example of those who had done so before him—that is, he nominally "took up" 100 acres, abutting with a narrow frontage on the river, but fenced in only the few acres nearest the water, on which he built his house, and which alone he placed under cultivation. In rear of this undefined plot of land extended the prairie, over which, to a depth of two miles with a breadth equal to the river frontage, the farmer exercised by custom a right of cutting hay. There was no market of produce, as the nearest railway station was about 600 miles distant in the United States, the export of grain was practically impossible; and there was no internal demand for it, as every settler grew enough corn for his own consumption. The consequence was, that not more than a few acres of each farm, as has been already stated, was ever cultivated or fenced in, the remainder of the 100 acres being allowed to remain in its primeval condition.

A few restless spirits, such as ever are to be found in all countries, saw in the state of affairs which we have endeavored to describe, an opportunity for action. They went round in the autumn of 1869 amongst the French-speaking portion of the community, preaching resistance to the Canadian Government. Every feeling that stirs mankind was appealed to. They were called upon to be men, and by their courage save themselves from having their lands taken from them and distributed amongst others, and their altars from being desecrated. They were told over and over again that Canada intended to destroy their religion, and to overrun their country with a heretical population, who regarded them as an inferior race and who would ignore their rights. Their priesthood encouraged this feeling, and aided the movement in that underhand manner for which it is celebrated.

At the head of this rising was a man named Louis Riel. He was born of French Canadian parents, who had emigrated to the Red River; and although he had not a drop of Indian blood in his veins, he had a large number of half-breed relations and connections; and in order to identify himself as much as possible with the people, he invariably spoke of himself as a half-breed. He had been educated at a Roman Catholic school in Canada, and at one time it was hoped he would enter the Church. Instead of doing so, however, he became a clerk in a shop at St. Paul's, Minnesota, where he resided for a few years, but was eventually dismissed for dishonesty. His prospects being thus under a cloud, he returned to the neighborhood of Fort Garry, and lived in the greatest poverty with his mother. No indigent were their circumstances that, finding himself succeeding in his *rôle* of demagogue, and considering it necessary to be the possessor of a black cloth coat, he was obliged to sell his mother's only cow to procure the money required for that purpose. He is a man of considerable moral determination, although all who know him say that he is wanting in physical courage. His command of language is great, and his power over his audience immense. He speaks English intelligibly, and his proclamations denote considerable talent and power of thought.

(TO BE CONTINUED.)

—A cheeky thief of Ottawa stole a turkey from a man's yard, and went to his house to borrow a bag to put it in. That fellow will succeed anywhere.

—The people of Normandy and Picardy are crowding to England. They prefer exile to the tender mercies of an enemy who is capable of exacting a contribution of £8360 per from a single city—a city, too, which gave him little or no trouble.

—William Henry Hemans, Esq., her Majesty's Consul at Buffalo, and son of Mrs. Hemans, the distinguished poetess, has been appointed her Majesty's Consul for the Province of Grand Para, Amazonas and Maranhom, to reside at Para.

—Another sensational divorce suit in the provincial court of Armagh affords the Dublin scandal-lovers renewed delectation. The petitioner, Mrs. Kate Hastings, sues for the modified divorce, "a mensa et thoro," on account of constant ill-usage, to which she alleges she was subjected by her husband, the Rev. Patrick Hastings, a beneficed clergyman of the Irish Church. He retorts by charging her with levity of conduct, such as allowing herself to be embraced by another clergyman, and alleges that she was habituated to hysterics.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½-lb., ¼-lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 187-m-12.

Daily Intelligencer.

BELLEVILLE, MONDAY, JANY. 9.

THE GRAND TRUNK.—The project of selling a part of the Grand Trunk Railway to the Canadian Government is again being discussed in England, and some parties there think the Canadian Government will absolutely require the Riviere du Loup line in order to complete the Intercolonial—which is very considerate of them.

RAILWAYS.—The Kingston papers are advocating the construction of a Railway from Kingston to Pembroke. This is a scheme which would do for the city of Kingston, what the Grand Junction would for Belleville. The Kingston *News* says: "It is understood the Board of Trade favours the construction of a railway to Pembroke in conjunction with the Madoc scheme."

CHRIST CHURCH.—At the vestry meeting held in Christ Church on Friday night, there was a considerable attendance. The project of the appointment of a coadjutor Bishop was discussed, the sentiment of the meeting being strongly opposed to the proposed appointment. Mr. E. J. Sisson was appointed delegate to the Synod, which holds a special meeting in Kingston on the 19th inst.

INLAND REVENUE.—A despatch from Otta wa says: "A new system of receiving payments is being introduced into the Inland Revenue service. In future all payments are to be made in Bank drafts when the amounts exceed $50,and the distribution of bill stamps in cities and towns is to be transferred from the Post Office Department to that of the Inland Revenue.

APPLICATION FOR RAILWAYS.—Notice has been given in the Canada 'Gazette' that application will be made at the next Session of the Dominion Parliament for Acts incorporating companies that intend to extend the Canadian railway system to Manitoba, and across the continent. One charter is for a railway proposed to run from Pembina by way of Fort Garry to Lake Winnipeg, or some place on the Saskatchewan near its mouth. The same company will ask for power to improve the navigation of the Saskatchewan. The other project is the Dominion Pacific Railway, from some point on Lake Superior across the "fertile belt" to British Columbia. It is likewise intended to improve the navigation of Rainy Lake and Lake of the Woods, and other waters in that line.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

MONDAY, Jan. 9th.

VAGRANCY.

Rachael Stapley was sent to gaol for 60 days on a charge of vagrancy.

DRIVING IMMODERATELY.

Frank Weese was fined $1 and costs, for immoderate driving on Front Street.

School Teachers' Examination.

SOUTH HASTINGS.

The semi-annual examination of candidates to teach in this County took place on Thursday, the 5th inst.—that for North Hastings at Stirling; that for South Hastings at School-house No. 3, Pinnacle Street, Belleville. The number of candidates who came forward in South Hastings was 27, of whom 21 obtained certificates as follows:

FIRST CLASS.

MAXIMUM, 280; MINIMUM, 186.

Jas. H. Munro,	218	Andrew Russell,	191
Leslie Tuttle,	203	Isaac C. Sqaier,	189
J. A. Sharp,	198		

SECOND CLASS.

MAXIMUM, 185; MINIMUM, 140.

Mary F. Moran,	181	John Yourex,	149
Ella Kinney,	159	Mary Lohnes,	143
Barbara Stewart,	154		

THIRD CLASS.

MAXIMUM, 139; MINIMUM, 92.

Mary J. Sweetman,	134	Theresa Anker,	111
Nancy Morden,	128	Ella Finch,	110
S. S. Brintnell,	126	Julia Moran,	107
Jane White,	122	John Rennel,	104
Jeremiah Gallivan,	120	Marthan Finkle,	97
Fanny Smith,	115		

J. GRIER, M. A., Chairman.
F. H. ROUS,
Sec. B. Pub. Ins.

Belleville, Jan. 7, 1871.

News Condensed.

—The Quebec Street Railway Company has declared a dividend of 8 per cent.

—There is no doubt that the Irish Militia will be called out this year.

—Lord Huntingdon has the reputation of being the best shot in England.

—The week before last no fewer than 40,000 prisoners are said to have been captured by the Germans.

—Jefferson Davis is passing his time in delivering addresses on the Sunday schools in the south.

—The Presbytery of Belfast have denounced Mr. Gladstone for the interest displayed by him in the welfare of the Pope.

—The 'Globe' and 'Telegraph' have increased their charge for advertising to ten cents per line each insertion.

—Those who be spelled 'though,' 'na 'eigh,' and boss 'beaux,' potatoes should be spelled 'poughteighteux.'

—The King of Prussia has ordered the purchase of the ground in France in which German soldiers are buried, in order to preserve the graves.

—From many parts of the United States come complaints of the unhealthy character of the weather and of the wide prevalence of fevers of the typhoid character.

—The Anti's are going down in Nova Scotia. Wylde, their candidate, at Guysborough, has but 200 majority over Torry. This is a considerable difference since 1867.

—A new paper is now to be started in London, Eng., for the purpose of discussing and disseminating information as to dairy produce and the producers. It is to be called the 'Milk Journal.'

—A great Protestant meeting was held in the Ulster Hall, Belfast, Ireland, on the 8th December, to protest against the British Government interfering with the temporal affairs of the Pope.

—A Pennsylvania man is under arrest, charged with setting fire to a bed in which his recently married wife was sleeping, with the fell design of consuming her and their boarding house together.

—Burglars, were at work early on Thursday morning at the vault of Mr. D. Thompson, M. P. P., of Cayuga. They were frightened by a passer-by, and are being traced, $100 being offered for their conviction.

RED RIVER NEWS.

From our Red River exchanges just received, we obtain the following news from that country. Referring to the demand for labor in Manitoba, the 'Manitobian' says:

That there is a great scarcity of labor in this Province, every one who has anything to do with the employment of hands,knows right well. Everybody complains. Boys can't be got nor girls, and mechanics of all kinds are at a premium. Now this shows very distinctly one thing and suggests another. In the first place it indicates that the Province has taken a start in its onward progress, and the labor hitherto sufficient to implement all its requirements in this respect, is now altogether insufficient. This is certainly a very satisfactory state of affairs in one respect, but then the work must be done, and the question arises, who are to do it? And this leads to the suggestion. We must have some well organized system of immigration in the first place to supply the actual poverty of the labor market. We observe that boys are being imported into Ontario and Quebec, where there are plenty of poor boys already; but here we have no poor boys, and a couple of hundreds of them sent here would notonly be a vast boon to the Province but the lads would grow up to find themselves in a country where plenty and prosperity were their sure portion. Miss Rye, we observe, is still at her good work; will she be good enough to look over Ontario for once and come over and help us in Manitoba? A hundred of her girls could find employment within twenty four hours, and receive higher wages than in any Province of the Dominion. And tradesmen of every class, especially those who can bring along with them some little material, are sure to start here with more work than they can overtake, and may lay the foundation of great future prosperity. We would suggest that the employers of labor in the Province should at once organize and endeavor, through the agency of the Emigration Bureau, to secure, early in spring, a supply of labor commensurate with their wants.

Delegate Scott is still heading for the south-east. A short time ago he turned up at St. Cloud, where he sold a quantity of table silver bearing the monogram of Dr. Schultz, which was stolen last winter. He got $50 for it, and on this he 'went in' for another term of high living. The $283 he received on account of his 'mission' to Ottawa, and the proceeds of the fine furs he took with him, having been expended, he found himself reduced to the strait—as many public men have been before—of selling his 'plate.' He has still a large amount of brass left, and this will doubtless soon be put upon the market.

Mr. H. J. Clarke, Q. C., is electioneering throughout the Province with great ardor. He supports Mr. Donald A. Smith for the Dominion Legislature, but opposes Dr. Schultz.

The Province has been divided into twenty-four electoral districts, and returning officers and polling clerks appointed by Lieut.-Governor Archibald.

A course of lectures to be delivered to the volunteers during the winter, has been arranged under the patronage and direction of Lieut.-Col. Jarvis. Among the lecturers will be: The Lieut.-Governor, Bishop Tache, the Bishop of Rupert's Land, Ven. Archdeacon McLean, and the Rev. Messrs. Young, Patterson, Black, Gardner, Pinkham and Carrie.

A brewery is to be erected on the banks of the Assiniboine, a little north of Mr. Robt. Tate's mill. The dimensions of the building will be 60 by 90 feet.

The musical and dramatic association of the first Ontarios has successfully inaugurated its entertainments.

Holy Trinity Church has been completed and its opening was to take place on the 19th ult.

Alabama Claims.

The *Alabama* claims have recently been presenting themselves to certain ingenious minds in a light intricately astonishing. It seems to be conceded on all sides that those owners whose lost property had been duly paid for by their underwriters are, since that payment, out of court altogether having been compensated in full, and being consequently incompetent to make further demands. The question then arises, do their surrendered rights lapse to the Insurance Companies? At first sight it would seem as though they did, but a further examination goes to prove the contrary. The Insurance Companies have absolutely lost nothing. They charged war premiums and they accepted the war risk. If their losses exceeded their gains, which there is no evidence whatever to show, it was but the fault of their own miscalculation of the chances, for which no outsider can be held responsible. It follows, from this reasoning, that the only parties having valid claims are first those who neglected to insure, for the whole amount of their damages; and secondly those who did insure,for the excess of war over peace rates of premium. The bill does not, in this light, seem so formidable after all.

Reserve Militia—North Hastings.

The official *Gazette* of Jan. 7th, contains an order establishing three additional Company Divisions, in the Regimental Division of the North Riding of Hastings, to be styled respectively Nos. 7, 8 and 9, as follows:—

No. 7 Company Division (Townships of Dungannan, and Farady). To be Captain, J. R. Tait, Esquire.

No. 8 Company Division, (Townships of Mayo and Carlow.) To be Captain, James Wilson, Esquire.

No. 9 Company Division, (Townships of Monteagle, Herschel, McClure, Wicklow and Bangor.) To be Captain, Michael Doyle, Esquire.

Active Force.

16th PRINCE EDWARD BATTALION OF INFANTRY.

The undermentioned Companies of this Battalion are by order in the *Official Gazette* of the 7th inst., re numbered, and designated and known by their new numbers, as follows:—No. 2 Company "Wellington" as No. 2 Company; No. 4 Company "Consecon" as No. 3 Company; No. 5 Company "Milford" as No. 4 Company; No. 6 Company "Milford" as No. 5 Company; No. 7 Company "Picton" as No. 6 Company; No. 8 Company "Ameliasburg" as No. 7 Company; No. 9 Company "Redmerville" as No. 8 Company.

The following promotions are also gazetted in the same Battalion:—

No. 5 Company Milford.—To be Captain; Lieutenant Marshall Richards, M. S., vice Clapp, deceased. To be Lieutenant, provisionally: Sergeant Major Samuel Gordon, vice Richards, promoted.

The Fenian Convicts.

MR. GLADSTONE'S LETTER ON THEIR RELEASE.

The following letter has been sent by Mr. Gladstone to Sir William Carroll, late Lord Mayor of Dublin, whose name was the first attached to a numerously signed petition presented to the Prime Minister by Mr. McCarthy Downing, M.P.:—

"DOWNING STREET, Dec. 15, 1870.

"GENTLEMEN,—I have to inform you that Her Majesty's Government have carefully considered the case of the convicts now undergoing their sentences for treason and treason felony; and that they have recommended to the Crown the exercise toward them of the Royal clemency, so far as it is compatible with the assured maintenance of tranquility and order in the country. They will, therefore, be discharged upon the condition of not remaining in, nor returning to, the United Kingdom. These prisoners were most justly condemned for participation, either secretly or by open violence, in a conspiracy which if any degree successful, would have filled Ireland with misery and bloodshed; and the same principles of justice which dictated their sentences would amply sanction the prolongation of their imprisonment if the public security demanded it.

"It is the last question, therefore, which has formed the subject of careful examination by Her Majesty's Government, and they have been able to come to the conclusion that, under the present circumstances of the country, the release of the prisoners guarded by the condition which I have stated, will be perfectly compatible with the paramount interests of public safety, and, being so, will tend to strengthen the cause of peace and loyalty in Ireland.

"There happily appears to be a concurrence of circumstances favorable to such an exercise of the royal prerogative of mercy.

"Ireland is at present remarkably prosperous, and generally free from turbulence or disorder.

"Its quiet conditions shows a most marked improvement upon that which prevailed a year ago. Since that time Parliament again proved, as it had done in the previous session, its readiness to confront the most difficult questions of Irish legislation, with a view to sincere reforms and effectual remedies, while it has not failed to maintain the authority of the law by conferring special and necessary powers upon the Irish Government.

"These things have swelled the numbers and strengthened the hands of that great body of men, of all parties and creeds, representing the property, intelligence and religion of Ireland which is on the side of order and loyalty, while they have weakened the powers of disaffection and revolution. The earnest desire of Her Majesty's Ministers is to act in all things so as to favor the advance of this healing process, and it is because they believe that the release of the convicts, now suffering under sentences of imprisonment for treason and treason-felony, will assist in this work that they have arrived at their present decision,

"That decision, they are well aware, is in accordance with strong opinions and compassionate feelings very widely prevalent in Ireland, but happily, not displaying themselves in any popular agitation or any turbulent demands, such as would render compliance inconsistent with the due authority of the Government,or afford to the evil-disposed an excuse, of which there cannot now be a shadow, to misrepresent an act which is one of pure clemency on the part of the Queen.

"I have the honor to be, gentlemen,your very obedient servant,

E. W. GLADSTONE."

—Because horses are used to rein,it does not follow that they are unaffected by wet weather.

—"Boy, what is your name?" "Robert, sir." Yes, but what is your other name?" "Bob, sir."

—A despatch from San Francisco says that Prince Alfred sailed from New South Wales for New Caledonia, Auckland, Christchurch, by S. Harris and Moses Gleeson. It had been in the neighbourhood for several weeks, killing hogs and doing other mischief in the farm yards. It measures five feet in logs as thick as a man's arms, and paws four inches wide.

SPECIAL INDUCEMENTS.

TO completely clear out his stock,

Wm. Johnson

offers his entire stock of Mink Furs at a cash discount of 10 per cent. This will enable those who intend purchasing to do so at this early season of the year at exceedingly low prices. As there are only some twenty-five sets left, customers will find it to their advantage to call early.

☞ All these Furs are of this season's manufacture.

CUSTOMERS SAY

Midnight Despatches.

Germans withdrawing from the North.

Paris Forts Silenced.

Proclamation from Trochu.

LONDON, Jan. 8.—The Germans are generally withdrawing from the Northern Departments.

The French marine infantry, repulsed a Prussian detachment near Briare. The Germans lost 200 men.

The Uhlans have appeared under the walls of Lille.

Great destitution prevails in Amiens, and vicinity.

VERSAILLES, Jan. 8 (noon).—The bombardment of the fortifications on the south-east and north of Paris is going on and proves effective. On the 7th Forts d'Issy and Vanves were silenced. The bombardment of the other southern defences promises to be equally effective. The German loss from the return fire of the French up to the present does not exceed twenty.

NEW YORK, Jan 8.—A London despatch to the *Herald* says:—

"Letters from Paris to the 4th indicated a danger of riots."

LILLE, Jan. 8.—The French headquarters are at Bourdeaux. The approximate losses in the battle at Bepaume were 9,000 Germans and 4,-000 French. The Germans evacuated Bepaume on Friday.

It is said that 100,000 French have arrived at Cherbourg to equip for active service.

Lille is crowded with wounded. Gen. Faidherbe is there re-organizing the commissarial department.

The defenders of Havre are retiring to Romain as the Prussians advance. It is reported that the Prussians have been routed at Bolbec.

HAVRE, Jan. 8.—10,000 Germans were defeated yesterday by Gen. Reyere, near Juniges. The French have since occupied Bourgstheraul and threatened to drive the Prussians from Pont Audemar.

Paris dates to the 3rd state that Gen. Trochu on the 31st of Dec. issued a proclamation to the citizens in which he says:—

Efforts are being made to destroy the union and confidence to which Paris owes her prolonged defence. Political capital is being made of the disappointed caused solely by the severity of the weather. The army has indeed been sorely tried and requires a brief rest while the enemy seeks to prevent by a most violent bombardment; but that army is preparing to act and will do its duty. There are no dissensions among the members of the Government, who are perfectly united in the face of the country's perils and in the hope of her deliverance.

The report of the Generals commanding the fortifications show that slight damage has been done to the suburban villages by the bombardment and few men been wounded.

The council of war has approved of the measures for associating the National and Mobiles Guard with the regulars for the more vigorous defence of the city.

Morning Despatches.

Another Earthquake.

The Fight before Lille.

Released Fenians.

Lord Derby and the Volunteers.

Bonapartist agents Arrested.

Faidherbe's Headquarters.

A Battle Expected.

Arrivals.

American Counsul left Paris.

Fires in Paris—Bombardment.

ASPINWALL, Jan. 7.—Arequipa, Peru, was visited by an earthquake December 31st. Buildings were somewhat damaged but no lives lost.

LILLE, Jan. 7.—Faidherbe, in official communication, says his army did not retreat on the night after the 3rd; they remained in the occupation of villages they had conquered, and went into their encampment only on the following morning. As to pursuit, of which the Germans boast, the only fact to support them is that on the morning of the 4th, two squadrons of cavalry charged the French rear guard; one of them was annihilated and the other wheeled off and fled.

The Herald's special from London January 7th, says: The released Fenians Rossa, O'Connel, Devee, McClure and Mulloy, left for New York per steamer 'Cuba.'

When the steamer 'Cuba,' with the Fenian prisoners on board, reached Queenstown, a committee visited the prisoners and gave them an outfit of £20 each. The men seemed satisfied with their treatment by the Government. The people gave them a serenade before the 'Cuba' sailed. Their pardon is not complete. So long as they remain within British Dominion they are subject to the full penalties of the law, under which they were sentenced. Halpin still refuses to accept conditional pardon.

LONDON, Jan. 7.—Lord Derby in a speech at Preston, urged the Government to provide the volunteers with field artillery and to divide the country into districts, each of which to furnish its quota of militia.

BRUSSELS, Jan. 5.—Eight arrests have been made in the department of Serne and elsewhere of suspected Bonapartist agents. They will probably be tried by court-martial.

The headquarters of Faidherbe will be at Boceleux to-morrow, and will advance towards Bourbaki's army. The combined army will then march to Nancy to cut off the base of the Germans. Most of the French captured at Nuits have escaped since the evacuation of Dijon, or have been delivered by France-tireurs. A reign of terror is commencing. A battle is imminent between Werder and the forces of Garribaldi. Bourbaki and the army of the north have been refitted, and will shortly be prepared for offensive action.

NEW YORK, Jan. 8.—The steamships 'Australia,' from Glasgow, and 'Denmark,' from Liverpool, have arrived.

LONDON, Jan. 8.—A telegram from Versailles to the *Times* to-day, says the American Consul has been permitted to leave Paris and has arrived here.

The Prussian guns could easily shell the city. There are several houses in Paris on fire. There has apparently not been much firing to-day. The French redoubt at Notre Dame de Clament is occupied by the Prussians and its fire turned against the French. There are no appearances of a sortie. The Prussian losses are still insignificant.

Another correspondent at Versailles on the 7th, telegraphs that the bombardment of forts on the southern side of Paris is steadily continued, and that the fire of the French has slackened. It is supposed that several guns in the fort is dismounted. The weather is favorable for siege operations.

A correspondent at Margency says forts Romy and Nogent have suffered severely, and that it is believed there are no French infantry outside the fortifications. On the east and north-east of Paris active and offensive operations are expected of the enemy.

The Luxembourg Question.

Proclamation of the King of Holland.

Independence of the Duchy assured.

LONDON, Jan 8.—The King of Holland has issued a proclamation to the inhabitants of Luxemburg promising them his unvarying attachment and assuring them of the maintenance of the independence of the Duchy, which he points out is guaranteed by the signatures of the Chief European Powers.

GREECE.

LONDON, Jan. 8.—A band of Greek brigands, numboring eighty, had a fight on the 21st ult., with the Turkish troops near the frontier, and were defeated with a loss of 20 men. The Turks at last accounts were vigorously pursuing the bandits.

The Conference.

The Conference certain to meet this Month.

LONDON, Jan. 8.—The London *Observer*, a journal usually well informed, says that the Conference of the powers will certainly meet before the end of January. The refusal of France to attend is not considered final, but whether France is represented or not the Conference will assemble.

Great Britain.

LONDON, Jan. 8.—It is proposed to increase the cavalry regiments of England as follows: Cavalry, 1,000; Infantry, 1,200; Artillery, 5,-000; Engineers Corps, 300.

A crowded meeting was held at Liverpool to-day, in favor of the re-organization of the army.

O'Donovan Rossa and other Fenians were released at Chatham to-day, when they proceeded to Liverpool for the purpose of leaving the country. The British Government, it is said, pays the expenses of the released convicts to the United States.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 9.—The Times special correspondent with the army of Prince Frederick Charles, describes the fighting along the Loire, in the forest of Vendome and at Moutaine, on the 6th instant, and says: The French retreated to the westward: the Prussians are following them and meet with but little resistance. The prisoners captured by the French are sent to the Island of Orleon, in the westward of France, and opposite the mouth of Charlute. Many Bonapartist agents have been arrested in France.

SPECIAL NOTICES.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

I found instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church, Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1870. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has successfully directed the energies and talents as a Female Physician and Nurse, to the special study and treatment of Children. Such has been her success, that she has become universally known as the most reliable and scientific female in the country. Having made the subject of the nursing and treatment of children a special study, and having studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit : } Two Writs of Fieri
Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, as James D. Davern, Robert Waller and Charles Davis, Defendants, and David Pitceathly and Thomas Keleo, Plaintiffs, as J. D. Davern, Defendant ; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one P. C. Rubridge, D. P. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale by public office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

GEORGE TAYLOR,
Sheriff.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great Principles from all nauseating or disagreeable) effects spoken of here, Dr. Radway

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian and other Alterative Roots provided extracts that enter into the composition of this wonderful Blood Purifier, Flesh-making principle, are selected and gathered with the greatest care as to the proper season, from the native soils, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway's Resolvent, so that no spurious admixtures or worthless roots are possibly to be mixed with the pure.

In each Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the discovery and introduction of scientific botanists in this branch alone. But the wonderful improvements in the principles and curative range of Dr. Radway's Remedies, surpassing the

SARSAPARILLIAN RESOLVENT,

even for the outlay over and over again ; for never in the history of this or any previous age of medicine has anything builds up, repairs, and makes sound so rapidly, thoroughly and permanently restored, the wrecked and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS TISSUEMAKING AND FLESHMAKING QUALITIES.
it supplies the system with chloric or heat-making principles.
it cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat Skin and body.
it increases the appetite, and digestion.
IT STOPS ALL WEAKENING DISCHARGES.
it increases the organs and diminishes the waste.
it accumulates the products of decay.
it resolves Tumors, Nodes, Hard Lumps.
it makes the skin clear and beautiful.
it heals Fever Sores and Ulcers.
it cures Coughs, Colds, and Sore Throat.
it makes the water clear and pass freely.
it cures Diseases of the Kidneys, and restores vigor of manhood those who, from weakness or any other cause, have exhausted.
it rescues woman from the perils incident to change of life—cessation of Menses.

GENERAL NEWS
GENERAL NEWS
GENERAL NEWS
GENERAL NEWS

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not worn out beyond the point of repair, but is capable of sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the elements of disease and death now exist be eliminated from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, diseased, and in some cases entirely disorganized, and portions altered beyond the reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, from the first active perhaps for years ; for no matter how low the vital forces may be reduced, the Resolvent will enter under the influence of the tissue and flesh-making principles it contains, and the BLOOD WILL receive that high degree of nourishment it requires, and the LUNGS, LIVER, and the BLOOD WILL receive that high degree of health that will enable them to perform their part in health full solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poisons of the system, the product through the previous, will expose from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue ; and while in their advanced stage can both be checked and cured by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

*A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or any Urinary difficulties, will experience a marked change in her health for the better after taking the Sarsaparillian Resolvent. As the blood becomes more pure, rich, strong, and 'pure as crystal, and is enabled to hold in solution all the constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and death will be diminished in the Lungs, Kidneys, Skin and other Organs, and each of these Organs will secure their proper constituent secretions. Instead of Urine like, the Kidneys will secrete healthy urine ; instead of the Lungs receiving tubercles, they will receive the life-sustaining principles of the blood, and the Skin will be cleared of Pimples, Blotches, Eruptions, Sores, Ulcers, Tetter, Salt Rheum, Scurfiness, and Dryness, and the Bowels will receive healthy digestive secretions, and the Liver will secrete healthy bile, and

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Arts, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For all four of the Reviews, - - 12.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one Review, - - 7.00 "
For Blackwood and any two of the Reviews, - - 10.00 "
For Blackwood and three of the Reviews, - - 13.00 "
For Blackwood and the four Reviews, 15.00 "

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of twenty per cent. will be allowed to Clubs of four or more persons. Thus four copies of Blackwood, or of one Review, will be sent to one address for $12; four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy extra to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive one of the Reviews or 1870. New Subscribers to all the five may receive any one of the Reviews for 1869.

☞ Neither premium to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual whose ideas of Morals and Trade are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerkins, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the table-service will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved at the commencement of the year, is the most widely circulated and most influential scientific journal now published. Every number is beautifully printed on fine paper, and splendidly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades should take

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its contents may be found a mine of wealth to every household. Workshop and Factory. Hence, it is the best and most widely circulated paper of its class in the world, and is conducted with marked ability, and has a corps of the ablest writers on Scientific subjects in the country.

AN OFFICIAL LIST of all the Patents Issued is published in every number.

Terms—$3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25 with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinions and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Reissues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examples, Decisions, Abstracts, Judgements, &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

CHAINS, JEWELLRY,
Clocks, Electro-Plated Spoons,
&c., &c., ever brought to Belleville.

All goods warranted what they are represented to be.

All kinds of jobbing and repairing done promptly and in a workmanlike manner.

Call and inspect the Stock before purchasing.

H. ROSENBERG,
Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.

G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its de-artments than any other.

Its fashions are more unique because they are original and original, and no blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wearing.

It is always high-toned, and its contributors include some of the first writers in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentals of the household; the best magazine for furnishing original receipts for confectionery and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than value as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 22 by 28 inches, entitled "The Peace of the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 12 cents.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Weiss having purchased a proprietary interest in it, and become its publishers, in the belief that this region of country, second to none in Canada for agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

The ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by Messrs. Armitage and Manufacturers, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seedsmen, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 324 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at Seventy-Five Cents each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

Communications intended for publication. Items of agricultural intelligence, &c., will be thankfully received.

W. F. Clarke,
Editor Ontario Farmer, Guelph.

French Correspondence.

ARRAS, Dec. 17.

Blois occupied, Havre turned, Dieppe visited, Phalsbourg surrendered, Montmedy capitulated—such are the disasters for little more than a week for France. And there is not a sign of yielding on the part of the French—the ardor of the population and the army cries for vengeance, displays no weakness—the desire to struggle on to the last extremity becomes more energetically manifest; the annihilation of the elements of disorder and trouble at home is complete. It is impossible not to admire this attitude of holding out—it deserves to be rewarded with success, but the triumph of France is not clear. The sympathy of the world is every day more and more returning to France, but sympathy will not drive away the Germans. Right in the beginning, Germany is plunging more deeply into wrong as the war is being prolonged, and strengthening the grounds that France will have hereafter, to attempt to redress the exterminating policy of the Germans against her. After Sedan, France desired honestly and honorably to settle the German demands, but her unchivalrous foe became afflicted with the lust of aggression and banished moderation from her conditions of peace.

The French ask you at every turn is the ambition of Prussia not revealed at last in her designs on Luxembourg; is she not as great a sinner towards international morality as the Czar and the treaty of 1856? Force, not honor, alone interprets the obligations of diplomacy. This nation is aware that her misfortunes are seized to consolidate Europe, as predicted by the First Napoleon. No power can chastise Prussia. England has wealth, but she cannot put a million of disciplined men to check the States that openly challenge, if not insults her. Never was the necessity of France remaining a great power, more clearly proven than by the sequence of events that have followed her humiliation.

A heaven born general could yet do much to retrieve the low fortunes of France, even an audacious one could do wonders. The men are plentiful, as brave as ever were their ancestors, but they have no confidence in those who lead them to glory; the changes in the military commands do not help to increase the weakness of the French resistance. Let it not be forgotten by those who thoughtlessly smile at Gambetta's removal of generals, how difficult is the card he has to play—while defending the country from invasion he has to uphold the Republic, and there are too many Frenchmen who would sell their country to advance their peculiar opinion. A victory for Gambetta means at once a triumph for France and the Republic. Parties are united for the first but not for the second.

The army of the Loire has had to retreat, it matters little in what order or for what end—its primary object, almost its sole utility has failed; it cannot advance to the relief of Paris, and to save the capital no time exists for retrograde movements. It is not evident from whence relief can come now. Manteuffel threatens Havre, but many think Cherbourg is the place he has in his mind's eye after dividing the French forces. A detachment of his troops paid a flying visit to Dieppe, apparently to maintain the character of their omnipotence, to illustrate the meaning of a 'requisition,' to force English and Americans to hang out the flags of their respective countries, to prove their inutility before active war, and to permit a foreign clergyman to appear in full canonicals to exorcise the Uhlans. Nations at war do not regard each other as endowed with all the virtues under heaven, but why do foreigners fall into the error of regarding the Germans as barbarians? To remove this doubt, a Prussian officer said to me, is one of the reasons why we keep marching into France. The 'army of the North' has, it is said, re-taken La Fere; nothing is to prevent it exchanging fire with the enemy before Paris or trapping up the forces of Manteuffel. But the dashing general is not forthcoming.

After all, these events pale before the pivot of the campaign. Follow as you may the exploits elsewhere, Paris compels you to witness her deeds and her sufferings. Orleans may be taken and re-taken, Amiens occupied, when her defenders retreated after a well fought victory, Rouen may be abandoned to the invader by strategic reasons, but the last act of the drama will be, and must be played at Paris. Thither the eyes of the world are turned and fixed and there they will remain, till the curtain falls. What then is the condition of the capital? According to my latest communications, and from several friends on whom I can implicitly rely, politically, the situation of Paris is beyond all praise. There are no parties, no fire-brand clubs, though every citizen is absolutely free to speak or write the thing he will. The few Vatnol journals that existed, those inspired by Blanqui and Pjat to wit, have died a natural death, their conductors frankly avowing they met with no public support. The statistics of order could not be more eloquent than this confession. To show how strong the government is, it has arrested and sent for trial, the frothy Flourens. It has gone further, it has dissolved the Gracchi, who composed the National Guard of Belleville, and sent 61 of the body to trial for cowardice, in turning their backs to the enemy. It was from this quarter of Paris that turbulence and extreme republican doctrines had their head quarters, the hour has proved their patriotism to be but a name. So violent were these gentlemen it was necessary to separate them by barri-

cades from their neighbors from La Vilette, another dangerous, but not a cowardly quarter. Tell it not in Gath, but the National Guards of Paris, do not exactly understand their epoch. They only do duty inside the fortifications, in the city in fact. The regular troops and the Mobiles act outside, bear the brunt of the battles. Between the latter and the former, there is not a happy spirit cross'ing, it is believed, and with reason, that in the hour of common danger, the perils should be shared in common. The National Guard has not displayed any anxiety to go under fire, and if Trochu decreed they should, the result might be barren. Neither is the discipline of that body all that could be desired. This is a great element of uncertainty in the resistance of Paris. The First Napoleon would send them to the front, and if necessary place cannon behind to keep them there. This war has shown, that if a nation is to depend on its citizens for its defenders, they must be trained to be soldiers in advance, in fact adopt something of the Prussian system. In the late sortie, extending over the three days commencing on the 30th ult., the French official report states the loss to be :—Officers killed, 72 ; wounded, 342 ; men killed, 936 ; wounded, 4,680, one-third of the wounds are slight. These figures look doubtful ; in the three days battle before Amiens, the French killed was nearly equal to the foregoing. It was proved, that during the fights before Paris, on the days in question many scoundrels wore the Geneva cross to plunder the dead, and pick up "unconsidered trifles." Some of these marauders have been shot.

If the French have extreme views about the Germans, the latter entertain strange views about the French, and believe, when taken prisoners, they will be at once shot ; their suspicion is very curious, also going the length of regarding the food given to them as being poisoned. The Prussians were squeamish at first when presented with their first *plat* of horse flesh, but they ought not, as the Germans have for a long time preceded the French in popularizing hippophagic delicacies.

The all-absorbing question of the supply of provisions is one, and the only one about which information is not reliable. Some assert that the city has food till June, others till march, but the majority till January. At the present moment there are no complaints of persons, irrespective of his social position, receives fixed rations—money cannot buy them, because life is too precious. The salt fish and horse are as thankfully accepted, as if they were the greatest of delicacies. Bread, which heretofore could be purchased *ad libitum*, is now measured out with the same caution and firmness, as the three ounces of fresh horse meat per head, per week. It is not that the supply of corn in Egypt is seriously diminishing, but that the number of grinding mills is limited, and it is necessary to prevent any waste in the consumption of the grand necessary of subsistence. The horses killed in the late battles before Paris, were at once skinned, and their flesh brought into the city. The persons who thus acted, at the risk of their lives, did so to make money by the private sale of the meat—they belong to the same band who run all dangers to gather what remains of the vegetables in the deserted market gardens of the suburbs. The most prolific edible cultivated is mushrooms, every dark, damp cellar is "prepared," and spawn deposited in the beds. It is to the supply of the grateful fungus, that many persons have been able to take their daily ration of horse flesh—to say nothing of other *et ceteras* that necessity has made at home on the table.

Will Paris be bombarded ? This question is about as frequently asked as, "what's the news ?" Some say yes, and immediately ; others no. The German authorities deny being actuated in their delay to bombard, by any but military motives. We may believe them, the capital of the civilized world has no claims upon Prussian forbearance. Why then the delay ? It is thought the besiegers are really not ready, that they trusted to the investment of Paris for two months, and the expected famine and internal disorder, to reduce the city, and that the Krupp cannons are not sufficiently numerous to undertake so gigantic a work. Then Trochu has so well advanced his line of defences even beyond the forts, that his enemy will find it no easy task to take them. It is not considered, that the Prussians will rain in shells and grenades before silencing two or three of the forts. Many think they have not guns of sufficient range to reach the heart of the city, and although they may pound down some of the outskirts, the people have refuges elsewhere. How will the inhabitants take the bombardment ? This question is also among the uncertain. If they take it into their heads to hold out, to die, if it becomes fashionable to submit, they will do so. There may be some turn in popular feeling, that no one can dream of, the inspiration of a moment. In any case, the commanding of Paris will secure for Prussia the concentration of hate of humanity, and may bring about a state of things totally unforeseen. Not a week passes, but something unexpected turns up ; no one can discount to-morrow in the progress of this war.

The Prussians have blundered in forwarding false pigeon despatches to Paris. Every balloon that leaves the city, now not very often, brings a small net full of pigeons. When a balloon falls into a party of Uhlans, the pigeons are seized as carefully as the despatches. A balloon just captured, its pigeons were set free, with messages purporting to come from Tours to the Paris Government, and describing the prospects of further resistance as hopeless, of the dissatisfaction felt in the provinces at the continuance of the war. One of the messages was signed by a gentleman who is at present in Paris, and actually an under Secretary in the Home Office, where the messages were duly brought.

The Prussians, it is known, never send a train along the railways in their possession without having two or three of the most influential inhabitants in the locality through which it may run, accompanying it. When a high general travels, a cloud of mayors and local judge constitutes his travelling companions. The Bishop of Chalons has offered to fulfil this duty on behalf of his diocese. The Archbishop of Paris is becoming patriotic—he has cast theology to the winds, and now preaches up a Holy War. Pity he was not in the provinces. But what is Felix of Orleans about—and the Cardinals of Rouen and Bourdeaux ? The Prussians are stripping Dijon and other cities in the east of France of their noteworthy inhabitants, and sending them into Germany as hostages for the captains of merchant vessels captured by the French cruisers. It is a curious reprisal. At Citeaux, they held in captivity the professors and *abbessi* of the college, for a fortnight. At Amiens, they arrested the proprietor and editors of the leading journal of that town, because in former issues of their paper they spoke disrespectfully of the King of Prussia—questioned his piety somewhat, and disputed his right to annex their fellow countrymen in Alsace, &c., without the slightest regard for their feelings. By paying 50,000 francs these gentlemen obtain their liberty, but will not be called to speak disrespectfully of the equator till the Prussians return home.

In the Department of the Rhone, all clerical students of the required age are to be drafted into the army, and a proposition has been set on foot to make the nuns turn in to filling cartridges. Pau is to be selected as the grand depot for Prussian prisoners, those who have arrived there speak very highly of it as a winter residence. The Prussians, as prisoners, are better cared for by the French, than are French prisoners by the Germans. With the latter, the captured must work hard, and few comforts. There are not less than four of the leading Paris journalists prisoners in Silesia, one is a "master baker" for the village, another is learning tailoring, a third is becoming an expert shoe-maker, and the fourth—a well known dandy—has been appointed to cook for his comrades, he having inadvertently said, he saw poor Dumas often at such work.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br, 1870 :

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 10.

SOIREE.—The Ladies Aid Society in connection with the Wesleyan Methodist Church are to have a soiree on the 17th.

Y. M. C. A.—A fall meeting of the Young Men's Christian Association is called for to-night at 7.30.

ENGLISH MAIL.—The English mail per steamship *North American*, arrived at Portland on Monday, was distributed here this morning.

ORANGE DISTRICT NO. 1.—The annual meeting of Orange District No. 1, South Hastings, for the election of officers, will be held in the ORANGE HALL to-night at 7½ o'clock p.m.

A CHANGE.—This morning quite a change took place in the weather. The three day's cold has given way, and a much milder temperature has succeeded. A considerable fall of snow accompanied the alteration in the barometer.

RAILWAY BONDS.—The rate-payers in St. Thomas, voted on the 7th inst., $35,000 bonus to the Canada Southern Railway ; and the Township of Malden upon the same day voted $15,000 bonus in aid of the same Railway.

TESTIMONIAL TO SIR JOHN A. MACDONALD. —Over $28,000 have been subscribed in Toronto, towards the Macdonald testimonial A large meeting was held in Hamilton on the 4th inst., at which there were a number of the leading Reformers of the city. A large committee was appointed to canvas the city in aid of the same fund.

FRENCH CORRESPONDENCE.—Our regular letter will be found in another part of this day's issue. Though much of the news contained in this correspondence is anticipated by telegraph, it yet contains many interesting facts concerning the state of affairs in France, which are otherwise not obtainable.

DOMINION REVENUE.—The following is a statement of the revenue and expenditure of the Dominion of Canada for the month ending 31st Dec., 1870 :—

Revenue Customs	$796,888
Excise	434,589
Post Office	60,528
Public Works including railways	79,078
Bill Stamps	13,905
Miscellaneous	56,794
Total	$1,435,783
Expenditure	$941,412

CHRIST CHURCH.—It will be seen by an advertisement in to-day's paper that a meeting of the members of Christ Church takes place to-night.

DRILL INSTRUCTION.—By a regimental order just issued from the headquarters of the 15th Battalion, the formation of a class for the purpose of instruction in the new drill, is authorized—the class to meet at the Armory, Pinnacle Street, every Monday until further orders.

LECTURE.—Lieut. Col. Denison will deliver a lecture in the Masonic Music Hall to-morrow night, the subject being "The young men of the Dominion : their duty to the State." The subject is an interesting and suggestive one, and, at the hands of the able lecturer, cannot fail to be productive of a large amount of interest. See advertisement for further particulars.

SCHOOL ELECTIONS.—A much livelier interest in the school elections is now manifested, and parties heretofore undecided have at length made up their minds whether to "run" or not. In Ketcheson Ward, Mr. James Hambly is prosecuting an active canvass. In Baldwin Ward, the contest will be between Dr. Relyea and Mr. Tennent. Coleman Ward is rich in candidates, Messrs. Fallwer, Jacob Yeomans and R. N. Bennett, all being determined to go to the polls. In Samson Ward we hear of no opposition to Mr. McAnnany.

MR. FALKINER'S MEETING.—From the short report of our reporter we should judge the meeting held last night was an exceedingly rich one similar to that of last year, "only a little more so." Mr. Yeomans has been a firm supporter of Mr. Falkiner and Mr. Sisson heretofore, and why he should oppose him now is not explained. The part played by Mr. Vandusen is not a new one ; others have done the same thing, by which means such people can "run with the hare and hunt with the hounds." It is not our wont to revive old disputes, but have simply to say that Mr. Falkiner's figures, etc., will not bear the strictest scrutiny.

Municipal Loan Fund.

From a statement just printed by the Ontario Legislature, showing the arrears due by each municipality to the Consolidated Municipal Loan Fund, up to the 30th June, 1870, we find that the Town of Belleville and County of Hastings have paid up and do not rank among the defaulters.—The amount borrowed by Belleville was $20,000, and on the 30th June, 1870, there was to the credit of the town in the Sinking Fund $12,269 68 ; showing the indebtedness of the town to that fund at the above date, to be $7,730 32.

The amount borrowed by the County of Hastings was $157,690, and on the 30th of June, 1870, had to credit in the Sinking Fund $81,770 16, showing an indebtedness of $75,929 84.

This same return shows the following places to be in arrears without a cent in the Sinking Fund, as follows : Brantford, $303 463 04 ; Brockville, $371,649 79 ; Barrie, $674 45 ; Cobourg, $564,211 97 ; Chippawa, $11,180 71 ; Chatham, $43,583 78 ; Dundas, $46,804 97 ; Township of Elizabethtown, $121,760 01 ; Goderich, $33,621-48 ; Guelph, $7,524 86 ; Township of Hope, $47,899 76 ; London, $319,161 81 ; Lanark and Renfrew, $603,140 08 ; Niagara, $273, 451 11 ; Township of Norwich, $193,775 08 ; Ottawa, $65,016 81 ; Township of Ops, $70,754 09 ; Port Hope, $871 056 47 ; Perth, $89,361 13 ; Prescott, $106,897 12 ; Town of Peterborough, $29,116 51 ; St. Catharines, $179,874 21 ; Simcoe, $101,-433 53 ; Stratford, $84,400 13 ; Township of Windham, $93,634 87 ; Township of Woodhouse, $76,276 35 ; Town of Woodstock, $93,935 34

The following municipalities have paid their yearly instalments and interest, and have sums to their credit : Township of Bertie, Township of Brantford, Belleville, Bruce, Township of Camboro', Cornwall, Essex, Grey, Huron, Hastings, Lincoln, Lambton, Townships of Moulton and Sherbrooke, Township of Middleton, Northumberland and Durham, Oxford, Town of Paris, Township of Stanley, Township of Wainfleet, and the County of Elgin.

These arrears amount to $6,792,136.39. The municipalities in arrears are agitating for a remission of their indebtedness. Should the Government decide to take action in their favor, it can only be done equitably by appropriating a sum in proportion to their respective population to those municipalities which have paid up their indebtedness or have not borrowed at all.

News Condensed.

—There is a bill before the Virginia Legislature to change the name of the State to the "Old Dominion."

—Dr. Goldwin Smith, of social parasite fame, was on the floor of the Ontario Legislature, on Thursday evening.

—Troy claims to have the most fertile soil in the whole country—a street with uniform mud sixteen inches deep.

—Mr. Muir has extended to the clergy the privilege of travelling at half-fare over the Great Western Railway, which they may take advantage of by notifying the station masters.

—The Directors of the Passumpsic and Massawippi Valley Railways have declared a half-yearly dividend of three per cent, the former payable at Boston, the latter at the Treasurer's Office, National Bank, Derby Line.

—The Dominion of Canada is the largest country in the world except Russia. Its present area is 3,127,045 square miles ; that of Russia is 7,413,674 ; that of the United States 2,999, 848 square miles. We can easily furnish homes for 100,000,000 of people.

—A loquacious Western gentleman has advertised for a dumb wife, whose sense of hearing still remains good. He thinks if he were to marry a woman possessed of the ordinary powers of speech they would be the death of each other.

—A tradesman who had failed in the city of Bangor, wrote on his front door, "payment suspended for thirty days." A friend reading this said, "You have not dated the notice." "No," said he, "I did not intend to do so ; it would run out if I did."

Mr. Greeley wrote an editorial in which the sentence "Erin go Bragh" occured twice. One compositor set it up, "Eris yer dough," and another set it up, "Indi go blue." Horace was so mad he kicked himself down two pair of stairs.

Public School Meeting.

Last night a public meeting of the School electors of Coleman Ward, called by Mr. N. B. Falkiner, for the purpose of giving explanations of his conduct as School Trustee, was held in the Western House. There were quite a number of persons assembled probably not less than fifty, many of whom were not voters, but simply came to enjoy the expected fun. About 8 o'clock, Mr. Falkiner, dispensing with the usual formality of a chairman, began his address to the audience, telling them that he had been elected to oppose Central Schools, which mission he had faithfully performed. When he entered the Board, preparations had been going on for the erection of a Central School, to cost $15,000 or $20,000, employing 7 or 8 teachers. This he had opposed effectually. By Mr. Macdonald's Act this School would have been now valueless, as by the Act the Grammar and Common Schools would be united. They would thus get, at a tithe of the cost, all the advantages expected to be derived from a Central School, as the Grammar School would become a High School, and slight additions to the premises would render them fit for all purposes required. Last year had been a most successful one in the finances of the Board, the credit of which fact was due to Mr. Glass, as it was the first year that a proper return of the expenditure had ever been made to the Board. In 1869 Mr. Shepard had set apart only $375 for the repair of schools. This sum Mr. F. had taken care should all be expended in Coleman Ward. (Applause.) They had found in School No. 2, that the Common School Act could be made to serve the educational requirements of the people. The reason he was in the field was the petition against the proposed dismissal of Miss Scarlett. This petition had been sent in to the Board, to catch the support of the Trustees for Coleman Ward, when it was not made known to many of the signers that Miss Scarlett was a Roman Catholic. Some of them had even gone to other members of the Board and told them they didn't want Miss Scarlett, as she was a Roman Catholic. Mr. Vandusen was one of these ; and, as that gentleman was present, he asked him didn't he tell Mr. Sawyer that he desired Miss Scarlett removed from the school ?

Mr. Vandusen, in explanation, admitted the charge that he had done so, but was unaware, when signing the petition, that Miss Scarlett was a Roman Catholic.

After some further personal altercation, during which Mr. Falkiner charged Mr. Vandusen with taking advantage of his position in the Town Council, as Chairman of the Poor and Sanitary Committee, to sell tea to the poor out of his own store at $1 per pound.

Mr. Falkiner went on to say, that that was his reason for being a candidate. They wanted men of brains and education to represent them at the School Board. There were only about ten men living in the Ward who were fit for public life, and he was one of them. He held the brains to represent them well, and had done so, and would again. The wire-pullers on the other side of the river laughed at the electors of Coleman Ward, who were rapidly getting rid of their best men. He now invited any *bona fide* candidates to step forward and address the audience, concluding by saying that he would go to the poll if he only got one vote.

Mr. Jacob Yeomans advanced to the table, and said he approved Mr. Falkiner's action on the petition respecting Miss Scarlett. He had been asked to sign the petition, but had refused. He claimed support on account of his family connection and long residence in the Ward.

Some cross firing here ensued between Messrs. Bennett and Yeomans, respecting a requisition in favor of the latter. Mr. Yeomans said he knew nothing of the getting up of the requisition, and any person who had signed it and did not wish to vote for him, might take their names off and vote as they chose.

Mr. R. N. Bennett, in a few words, announced himself a candidate ; but he had not consented to run until frequently urged to do so by numerous friends. Messrs. Falkiner and Sisson had run the School Board $1,800 in debt for No. 2 School, and Mr. Falkiner said that by that means he had drained the Murney property. (Laughter.)

Mr. Falkiner.—"So I did, and made a good drain for the school, too."

Mr. Bennett continued by saying he would like to know how often Mr. Falkiner had visited the Ward School ? He intended to contest the election, and should certainly go to the poll.

Mr. Falkiner in conclusion said that his opponents had been seen and heard, and the most charitable thing he could do was to throw the mantle of oblivion over them. (Laughter.)

The meeting broke up with three cheers for the Queen, and three for Falkiner.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

TUESDAY, Jan. 10th.

VAGRANCY.

The only case for disposal this morning was that of Mary Smith, the well-known vagrant, who was sent back to gaol for 60 days.

UNITED STATES.—The population of the United States as corrected by the latest returns, is 38,801,499. The figures are subject to some slight revision, but they are substantially correct. This shows an increase in ten years of 6,984,073, or 21.4 per cent. New York has increased by nearly 500,000, or more than 19 per cent., nearly, if not quite the whole of the increase being in the cities, showing the country to be stationary. Then, when the New York papers see Canada increase at the rate of 40 per cent, in a decade, they turn upon us and abuse us for being slow.

—The mayor of Kingston has called a public meeting for the 17th inst, for the purpose of considering the propriety of taking steps for the building of a railroad from Kingston to Pembroke.

For the Intelligencer.

Relief of the Poor.

I beg to forward you a copy of the account as rendered to the Town, of the expenditure of the fund for the relief of the poor :—

Balance on hand last year	$14 81½
Donation from the Town through Mr. Vandusen, Chairman of the Poor and Sanitary Committee	50 00
Donation from His Worship the Mayor, Alex. Robertson, Esq.	20 00
	$84 81½

Purchased and distributed before Christmas, 1870 :—

Bread	$ 90
Flannel	2 50
Meat	75
Wood	11 20
Meat	19 72
Assistance	2 00
Bread	10 00
Sugar	4 50
Tea	10 15
Wood	23 03
	$85 35
Expended in excess of receipts	43½

By this bounty of the Town, and of His Worship the Mayor, the poor of this place, to the extent of sixty-one families, were provided with a good Christmas dinner, and such other things as in the opinion of the Committee were suitable and necessary for the season of the year.

H. C. WALLBRIDGE, Treasurer.
Belleville, December, 1870.

The Milk in the Cocoa-nut.

Most international troubles may be traced back to the intrigues of women or the ambition of men. The plot to steal Canadian fish and navigate Canadian cataracts and rapids, which has for originators and advocates thieving Butler, drunken Grant, cowardly Schenck and simple Greeley, is founded on the ambition of Mr. Grant to serve a second term in the Presidential chair. Chosen by the Republicans in the first place for his availability as the popular general who had beaten the Confederates, he would have been taken by the Democrats had not their opponents first seized him. It was a matter of indifference to him which ticket he ran on ; but he accepted that nomination which carried with it the greatest prospect of success. He has since his elevation to the Presidency, shown himself to be a blundering ass, and has alienated his best friends, but he is insanely ambitious for a re-election. His Message displays statesmanship of a wonderful character. He not only stands convicted of falsehood therein, but has covered himself with ridicule for his ignorance ; and the papers have just discovered and are laughing over the bull in which he asks sympathy for the *disabled* soldiers and *their* widows and orphans. But all this moves him not so long as he has any hopes of re-election. He thinks old issues are dead, and that nothing will make him more popular than the inauguration of a crusade which shall have for its aim the acquisition of Canada. The New York *Tribune* exposes the trickery of the thing when it says : "President Grant doubtless regards it as the best live issue on which to go to the country for re-election." That sentence contains the 'hub' of the whole matter. —*Hamilton Spectator.*

An exchange says :—"The compositors in San Francisco embrace many ladies." The compositors in San Francisco ought to be ashamed of themselves.

Morning Despatches.

Bombardment of Paris Continued.

The German Advance on the Loire.

Stubborn Resistance Offered.

Village of Dankoutin Stormed.

700 Prisoners Captured.

VERSAILLES, Jan. 8.—The bombardment of the Paris fortifications is kept up with vigor and effect. The barracks of Fort Mostrouge have been set on fire and destroyed.

It is reported that some shells have fallen in the gardens of Luxembourg.

The advance columns of the German forces in the valley of the Loire have reached Nogent, Le Rotrousage, Bevilay and La Chatre. They encountered an obstinate resistance along the whole line.

A detachment of the army investing Belfort stormed the village of Dankoutin, south of that city, on Saturday, and took seven hundred prisoners.

American Despatches.

Secretary Fish to Resign.

Senator Morton his Successor.

Canadian Vessels Wintering in American Ports.

NEW YORK, Jan. 10.—The 'Tribune's' Washington dispatch says: For several months past it has been known to the friends of Secretary Fish that he would retire as soon as a suitable successor had been found. That person has been found, and the change will be made at the close of the present Congress. Senator Morton will then be appointed Secretary of State, and the political reasons which a few months ago prevented his acceptance of the English mission will have been so modified that he will be enabled to accept, as his successor will not take his seat before December of the present year.

WASHINGTON, Jan. 10.—It was mentioned recently that the master of the Canadian schooner 'Emery' notified the Collector of the port of Erie that he proposed to winter at that port with a cargo of barley, and the question arose whether he would be allowed to do so without paying the fees prescribed for supporting the necessary inspection force. After a careful examination of the law, the Treasury Department yesterday decided that there was no legislation contrary to the request made, and that the vessel should be permitted to remain. It appears that the Collector, however, has ordered the revenue cutter 'Perry' to winter alongside of the 'Emery' for the security of the government and to see that the Custom seals placed on the hatches are not broken until the vessel is ready to deliver its cargo to the Customs officers next spring. The application of the master of the 'Emery' to winter in an American port with a sail cargo has directed the attention of the Treasury officials to the defects in the existing laws on the subject of international maritime intercourse, and a bill will be immediately drafted and sent to Congress by the Secretary of the Treasury, specifying under what conditions foreign vessels may claim the privilege of harboring in the ports of the United States. In this instance the Canadian exporters save storage for at least four months, and have the advantage of offering their cargo of barley to early spring purchasers.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BOSTON, Jan. 10.—A letter dated Batavia, November 16th, received in this city, states that the Italian ship 'Neucous,' from Mesaco for Cadiz, with coolies, was set on fire when near Nepule Island, and abandoned by the captain and crew, who were saved by a San Salvador ship. One hundred and twelve coolies were picked up by the ship 'Junipore.' The remainder, 435 in number, perished in the flames.

Anecdote of O'Connell.

During the Repeal agitation in Ireland, a gentleman connected with the Times was sent by that journal to report O'Connell's rather treasonable speeches. One of the first meetings the newspaper man attended was in Kerry. Having heard of O'Connell's polite qualities he thought he would ask the gentleman's permission to take a verbatim account of the oration. The 'Liberator' not only consented, but in his oiliest manner informed the assembled audience that until that gentleman was provided with writin' convaniences, he would not spake a word,' assuming an extra brogue, which was altogether unnecessary. The reporter was delighted. The preparations began and were completed; the reporter was ready.

'Are you quite ready,' asked Dan.

'Quite ready.'

'Now are you sure you're intirely ready.'

'I'm certain sir. Yes.'

The crowd becoming excited and impatient, Dan said.

'Now, 'pon my conscience, I won't begin the speech until the London gintleman is entirely ready.'

After waiting another moment or so, O'Connell advanced; eyes glistened; ears were all attention; and the reportorial pencil arose. Dan gave one more benignant smile on the reporter, winked at the auditors, and commenced his speech in the native Irish language, to the irrepressible horror of the reporter, and to the infinite delight of all Kerry.

A little fellow going to church for the first time, where the pews were very high, said on coming out: 'I went into a cupboard and took a seat on the shelf.'

Slight changes make great differences. 'Dinner for nothing' is very good fun, but you can't say as much of 'nothing for dinner.'

An enthusiastic Prussian very candidly said to Dr. Russell, 'Was till we get a reverse, then see if we cannot be just as well as our neighbors. Not Depent upon it we are great in all things.' The enthusiast's prophecy has been fully verified.

A fellow stopped at a hotel at Pike's Peak and on settling his bill the landlord charged him $7 a day for five days. 'Didn't you make a mistake?' said the fellow. 'No,' said the landlord. 'You did,' retorted the wiry-looking fellow, 'You thought you got all the money I had, but you are mistake. I have another purse full in another pocket.'

The following was an advertisement in a Tennessee paper: 'Lost or strade from the scriber all over white—one leg was black and half his body—all persons shall have five dollars to bring him. He was a she gote.'

BELLEVILLE MARKETS

INTELLIGENCER OFFICE,
Belleville, January 10, 1871

The market to-day was but slimly attended, and presented few features of interest for revision.—Butter ranges from 17 to 20c, only the very best selling at the latter figure. Mutton is scarce at 5 to 6c. Apples now sell at 40 to 60c, and dried apples range from $1 to $1 25 per bushel.

Wood.—The wood market is well supplied, though the roads are beginning to break up near town from the large amount of traffic. There is no appreciable change in prices.

SPRING WHEAT—$1 19 to 1 19.
BARLEY—60c to 00c.
RYE—60c.
OATS—35c.
PEAS—62c.
HAY—$4 50 to $5 00.
PORK—$6 00 to $7 00.
MUTTON—5c to 6c per lb.
LAMB—6c to 6c per lb.
VEAL—6c. to 0c.
HAMS—11c to 12½c.
BUTTER—Pub. 16c to 17c.
BUTTER—Roll, 17 to 20.
EGGS—17 to 20c.
HIDES—$7 00 to $8 00.
SHEEPSKINS—30c to 90c
TALLOW, rough—3c.
LARD—10 to 11c.
POTATOES—30c. to 40c.
APPLES—40c to 60c.
DRIED APPLES—1 00 to 1 25.
HAY—$12 00 to $13.00.
CHEESE—10c to 12c.
FLOUR—Wholesale, $5 00 to $5 50 per bl.
FLOUR—Retail, $6 00 to $6 50 per bbl.
POTASH—$5 00.
TURKEYS—50 to 1 35.
GEESE—30 to 60c.
CHICKENS, per pair—25c to 40c.
ONIONS—$2 00 per bushel.
WOOD—$7 50 to $4 00 per cord.

MONTREAL MARKETS

Special telegram to THE INTELLIGENCER.
MONTREAL, Jan. 10, 1871.
1 P. M.

Flour—receipts 1,100; market extremely quiet and little business to report; limited sales of superfine in the vicinity of $5 75; strong ranging to $6 00; fancy sold at $6 00; broken lots at $6 10.

Grain—no transactions, rates still nominal.

Provisions—pork steady at late rates with fair consumptive demand.

Lard dull, offering at 11¾.

Hogs—sales on spot and to arrive at $6 60 to $7 00 according to average and quality.

Butter unchanged.

Ashes unchanged.

LONDON MARKETS.

LONDON, Jan. 10.—Consols 92¾; Bonds of '62 89¾; '65 old 89¾; '67 88¾; 10-40's 88; Erie 18¾; I. C. 11¼; A. & G. W. 26¾.

NEW YORK STOCK MARKET.
NEW YORK, Jan. 10.

Gold 110¾.

NEW YORK PRODUCE MARKET.
New York, Jan. 10.

Cotton 15¾c.

Flour steady; receipts 9,000 bbls; sales 9,000 bbls at $5 20 to $5 65 for superfine state and western; $6 10 to $6 60 for common to choice extra state; $6 00 to $6 65 for common to choice extra western.

Rye flour steady.

Wheat 1c better; receipts 33,000 bus; sales 75,000 bus at $1 45 to $1 46 for new spring; $1 47½ $1 51 for winter red and amber western.

Rye quiet; sales 5,000 bus of state at $1 08.

Corn a shade firmer; receipts 20,000 bus; sales 32,000 bus at 79 to 79¾ for new mixed western.

Pork steady at $20 00 to $20 13 for new mess; $19 25 to $19 50 for old mess

Lard steady at 11¾c to 12¾c for steam; 12¾ for kettle rendered.

SPECIAL NOTICES.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by publishing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When nothing else seems from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, at Chambersburg, Penn.

A MEDICAL ACTRESS.

Just open the door for her, and Mrs. Winslow will prove the Angel of Mercy to the children of the Nursery. Of this we are sure, that we will teach our many to say 'A Blessing on Mrs. Winslow,' for helping her survive and escape the griping, colicking and teething age. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, sense is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.
24k W-2m

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½, ¼, ⅛, and ⅛ lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 197-m-Tu

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will cause the formation of good healthy blood by its action on the Digestive Organs, the Lacteals, the Heart, Lungs and Nervous System. "Persons suffering from impure blood, or whose health is going way, either as ministers or those who study closely, will find in the SYRUP the material to build them up and the tonic to keep them there." DR. CLAY.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. daw 1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1870. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77 3w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using the qualities of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of fifty years, has nursingly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do arise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet to be born will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m

CANADA
LIFE ASSURANCE COMPANY

ESTABLISHED 1847.

THE principal features of this Company are

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expenses of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri
Facias, issued out of the County Court of the County of Hastings, me directed and delivered at the suits of Henry L Thorp, Plaintiff, as James D. Davern, Robert Weller and Charles Davis, Defendants, and David Piccathy and Thomas Kelso, Plaintiffs, vs. J. D. Davern, Defendant, I have seized, and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one W. J. Rubridge, D. P. L. S., in 1884, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall expose for sale by public auction, at the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

possesses only a new principle of Medical Chemistry, from the active curative properties of the most valuable virtues of the vegetable kingdom. The Resolvent and other foreign roots yielding Sarsaparillian is also the composition of this wonderful blood, Tissue, Flesh-making medicine, which has been gathered with the greatest care in the proper season, from the native soils of each root can possibly be mixed with the pure.

It cost Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services one experienced chemist in Canada in this one article alone, but the wonderful improvements it has secured to the curative powers of Dr. Radway's Remedies, now especially the

SARSAPARILLIAN RESOLVENT,

sells for the outlay, over and over again; for never in the history of medicine was such a medicine the completely builds up, restores to sunken vessels strong, healthy, vigorous, and beautiful what, the weak and broken-down constitutions, or

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment, it completely RESTORES HEALTH AND PLESH-MAKING QUALITIES.

It acquaints the system with the balance of heat-making properties.

It cures all Scrofula Sores and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.

It increases the weight and appetite.

IT STUFFS ALL WASTING DISCHARGES.

It increases the repairs and diminishes the wastes.

It eliminates the products of decay.

It resolves Tumors, Nodes, Hard Lumps.

It makes the skin clear and beautiful.

It heals Pever Sores and Ulcers.

It cures Scrofula, Consumption, and Syphilis.

It makes the water clear and pass freely.

It cures Kidney Complaints, and Incontinency of manhood: those who from weakness must frequently make water, will find a speedy cure.

It restores woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and that the LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the power of repair, or DEATH, cannot be sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the slow process of decay that now exist be dismissed from the system.

Extension of disease, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and perverted beyond the power of reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, continue to live perhaps for years; for no matter how low the vital forces may be reduced, or how much the organs under the influence of this tissue and flesh-making medicine, they will be greater than the waste and the BLOOD WILL receive that high degree of nourishment that will make it impossible it to fail in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the Kidneys, Chronic Syphilis, Chronic Sores and Venereal, are developed through the process of decaying tissue, the blood either in the Lungs, Liver, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can be cured only by the most searching and curative powers of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the Sarsaparillian Resolvent. As the blood becomes more pure, rich, strong, and pour ishing, and is enabled to hold in solution its natures constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be dissolved and carried off through the Lungs, Kidneys, Skin and other Organs; and each of these Organs will accordingly receive increased assistance. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, they will naturally be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each and every secreting gland in the discharge of proper functions, health can never be restored; hap pily for every human being, Radway's Sarsaparillian Resolvent secures this important want in the most beneficial extent in all these remedial agent advertised as Blood Purifyers.

No matter how deeply seated or engrafted in the tissues, carrying, destroying elements of the system, no matter how long standing the disease, this power ful agent on the blood and other fluids that supply it, by letting the system regulate, will at once change the system with such constituents as to enable the blood to assimilate the decaid and decomposting matter, and supply its place with pure, rich, strong blood. By the process of digestion which the Sarsaparillian Resolvent has on the substances taken into the stomach during the process of digestion, a powerful chyle is formed, it is made blood, as well as the nourishing constituents of unwasted body, blood, and all its elements when entering in the circulation, it exterminate every atom of disease from the blood, and carries away all deposits of disease, whether caused by a Scrofulous humor, or syphilitic poison, or corrupted Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agent that may have accumulated in the bones, muscles, ligaments, joints, &c., from some transmitten family complaint that may have been handed down to you.

Scrofula, Consumption, Syphilis, uncured, and badly treated Venereal is in many forms transmitted from Parents to Children. The Throat Mouth, Tumors, Nodes in the glands and other portions of the system, Sore Eyes, Strumous Discharges from the Ears, and Running Sores, Ulcers of Skin Diseases, Eruptions Fever Sores, Scald Head, Ring Worms, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancer in the Womb, and all weakening and painful Discharges. Night Sweats, Loss of Sleep, and in all wastes of the Life Principle, are within the curative power of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for any of the above forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Stricture and all complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy Diabetes, and all are incomplete stopped by Stopping of Water or Wasting Discharges, are quickly relieved and thoroughly cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Desautels, Constable, Compton, County of Beauharnois, Canada East, had for nine years TWO LARGE TUMORS, one on his thigh, the other on his side and resisted all kinds of treatment, and the skill of the most celebrated doctors in Montreal and other parts of Canada. He was induced to make use of Radway's Sarsaparillian Resolvent, also with Radway's Pills and Ready Relief, and used only three bottles of the Sarsaparillian Resolvent, and one box of Radway's Pills, when he was cured, as a lotion, a wash of the Ready Relief and Sarsaparillian Resolvent (little more than a pint) which completely cured him. Here is a man that had proved the inefficiency of the best doctors for nine years, and cured at a cost of less than $5 dollars.

"ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont.

M. Jones, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a sum of money, had suffered from a boil or one of like kinds of your medicines. His son, aged 12 years, was covered with one large scab, from the crown of the body—head, trunk, chest, legs, and arms. It was a frightful fact, and he was the most revolting and diseased object I ever saw. Many remedies, and all under the treatment of Radway's Sarsaparillian Resolvent, Ready Relief and Pills. In one month since, on returning to Canada, I saw the father, who told me that his son was entirely cured. I know of many who have been cured of Fever Sores, Eruptions of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Windsor Station, Ontario, Canada West,

Dr Radway—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I found relief, and slept, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FREELAND.

N.B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicin until he commenced using your Sarsaparillian Resolvent. GEO. MORTIMER,
Commercial Agent for Ontario

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 48 to 64 pages; well printed, and filled with useful, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate Knowledge and sound principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150 000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have determined to make it otherwise improved it—not being now printed on new type from the foundry of Mr. J. Talgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have successfully gained a high reputation in the field of political discussion. Editorials will be found upon all the topics of the day, by experts in different departments of literature and European, American and Canadian politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accuracy and fulness in the commercial reports of a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unsurpassable as to the fulness and accuracy of information to those of any other paper published in this city, and the employment of first-rate talent in this important department has already won the confidence of merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, etc., etc., which will be prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for
The ablest Editorials — The most reliable Local News.
The most reliable Commercial Reports. — The most reliable Legal Reports.
The fullest Telegraphic Despatches. — The choicest Literature, Selections.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is unquestionably superior to any other paper in Montreal, having a larger circulation than any of the other high class morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will be mailed to subscribers at $2 per year, payable strictly in advance.

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly Furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is interesting, whatever is pure, dignified, and refining in sentiment, with whatever may address rational and innocent amusement. For the Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to write exclusively for *Godey's Lady's Book*. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other Magazine.

BEAUTIFUL STEEL PLATE-

Of these the LADY'S BOOK contains fourteen each year (against the usual allowance of twelve to any publication in this country, either in book or periodical.

LARGE COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a full-sized pattern sheet of our own, costing (with duty, tariff, and sometimes forty onsigns in embroidery.

ORIGINAL MUSIC.—And we is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—Is the only magazine in the country that gives these designs in the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH DEPARTMENT.

GODEY'S UNEQUALED RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, Store-room, and Laundry.

TRIED EXCHANGES.—This is a series of engravings that no one has attempted for a year, consequently they are all new.

DOMESTIC LADY'S WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal ed.

Terms for 1871.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from the many of which are truly remarkable. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the blood becoming contamination until they were literally afflicting, have been radically cured in such great numbers in almost every town in the country, that the public scarcely need to be informed of these cures.

Scrofulous poison is one of the most destructive enemies of our race. Often, this poison lies dormant until it taints the organism underneath the constitution, and then the attack of disease, whether it be slow or sudden, without exciting suspicion of its presence. Again it may be inherited from impoverished blood; and then, on some favorable occasion, rapidly develop into one of its forms of loathsomeness on the skin, or fatal ulceration on some part of the body. Hence the ocess of this class of diseases is generally slow and visible, even when no active symptoms of disease are present. Languor, loss of appetite, nausea, and pimples generally find immediate relief, and, at times, cure, by the use of this *SARSAPARILLA*. *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and whatever forms or visible forms of *Scrofulous* disease. Also in the more concealed forms, as in *Neuralgia, Rheumatism, Heart Disease, Pits, Epilepsy, Neuralgia, Tumors, Ulcerous* affections of the mucous and nervous systems.

Syphilitic Taint and *Mercurial Diseases* are cured by it; though a long time is required for the system thoroughly to be purified to expel every last lurking contaminated use of this medicine will cure the most obstinate cases of *Ulcers, Tetter, Scrofulous Ulcerations*, and *Female Diseases*, are commonly caused by impurities of the blood, and are speedily cured by this purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Scrofula, Scurvy, Rash, Boils*, and other *Eruptions* of the skin, are thoroughly eradicated by it. Its *Dyspepsia, Sleeplessness*, and troubled with *Nervous Apprehensions* or *Fearfulness*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Colds, Coughs, Whooping Cough, Bronchitis, Asthma, Consumption, and Incipient Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among all classes, it has proven it has risen higher and higher in their estimation, as it has become better known. Such agent, character and power to cure the various affections of the throat and lungs have been made known as a reliable protector against them. While it counts its relief from of disease and to young children, it is to the same extent that it counts its cures. Hence that can be given for incipient consumption, and the dangerous affections of the throat and lungs, with convinion against sudden attacks of Croup, it should be kept on hand in every family, as indeed as it are sometimes subject to colds and coughs, all need protection, and this is the best that can be had.

Although settled *Consumption* is thought incurable, still great numbers, even of cases of this disease consumption, have been completely cured, and the patient restored to perfect health by the use of *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most desperate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they rapidly subside and disappear.

Singers and Public Speakers find great protection from this remedy.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Periodical Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral substance or poison whatever, it in nowise injures any patient. The combined skill of medicine and the best chemical talents, are literally brought to bear upon it, and we believe it thoroughly expels from the system all other pills in general use, and the only Vegetable medicine that can safely substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough cures and more lasting ones than will be given in three times or more of all other prescriptions now in use. Purely vegetable, proof of this: You are seized with a Bilious attack Doctor prescribes Blue Pill and Calomel; you take a couple of blue pills or powders to work off the effect of the blue pill. Or, you take a dose of Castor Oil, or Epsom salts, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS will do all and more than all three or more prescriptions are given for, without running the risk from mercurializing or salivating the system.

Why is Purgative Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are ejected by the absorbents and lacteals as refuse,) the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be eliminated and the nutritive adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is necessary to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so thoroughly, HAPPILY, and without COMFORT as

RADWAY'S PILLS.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to the Musical Monthly, which is issued on the first of each month, and gives all the latest and best music by such authors as PETERS' Thomas, Balfe, Wallace, Bishop, Keller, Wyman, etc. Every number contains Pieces, Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, and sold for 40c. It is published at the Mammoth Musical Review of the Day, Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH For 1870. $1,500 CASH
A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POLITICS, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has several pages devoted to the latest progress of AMERICAN and EUROPEAN INVENTIONS. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering the complete knowledge of the progress of Inventions and Discoveries throughout the world; and with a view to keep the columns of the paper free from all Patent Advertisements, has kept the first place in Scientific and Mechanical Literature, the Publishers will issue on January 1st, 1871, the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate coming nearly $4,000 to engrave and contains nineteen likenesses of Eminent American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year (upon receipt of price of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premiums, the Publishers will pay fifteen hundred dollars in PRIZES for lists of subscribers sent in by February 10, 1870. Persons who wish to compete for these prizes should send a postal card for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To clubs of 10 subscribers, at one time, and at one address, one copy free. Specimen copies sent free. Address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—Pamphlet of Patent Laws and Instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare her system with Radway's Sarsaparilla Resolvent, and all whose menses have ceased that fatal sack of nervous prostration and nervous exhaustion that the Sarsaparillian Resolvent, added with Radway's Pills, and they will enjoy every day of their lives that health and secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

from the earliest stage of female suffering from Retention, Irregularities, Suppression, to the most severe and cruel pains of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Incontinency, Intolerable Chlorosis, Cachexia, Bad Habit of System, Hysterics or Womb Convulsions, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured see Radway's Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with each of you as suffer from Sexual Debility, and all Painful Diseases and Unhealthful Costiveness. The means of obtaining relief, of accomplishing a perfect cure, are offered to you in Radway's Sugar Coated Pills, the only cathartic and alterative in existence which can be taken by the most delicate person with safety, and which will act promptly on the liver, stomach, bowels without a pain, and restore us to the stomach and liver the vigor which it has lost. Try it, by fasting one special aperient never enfeebles any organ, or reduces the general strength in the slightest degree, but directly renews the natural health of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where the Pills and medicine is kept in the house. In all cases arising from, or aggravated by, impure blood or humors, Radway's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for primary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the all parts of the system. Such agents, for the purpose of cure, or removal of any sensible disease, are utterly useless.

Dr. Radway has combined one of the most essential discoveries in medical chemistry in the combination of vegetable substances, for the purposes of a PURGATIVE, AFERIENT, COUNTER-IRRITANT, ALTERATIVE, &c., that can be taken or administered with the absolute certainty of securing a THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most delicate state of Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation of from

Gastric, Bilary, Pancreatic, Colonic,

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some associated originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All the cases common are made generally alike, with some active drastic drug or base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdoms. Calomel and the other preparations of mercury, for centuries supplied as alteratives, and the Pharmacopœia, for its admistered in 999 cases out of 1000 and Aloes, Rhubarb, Podophyllum and kindred drugs supplies the Cathartic. Radway's Pills are a chemical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only perfect Purgative Pills) you have the most searching, thorough and effectual cathartic ever discovered, and in which all properties to the most choice remedial agents known to Medical Science, for the cure in every respect to all other pills in general use, and the only Vegetable medicine that can safely substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough cures and more lasting ones than will be given in three times or more of all other prescriptions now in use. Purely vegetable, proof of this: You are seized with a Bilious attack Doctor prescribes Blue Pill and Calomel; you take a couple of blue pills or powders to work off the effect of the blue pill. Or, you take a dose of Castor Oil, or Epsom salts, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS will do all and more than all three or more prescriptions are given for, without running the risk from mercurializing or salivating the system.

Why is Purgative Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are ejected by the absorbents and lacteals as refuse, the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be eliminated and the nutritive adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is necessary to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so thoroughly, HAPPILY, and without COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Fever and Ague Ailments, &c., that Radway's Ready Relief, Pills, Aperient and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER
Bilious Fever

In the world. There is no preparation of Quinine, Arsenic or preparation of Quinine, Arsenic or Mercury, or any of the forms of Mercury, or in fact any other remedy will cure this disease so positively as

Radway's Ready Relief

No, not one. Thousands of Certificates from Canada, United States,

Two vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. 75 Manuscript-paid, $6.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Means and Team are some what hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerkon, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.
The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks its convenience for business men is evident, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the messing will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is as economically reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved is one of the most useful and interesting Journals ever published. Every number is beautifully printed on fine paper, and elegant engravings, many of them original, illustrate the progress of
New Inventions; Discoveries in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Horticulture, Engineering, Science and Art.
Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades, will find
THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.
Its practical suggestions will save hundreds of dollars to every household, Workshop and Factory in the land, besides affording a continual source of valuable information. The Editors are assisted by many of the ablest Contributors in the country, and keep themselves well posted in the progress of the Arts, Sciences and Industry at home and abroad, and no chemical journals of the day are more carefully edited or more fully and thoroughly enriched with the choicest information.
An OFFICIAL LIST of all the Patents issued is published Weekly.
The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. A year's numbers contain 832 pages.
TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25 with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of progress."
In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.
The best way to obtain an answer to the query is—Can I obtain a Patent? is to write to Munn & Co., 37 Park Row, N. Y., who have had over fifteen years' experience in the business. No charge is made for opinion or advice. A pamphlet, sent free, contains full written description of the invention, should be sent.
For instruction concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Law, Examinations, Decisions, Infringements, &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address,
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Call and inspect the Stock before purchasing.
H. ROSENBERG.
Belleville, Sep. 1868. 123-tf 32 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to apprise those whose duty it is may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the first manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.
For this purpose no medium is so good as a first-class magazine.
We recommend to ladies who desire one useful and sensible as well as fashionable,
DEMOREST'S ILLUSTRATED MONTHLY
as the very best periodical that we know.
It is more complete in its departments than any other in fashions and dress, more reliable because always authentic and original, and not blind copies of French and German models.
It gives with every number full-sized patterns, which in the course of a year will more than defray the cost of the magazine, of her own and her children's wardrobe.
"Illustrations are high-toned and its contributors include some of the first talents in the country.
Its Ladies' Club affords valuable and useful information upon every subject.
It is the best magazine for the utilities and ornamentation of the household; in fact the best magazine for domestic use, original music, reliable tone, and other topics interesting to ladies, all combined to assist in making our homes attractive and happy.
It is the most enterprising of all our magazines, and gives more than twice as much for the money.
It also offers a large and magnificent Parlor Steel engraving, 28 by 36 inches, entitled "The Present on the Fourth of July," valued at $10.00 to each subscriber as a premium.
This engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and so unique, and by artists to be found in no other print, and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that possesses so much interest and beauty.
Any of the above, or other premiums worth more than the cost of the magazine to each subscriber, post free, and still sending premiums for clubs.
Subscription price, $3.00 per annum. Commence any time.
Single copies, 25 cts. Specimen copies with circulars, mailed free on receipt of 10 cts.
Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Mr. Thos. C. E. Wurtz having purchased a proprietory interest in it, and become its publisher, in the interests of the region of country, second to no part of Canada in agricultural and horticultural resources and progress—and one wholly unless a periodical devoted specially to the interests of the farm and garden.
THE ONTARIO FARMER will continue to be edited by the Hon. W. P. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name from long connection with the Provincial Board of Agriculture, and as Secretary of the Board of the farmers of Canada, during the past year, Hon. Henry Ward Beecher, Professor Buckland, C. W. Allan Mr. W. Ed. wards and other eminent contributors have written for the *Ontario Farmer* and its pages will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in addition to the new and interesting contents.
During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarman, of New York.
Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and during the past year, each number will contain a choice piece of either secular or sacred music.
The attention of farm implement-makers, seed-merchants, nurserymen, dairymen, and others, is invited to the *Ontario Farmer* as a first-class advertising medium. Terms—for cash; per line, with liberal discount for quarterly, half-yearly and yearly advertisements.
Specimen Papers, free of postage, $1.00 a year, payable in advance.
IF 832 Large Octavo Pages for One Dollar.
SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, Clubs, or any number, at *Seventy-Five Cents* each, free of postage.
GENERAL CLUB RATES FOR 1870.

Clubs of 5 Subscribers, - -	$ 3.00
Clubs of 10 " - - -	6.00
Clubs of 20 " - - -	15.00

And all over 20 at 75c per copy, free of postage.

Drawings, Specifications, &c., of inventions prepared, and Patents applied for.
Office in the Dominion Buildings, Bridge Street,
Belleville, July 2, 1870 52-d&w

Builders and Architects
WILL be liberally dealt with as agents for Johnston's Weather Protectors for doors and windows. Apply at once. J. JOHNSTON & Co., Patentees and Manufacturers, Box 147, Lindsay, Ont. 203-1y

Angus McFee,
WATCHMAKER and Jeweller, Front St., Belleville. A large stock of Clocks, Watches, Jewellry and Silver Ware always on hand. Repairing done at short notice and on reasonable terms. 1Dec

J. W. Brown,
MERCHANT Tailor and Clothier, Front St., Belleville, over Tickell's Furniture Store. Garments made to measure and warranted to fit. 1Dec-m

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY
MESSRS GABRIEL,
Dentists,
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Use.

GABRIEL'S WHITE GUTTAPERCHA ENAMEL, for stopping decayed teeth. Renders it, touch and sight, impossible to detect decay. Ache, no matter how far decayed. Price, 1s. 6d. per box. Sold by Chemists & Medical Proprietors.

GABRIEL'S GUTTAPERCHA SOLID STOPPING, for preserving from decay. Warranted to remain white and as firm as the tooth itself. This beautiful preparation renders front teeth and prevents decay. Will stop in each. Price 2s.

GABRIEL'S CORALITE TOOTH PASTE, for cleansing and preserving the teeth, and imparting a natural redness to the gums, whitening the teeth, preventing decay between the interstices of powder, and gives lasting beauty to the enamel. Price 2s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty's Royal Family. Price 2s. 6d. per box. A delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 2s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unequalled for its efficacy in all cases of Tic Douloureux, and Toothache, and forms a most refreshing wash, and possesses the unrivalled advantages of preserving the teeth and gums, and imparting strength and vigor to the gums and is most invaluable to smokers. Price 2s. 6d.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parts or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of their value, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel and Repair Artificial Teeth (made by other Dentists, or Repair Artificial Teeth made by other Dentists, to render them more serviceable and ornamental) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.
All letters to be addressed to 64 LUDGATE HILL, LONDON.

Are You Insured ?
THE WESTERN, of Toronto, Fire and Marine Assurance Company, are prepared to effect risks in both branches through their Agent, M. B. ROBLIN, on the most reasonable terms.
All claims promptly settled.

A Papal Riot in Rome.

Writing from Rome on the 5th inst., a correspondent of the New York *Tribune* says:—The partisans of the Pontiff had been repenting for several days that on the 5th they intended to make a demonstration in honor of the Pope, and, consequently, against King Victor Emmanuel and the new state of things. On the evening of the 7th several of the houses inhabited by well-known reactionists were illuminated. This irritated the people, and it was declared that on the following day they should meet in the square of St. Peter, and prevent the Pope's partisans from making any demonstration. Accordingly, from an early hour in the morning the square of St. Peter appeared much more crowded than usual; many police officers and inspectors were seen strolling about, but nothing happened till late in the afternoon. A Papal demonstration had really been organized. A number of ex-gendarmes and ex soldiers of the Papal Army had been about ever since an early hour in the morning, and had been armed with revolvers and daggers. Fifty others were to approach the Vatican and cry, 'Long live the Pope King! Down with the Liberals!' Fearing an assault from the people, it had been agreed that if they were attacked in approaching, they would cry out, 'Giorgio I.' This *mot d'ordre* signified that the army partisans who were shut up in the Vatican were to come out to their defence. The column of reactionary partisans approached the Vatican. No sooner did the people recognize them, than hisses and cries of 'Down with the Pope,' resounded on every side. The Papal partisans lost no time in crying 'Giorgio.' But the Swiss Guards, who occupied the gates of the Vatican, knew nothing of the *mot d'ordre*, and at once shut the gates; thus the partisans were left at the mercy of the people. Fortunately for them a battalion of Bersaglieri arrived in time to save them from certain death. The gates were re-opened, and the armed partisans came out from the Vatican. A struggle ensued, which lasted a few minutes. Some shots from revolvers were fired; a Bersaglieri was wounded, and several persons conducted to the hospital of Santo Spirito. Of course, this attempt of the Papal partisans has greatly irritated the Roman people. They demand, and justly, too, that the Vatican itself should be disarmed. When Gen. Kanzler signed the capitulation of Rome, it was agreed that the Pontiff might keep in his service the Swiss and Palatial Guards for his own special use in the Vatican. Now, legally speaking, Gen Kanzler does not in the least keep to the agreement signed by him in the presence of the foreign ambassadors. The Vatican is actually converted into a fortress. The ex Papal gendarmes, the ex-soldiers of the ex Papal army by Zouaves, and the Shirri, are all clothed and fed at the Vatican. Gen. Kanzler reviews them in the gardens of the Vatican, and the Romans may expect at any moment to be surprised by a sortie of the Papal forces from this new fortress. It is a state of things that cannot last long."

Take care of the Implements.

It is a lamentable fact that a large majority of our farmers lose as much from a want of proper care of tools as from the actual wear and tear of them. Repeated wetting and drying injures, sooner or later, any kind of wood-work; the moisture getting into the cracks soon begins the work of decay. This may be prevented by the timely and occasional application of some cheap paint. Much has been said and written upon the value of tool-houses, and it is hardly necessary for us to add our mite to the general collection: but providing the tool house is not all that should be done—the shovels, spades, and forks are brought into the tool house with the dirt sticking to them, and in that condition they remain through the winter, or until they are again needed. All practical farmers know how much better a bright plow turns the furrow, how much easier it is on the team and driver, and yet they will bring their ploughs and harrows in every fall with the dirt sticking to them, and allow them to remain in that condition until again wanted, much to their own loss and expense. There are various mixtures which might be applied to the iron to prevent rusting, the cheapest of which is common grease. A better article may be formed by melting together six pounds of fresh lard and two of rosin. An old iron pot is a good thing to keep and compound the mixture in each. For use a tool is done being used for the season, clean it off and give it a coat of this mixture, and even if it remains undisturbed for years, it will come out as bright as when put away. Implements properly cared for will not only last twice as long as where this is not the case, but, as we said before, they are far better in every way.

FURTHER QUESTION.—Gov. Parham in his message to the Maine Legislature, expresses with earnestness the views which preponderate in his State on the Fenian question. More than any other State, probably, Maine is interested in the maintenance of close commercial relations with the British Provinces. There, if anywhere, we might look for a disposition to regard with disfavor the retaliatory measures suggested by the President, and pledges the support of the State in whatever action may be required to vindicate the rights of American fishermen, as against the monopolizing pretensions and the harsh proceedings of the Provincial authorities.

—A Republican insurrection has broken out in the Province of Granada, Spain, but it is thought to be unimportant.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger.....	4.00 A. M.
" 4 Express.....	6.30 "
" 8 Mixed.....	9.45 "
" 2 Express.....	6.15 P. M.
GOING EAST.	
No. 1 Express.....	11.10 A. M.
" 7 Mixed.....	9.40 P. M.
" 3 Night Express.....	12.35 A. M.

Montreal time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East...	10.15 a.m.	11.10 a.m.
do do do ...	5.15 p.m.	6.15 p.m.
Night Mail going East..	9.00 p.m.	12.35 a.m.
do do do West..	9.00 p.m.	6.30 a.m.
Stirling, Marmora, Hungerford, &c.....	7.00 a.m.	5.00 p.m.
Bridgewater, Tweed, Roslin, &c.....	1.30 p.m.	11.45 a.m.
Madoc, Ivanhoe, Huntingdon, Hillier, Ameliasburg, Bedonerville, &c., &c., every Tuesday, Thursday and Saturday..	6.00 a.m.	5.30 p.m.
Mails for Picton and vicinity are sent via Napanee and closed at 9.00 p.m. daily.		
British Mails for Canadian steamers close every Thursday at 8.00 p.m.; by steamers which sail from American ports every Saturday at 9.30 p.m.		

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7.30 a.m. to 6.00 p.m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, JANY 11

LECTURE.—Lieut. Col. Denison's lecture, under the auspices of the Canadian Society, at Masonic Hall to-night.

SKATING RINK.—The Band of the 15th Battalion performs in the Skating Rink to-night.

PERSONAL.—We are glad to learn that Henry Corby, Esq., M. P. P., has sufficiently recovered from his late illness to be able to attend to his Parliamentary duties.

ELEVEN.—The following were elected for the Municipal Council for 1871 :—Hon. Billa Flint, Reeve; Robert Barry, J. W. Turner, P. McIlroy, Robt. Kells, Councillors.

CONVERSAZIONE.—A grand union Conversazione, under the joint auspices of the Good Templars and the Workingmen's Temperance Association, is to be given in the Ontario Hall to-morrow night.

ST. GEORGE'S SOCIETY.—The regular monthly meeting of the Society takes place on Tuesday evening next. After the regular business Capt. W. C. Nunn will deliver a lecture on the "History and Progress of the Electric Telegraph."

CONCERT.—A concert of vocal and instrumental music, interspersed with addresses, recitations, etc., will take place in the Wesleyan Church, Canifton, on Friday night. The proceeds to be devoted to Sunday School purposes.

DOMINION BANK.—The permanent organization of the Dominion Bank was effected on the 10th inst. at a meeting held in Toronto, the necessary amount of capital having been subscribed. Mr. James Arthur was chosen President, and Mr. Peleg Howland vice-President.

ORANGE DISTRICT LODGE No. 1, SOUTH HASTINGS.—The annual meeting of this Lodge was held in the Orange Hall, Belleville, on Tuesday evening 10th inst. The attendance was large, and the meeting very harmonious in its proceedings. From the large amount of business to be transacted the Lodge was not closed until a very late hour. The following are the officers for the current year :—

Bro. Dr. Geo. J. Potts, W. D. M.
" Alex. S. Galbraith, D. D. M.
" Thos Foster, D. C.
" C. B. Bonnisteel, D. T.
" W. H. Lott, D. S.
" James Macoun, D. D. of C.

Separate School Elections.

These elections took place to-day, scarcely any interest being shown in the result. In Ketchesen Ward, Mr. M. Priest was elected by acclamation, as was Mr. Northgraves in Samson Ward, and Mr. M. O. Dempsey in Baldwin Ward. In Coleman Ward, Messrs. James McGuire and Michael Mahon are running in opposition to each other.

Settlers in the Free Grant Territories.

We are glad to see that the member for North Hastings, Dr. Boulter, intends to bring the claims of the settlers, in the free grant territories under the notice of the House. He has given notice of the following resolutions :—

"1. That in the opinion of this House it is just that the original settlers in the Townships, since declared free grant territory, should receive patents for the lands upon which they have squatted, upon as liberal terms as those who have located upon lands under the Free Grant Act of Ontario. 2. That locatees holding mill sites in such territories should be compelled to build such mills as may have been agreed upon within a certain time, or forfeit their claims to such mill sites."

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 11th.

VAGRANCY.

Amanda Bailey and Julius G. Farmer, just out of gaol, were recommitted for 60 days each.

—A man, name unknown, died while crossing the ice opposite Prescott on the 9th January. His horse broke through and he is supposed to have died from sheer fright.

—There was a serious fire in Lindsay on the 9th January, by which several building on the corner of William and Kent streets were destroyed. The total loss is not known yet.

Town Council Proceedings.

There were a few points brought out at the last two or three meetings of the Town Council which are worthy of notice, as they show in what way part of the business of the Town is transacted, and should be put a stop to; while another point is not less important, as it affects the manufacturing interests of the Town. We first draw attention to what we believe to be a loose manner of transacting business, and then to the application of Mr. Rathbun.

Some time ago the question was asked in the Council, whether the sum of $200 had been paid to one of the Fire Companies, as it had never been voted by the Council? The Chairman of the Finance Committee replied that it had, that he had given the order; and justified it on the ground that that sum had been put in the estimates and approved by the Council, and therefore it was not necessary to bring the subject again before the Council to be appropriated. The fallacy of such reasoning is so apparent, that we marvel at the readiness with which it was accepted by the Council. If this reasoning be true in the case of the estimates for the Firemen, then it is equally true, and equally applicable to every other item; yet who would think of giving power to the Chairman of a Committee to order the payment of the amount estimated for by any particular work, without the account first having been laid before the Council? How did the Chairman know, but that some member of the Council might have had good and sufficient reasons to object to the payment of that $200? A large sum is estimated for Streets and Sidewalks, yet the Chairman of that Committee never pays a cent, nor orders it paid, until the Street Surveyor's report and pay-list have been passed by the Committee, and approved by the Council. So with salaries, yet these salaries are not paid until recommended by the Finance Committee and voted upon by the Council. Then why should this wholesome rule be broken in favor of the Firemen? We do not say they were not entitled to the appropriation, but we do contend that no sum should be paid by the Treasurer, no matter who gives the order, unless it has first been approved and ordered by the Council. If this whole some check is not to prevail, there is no telling where it may end. We do not say that any absolute wrong was done in the case to which we refer, but we do aver that such a system is vicious and should not be continued.

At the last meeting of the Council we had an illustration of the system of going it blind. Mr. Vandusen reported that a certain sum had been expended by him as Chairman of the Poor and Sanitary Committee; and when asked by Mr. Henderson for particulars, replied that he kept a book, but that it was too much trouble to lay before the Council a detailed statement; and Mr. Holden contended that so long as the appropriation had not been exceeded it was all right; or in other words, the chairman of that committee had the irresponsible right to distribute and dispose of $1000 as to him might deem best, without giving a detailed account of how and on whose behalf it was expended. This doctrine seems monstrous, particularly when a portion of it is paid out of the shop of the Chairman himself; we quite agree with Mr. Henderson that such a system should not be continued. When Mr. McArthur was a member of the Council and Chairman of the Committee on Poor and Sanitary, he made monthly detailed statements of the expenditure, shewing the party to whom relief was given, and the nature of such relief. Mr. Vandusen may have been as painstaking and careful as any man in christendom, still it was his duty to have a clear and distinct detailed account of how such a large sum was spent, so as to convince the Council and the town that it had been properly and judiciously expended. The Council in future should insist upon such a return being made.

There was another matter before the Council, at its last sitting, which to our mind should have been disposed of; namely, the application of Mr. Rathbun for a remission of dues or a part of them, upon logs which he had towed down the bay from Trenton to manufacture at Belleville. Mr. Kelso urged this question on the Council two or three times, but failed to get a decision. The facts appear to be, that when these logs arrive at the mouth of the Trent, they pay boomage, or some other dues; and the question is, whether under the circumstances, when these logs are brought to our harbor to be manufactured, should they be subject to the full dues as though driven down the river, and thus pay dues twice, first at Trenton, then in Belleville? Mr. Kelso and Mr. Holden argued this case fairly and equitably. In other towns and cities, as stated by Mr. Holden, manufactories have been established with the distinct understanding and agreement that they should pay no taxes at all for a number of years. Not long since the town of Brantford gave the Grand Trunk Railway a bonus of $35,000, to induce it to establish some of its manufactories there; while here we are higgling over a few dollars for dues, which, if imposed, may drive an important business elsewhere, and the town lose the benefits derived from the keeping of a large mill constantly running. Stop the mill and how many men are thrown out of employment? Who loses by this penny-dog-skin and penny-wise policy? Why every mechanic and shop-keeper in town. It should be our aim and study to encourage every description of manufactures, and not allow an opportunity to pass without throwing around every industrial pursuit, the fullest and most ample protection. Let us hope that in the interests of the town the new Council will consider the question in a liberal spirit.

—A scarcity of coal prevails in Germany, and is seriously on the increase. It arises from the want of labor in the mines caused by the war levies. The expediency of employing some of the French prisoners as colliers is being discussed.

—The debt of New Orleans is $19,000,000; population less than 200,000. The highest legal rate of taxation that can be enforced is two and five-eighths per cent, which for the coming year will leave a deficit of $1,205,848 to be provided for by issue of bonds and special taxes.

School Elections.

The voting for the election of School Trustees commenced to-day, and will be continued to-morrow. There was a good deal of interest displayed in Coleman, Baldwin, and Ketcheson Wards, the votes being put in quickly after the polls were opened.

SAMSON WARD.

As anticipated, there was no contest in this Ward, the course of their old representative at the Board having proved quite satisfactory to the majority of the electors. Mr. McAnnany was proposed by John Thompson, Esq., seconded by D. D. Bogart Esq. No other nomination being made, Mr. McAnnany was declared duly elected by acclamation.

KETCHESON WARD.

Mr. James Hambly was proposed by Jas. Glass, seconded by E. Harrison.

Mr. G. S. Tickell, proposed by John Lewis, seconded by Richard Elvins.

At the close of the polls to-day, the vote stood :—

Hambly.....	88
Tickell.....	21
Majority for Hambly....	67

Mr. Tickell resigned about 4 o'clock, but the polls will be re opened to-morrow.

BALDWIN WARD.

Dr. G. V. N. Relyea was proposed by Wm. Johnson, seconded by Wm. Alford.

Mr. W.m. Tennent was proposed by John Bell, Esq., seconded by Francis McKay.

The following is the result of the day's voting :—

Tennent.....	125
Relyea.....	43
Majority for Tennent...	83

Dr. Relyea resigned before the close of the poll; but, as in Ketcheson Ward, the polls will be re opened to-morrow.

COLEMAN WARD.

N. B. Falkiner was nominated by James Macoun, seconded by Alex. Watters.

Robert N. Bennett, proposed by R. J. Bate, seconded by Jas. Woodley.

Jacob N. Yeomans, proposed by S. B. Bardett, seconded by A. E. Proctor.

Mr. Bennett, finding his chance of success hopeless, resigned shortly after two o'clock, leaving the contest to the two remaining candidates, who stood as follows, at the close of the first day's polling :—

Falkiner.....	82
Yeomans.....	86
Majority for Yeomans...	4

Ontario Legislature.

MONDAY, Jan. 9.

The House met at three o'clock.

CROWN LANDS.

Hon. Mr. Richards, in answer to Mr. McColl, of Norfolk, said the Government intended to sell out lands not in actual settlement and on which arrears were due to the Crown.

TIMBER ON ROAD ALLOWANCE.

In reply to Mr. Galbraith, he said the Government had no intention to introduce a Bill this session to enable township municipalities to recover for township purposes the proceed of timber heretofore cut and removed by lumberers from the allowance for road, under pretence of license from the Government.

MUNICIPAL LOAN FUND.

In reply to Mr. Blake, the Attorney General said the Government, next session, would take up the question of the Municipal Loan Fund indebtedness.

THE OTTAWA AND SAGUENAY.

The Attorney-General moved resolutions in reference to relieving the sufferers by the Ottawa fires, and read correspondence between the Government and Mr. Tremblay, the member for Chicoutimi, relative to sufferers in his locality, by which the course of the Government was entirely vindicated. He moved that the House go into Committee to-day to consider the amounts to be granted to the Ottawa and Saguenay sufferers.

Mr. Blake attached the Government for not granting immediate relief, and in reply the Hon. Mr. Wood showed that his remarks were at variance with the course pursued in such cases by the English Government.

Mr. Cumberland regretted that the House seemed likely to squabble over their donation. He believed that if the Government had granted aid without asking leave of the House, Mr. Blake would have been the first man to attack them.

The motion was then carried,

GRAMMAR SCHOOL LANDS.

Hon. Mr. Richards moved that the House go into Committee of the Whole to-day to consider the including of Grammar School Lands into the resolutions brought up a few days ago.

LEGAL AND REGISTRATION BILL.

On motion of Mr. Blake, the Bill declaring true construction of the Act against fraudulent deeds, alienations, &c., was read a second time and referred to a select committee, as also the Bill amending the registration of titles act.

DENTISTRY.

The Bill amending the Act respecting dentistry was also read a second time, on motion of Dr. Boulter.

GOVERNMENT MEASURES.

In answer to Mr. Blake, the Attorney-General said the School, Land and Controverted Election Bills had to be brought up by the Government, but he could not tell which of them would be first taken up. The member for South Bruce taunted the Attorney General for not disclosing the Government's programme to the Opposition, and received a well-merited rebuke, and was distinctly told that the Government would take up their measures as they pleased, unless the Opposition showed good reason to the contrary.

RETURNS ETC.

Hon. Mr. Cameron presented papers touching the Arbitration, with a statement of expenses already paid, and an estimate of those remaining unpaid.

The House then adjourned at 5.25 o'clock.

TORONTO, Dec. 10.

After the house met, a number of petitions were presented.

SCHOOL LANDS.

The balance of the sitting was occupied in discussing a motion of Mr. Blake's, which was tantamount to a vote of want of confidence, and resulted in a signal defeat for the Grits.

The resolutions respecting arrears due on Crown Lands being on the Orders of the Day, it was moved that the House go into Committee on the same. In amendment thereto, Mr. Blake moved that, in addition to Crown, Clergy and Grammar School Lands, Common School Lands should be included. After a debate, a vote was taken, and result as follows:

For Blake's amendment.....	27
Against " ".....	43

Majority for the Government..... 21

It is not often a Government grows stronger towards the close of a session, but in the present case every session seems to bring strength to the Ontario Ministry. This is the more wonderful when it is considered what a dead weight it has to carry in the person of Richards.

RED RIVER COUNTRY.

The following is an extract from a letter received by a gentleman in Trenton from his son, which will be read with interest :

"Since my leaving home my life has been very varied, buffeted about by fortune in a most indiscriminate manner. I once thought that I was very shrewd, but experience has taught me the reverse during my meandering course of the last year. I was in Chicago, on the very eve of starting for the far West, when the Fenian raid broke out; I saw hordes of the monsters start for my Canadian home, boasting as they went of the anguitude of the raid and its success. I could not resist; so determined to shoulder the musket once more for my country, I jumped on the train and started with them. On the road some of them asked me if I was a "John Bull," which accusation I did not deny. One of them hit me on the head with a slung shot. I immediately felled him to the floor with a well directed blow of a black thorn, which I fortunately possessed. Several of them then made for me, and had it not been for the interference of some friends I should, no doubt, have finished my earthly career. We parted company at the next station, the cut-throats wending their way rejoicing, and myself following in the next train, arrived at Port Huron, crossed over to Sarnia, and enrolled myself under the old flag in the 27th Battalion; served three weeks; got ten volunteers and joined the expedition; remained in the Crystal Palace for two weeks; started for Thunder Bay; remained there one month and at Lake Shebandowan two weeks, the place of embarkation; received when starting, the appointment of medical officer to No. 9 detachment, comprising two companies, which, being only temporary, was cancelled when we arrived here. From Thunder Bay to here the scenery is grand and picturesque in the extreme.

"Manitoba has the facilities, if only made use of, of being the finest Province in the Dominion. The soil is of the richest description and its extent is boundless. As far as the eye can pierce is the open prairie, covered with its luxuriant verdure, cattle and horses, revelling, as Pat Conway says, "in grass up to their eyes." The snow does not exceed six or nine inches in depth, and animals can remain out all winter, owing to the height of the grass. Hay of good quality may be cut anywhere. Prairie chickens abound, and ducks and geese may be mowed down; also the curlew and the golden plover—that is, at the mouth of the river and in the lakes. Fish also are very abundant.

"Red River flows northward and empties into Lake Winnipeg by several mouths, forming a large alluvial delta, like the Mississippi In this place game of the above description is countless, the ducks paying no attention to yourself, your gun, or their dead neighbors. About twenty miles from its mouth is the stone fort or Lower Fort Garry, a solid stone structure, three hundred yards square, with a loop-holed wall and strong bastions at each angle for artillery, the company's buildings and our barracks in the interior. Twenty miles above here, at the confluence of the Assiniboine with the Red River, is Fort Garry proper, (the scene of the Riel excesses). It is a similar fort to the lower, but has more buildings in the interior, on account of its being the head centre of the Company. The Ontarios are stationed here. Half a mile from the fort is the village of Winnipeg, composed of thirty or forty very respectable buildings.

"The manners of the people are very primitive, grinding their flour principally by windmills, and a boat goes by the name of queen. Oxen, hitched up like horses to carts made entirely of wood, are the principal means of locomotion. From the mouth of the river up for ninety or a hundred miles, up both rivers, the country is only settled along the banks, so thickly as to look like one continued street. So you see that there is but a narrow strip cultivated, and that owing to the monopoly of the company, has discouraged the people so much that they manage it just enough to eke out an existence.

"The soil is so rich that manure destroys the crops. One old farmer told me that he has cultivated one field for thirty years without it, yielding good crops.

"On the course of the river are some splendid churches which would reflect credit on any country.

"Prices are very high—as common $2 boots, at $5, blacking 37½ cts, &c.: it is owing to the distance things have to be brought. The steamer runs one hundred and twenty-five miles above the fort to Georgetown, in Minnesota.

"There is no doubt but that it will be a good country in time, but it needs communication with the outside world, which will not be long delayed, as I believe a railroad is contemplated from here to St. Cloud.

"I have given all the particulars I am able, so you must, if possible, come up yourself in the spring. Money is to be made here, there is no doubt, but it requires capital.

"Yours, fraternally, C. B."

The German authorities have established 74 post offices in Alsace since the 1st of October. In 34 other places where French offices formerly existed it is at present impossible or unadvisable to open any. These establishments employ 87 north German, 17 Bavarian, Wurtemburg, and 9 Baden officials, 23 assistants, 58 persons formerly French letter carriers, and 208 country postmen.

President Grant's Mission.

We have received, says the Peterborough *Review* of the 7th inst., a brochure of some sixty pages, (including the appendix), entitled—Review of President Grant's recent Message to the United States Congress relative to the Canadian Fisheries and the navigation of the St. Lawrence River, which deals with the whole subject in a masterly manner, and proves beyond question that President Grant is (wilfully or unwillfully) ignorant of what he is writing about.

The writer of this brochure goes back to the treaty of 1818, and relates all that has occurred from that time up to the present on the fishery question, and quotes from a number of official documents—both English and American—sustaining our position.

As our readers are aware, the principal question in dispute is the construction to be put on what is known as the "three mile" limit, and it is satisfactory to find that even American authorities can be quoted as fully sustaining the English view of this subject. For instance, we here learn that Secretary Webster, when this question was under discussion in 1852, wrote as follows :—

"It would appear that by a strict and rigid construction of this article, fishing vessels of the United States are precluded from entering into the *bays* or harbors of the British Provinces, *except* for the purposes of *shelter, repairing damages*, and obtaining *wood* and *water*. A *Bay*, as is usually understood, *is an arm or recess* of the sea entering from the ocean *between Capes and Headlands*, and the *term is applied equally* to small and *large* tracts of water thus situated; it is common to speak of the British Bay or the Bay of Biscay, although they are very large tracts of water."

Again in 1853, when the question arose with regard to the rights of the Americans to fish in the Bay of Fundy, Mr. Rush, the then only surviving American Commissioner who took part in the making of the treaty of 1818, was appealed to, and stated that "They (the commissioners) meant no more than that our fishermen whilst fishing in "the Bay of Fundy, should not *go nearer* "*than three miles* of those *small inner bays*, "*creeks, or harbours* which are known to in"dent the coasts of Nova Scotia and New "Brunswick."

It is also quite apparent from the authorities quoted by this writer, that the rights of the Americans were strictly *prohibited* from using our bays and harbors, except for the purposes of *repairs, shelter*, and obtaining *wood* and *water*.

Our *rights* being quite clear on both these points, we trust that while our Government is moderate they will yet be *firm* in maintaining them *intact*.

The "St. Lawrence" part of the message is also ably reviewed, indeed this "brochure" should be in the hands of every one, and we trust the author or publisher has made provision for its being placed on the counters of booksellers from one end of the Dominion to the other, as we consider it all important that the Government of the country should have a unanimous and intelligent public opinion to support them in maintaining our rights.

News Condensed.

—The son of the station master at Odessa was killed on Saturday while coupling cars. His head was smashed to atoms.

—The coal strike that begins to day in the Schuylkill region is expected to be long and severe, both on masters and men.

—The Quebec Government are trying to get control of the North Shore railroad, and much dissatisfaction is felt in consequence.

—The thermometer reached 19 degrees below zero in Ottawa on the 10th instant, and 22 at Quebec, while at Father Point it was 37.

—The contract for the Rondeau harbor works has been awarded to Mr. John Brown; of the Goderich works, to Messrs. Harvey and Kerman; and of Chantry Island works to Messrs. Reed & Walker.

—A fire broke out at the Port Huron depot of the Grand Trunk on Sunday night, January 8th, by the explosion of a coal oil lamp in the despatcher's room. It was extinguished without much loss.

—The address of Mayor Gaston, of Boston, shows that the city debt is $32,628,911 of which $2,721,596 is unfunded. The increase the past year was $2,884 973. The new Mayor earnestly urges economy in all departments.

—John Marils, one of the calico Feulans, who make red hot speeches and leave the illiterate to do the fighting, has been returned to the British House of Commons for the county Meath. Not long ago he ran for Longford, but was badly beaten, chiefly by the influence of the priests.

—An Atlanta paper of last week says: A lady in this city tied her hubby's hands and feet the other day. Just for fun, and went through his pockets for small change. She found it, and his physician tells him that his face won't be badly scarred, though he may remain permanently bald.

—The San Francisco Bulletin says: "California records for 1870 will include three money-able events—the sale of the whole of home raised silk; the raising of the first successful crop of cotton, leading to the planting of several large tracts of that staple, and first success in the manufacture of beet sugar."

—A deputation waited on the Minister of Public Works on the 9th January, urging the Dominion Government to aid in the construction of an inter provincial bridge over the Ottawa at Portage du Fort. The Quebec Legislature have voted $40,000 to the undertaking, and it is expected that the Dominion Government will do as much.

—Burglarly in Brooklyn, which is cultivated as a profession, must be conducted on a system which leaves the despoiled slight chance of resistance. Six stout well armed ruffians invaded a private mansion in that city the other night, and would have escaped with impunity had not one of the party been accidentally wounded by a comrade, thus falling into the hands of the police.

—A boy at Indianapolis asked his father for $3, to enable him to take his Amanda to a dance, but the stern parent refused. What did the boy do? He took a pitchfork and pinned the old man to the side of the barn, and held him there until he shelled out. Fathers should take warning by this episode.

—'What!' exclaimed a Sunday school superintendent, 'can none of you tell me who Peter was? At last a little boy, about four years old, held up his hand in token of knowledge on the subject 'There's a boy—a little boy—who can tell me who Peter was,' said the superintendent, for king reprovingly at the larger children. 'Now, my lad, tell us who Peter was?'

Peter, Peter, pumpkin eater,
Had a wife and couldn't keep her.
He was the triumphant response.

The Belleville Curling Club.

A GENERAL MEETING of the members of the above Club will be held at the CLUB ROOM on FRIDAY EVENING NEXT, at half-past Seven, sharp. As matters of importance will be discussed, a full attendance is requested.

Midnight Despatches.

The War in France.

The Siege of Paris.

Bombardment of the Forts.

The Fighting near Vendome.

The French Claim a Victory.

Desperate Fighting.

VERSAILLES, Jan. 9—Last night the fire from our batteries on the south of Paris was increased. The buildings inside of Fort Montrouge were burning all night. To-day there is a dense fog and the bombardment is not so heavy. The return fire from the French guns is weak.

The Germans lost on Sunday 23.

The column advancing on Lemans reached St. Calais yesterday, meeting with slight resistance.

BOMBELLES, Jan. 9.—Details of the fighting on Friday, near Vendome, have been received. It appears that at about 11 o'clock in the forenoon of that day the Germans attacked the French under General Curten, occupying the district of St. Curville, Porcher and Ville Neuve. The enemy were at first successful and drew the French back to Nouville. General Curten brought up his supports and after sharp fighting recaptured all the positions previously taken by the Germans and repulsed the enemy beyond Saint Roumain, which place the French re-entered at nightfall.

French sharpshooters successfully engaged a body of Uhlans near Lille to day, and captured 43 prisoners.

The Prussians have raised the siege of Langres.

Fighting when Dardjuntin was carried by storm is described as desperate on both sides. The German loss was heavy.

GREAT BRITAIN.

NEWYORK, Jan. 9.—A despatch from London to the *World* says:

"An immense meeting was held to-night at Greenwich to demand Mr. Gladstone's resignation. There was great disturbance and some fighting."

The Right Hon. Wm. Monsell, member of Parliament for Limerick county, has offered the Pope a residence on his estate in Ireland.

Mr. Shaw Lefevre has been appointed Secretary of State for the Home Department.

Prussian Apology.

LONDON, Jan. 9—Count Bernstorff, the Prussian Minister, has received the following from Count Bismark:—

"VERSAILLES, Jan 8—The report of the German commander at Rouen respecting the sinking of the English colliers has not arrived, but the facts are known. Tell Lord Granville that we sincerely regret that our troops, to avert imminent danger, were obliged to seize British ships. We admit the claim for indemnity. If unjustifiable excesses were also committed, we regret them and will call the guilty to account.

"BISMARCK."

Further explanations represent that the vessels were seized for fear the French would use them to land troops.

American Despatches.

WASHINGTON, Jan. 11.—At its meeting yesterday the Commerce Committee authorized Beleett to report a Bill authorizing the Secretary of the Treasury to issue coupon or registered bonds to the amount of eight million dollars, redeemable in coin after ten years and at the end of fifty years, at four and a half per cent interest in coin. Before the bonds are to be delivered, the New York State Legislature shall pledge that the work shall be begun of enlarging one tier of locks on the Erie and Oswego Canal to a sufficient capacity to pass war vessels of twenty-five feet beam and two hundred feet in length, and also merchant vessels of six hundred tons, by such deepening and widening as may be necessary. All munitions of war stores or supplies for the general Government to be passed free of tolls.

NEW YORK, Jan. 11.—The steamship 'Ville de Paris' from Europe, has arrived.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 11.—The Brussels Echo of the 10th, says that the Belgian militia has been again summoned to the frontier, and staff officers have already arrived at that point in the neighborhood of Longuey. The Prussians continue the investment of Givet, a French town near the Belgian borders.

Berlin letters to the London journals assert that the London conference is likely to consider the question of peace in case of the surrender of Paris during the session.

ROYAL RED TAPE—BRIDGES VS. VIADUCTS.—Queen Victoria recently made a visit to the city of London on the occasion of opening the Holborn viaduct, and the bridge. But, says a contributor to the *London Society* in accordance with the unchangeable laws of red tape, although her Majesty really presided at the opening of both viaduct and bridge, on the eventful 9th of November last, her visit was ostensibly for the purpose of opening the bridge only. The anomaly was in this wise:—When it was first proposed to request the royal presence, on the occasion of opening for traffic the Holborn viaduct, to the great dismay of the London people it was discovered, as we have seen it announced, that no precedent existed of a sovereign opening a viaduct! and consequently it would be deemed improper even to put forward such a request to the Throne. The wily corporators, however, with their usual shrewdness, sthinking themselves of their new bridge, and remembering that precedents did exist of sovereigns opening bridges, forthwith prepared their application; even red tape admitted its regularity, and her Majesty received the invitation to open the bridge. Most kindly and royally she yielded to the gentle pressure, visited her loyal city, opened to her loving citizens both bridge and viaduct, and thus conferred on the great city, a double triumph—success in enticing the Queen from her lengthened retirement, and also in spite of all red tape, in establishing a precedent of a sovereign opening a viaduct!

BLANKS of every description for sale at *The Intelligencer* office.

Something too Much of Economy.

What becomes of the cigar stumps? "Early promenaders in Broadway and Fifth Avenue," says the New York *Commercial Advertiser*, "if they are at all observing, will see an old man in a blue blouse, and carrying a dirty bag, engaged in picking up the unsmoked tip-ends of cigars, known among the boys as 'cold segars.' We had occasion to observe the infant less old man picking up these inconsiderate trifles the other morning, and to stop him and interrogate him as to the uses to which he puts his cigar tips. He related his story and it ran to this effect: After a morning's work he takes home what he has gathered up, washes the tips out in a large tub, and when cleansed puts them to such sells them to certain cigar makers, who use them for 'fillings' in the making of cigars. This old man can tell the genuine Havana from the ordinary American leaf; one is much more valuable than the other. We have no doubt is often occurs that smokers smoke the same cigar twice. We are glad to see this evidence of economy manifesting itself. Where nothing goes to waste everything must go well."

—On the 9th January Edward Laraway fell into a boiling vat at Robinson Howell's factory, at Galt, and died a few hours afterward. He leaves a wife and four children.

SPECIAL NOTICES.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Roeger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by publicsinging. They have suited my case exactly relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold or over-exertion to public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of that we are sure, that we will take no rest day nor night, until Mrs. Winslow's "Soothing Syrup" for helping her survive and escape the griping, colicking and teething stage. We confer a favor on all parents by the Proprietors. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Godfrey's Cordial, Paregoric, Drops, Laudanum, and every other Narcotic by name, for the latter is deranged into stupidity and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, assome is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *facsimile* of Curtis & Perkins on the outside wrapper. All others are base imitations. A W-2m

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., lb., and 10 lb. packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Tu,

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will cause the formation of good healthy blood by its action on the Digestive Organs, the Lacteals, the Heart, Lungs and Nervous system. Persons suffering from impure blood, or whose health is going way, either as ministers or those who study closely, will find in the SYRUP the material to build them up and the tonic to keep them there." DR. CLAY.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Candill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 73-2w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the virtues of Allen's Lung Balsam. * * *

Belleville, December 9th, 1870. 188d

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } By VIRTUE OF
To Wit: } a Writ of
Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suit of Alexander McTherry, Plaintiff as James D Davern, Robert Weller and Charles Davis, Defendants and David Pitcathly and Thomas Andrew, plaintiffs, as J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land, situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey thereof, made by one F. P. Rubridge, D. P. L. S., in 1864, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 4th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

GEORGE TAYLOR,
Sheriff.

STAR'S BALSAM OF WILD CHERRY
COUGHS COLDS CONSUMPTION LUNG DISEASES

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large, periodical of 32 to 44 pages, well printed, and filled with plain, practical, reliable, original matter, fully illustrated by engravings at every annual volume.

It costs each one with a taste for Agriculture to be performed on the Farm, in the Orchard and Garden, in the Dwelling, &c.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with a special aim to furnish amusement and 16 pages each week of readings and small prize puzzles.

CIRCULATION TEN MILLION. That the circulation of the American Agriculturist (40-50-100 000) is so large that it has to be furnished for a low price of $1 50 a year, (or 3 copies for $4; 7 copies or more, $1 each; single copies 15 cents each.

Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton paper, the *Times* and *Spectator*, have greatly enlarged and improved the *Gazette*, and have issued from the new type from the foundry of C. F. Palgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already secured a high reputation in the Province of Ontario. Editorials are furnished upon all the live topics of the day, by eminent writers in the interests of Canadians and European, American and Dominion politics. Party questions are discussed in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full commercial reports in a newspaper adapted to the wants of a large commercial community like Hamilton, and have completed arrangements by which the reports of all markets in the issue of the *Gazette* unquestionably as early as upon any publication in Canada

The Daily Intelligencer.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

VOL. 4. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, JANUARY 12, 1871. No. 215.

TO THE WEST,
VIA
GRAND TRUNK RAILWAY.

GREAT REDUCTION IN FARES.

TICKETS issued to all parts; fewer changes of Cars to the principal Cities of the West than by any other route.

Parties purchasing tickets at the station save the trouble and annoyance of re-check ing baggage in Toronto, &c.

American money taken at par for all Western Tickets.

W. C. NUNN, Agent.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW,
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For any four of the Reviews, - - - 12.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one Review, - 7.00 "
For Blackwood and any two of the Reviews, - - - - 10.00 "
For Blackwood and three of the Reviews, - - - - 13.00 "
For Blackwood and the four Reviews, 16.00 "

Sing e numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus four copies of Blackwood, or of one Review, will be sent to one address for $14.40. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons, a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any one of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to clubs can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Mcum and Teum are some what hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The Rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests.

The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is exceptionally reasonable, they hope to obtain a large share of public patronage.

UNDERTAKING.

G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique because they are authentic and original, and not servile imitations of French and German models.

It is given with every number full-sized patterns, which the ladies prize highly, as that any lady needs for the cutting out of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and remunerative employment to ladies—all calculated to assist in making our home attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving for "Orchestra Guards" The Premium for Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lilian M. Spencer, and, besides the copyright cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Specimen copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of stamp. Address

W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Wetherspoon having purchased it as a property, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a journal devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, M. W. Edwards and other eminent writers have written on the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarman, of New York.

Special attention will continue to be given to the advancement of floriculture, the production of Attle and Manufactures, and so during the past year, each number will contain a choice piece of either secular or sacred music.

The circulation of farm implement-makers, seedsmen, nursery-men, dairymen, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half yearly and yearly advertisements.

Sixty-four Pages, Octavo, published on the 1st of each month, at 75c per annum, payable in advance.

☞ 134 Large Octavo Pages for One Dollar.

SPECIAL COPIES OFFERED—Furnished to Agricultural and Horticultural Societies in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.
Clubs of 5 subscribers, - - - $ 3.00
Clubs of 10 " - - - 5.00
Clubs of 20 " - - - 10.00
And all over 20, at 75c per copy, free of postage.

N. McArthur,
MANUFACTURER of Saddles, Harness, Trunks, &c., Importer and Dealer in all Kinds of Hardware, Saddlery Trimmings and Leather, Front Street, Belleville.
Belleville, July 20, 1870. 68-3m, 23-tf

JOHN D. EVANS,
ARCHITECT,
ENGINEER,
AND SURVEYOR.

MR. EVANS is prepared to furnish Plans, Specifications, Bills of Materials, and Estimates for Buildings of every description, Hydraulic Structures, Bridges, &c.

Drawings, Specifications, &c., of inventions prepared, and Patents applied for.

Office in the Dominion Buildings, Bridge Street.
Belleville, July 2, 1870. 52:d&w

Builders and Architects
WILL be liberally dealt with as agents for Johnston's Weather Protectors for doors and windows. Apply at once. J. JOHNSTON & Co., Patentees and Manufacturers, Box 147, Lindsay, Ont. 209-1y

Angus McFee,
WATCHMAKER and Jeweller, Front St., Belleville. A large stock of Clocks, Watches, Jewellry and Silver Ware always on hand. Repairing done at short notice and on reasonable terms. 1D6m

J. W. Brown,
MERCHANT Tailor and Clothier, Front St. Belleville, over Tickell's Furniture Store. Garments made to measure and warranted to fit. 1D6m

FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers Throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S GOLD ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and a firm as when first set. This beautiful preparation restores front teeth and prevents decay. Will stop 12 teeth. Price 2s.

GABRIELS CORALITE TOOTH PASTE, for cleansing and improving the teeth, and imparting a natural redness to the gums, whereas the tooth powders leaving between them any traces of powder, and gives brilliance to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by appointment of Her Majesty's Dentists. Preserves the teeth, and imparts a delicious fragrance to the breath, strengthens the gums, and is most invaluable to smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parts or complete sets, on Messrs. Gabriels' new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

All letters to be addressed to 64 LUDGATE HILL, LONDON.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the power of instantly filling a hollow tooth with enamel-like whiteness, and protects the enamel. Price 2s. 6d.

Mr. Blake, Dr. Ryerson and the School Board.

To Edward Blake, Esq., M.P.P.—

SIR,—You have thought proper on a recent occasion to assail the fundamental principles of our Public School system to attack the only means by which that system has been established and brought to its present state of advancement; to ignore and attack men as nobodies who are in all respects your equals, and some of whom, by their attainments and services (as I shall show), are so far your superiors, that you are not worthy to unloose the latchets of their shoes.

When the Common School Bill, which has become the Magna Charta of our school system, was before the Legislature of Canada in 1850, it was arranged by mutual consultation, that the education of the people should not be made a political party question, and that in legislating for its promotion no party advantages should be sought. It was, therefore, agreed that when a member of the Government should move the second reading of the Bill, the leader of the Opposition should second it. This was done; and when the House went into Committee of the Whole on the Bill, I was requested to sit in the House between Mr. Baldwin and Mr. Hincks, to afford them, as occasion might require, answers to enquiries of members as to various provisions of the Bill. When even certain financial clauses came up, and members asked as to the necessity of such sums, the reply, on the part of the Government, was, that they could not tell of their own knowledge, but that such was the estimate by the chief officer of the department, and author of the Bill—that the estimate appeared to them to be moderate, but that care would be taken that the money should not be needlessly expended. I had prepared the Bill at the request of Mr. Baldwin (then Attorney-General and leader of the House) who devoted nearly two days in going over it clause by clause with me; and I still have the original draft of the Bill, with Mr. Baldwin's corrections, queries, &c., in the margin, in his own handwriting.

Such, sir, was the spirit and manner in which our school system was embodied in the form of law; and in the same spirit I addressed my first circular to Municipal Councils adducing the conduct of the leaders and members of both parties in the Legislative Assembly as an example for their imitation, in not allowing the element or spirit of political party to enter into the great work of providing for the educat on of their children, and in that spirit of Christian patriotism have the Municipal Councils, from 1850 to this day, performed their part of the work in promoting the education of our country; and nothing can excel the noble manner in which the great body of the people have acted in the same spirit and for the same national object.

Sir, your political foster-father, the Hon. George Brown, and yourself, are the first and only two public men of prominence that have broken this truce of party in the divine work of national education. Mr. Brown has again and again, especially before general elections, sought to make educational legislation a football of party, but has as often failed of success. For several years he sought by every means in his power to alarm the country, stating as a reason that I was saddling upon it a Prussian despotism in the form of a school system—yes, that very system of school institutions which you yourself are now compelled to call 'self-working institutions.' When I first explained and commended the system of free schools, Mr. Brown sought still further to alarm the country by proclaiming that I was not contented with enslaving the country by a school system of Prussian despotism, but that I was now proposing to 'pauperize' it by establishing a system of 'pauper schools.' When I afterwards, by legislative aid, provided for the establishment of free libraries and prize books for the schools, Mr. Brown again sounded the alarm that I was ruining the book trade. But that system which Mr. Brown formerly decried as a 'Prussian despotism,' has become a cherished object of affection with the people of this country; and as the British School Commissioner to America, Mr. Fraser, the present Bishop of Manchester, said, the nearest approach to the voluntary system of any school system with which he had met in America, while he considered the teaching in the Canadian schools the more solid, but that of the American schools more showy. Mr. Brown's "pauper schools" of twenty years ago have been adopted by the country as the best and noblest system of schools ever devised; and, by the chronicles of the *Globe* itself, the book trade has acquired a rapid and still enlarging expansion, and the commencement of that rapid expansion is contemporary with the information diffused by catalogues, &c., in the establishment of the system of free public libraries and books in the schools. On most of these subjects Mr. Brown himself has found it convenient and profitable to change sides, as did the poet Cowper's lawyer in arguing the case of litigation between the nose and eyes as to the proprietorship of the spectacles, and as Mr. Brown has boxed the compass on many other subjects. But as Mr. Brown still survives his twenty-five years' disease of 'Prerson on the brain,' though with the loss of its once ornamental covering; so the school system and its author have survived his long and loud execration, reminding one of what has been said respecting another execration—

"Never was heard such a horrible curse;
But what gave rise
To so little surprise,
Nobody seemed one penny the worse."

FOR cheap printing &c., go to "The Intelligencer" Office, Belleville.

But Mr. Brown, after having devoted a considerable part of his newspaper, day after day, to the abuse of me, under the pretence of opening his columns for the discussion of the School Bill, seems, as a forlorn hope, to have called his promising political foster child to his assistance. You have doffed the lion's skin, and commenced the task with a sound, prefaced by pretended equity, impartiality, which, for partizanship, venom, ignorance and absurdity, exceed anything I ever heard from a gentleman, scholar, jurist and legislator. And this I shall soon prove.

Sir, if a gentleman, whether in the Legislature or out of it, thinks it better that Boards of High Schools in cities and towns should be separate from the Boards of Common Schools, rather than to have both form one Board, it is his right and his duty to express it; and I respect him the more for an honest expression of his opinion, though differing from him. And so with a gentleman who may think that Common Schools, in cities and towns should be exempted from the proposed provision for making Common Schools free by law; so also with a gentleman who might think certain provisions of the Bill would injure rather than benefit both Grammar and Common Schools in some localities; so likewise with a gentleman who might think certain powers to be conferred on certain parties by the Bill are needless and objectionable, or that certain personal conditions are requisite. Or if a gentleman should think the very principle of the Bill objectionable, and therefore should object to its second reading, his duty and his honor would require him to do it. But for a gentleman and scholar to lay down a principle, in the form of objection, which is at variance with the practice of all statesmen and legislatures in every educated country in the world, and which would have prevented all educational progress in both Europe and America, but also to attack a body of educated gentlemen, and most of them of educational experience, who have devoted months of time and much labor to promote the education of the youth of the land—gentlemen who have prepared and prescribed every regulation and standard of examination by which our school system has been made the boast of our own land and the praise of other lands—gentlemen who have thus given their advice and professional learning and experience, during twenty-five years, without a farthing's remuneration for their services, while their assailant draws pay for his every day's attendance in Parliament, and has given no professional advice out of Parliament, without a considerable fee; nay, further, for such a gentleman to misrepresent the words and acts of another gentleman, when and where you knew he could not defend himself, and that a gentleman whose public life, in the service of his country, is longer than your natural life in the world; for you, Sir, to do all this, and more than this, I leave to the members of the Legislature of any party, and to the public at large to judge whether your conduct is statesmanlike or the reverse, patriotic or selfish, fair or unfair, honorable or dishonorable, high-minded or base, courageous or cowardly, manly or mean!

Sir, you have denied me every opportunity of meeting you face to face; you were appointed on a large Select Committee, where the very matters on which you have assailed the School System and me, attacked myself, but you never appered one half day or one hour where I could answer you; you found it more convenient to plead, and receive large fees for pleading in the Court of Chancery, though the country pays you to devote your time to its legislative interests during the Session of the Legislature. And I now challenge you to meet me through the press or on any platform, (all the expenses of procuring which I will pay myself) of your own choosing and sustain if you can the statements and insinuations which you have made, where neither I nor the other object of your assault could meet you; and if you are at liberty to bring your political foster-father, Mr. George Brown, with you to the contest, I will meet you both on all the questions of yours and Mr. Brown's imputations. You need not excuse yourself out of professed respect for my age. You had no respect for that in your statements and insinuations,—the most disreputable of which the *Globe* reporter has suppressed.

I am certainly not as young as David; but then, you, even with the addition of Mr. George Brown, are not a giant like Goliath, however you may think so. Nay sir, you can do things to which a coward could hardly descend; such, for example, as when a few months since, you demanded a voucher for the enormous sum of $23 paid for own travelling expenses for going from Toronto to Ottawa and back again in 1853, to close up the business of my Department there after Confederation. The Provincial Treasurer found his archives minus this important document, and, to satisfy your demand, sent to the Educational Department to make inquiries about it, when the veritable voucher was found duly fyled, and you were thus saved the labor pains of three months, and a possible delivery or abortion during the session of the Legislature. Now, a mental giant could not have performed this feat of yours about the voucher for such a charge for such a journey. When such is your employment and standard of action in the intervals of the session you cannot find the wherewith to meet me in Committee, or anywhere else on school matters, or even to extend to me more than a repulsive nod. I ought not to shrink from meeting your great littleness were I even ten years older than I am. Besides, I might say with the Rev. Dr. Guthrie, of Scotland, who, referring to his advancing age, writes:—'They say I am growing old, because my hair is silvered and there are crow's feet upon my forehead, and my step is not elastic as of yore. But they are mistaken. That is not me. The knees are weak, but the knees are not me. The brow is wrinkled but the brow is not me. This is the house in which I live. But I am young, younger now than I ever was before."

I now address myself, in brief, to some of your doctrines and statements; but to only one in this letter.

You lay it down as an essential preliminary and condition of school legislation, that there must be petitions from the people for it. Sir, there was not a single petition from all Ireland when, in 1832, the Imperial Government and Parliament, through Lord Stanley (afterwards Earl Derby), established a system of national education, under the direction of a Board of Education, in Dublin, invested with ten times the power ever proposed to be conferred upon the Canadian Council of Public Instruction—a system under which Ireland has advanced in knowledge and civilization beyond what could have anticipated in 1830! Were there any petitions from the people in England or Scotland, when the Parliament and Government established the system of elementary education for Great Britain, ultimately granting £800,000 sterling per annum, and all expended under a small committe of the Privy Council, which made every regulation and prescribed every condition and examination, and appointed every inspector; determined the classification and even salaries of the teachers, and expended, at its discretion, every farthing of the large Parliamentary grant? Were there petitions from the people when the British Parliament passed the recent School Act, to improve the elementary school system by introducing the Canadian principle of local elective Boards of School Trustees and municipal taxation, to manage and support the schools; and which I happen to know, was adopted from the Canadian system, in preference to the American system of school taxation by acts of the Legislature itself? Sir, have you ever read of a single petition from the people of the States of Massachusetts or New York, or any other of the United States, and of our own Canada, have been, and acted wrong in all past times, in all they have done for the education of the people! What a calamity it is for mankind, that Edward Blake of Toronto, had not lived a century earlier, as the unruffled blessings of profound ignorance might have over spread the nation, instead of the friction of educated intellects, the obstructions of schools and colleges, the smoke, and hum and clatter of manufactures, the awful nuisance of railroads and steam navigation, and all the other oppressive creations and advancing civilizations!

Sir, you seem to be aware that there is no game so cheap and so easily played, as the game of party or of faction, in questions of mental and social progress; but you do not seem to be aware that there is no game so criminal, and which, to so great a degree is, as Lamartine in his Girondists, expresses it, "the crime of politics against nature." If you had studied the first elements of the problem of educational and social progress; if you had penetrated the spirit as you have read the letter of laws; if you had mastered even the first lessons of mental philosophy and the laws of mental development, you would have known that all intellectual, as well as moral advancement must be by the moral pressure and influence of the better educated upon the less educated portions of the community. One characteristic of both intellectual and moral ignorance is, that it is unconscious of its destitution; it has no knowledge of, and therefore no appetite for anything better. The wild man of the woods is satisfied with his mat wigwam, his rawskin covering, his uncertain face, and never petitions, according to your doctrine, until, by the teachings of others he is made to see and feel how much greater are the comforts of the habitation and clothing and food of civilization. The farmer is quite contented with his home-made cart, and sled, and plough and harrow, with his oxen, and his primitive mode of culture, and would never petition for anything better until his blissful ignorance is disturbed by agricultural associations and philanthropists exhibiting the better implements of industry, and showing the better modes of culture. The parent does not wait to build a school house and employ a teacher until the child petitions for it. The Great Teacher did not wait until these in the highways and hedges *petitioned* to come to his feast, but sent his servants to *compel* them by every possible persuasion to come in to his banquet. He did not tell His disciples to wait until the nations *petitioned* for their instruction, but told them to *go* and *teach* all nations. The education of a people and the improvement of their school laws is not the redressing of a felt grievance but the remedy of a defect, the supply of a deficiency, the development of new resources; and this is not an arena for the battle of party, but a work (always difficult for any Government) in which every man should forget that he is or ever was a partisan, and feel that he is a Canadian, and that every other Canadian is his brother, of whatever sect or party—that the work is not the battle-axe or property of any party, but, as I have always sought to represent it, the creation and joint produce, and common property of all parties, or rather of all Canadians of progress, irrespective of sect or party.

Sir, I reserve to another letter the exposure of your more objectionable doctrines and more offensive personal attacks, when I will show that what you denounce and what I have proposed, involves the true elements of educational progress, as illustrated by the practice and experience of educating countries, and by the expressed views of the most advanced and progressive portion of our Canadian fellow-citizens.

I have the honor to be, Sir,
Your obedient servant,
E. RYERSON.

TORONTO, Jan. 10th, 1871.

A curious freak of nature is asserted to have occurred recently at Cape Cod, Massachusetts. It is no less a phenomenon than a male child three months old—more's nake than human. The cause of such an abnormal growth seems to have been (as usual in such cases) that the mother during pregnancy had a monomania for killing snakes.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:30 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	2:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Daily Intelligencer.

BELLEVILLE, THURSDAY, JANY. 12.

ST. GEORGE'S SOCIETY.—Englishmen will remember that their national Society meets at the Marble Hall to-night at 7½ o'clock.

ONTARIO HALL.—It is hardly necessary to remind our readers that the union Conversazione takes place in Ontario Hall to-night. Good music and good speeches may be expected.

DOMINION PARLIAMENT.—An extra Gazette says: "Parliament will assemble for the despatch of business on the 15th February." The Globe's column of abuse of the Ottawa Cabinet on the ground that Parliament would not be called until March, is therefore lost.

DANCING.—Prof. Armstrong intends giving, during the season, once in each week, public dancing assemblies in Ontario Hall, at which his celebrated quadrille band will perform. The first is to come off tomorrow night.

SKATING RINK.—The band of the 15th Battalion performed last night in the skating rink, the occasion being graced with the largest attendance of the season. Under the present energetic management the rink has attained a deserved popularity which seems on the increase.

A THAW.—The thaw which generally takes place in January of each year, would now appear to have set in. The air is as mild as in spring, while the streets and sidewalks are beginning to get sloppy. A great deal of ice remains on the sidewalks, which renders walking anything but pleasant.

BILLIARDS.—The billiard match for the championship of the United States and a stake of $1,000, played at Buffalo on the 10th, between A. P. Rudolphe, of New York, and Frank Parker, of Chicago, was won by the latter. The score at the close of the game: Parker, 1501; Rudolphe, 1235. Cyrille Dion has challenged the winner.

DOMINION TELEGRAPH COMPANY.—The annual meeting of the shareholders of the Dominion Telegraph Company was held in Toronto on the 10th inst. The following officers were elected: Hon. J. McMurrich, President; Mr. J. J. McKenzie, Vice-President; Mr. James Michie, Treasurer; Hon. J. H. Cameron, Standing Counsel; Hon. M. C. Cameron, Solicitor.

MISSIONARY ANNIVERSARY.—We understand that the Rev. W. Stephenson, of Ottawa, and Mr. Pasmore, world-wide fame, constitute the Deputation to attend the Missionary Anniversary services, to be held in the Bridge St. church, Feb. 19th and 13th. Mr. Stephenson will preach in the morning and Mr. Punshon in the evening of the 12th; and both will speak at the anniversary meeting the following evening.

ORANGE DISTRICT LODGE NO. 2, SOUTH HASTINGS.—The annual meeting of this Lodge for the election of officers for the current year, took place in the Orange Hall, Thomasburg, on Tuesday, January 10th. The following are the names of the officers elected:—

Bro. John Stokes, D. M.
" John B. Fox, D. D. M.
" Robt. Gordon, D. C.
" Wm. Wray, D. S.
" Richard Newton, D. T.
" Wm. Stokes, D. D. of C.

ORANGE DISTRICT NO. 1, NORTH HASTINGS.—The annual meeting of Orange District No. 1, North Hastings, was held in the Town Hall, Rawdon, the lodge room being too small to hold the number of brethren present, on Monday, Jan. 9th, and the following officers appointed for the present year:—

Bro. John Jefferies, D. M.
" Thomas Warren, D. D. M.
" Francis Reynolds, D. C.
" James Montgomery, D. T.
" James Cooke, D. S.
" Samuel Tuman, D. D. of C.

Rev. E. Ryerson and Mr. Blake.

We reproduce in to-day's issue a letter from the Rev. Egerton Ryerson to Edward Blake, Esq. This letter proves that the old veteran has lost none of his intellectual vigor. It is a just rebuke to Mr. Blake who from his position and talent, should rise above the miserable smallness of party tactics, when legislating upon a question of so much importance as the educational interests of Ontario. Mr. Blake is no doubt a good lawyer, but lamentably ignorant of what is required to make our Common School law perfect. Another such a scathing will do this young politician good.

Election of School Trustees. Stirling.

The election of two School Trustees for the village of Stirling was held in the Town Hall on Wednesday, the 11th Jan., when W. Judd and Jas. Beldrick, Esqs, were re-elected by acclamation.

The Board of Trustees, being a united Board of Grammar and Common School Trustees, is composed as follows:—

Wm. Judd, Chairman; Rev. Mr. Buchan, Rev. Mr. Grout, Rev. Mr. Wishart, Madoc, Jas. Ryan, Huntingdon, Dr. Boulter, Dr. Wilson, B. Stedman, D. McDougall, W. Wright, A. Chard, Jas. Beldrick; R. Finch, Sec.-Treas.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 11th.

VAGRANCY.

John Davis made his appearance in Court again, and was sent up for 60 days.

Lt. Col. Denison's Lecture.

According to previous announcement, Lt. Col. Geo. L. Denison last night lectured in the Masonic Music Hall. Subject: "The young men of the Dominion: Their duty to the State." As expected, the lecture was eloquent and interesting—just such a one as had been anticipated by those conversant with the writings of its author. The audience was not so large as we should have liked to have seen, there being about two hundred people present.

On the platform were Lieut. Col. Brown, M. P.; Major Bowell, M. P.; Lieut. Col. Campbell, A. P. Wood, Esq., Wardes; Francis McAnaney, Esq.; Rev. G. R. Sanderson, Geo. D. Dickson and A. Diamond, Esqs.

A. Diamond, Esq., President of the Native Canadian Society, occupied the chair, and introduced the lecturer to the audience.

Lieut.-Col. DENNISON, on coming forward, was heartily greeted. He began his address by a reference to the ancient Egyptians and to the Greek and Roman Empires, attributing the decay of those peoples to the dying out of a healthy national sentiment, which caused them to fall before races more patriotic than their own. Our population was increasing rapidly, chiefly by immigration, and it was hardly to be expected that persons who were born in the British Islands or elsewhere could entertain the same feeling for Canada as those born within her borders. Their loyalty was divided, a strong love for their birth place being mingled with the love which they bore to the land of their adoption. He, as a native Canadian, had never known how dear to him was his Canadian home until travelling in foreign lands; and he had no hesitation in saying that here, in British America, was growing up one of the finest people on the face of the earth. (Applause.) The lecturer then went on to say that what was desirable for Canadians was the cultivation of a national sentiment, which should be taught by the parents to their children. He would say to the young ladies that a young man who was not patriotic would make but a poor husband. (Applause.) Numerous instances of Canadian patriotism were then cited—notably the Canadians who left their employment in Chicago to join the ranks of volunteers and fight for their native land, at the time of the Fenian raid in 1866. At the time of the last raid (May, 1870) there were 600 Canadians in Toledo, who formed themselves into a battalion, ready to start for Canada but their services were not required, the raid being quickly ended. The young gladies of a certain district in Ontario had shown their patriotism by sending to the young men in their neighborhood who did not join the volunteers at the time of the first raid, envelopes containing each a white feather—a rather suggestive emblem. (Applause.) An instance of patriotism which he thought unexcelled in the military annals of any country, was that of a man in the back country, who marched each night 8 miles to drill and back again. (Hear, hear.) The Fenian raids had cost Canada a large amount of money; but their effect had been worth ten times their cost, for they had created a military spirit in our people, and had made us a defensive military power. There were now 40,000 men in the ranks of the volunteers, and there were 100,000 others who had been drilled, and had learned to entertain a kindly feeling towards those who bore arms, and who were ready to take the field in an emergency. At considerable length, the lecturer deprecated the exaggerations which had been made of the severity of our climate, by which false representations, the character of Canada had been much injured abroad. It was also desirable that newspapers which contained articles depicting a gloomy future for the country should be kept at home, and not forwarded by the English mails. After a number of interesting hints respecting the mode of giving a true representation of Canada to the people of Great Britian and foreign countries, the lecturer proceeded to refer to the American war. Some people said that if the United States attacked us, we had better at once submit. Such a sentiment was unworthy of Canadians. It was not true; and even if true, should not be uttered amongst us. Experience had shown that nations animated by a true spirit of patriotism, could never be conquered—witness Switzerland and Scotland. The Southern States had, indeed, been conquered after a long and bloody struggle; but their *subjugation* was due to their having to begin *de novo*, the manufacture of war materials of all descriptions—in many cases having to rely upon capturing arms from their enemy to furnish their new levies with the necessary armament. Besides the sea was controlled by the North; the Mississippi ran through the heart of the Confederacy; and the armies of the North had a hundred lines of retreat open to them when defeated. Had the South been equal to the North on the sea, the battle of Bull's Run would have been the last of war. When McClellan was defeated in the seven days' battle, he fell back to the James River, under the guns of the fleet. Defeated on one element, he asserted his supremacy on the other. If he had not been able to do so, the result would probably have been as at Sedan. Whom, in Georgia, Johnston decoyed Sherman into the heart of the country and his communications were cut by a rapid movement of Hood, he, instead of having to turn and fight his way out, had only to march to the sea to secure a new base. Now our position was different from the South in these respects: Our population was about equal, but the British fleet gave us command of the sea; Great Britain would supply us with any amount of arms and ammunition; and, if we had 1,500 miles of frontier, so had the Yankees, and in addition the whole southern frontier. (Loud applause.) And they would have but one line of retreat, while we had our wilds behind us. In 1812, when our population was little over 100,000 and that of the States 10,000,000, our fathers defeated the Yankees, and compelled Hull to surrender Detroit. (Applause.) There was a national feeling in the breasts of Canadians, as was evidenced by the hoisting of the Union Jack at Fort Garry by Dr. Schultz and other Canadians, one of whom had rendered up his life for this and other acts of loyalty. The speaker, after showing our growing rank in the scale of nations, wound up by declaring his faith that Canada would yet become one of the greatest nations on the face of the earth. Loud and prolonged applause greeted the lecturer at the close.

F. MCANNANY, Esq., rose and proposed a vote of thanks to Lt. Col. Denison for his able, interesting and instructive lecture, saying that Englishmen, Irishmen and Scotchmen would always be found ready to take part with the natives in the defence of their common country.

Major BOWELL M. P., seconded the motion. He was an Englishman, and would not yield an iota, in his love of Canada to any one. His countrymen would always be ready to go forth to defend the little natives at home. (Applause.)

Rev. G. R SANDERSON briefly supported the resolution, which was carried amidst great applause.

Lieut. Col. DENISON, in returning thanks said he had desired to deliver this lecture in Belleville above all other places. He was the decendant of a U. E. Loyalist, and had long known that the Bay of Quinte had been settled by the U. E. Loyalists, and that a strong feeling of loyalty existed here. He then delivered a Yankee Militia officer's address to his "troops," happily imitating the voice and style of the character he assumed. A round of happy applause greeted this burlesque, and the meeting broke up with three cheers for the Queen and three for Lieut. Col. Dennison.

Town Improvement.

PRINGLE'S NEW SASH FACTORY.

As a site for manufactures of various kinds Belleville has long enjoyed the reputation of being second to none in Ontario, her natural and acquired advantages being such as are possessed by few, even of the great cities of the Dominion. Our manufacturers are, generally speaking, progressive men, who avail themselves of all the improvements in machinery which offer increased facilities for the prosecution of their business.

Animated by this commendable spirit of enterprise, Mr. A. N. Pringle has lately finished and gone into occupation of a handsome two-story building on the west side of the river, a short distance below the Grove Mills, the shop which he formerly occupied have been found too small for his rapidly increasing trade.

The new structure is of frame, two stories, and its dimensions are 46 x 76 feet, constructed in the most substantial manner and cost about $1,000. The machinery consists of a large planer built by McKechnie & Bertram, of Dundas, Ont., which planes plank, two feet wide, on both sides, tongues, grooves and beads all at the one operation; a moulding machine, which dresses three sides at once; built by Richardson, Merriam & Co., of Worcester, Mass.; one of C. B. Rogers & Co.'s (of Norwich, Conn.) mortising machines; sticker, blind slat tenoner, sash sticker, tenooning machine, circular saws, etc., giving first class facilities for manufacturing.

The motive power for the machinery is supplied by a steam engine of 30 horse power, built by Mr. Wallbridge, the dimensions of which are as follows: Length of stroke, 16 inches; inside diameter of cylinder, 12 inches. Cost about $1,100. To Mr. D. Mair, machinst, who turned out most of the work connected with the engine and placed it in working order, great credit is due. The boiler was built by Messrs. G. & J. Brown, and is a fair specimen of the excellent work turned out at their establishment. It contains 58 flues, and is warranted to bear a pressure of 150 pounds per inch. It is fitted with a patent steam gauge, &c.

Mr. Pringle may congratulate himself on being possessed of the best establishment in his line of business in this part of the country, and second to few in the Dominion, and the town in having such an establishment.

School Teachers' Examination.

G. H. BOULTER, M. D., Chairman.
T. S. AGAR, Secretary.

To the Editor of the Daily Intelligencer.

Separate Schools.

DEAR SIR,—You were in error in your issue last evening in stating that Mr. Dempsey was elected by acclamation for Baldwin Ward, and Mr. Prieur for Ketcheson Ward. Mr. Coady is opposing the former and with every chance of success, being about seven ahead at the close of the poll last night. I cannot say how it will end for the case is apparently a very lame one. Mr. Joseph Grainger was elected for Samson, and Mr. W. J. Northgraves for Ketcheson Ward. The richest joke of all is Mr. David Brennan nominating Mr. John Fox for Samson Ward, and in a few minutes afterwards voting against him! Verily this is consistency in "brother" David, but from a person like him, of his vacillating disposition, a Reformer to-day and a Tory to-morrow, everything by turns and nothing ever, no better could be expected. Did Meagher pull his nose this time? Pshaw!

QUIZ.

Belleville, Jan. 12th 1871.

—Measures are being taken by the Government to have the route to Fort Garry through Canadian territory ready for the transport of emigrants next season.

—An extra addition of the Gazette contains the divisions of the Dominion into census districts—90 in Ontario, 83 in Quebec, 19 in Nova Scotia and 14 in New Brunswick.

—It is reported that Major George Futvoye, Q. C. and Deputy Minister of Militia, is about being elevated to the Bench of Lower Canada in the place of the Hon. David Roy, who has resigned.

School Elections.

The proceedings in Ketchoson and Baldwin Wards to-day were merely formal, Mr. Tickell and Dr. Relyea having retired last night. In both of these Wards the polls were closed at 11 o'clock, no votes having been recorded.

In Coleman Ward the contest between Messrs. Falkiner and Yeomans was continued, both parties doing their utmost. The last tar starting with a majority of 4, increased it to 19 by 11 o'clock; but at noon, the difference was but 3, the numbers being then 112 for Falkiner and 115 for Yeomans. Between 12 and 1 o'clock, quite a change took place, the exertions of Mr. Falkiner's friends causing that gentleman to head the poll by 5 votes.

During the afternoon Mr. Falkiner continued to increase his lead, and at the close the vote stood:

Falkiner	134
Yeomans	122
Majority for Falkiner	12

SOCIAL.

THE Ladies Educational Aid Association will give a SOCIAL in the ALBERT COLLEGE CHAPEL in the Reception Room, on FRIDAY EVENING NEXT, 14th instant. Readings by Prof. Dawson and Prof. B. B. Carman, and recitation by Mr. A. Peterson, and Music. The public are cordially invited. Admission 12½ cents.
January 12, 1871. 2i

The Belleville Curling Club.

A GENERAL MEETING of the members of the above Club will be held at the CLUB ROOM on FRIDAY EVENING NEXT, at half-past Seven, sharp.

As matters of importance will be discussed, a full attendance is requested.

FRED. C. RIDLEY,
Secy. B. C. C.

Montreal, Nov. 28, 1870. 179

Latest by Telegraph.

BY ATLANTIC CABLE.

Midnight Despatches.

The Battle near Rougemont.

A Town Carried by Storm.

The French Signally Defeated.

De Chauzy Retreating on All Points.

BORDEAUX, Jan. 10.—The 'Moniteur' publishes the following from the army in the east:—

ROUGEMONT, (Department of Doubs) 9th Jan.—A battle was fought north of this place to-day, ending at seven in the evening with a victory for our arms. Night prevents us from ascertaining the full extent of our success. The general commanding bivouacks in the centre of the battle field and the two flanking positions were occupied by our troops. We carried Villiersexel, which was the key of the enemy's position, with shouts of long live France and the republic."

VERSAILLES, Jan. 10.—We have good news from the Eastern Departments. In an engagement on the 8th with the Garibaldians at Montbard in the department of Cote d'or, our troops were victorious. Non Werder advanced yesterday on Villiersexel and took the place by storm. The twentieth French corps was engaged and lost two staff officers, fourteen other officers, 600 men and two eagles. The French attempted to retake the position but failed.

VERSAILLES, Jan. 10.—The Army of De Chauzy is retreating at all points. The Germans are in pursuit and have already taken 11,000 prisoners.

Morning Despatches.

A New Atlantic Cable.

Political arrest in Belgium.

Napoleonic Intrigues.

Bread Riots in Paris.

An early Capitulation Expected.

Peronne Captured with 3,000 Prisoners.

Werder Defeats Bourbaki.

Progress of the Siege of Paris.

NEW YORK, Jan. 11.—The *Herald's* special dated London, 11th, says: A scheme for a direct cable from London and Liverpool to New York has been brought out by Messrs. Cundwick, Adanson & Company, of London, under the best auspices. The capital is to be $3,250,000, three-fourths of which has been subscribed here already. If one-fourth can be quickly taken up in America, the cable will be laid in July.

The *Herald's* special from Brussels, dated the 10th, says: Pinard, a former minister of the Empire, has been arrested for alleged political intrigues and sent to Lyons guarded.

Dr. Cronneau passed Brussels on a visit to Eugenie. He is said to be connected with a new movement for the restoration of the Regency.

Intelligence from Paris confirms the report of bread riots having occurred. A collision between the mob and the military has taken place.

Prussian shells on the 5th are said to have reached part of the city. An early capitulation is predicted.

BERLIN, Jan. 11.—The Queen has received the following despatch from the Royal Headquarters:—

VERSAILLES, Jan. 10.—Owing to a snow storm and heavy fog, the bombardment is slower to day. Peronne has capitulated with 3,000 prisoners.

Werder defeated Bourbaki on the 9th, south of Vesoul. He took 800 prisoners.

NEW YORK, Jan. 11.—The *Herald's* special from Versailles on the 8th says: The French works at Billancourt are reported to be destroyed. Fort Nogent has recommenced firing. In fort D'Issy 14 guns have been dismounted. Some shells have been thrown into the Paris and Lyons Railway Station, and it is rumored that the Hospital of the Invalides has been hit. None of the forts has yet been breached. Their capture involves an advance in the open field.

American Despatches.

Heavy Failure in Chicago.

Steamship Arrived.

San Domingo Resolutions Passed the Senate.

Dinner to Gen. Schenck.

Strike of Miners in Pennsylvania.

CHICAGO, Jan. 11.—Elijah K. Bruce, a Board of Trade Commissioner, has been placed in bankruptcy. His liabilities are $955,353, and his assets insignificant.

WASHINGTON, Jan. 12.—The San Domingo resolutions, having passed the Senate, are now operative. The President has already chosen commissioners, and they have signified their intention to accept. They are Benjamin F. Wade, Bishop Simpson and Ex-Congressman Wm. Dodge, of New York. They will probably sail on Monday next, and be absent thirty or forty days.

The farewell dinner given to General Schenck previous to his departure for England, was one of the liveliest and pleasantest entertainments known to Washington during the present season.

NEW YORK, Jan. 12.—The coal miners in Schuylkill County and the Lehigh and Wyoming Valleys struck on Tuesday. The strike throws about one hundred thousand men out of employment.

The steamship 'City of Washington' from Liverpool, has arrived.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4 P. M.

LONDON, Jan. 12.—Important news has just been received from Versailles. The German columns acting against Chanzy have driven them within one mile of the city of Lemans, after a series of engagements in which cannon, three mitrailleuses and two thousand prisoners were captured.

The loss of Gen. Von Werder's German army at the storming of Villiersexel was only two hundred killed and wounded.

A large German army is being formed in the Eastern Department of France, which will be under the special command of a distinguished officer, and include the corps of Generals Von Werder, Lastrow and others.

LONDON, Jan. 12.—An explosion occurred in the Resslaw colliery, near Sheffield, to-day, by which 26 persons were killed and 19 injured.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 197-m-Th.

The way "to minister to a mind diseased" is to take Peruvian Syrup, a protected solution of the *protoxide of iron*, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

COUGH CURED.—Chas. F. North, of London, Ontario, writes that he has been cured of a cough that gave him great pain, and he considered nearly gone with consumption. This wonderful medicine was Allen's Lung Balsam. Sold by every Druggist.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only be the lay whispers of discontent in the Dominion, and from that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

SPECIAL NOTICES.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches. I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing cough of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat from which I was a victim of public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-3m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, of Lancaster, Penna.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of the wee ones she will teach our Mary to say "A Blessing on Mrs. Winslow," for helping her sorrow and escape the grieving, sobbing and teething ages. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Godless, Paregoric, Opium, Laudanum and every such Narcotic, by which the babe is drugged into stupidity, and rendered dull and blotted for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, cause a physical saviour to the infant Race. 50 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

D&W-1m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devot-d her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do arise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. Verily Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the waste going on in the brain, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. ddw-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Attentions and Manufacturers, Box 147, Lindsay, Ont. 77;2w

CANADA
LIFE ASSURANCE COMPANY
ESTABLISHED 1847.

THE principal features of this Company are

RATES LOWER than any other Company.

PROFIT BONUSES LARGER than any other Company.

ABSOLUTE SECURITY, and

LIBERALITY in its dealings with its assured.

The Company has, in the part 23 years, paid $700,000 for death claims, and has never contested one.

A comparison of the Company's Profit Bonuses, and its Rates for Assurance, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the head office in Hamilton, Ont.

BANKERS — THE MERCHANTS' BANK OF CANADA.
THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri
Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, of James D. Davern, Robert Weller and Charles Davis, Defendants: and Thomas Piteathly and Thomas Kelso, Plaintiffs, vs. J. D. Davern, Defendant :—I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one P. P. Rubridge, D. P. L. S., which said said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871. at the hour of twelve o'clock, noon.

GEORGE TAYLOR, Sheriff.

STAR'S BALSAM OF WILD CHERRY
COLDS COUGHS CONSUMPTION LUNG DISEASES

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard, Garden, and in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TEXAS.—The circulation of the American Agriculturist (about 180,000) is so large that it can be furnished for the low price of $1 50 a year; or three copies for $3; ten copies for $10, twenty or more, $1 each; eight copies, 15 cents each.

☞ Try it a year. ORANGE JUDD & CO.
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Gazette*, have removed to Montreal and become proprietors of the *Gazette*, and have enlarged and otherwise improved it—it being now printed on new types from the foundry of C. E. Nichols & Co.

THE EDITORIAL DEPARTMENT

is under the charge of able and experienced writers, who have already attained a high reputation in the field of journalism. Editorials are formulated upon the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial and Financial newspaper reports as leadership in the great commercial centre of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unsurpassed by any paper in point of fulness and accuracy of information to those of any other paper published in that city. By employing the most first-rate talent in this important department the *Gazette* will be the recognized authority in the trade of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The Gazette is distinguished for

The ablest Editorials
The most valuable Commercial Reports
The fullest Telegraphic News
The best Local News.
The most reliable Legal Intelligence
The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events in the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain at $4 per annum, to be paid by mail at $5 a year, or $5 when paid strictly in advance, and will also be furnished on the City and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, the entire curative properties of the above several products of the vegetable kingdom. The Sarsaparillian and other drugs now employed is that ester into the composition of this wonderful blood purifier, Dr. Radway's Sarsaparillian Resolvent, and gathered with the greatest care in the primeval forests, from the native soil, under the personal supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.'s use, regardless of numerous substitutes or worthless roots so that may be mixed with the pure.

Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services of one hundred people Botanists in this branch alone represented as above mentioned, and we are assured that the wonderful curative properties of Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

must for the future over and over again, for none in the history of medicine was such a medicine discovered in combination with other powers, and makes sound strong, healthy, vigorous, and beautiful women, the weak and broken-down constitutions, as

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old prices of $1.50 per day will not be departed from. We, therefore, respectfully speak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may adorn rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for this work. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other periodical.

BEAUTIFUL STEEL PLATE-

Of these the Lady's Book issues one every month; not superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

FASHIONABLE PATTERNS.—We give frequently presentations sheet of new patterns, containing twenty, thirty, and sometimes fifty designs in embroidery.

GODEY'S MUSIC.—Is the only magazine in which music properly appears, expressly for it appears.

MODEL COSTUMES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DEARNESS LESSENED.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a BEAUTY department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, Parlor, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings which we introduce every month, and the publishers believe that long continued use of this medicine will cure

Liver Complaints, Jaundice, Biliousness, Nervous Affections, and Female Diseases, are conditions of the system which are invariably relieved by its purifying and invigorating effect. Minute directions for each case are found in pamphlets around the bottles, given gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield to one pill in six. also *Liver Complaints, Torpidity, Congestion or Inflammation* of the liver or stomach, and the various forms of Dyspepsia they often do, from the rankling poisons in the blood. This *RADWAY'S PILLS* are a great favorite with the ladies. They are mild and gentle in their effects, but powerful in working out the system all diseases named. Observe the symptoms of a disordered system, such as Loss of Appetite, Coated Tongue, Pain in the Side, Back, Bowels, Flatulency, Sour Stomach, Indigestion, Biliousness, Fever, Inflammation of the Bowels, Piles, or any derangement of the internal viscera. Warranted to effect a positive cure. Purely vegetable, containing no mercury, minerals, or deleterious drugs. Observe the following symptoms resulting from Diseases of the Digestive Organs: Constipation, Inward Piles, Fullness of the Blood in the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust of Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Chest, Limbs, and Sudden Flushes of Heat, Burning in the Flesh. A few doses of Radway's Pills will free the system from all the above named disorders.

Terms for 1871.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this extract of Sarsaparilla has derived from its cures, BECAUSE IT IS THE BEST, is marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it, producing a perfection of health. Ulcerous disorders, which were aggravated by the slightest exposure, have been made to heal under its influence, and the most destructive enemies of our race. Others, this unseen and subtle agent of the organism undermines the health, and invites the attack of enfeebling or fatal diseases, which find victims only because the constitution is enfeebled from the want of its proper nourishment. Others, again, are troubled with repulsive eruptions, which mar the beauty of the face, or render existence a burden by their irritation, or some other of its hideous forms, either suppurative or moment the visible. In the latter, tubercles may be developed in the lungs, or ulcers begin on heart, or tumors formed in the liver, or it shows itself in the form of boils, or fetid ulcers, or foul sores on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Many are afflicted with the following complaints generally find immediate relief, and, of such, cure, by the use of this *SARSAPARILLA*: *Tetter, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scurvy, Blotches, Blisters, Sore Eyes, Sore Ears*, and other eruptions or visible forms of scrofulous disease. Also, in the more concealed forms as *Dyspepsia, Dropsy, Heart Disease, Pain, Epilepsy, Neuralgia, Liver Complaint*, and internal affections of the stomach, liar and nervous systems.

Female Complaints and *Mercurial Diseases* are cured by it, though a long time is required for the latter, as the system must be entirely purified before but long continued use of this medicine will cure *Uterine Diseases, Leucorrhœa, Sterility, Uterine Obstructions, and Female Diseases*, are constantly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in pamphlets around the bottles, given gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield to one pill in six. also *Liver Complaints, Torpidity, Congestion or Inflammation* of the liver or stomach, and the various forms of Dyspepsia they often do, from the rankling poisons in the blood. This *RADWAY'S PILLS* are a great favorite with the ladies. They are mild and gentle in their effects, but powerful in working out the system all diseases named. Observe the symptoms of a disordered system, such as Loss of Appetite, Coated Tongue, Pain in the Side, Back, Bowels, Flatulency, Sour Stomach, Indigestion, Biliousness, Fever, Inflammation of the Bowels, Piles, or any derangement of the internal viscera. Warranted to effect a positive cure. Purely vegetable, containing no mercury, minerals, or deleterious drugs. Observe the following symptoms resulting from Diseases of the Digestive Organs: Constipation, Inward Piles, Fullness of the Blood in the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust of Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Chest, Limbs, and Sudden Flushes of Heat, Burning in the Flesh. A few doses of Radway's Pills will free the system from all the above named disorders.

Ayer's Cherry Pectoral,

FOR Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind as this wonderful remedy for pulmonary complaints. Through a long series of years, in all climates, it has risen higher and higher in its estimation, as it has been found to possess more than curative power over the most dangerous diseases of the throat and lungs. Nor is this unbounded confidence misplaced. While adapted to relieve the most formidable affections of the chest, it is at the same time the most effectual remedy that can be employed against consumption, and the dangerous affections of the throat and lungs, with which it provides against sudden attacks of *Croup*, it should be kept on hand in every family, as children are liable to are sometimes subject to colds and coughs, all of which should be promptly cured before they settle.

Although settled *Consumption* is thought incurable, still great numbers of cases in which the disease seemed settled, have been completely cured, and the patient restored to perfect health, by *Ayer's Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else can relieve the distressing symptoms, this powerful remedy is found to cure them.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in the early stages of the disease.

So generally are its virtues known that we need not publish the certificates of them. We do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does not cure, and does not pretend to cure, by counteracting neither Arsenic, Quinine, Bismuth nor Zinc, nor any other mineral nor poisonous substance whatever, it is in noxious injures any patient. The most inexperienced can use it with safety and the most tricks, are literally beyond accounts, and we believe we are doing no more than justice to the afflicted, in our pride is gratified by the acknowledgements we have received from all parts of the country of cures of cases, and where other remedies had wholly failed. Containing neither principle, it is adapted to all travelling through miasmatic localities, will be protected by taking the *Ague Cure* every morning.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Derangements and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, even in those other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all around the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the vocal and best instrumental music, both new and sub-stantial. PETERS' Kinds, Bishop, Thomas, Danks, Root, Berthold, Peters, Keller, Wyman, etc. Every number contains at least Twelve Pieces of vocal and Instrumental Music on fine white paper and from full size music plates, every piece of which, if bought in sheet form, would be from the same plates, and sold, at from 30 to 60 cents each, and all we ask for our volume of 192 pages is 75 cents a copy or $3 year, $1.50 for six months; and we will send, free of postage, any piece of music or any part of choice new music, by the best authors.

We do not PETERS' MUSICAL expect Monthly Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear them, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

All orders by mail promptly attended to.

$60 for $3

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly Journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, &c., with the hundred acts, enters on TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 original pages profusely embellished with fine engravings of Machinery, Inventions, Implements for Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings, &c.

A journal of so much intrinsic value, at the low price of $3 a year, ought to be in this literary age, in *A MILLION READERS.*

Whoever thinks the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at the Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Patent Claims of the Scientific American are the most Extensive Patent solicitors in the world, and have acquired facilities for obtaining a complete knowledge of the progress of Invention and Discovery throughout the world, and with a view to mark the quarter of a century, during which this journal has lead in the first place in Mechanical and Scientific Literature, the Publishers will issue on January 1st its large and splendid Steel Engraving of the Patent Office of Philadelphia, entitled :

MEN OF PROGRESS—AMERICAN INVENTORS.

the plate coming nearly $4,000 to engrave and contains fifteen likenesses of Patentees, with Washington in the centre. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year and receive their with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ $1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 1st, 1871, to whomever they want to compete for these prizes, should send at once for prospectus and blanks for clubs.

Terms for Scientific American, one year three dollars; six months one dollar and fifty cents; three months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free; address the Publishers MUNN & CO., 37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period procure a bottle of Radway's Ready Relief, and be prudent, and all whose menses have ceased that feel sick or weak, or have any symptoms of approaching ill health, take Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a state of health as will long secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

Even the earliest stage of irregularity, from Retention or Prevention, through all the troubles and dangers of the Womb, Ulceration of the Womb, Bloody Discharges, Leucorrhœa, Chlorosis, Hemorrhages, Ophthalmia, Cancerous, Cancerous, Humors, Tumors, Ulcers, Scirrhus of the Womb, Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of sickness peculiar to the female sex, are cured speedily by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, common sense words to those who suffer from indigestion, as its usual accompaniments, Habitual Costiveness. The means of obtaining relief, of establishing them on a sure, safe, and lasting basis. Dr. Radway's Sugar Coated Pills, the only cathartic and alterative in connection with Radway's Ready Relief, are found to give the bowels without a pain, and restore us to the stomach and every other vigor which makes life a blessing. Use no cathartic pill or purgative mixture, or drink nauseous, injurious mineral waters, or reduces you to a mere general weakness. On the contrary, it imbibes and renews the natural health of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or stomach disorders, Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS,

BY

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called "peristaltic" movement, purge from the alimentary canal the feculent matter, and for this purpose or the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has combined one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a THOROUGH, SPEEDY, EFFECTUAL, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of erysipelas Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Containing in solution many precious elements, by the aid of *Sarsaparillian*, (and the virtues of which is admirably adapted in 800 cases out of 1000) and Aloes, Stamboul extracted in *RADWAY'S PURGATIVE PILLS*, they are the purest purgative pills in the world. Unlike all other pills, they contain no mercury, no calomel, no colocynth, no gamboge, no podophyllin, no blue mass, no *Calomel or Mercury.*

RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be got from the use of any of the different prescriptions of the medical practitioner.—As a proof of this: You are asked to try a dose of Radway's Pills, another prescription Blue Pills or Calomel; next morning, take another pill of Radway's and one of the other kinds of the blue pill. This prostrates you; and a bottle of pills will cure a person ten times where ONE DOSE OF RADWAY'S PILLS *will do all the work that is necessary*, and more perfectly and better, without exposing any risk from mercurializing or salivating the system.

Why is Purgative Necessary ;

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are ejected by the absorbents and lacteals as refuse, the other is that of nutrition. It becomes necessary for the life of the body that the decayed and decomposentious elements be dismissed and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suppended, then it is essential to exert to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the annals of MATERIA MEDICA or CHEMISTRY that secure such important results as thoroughly, HAPPILY, and without COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pain, Aches and Sickness, that Radway's Ready Relief cures, and experience proves it to be the BEST and QUICKEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Chills, or preparation of Quinine, Arsenic, Mercury, or any forms of Mercury, or, in fact, any remedy that will cure this disease so positively as

Radway's Ready Relief.

No, not one. Thousands, from every clime with Quinine, Arsenic, Mercury, bottled in the form of pills, which are Poisons, Fevers, Agues, Liver Complaints, Enlarged liver, fall, spleen disorders, Jaundice, Dyspepsia, Sick Headache, and hundreds of other symptoms of distress. These agents never cure, but aggravate the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better at a cure for all Fevers, Chills, Fever and Ague, Bilious Fever, Scarlet Fever, Typhoid, Typhus, Yellow Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., than the ignorant Mississippi Doctors, Quacks, &c., can be paid for curing in a month. Radway's Ready Relief is good for hundreds of dollars' worth of any Quinine, Arsenic, Mercury, or Poison.

One 25 cent bottle of Radway's Ready Relief, diluted in one quart of water, is as powerful and as equal in quantity, and superior in its effects, to a full bottle of the Ague Mixtures, Fever and Ague Killers, Embrocations, Panacea's, Pain Killers, Pain Destroyers, Pain Annihilators, &c., &c., that Radway's Ready Relief will not cure.

One bottle of Radway's Ready Relief, 25 cents, as a Pain Remedy, and for Pains in the Back, will relieve, cure, prevent, and protect from Fever and Ague, and can be carried in the vest pocket. One bottle would cure a dozen cases. Two bottles would cure a hundred. Enough to purchase prescriptions, advice, and medicine for a dozen sickness, or accidental cases in place.

Fearful Attacks Where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysteric
Croup, Dysphthenia,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts where pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHŒA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will relieve in

Asiatic Cholera, Cholera Morbus,
Diarrhœa, Dysentery,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

FEVER AND AGUE CURED FOR FIFTY CENTS.

BETTER THAN BITTERS OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

Sold by Druggists and General Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Will this individual, whose ideas of Means and Terms are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal,

THE Proprietors take pleasure in informing their friends, and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find it one of the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan), and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their hotel is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most widely circulated and interesting journals ever published. Every number is beautifully printed on fine paper, and illustrated with many original engravings, representing
New Inventions of Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.
Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find
THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions may save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable information The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is published Weekly.

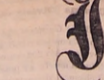

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book-pages. Specimen copies sent free.

TERMS—$3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $1.20 each, $12, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents; Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
C. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is required to conduct the funeral in the best notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep au courant of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, full and reliable. Its music authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the families and occasional visitation of the household; in the matter of floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most entertaining of any magazine, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 25 by 35 inches, entitled "The Pilgrim on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure half so much genuine so much interest and beauty.

Any it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, published free on application.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Toronto, Ont., Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that the progress of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who will personally acknowledged to be the ablest agricultural writer in the Dominion and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Sugland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding to the variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarrod, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairymen, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES TO FARMERS.
Club of 6 Subscribers, $ 5.00
Club of 10 " - - - 8.00
Club of 20 " - - - 15.00
And all over 20 at 75c per copy, free of postage.

GABRIEL'S
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.
GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Sent by Gabriel's Ochreous Dental Preparations.
GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop hundreds. Price 2s.
GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whereon the teeth without leaving behind them any acrid or pungent matter, gives the delicacy to the enamel. Price 1s. 6d.
GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty's servants, and, in addition, has a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and preserves the enamel. Price 1s. 6d.
GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; for the unrivalled advantages of perfuming the mouth and wonderfully strengthening the gums, and is most invaluable to smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parcel or complete sets, on Messrs. Gabriel's system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, which do not prove satisfactory, at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

(*From Blackwood for December.*)

CONTINUED.

The first overt act of resistance was in October, 1869, when Riel, followed by a few half-breeds, warned a surveying party to desist from their work, and insisted on their camping out of the district where they were employed. Meetings were then called in the various parishes where the French predominated, at which Riel and others made inflammatory speeches. The people were thoroughly aroused; and even the priests, who generally kept as much as possible in the background, preached resistance to the Canadian Government from their altars.

A Mr. William McDougall had been selected by the Dominion Ministry to be the Lieutenant-Governor of the newly-acquired province. It was a most injudicious appointment, as every one who knew that gentleman was perfectly aware at the time. He had been for many years back in political life, having been previously known as an able newspaper writer. Indeed, like a large number of men who have held high positions both in Canada and the United States, he may be said to have attained power through his connection with the press. He was celebrated for being an essentially cold-blooded man, entirely wanting in that cordiality which is an indispensible quality with those who have to lead or even act with others in the direction of affairs. He had some political supporters, but he never had a friend. There was nothing genial about him, and his manner was said at times to be so unsympathetic that many left his presence accusing him of rudeness. We shall not attempt to enter upon Canadian politics—that most uninteresting and least edifying of all topics—in order to trace the progress of events which led up to this strange appointment; suffice it to say that the Ministry which then and still rules in Ottawa was and is a coalition one, the Conservative element being, however, the strongest. The intended Lieutenant-Governor was in it Minister of Public Works, having been brought over from the Opposition upon certain terms when the coalition was formed. The Tory element being in the ascendant, and many changes having recently occurred in the Ministry, vacant places in it were filled up by the adherents of that party, thereby stroying the proportion or balance between the several parties which it has been alleged by Mr. McDougall's clique had been agreed upon when the Ministry was first formed. This gave rise to dissensions, which the far sighted policy adopted regarding the Intercolonial Railway afforded many opportunities for widening into such a breach, that it became at last a necessity that Mr. McDougall should cease to be a Minister. To have dismissed him would have been fatal, so it was necessary to provide for him. The annexation of Rupert's Land just at that time was most opportune, for sending him there as Lieutenant-Governor was an easy solution of the difficulty. What mattered it whether he was fitted for the post or not, as long as he was got rid of without any scandal! Who cared whether he might or might not be agreeable to the people he was to rule over, and what could it matter whether the wretched half-breed population were pleased or not!

Party politics in Canada must first be attended to; they were of all—absorbing importance, and the North-West and its new Lieutenant-Governor must settle their affairs between themselves.

No attempt was made to conciliate their newly-acquired subjects. The Governor appointed by the Hudson Bay Company, who was to exercise authority until Mr. McDougall reached Fort Garry, was never even communicated with. One would have thought that common civility, if not political tact, would have caused them to have informed him in writing of Mr. McDougall's appointment, and of the date at which he might except him; his co-operation and assistance in establishing the new order of things might with advantage have been solicited at the same time. No explanations were made as to what was to be the policy of Canada in its dealings with Rupert's Land. In fact, the people of that country were so thoroughly ignored, they were easily led to believe that their material interests would be so also, in favor of theemigrants that rumour and the Canadian surveyors might shortly be expected to arrive at Red River.

A little judicious management at first would have secured an amicable settlement, and have frustrated the clerical party, which was desirous of fomenting resistance. A clear statement of what they intended doing, and a declaration stating that they meant to respect the rights of property; that all those in *bona fide* occupation of land should retain it without rent, and receive a regular legal title to it; that all religious would be respected, and every one allowed to worship as he liked—this would most certainly have cut the ground from under the feet of all the political agitators there.

During a crisis such as that which occurred in the settlement in 1869, when rebellion hangs in the balance, every moment is of such importance that, when once the scale has gone down on the side of revolution, days or months afterwards cannot compensate for the loss.

Men, who to-day shudder at the idea of resistance to the laws, or at the word disloyalty, will to-morrow take office under a

revolutionary government, and exercise their functions with rapidity when once the first overt act of rebellion has been committed, and they have accustomed their minds to the fact of its existence. When we see around us the machinery of a government at work without any opposition, we are prone to accept its decrees unhesitatingly, not so much from the tendency of mankind to follow with the herd, as from that love of order, and that respect for those whom we see exercising government functions, which is inherent in us.

Mr. McDougall was told to go to Fort Garry, and that, shortly after his arrival, the Queen's proclamation transferring the territory to the Dominion would be published. He travelled through the United States to Pembina, which is a wretched little village on the frontier dividing the British and American territories, but situated within the latter. He there learnt that a number of French half-breeds had announced their intention of preventing him from entering their country, and that a party of them had erected a barricade on the road leading from Pembina to Fort Garry, which they intended to defend by force of arms.

It is unnecessary to describe the little rebellion any further, or to dilate upon the cruelties, the robberies, and the imprisonments which were inflicted upon subjects of her Majesty by this wretched man Louis Riel, aided and abetted by the French priesthood, of which Pere Richot, and Pere Lestane were the most prominent members. Is not a description of all these violent deeds written in numerous Blue books?

Louis Riel had, with the assistance of the priestly party, declared himself "President of the Republic of the North-West," and had nominated a Ministry from among many Canadians whom he kept ironed in his prison, he selected as his victim a man named Scott, on account of his being the most objectionable to him personally, and because he had been the most loud-spoken in his expressions of loyalty to the Queen, and in denouncing Riel and his gang as rebels. Scott could not speak French, but he was arraigned before a mock court-martial composed of some half-breeds, having a man named Lepine as President, the French language only being used. A frivolous charge of breach of parole, (which was not true) was alleged against him, and he was condemned to be shot. The execution was carried out within a few hours by some intoxicated half-breeds, commanded by a United States citizen who had been in the Northern army. This murder is said to have been carried out in a cruel and atrocious manner. Those who perpetrated it by Riel's orders were at the time addressed by a French priest on the ground where it was committed, and told they were about to perform a righteous act.

Mr. Scott's murder caused a cry of execration to resound throughout the English districts of Canada. The press, which everywhere in the Province of Ontario had all through these affairs called for active measures, now preached up a crusade, and with such effect that it is almost beyond doubt that had the priestly party in Canada succeeded, by their mouthpieces, Messrs Cartier, Langevin, and Co., in preventing an armed expedition being sent to the Red River, there would have arisen in Ontario an organization for sending up an armed body of emigrants, sworn to avenge the foul murder which had been perpetrated. Mr. Scott was an Orangeman, a volunteer, and an Upper Canadian, and he had been murdered by those whom the people of Ontario looked down upon as the inferior race of French Canadians, having been, it was believed, instigated thereto by their priesthood.

The event was pregnant with every element capable of calling forth the most violent feeling. The national antipathy between the English and French races, stronger in Canada than it has ever been at home, and the intense hatred which Orangemen, Low Churchmen, Presbyterians, and sectarians generally, entertain for Popery were acted upon. Had 10,000 soldiers been required, they might have been enlisted with ease in Ontario. On the other hand, amongst the French Canadians popular sympathy was entirely with Riel, so much so that when subsequently it was determined to despatch two battalions of militia to put down the rebellion, and to raise them in the two old provinces of Canada, one in each, it was found impossible to obtain more than 80 French Canadian recruits. The priesthood throughout the country had preached against the expedition, warning their flocks not to take part in an undertaking planned to injure their compatriots in the North-West, who spoke their language, were descended from the same ancestors, and who belonged to their faith. Over and over again they were told from the altar that the Protestants were anxious to send forth the expedition for the purpose of overturning the Catholic Church in that territory. Riel was painted in the most glowing colors as a patriot and a hero, struggling and prepared to fight for the rights of his race and the maintenance of the true faith.

With such antagonistic feelings abroad in the country, the Ministry left themselves in a most difficult position. All were agreed that the despatch of an armed force to the Red River was a political necessity if they wished to preserve their newly bargained-for territory; but a special vote of money would be required for that purpose, and the French-speaking members of Parliament had announced their intention of opposing any such appropriation, if coercive measures were to be resorted to. It would have been next to impossible to have carried the measure in the face of their opposition, so it became necessary to soothe their alarm by fair promises; no coercion was to be attempted and the troops, when in Manitoba, were only to be used for the protection of property and the maintenance of law and order: in fact they were going there more in the capacity of police than of soldiers.

Mr. Riel had previously been invited to send delegates to Ottawa to explain to the Government what the rebel demands really were. Two of the three he sent were obnoxious to the loyal Canadians. One, Pere Richot, a French Canadian priest, had throughout the disturbances taken a most active part on the rebel side, and had been among the first to preach resistance. He was known to be a most intimate friend of Riel's and was generally believed to be one of the chief pillars of the rebellion. The other was a young man of drunken habits and of no education. He was a shopboy by trade, and was what was known in America of an Irish Yankee, a race that is despised in the United States as the lowest of the low. Having nothing to lose and everything to gain, he had gladly joined the rebel movement.

As soon as it was known in Ontario that these men were on their way to Ottawa by invitation of the Ministry, the whole country was indignant. "What!" it was said "treat directly with two men who are alleged to have taken part in Scott's murder?" No violent was this feeling, it was considered necessary to send a police magistrate to meet them in the States for the purpose of bringing them to Ottawa secretly, by a round-about way, so as to avoid passing through any of the large cities. When once they had reached Ottawa they would be safe from popular violence, as the French element is strong there. When it was announced that these men had arrived, indignation meetings were assembled all over the western province, at which resolutions were made deprecating in the strongest language their reception by the Governor-General. The brother of the murdered Scott had them arrested on a charge of being privy to the crime. They attempted to assume to themselves the importance and position of ambassadors sent by one sovereign state to another, and pleaded their immunity from imprisonment on those grounds. The French party was entirely with them, and regarded the treatment they had met with as an outrage. This circumstance complicated matters greatly, and was most embarrassing for the Ministry; they could not override the law, and for some days it was doubtful whether a "true bill" might not be found against them. Fortunately for all parties, the case fell through from want of evidence.

These proceedings, however, added fuel to the flames of popular excitement, and served to embitter the feeling between the French and English parties. After long conferences between the delegates and the Ministers, a Bill was framed for the establishment of a government at Fort Garry, the terms of which were so favourable to the rebels that the French-speaking members withdrew their threatened opposition. 1,400,000 acres were to be reserved for distribution amongst the half-breeds, ostensibly "to extinguish the Indian claims to land," but in reality for the purpose of enriching the Roman Church.

As previously mentioned, the half-breeds in the Red River settlement were already possessed of considerable farms, a very small part of which only they cultivated, if such a term may be applied to the trifling labour they bestow upon their land. Still, although they already owned more land than they knew what to do with, it was considered necessary to appropriate this vast acreage for their exclusive use, as by doing so the priests were satisfied, and when they were contented the whole French party was so also. All opposition having thus been removed, the money required for the Expedition was voted in the House when the Manitoba Bill was introduced,

TO BE CONTINUED.

News Condensed.

—A United Service Club is being formed in Ottawa.

—Sir John Rose is in New York, and will be in Ottawa in a few days.

—A fire at Kincardine on the 12th, destroyed the post office and a large new frame house.

—The residence of John Holmes, Esq., M.P., was destroyed by fire lately.

—Greeley says the horse de combat is the best for carriage purposes, but too delicate for farm uses.

—Mr. E. H. Taschereau, of Quebec, has been appointed a Judge of the Superior Court of the District of Saguenay.

—The Quebecers are suffering from a great water famine, brought on by the bursting, during the excessive cold, of the main pipe supplying the city water works. The weather is now milder, and the work of repair is progressing. Water is selling at $1 a barrel.

The Conference.

RUSSIA DESIROUS OF A POSTPONEMENT—THE POSITION OF TURKEY.

LONDON, Jan. 12.—A despatch from Berlin says that Russia, seeing the antagonism on the part of Austria to the wishes of the Czar on the question of the Euxine, is endeavoring to effect a postponement of the London Conference. The same correspondent mentions a report that Turkey is willing to dispense with action by the powers on the subject.

—An eccentric, though very excellent clergyman of New England, gave notice at the close of the services one Sunday, that he expected to go on a mission to the heathen during the ensuing week. Alarmed and sorrow stricken at the prospect of losing their beloved pastor, the members of the church gathered around him, and one of the deacons in great agitation exclaimed, "What *shall* we do?" "Oh, brother C——," with great apparent ease, *"I don't expect to go out of town."*

A Methodist clergyman is reported to have replied to the question, "What is the most striking thing you saw in your recent trip on the Pacific Railroad?" "The Baptists organizing churches, building meeting houses, starting Sunday schools everywhere in all the towns; that was the most striking thing I saw." To this, *Zion's Herald* responds: "If the Baptists get ahead, they must remember that water power is first used, then steam. The Methodistic steam power will be after them, and, both together, we hope, renew those desperate frontier towns into righteousness, peace and joy in the Holy Ghost."

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:—

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:40 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:35 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a.m.	11:10 a.m.

Daily Intelligencer.

BELLEVILLE, FRIDAY, JANY. 13.

☞ SEE FOURTH PAGE.

CURLING CLUB.—A meeting of the Curling Club, at the Club Room, is called for to-night at 7½ o'clock. The Secretary requests a full attendance.

SEPARATE SCHOOLS.—The polls for these elections closed last night. Mr. M. O'Dempsey is elected for Baldwin Ward, and Mr. Michael Mahon for Coleman Ward.

SOCIAL.—A social in aid of the Ladies Educational Aid Association will be given in the the Chapel of Albert College this evening. The programme consists of readings, recitations and music. As the nights are pleasant and the admission cheap, there ought to be a large attendance.

BRITISH COLUMBIA.—This Province, says a telegram from Ottawa on the 12th inst., will apply at once for admission into the union with the Dominion government, and the Hon. S. S. Tilley, C. B., will be, if popular opinion and report speak truly the first Viceroy.

SIR A. T. GALT.—The *Leader's* Ottawa correspondent says:—"The rumors respecting the cause of the approaching visit of Sir A. T. Galt to this city are rife to his accession to the Cabinet. Those rumors are totally unfounded and until the learned gentleman abandons his independence principles such a consummation cannot, nor will be arrived at."

A PARODY.—A correspondent furnishes us with the following parody of Rev. Mr. Burton's beautiful and pathetic selection, read at Ontario Hall last night:—

Go, smell what I have smelt—
Ontario Hall perfume,
Pervading all the crowded room,
No care for noses felt;
The fragrant gas from every jet
Escaping fast, and leaking yet.

The hit will be appreciated by those who attended the Conversazione.

ST. GEORGE'S SOCIETY.—The regular monthly meeting of the St. George's Society was held in the Marble Hall, on the 12th inst., when it was decided to make preparations for the annual Ball in aid at the charitable fund of the Society at an early date. After the business was closed, a highly interesting and instructive paper on the electric telegraph was read by Capt. Nunn. These meetings are becoming both interesting and instructive.

ANOTHER YANKEE INSURANCE COMPANY FAILURE.—A telegram from Montreal says:—"The failure of the Home Insurance Company of New Haven will be seriously felt in this Province, particularly among the farmers of the Eastern Townships, where a good deal of business had been transacted." The *Leader's* Ottawa correspondent of the 13th inst., says:—"A good deal of uneasiness is felt in the city by policy holders in the Home Insurance Company of New Haven, Conn., as the Company has suspended operations. Canadians ought to patronize companies established in their own country, where they can be assured of their position and not risk their savings with parties at a distance."

Ontario Legislature.

TORONTO, Jan. 12th, 1871.

The debate was resumed in the House last evening upon Mr. Blake's resolutions respecting bribery at elections. An amendment was offered by Attorney-General Macdonald affirming the adequacy of the existing election law which was carried on a division by a majority of eleven. Mr. Blake later tried his strength upon a motion for the second reading of his bill respecting the Independence of the Legislature, and was again defeated. Attorney-General Macdonald moved the six months' hoist, and the motion was carried on a division of 41 against 33.

The reason of the strange disappearance of Samuel Huston, in the early part of his life, when he left a lovely bride and the Governorship of Tennessee, and exiled himself among the Indians for many years, has lately been revealed. He discovered, within a few hours after his marriage, that his wife did not love him, but had been urged into the match by an ambitious family, while loving another man. He at once retired from the house, and, by his subsequent exile, gave the lady a right to the divorce which she obtained.

Census Divisions.

An extra official *Gazette* of the 12th inst., contains a proclamation dividing each of the four Provinces into 206 census districts, corresponding as nearly as possible, with the several electoral districts under "The British North American Act, 1867."

The County of Hastings is divided in accordance with the electoral districts as follows:

West Hastings being the electoral district of the West Riding of Hastings.

East Hastings being the electoral district of the East Riding of Hastings.

North Hastings being so much of the electoral district of the North Riding of Hastings as comprises the Township of Rawdon, the village of Stirling, and the Townships of Huntingdon, Marmora, Lake, Madoc, Elzevir, Grimsthorpe, Tudor, Wollaston, Limerick, Cashel, Mayo, Carlow, Faraday, Dungannon, Herschel, Monteagle, McClure, Wicklow and Bangor.

This, it will be seen, leaves the Townships in North Hastings, lying to the North of McClure, Wicklow and Bangor, to be placed in another census district. These Townships we find are attached to the South Nipissing District, which comprises the territory bounded to the southward by the census districts of North Peterboro, North Hastings and South Renfrew, to the eastward by the census district of North Renfrew; to the Northward by the census district of North Nipissing, and to the Westward by the line surveyed for the continuation of the Bobcaygeon Road, and by the census district of North Peterboro.

In order, therefore, to arrive at the exact population, etc., of North Hastings, all the facts connected with the Townships of Sabine, Lyell, Jones, Robinson, etc., will have to be added after the census shall have been taken.

The division at this point, however, is a judicious one, as the Townships to which we have referred are almost exclusively in the lumbering districts, with few, if any, settlers in them.

The County of Prince Edward comprises one census district.

The census commissioners are not yet gazetted.

It is said that the taking of the census will commence on the 3rd April next.

Synod of Ontario.

As many of our readers are interested in the proceedings of the special meeting of the Church of England Synod of Ontario, held in Kingston on Thursday, January 12th, for the purpose of electing a Coadjutor Bishop to reside in Kingston, in contemplation of the removal of Bishop Lewis to Ottawa. We copy the following from the Kingston *News*:—

"Before the organization Synod services were held at nine o'clock in St. George's Cathedral. The attendance of clergymen and lay delegates in attendance but not many of the general public. After the preliminary proceedings, and an address by the Bishop, the question of appointing a Coadjutor was brought up on a resolution and warmly discussed on both sides. The Synod adjourned at twelve o'clock and met again at three. It was thought at the morning session, from the opposition that was manifested, that no Coadjutor would be appointed. When the Synod met at three the discussion was resumed, and there were many spectators in attendance.

"An amendment was moved to the effect that it was desirable to appoint a Coadjutor Bishop with a view to a division of the diocese. This was voted down by 25 to 36 clergy, and 10 to 20 of the laity.

"The original resolution was attempted to be withdrawn by Mr. W. B. Simpson, the mover; and after a little confusion a motion to adjourn *sine die* was put and carried.

"After the failure of the proposal to elect a Coadjutor, Bishop Lewis expressed his regret at the resolution not having been carried, because the division of the diocese (to which he expressed himself favourable), was now more remote than before.

"The Synod adjourned at half-past four."

Canadian Dairymen's Association.

The fourth annual meeting of the Canadian Dairymen's Association, will be held in the Town Hall, Ingersoll, on Wednesday and Thursday, February 1st and 2nd.

Arrangements are being made with experienced scientific men to prepare and deliver addresses on some of the subjects named below:—

The Rev. W. F. Clarke, Editor of the Ontario *Farmer*, will deliver the annual address. Addresses will also be delivered by Professor Buckland, of the Bureau of Agriculture, on Dairy Husbandry as effecting Canadian Agriculture, and by Prof. Smith, Veterinary Surgeon, Toronto, on Diseases of Cows, Hoof Diseases, &c., he having devoted a great deal of attention to this subject during the past season. The Hon. Geo. Brown is also expected to be present.

Among other subjects, the following will be discussed:—

1st.—Diseases of Cows, Hoof Disease, Abortion, &c.

2nd.—Causes of tainted milk and the remedy.

3rd.—Best method of curing cheese, and the proper system of ventilating curing houses.

4th.—Proper construction of Cheese Factories, as bearing upon the quality of the product; as, also, with reference to convenience and durability.

5th.—Should not every Dairyman practice selling his cows, in connection with pasturage, and what crop or crops are best for the purpose?

6th.—To what extent has the system of Grinding Curds, and Making Cheese once a day been practiced the past year? and the results.

7th.—The experience of the past year.—Have Floating Curds prevailed? To what extent? and the remedy.

Members of the Association are requested to prepare papers to be read on subjects that may have come under their personal observation, and by individual preparation, to render the meeting interesting and instructive.

The circular calling the meeting says that "owing to the impossibility of securing the necessary statistical information, the Executive thought it advisable not to print the report until after the approaching Convention, when the proceedings of 1870 and 1871 will be embodied in one report, and sent to the members of each year respectively."

This meeting promises to be a highly interesting one, and we trust every Cheese Factory in the County will send a representative or two to Ingersoll. The remaining away from these meetings is a great loss to those engaged in the manufacture of cheese; and as Hastings now successfully competes with the West, let her be well represented at the coming meeting of the Dairymen's Association.

Union Conversazione.

A very pleasing entertainment was that furnished last night in Ontario Hall, under the joint auspices of the Workingmen's Temperance Association and the Good Templars. The Hall was filled as it has seldom been before, and the gallery was also packed tightly. No doubt much of this was due to the low rate of admission: still, most of those who attended were friends of the temperance cause, which is daily gaining ground here.

Dr. Holden, who occupied the chair, delivered a neat inaugural speech, the statistics in which were very interesting. Next came Armstrong's brass band of four pieces, who rendered their music in capital style, as might be expected from the known ability of the performers. Rev. J. C. Smith followed with an entertaining address, in which the follies of fashion were handled severely. The gem of the musical performances was a trio—flute, harmonium and guitar—by Messrs. Deans, Wolever and Vannorman, in which the guitar and harmonium formed a charming accompaniment to the brilliant flute playing of Mr. Deans. A loud *encore* was elicited. Rev. John Burton gave a couple of excellent recitations, and the first part of the programme was brought to a close by Prof. Armstrong & Co., who received an *encore*.

The second part was begun, after a few minutes intermission, by another trio from Messrs. Deans, Van Norman and Wolever. This was not by any means so pleasing as their first effort, the harmonium losing the key and creating a discord. An *encore* was not responded to. Mr. John J. B. Flint gave a reading. Mr. Wilton sang a comic song in fair style, though exaggeration was in this instance carried too far. A little toning down would have been more effective, and provoked laughter not at the performer, but at the subject of the song. Prof. Dawson gave an Irish reading, but was too hurried in his delivery to be distinctly heard; otherwise his elocution was satisfactory. Mr. Bland sang a song, but did not seem to be in good voice. Armstrong & Co. were heard to great advantage in their last selection; and, after a few remarks by Dr. Holden, the national anthem was performed and the entertainment brought to a close.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

FRIDAY, Jan. 13th.

DRUNK AND DISORDERLY.

Charles Baker, who was indulging in a spree yesterday, was taken up by the police, and appeared this morning in consequence. He was fined $1 and costs, and given a week to pay it in.

DISMISSED.

Patrick Salmon charged Frank Weese with obstructing charged in his duty as constable. As the complainant did not appear, the case was dismissed.

A popular writer says, "It is absurd to spend one's life in hoarding up millions of wealth, which the possessor can never enjoy, as it would be to collect and lay up in a storehouse 60,000 mahogany chairs which were never intended to be used for the furniture of apartments, and 80,000 pairs of trowsers which were never intended to be worn."

Soon to remove next door to New Post Office.

A Nice Christmas Present!

ONE of the best and cheapest Sewing Machines in the Dominion, which can be purchased from

R. M. CLARKE & SON,

at manufacturer's prices. We have been appointed agents for the HOME SHUTTLE FAMILY SEWING MACHINE.

This machine makes the same stitch as the Singer, Wheeler & Wilson, Lockman or any other *high priced* machines, and is sold at a great deal lower price, viz.: The Hand Machine, $18; the same, with Stand and Treadle, $36, complete with Hemmer, Gauge, &c. For samples of sewing or other particulars, address or call on R. M. CLARKE & SON,

72 Front Street, Belleville.

N.B.—Machines taken to the houses of intending purchasers, for trial, anywhere in the County, free of charge.

We are also agents for the Gardiner Patent Sewing and Knitting Machines.

The War in France.

Midnight Despatches.

The Siege of Paris.

Bombardment Continued.

Large Fire Raging.

Women and Children Killed.

LONDON, Jan. 11 (10 p. m.)—Balloon advices from Paris of the evening of the 10th have been received. Many slight engagements are reported to have occurred near Malmaison and Rueil, and also on the line of Paris and Strasbourg Railway, in all of which the Germans were repulsed with considerable loss. Thousands of balls from the German guns fell during the night in the outskirts of Paris, creating havoc in all directions, and old women and children had a most striking ambulances, churches, museums, school-houses, &c. The population of Paris are more than ever resolute in their intention to resist to the uttermost. No fear is entertained of surrender as Trochu had issued a proclamation to the citizens to the effect that the army of Paris will not capitulate.

A despatch from Versailles says that a large fire is raging within the outer walls of Paris and on the north side of the city.

NEW YORK, Jan. 12.—The World's Brussels special of the 11th says: The result of ten days bombardment of 9 forts and 7 French batteries between the forts is that no serious damage has been done, and not a single gun dismounted, but 230 Germans have been killed and wounded. Mount Avron was swept by the French fire and the Germans have evacuated the position. The guns at Clamart reached the Invalides and the Champ de Mars.

BORDEAUX, Jan. 11.—An official announcement is made that the Germans yesterday redoubled their efforts against the army of De Chanzy which, pressed on all sides, retired to its original positions. The action was disputed, one of the French brigades resisting the incessant attacks of the enemy for 6 hours. The loss was considerable on both sides.

Morning Despatches.

The Siege of Paris.

German Batteries Advanced.

Mobiles Deserting.

Report of Operations.

A New German Army.

Insurrection in Paris Suppressed.

Range of the German Batteries.

Rumors of Peace.

German Victory at La Chapelle.

10,000 Prisoners Captured.

France not to be Occupied.

French Credit Gone.

NEW YORK, Jan. 13.—The Tribune's correspondent at Versailles on the 9th, writes: Batteries have been advanced a thousand paces nearer Issy and Van Vres.

The papers are very revolutionary. The Mobile officers and soldiers are deserting. Nolay, Rosny and Nogent are visibly weakened. Many powerful new German batteries will shortly open.

Mastenfel is here, but starts immediately to take command of the new army of the east, consisting of the 2nd, 7th and 14tu corps, which is marching, via Troyes, to support General Von Werder and occupy the Lyons district. Manteuffel leaves Goeben in command of the 1st and 8th corps, Landwehr division, which is enough to take care of Faidherbe.

The Tribune's Paris correspondent says: Shells have fallen throughout Auteuil and through the Pantheon; damage slight.

Another Blanquin insurrection was plotted, but it was suppressed.

The *Herald's* special from Versailles on the 10th, says: The fire into Paris from St. Cloud, Meydon, Chatillon and Clamart commands a maximum range of three and three-quarter miles, the 24-pounders reaching Neuilly, Porte Maillot, Avenue Imperatrice, Avenue Ron de Rome, Champ de Mars, Les Invalides, and the Gardens of the Luxembourg, the Observatory, and Down Porte Bicetre, all beyond is safe, being above range. There are no batteries on the southern, eastern and northern sides that can yet touch Paris, but artillerists state that they have followed shells with their glasses into the Place de la Concorde. 500 fire shells were thrown into the enciente last night. St. Jacques was reached and houses set on fire. A new battery has been established at Clamart, considerably in advance of the old position, and is actively shelling the enemy's works. Another new battery has been established in the vicinity, within 1,200 yards of a French battery. It played with remarkable accuracy of fire. The shelling is necessarily at random and slow, the maximum being 10 shells an hour during the day. The fire from no more than three batteries touch Paris, and then only at a great elevation. Rumors of peace are general at headquarters.

LONDON, January 12th, 2 p. m.—The Grand Duke of Mecklenburg telegraphs to the Duchess: After crossing the rivulet of Hanne on Tuesday, we fought next day a hot but victorious battle at Lombron and La Chapelle, taking nearly 10,000 prisoners. Our loss is inconsiderable. We are advancing on Le Mauns.

The Berlin correspondent of the London Times writes that the idea of the general occupation of France by German forces has been abandoned. Portions only of French territory will be held. The French Government, he says, is no longer able to borrow money.

American Despatches.

Italian Unity.

Meeting in New York.

Billiard Match.

Dairymen's Convention.

NEW YORK, Jan. 12.—The Academy of Music was crowded to-night on the occasion of a meeting to celebrate Italian unity, while an open air meeting was organized outside. Resolutions were adopted declaring that in voting to join the Italian Kingdom the Romans have acted true to the spirit of their history as manifested against the temporal power of the Pope, and that the rejection of the Papal Government meets with the warm approval at all Reunition of the American people. Speeches were made by Horace Greeley, Henry Ward Beecher, William Cullen Bryant, Parke Godwin and others, congratulating Italy upon her triumph.

SAN FRANCISCO, Jan. 12.—In the billiard match playing here to-night between Joseph Dion and Deery, at 11 p m, 67 innings had been played, Dion scoring 301 and Deery 338.

UTICA, Jan. 11.—The convention of the American Dairymen's Association, now in session in this city, is largely attended by persons from this and other States and from Canada—Horatio Seymour, President of the Association, presiding. Addresses have been delivered by various eminent gentlemen—among others by Donald G. Mitchell, Prof. G. Caldwell, of Cornell University, and X. A. Willard.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

NEW YORK, Jan. 13.—Later despatches from Paris, dated 9th and 10th, have been received, confirming the destructive effect of the enemy's guns in the neighborhood of Luxembourg gardens. The destruction of buildings in that neighborhood is everywhere visible, and the suburb has been entirely destroyed by the enemy's fire. The south-west suburbs in part of the city is in ruins and seems hopelessly given up to the range of the Prussian fire. The damage to the buildings in the neighborhood of St. Jacques is great. When the despatch left the bombardment was proceeding, and the general impression was that neither life nor property in this vicinity is safe. The battery of Clamart is doing effective Prussian good service, and a report already received that the accuracy of its fire was telling with great effect, is confirmed. Shells undoubtedly reach Place de la Concorde.

NEW YORK PRODUCE MARKET.
New York, Jan. 13.

Cotton 15¼c.

Flour firm; receipts 7,000 bbls; sales 9,000 bbls at $5 40 to $5 70 for superfine state and western; $6 15 to $6 65 for common to choice extra state; $6 10 to $6 70 for common to choice extra state and western; $6 20 to $6 75 for round hooped Ohio.

Petroleum at 13¾c to 13¾c for crude and 24¼c to 24¾c for refined.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very favorable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homeopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homeopathic Chemists, London, England. 137-m-Th.

MARRIED.

By the Rev. G. R. Sanderson, at the Wesleyan Parsonage, on the 12th inst., Mr. W. H. Carter, to Miss Theresa Green, both of Belleville.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has successfully devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle. Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m:

A Throat and Lung Remedy.

Mr. G. R. Kyle of Uxbridge, Ontario, writes October 3rd, 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the waste going on in the brain, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

Price $1.50 a bottle; 6 for $7.50. Sold by Apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my hoarseness and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold or over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, at Chambersburg, Pa.

BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our baby to say "A Blessing on you, Mrs. Winslow," for helping her survive and escape the griping, sickening and teething stage. We confess that every word set forth in the Prospectus. It performs precisely what it professes to perform, every parent will find it a soothing elixir. Away with your Godfrey's Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is dragged into stupidity and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, sooth it, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations. 48-W-9m

Belleville, Oct. 6, 1870. 134:tf

The Manure Question.

An experience of 30 years in the use of fertilizers of every variety, and a careful observation of the results of an infinite number of experiments with farm-yard manure especially, has satisfied me, as it will every one who will as carefully experiment and closely observe the results as I have done, that there is no way in which the manure of stables can be made profitable as an entirely decomposed state, or as near practicable just as it comes from the stable.

As it is impracticable to haul it daily, at all seasons of the year, direct from the stable to the field, I construct a manure house into which the manure is daily deposited. The object of the yard being only for sanning and exercising the animals stabled, nothing is fed in the yard, neither is any straw or cornstalks thrown into the yard. The former is not needed for bedding the stock stabled, is hauled directly to some grass field and evenly spread on the surface. The stalks of Indian corn I have topped, and the top stalks only are hauled from the field for feeding. These when chopped are moistened and mixed with the ground feed, are equally well adapted to feeding horses, cows, or fattening cattle. The butts of the stalks I chop off at the surface of the ground during the winter, and lay them in the furrow and plough them in.

As every farmer requires a portion of manure every year in a fine and decomposed state, for raising garden vegetables, I prefer for that by having a place for composting all the refuse of the farm not provided as above. To this I add as much stable manure as is required to produce the desired quantity of compost.

I have long satisfied myself that it was bad economy to decompose the manure of the farm in open yards, and also that it would not pay to conduct the washings from a yard into a cistern for use, which it was to be carted and applied to the land in a liquid state.

I make cisterns in the ground for collecting the urine from stables, which urine I dilute by turning into it the rain water from the roof, and run it into an adjacent vegetable and fruit garden, and apply it in a diluted state, using it instead of pure water for watering the crops in drought.

—Because horses are used to reins, it does not follow that they are unaffected by wet weather.

The way "to minister to a mind diseased" is to take Peruvian Syrup, a solution of the *protoxide of iron*, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

COUGH CURED.—Chas. F. North, of London, Ontario, writes that he has been cured of a cough that gave him great pain, while he was considered nearly gone with consumption. This wonderful medicine was Allen's Lung Balsam. Sold by every Druggist.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only bust any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious. Like the triumph of the Great Shoshonee Remedy, for all the complaints of the lungs, liver, &c. For sale by all druggists.

The American Agriculturist,
FOR 1870
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a kalendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement, and to teach, in a pleasant way, useful and moral principles.

CIRCULATION—Bynes, says: "The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 00 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; eight copies, $10 each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal, and become the proprietors of *The Gazette*, have greatly enlarged and otherwise improved their paper, which appears on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in the different departments of literature and European, American and Dominion politics. Public questions are discussed in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to take rank as the leading commercial metropolis of the Dominion, and have completed arrangements which will make the commercial department of the *Gazette* unreservedly superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of a fleet-footed staff in the Imperial department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials ; The best Local News,
The most reliable Commercial Reports, Telegraphic Legislative Reports, Intelligence,
The fullest Telegraphic Despatches,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid quietly in advance, and will also be furnished in the city, and in News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable invariably in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or objectionable ingredients) of which this is a new and improved form of, here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most active principles of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extractive and other matter into the composition, the powerful blood, Tissue, Heat, Fat-making medicine are secured and gathered with the greatest care in the proper season, from the native soil, under the supervision of intelligent agents—experts—and scientifically, employed exclusively for Dr. Radway & Co.—so that the chemical substances or worthless resin can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific chemists in the French schools, the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, over the old.

SARSAPARILLIAN RESOLVENT,

says for the public, that a new form of medicine was such a medicine that so completely, vigorous, and beautiful without, the strong, herculean-beam constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment,
IT CONSTANTLY BUILDS UP AND REPAIRS THE WASTE IN THE FLESH-MAKING QUALITIES,
it supplies the system with caloric or heat-making properties.
it cures all Scrofula and Ulcerated disease of the Eyes; Ears, Mouth, Throat and Skin and body.
it increases the weight and appetite.
IT STOPS ALL WEAKENED DISCHARGE.
it increases the appetite and diminishes the waste
it exterminates the products of decay.
it resists all diseases, being Healthful.
it makes the skin clear and beautiful.
it heals Fever Sores and Ulcers
it cures Gravel, Gleet, and Stricture.
it makes the water clear and pass freely.
it cures Barrenness, and invests with the virgour of Manhood those who, from weakness or disease, are deficient or exhausted in sexual power, this particular without a change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however seated the disease may be, or from what cause, but by addition to receive nourishment, and their Kidneys LIVER, BLADDER, and other vital organs are made all beyond the process of repair, or if capable of sustaining the requirements of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, or other vital organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative powers of medicine to do any good, will by the use of the **Sarsaparillian Resolvent**, continue to live perfectly sound years; for no matter how low the vital forces may be, if the system can be brought under the influence of the tissue and flesh making medicine, the repairs will be greater than the wastes and **PERFECT HEALTH** will result in that degree of strength, purity, and nourishment to enable it to hold in healthy action all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease of the Kidneys, Ulcerous Syphilis, and their Cachectic Visceral**, are developed through the process of decomposition in the Liver, the Kidneys, the Bowels, the Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and thoroughly cured by the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Kidneys, Bowels, Stomach, Bladder, Womb, or Urinary difficulties, will experience a marked change in her health for the better on taking the Sarsaparillian Resolvent. As the Sarsaparillian becomes more pure, rich, strong, and wholesome, and is enabled to hold in solution its natural proportion of the Albuminous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secure their proper quantity and quality of Nutritious Fluids, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the digestive organs to convert these secretions, so as that each organ or secreting gland in discharging its proper functions, health can never be restored ; hap-pily for suffering humanity, Radway's Sarsaparillian Resolvent accomplishes this important result, and has heretofore existed in all these remedial agents presented as Blood Purifiers.

No matter how much disease is engrafted in the solids, fluids, glands, organs, or bones of the body, and corruption may be the influence of this poisonous blood and other fluids in the body, the living body with repairs, will so charge the system with such nourishments as to resolve and dissolve the dead and decomposing matter, and supply its place with sound and living structure, as described by rich, pure, and living blood. By this chemical action which the Sarsaparillian Resolvent produces when taken into the stomach during its process of digestion into Chyme and Chyle, before it enters the blood, as well as the nourishing elements it converts into blood, and its specific action upon the blood in the circulation, if any diseased secretory atom of virus from the blood, and resolve away all the impurities of disease, whether caused by the action of some specific poison, or virulent disease, a Scrofulous Corruption, Cancerous Humor, Mercurial, Chloride of Mercury, Calomel, and other agent that may be accumulated in the bones, the Cartilages, or joints, or from some transmitted taint, scrofulous fluid that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, mucous diseases, Ulcerous Sores, Kidney Complaints, Glandular Diseases, Ulcers in the Throat Mouth, Stomach, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Sore Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancer in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle are within the curative range of the Sarsaparillian Resolvent, and we will prove we will perform in any person using it for either of these forms of Disease, a perfect power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, and Diabetes, and all who are incomve nienced by Stopping of Water, or Painful Discharges, are quickly relieved and effectually cured by the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Street, Montreal.

G. Donault, of St. Timothee, County of Beauharnois, Canada East, had for many years a bad ULCERS, one on his thigh, the other on his side that baffled all skill of the best doctors and that the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced to use of **Radway's Sarsaparillian Resolvent**, along with the Pills and Ready Relief, and he used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, at the same time a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which cured him perfectly, there is a few months and previously spent hundreds of dollars, doctoring for nine years, and at the cost of less than fifty dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, now over 70 years of age, had been a customer of Paper Mills, Hotels, &c., told me of his know of a person who was cured of a bad case of Scrofula, covered with one SOLID SCAB, covering the entire body—Head, Face, Neck, Arms, Legs, &c., all in one in September last, and he was the most revolting and disgusting object I ever saw. A boy request to be put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who told me that his son was entirely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of Sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle and a half.

SARSAPARILLIAN RESOLVENT
WINDSOR STATION, Ontario, Canada West,
March 1st, 1869.

DR. RADWAY :—This is to certify that I was take with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was able to rest and sleep, a boon for which I was thankful. After using one bottle the bleeding was stayed, and the night sweats ceased. I continued to use six bottles and now all symptoms of sickness, disease and threatens consumption have disappeared. I feel my health fully restored. JONATHAN PERRIER.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Berlin—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** Commercial Agent for Ontario

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the aim of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For 1871 every Department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, JNO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE—

Of these the LADY'S BOOK contains *fourteen* each year (more than double any comparison) to any published in this country, either in book or periodical.

FINE COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a greater number than to our patrons, containing (usually) thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—Every year a piece of music, in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs in the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GOOD AND INVALUABLE RECEIPTS upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that are now introduced into the work. They give a great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal ed.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. Some of these cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it, and invalids, pronounced incurable by disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it may be active in producing foul blood, or, upon them, on some favorable occasion, rapidly develop the active principle of its hideous power, in the form of sores or among the vitals. In the latter, tuberculous may be developed in the lungs, liver, or heart, or tumors formed in the liver, or it shows its presence in eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this **Sarsaparilla** is an act of wisdom, even when no active symptoms of disease are felt. Persons afflicted with the following complaints generally find immediate relief, and, in many cases, the use of this **SARSAPARILLA** will **Cure St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears**, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Indigestion, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various forms of *Kidney Complaints*, *Dropsy* and nervous systems.

Syphilitic or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for the system to become sufficiently purified to secure a first long continued use of this medicine will cure the most inveterate *Ulcerous Sores on Whites, Fevers Ulcerations*, and *Female Diseases*, are commonly soon relieved and permanently cured by the great agent for purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Physicians, Nurses, and Mothers, will find it invaluable in the treatment of all diseases caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice*, which arise from it as they often do, from the rankling poisons in the blood. Thus all **SARSAPARILLA** is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the painful symptoms of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as has this excellent remedy for pulmonary complaints. Through a long series of years, the public reliance in its power to cure men it has risen higher and higher in their estimation, as the evidence of its virtues has become more extensive and conclusive. Nor is this confidence misplaced, for it is based upon the most reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most efficient remedy that can be given for incipient consumption, and the distressing affections of the throat and lungs. No prevision against sudden attacks of *Croup*, it should be kept on hand in every family. Indeed, colds are sometimes subject to colds and coughs, all should be guarded against the consequences.

Although settled, *Consumption* is thought incurable, still great numbers of cases in the last disease seemed settled, have been completely cured, and the patient restored to sound health, by *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection in it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c, and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, or, nor any other mineral or poisonous drug, or whatever, it in nowise injures any patient. The number and variety of cures it has made in the districts, are literally beyond account, and we believe without a parallel in the history of the world. Our pride is gratified by the acknowledgments we receive of the radical cures effected in chronic cases, and where other remedies had wholly failed. The protection it imparts, either resident in, or travelling through miasmatic localities, will be protected by taking it. DO NOT BE DECEIVED

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver to healthy action.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing speedily the most efficacious results, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold by all the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing for PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by each and every of the best authors sellable. PETERS' Kinkel, Bishop, Thomas, Hucks, Rosellen, Beethoven, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plate, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents per copy, or $3 per year, $1.50 for six months and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

We do not expect to make money by this Musical Monthly to any extent by the publication of this Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear it, become fond of it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. PETERS, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

FEVER AND AGUE.

Notwithstanding the great range of Pain, Ache, Ailments, &c., that Radway's Ready Relief has cured, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER.

Bilious Fever

In the world. There is no Ague Cure for it, or prevention of it, quinine, or any other of the long list of worthless stuff, that so many poor deluded victims have been and are still daily taking.

Radway's Ready Relief

No, not one. Thousands, now on the shelves of Quinine, Arsenic Mercury, Sulphate of Quinine, Sulphate of Morphine, and the long list of worthless and forged liver, fat, spleen, dropsy, and other cures and Patent Pills, and Patent Preparations, whose makers and venders are fattening on the distresses. These agents never cure, but only palliate disease, whereas

RADWAY'S READY RELIEF

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 22 Cent Bottle of

Radway's Ready Relief

Is better than a dozen of all Kinds of the Bitter Compounds, &c., &c., selling at $1 per bottle. Ready Relief is good for hundreds, in fact thousands of cases.

One 22 cent bottle of Radway's Ready Relief is good in cases of cramp, colic, spasms, sour stomach, heartburn, sick headache, diarrhœa, dysentery, cholera, cholera morbus, vomiting, nausea, sleeplessness, sour stomach, nervousness, hysterics, and all internal pains.

The bottle of the Old Country Remedies, Holloways Pills, Kidneydoctine, Pancreatine, Dandelion, &c., &c., is worthless for the above complaints. One teaspoonful of Radway's Ready Relief in hot water will cure the worst pain, cramp, spasms, sour stomach, heartburn, sick headache, diarrhœa, dysentery, colic, flatulency, and all internal pains.

Fifty drops in a tumbler of water will cure in a few minutes, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHŒA, DYSENTERY, COLIC,

Wind in the Bowels.

And all Internal Pains.

The above does taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Cholera Infantum,
And all Painful Diseases.

Travellers should never be without a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pain from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stopper—Purify and CURE RADWAY'S READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the same materials. Beware of the Imitations. We have been started to imitate Radway's Ready Relief. Some have copied the Yellow Wrapper with Green heartshorn, in imitation of a highly rectified preparation of Ammoniacal Gas, and the name Radway. Imitating the genuine Ready Relief will at once discovers the impossible fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen bottles, $2.50 ; per bottle, 25 cents. Single Bottles for sale at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and General Storekeepers everywhere. One bottle will be found in every city and town in the world. Put up in different languages. **ASK FOR RADWAY'S Ready Relief.**

New Principles of Medication.

[Via : *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they do more in a day, and in a less time than the most dangerous diseases so rapidly, and with less exertion according to the published directions, than contemporaries boast in their advertisements, that there is nothing new in their remedies, and that they are identical with the formulas in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopœia, &c., &c., hence they can experiment for their pain, pectoria, and sarsaparilla, for their remedy to a host of imperfect, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow one indeed. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal Compound Extract of Sarsaparilla, of the shop, &c. Physicians, chemists, pharmacopolitists, physiologists, all, more or less, condemn these forms of vegetable extracts. The Materia Medica is deficient of good, sterling, reliable remedies. The formulas of Radway's Remedies of official pills are based on wrong principles, and those who desire to put a stop to quackery, and its numerous parasites prescribed, are contributing nothing of value to the science of medicine. *Radway's Ready Relief* and these are new medines, prepared on new principles, and Pepsi. it succeeds without delay or much resistance.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished the trade and others at $4 per year, if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2·50 for six months ; $1·50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS at Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the Local, Social, and General matters of general interest.

CONCENTRATED LYE.

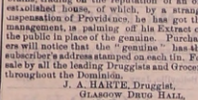

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the same Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has she subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known Palace Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerking, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are respectful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests.

The proprietors, having leased the adjoining premises, are prepared to offer every inducement to Drving and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

CHAINS, JEWELLRY,

Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.

All goods warranted what they are represented to be.

All kinds of jobbing and repairing done promptly and at moderate rates.

Call and inspect the Stock before purchasing.

H. ROSENBERG.

Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Trimmings, Hat Bands, Collin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all the any lady needs for the cutting of every kind of her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—it calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 20 by 26 inches, entitled, "The Presidents on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lilie M. Spencer, and besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another like it, or even so much interest and beauty.

In, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $2.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of stamp.

Address W. JENNINGS DEMOREST,

838 BROADWAY, New York.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont., Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that the agriculture of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted solely to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at Seventy-*Five* Cents each.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	16.00

And all over 20, at 75c per copy, free of postage.

Communications intended for publication, items of agricultural intelligence, &c., should be addressed to

W. F. Clarke,

Editor Ontario Farmer, Guelph.

December 15th, 1869.

The Parting Hour.

The following exquisite poem, says the 'Portland 'Evening Commercial,' was written by the late Edward Pollock, the gifted Californian poet, on the 6th of January, 1867, and has never been published. It was given by the poet to a friend who was about to depart on a steamer for Oregon, Pollock saying: "Take this; you may perhaps read and appreciate the sentiment long after I have ceased to be among the living."

There's something in the 'parting hour'
Will chill the warmest heart—
Yet kindred, comrades, lovers, friends,
Are fated all to part.
But this I've seen—and many a pang
Has pressed it on my mind—
The one who goes is happier
Than those he leaves behind.

No matter what the journey be,
Adventurous, dangerous, far,
To the wild deep or black frontier,
To solitude or war—
Still something cheers the heart that dares
Is all of human kind,
And they who go are happier
Than those they leave behind.

The bride goes to her husband's home
With doubtings and with tears,
But does not hope her rainbow spread
Across her cloudy fears?
Alas! the mother who remains,
What comfort can she find,
But this—the gone is happier
Than one she leaves behind.

Have you a friend—a comrade dear!
As old and valued friend?
Be sure your term of sweet concourse
At length will have an end!
And when you part—as part you will—
O take it not unkind,
If he who goes is happier
Than you he leaves behind!

God wills it so, and so it is;
The pilgrim on their way,
Though weak and worn are more cheerful are
Than all the rest who stay;
And when at last, poor man subdued
Lies down to death resigned,
May he not still be happier far
Than those he leaves behind?

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

(*From Blackwood for December,*)

CONTINUED.

The only man of really statesmanlike ability in the Canadian Ministry is the Premier, Sir John A. Macdonald. Unfortunately for the country, he was just at this critical moment struck down by severe illness, and the general management of affairs devolved upon Sir George Cartier, the leader of the French Conservatives. In early life he had played a minor part in the Canadian rebellion of 1837, when he had actually borne arms against the British Crown—a crime which, in the opinion of his political opponents, his subsequent loyalty has not sufficed to wipe out. This tended to prejudice many against him; for it was considered natural that, having been once himself a rebel, he should sympathize with rebellion wherever he met it. That "foul dishonouring word" is, however, regarded very differently by a man of neither birth, wealth, nor position, when seeking for political notoriety, and when he has succeeded and is in the Ministry also. But this well-known truth was forgotten, and he was generally regarded as a partisan, and anxious to play into the hands of Messrs. Riel, Richot & Co.

Sir. G. Cartier, although a poor debater and of very ordinary ability, is a creditable specimen of Canadian men. His greatest enemy dare not question his honesty. Others have become rich in the management of public affairs; but he is still, comparatively speaking, a poor man. He is a firm friend and a good hater. His ordinary promise is more to be relied upon than the oath of his contemporaries, and he is a hard working public servant. To accuse him of descending at times into the lowest depths of jobbery and political trickery, is merely to accuse him of being a Canadian politician. In England we are prone to grumble at the misdeeds of Downing Street; but only purity and virtue emanate from that dingy locality when a comparison is instituted between the political morality of England and that of Canada; and the latter is in its turn little short of perfection when judged side by side with the corruption pervading every department of political and municipal government in the United States. Sir George Cartier had entered Parliament in early life, and was soon recognized as the leader of the French Canadian national party, a position which enabled him at all times to command about 60 votes in the House of Commons. With such a following, it is easy to understand how he has been able for many years back to maintain himself in a prominent position in public life. Many who ought to know assert that at heart he has no respect for the Roman Catholic priesthood; these may, perhaps, be his private feelings, but in public he has to bow before it. It is a lever of mighty power in the Province of Quebec, and, by doing political jobs for it, he secures its influence. Were he to estrange that party from him another who longs for such an opportunity would soon occupy the position he holds as leader of the French Conservatives. Sir John Macdonald's illness was a fortunate circumstance for the rebel clique in Fort Garry, as it enabled their sympathizing friends in Canada, through their influence with Sir G. Cartier, to obtain for them all that they could have reasonably wished for.

The reservation of land provided for in the Bill is calculated to injure the true interests of Manitoba by retarding emigration. Suppose that that number of acres are reserved in the immediate vicinity of the existing settlement on the Red River, all new comers seeking for farms will have

to go so much further back. There are several other clauses in the Bill, referring to the creation of a legislature and to the right of franchise, which tend to give a monopoly of political power to the French speaking people for some years to come. From what has been already stated regarding their views and aspirations, it may be inferred that a love for progress is not included in their political belief, so their political asceadancy promises no good for the country.

Although the Manitoba Bill passed through both houses of Parliament with but little opposition, still the Government policy, as expressed by it, was denounced by all the leading and all the independent English newspapers in Canada as altogether in the interests of the French rebel party.

The $300,000 was paid to the Hudson Bay Company; and the Queen's proclamation transferring the whole North-Western territories to the Dominion was shortly to be issued.

The Imperial Government consented to co-operate in the military expedition to the Red River; and the strength of the force was, after a lengthened telegraphic correspondence, fixed at one weak battalion of regular infantry, two battalions of Canadian militia and a small detachment of Royal Artillerymen and of Royal Engineers; about one fourth of the total expense was to be defrayed from the Home Treasury, the remainder to be paid by the Dominion. Colonel Wolseley, then on the Staff in Canada, was appointed to command it, and its organization and equipment were rapidly being pushed forward.

Having given a rough sketch of the political events that rendered necessary the despatch of a military expedition to the Red River country, we shall now endeavor to give a general description of the region to be traversed, and of the difficulties to be overcome by it, reserving for another article an account of its organization, and of the manner in which it fulfilled its mission.

A glance at the map of North America will shew the reader that lying west of the inhabited provinces of Canada are Lakes Huron and Superior. They are united by the St. Mary River, of about fifty miles in length. A canal has been constructed on the American side of the river, by means of which vessels can avoid the rapids on that river and pass easily from lake to lake. Taking therefore Toronto, the chief town in Ontario, as a starting point, a traveller wishing to reach Fort Garry through British territory, would go by rail 94 miles to Collingwood, and from thence by steamer 534 miles to Thunder Bay, via the St. Mary River Canal. The waters of Lake Superior and its tributaries flow into the Gulf of St. Lawrence, whilst those of Lake Winnipeg empty themselves into Hudson Bay. These two water systems are separated by a line of rugged hills which approach to within about 80 miles of Thunder Bay, the lowest pass over them in that locality being about 839 feet above Lake Superior.

Some years ago a route had been explored from Thunder Bay to Fort Garry; and a scheme was laid before the Canadian Parliament for improving it, by the construction of canals, dams, and short roads, for facilitating the navigation of the lakes and rivers that lay along it, and for establishing land communication between them. The first link in the chain was to be a road of about 29 miles—from Thunder Bay to Dog Lake—by means of which the difficult navigation of the Kaministiquia River was to be avoided.

Little attention was, however, paid to the subject until 1868, when the road was begun. In the following year a better pass over the hills than that by Dog Lake was discovered, necessitating, however, a lengthening of the road from Thunder Bay to about 48 miles. As the word "portage" will frequently be met with in all narratives of North American travel, the reader should remember that it means a break in a chain of water communication, over which canoes and stores have to be carried on the men's backs.

The new route was, therefore, 48 miles by road through the forest to Shebandowan Lake, and from thence about 310 miles by rivers and lakes (with about 17 portages), to the Lake of the Woods. Some of these portages were more than a mile in length; and when it is remembered that all the boats and stores, &c., &c., required for the Expedition, had to be carried by the soldiers over these breaks in the navigation, an idea can be formed of the physical labor which such an operation would entail.—From the Lake of the Woods to Fort Garry was about 100 miles in a straight line by land, but there was only a road made for about 60 miles, the unmade portion being laid out over most difficult swamps. If therefore, the troops could not advance by that route, as was subsequently found to be the case, the only other way of reaching Manitoba was via the Winnipeg River, the navigation of which was known to be so difficult and dangerous that none but experienced guides ever attempted it. There were about 30 portages to be got over in the 160 miles extra, thus added to the total length of the distance to be traversed.

In 1869 about twenty miles of the Thunder Bay road had been constructed; during the winter of 1869 70, bridges were constructed over the two largest rivers which crossed the line of road, and in the following spring the road was pushed on still further some six or seven miles.

When early in 1870 arrangements were being made for the despatch of the Expedition, the Canadian Ministers impressed upon the military authorities responsible for its success, that, by the time the troops had been collected together on the shores of Thunder Bay, the road from thence to Shebandowan would be fit for traffic, and that good roads would have been constructed over all the portages by the Public Works Department.

The country lying between Lake Superior and Red River was known to be a wilderness of poor timber, lakes, rivers, and rocks, and to be uninhabited except by wandering tribes of Indians. The waters, it was said, abounded in fish, but the woods were almost destitute of game.

The Indians are the Chippawas, a tribe that occupies the islands in lake Huron and Superior, and is scattered along their shores. They are essentially wood Indians, and venture but seldom on to the plains, being in mortal dread of their hereditary enemies the Sioux—the most warlike tribe now in North America. As long as the river is free of ice these Chippawas almost live in their canoes, roving about in the localities where fish is most plentiful. Their canoes are small, and so light that a woman can easily carry one over the longest portage. On the shores of the great lakes, where these Indians have long been in contact with the white man, most of them are Christians; but those in the interior are still heathens, and will not submit to having missionaries settled amongst them. In summer they pet blueberries, but their chief article of food is fish, although here and there on fertile spots they grow a few potatoes and a little Indian corn. They are an extremely dirty race; the men are very lazy, and cannot be depended upon to continue at any work they may be employed upon, although they are said to be truthful and honest. They are polygamists, and the morality of their women is not of a high order. They are very improvident, and cannot be induced to lay by provisions in case of want, so that a winter seldom passes that some do not die from starvation. As they are all armed and capable of great endurance, and as the country generally is a network of lakes, where they can go in any direction for hundreds of miles in their light canoes, they might cause endless trouble and great loss to any military force seeking to push its way through the country without their permission.

They expect to be well paid by travellers in presents of provisions; so their presence along the line of route added to the difficulties to be overcome, as all such presents would have to be carried by the troops, and every pound of extra weight was a serious matter.

For the conveyance of provisions and stores between Thunder Bay and Shebandowan, a considerable transport corps would be required—all the material for which would have to be sent there in steamers, as also the forage required for the animals, for neither hay nor grass was to be had on the spot.

In fine, to get a military force to the Red River, it was necessary to send it complete with all warlike appliances, and with at least two months provisions, through a wilderness for a distance of above 600 miles, no supplies of any description were obtainable. It was no wonder, therefore, that our Government paused, and considered well before they committed any of Her Majesty's troops to an operation beset with such difficulties, and where any serious mistakes on the part of those who conducted it would most probably have led to disastrous results.

CONCLUDED.

How to Load a Wagon.

Some three or four weeks ago the question was asked through the columns of the *Rural New-Yorker* whether a wagon should be loaded heavier on the hind than on the front wheels. Your reply, though not asserted to be conclusive, implied that the load should be equally distributed. I propose a scientific elucidation of the subject, which will prove that the load should be heavier on the hind wheels, in the proportion of their diameter to the diameter of the front wheels.

A *wheel* is a lever, whose long arm, theoretically, is the distance from the ground the centre of the axle; the short arm is a piece; but, practically, it is impossible to construct a lever of such proportions. Hence, in calculating the advantage of the lever, a wheel or lever, allowance must be made for the size of the axle; and for friction dependant on size, other things being equal. Without going into too elaborate a discussion, it will be sufficient to say in general terms that the power gained by a wagon wheel is in proportion to its semi-diameter, and hence that the load on a wagon should be placed proportionally to the diameters of the front and hind wheels.

Suppose the front wheels are four feet, and the hind wheels five feet in diameter—then five-ninths of the load should rest on the hind wheels and four-ninths on the front wheels.—T. S. G.

ON SHORT COMMONS.—'My dear madam, can you give me a glass of grog?' asked a fatigued traveller in Arkansas, as he entered a cabin on the roadside. 'I ain't got a drop,' replied the woman. 'But a gentleman told me you had a barrel.' 'Why, good gracious,' replied the woman, 'what do you reckon our barrel of whiskey is to use and my children when we are out of milk?'

—A gentleman told his servant to haul away a heap of rubbish in his back yard. The servant objected that it could not be emptied anywhere within the city limits. 'Then dig a trench and bury it,' 'But, sir, where shall I put the earth that comes out of the trench?' 'Stupid! can't you make it big enough to hold both?'

Disraeli at sixty-three has a general air of feebleness akin to old age, though his hair is still curly and black, unmarked with gray, and his eye has lost none of its fire and mischief. He is very happy with his wife, and attentive to her, and although she is seventy-nine, she would hardly be set down as an old woman, and might pass for smart seventy when seen on the promenade in full walking-dress. She was, a long time ago, a successful milliner, and married a Mr. Lewis, who dying, left her a handsome estate, $400,000 per annum, which joined to the ex-premier's has enabled them to maintain town and country establishments commensurate with his pretensions and success in the political arena.

—A learned physicist announces that this globe will support life for 26,000 years longer.

—The residence of Mr. John Holmes, M. P., in the vicinity of Ottawa, was totally destroyed by fire on Tuesday, the 10th. The cause was a defective stove pipe. During the fire last summer this house was the only one saved. There was no insurance on the building.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

BELLEVILLE, SATURDAY, JANY. 14.

☞ *SEE FOURTH PAGE.*

LATEST FROM RED RIVER,

ST. PAUL, Jan. 13.—The Local Elections at Red River were quiet, and resulted in the triumph of the Government party in all but two or three parishes. Schultz was defeated in St. John's by Donald A. Smith, by a majority of seven.

THE GAME LAWS.—According to the Act it is unlawful to hurt or kill wild turkey, grouse, pheasant, partridge or hare, between the first of the present month and the first of September. The shooting of quail is prohibited between the first of January and the first of October.

DR. RYERSON AND MR. BLAKE.—The Dr. has published a second letter in reply to the attack of Mr. Blake, which proves beyond question how ridiculous the great Chancery lawyer makes himself in attempting to discuss a question of which he was totally ignorant. We shall publish this letter on Monday.

CHURCH OBSERVER.—The *Church Observer*, Montreal organ of the "low Church" party in the Church of England, appears this week, in an enlarged form, and much improved in appearance. The paper is worthy the support of Churchmen, as it gives no uncertain sound on the question of ritualism, which has for the last few years been productive of so much dissension, its articles being able and well calculated to expose the error of those who seek to Romanize the English church. Wm. Salter, proprietor, Montreal.

A FRANK ADMISSION.—In a late number of the Toronto *Globe* we have seen declared the following sentiments: "Canada most certainly is the most lightly taxed, and the cheapest and best governed country in the world to live in." That is certainly a great admission for the greatest enemy of the administration to make. It speaks well for our constitution, in the formation of which Sir John A. Macdonald and the Moderate party took so extensive and active a part. It also speaks well for the working out of that Constitution, which has been accomplished altogether by men of the present Ministery and their supporters.

SWALLOWING CENTS.—We mentioned at the time of its occurrence, says the Madoc Mercury, the accident which befell the child of Mr. Samuel Marshall, who accidentally swallowed three copper cents. After an interval of about six weeks the child passed the coins, which came away together, in a lump, completely encrusted over with a hard coating, which entirely hid the cents—one American and two Canadian. Dr. Loomis, who had been attending the child, would have liked to have obtained the "specimen" in the state in which it was passed, but it had been broken up—possibly to make sure that it contained the cents. Mr. Marshall inform ed Dr. Loomis that he had entirely followed the directions given by him.

The War in France.

The midnight despatches announce the utter defeat of the army of the Loire under De Chauzy. The German force engaged amounted to 180,000 men. The bombardment of Paris was also continued and additional fires had been started in the city. A French sortie had roughly handled a company of the Bavarians. Otherwise the news is unimportant.

Ontario Legislature.

TORONTO, Jany. 13.

After routine, the Commissioner of Public Works, in reply to Mr. Boyd, said the report of his Department would be furnished early next week, and those of the Department of Agriculture and Emigration at the same time.

The House went into Committee on the Bill to amend the law relating to election petitions, and adopted several verbal amendments.

Progress was also reported on the Bill to render the Benchers of the law Society elective.

The Bill to amend the Toronto, Simcoe and Muskoka Railway Act, was read a third time and passed.

The Grand Junction Railway Bill was, on motion of Mr. Graham, read a second time and referred to Committee.

The Education Bill was not proceeded with, owing to the illness of Dr. Ryerson.

The House adjourned at 5.35.

—The Pine River Post Office and residence of Mr. McDermott was destroyed by fire on the 12th inst. The loss is about $300; insured for $400.

Crown Lands.

We have received the report of the Commissioner of Crown Lands for Ontario, for the year 1869. The report is scarcely so voluminous as usual, but a mass of valuable information is contained in its pages, part of which we summarize, as follows:—

There were Crown Lands disposable at the commencement of the year 3,402,623 acres, which, added to the 183 929 acres surveyed during the year, make a total of 3,586,562 acres; deducting the number of acres sold during the year, 83,275, and 56,011 acres disposed of under the Free Grants and Homestead Act, leaves a total for future disposal, of 3,497,276 acres. The sales during the year amount to $90,061 and the collections to $181,289.

Of Clergy lands, 11,812 acres were sold during the year. The sales amounted to $29,020 and the collections to $98,015.

The were sold 6,182 acres of Common School lands during the year. Sales amounted to $20,052 and the collections to $128,269.

There were sold of Grammar School lands 2,477 acres, for which the amount paid was $4,611. Collections amounted to $6,462.

The lands in the following townships were opened during the year for location under the provisions of the Free Grants and Homestead Act of 1868: Minden Stanhope, Anson, Hindon, Dungannon, Carlow, Monteagle, Herschel, Wicklow, Mayo, Grattan, Hagarty, Richards, Sherwood, Wilberforce, South Algona, Alice, Fraser, Petawawa, McKay, Buchanan, Wylie, Ralph, and Head, which added to the fifteen townships opened in 1868, make thirty-nine townships now open under the Free Grant Act. 566 locations were made as free grants during the year on 56,911 acres of land, and 956 acres of land were sold to free grant locatees during the same period. In the County of Hastings the following were the numbers of settlers who located in the townships mentioned, and the number of acres taken up:—

	Settlers.	Acres.
Dungannon	4	406
Carlow	3	300
Monteagle	4	393
Herschel	7	297
Wicklow	3	348
	21	1,844

Making a total of 21 settlers and 1,844 acres of land located.

On the north shore of Lake Superior, 19,161 acres of mining lands were patented during the year, the territory having been created a Mining Divison under the name of the "Lake Superior Mining Division."

Another Mining Division was formed, "The Madoc Mining Division," consisting of the Townships of Hungerford, Elzevir, Madoc, Marmora, Lake, Tudor, Grimsthorpe, Cashel, Limerick and Wollaston, in Hastings; Belmont and Methuen, in Peterboro; Kaladar, Anglesea, Effingham, Ashley, Denbigh and Abinger, in Addington; and Barrie and Kennebec in Frontenac.

The public lands in Elzevir, Grimsthorpe, Cashel, Limerick and Wollaston, in Hastings; and Galway, Burleigh and Methuen, in Peterborough, were opened for sale as mining lands at $1 per acre.

The accruals from timber dues, ground rents and houses, during the year amounted to $508,561 and the collections were $435,397. The timber revenue from the Canada Woods and Forests was $326,000, being 120 per cent in excess of the highest amount received previous to 1867, and $48,000 in excess of the highest amount ever received from the whole Province of Canada previous to 1867.

The total receipts of the Department amounted during the year to $853,772, of which $630,962 was considered revenue.

The surveys of the Townships of Mayo and Faraday, in the County of Hastings, and McIntyre and McTavish, on the North shore of Lake Superior, were proceeded with during the year. The total payment for surveys amounted to $21,423.

Under the heading of "Colonization Roads" we find, in the report of Mr. Bridgland to the Commissioner, that the Carlow Road, 13 miles and 15 chains in length, had been made at a cost of $2,400. The total expenditure upon Colonization Roads amounted to $35,589.

Around Town.

The fine afternoons lately have brought out large numbers of promenaders.

The new Town Council meets for organization on Monday at noon.

Sealskin caps and coats are now fashionable amongst those who can afford them.

The enrolment of persons liable to service in the Militia, is now being made in town.

The tower for drying the fire hose is advancing fast towards completion, the carpenter work alone remaining to be finished.

The School Board has received but one new member in the person of Mr. Hambly, who succeeds Mr. Robertson in Ketcheson Ward.

The thaw continues, and streets and sidewalks are fast being cleared of their snow. A day or two more of soft weather will put an end to sleighing for the present.

A secret caucus was held on Friday night by a few of the Town Councillors, at which the select committee was appointed and the Chairmanship of the different committees disposed of. Further developments on Monday next.

The ice men are thinking of commencing operations on the 6th. There can be no excuse for a poor crop this year, and it will certainly be the fault of the dealers if the supply is stopped before the close of the season.

The class for instruction in the new drill meets at the Armory, Pinnacle Street, on Monday afternoon.

The grain dealers complain of an utter stagnation of business. Weeks have passed with only a load or two occasionally offering

A team of large Newfoundland dogs, drawing a sleigh, attracted a good deal of attention on the street this morning.

Mrs. Cox, mother of Mrs. James Corby, lately fell on the ice, while leaving her residence, and broke one of her arms in three places.

Spite of the roads, there was a fair market this morning. Chickens were very plentiful, and sold at from 20 to 40 cents per pair.

—Prof. Armstrong, assisted by several talented performers, gives a concert at Ontario Hall on Thursday night next. Mr. Armstrong has done a great deal for the advancement of music in town, and deserves a bumper house.

The annual Missionary Meeting of the John Street Presbyterian Church, will be held on Wednesday evening next, when addresses will be delivered by Rev. Mr. Laing, of Cobourg, and several of the resident clergymen.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

SATURDAY, Jan. 14th.

THE FISHERIES CASE.

The many times adjourned case of Church vs. Spencer was again brought up this morning. *r.* Howell appeared for the defence, and read a letter addressed by him to the Minister of Marine and Fisheries, Ottawa, to which a reply had been received that the net had probably been authorized as a herring net, and that further inquiry would be made. The Magistrate decided that, as both parties were not present, he would defer judgment until Saturday next.

VAGRANCY.

John Newman, a vagrant-looking youth of 14 or 15, who had been loafing around the streets and throwing snow-balls at people, was fined $2 or thirty days. Sent up.

Daniel McGivern, another youth of a couple of years older, was charged with being drunk and disorderly last night. Fined $1 and costs, or 30 days in gaol.

ASSAULT.

The case of Reid vs. Reid was adjourned for a week, the parties being in gaol on a warrant to keep the peace.

LARCENY.

John Henrahan was charged with stealing a number of posts, the property of John Manley. The parties reside in the 2nd concession of Thurlow. Complainant was sworn and said he had a number of cedar posts which were piled on his lot. Those were removed by some one, and piled beyond his line fence in the road; could identify only one of the posts. There being no evidence to substantiate the charge, a verdict of "not guilty" was recorded.

ASSAULT AND BATTERY.

McMasters vs. Bonner.—A case of children fighting, in which Bonner, the larger boy, had beaten the other and threatened to do so again. A fine of $1 and costs was imposed.

News Condensed.

—The Quebec water works have been repaired.

—The thaw extends to Montreal, Quebec, and other places east and west.

—A gentleman named Robillard was garotted in Montreal on Wednesday night last.

—A regatta took place at Collingwood on the 13th, the Georgian Bay being free from ice.

—It is a somewhat curious fact that a coroner's jury has been sitting in Toronto for a week.

—A terrible colliery explosion has occurred at Newcastle, Staffordshire. Twenty persons were killed.

—The Very Rev. Henry Alford, D. D., Dean of Canterbury, died suddenly on the 31st, aged 61.

—Joseph Dion beat John Deery at billiards in San Francisco, by 25 points in a game of 500, French carom.

—Mr. A. Coullard, who shot himself in the throat on Saturday, 7th instant, died on the 13th at Montreal.

—The Protestant School Commissioners of Quebec have sued the Corporation of that city for $12,000 school tax due them.

—A billiard tournament for the championship of Canada is to be held in Montreal, commencing on the 16th inst.

—Mr. John Stewart, North Easthope, got $144 25 for six dressed hogs the other day. They averaged 362 lbs.

—A two-tailed horse, after a brief season in a museum, is helping to drag a street car in San Francisco.

—There have been nine murders, four suicides and eleven accidental deaths in New England and the Middle States this week.

—Napoleon seems to be enjoying himself with the fine skating and sleighing at Wilhelmshohe, and grows more cheerful as the prospect of his restoration brightens.

—Two unfortunate men, one in Wawanosh and the other in Goderich Township, were frozen to death returning home from municipal elections on Monday last.

—George Bowlough, of Whitby, a brakesman on the Grand Trunk, was killed at Stratford on the 13th, by falling between the cars while in motion.

—A gentleman named Brown once observed in company that he had toasted a lady for twelve months, and yet had little hopes of ever making her Brown.

—The Montreal import trade for the eleven months ending November shows an increase in value of nearly seven millions over the same period of 1869.

—Every man, woman and child in Canada has to pay 33 cents interest yearly on the national debt, while the annual interest per head in the United States is $3.75.

—The steamship 'City of Brooklyn' has been disabled at sea, her propellor having broken. A steamer has been despatched from Liverpool to her assistance.

—Toronto's imports and exports as compared stand thus: 1870, 11 months, $6,465,310; 1869, 12 months, $6,969,693; exports 1870, 11 months $2,375,052; 1869, 12 months, $1,917,855.

—William Stantou, of Darlington, was on Monday last kicked on the head by a horse, the skull being smashed in. His recovery is doubtful.

—J. Ross Robertson, of the Telegraph, who went to New York to be treated for inflammation of the eye, is rapidly recovering, having tried Turkish baths with good results.

—Queen Victoria intends purchasing from the city of Halifax the late residence of the Duke of Kent in Nova Scotia, and presenting it to the inhabitants for a public park.

—Paper clothing will be one of the innovations next spring. A leading New York manufactory is getting out the suits in all sizes. It will be a godsend for the shabby genteel.

—A backwoods editor was asked by a subscriber, 'What is this else that the French are so full of?' 'Elan is French for beans,' succinctly replied the conductor of the great moral engine.

—An Ottawa school trustee sneered at one of the teachers as a "young lady dressed in pantalettes," and another member threatened to get his wife to chastise such insolence. Two other members during a debate bet oysters.

—A meeting of the Canada Temperance Union is to be held in Toronto on the 17th. Those who wish to attend as delegates will be passed over the Grand Trunk at half fare, if prepared with the necessary vouchers, which can be obtained from W. S. Williams, Napanee.

—Mr. Wallace, of Brighton, was nearly burnt to death a few days ago while trying to get out of his cellar a keg of phosphorus, which had self ignited from not being covered with water. The house was not burned and Mr. Wallace was not dangerously injured.

—At the Hotel Dieu Hospital, Montreal, the extreme unction of the Roman Catholic Church was administered to a dying woman not expected to last out the night. She had been admitted to the hospital from a house in the Quebec suburbs where she had been beaten terribly by a gang of cowardly loafing rowdies, who infest that section of the city. Warrants are out, but it is feared the ruffians have got away.

HILARY TERM.

DOCTOR CROZIER, Professor of Theory and Practice of Music in the University and Alexandria College.

Bombardment of Paris.

—

Bavarians Surprised by a Sortie.

—

Firing at Night.

—

More German Batteries Erected.

—

Germans Concentrating.

—

Austria Urging Peace.

—

The Terms Proposed.

—

The Late Battles.

LONDON, Jan. 13.—The Times has the following special despatch from Versailles on the 12th: The bombardment was heavy up to this afternoon. Several fires are seen within the French lines. The Prussians are crowding in front of Clamart and Meudon. A company of Bavarians was surprised near Clamart by a sortie. The French have erected new batteries.

NEW YORK, Jan. 13.—The Herald's Versailles special of the 10th, says: The fires in Paris last night served as excellent marks for the gunners and a brisk fire was maintained all night at intervals on the burnt locality, and still continues, this Sunday night the Prussians captured the French battery of Notre Dame de Clamart, situated on the Rive Gauche Railway line, 1700 yards in advance of any of the rest of the French batteries. The Prussians are to attack the north-west at once and guns will be immediately unsed against fort d'Issy. The fire that did most damage was sustained from the advance battery, which now commands a mile further range into the city. The siege will be actively prosecuted under the absolute direction of the chief of artillery, independent of the field Marshal commanding in chief. The supply of ammunition will last 18 days, and the surrender is believed certain before then. General Vinoy lately reviewed the troops outside the walls the soldiers demanded peace, but Vinoy replied that he chose to conduct them to fire.

A general concentration and reinforcement of all German commands is an evident effort to reach a climax. Changes have also taken place in command of the German army of the Loire. The south-eastern army now comprises the 14th, 7th and 2nd corps. The destruction of buildings in the neighborhood of the Luxembourg gardens is every where visible, and the suburbs have been entirely destroyed by the German fire. The south-west suburban part of the city is in ruins, and seems hopelessly given up to the range of the Prussian fire. The damage to buildings in the neighborhood of St. Jaques is great.

NEW YORK, Jan. 13.—The Herald's special, dated Vienna the 12th, says: Austria will initiate peace, and the proposals for a Conference are welcomed by Berastoff. The preliminaries are that France shall surrender a fort, 20 war ships, one thousand million thalers, and a strip of land four miles broad on the left bank of the Rhine, and destroy all forts within twenty miles of the Rhine. Prussia is to guarantee two million rations to Paris daily.

The 'World's' special dated Brussels, the 12th, says: The peace negotiations now pending at Versailles are to be discussed at the London Conference. General Chauzey, in the battles of the 10th and 11th, had two corps engaged and sixty thousand men in reserve.

American Despatches.

War Claims Bill.

WASHINGTON, Jan. 13.—A Bill introduced by Mr. Buffington in the House to-day, providing for the appointment of Commissioners to determine the damages sustained by rebel cruisers, authorizes the President to appoint three Commissioners, who shall meet at Washington on or before April 1st, 1871, but who may subsequently meet at New York, Boston or New Bedford. They shall examine claimants and witnesses under oath. All claims must be presented within six months from the day of first meeting, and all claims must be decided within a year of that time. The decision of any two of the Commissioners shall be final. The Commission shall hear counsel appointed by the Government of Great Britain. All sums awarded by the Commission shall be paid by the United States within 18 months after the first meeting of the Commission in 20-year bonds, bearing 5 per cent interest. The Secretary of the Treasury is authorized to issue bonds amounting to twenty million dollars for the payment of claims, which shall be known as British Bonds. A copy of the Bill, when it passes, is directed to be furnished to the British Government.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4¼ P. M.

LONDON, Jan. 13.—A telegram just received from Versailles brings the important news that the mines and counter-mines around Fort Mont Valerien are in such close proximity that a collision is momentarily expected.

Extraordinary efforts are being made to place the entire British navy in seaworthy condition. The work on all ships now in course of construction or repair at the several dockyards has been ordered to be pressed to completion by the Admiralty.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady WHO, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of the race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Fashion*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the waste going on in the brain, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal.

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77-2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove herself the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our readers to say: "A Blessing on Mrs. Winslow," for helping her to say "A Blessing on Mrs. Winslow," for helping her to relieve and escape the grinding, polishing and teething service and escape the grinding, polishing and teething service and escape the grinding, polishing and teething service

Pew Talk and Church Scandal.

That tall young fellow's here to-day.
I wonder what's his name?
His eyes are fixed upon our pew—
Do look at Sally Dame!

Who is that lady dressed in green?
It can't be Mrs. Leach!
There's Mr. Jones with Deacon Giles!
I wonder if he'll preach!

Lend me your fan, it is so warm—
We both will sit to prayers—
Mourning becomes the widow Ames!
How Mary's bonnet flares!

Do look at Nancy Stooper's veil,
It's full a breadth too wide;
I wonder if Susannah Ayres
Appears to-day as bride?

Lord, what a voice Jane Rice has got;
Oh, how that organ roars!
I'm glad we've left the singers' seat—
How hard Miss Johnson snores.

What ugly shawls there are in front;
Do you observe Ann Wild?
Her new straw bonnet's trimmed with black;
I guess she's lost a child.

I'm half asleep—that Mr. Jones!
His sermons are so long;
This afternoon we'll stay at home
And practice that new song.

Built According to Contract.

People who have built houses for themselves and in the never varying experience of all, overrun the contractor's estimate, may find some consolation in the fact that there was one man who had his house built exactly as he ordered it, and didn't alter a line of his original plan, or overrun the original contract price.

This was a peppery old sea-captain, who sketched out his own plans, being something of a draftsman, for his own modest two story, green blinded wooden mansion, and summoned his carpenter and demanded what he would charge to build a house for him exactly after that plan, to be done in six months.

'But, captain,' said the knight of the foreplane, 'there are no —'

'Don't *but* me,' exploded the captain, 'I want the house just according to my plan.'

'Certainly' said Shaving, 'but you will let me put in——'

Not one single thing, roared the captain. 'I pay you to build the house exactly as I have drawn the plan. I won't have anything put in; obey orders if you break owners.'

'Very well, so be it,' said Shavings, rather nettled, and the price was fixed for a dwelling exactly according to plan, to be finished in six months' time, and the captain sailed away. Returning home he was waited on by the builder, and the new mansion visited. Its exterior was quite correct, pretty green blinds, neat door, with trellis and all complete, and so were first floor entry and rooms. The captain was profuse in commendations. And now, said he, 'we will go up to the chambers.'

'All right,' said Shavings, 'come outside to the ladder.'

Outside! why ships what do you mean by that? I want to go upstairs.'

'Can't do that sir, there are no stairs.'

'No stairs!' exclaimed the astonished mariner, 'no stairs!'

'No,' replied the imperturbable builder; 'you refused to have a single thing put in nor down in the plan, and there are no stairs. Obey orders if you break owners.'

The captain was fairly caught, for in his drawing he had utterly forgotten this important portion of his dwelling and his peppery temper had prevented the carpenter from pointing it out to him. Since then, it is said, the captain always gets in a passion when any one stares at him.

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical Intelligent working men. The Household Department is under the care of a very Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and moral principles.

CIRCULATION — TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $10; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly augmented and otherwise improved it—not being now printed on new type from the foundry of R. & T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished daily on the live topics of the day, by experts in different departments of Home and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, etc., etc., carefully prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for	
The latest Editorials	The Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic	The choicest Literature,
Despatches,	

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than any the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still be the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

Two vols., Royal Octavo, 1600 pages, and numerous Engravings. Price $7. ☞ Mailpost-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Means and Ends are somewhat hazy, has got the mump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

J. A. HARTE, Druggist,

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and customers, and other fo pleasure on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Mr. Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The Rooms, being well appointed and ventilated, are cheerful for families; while the message will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionably reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is now one of the largest, cheapest and best journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Horticulture and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

In its pages all discoveries will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of Entertainment and Instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are consistently enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 00 each, $20, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to appriise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep au courant of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best perfect periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and not original, and no blind copies of French and German models.

It gives each every number full-sized patterns, which the supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

Its stories are high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Casket* affords valuable and useful information upon every subject.

It is the best magazine for the millinier and ornamentation of the household; the best magazine for floriculture, original music, embroidery, and other topics interesting to ladies—all calculated to assist in making our homes attractive.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 36 inches, entitled "The Picnic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, sent free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Weiler having purchased a large interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the press, has become familiar as a household word among the farmers of Canada. Among the able aids, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other prominent Authors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jeanneret, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—19 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 24 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

Mr. Blake, Dr. Ryerson and the School System.

(SECOND LETTER.)

To Edward Blake, Esq., M.P.P.

SIR,—In proceeding to correct your misrepresentations and refute your imputations I notice, first, your statement in regard to the object and grounds of the provision of the Bill, and also your remark, that you felt "bound to point out a very great fallacy in the argument of the Chief Superintendent in support of that clause of the "Bill."

Sir, what had my argument, whether "a very great fallacy" or not, to do with the provisions of the Bill? My argument might have been very fallacious; yet the provisions of the Bill (with which alone Parliament has to do) was very excellent. But you thought to damage the Bill by stepping out of your proper course to attack my argument; and in doing so you misrepresented what I said, as well as the very grounds of that provision of the Bill. I never proposed, as you represent, "to step in and make the free schools in spite of the wishes of the people." Again you say, "it would be better to leave the adoption of the principle of free schools to the people themselves rather than have a law on the subject." Now, sir, if you had read my remarks, and had not misrepresented them, it would have been seen that I recommended the provisions of the law on the subject, because the people, by their votes, had made the schools free, but could not keep them free without the repetition of the discussion and vote on the question at each annual meeting in each of the 4,000 school sections in which the country is divided. The rate-payers say they have discussed and voted on this question often enough during the last twenty years; the minds of the great majority have been long made up, and often expressed, and they say this element of discord ought not any longer to be perpetuated, and that their oft expressed wishes should now be embodied into law, and the question be thus set at rest. Such a provision of the law you oppose; and in doing so, you not only oppose what I know to be the wishes of five sixths if not nine-tenths of your constituents, but you misrepresent my words and the very ground on which the provision of the Bill has been recommended.

I have prepared this provision, not only in accordance with the expressed wishes of a very large Select Committee of the Legislative Assembly, (but which Committee you avoided attending,) but in accordance with the expressed wishes of the County School Conventions held throughout the Province in 1869—Conventions largely attended by Councillors, clergy, trustees, &c., &c., and among whom there was wonderful unanimity on this subject. In some of the conventions, it was proposed to exempt the cities and towns, but the proposition seemed to receive little favor.

I have therefore felt it my duty to draw up the clause of the Bill in general terms; but I have at the same time, felt myself at liberty to state, as my personal opinion, that there is a considerable number of persons in cities and towns who do not wish the free clause to apply to them; and I do not think any serious disadvantage would result from simply making this provision of the law apply to all Township School Sections. In cities, towns and incorporated villages, the Boards of Trustees decide as to whether the schools will be free or not; but the Trustees in rural sections have no such power; but must annually submit the question to popular discussion and vote, which they think they have done often enough. I think the opinion of the representatives of cities, towns and incorporated villages (among whom you can hardly be ranked) might be ascertained as to whether they would wish their municipalities not to be included in the free school clause of the Bill.

2. You denounce the compulsory clause of the Bill, and declare it inoperative. If so, it can do no harm; but my belief is that the very existence of it will accomplish to a great extent its object, without any legal proceeding to enforce it. We have no experience on this subject in this country; but I have given, in my special report on Systems of Instruction in both Europe and America, what are the provisions of their laws and the administration and success of them on this subject. You say again and again, 'I don't believe;' but you give no reason for your 'I don't believe' any more than the man who said 'in his heart there is no God.' You *don't* believe, because you *won't* believe; and you won't read anything to convince you of unbelief. None so blind as he who *will not* see, and shuts his eyes against the experience of nations.

3. You represent that the certificates of teachers would be 'dealt with at my pleasure'—and that, Sir, in the teeth of the provision that first and second class certificates of teachers should be *permanent*, during life or good behaviour, and therefore not at my 'pleasure,' or at the pleasure of any authority in the land; and you must know if you would read, that I have never had authority, and never proposed to have authority, either to give or to cancel any teacher's certificate at my own 'pleasure.'

4. Then you denounce the idea of "School Inspectors working under instructions from the Council of Public Instruction." In this your ignorance of what you are talking about is manifest, from the fact that Inspectors of schools have always acted under instructions from the Chief Superintendent, by regulations made by the Council of Public Instruction, and that no change whatever is proposed in the

respect: and this system (as I shall hereafter show) has been sanctioned in this country ever since 1843, and in the States of New York and Pennsylvania in all past times, and is absolutely necessary to the harmony and efficiency of any School system.

4. Again, you proclaim war against the provision empowering the Council of Public Instruction to prepare a programme of "examination of teachers," and that for the examination of teachers, "the teachers in the country would soon be expressing their indignation at being so humiliated." In your profound ignorance of the history of our own school system, as well as those of other educating countries, you seem not to be aware that this very provision has been part and parcel of our school system during the last twenty years; for the 8th clause of the 28th section of the School Act of 1850 authorizes the Council of Public Instruction "To make such regulations from time to time as it shall deem expedient for the *organization, government and discipline* of the Common Schools, the *classification of schools and teachers* and for school libraries throughout Upper Canada." Under this provision of the law has the programme for the examination and classification of all the teachers been prepared and conducted since 1850—to the elevation of both the character and position of teachers, and the great interests of schools. Nor do you seem to be aware that, in deference to the earnest solicitation of teachers, the following 17th clause of the School Act of 1865 was enacted :—"It may and shall be lawful for the Council of Public Instruction, with the sanction of the Governor in Council, to make regulations for giving meritorious Common School teachers certificates of qualifications, which shall be valid in every part of Upper Canada until revoked." Not yet do you seem to know that the teachers themselves have asked for this very provision of the law. At the annual meeting of the Ontario Teachers' Association, a committee was appointed to examine into and report upon the proposed provisions of the Common School law. The report of the Committee, which was adopted by the Association and signed by the President and the following teachers, namely, "A. McMurchy, A. M.; John Seath, B. A.; Wm. Anderson, Samuel McAllister," referring to the provision of the Bill denounced by you as humiliating to teachers, and exciting their indignation, remarks as follows: "In our opinion the Council of Public Instruction should have the supervision of the modes of examination adopted by County Boards for the sake of rendering them uniform, and because some County Boards as at present constituted, make use of methods which do not command the confidence of those interested in such examinations." Thus your reckless assertion is made not only in ignorance of the provisions of the School Law in past years, but is contradicted by the teachers themselves in their annual Association.

2. In equal ignorance of the law is your declamation against apportioning and paying to the Grammar Schools according to *average attendance*—the principle which has been acted upon in apportioning and paying the Grammar School Fund during the last *seventeen* years; and the Bill does not propose the slightest change of the existing law since 1853, in the mode of apportioning and paying the Grammar School Fund, except to aid Grammar Schools in the smaller towns and villages, by limiting to the $1,000, the apportionment made to such places as Toronto, where they now receive $1,800, and where they are much more able to help themselves than the smaller country towns and villages.

7. Equally baseless is your assertion that the Common Schools are to become High Schools, when, according to the proposed programme of studies in each, the lowest class in High School will be one class higher than the highes class in the Common Schools, and pupils can only be admitted into the High School from the highest class in the Common Schools; so that the Common Schools will be feeders to the High Schools, the same as the latter are feeders to the University, as well as preparatory for the various pursuits and employments.

8. Then, as to your unfounded assertion about the "Grammar Schools being severed from the University,"—on which ground you object to the programme of studies in them being provided by the Council of Public Instruction. But you unwittingly say—"Heretofore, the Grammar Schools prepared students for the Universities, and were, in fact, the nurseries of that crown and glory of our educational institutions." You say you "have seen, with feeling of rejoicing, the annually increasing numbers coming up to the University from all parts of the country." When you made these statements and admissions, you seemed to have been ignorant of the fact that the very programme of studies by which the Grammar Schools have prepared for the students for the University and afforded you such feelings of rejoicing, was prepared by the very Council of Public Instruction which you assail, and that very law providing for such a programme was prepared by the very man whom you denounced. In the Grammar School Act of 1853, is the following clause prepared by myself :—

"In each County Grammar School, provision shall be made for giving, by a teacher or teachers, of competent ability and good moral instruction in all the higher branches of a practical English and commercial education, including the elements of natural philosophy and mechanics, and also in the Latin and Greek languages, and mathematics, as may be required to prepare students for University College, or any College affiliated to the University of Toronto, according to a programme of studies and examinations and regulations to be prescribed by the Council of Public Instruction for Upper Canada, and approved by the Governor in Council. And no Grammar School shall be entitled to receive any part of the Grammar School Fund which is not conducted according to such programme and rules."

This clause prepared and recommended by myself is unrepealed by the proposed Bill, and will be the rule of action for the Council of Public Instruction in future as it has been the last seventeen years. But as the higher English education part of the clause, has never been carried into full effect, it is proposed to render it effective by making the Common Schools feeders to the High Schools for the children of those parents who may wish to give them a higher English education. And in order that both departments of the High Schools may be made effective, it is proposed in the programme of studies, not only to specify the subjects and the order of them, but the number of hours which shall be devoted each week to the teaching of each subject, according to the usuages of the best English and American classical, as well as English schools—thus rendering the High Schools as classical schools more effective than they have ever been as Grammar Schools, while at the same time the higher English education will be duly provided for. Of course teachers must be employed to teach each of the subjects of the programme the prescribed number of hours each week.

Under such a system, every child in the land, whether intended for the University or not, will be first grounded in the elements of an English education—reading, writing, arithmetic, and his native language. The last educational commission appointed by the Queen, with Lord Derby at its head, and including some of the first scholars and educationlaists in England, have recommended that pupils intended to learn classics, should be first thoroughly grounded in what was prescribed by the Provincial Council Committee of Education for the elementary schools—including the subjects of our Common School programme —occupying a boy until he is from 11 to 13 years of age.

There is nothing in what you have said that shows the least concern for Common Schools, or even for English education at all; I am not aware that you have ever been in a Common School, or attended a Common School examination, or distributed prizes, or ever evinced the slightest interest in the subject, except your partizan speech and in that you have put in an affected plea for the classics, insinuating that I was discouraging them—the reverse of fact; as revisions of the law, in 1853, and the progress of the Grammar Schools during the last seventeen years demonstrate.

9. Furthermore, you denounce any provision for teaching, in any of the public schools, the "elements of natural history, of agricultural chemistry, of mechanics, and of agriculture :" and you declaim on the impossibility of a teacher teaching these subjects, in addition to the other subjects of a Common School education. Your representation of the intentions of this clause is just as unfounded as your representations of other provisions of the Bill. There is nothing in the 13th clause of the Bill, nor was it ever intended to *require* the teaching of the subjects in all the Common Schools—nor, indeed, in any single school in the Province, unless the trustees desire it. But as there has been an earnest demand from different quarters for teaching these subjects in public schools the Government has agreed to recommend the grant of a sum of ten thousand dollars (to begin with) to encourage the teaching of such subjects, according to a specified programme to be provided, and by a teacher who must, on examination, obtain a special certificate of qualification for teaching these subjects in addition to the senior division of pupils in his school whose parents may desire it, when a special grant from the $10,000 will be made to such school, if, on the inspector's examination and report, these subjects have been efficiently taught to a certain number of pupils. The programme for the High Schools will, of course, be somewhat more comprehensive than that for the Common Schools; but whether these subjects are taught in any of the High Schools will be a matter at the option of the local Trustees. In this I have followed to a small extent the counsel of the Queen's School commissioners, who have recommended those subjects to form a part of the teaching in all the elementary schools in England, and even to small boys, and give at great length their views and programmes for carrying it into effect. There are also text-books and provisions for teaching these subjects in the American Common and High Schools of the neighboring States. But you repudiate (unless ignorant of) the example of both England and the United States, in order to accomplish a party object and gratify animosity against me.

TO BE CONTINUED.

IRELAND.

LONDON, Jan. 14.—A Prussian war ship was sighted off Waterford, Ireland, to-day. She was apparently in full chase.

It is reported that the political prisoners Luby, O'Leary, McCaffery, Powers and Thomas Burke, who have recently been confined at Dublin, have been released unconditionally. They will sail from Queenstown to-morrow in the steamer Russia.

The Conference.

LONDON, Jan. 14.—The Conference on the Eastern Question is summoned to meet next Tuesday.

BRUSSELS, Jan. 14.—The Belgian Cabinet has earnestly sought to extract a universal peace from the London Conference about to assemble.

American Despatches.

Arrived.

Admiral Porter.

The 'Hornet' at Havana.

NEW YORK, Jan. 13.—The steamer 'City of Baltimore,' from Liverpool, has arrived.

WASHINGTON, Jan. 15.—Admiral Porter is much better this evening, and is now out of danger.

HAVANA, Jan. 15.—The 'Hornet' landed her cargo on the 13th at Puerto Boya. The Spanish troops arrived shortly after wards and captured the entire cargo, killed several of the expeditionists, and are now in pursuit of the remainder. The 'Hornet' put to sea.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks :—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-ar-Th

—Arms and ammunition to the total value of twelve millions of dollars have been shipped from New York for France, and other vessels are loading the same cargoes.

Daily Intelligencer.

BELLEVILLE, MONDAY, JANY. 16.

☞ *SEE FOURTH PAGE.*

ARRIVAL.—The steamship Prussia arrived at Portland at 5 p. m. on Saturday.

BIG DIVIDEND.—The Montreal Telegraph Company at its annual meeting in Montreal announced a stock dividend of 33½ per cent.

ELECTIONS IN MANITOBA.—The Writs for the election of members of the House of Commons have been issued at Ottawa and sent to Fort Garry.

SCHOOL TRUSTEES.—A meeting of the new Board of Common School Trustees, for the purpose of organization, will be held at the Town Hall to-morrow night at 7½ o'clock.

SNOW.—The roads, which had became bare in many places under the influence of the late thaw, will be greatly benefitted by the few inches of snow which fell this morning.

TORONTO.—Alderman SHEARD was unanimously elected Mayor of the city of Toronto, at the organization to-day. The former Mayor received a vote of thanks for his conduct during the past year.

ROUTE TO RED RIVER.—It is stated that the Government will, next summer, place and run a steamer on Rainy Lake, and another on Lake of the Woods, besides improving the portages on the Dawson route.

FROM BRITISH COLUMBIA.—Advices from British Columbia received at Ottawa, say, that within two weeks the new Council will accept the terms of Confederation, and despatch the delegates to Ottawa to arrange for the incorporation of the Colony with the Dominion.

WRECK OF THE SAGINAW.—The United States steamer *Saginaw* was, on the morning of the 29th October, wrecked on Ocean Island, in the Pacific, near the Midway Islands. The vessel broke up so rapidly that the crew had a narrow escape, having only time to get a few provisions into the boats.

TESTIMONIAL TO SIR JOHN A. MACDONALD.—A telegram from Ottawa, Jan. 14th says: "The sum already subscribed in aid of the testimonial to Sir John A. Macdonald exceeds $23,000, and it is pleasing to have to chronicle that the testimonial includes the names of many leading Reformers."

SOIREE TO-MORROW EVENING.—Our many readers will, on their own account, if on no other, remember the Soiree to be held in the Wesleyan Church, Bridge Street, on Tuesday night. There is an ample programme. The facilities which the church affords, ensures comfort, while the ability and zeal of the lady directors assure enjoyment.

DR. ORONHYATEKHA.—A large meeting was held on the night of the 13th inst. on the Indian reserve, Tyendinaga, when the friends of Dr. Oronhyatekha presented him with a gold watch, valued at $200. The presentation was accompanied by an address expressing regret at his intended removal to Stratford. The watch is a magnificent one, from the house of J. G. Joseph & Co., Toronto. Rev. A. Campbell also presented the doctor with a splendid family Bible. We shall publish the address as soon as received.

EXPLANATION AND APOLOGY.—Our readers are already aware that Mr. Jarvis, station-agent at Belleville, commenced a suit against the publishers of the WITNESS for having erroneously published his name among others who were arrested by the Grand Trunk authorities; and we have now to explain that (believing all such matters should be settled amicably) we requested a friend in Belleville to represent to Mr. Jarvis that the error with respect to his name was involuntary and unintentional, occurring as it did in our daily press despatch from our regular Toronto correspondent, who copied it with others from the "Globe" of the same morning, and that when the "Globe" of the next day arrived with the retraction of the report, so far as Mr. Jarvis was concerned, we promptly and conspicuously copied that retraction. On this representation, Mr. Jarvis consented to withdraw his action, our publishing an apology, which we hereby do, expressing our sincere regret that we were the medium, however unconsciously and unintentionally, of publishing a false report concerning him.

The above apology was published in the Montreal *Witness*. This is what the *Globe* should have done, but it never, after having once slandered a man, retracts, or apologizes. In addition to the above the *Witness* paid all the costs. The action against the *Globe* will be pushed by Mr. Jarvis.

—Small-pox is seriously on the increase at Ottawa.

—Discount on American invoices until further notice is 10 per cent.

—The ships Calliope and Crescent, collided a day or two since in the Mersey, England, and both sunk.

—Mr. and Mrs. Serviss, of Matilda, celebrated their 'golden wedding' on the 2nd inst., that day being the fiftieth anniversary of their marriage.

—Dr. Knight, formerly of Belleville, and late of Napanee, lately made a skedaddle from that town, leaving his creditors in the lurch.

—Mr. Henry J. Jeffrey, of the Galt 'Reporter,' who went to Red River as a private in No. 2 Company, Ontario Battalion, has returned to his home from Fort Garry.

Town Council.

MONDAY, Jan. 16.

In accordance with the provisions of the statute, the Council met at noon to-day for the purpose of organization. There were present :

Thomas Holden, Esq., Mayor, and councillors as follows :

BALDWIN WARD.—Reuben S. Patterson, John J. B. Flint and John L. Reed.

KETCHESON WARD.—John Lewis, Samuel B. Smith and William Legate.

SAMSON WARD.—Dr. Wm. Hope, George E. Henderson and W. A. Foster.

COLEMAN WARD.—Samuel J. Ball, Peter Fahey and J. G. Vandusen.

The Councillors having subscribed the declaration, the Mayor took the oath of office and was conducted to the chair by Messrs. Dr. Hope and John Lewis and addressed the Council as follows :

He had not come prepared with a formal speech, but there were a few subjects to which he would call the attention of the Council at present, as probably they would be called upon to take action on some of them during the year.

The matter of a public cemetery ought to be discussed. The committee appointed last year had made considerable progress, and the arrangements made by them would probably be productive of satisfactory results. It was not necessary for him to multiply words on the necessity and desirability of a cemetery for the town.

The project of the establishment of an Industrial Farm, a place where the poor, who were too able to work, would be obliged to contribute by their labor towards their own support, would probably come before the Council. The expenditure heretofore had been conducted in a manner unsatisfactory to him. By the establishment of an institution of this kind, persons able to work would be furnished with the means of assisting in their own support. The movement had engaged the attention of the Town and County Councils both of which had appointed Committees to confer on the subject. It would hardly be fair for the Town to assume the responsibility, as the applicants for aid were not generally residents of Belleville, but of the County, and strangers. If this institution were established there would not be so many applications for relief.

Another matter was the financial arrangements between the Town and County, which had engaged the attention of both Councils for some time. The term of agreement would shortly expire—it had, indeed, in some points, and would shortly in others. He thought the Town was no more to blame than the County. Last year the Town appointed a Committee of conference, but he was not aware that the County had done so, though the subject had been discussed the year previous. It was not desirable to have bad feeling in the matter; there was no desire on the part of the Town to give cause for dissatisfaction. The condition of the Court House hill was not creditable to either Town or County. The grounds belong to the County, and the Town had no power to interfere in the matter. When the County was asked to put these grounds in repair, the reply was that it would be done so soon as financial difficulties between Town and County were arranged.

It was his duty as Mayor to act as a Director of the Belleville Gas Company. He would say that the Gas Company was never in so prosperous a condition as it now is, and the stockholders were realizing handsomely. This prosperity was likely to continue, as it was probable that arrangement would soon be made with the Government for the supply of gas to the Deaf and Dumb Asylum, where a large quantity would be consumed. It was also probable that the pipes would soon be laid to the railway station. Any means whereby the Gas Company would be benefitted would also benefit the town. He expected no application for assistance, but as the town held a large amount of stock, it would be wise to assist the Company by their countenance, but thought any money advance he regarded as out of the question.

He called attention to the loose way in which the rents of the Town were collected. This had been neglected owing to a difference between Committees as to whose business it was to see to the collection of these rents. The consequence of this was that many lessees who were well able to pay, were largely in arrears for rent. This state of things ought not to be allowed to continue. There were several leases of water lots to expire this year. On some of these buildings, had been erected by the lessees. The leases contained provision that lessees shall receive remuneration for the buildings erected by them, the amount of which shall be left to arbitration. It would be a question for the Council to consider whether to let these lots again; for if the Grand Junction Railway was completed—which he had no doubt it would be soon—then it would be worth while to consider whether to relet this property or to utilize it in connection with that scheme. The leases expired in May, and it would require a great deal of prudence in arbitrating with regard to these matters.

There was another project worthy of encouragement—direct steam communication with Picton. The Council ought to lend its aid to this scheme. He had been informed that Mr. Gilderseeve was now building a steamboat, which would make daily trips, leaving Picton at about 6 o'clock in the morning, arriving here in due time for market and returning in the afternoon. He had also been spoken to by a person respecting the establishment of a daily boat to Trenton, and had answered that the enterprise would be favorably entertained by the Council, as he was in favor of anything which would build up the trade of the town.

There was yet another important matter, which should be attended to at as early a day as possible. He referred to the improvement of the market. The building now used as a butter market ought to be torn down and a more substantial structure erected. In summer it was too hot for comfort, and in winter it was too cold. If a proper building was constructed people would be induced to come here. The state of the finances, would be thought, warrant the making of this proposed improvement.

The question of the water supply was also one of importance. The present system of digging wells here and there was only throwing money away. What was wanted was a a thorough system of water works, whereby the town would be properly supplied. In case of fire at a distance from the river, there were no adequate means of suppressing a fire and as the town was extending,—new buildings being put up in all directions—it was desirable to afford security to property. In a sanitary view, nothing was so injurious to health as impure water.

It was a question whether it would not be desirable to sell the harbor fees and dues in the same manner as the market dues. The sale of the market fees had been a failure, because of the fees not having been collected. At the present time means were being taken to enforce payment.

The Grand Junction Railway was a matter of great importance, and it would be wise for the Council to aid its construction by all the means in their power. Our prosperity and welfare depended upon the opening up of trade with the west and with the back country, and the Council ought to assist in the successful completion of that enterprise.

For years the idea of the construction of the Murray Canal had been laughed at; but at the present there was every prospect of the work being undertaken. He looked upon the construction of this canal as of great importance to the town and this portion of the country. It might not be unwise for the Council to express its wishes on the subject to the Dominion Government or to the Canal Commissioners lately appointed.

He then referred to the position of the town in regard to the Municipal Loan Fund, saying that while Brantford and other towns had paid nothing, Belleville had $12,000 to her credit in the sinking fund. He did not think it fair that one town should pay all its indebtedness and others escape which it would be a gross injustice to allow them to do. The matter should engage their attention.

He then, in conclusion, said he should endeavor to faithfully discharge the duties of his office, and in doing so would depend on the forbearance of the Council. During his term of office, he trusted there would be harmony prevailing in the deliberations of the Council. The last two or three Councils had been very successful, which result he attributed to their harmony of action. It was his intention to enforce the rules of order laid down for the guidance of the Council liberally—not harshly and severely. He would suggest that new rules of order be printed for the use of the Council, as the present ones were almost illegible. The business at this meeting would be the appointment of Auditors.

On motion of Mr. Henderson, seconded by Mr. Flint, a vote of thanks was tendered to the Mayor for his able address.

Mr. Flint then moved, seconded by Dr. Hope, the appointment of the following gentlemen as a Committee to strike the Standing Committees and report to the Council this evening: Messrs. Henderson, Vandusen, Flint, Foster and Lewis.—Carried.

Applications for the office of Auditor were received from Messrs R. Newbury, A. Dunlop and J. B. Bentley.

The Mayor appointed David Holden one of the Auditors

Mr. Newbury was appointed by the Council as the other Auditor,

A By-law confirming these appointments was introduced and passed.

The Council then adjourned until 7½ o'clock this evening.

Rye flour steady.

Wheat firmer; receipts 7,000 bus; sales 25,000 bus at $1 49 to $1 50 for new spring; $1 49 to $1 53 for winter red and amber western; $1 70 for white state.

Corn scarce and decidedly firmer; receipts 12,000 bus; sales 44,000 bus at 81c to 83c for new mixed western.

Barley quiet; sales 14,000 bus state at 90c; Bay of Quinte at $1 10 to $1 12.

Oats quiet; receipts 7,000 bus; sales 19,000 bus at 50c to 62c for Ohio state and western.

Pork quiet at $21 75 to $21 50 for new mess; $19 50 for old mess.

Lard a shade firmer at 13¼c to 13¾c for steam; 13c for kettle rendered.

Butter steady.

Cheese quiet.

For the Intelligencer.

Sabbath School Exhibition at Canifton.

Last evening we had the pleasure of attending a Sabbath School Exhibition and Concert, in the Wesleyan Church at Canifton, because of the fees not having been collected. At the present time means were being taken to enforce payment.

The Grand Junction Railway was a matter of great importance, and it would be wise for the Council to aid its construction by all the means in their power. Our prosperity and welfare depended upon the opening up of trade with the west and with the back country, and the Council ought to assist in the successful completion of that enterprise.

For years the idea of the construction of the Murray Canal had been laughed at; but at the present there was every prospect of the work being undertaken. He looked upon the construction of this canal as of great importance to the town and this portion of the country. It might not be unwise for the Council to express its wishes on the subject to the Dominion Government or to the Canal Commissioners lately appointed.

He then referred to the position of the town in regard to the Municipal Loan Fund, saying that while Brantford and other towns had paid nothing, Belleville had $12,000 to her credit in the sinking fund. He did not think it fair that one town should pay all its indebtedness and others escape which it would be a gross injustice to allow them to do. The matter should engage their attention.

He then, in conclusion, said he should endeavor to faithfully discharge the duties of his office, and in doing so would depend on the forbearance of the Council. During his term of office, he trusted there would be harmony prevailing in the deliberations of the Council. The last two or three Councils had been very successful, which result he attributed to their harmony of action. It was his intention to enforce the rules of order laid down for the guidance of the Council liberally—not harshly and severely. He would suggest that new rules of order be printed for the use of the Council, as the present ones were almost illegible. The business at this meeting would be the appointment of Auditors.

On motion of Mr. Henderson, seconded by Mr. Flint, a vote of thanks was tendered to the Mayor for his able address.

Mr. Flint then moved, seconded by Dr. Hope, the appointment of the following gentlemen as a Committee to strike the Standing Committees and report to the Council this evening: Messrs. Henderson, Vandusen, Flint, Foster and Lewis.—Carried.

Applications for the office of Auditor were received from Messrs R. Newbury, A. Dunlop and J. B. Bentley.

The Mayor appointed David Holden one of the Auditors

Mr. Newbury was appointed by the Council as the other Auditor,

A By-law confirming these appointments was introduced and passed.

The Council then adjourned until 7½ o'clock this evening.

The War in France.

Midnight Despatches.

Defeat of the Army of the Loire.

The bombardment of Paris.

NEW YORK, Jan. 15.—A Brussels despatch to the World, dated the 13th, says: The bombardment of Paris yesterday was terrible. The whole district south of a line drawn through Porte Maillot, the Champ de Mars, the Hotel des Invalides, the Luxembourg and Fort de Bicetre is reached with a rain of shells. Other portions of the city are perfectly safe. The forts outside of the city show signs of distress.

BORDEAUX, Jan. 14.—A despatch from Lavel dated the 13th, says that de Chanzy is retreating to new positions in excellent order. The corps of General Jaurairberry crossed the river Sarthe on Thursday, fighting all the time with three divisions of the Duke of Mecklenburg's army.

NEW YORK, Jan. 15.—A Brussels despatch to the World, dated the 13th, says that de Chanzy's losses during the three day's fighting were 16,000, and those of the reserve very heavy.

NEW YORK, Jan. 14.—A cable special dated LeMans on the 10th, (midnight) says:—

"The army of the Loire, the hope of France, has been defeated in a bloody battle within seven miles of this city. The report of cannon was heard in the city all day. The entire population of LeMans crowded the housetops and suburbs of the city and all the thoroughfares, and the progress of the fight was anxiously watched. Although the people are accustomed to the roar of cannon, there never was seen such excitement. At 9 o'clock in the morning the right wing of the French army, which was on the east of LeMans was suddenly attacked by the vanguard of the Prussians, which emerged from a wood on the extreme right of the French. Upon the alarm being given the advance of the French Infantry wheeled into line of battle, the artillery pushing forward through the intervals made in the several ranks. The cavalry took positions on the right and left wings. A more perfect line of battle could not have been formed by the finest army. The artillery were well supplied with ammunition and the infantry with one hundred rounds per man. The supply trains were conveniently posted and really bloody work began. The battlefield was a valley. The two armies occupied the heights opposite each other. The French line was semicircular and extended twelve miles, overlooking the valley which was covered with twelve inches of snow. On the opposite heights the Prussians held an almost similar position. Shortly after nine o'clock the Prussians began a furious cannonade from the woods near the extreme left, flanked by an immense force of cavalry, the woods concealing their position, where the troops were massed with an evident intention of turning Chanzy's right. The artillery fire continued on both sides until the ammunition of the Prussian artillery was almost exhausted, when the Prussians became furious and gave the order for an advance of the infantry. The French advanced with equal rapidity along their whole line to meet the Germans in a fair hand-to-hand musketry fight. The Germans were cool and collected; the French impetuous and behaving bravely, but near noon the Mobiles began to waver, and the Fre-ch, no longer able to hold their position began to retreat. Meanwhile the dead and wounded strewed the ground, the fields were red with blood, the carnage was fearful. 15,000 French had fallen before five o'clock when the whole French army was in full retreat. It is estimated that the French and German troops actually engaged numbered 60,000 on each side. Gen. Chanzy is reported sick, but he is still in command and it is expected that another battle will occur to-morrow.

Morning Despatches.

Prince Joinville.

Duke of Chartres.

A Regency talked of.

Bismarck's Reply.

A Treaty talked of.

Chanzey retiring in good Order.

Account of the Battle.

NEW YORK, Jan. 15.—The Herald's special from London says: Prince Joinville has just returned from France. He went to Chanzy's army and requested a command. Chanzy welcomed him, but Gambetta ordered him to leave the country immediately.

The Duke of Chartres is now in France under an assumed name.

The restoration of a regency and the Legislatif Assembly are much talked about. It is said a restoration contemplates a close alliance with Prussia. Bismarck has recently been approached on the subject, but entirely refuses to commit himself to restoration. He said when Paris falls we shall find a *de facto* Government if it is willing to accept peace, and elect a constitutional Government to confirm the terms. We will not interfere with the internal affairs of France. If on the other hand the temporary Government is inclined wickedly to prolong this war, we will be willing to treat with the Empire which has not yet been constitutionally set aside.

The Herald's special from London the 14th, says: A treaty between Prussia, Russia and the French Empire is talked of, based upon the following terms:

1st, Modification of the commercial treaty of 1860.

2nd, Oriental question to be henceforth regarded as secondary matter by France.

3rd, That portion of Belgium known as French Flanders, to be annexed to France in lieu of Alsace and Luxembourg, to be annexed to Germany.

It is supposed the latter proposition will satisfy the *douce propre* of France and reconcile people to re-oeration.

LONDON, Jan. 14.—Gen. Chanzy rallied his disordered troops near Le Mans, and is retreating in good order.

The New York *Herald's* correspondent writing from the headquarters of the second army of the Loire at Le Mans, at midnight, on the 11th inst., gives the following particulars of the second battle between Chanzy's forces, and the German army under Prince Frederick Charles. He writes:—

This has been one of the most eventful days in the history of France, during the present war. It is probable that one of the most terrible battles fought since the struggle began, closed at nightfall of this day. After the defeat of yesterday Gen. Chanzy, displaying much energy, rallied his broken columns, and having received reinforcements determined to strike another blow to retrieve his fortune; knowing that the whole hope of France centered upon the ability of his army to break through the strong opposition of the red Prince, and advance to the relief of Paris. After a night of increasing labor and anxiety, daylight found the French forces prepared for the conflict. Their army consisted of three corps, 16th, 17th and 21st respectively, under command of Admiral Joureguiberry and Gen. Colomb and Jouffrey. These corps averaged 50,000 men each, making a force of 150,000 men under the control of Gen Chanzy. By 10 o'clock in the morning the Jouregueiberry corps had taken up a position on the right bank of the river Huisere. General Colomb on the plateau of Auvours and General Jouffroy on the right, covering the village of Brette. The Prussians advanced along three roads and are said to have been under the command of Prince Frederick Charles himself, apparently 100,000 strong. Soon after 10 o'clock sharp firing was opened by the Prussians from well located batteries on the left of the French. It was replied to with spirit, and very soon a large force of German infantry, flanked by cavalry, advanced under care of a heavy artillery fire, which was kept up as the advanced Jouregueiberry position. The assaulting columns were met by a fierce artillery fire from many guns, including a number of mitrailleurs of the new patent. The struggle now became exceedingly severe, and was well contested, but although the uerman suffered heavy loss, they finally succeeded in driving back the French, capturing early two guns and holding the important position near the Rouen. General Chanzy perceived the danger which threatened his position, moved forward his reserve artillery to the support of Jouregulbery. This opened a terrific fire which checked for a while the further advance of the Germans in that direction.

Two or three severe assaults were made by the Germans to secure further advantages, the object being to take the position held by the French at La Tillere. The French, however, were strongly posted and fought with great courage and determination. Each assault was repulsed with serious losses for the Germans, the French also losing heavily. Meanwhile an equally fierce attack was made on the French line covering the railroad to Chartres and Paris. After two hours' desperate fighting the French centre was driven back. It retreated, however, slowly and in good order for a short distance only to a position in rear of that first occupied, where the rising ground afforded good facilities for artillery. Here a heavy force of guns was parked, which, served by the marines, opened a severe and well-directed fire upon the advancing enemy. This not only checked the Germans, but compelled them to fall back on the town. A heavy counter-fire soon opened from the German batteries which during the engagement had advanced to a commanding position on the left of the railroad. The superiority of the German guns in firing soon became apparent. After an unequal duel, the French fire slackened, the Germans causing great loss to the French lines. Still the French infantry maintained their position heroically, and another attempt to dislodge them signally failed. For some time the engagement had the character of an artillery duel, but when the German lines had taken the positions assigned them a more active attack commenced, evidently with the object of cutting between the army and Lemans and capturing a large number of prisoners. At four o'clock the tactics of the Germans seemed changed and heavy massing of troops took place on the French right under cover of the wood, near the village of Brette, which was held by the French. The wood was on the extreme left of the Prussian position, stretching for miles to the south, east of the place, between road and villages, and were commanded by the Prussian artillery, which was well posted on the left, under cover of the wood. Sharp and precise needle gun fire was opened on the French line and position. On the left of the village, at Brette, not more than seven hundred yards distant, it soon became evident that it would be impossible for them to long hold the position unless the Germans were dislodged. The heavy fire of the artillery directed on the woods had apparently but little effect. A large body of French infantry advanced in good order across

(Here the despatch abruptly ends).

DESPATCHES TO 4¼ P. M.

Siege of Paris.

The Bombardment.

A Rain of Projectiles.

Luxembourg Museum Destroyed.

LONDON, Jan. 16th, 9:30 p. m.—Paris newspapers of the 10th instant, unite in saying that a rain of projectiles, some weighing 96 kilogrammes, unparalleled in the history of sieges, was pouring into that portion of Paris laying between the House de Invalides and Odeon.

The bombardment continues without interruption day and night, and was so violent on the night of the 8th, between the church of St. Sulpice and the Museum, that shells fell every two minutes. Hospitals, ambulances, schools, public libraries, the Sarbonne, Val de Grace and many private houses have been struck. Women were killed both in the streets and in their beds, and infants in their mother's arms. One projectile which fell in the Rue Vangerard killed four children and wounded five others. The unrivalled works of art in the Luxembourg museum were destroyed. The Hospital Val de Grace suffered greatly, and the wounded soldiers were there killed in their beds. Paris is transformed into a battle field in which the women are as brave as the men.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do bless us and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized herself by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's soothing syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP."

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2w.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the waste going on in the system, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w1w

Ladies who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77jw

Bronchitis, Coughs, Asthma, and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches. "I have been afflicted with Bronchitis during the past Winter, and found no relief until I tones your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

A. S. PAGE & CO.
Belleville, Oct. 6, 1870 184tf

Canadian Patriotic Song.

Let other tongues in older lands,
Loud vaunt their claims to glory,
And chaunt in triumph of the past,
Content to live in story;
Though boasting no baronial halls,
No ivy-crested towers,
What part can match thy glorious youth,
Fair Canada of ours?

We love those far-off ocean isles,
Where British's monarch reigns,
We'll ne'er forget the good old blood
That courses through our veins.
Proud ecotia's fame, old Erin's name,
And haughty Albion's power,
Reflect their matchless lustre on
This Canada of ours!

Long may our country flourish, then,
A goodly land and free!
Where Celt and Saxon hand in hand,
Hold sway from sea to sea.
Strong hearts will guard our happy homes,
When darkest dangers lower,
And with our life-blood we'll defend
This Canada of ours.

How to Pay Board Bills.

Mr. Easy keeps a hotel in the suburbs of Boston, taking both transient and permanent boarders as they may offer. Some years since he had a young married couple among his guests, who kept up an appearance of ample means, and seemed to have everything they wanted, though they prolonged their stay for several weeks and the landlord had not called on them for any money.

At last some little circumstance occurred which made Easy a trifle uneasy as to the solvency of his debtors, 'What do you think about Mr. and Mrs. Sharp! They are running up a pretty large bill. I suppose he is good for it though.' 'O, I guess there is no danger,' replied Mrs. Easy. 'They are all right. I asked him for money yesterday, and he paid me thirty dollars on account.'

'Paid you thirty dollars!'

'Yes.'

A sudden light dawned upon Mr. Easy.

'I know where he got it,' he exclaimed. 'He borrowed thirty dollars of me yesterday morning.'

And so he had borrowed the money of Mr. Easy to pay his board to Mrs. Easy. Mine host got rid of what threatened to be a brace of permanent boarders; but he never got his thirty dollars, nor his wife the balance of the debt. Sharp owned up to the failure, insisting that the thirty dollars was paid, which it was,—out of one pocket into the other.

Seven kinds of Oats.

Jacob Dunton, of Philadelphia, writes as follows:

"Last spring I purchased seven varieties of oats from reliable seedsmen, in quantities varying from one peck to six bushels. I gave them equal culture, upon the same field, at Chestnut Hills, with the following results. I could see no difference in the Norways, purchased from different parties. As the taney sorts averaged about $3 50 per bushel, you will be able to judge whether it would be advantageous to continue to plant them.

	Yield from	Weight—
	1 bushel.	lbs
Common oats	8.2	27 2
P. E. Island	7.2	29.
New Brunswick	7.	30.
Norway	8.44	30.
Surprise	7.	32.
Nova Scotia	7.	32.
Scotch Potato	7.	32.

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including many beautiful engravings in every annual volume.

It contains each year a full Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to teach desirable knowledge and sound moral principles.

CIRCULATION — LARGE. — The Circulation of the American Agriculturist (about 150,000) is so large that it can be afforded for the low price of $1 a year; or four copies for $3; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year. ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal, become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it by being now printed on new type from the Leader of C. T. Palgrave & Co.

THE EDITORIAL DEPARTMENT

is under the charge of able and experienced writers, who have attained a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions will be discussed in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the importance of accuracy and full Commercial reports in a newspaper, and will spare no pains to make the Commercial reports of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unnecessarily number. In point of full-ness and accuracy of information to those of any other paper published in this city. By the employment of Associate talent in the important departments the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials
The most reliable Commercial Reports.
The fullest Telegraphic Despatches.
Attention to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is unsurpassed superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be as it has been at $6 a year, or $3 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter so as to give all interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great merit of these pills from all nauseating or disagreeable effects spoken of here with Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, and contains the curative properties of the vegetable kingdom. The Sarsaparillian and other ferments, rapidly assimilate with the blood, and thoroughly purify and renovate the entire fluids and solids. The Resolvent has been carefully selected and gathered with the greatest care in the primeval forests of the native soil, under the personal supervision of intelligent agents—experienced botanists, who, employed constantly for Dr. Radway, have visited almost every section of the North American continent, and in each portion of it have collected such roots and herbs as their knowledge of medicinal virtues led them to believe would be required for the Resolvent. Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services of this class of scientific Botanists in this branch alone that the Resolvent contains a full and complete representative range of Dr. Radway's Remedies, most especially the

SARSAPARILLIAN RESOLVENT,

which has been in use over and over again, for more than a quarter of a century, and has proved itself to be the most searching, powerful, and effectual blood purifier, solvent, and alterative ever discovered. It is the most powerful antidote in the world for the cure of Scrofula, Consumption, Syphilis, Incurable Ulcers, Glandular Disease, Ulcers in the Throat, Mouth, Stomach, Bowels, Kidneys, Bladder, and other parts of the system, Sore Eyes, Skin Diseases, Tumors, Boils, Carbuncles, Erysipelas, Worst forms of Skin Diseases, Ringworm, Tetter, Salt Rheum, Scald Head, Ringworm, Salt Rheum, Scurvy, Itch, Scaly Skin, Blotches, Worms in the Flesh, Tumors, Cancers in the Stomach, Female Weaknesses, and painful discharges, Night Sweats, Loss of Sperm, and all wasting of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are incommoded by Stoppage of Water, or Painful Discharges, are quickly relieved and speedily cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Esq., Custom House Officer, Montreal Tres'ury.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had over forty years' (or LONG) ULCERS, one on his thigh, the other on his leg, submitted to by him for medicine and the skill of the most celebrated doctors in Montreal and the parts of Canada. Last Fall he commenced the use of the Sarsaparillian Resolvent, assisted by the Pills and Radway's Pills and Ready Relief. It used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, applied, in all cases, the Ready Relief, and the Sarsaparillian Resolvent, diluted with water which completely healed up the sores. Mr. Denault is now in the enjoyment of health, and can be referred to by any one desiring further information, or a call at his residence.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont!

M. Durant, one of the wealthiest citizens of Wells' River, after spending a large fortune, besides a number of Paper Mills, Hotels, &c., told me of his knee which was destroyed by Scrofula, and was entirely covered with one SOLID SCAB, covering the entire knee-joint. Could not walk, and had been so for two years. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent**, assisted by Radway's Pills. One month since, on returning to Canada, I saw the father of this man, who told me that the son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of the

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West, March 10, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats; my was induced to use your **Sarsaparillian Resolvents**. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles in all, now all signs of scrofulous disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,
439, ST. PAUL STREET, MONTREAL
☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

Geo. Gibson

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & Thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. The cuisine will speak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (1624ly) DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the aim of the publishers to combine in one pages worth of useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to contribute during the year 1870. Such names as

MARION HARLAND, IND CHURCHILL,
LOUISE S. HOOD, MJTTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK annually furnishes each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXCELLENT PATTERNS. We give frequently a presentation sheet, to our patrons, containing twenty, thirty, and sometimes more designs in embroidery.

ORIGINAL MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in the country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S DEPARTMENT, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

PUZZLES, ENIGMAS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal ed.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist, in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can explain to us what Extract of Soap means. Well this individual, whose ideas of Means and Ends are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal,

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Moutgomery (nephew of Mr. Hogan) and Frederick Gerikon, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is filled with original and fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Mining, Engineering, Chemistry, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Engineers, Inventors, Mechanics, Chemists, Manufacturers, and people of all Profession or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every family or workshop; while its Recipes, Rules and Tables alone are worth a thousand times the cost of subscription. Each number contains a considerable variety of the latest and most interesting information. Terms, $3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $2.50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The last step to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinions and advice. Write with plain sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arraige for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, all of that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are exclusive and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, fancy work, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Plate Steel engraving, such as is usually sold for $5.00, on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lilie M. Spencer, and besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth from $1.00 to $3.00, to be given to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 10 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will be and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. Watts having purchased the entire interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted solely to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarrod, of New York.

Special attention will continue to be given to the advancement of Emigration, the claims of the Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, fairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 32 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at Seventy-five Cents each, in advance.

FOR cheap printing go to "The Intelligencer" Office, Belleville,

Mr. Blake, Dr. Ryerson and the School System.

(SECOND LETTER.)

(*Continued from yesterday.*)

To Edward Blake, Esq., M.P.P.

10. Hostility to the Council of Public Instruction pervades your whole speech. Among many other things you say about and against it, you describe it as follows; —"They all knew who the Council of Instruction was—it was the Chief Superintendent;" and among other things they might do, you said they might give, or withold a certificate of qualification to or from a teacher on account of the color of his hair—a sentence, with others nearly as bad, which the reporter suppressed, but which was heard by members of the Legislative Assembly, as well as by myself; and who, sir, are the gentlemen against whom you throw out this insinuation—an insinuation of which the lowest village demagogue might be ashamed? They are the Chancellor of the University, the Roman Catholic Archbishop, the very Rev. Dean Grassett the Venerable Archdeacon Fuller, (the first clergyman in Upper Canada who announced himself in favor of free schools, when Mr. George Brown called them 'pauper schools,') the Rev. Dr. Jennings, the Rev. Dr. Barclay, the Rev. Dr. Ormiston, (whose place is soon to be supplied by the appointment of the Rev. Professor Young,) the Hon. Mr. McMaster, not including myself or the heads of colleges, who seldom attend on account of no provision having been made to pay their travelling expenses. These are the gentlemen, sir, to whom you apply the insinuation that they might refuse to give a teacher a certificate of qualification on account of the color of his hair; and these, sir, are the gentlemen whom you represent as nobodies, who have no minds of their own, and have merged their manhood in me.

Now, sir, what has that Council of Public Instruction done that it should be the object of your hostility and ridicule? It has established and managed during twenty-two years the Normal and Model Schools, which, according to the opinion of the Principals of American Normal Schools in the Eastern States (who have visited them), are the model institutions of the kind in all America; and such is the opinion of English educational visitors. The Council has purchased eight acres of ground, and built the beautiful educational buildings on it, at an expense almost fabulously small. The Council has examined and approved an immense number of books for public libraries, and made all the regulations for their management, besides prize books for the schools. The Council has made all the regulations and prepared and prescribed all the programmes for the examination and classification of teachers, and the organization and government of the Common Schools for twenty years, and the programmes of studies for the Grammar Schools during seventeen years. The Council has examined and prescribed the text books, both for the Grammar and Common Schools, and has actually prepared, by months of labour, a series of readers of unrivalled excellence for the Common Schools. The Council has made the regulations in regard to paying superannuated teachers, and examined in detail the papers relating to each of the several hundred applicants for relief from it; and all this the Council has done without a farthing's expense to the country; yet the only tribute it can command from you is hostility and insult!

And if you had made one word of enquiry of any member of the Council before you assailed it, you would have found that so far from "the Council being the Chief Superintendent," that I have had nothing whatever, personally, to do with either the selection or preparation of text books for the schools, or with the programme of studies or examinations; that I have simply adopted the reports and recommendations of committees, with Dr. McCaul at their head, saying that I would pin my faith to their sleeves in these matters, and adopt and defend (if necessary) whatever they should recommend.

But the members of the Council are Christian gentlemen, and while they have exercised their own judgment in regard to the many matters it has been my duty to bring before them, they are above the mean personal hostility which prompts you to reject everything I propose, to ignore my very existence in connection with our public school system, except in reference to my recent recommendations, which you denounce by wholesale. I know you have come very legitimately by your hatred of me; it has been cherished, and is now cropping out and culminating in your proceedings since 1844, when, among others, I encountered your late father in public discussion—a discussion which was followed by the election of all the members of the Legislature for Upper Canada, in support of my views, except *eight* only; and it was only after that decisive endorsation of my views by my country, that, with the sanction of the body to which I belong, I accepted my present office, which I have now filled more than twenty-seven years. But your hatred has become only more intense with lapse of time and progress of years; and it is manifest you now feel towards me as did the philosopher Hobbs, in regard to another personage, when he said he so hated the devil, that if he were to fall into a pit, and the devil were to put down his leg into it, he would not take hold of the cloven foot to help himself out.

I will now show, sir, that the authority to which you object was greater in former

times than at present, and far greater in other educating and free States than has ever been proposed by me in this Province. The following is the 6th section of the School Act of 1843 :—

"And be it enacted, that the Chief Superintendent aforesaid shall prepare suitable forms and regulations for making all reports and conducting all necessary proceedings under the Act, and shall cause the same, with such instructions as he shall deem necessary and proper for the *better organization and government of Common Schools*, to be transmitted to the officers required to execute the provisions of this Act throughout Upper Canada aforesaid."

This provision remained until 1850, when I had the power of prescribing the "organization and government of Common Schools," transferred from the Chief Superintendent to a Council, where it has remained ever since. Let us now turn to England, where Englishmen are sensitive of their liberty, but have sense enough to know, as do the Americans, that strong executive authority is essential to local efficiency, as well as public liberty. I will select two or three examples out of many executive authorities.

"It rests with the Education Department to determine with respect to every school district," "When the Education Department is of opinion that a School Board is not properly discharging its duties, it may dissolve such Inefficient Board, and cause a new Board to be elected." "If in any year, subsequent to the first, the Education Department, after inquiry, is satisfied that the school accommodation in any district is insufficient, it may take the same proceedings as have been described above."

Such are some of the powers of the Education Department under the new School Act in England, in local matters; besides its vast powers in making general regulations for the classification of teachers and schools, and everything in regard to the management of the School Fund.

In the United States, let us take as examples the great neighboring States of New York and Pennsylvania, each of whose population is more than twice as large as that of this Province, and whose school systems are twice as old, and who know, therefore, by large experience and many experiments, what provisions are necessary there to work them effectually. In the State of Ohio, I may remark, that the State Superintendent, with two others associated with him, is the only authority to examine and give State certificates of qualification to teachers.

In the State of New York, the name of County Superintendent has been superseded by that of a Commissioner of a Senatorial District, about as large as one of our counties.

[Here follow a number of clauses from the school law of the State of New York, which prove the correctness of the Dr's position, but which we omit.]

It is now plain, sir, that in your denunciation of all the great principles of our school system, under pretext of opposing the School Bill, you have evinced the grossest ignorance of school legislation in both this and other countries; that you have simply drawn upon your imagination on the prompting of passion and personal hostility; and have, therefore, misrepresented nearly every provision of the Bill on which you have spoken; and that if you could get into power and carry out the views you have avowed, our educational system would be crushed, and the retrograde of the next twenty years would be equal to the progress of the last twenty years, while, of course, which is of little consequence in itself, I would be the first object of your vengeance.

The *Globe* of this morning has unwittingly developed the spring of all your movements. The policy is avowed to prevent the passing of any School Bill under the auspices of the present Government, leaving it as a foot-ball of party at the ensuing elections, and to a "Reform Ministry" hereafter. It is well that there is this avowal of your real object, to bring our whole school system into the arena of party factions, contrary to the example of all good men in Upper Canada, and of all public men except Mr. George Brown during the last twenty years. It seems that your one idea is "the Party," and this is to be your watchword; and on this great one idea you hope to revive all the party hates of a past generation, and to get your hated rivals beneath your feet. With this I shall not trouble myself, any farther than school interests are involved; but your one idealism of "the Party" reminds me of the words:—

"A pea is rattling in a pan,
So hot it cannot rest;
Like broken shot in an empty can,
Alone one rattles best.

A thought is rattling in the skull,
So hot it can't be still;
Rattle it round, and rattle it out—
There is only one to spill."

This absorbing of all the weal of a country—even its educational interests—into the one idea of a party and rattling this pea of "the Party" around the country, is a melancholy consummation for a man who aspires to be the interpreter of laws, and the expounder of the great principles on which the edifice of society is deepened and widened in its foundations, and completed and beautified in its superstructure. Sir, you are yet young, and if you turn from the bad counsels by which you have been led astray, and from the evil ways into which you have fallen, you may yet be useful to your country, and no one will more cordially rejoice in your future success than myself, and no one will sooner forget that I have had occasion to write to you in the style of these letters.

I have the honor to be, Sir,
Your obedient servant,
E. RYERSON.

Toronto, Jan. 12th, 1871.

—Mr. James Cousins was elected Mayor of London on Monday last.

—Dr. Ryerson, though better than he has been, says the *Telegraph* of the 17th, is still confined to bed.

—The Council of the County of Carleton, N. B., has unanimously voted $100,000 in aid of the Railway from Woodstock, N. B., to Riviere du Loup, Quebec.

—The game of billiards on Saturday night at London, between Bennet, the present champion of England, and Cook, the former champion, was won by the latter.

GRAND TRUNK RAILWAY

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870 :

GOING WEST.

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 17.

TEA MEETING.—Remember the Tea Meeting at the Wesleyan Church this evening.

ACCIDENT.—Two men, while loading sawdust at Rathbun's mill this forenoon, were severely injured by a pile of the saw-dust caving in on them. Both received medical attention soon after their rescue.

MISSIONARY MEETING.—It will be remembered that the annual missionary meeting of the John Street Presbyterian Church will be held in that church to-morrow evening.

SKATING RINK.—We are requested to state that, should the weather continue favorable, the skating rink will be open to-morrow night, and that the band of the 15th Battalion will be present.

A CHANGE.—Since yesterday there has been a considerable change in the temperature; the thermometer, which ranged considerably above zero yesterday, now standing at or a little below that point. Sleighing is now excellent.

ORANGEISM.—We notice, the Port Hope Daily *Times*, that there is to be a grand demonstration in Port Hope on the next 12th of July. Toronto has accepted the invitation, and further invitations have been sent to the Districts of Belleville, Victoria, Peterboro', Northumberland, Clarke, Manvers, Cavan and Hope.

THE TEST QUESTION.—In the election for School Trustees in St. Catharines, was the admission of "colod possons" to the schools, hitherto monopolized by the "wite trash." The "fossils" who had forgotten we live in the nineteenth century, and the passing of the "15th amendment" were left at home, to their chagrin and the delight of the "nagur." "Am I not a man and a Brudder?"

AN OLD FOGY.—Spite of its blatant articles on progress, the Montreal *Herald* is one of the most old fogy papers in the country. Proof of this is found in the fact that its weekly edition is still sent as an exchange to this office, addressed, "*Intelligencer*, Belleville, *District of Victoria*." The proprietors having shut their eyes to the fact that the District of Victoria ceased to be so called some 35 years ago. There's wide-awake, intelligent journalism for this go-ahead age!

GRAND TRUNK RAILWAY.—The traffic department of the Grand Trunk has been re-organized, and four superintendents have been put in charge of the line. Any alteration that may add to the efficiency of the railway will be cause of congratulation with the public at large; and that this change is calculated to have that effect, is beyond doubt. The assistant superintendents have heretofore had too much to do. Mr. Jas. Stephenson has been appointed assistant superintendent of that portion of the line between Belleville and Montreal, as central district, and has his office in Kingston. Mr. Stephenson has heretofore held a high position on the road between Belleville and Sarnia, and was very popular with employees and the public. He will, we are sure, give every satisfaction in his new position.

News Condensed.

—Alderman Chisholm has been elected Mayor of Hamilton for 1871.

—Alderman Livingstone has been elected Mayor of Kingston.

—Mr. John Rochester has been elected Mayor of Ottawa for the current year.

—The Cunarded steamer 'City of Brooklyn' has reached Queenstown.

—The first sod on the Brantford and Harrisburg Railway was turned on the 16th inst.

—The Grand Lodge of Quebec has been unanimously recognized by the Grand Lodge of Michigan.

—A committee has been organized in Chatham to canvass the County of Kent, in aid of the McDonald testimonial.

—A large meeting was held in Pembroke on the 10th inst., to appoint delegates to attend a Railway meeting in Kingston.

—The marine police vessel 'Water Lily,' seized a Yankee schooner named the 'Perseverance' on Saturday. She had on board 1,200,000 herring.

—The great pair-oared race on the Tyne, between Kelly and Renforth on the one part, and Taylor and Winship on the other, was easily won by the former pair.

Town Council.

EVENING SESSION.

MONDAY, Jan. 16.

The Council assembled according to adjournment.

PRESENT.—His Worship the Mayor and all the Councillors.

The minutes were read and approved.

PETITIONS.

From Richard Howard, praying that the Council to contribute $2 per week towards the support of a colored woman who is at his house, unable to rise from her bed on account of sickness.

From Richard and Mary Banks, an aged couple, for relief.

From Wesley Howell, praying that he be not compelled to pay the taxes on a lot improperly assessed to him.

From Bridget Shevlin, for remission of taxes, owing to losses by the flood last year.

From W. H. Ponton, for remission of taxes on a house on lot No. 65, Front Street, on the ground that the house had been occupied by poor people who were unable to pay rent.

The petitions were referred to their respective committees.

LICENSE INSPECTORS.

Applications to be appointed License Inspectors were received from Parker Mills, and G. C. Phillips.

ASSESSORS.

Henry Finch and Wm. Wright made application for the office of Assessors.

ACCOUNT.

An account for $800 was received from the attorneys of J. T. Hayden & Co., for services performed by that firm in dredging the ferry dock, etc.

REMISSION OF TAXES.

Mr. Henderson brought up the case of some property which had been assessed twice to Mr. Phippen. The matter had been before the Court of Revision at its last sitting, but for want of proper evidence had been allowed to stand as assessed.

NOTICE OF MOTION.

Mr. Henderson gave notice of By-laws for the appointment of Assessors, and License Inspectors for 1871.

STANDING COMMITTEES.

Mr. Flint presented the following report from the Select Committee appointed to strike the standing Committees for the year :

THE COMMITTEE ON FINANCE AND ASSESSMENT—Dr. Hope, Chairman; G. E. Henderson, J. Lewis, J. J. B. Flint, J. G. Vandusen.

COMMITTEE ON POOR AND SANITARY—S. J. Bull, Chairman; W. Legate, J. G. Vandusen, Dr. Hope, P. Fahey.

COMMITTEE ON FIRE, WATER AND GAS—W. A. Foster, Chairman; G. E. Henderson, S. B. Smith, R. S. Patterson, S. J. Bull, J. L. Reed.

COMMITTEE ON STREETS, SEWERS AND BRIDGES—R. S. Patterson, Chairman; J. G. Vandusen, W. A. Foster, S. B. Smith, J. Lewis.

COMMITTEE ON MARKET AND POLICE—John Lewis, Chairman; J. J. B. Flint, P. Fahey, R. S. Patterson, G. E. Henderson.

THE COMMITTEE ON HARBOR AND TOWN PROPERTY—G. E. Henderson, Chairman; John Lewis, W. A. Foster, Dr. Hope, J. J. B. Flint.

THE COMMITTEE ON FERRY—J. G. Vandusen, Chairman; S. B. Smith, J. L. Reed, W. A. Foster, W. Legate.

COURT OF REVISION—John J. B. Flint, Chairman; G. E. Henderson, S. J. Bull, Dr. Hope, S. B. Smith.

Mr. Flint, seconded by Mr. Vandusen, moved the reception and adoption of the report.

Mr. Henderson said that he had differed with the majority of the Committee on some matters, on which he wished to test the sense of the Council. In the first place, he proposed to substitute the name of Mr. Reuben S. Patterson for that of Mr. Vandusen on the Finance Committee. It had been the rule heretofore to place the Chairmen of the more important Committees—those through whose hands a large amount of the money passed—on the Finance Committee; but this had not been done in Mr. Patterson's case. Mr. Vandusen was Chairman of the Ferry Committee, but that Committee would have little money to expend this year. He also proposed to substitute Mr. Fahey for Mr. Vandusen, on the Street Committee. Mr. Fahey was a mechanic, and a man who was likely to take a great deal of interest and a prominent part the deliberations of the Committee. He would place Vandusen in Fahey's place on the Market Committee, as the former gentleman was interested in the working of the market. Lastly, he proposed to substitute his own name as Chairman of the Finance Committee for that of Dr. Hope, the Dr. to take his (Mr. Henderson's) place as a member of the Committee. This step had been urged upon him by his friends in the Council, and by a large number of people outside, who considered that he had superior claims on account of his eight years' service at the Council Board, and that he was the better man for the position. He would also prefer to be changed from the Chairmanship of the Harbor and Town Property Committee to that on Market and Police, the business of which he understood, having been Chairman for two years before. Mr. Lewis also desired this change, having been on the Harbor and Town Property Committee, and not understanding the business of the Market and Police Committee.

Mr. Bull would like to have these motions separated, as there were some of them which would be acceptable to some members, while others would not.

Mr. Henderson was willing to do so, and moved, seconded by Mr. Lewis, that the name of R. S. Patterson be inserted on the Finance Committee instead of J. G. Vandusen.

Mr. Flint said members knew well that the greatest care had to be taken in drawing up the report of this Committee. As each Committee was composed of five members, it was, of course, a necessity that each Ward should have a preponderance on some Committee. At the meeting of the Special Committee in the afternoon, Mr. Henderson had refused to have anything to do with the drawing up of the report, saying he reserved his right to move against it in Council. This, instead of having his assistance, he had pursued an obstructive course. Mr. Henderson had never asked to have Mr. Patterson's name inserted on the Finance Committee; and as that gentleman was already placed on some of the most important Committees, it was not considered necessary to place him on this. It till became Mr. Henderson, whose name was placed on more Committees than any other man's, to endeavor to disturb the report of the Committee.

Mr. Henderson said that when a motion was made by him, seconded by Mr. Lewis, Messrs. Vandusen and Foster would tie their vote, and Mr. Flint, as Chairman, would decide against them. When he saw this, he resolved to have nothing more to do with the business of the Committee. When asked to make the change of Committees which he and Mr. Lewis desired, Mr. Flint said he would not allow him (Mr. Henderson) to go on the Market and Police Committee to find fault with his last year's work.

Mr. Lewis supported Mr. Henderson as Chairman of the Finance Committee, as he considered that he was the better man for the place. Regarding the insertion of Mr. Patterson's name on the Finance Committee, the matter had not struck him till reminded of it by Mr. Patterson.

Mr. Flint did not wish Mr. Henderson to be Chairman of the Market and Police Committee, as he did not desire to sit on the same Committee with a gentleman whose feelings towards him were so inimical.

Mr. Henderson did not think that was shown in the Court of Revision, from which Mr. Flint had refused to remove his name.

Mr. Patterson had no personal feeling in the matter; but as the custom had heretofore been to place the Chairman of the Street Committee on the Finance Committee, he should feel it as a personal slight if he was passed over and his name left off.

Mr. Vandusen was not personally anxious to be placed on the Finance Committee; but, as Coleman Ward had no representation on the Committee, he desired to see it represented. He was not a member of the Street Committee last year, and felt anxious to have a seat in it. He was quite willing that Mr. Fahey should be on the Committee; but, as senior member for the Ward, he did not feel it his duty to give way. If Mr. Fahey's name were substituted for his, he would not object; but it would be loose on his part not to look after the interests of his Ward.

The amendment was then put and carried on the following division :

YEAS.—Messrs. Henderson, Lewis, Bull, Legate, Reed, Smith, and Fahey—7.

NAYS.—Messrs. Hope, Flint and Foster—3.

Messrs. Patterson and Vandusen did not vote.

The second amendment, appointing Mr. Fahey in place of Mr. Vandusen on the Street Committee, and transferring the latter to the Market and Police Committee, was carried by the following vote :—

YEAS.—Messrs. Henderson, Lewis, Smith, Patterson, Reed, Legate and Bull—7.

NAYS.—Messrs. Hope, Flint and Foster—3.

Messrs. Fahey and Vandusen did not vote.

The motion to appoint George E. Henderson Chairman of the Finance Committee, in place of Dr. Hope, and the latter as a member of the Committee, was then put.

YEAS.—Messrs. Henderson, Smith, Lewis, Patterson, Legate and Fahey—6.

NAYS.—Messrs. Reed, Hope, Bull, Vandusen, Flint and Foster—6.

The vote standing a tie, the Mayor voted nay, and declared the amendment lost.

Mr. Lewis would take it as a favor if the Council would permit the exchange of Committees between himself and Mr. Henderson, and moved, seconded by Mr. Smith, that the name of George E. Henderson be substituted for that of John Lewis as Chairman of the Market and Police Committee, and that the name of John Lewis be substituted for that of George E. Henderson as Chairman of the Harbor and Town Property Committee.—Carried.

Mr. Bull wished his name to be struck off as Chairman of the Poor and Sanitary Committee.

The Mayor thought Mr. Bull had better move an amendment to that effect.

Mr. Bull said that would be of no use, the position being a most undesirable one. He should refuse to act.

Dr. Hope urged Mr. Bull to accept. He would lend his best efforts to assist him in the discharge of his very onerous duties, and the other members of the Committee would do so also. He would also say that he held no ill-feeling against Mr. Henderson, but he was pleased to be sustained in the position of Chairman of the Finance Committee. He had, in a former Council, held the same honorable position for three years, and during his term of office had reduced the debt of the town some $30,000. He intended to give his very best attention to the finances of the town, which were, he considered, in a good condition now. In the discussions in Council, he intended to refer to no personal matters.

RULES OF COUNCIL.

Mr. Henderson moved, seconded by Mr. Lewis, that the Clerk be instructed to procure 50 copies of the Rules of Council

The Mayor considered it a good move, and pointed out some inconsistencies in the rules which ought to be amended before printing new ones.

After a long and desultory discussion Mr. Henderson added a Committee, consisting of the Mayor, Messrs. Hope, Flint, Bull and the mover, to revise the rules. The motion was then passed with the understanding that it was not to be immediately acted upon.

TOWN BY-LAWS.

Mr. Henderson moved, seconded by Mr. Lewis, That Messrs. Bull, Hope, Henderson, Lewis and Flint, be a Committee to revise the By-laws of the town.

Mr. Flint thought the task too herculean for the Committee to undertake. It should be performed by persons paid to go through the work in a proper manner.

Mr. Henderson wished this motion to pass. All other municipalities had their By-laws, while there were only two or three of ours printed, and the amendments were never carried into the printed copies.

Mr. Flint said that many By-laws supposed to be in force were never signed by the Mayor, and of others the originals had been lost.

Dr. Hope said this was an annual motion, but when the Committee saw the task before them, they never reported.

The motion was then carried.

TOWN HALL CHIMNEY.

Mr. Foster moved, seconded by Mr. Vandusen, That the Street Surveyor be instructed to ascertain the cause of the smoke remaining in the hall; to examine the chimney and make necessary changes. Carried.

LOWER BRIDGE.

Mr. Flint called the attention of the Chairman of the Street Committee to the state of the lower bridge, part of the covering of the trusses of which had been removed.

Mr. Patterson said the remainder of the planks should be removed at once.

POOR AND SANITARY.

Mr. Vandusen suggested an appropriation for the poor. Many persons were in great distress, and something would have to be done before the Council adjourned.

Mr. Henderson moved an appropriation of $50.

Dr. Hope wished to have motions regarding money to emanate from the Chairman of the Finance Committee.

The Council went into Committee on Ways and Means. Mr. Foster in the Chair.

On motion of Dr. Hope, $100 was ordered to be placed to the credit of the Chairman of the Poor and Sanitary Committee.

The Committee rose and reported, and the Council adjourned.

"Unfair Criticism."

In Saturday's issue of the "Blackmailer" ycleped *Ontario*, a short article under the above heading appears, containing a malicious insinuation as to the motive which influenced me in criticising the singing of Mr. Wilton, at the Conversazione which was held in the Ontario Hall on Thursday night last. That I could have no possible motive to induce my entertaining "spite" against Mr. Wilton, I may state that I never, to my knowledge, saw him before Thursday night, when on the stage, and was then not aware who he was, or whence he came. So much for the "spite" and "meanness" charged against me.

While charging me with "spite and meanness," what has the *Ontario* to say of the "criticisms" which have appeared in its columns during its brief existence? Let us see. The public will remember that in May last a theatrical company under the management of a Mr. W. J. Marshall, appeared in Belleville. Their season here was not very successful, but during part of the time their *bills were paid*, and on the 20th May the *Ontario* said, in reference to this theatrical troupe :—

"We can't throw the old slipper after the Marshall troupe, for a thousand good reasons; first because they have not left yet, and do not leave until to-morrow; second, because in all our establishment there is nary old slipper. These may suffice without enumerating the remaining nine hundred and ninety-eight. Mesdames Nelson, Webster and Wallace, we chastely salute the tips of your dainty fingers; Lindley, old fellow, we *slap you on the back*; Bensel, we send you forth with kindly wishes, *Messieurs generally, receive the heartiest expression of our distinguished consideration. Marshall, luck go with you, we have spent some pleasant hours with your little company, and since go you must, we say 'God speed' with all earnestness, and* 'COME BACK AGAIN!'"

Next day it continued in the following strain :—

"The characters throughout were well sustained, and on the whole *we cannot speak too highly of the company.*"

The above fulsome trash is wound up with an announcement of the last performance of the troupe, and a recommendation to "*give them a good house.*"

In January of the present year, a Theatrical Company, essentially the same as Marshall's, being composed of many of the old members of his troupe, did "come back again," but under a different management, as "Nellie Nelson's London Comedy and Burlesque Company." Seeing, perhaps, a chance of frightening a portion of the indebtedness of Marshall (who had disputed a part of the blackmailer's bill, and left without settling it) out of Miss Nelson, this lickspittle critic, whose ink only flows in praise when the 'needful' is forthcoming, addressed the following blackmailing epistle to that lady, with an account amounting to $12 against Marshall, for printing and advertising :

"MADAM,—Your husband owes the above amount to this office, and *unless* it is settled before 5 o'clock this evening, you *may expect such a notice as you will remember.* Your agent promised to call yesterday, but neglected to.

"Yours truly,
"J. W. CARMAN & Co.

"Belleville, January 5, 1871."

This threat had not the desired effect. The money was not paid, Miss Nelson denying that she was Marshall's wife, and not considering herself responsible for debts contracted by one in whose employment she was at the time, refused to pay it. In consequence, the following "mean and spiteful" notice adorned the columns of the *Blackmailer* on the evening of Thursday, Jany. 5th, under the heading, "Beware of Him."

"W. J. Marshall, manager of the Nellie Nelson Troupe, displays a great amount of assurance in coming to town again. What he was here last, he left in the night without paying his bills, and the newspapers west speak of similar transactions elsewhere. No respectable manager would be guilty of such despicable conduct, and no *respectable company* should be associated with a man of his swindling propensities. The public that would countenance a company under his management, deserves to be swindled out of their money."

Had the money been paid, this black mailer would have ransacked his vocabulary for complimentary phrases to bespatter the lady, who, had she succumbed to his threat, would have bribed him. Dollars rule, evidently. Who would not wish to be assailed by such a sheet? "Money for money's worth" is its motto, persistently carried out.

What is the reason the 'Ontario' had *not one word* in regard to the Conversazione after it was held. Simply because no tickets were sent to that office. Messrs. Showmen, all that is necessary to secure a favorable notice from the concern located on the wood market, is to supply a few tickets and a consideration!

If Mr. Wilton felt aggrieved at my remarks—if his temper is so irritable that it cannot stand fair criticism, then he has taken a wrong course in hiring the *Black mailer* to defend him; but, being a stranger, perhaps he was not aware of the character of his champion.

Regarding Professor Armstrong, whose name is dragged into this controversy, he has never received anything but favorable criticism from this paper, and shall continue to do so, as long as he deserves it. I assure this *Blackmailer* that I am just as incapable of giving an untruthful report or criticism of any performance, as he is of giving a truthful one, unless *paid for it.*

Montreal, Nov. 28, 1870. 179

Ontario Legislature.

TORONTO, Jan. 16th, 1871.

The proceedings in the Legislature were unimportant. After routine business a number of private bills were disposed of.

Mr. McKellar moved that in future members of this House be allowed stationery to the value of $10 during each session, and that hon. members be allowed to select their own stationery.

The motion was passed without debate.

Mr. Sinclair moved an address to the Lieutenant Governor for a statement of the names of the municipalities that had borrowed from the Municipal Loan Fund, the amount paid, the amount in arrear, and the nature of the securities taken from the municipalities, and how the amounts borrowed had been expended,

Hon. Mr. Wood stated that before he was aware of the motion being placed on the paper he had made arrangements to furnish the information or the greater part of it; but he doubted whether the information could be given this session.

The motion passed.

Mr. Craig (of Russell) moved the second reading of the bill to make valid certain commissions for taking affidavits issued by the Court of Queen's Bench. Carried and referred to committee of the whole tomorrow.

The War in France.

The continuation of the incomplete despatch of yesterday shows that General de Chaussey's army was hopelessly defeated, a heavy German force having succeeded in carrying the strong position of La Tuilerie, which had formed the chief point of attack during the day.

The bombardment of Paris continues, the result being that several of the fortresses on the outer line of defences have been breached. Von Moltke had a narrow escape, a French shell bursting close to his carriage and covering him with mud. The German batteries were also severely damaged by the fire of the French forts. On the 14th, Forts Issy, Vanves and Montrogus were silent.

Continued skirmishing near Havre is reported.

The French General Faidharbe, who is receiving reinforcements, is advancing.

Longwy, near which there has lately been considerable fighting, is threatened with bombardment by the Prussians.

In the department of Haute Laone, there was severe fighting on Saturday, without decisive results.

The Eastern Question.

M. Jules Favre has issued a circular, stating that any settlement of the question with France unrepresented, would be void, and adds that he has been appointed to attend the Conference, but cannot leave Paris at present, as the Prussians fire on the flags of truce. He has been offered a safe conduct by the American Minister, but says that while the bombardment of the capital continues his departure is impossible. It is stated that the Sultan and Khedive are now on friendly terms.

Latest by Telegraph.

BY ATLANTIC CABLE.

The War in France.

Morning Despatches.

Fighting Still.

Bombardment Continued.

BORDEAUX, Jan. 16.—The Germans attacked Chauzey yesterday. The army resisted well except in the centre. Bourbaki continues to approach Belfort. He was fighting yesterday and occupied Mont Belcara; the battle was resumed to-day.

LONDON, Jan. 16.—The 'Pall Mall Gazette' special says: The bombardment was general on Saturday. The French accuse the Prussians of using petroleum shells.

American Despatches.

Insurrection Imminent in San Domingo.

Cubans to Continue the Conflict.

Methodist Book Concern.

The Nathan Murderer.

Outrages in North Carolina.

NEW YORK, Jan. 16.—A private letter from a highly respectable source at St. Thomas foreshadows a speedy and formidable insurrection in San Domingo against Baez, and states that the champion of this new revolutionary movement is the Vice-President of the Republic.

The steamship 'Hermann,' from Bremen, has arrived.

NEW YORK, Jan. 17.—Among the passengers who arrived yesterday from Havana was Senora Cespedes, wife of the Cuban President. She reports that the Cubans are determined to continue the conflict, and are sanguine of success.

There is an intimation that the Committee of Inquiry in the affairs of the Methodist Book Concern in executive, yesterday, concluded to drop the enquiry entirely, and that the proceeding will shortly be terminated.

There is scarcely a doubt that the Nathan murderer will soon be arrested. There is no avenue of escape open to him except self-destruction.

Special despatches show the outrages in North Carolina still continue. There is a gang of outlaws in Robeson County who keep the citizens in a state of terror.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

French Victorious at Glen.

Chauzey Issues an Address.

LONDON, Jan. 16, 5:30 p m—A despatch from Bordeaux says that in the fight at Gien, as the result of which the enemy were driven from that place, several Prussian officers were killed.

General Chauzey announces the appearance of the enemy's columns in the vicinity of his forces on Sunday night, and that an engagement took place with their vanguard. The General has issued an order of the day to the army of the Loire, explanatory of the recent disaster, and calling for the display of all their soldierly qualities in an effort for its reparation. He attributes the abandonment of Lemans by the army, to an inexplicable panic among some of the troops and to the loss of important positions, which compromised the safety of the entire army and the failure in the execution of certain orders given by himself. He says nevertheless, that a supreme effort on the part of the army may yet save the country, and appeals in strong terms to the soldiers to rally to his support and fight with renewed vigor for the republic and liberty.

DIED.

On Monday, the 16th inst., with a blessed hope of a glorious immortality, PHOEBE ANN, the beloved wife of W. A. Smith, aged 32 years.

[The funeral will take place from the family residence in the grove, on the afternoon of Wednesday, the 18th inst., at half-past two o'clock.]

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady WHO, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. NO MOTHER has discharged her duty to her suffering little ones, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Pastor*, New York City.

Sold by all Druggists. 25 cents a bottle. Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP."

HAVING the fac-simile of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the wasting power in the brain, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w 1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weiser, to the German Reformed Messenger, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our boys to say "A Blessing on Mrs. Winslow," for helping her nervous and suffering wife through the trying and teething stage. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordials, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, name as a physical saviour to the infant Race. 25 cents per bottle. Sold by all Druggists. Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the fac-simile of Curtis & Perkins on the outside wrapper. All others are base imitations. 1w-2m

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches. I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON,
Pastor of Zion Church, Montreal.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

JENNY WILKES,
Pastor of Zion Church, Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * *

While the Days are Going By.

There are lonely hearts to cherish,
While the days are going by;
There are weary souls that perish,
While the days are going by.
But if a smile we can renew
As our journey we pursue,
O, the good we all may do,
While the days are going by.

There's no time for idle sorning,
While the days are going by;
Let your face be like the morning
While the days are going by.
O, the world is full of sighs—
Full of sad and weeping eyes—
Help your fallen brother rise,
While the days are going by.

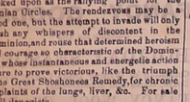

All the loving links that bind us,
While the days are going by,
One by one we leave behind us,
While the days are going by;
But the seeds of good we sow,
But in shade and shine shall grow,
And shall keep our hearts aglow,
While the days are going by.

Dr. Isaac Doran, of Ohio, writes that he has used "Allen's Lung Balsam" in his daily practice, and, with unbounded success. As an expectorant it has no equal.

A LABOR VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

The way "to minister to a mind diseased" is to take Peruvian Syrup, a purified solution of the *protoxide of iron*, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The excitement may be a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Brave Canadians and Indians, for shortly complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

JAMES BROWN has now received his Stock for the winter, New London Layer Raisins, Very Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Hoasters, Lochin Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No 2 Mackrel, Lake Huron Salmon and Whitefish, Cod and Scale, and a complete assortment of Teas, Coffee, Spices and

General Groceries,

Liquors and Syrups, at WHITEFORD'S BUILDINGS.

☞ The Legislative hour for selling liquor ceases at 7 p. m. on Saturdays.

Belleville, December 9th, 1870. 1884

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 48 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every number.

It contains each month a Calendar of Operations to be performed in the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men and the Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, have purchased the Gazette and become proprietors of the Gazette, have greatly enlarged and otherwise improved it—the first issue being now ready from the foundry of C. T. Palmgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have attained a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, in addition to the usual departments of literature and European, American and Domestic politics, while questions of local interest are dealt with solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers have recognized the supreme importance of accurate and full Commercial reports in a newspaper aspiring to maintain the first great commercial metropolis of the Dominion, and have engaged the assistance of men with many years commercial experience on the Gazette immediately associated with the interests and success of those of any other paper published in that city. By means of the telegraph and mail the most important department the Gazette will be made a necessary feature in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the Gazette will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the Gazette is very full, and includes special despatches from all parts of the Dominion.

The Gazette is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Adhering to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The Gazette is unquestionably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the Gazette, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be delivered in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseous or dangerous drugs) hereafter spoken of here, Dr. Radway says

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Cure, viz., to obtain the active curative properties of the sour dock, stillingia, yellow dock, mezereon, bitter root, sarsaparillian and other foreign roots yielding extracts that enter into the composition of this new remedy. These, Fluid, Fid-making medicines are selected and gathered with the greatest care and the purest essences, from the native soil, under the personal supervision of intelligent assistants—experienced botanists—who are employed exclusively for Dr. Radway & Co., to find no spurious articles used in the pure, concentrated medicine.

It costs Dr. Radway & Co. over $20,000 (three thousand dollars) per annum for the services and expenses of scientific botanists in this branch alone. But the beneficial improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

soon far the ability, over and over again, of those in the habit of using nostrums, to see such a medicine that is completely builds up, repairs, and rebuilds the wasting, broken-down constitutions, is

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied in the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT GIVES HEALTHY SUSTAINING AND FLESH-MAKING QUALITIES.
A supplies the system with caloric or heat-producing properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the waste.
It exterminates the products of decay.
It resolves into Tissues, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It is the Great Blood Purifier.
It cures all Erysipelas, Boils and Ulcerated diseases of the Bowels.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of womanhood those who were weak, nervous or diseased, are deficient or exhausted of essence of woman from the penile incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, but what a few days use of this solution to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs be restored beyond the process of repair, or if capable of sustaining the system, use RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, LIVER and other organs are ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will be by use of the **Sarsaparillian Resolvent, continue** to be perfectly sure of cure, no matter how low the vital forces may be, if the system can be brought under the influence of the Resolvent. In such cases the repairs will be greater than the waste and the BLOOD will receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, ULCERS, SYPHILIS, and all forms of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue. All these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Organs, Womb, or Urinary difficulties, will experience a marked change for the better from the first day of taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and vitalized, and is enabled to hold in solution all the constituents of healthy blood, the deposits of Consumption, Scrofula, and other elements of disease, decomposition and decay will be eliminated in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secure, during the process, renovation. Naturally Diseased Tissue, the Pancreatic Juice and other fluids being absorbed by the circulation, these secretions are directed for expulsion from the system through their appropriate channels. If medicine fails in its purpose in the system, to correct these secretions, and to so act on each organ or secreting gland in destroying it proper function, health can never be restored; hence only for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important end. Nature has heretofore existed in all these remedial agent, the great Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this power-ful agent on the blood and other fluids that supply the living body with repairs, will so change the system with new constituents as to resolve and eliminate the dead and decomposing matter, and supply its place with sound and living tissue, secretions, washed by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is taken up, as well as the action it has on the elements it converts into blood, and its specific action when received by the circulation, it forms a chemical mercury atom of virus from the blood, and resolves it into all forms of disease, whether caused by the action of some specific poison, or virulent disease, or mercury. These Resolvents, or Fluid Medicines, Chloride of Mercury, Calomel, and other agent but may have accumulated in the bones, Cartilages, cartilages, or joints, or from some transmitted taint, disease that may have run through half a score generations.

Scrofula, Consumption, Syphilis, uncure and long standing **Venereal in its worst forms, Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Diseases, Rickets, Erysipelas, Fever Sores, the worst forms of Skin Diseases, Eruptions Fever Blotches, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person making it for either of these forms of Disease, its potent power to cure them.**

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb; Dropsy, Diabetes, and all who are incessive advised by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through its use.

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada, had for many years FIVE RUNNING ULCERS, one on his thigh, the other on his side and neither of the two doctors who attended him, the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced to use **Radway's Sarsaparillian Resolvent** alternately with **Radway's Pills** and **Ready Relief** and only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills caused, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent** diluted with water, which completely cured him. Here is a man that had gone through expenses of dollars, doctors for nine years, and cured at a cost of less than 50 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

Mr. Durant, one of the wealthiest citizens of Wells River, Vermont, and for many years the leading member of Paper Mills, Hotels, &c., told me of his know of Radway's medicines. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire head, from which issued large matter and blood. In September last, and he was the most revolting object Deceased I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Radway's Pills and Ready Relief.** One month since, on returning to Canada, I saw the father, who also told me that his son was entirely cured. I know of many who have been cured of Fever Sore, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Windsor Station, Ontario, Canada West, Sept. 1, 1870.

DR. RADWAY :—This is to certify that I was taken with bleeding at the Lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was stayed, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and weakness, Consumption have disappeared. I feel my health fully restored. JONATHAN PRELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

THE NEW ALBION HOTEL, the largest Hotel in Montreal, has just been opened under the most favorable auspices. **Splendidly furnished & thoroughly Ventilated.** Notwithstanding the very large outlay in building and furnishing the house, the old price of $1.50 per day will not be departed from. We, therefore, bespeak for ourselves a continuance of the patronage so liberally accorded to us during the past TWELVE YEARS. (1624)y DECKER & CO.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is pure, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may added rational and innocent amusement. For its Literary Department, in past years

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, IRIS CHURCHILL,
LOUISE S. GORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

A BEAUTIFUL STEEL PLATE

Of these the LADY'S BOOK contains *fourteen* each year of the highest order of excellence to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXPENSIVE PATTERNS.—We give frequently a full-sized pattern sheet to our patrons, costing twenty dollars, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

☞ We have also a CHEMICAL, AGRICULTURAL, and a HEALTH department.

GODEY'S 176 INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, Parlor, and Work-table.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give a rich appearance to the book.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standing in public, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of to-day, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste ; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; it creates a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy for Liver, Kidney, Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, Jaundice, Sick Headache, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Gout, Erysipelas, Fever and a sure preventive of those distressing summer complaints so fatal to children, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville :

G. C. Borrodaile,

E. Chandler,

Charters & Co.

James Hambly,

J. C. Holden & Co.

L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well-seasoned oak casks, and for sale by the principal grocers, druggists and hotels throughout the Dominion.

Belleville, Oct, 17, 1870.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, in which the system seemed saturated with corruption, have been purified and cured by it. Wonderful also are the cures it has effected in the more obstinate and destructive ulcerous contamination resulting from the impurities of the blood. Under the influence of this searching remedy, the foul corruptions become thoroughly cleansed, and the sores begin to heal. Even deep-seated Cancers, which were aggravated by the use of mercury, and physicians had given up in despair, have been completely cured by it. Other complaints, which are caused by the same impurities of the blood, are subdued by it, and the patient's health restored. Such are Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other affections of visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Liver Complaint, Dropsy, Erysipelas, Neuralgia, and the various diseases and affections of the womb and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. Under the influence of this medicine will come the complaint. *Leucorrhœa or Whites, Uterine Hemorrhages, and Irregularities, Ulceration*, commonly soon relieved and ultimately cured by its purifying effects. Minor complaints, for which doses for each case are found in our Almanac, require but few doses to restore health of the system and functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Ayer's Sarsaparilla should be used in connection with the Pills.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Toronto, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Common Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before has the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most nations, it has been in high repute and higher in their estimation as the trial has been severer. Its unchanging character and power to cure the various affections of the lungs and throat, have made it known as a reliable protection against them. While adapted to milder forms of disease and to young children, it is the most effectual remedy that can be made, and can be given for incipient consumption, and the dangerous symptoms of the throat and lungs, with confidence against sudden attacks of Croup, it should be kept on hand in every family, and those who are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, yet great numbers, who consider their case seemed settled, have been completely cured, and the general health restored by the use of Ayer's *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. Whom nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, as even those than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, or any other mineral substance, but purely vegetable whatever, it in nowise injures any patient. The number and variety of cures it performs in all parts of the country, are familiar to almost everybody, and we believe almost a positive guarantee in the history of Ague. Our pride is gratified by the acknowledgments we receive of the radical cures effected by it in obstinate cases, and where other remedies had wholly failed.

Travellers, Settlers, Miners, Soldiers, and all travelling through miasmatic localities, will be protected by taking the Ague Cure *before* they start.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Complaints and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other remedies had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold everywhere in the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best vocal and instrumental Music, by such authors as Hays, PETERS' Kinkel, Bishop, Thomas, Danks, Hewitt, Berlioz, Foxy, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards issued in sheet form, from the same plates, and sold at from 20 to 50 cents each, and all we ask for the Monthly is 25 cents a copy, or $3 year, $1.50 for six months ; and we will send to every purchaser, on receipt of price, any of choice new music, by the best authors.

We do not expect PETERS' Musical Monthly to pay as a publication, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our publishers sing and play the music we give them. Their musical friends hear of music, like it, and buy it in sheet music form when we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. PETERS, 599 Broadway, New York, where every thing in the Music line can be had, no matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendid illustrated weekly journal of POLITICAL SCIENCE, MECHANICS, INVENTION, CHEMISTRY, ARCHITECTURE, ENGINEERING, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 important pages, embellished with fine engravings of Mechanical Inventions. Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $1 a year, ought to have, in this thriving country A MILLION OF READERS.

Whoever reads the Scientific American is entertained and instructed, without being humbugged by high words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND FOREIGN INVENTIONS*. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering information about the progress of Inventions and Discovery throughout the world ; and with a view to facilitate the manufacture of any country which this journal has built the first place in Scientific and Mechanics literature, the Publishers have, on January first, issued the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled :

MEN OF PROGRESS—AMERICAN INVENTORS!

the plate coming nearly 2 feet long, to engrave and contains fifteen likenesses of illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the picture, on receipt of three dollars. The picture is also offered as a premium for clubs of subscribers.

☞ $1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in CASH PRIZES, as per list, to inventors sent in by February 15, 1870. Persons who intend to compete for these prizes should send as soon for prospectus and blanks for same.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. Clubs of ten, at the proportionate rate. Extraordinary fifty cents per annum. Specimen copies sent free address the Publishers,

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—Any inventor can obtain a Pamphlet of Patent Laws and instruction to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period prepare her system with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some derangement should use Radway's Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will prevent sickness and secure a perfect freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

arcon the earliest stage of female suffering from Retention Pl'ed the Catamenia, through all the long train of pains of the Womb, Uterus, Bladder, Kidneys, Spine, Dyspepsia, Irregularities, Leucorrhœa, Flooding, Intolaneria, Chlorosis, Cachexia, Bad Habit of System, Heroses, or Weakness of Blood, and all painful symptoms; Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured see Radway's Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with such of you as suffer from indigestion, and a bad state of the stomach, Habitual Costiveness, The means of obtaining relief, of accomplishing a cure. Is to defend on the use of Radway's Sugar Coated Pills, the only cathartic and alterative in existence which can operate upon the internal organs of the bowels without a pain, and restor es to the stomach and liver its healthy action. From the by all druggists. Several agement never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly gives us the natural health of the digestive and excretory functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Radway's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN

STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertory *sanp purgative and cathartic agents* that, for ordinar purposes, open the bowels, and through what is called "peristaltic" movement, purge from the all sedatary excrementitious matter. Such agents, or the purposes of cure, or removal of any settler disease, are utterly useless.

DR. RADWAY has compounded one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a THOROUGH, EFFICIENT, COUNTER-IRRITANT. ALTERATIVE PILL, that can be taken

"peristaltic" movement, purge from the all sedatary excrementitious matter.

THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING MATTER

and also safe to take in the most malignant of eruptive Fevers ; in cases where the mucous membranes or the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive exclusive properties. All these common pills so made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to cover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, and the countless supplies of aloetries, (and the most popular, for it is admitted in the profession that Aloes and Calomel, or Colocynth, Antimony, Podyphyllum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for the people in Fluid Pills.

DR. RADWAY'S PILLS

IN RADWAY'S PILLS [which are the only perfect *Purgative Pills*] you secure a Pill superior in all its properties to the best Vegetable Pill and Agents known to Medical Science. They differ in every respect be all other pills in general use, and no Vegetable medicine that supplies a substitute for

Calomel or Mercury.

IN RADWAY'S PILLS you have one medicine that will secure quicker, more perfect and lasting results than will be given in from three or more dif ferent prescriptions of the most skilful physician, proof of this : You are seized with a bilious attack better protective Pills or powders to work off the effect of the bile in the stomach and bowels, and a dose is given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS will cure the attack. More than one or more prescriptions are given for, without running any risk from mercurialising or salivating the system.

Why is Purgative Necessary ?

There are two principles which exist in every living human body ; one is the product of decay & decomposition, (these humours or elements that are ejected by the absorbents and bacteals as refuse). The other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be thrown off from the natural channels adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin vessels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to assert to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the aroma of MATERIA MEDICA or CHEMISTRY that secures these important results so thoroughly, HAPPILY, and with COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Paine, Acheo Ailments adv ; that Radway's Ready Relief cures fever and ague more promptly than any other remedy, and is the SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Ague in the Mississippi or preparation of Quinine, Arsenic, Mercury, Sulphate of Iron, or Bismuth, in fact, no combination will cure this disease so positively as Radway's

Radway's Ready Relief.

No, not one. Thousands now acknowledge the fact, Asiatic, Afric

To Scientific and Practical Agriculture.

By Henry Stephens, F. R. S., Edinburgh, and the late J. P. Norton, *Professor of Scientific Agriculture in Yale College, New Haven.*

Two vols. Royal Octavo. 1600 pages, and numerous Engravings *Price* $7. *1/2 Mail, post-paid, $8.*

CONCENTRATED LYE.

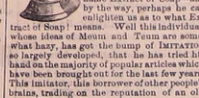

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Manly Sport and Team are somewhat hazy, has got the bump of Imitation so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's ideas, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's name stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

J. A. HARTE, Druggist,

Glasgow Drug Hall,

400 Notre Dame Street.

Montreal, June, 1870. 45

OTTAWA HOTEL,

St. James & Notre Dame Sts., Montreal, P.Q.,

Burnett & Boyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerkens, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number contains from ten to fifteen original articles on the Latest and most Important Discoveries, Inventions, Engineering, Mechanical Movements, Mechanics, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and People of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

In practical suggestions will save hundreds of dollars to every mechanic, Manufacturer and Farmer in the land, besides affording a continuous source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1.50 half year. Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer is the cheapest. Can I obtain a Patent? is to write to Munn & Co., 37 Park Row, N. Y., who have had over *twenty-five years' experience* in the business. No charge is made for opinion and advice. A pamphlet sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interference, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,

Publishers of the Scientific American,

37 Park Row, New York.

Call and inspect the Stock before purchasing.

H. ROSENBERG.

Belleville, Sep. 1868. 123-tf 92 tf

UNDERTAKING.

O. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, at less than one-third the cost, the cutting of her own and her children's wardrobe.

It has ways high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for parlor, original music, reading, and all other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and unique Steel Parlor Steel engraving, 25 by 33 inches, entitled "The Pic-nic on the Beach," and valued at $10.00, to every subscriber for 1870.

The engraving is all done in line and stipple, from the original painting by Lilie M. Spencer, and, besides the copyright cost over seven hundred dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $8.00, and other premiums worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 12 cts.

W. JENNINGS DEMOREST,

838 Broadway, New York.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Watts having purchased a proprietary interest in it, and become its publishers, in the belief that the region and resources, around us in this part of Canada, agricultural and horticultural resources and progress needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, whose literary and scholarly ability to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the agricultural press, has become familiar as a household word among the farmers of Canada. During the past year, Mr. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure its continued co-operation in leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Page and Jarmon, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, hiry-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium.

Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ $24 Large Ontario Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 5 Subscribers, - - -	$4.00
Club of 10 " - - -	8.00

FOR THE TEETH

Sold by Cabrinists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache, no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and a firm as the tooth itself. This beautiful preparation restores front teeth to use. Made same shade as Whitlow teeth. Price 2s.

GABRIEL'S ODONTALGIC TOOTH PASTE for cleansing and improving the teeth, and imparting a healthy vigour to the gums, whereby the teeth without leaving between them any of the acid secretions are less liable to decay in the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, by appointment to Her Majesty the Queen of Spain. Preserves the teeth, and imparts a delightful fragrance to the breath, gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in the cases of Tic Neuralgia and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantage of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable for smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriels' new system, by sending particulars of their cases, with a remittance of One Guinea, when the impressions for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Pains, as Dentistry on receipt of postage.

☞ All letters to be addressed to 33 LUDGATE HILL, LONDON.

Are You Insured?

THE WESTERN, of Toronto, Fire and Marine Assurance Company, are prepared to effect risks in both branches, through their Agent, M. B. ROBLIN, on the most reasonable terms.

☞ All claims promptly settled.

French Correspondence.

Arras, Dec. 24.

When the siege of Gibraltar attracted the eyes of all Europe, the Count d' Artois and the Duke of Bourbon came from Paris to share in the glory of its fall. Every morning on awakening, Charles of Spain demanded, as to the fortress, "Is it taken?" Receiving the invariable reply "No," he in return added, "It soon will be." But the soon never arrived. The position of Paris is something analogous. The Germans did expect to take the city, and now they have not the confidence that it will be captured soon. The position of the besiegers and the besieged is changed very materially. Trochu has proved as deep as Moltke. He gave it to be understood that Paris was only provisioned for a few months—it has submitted to three months solitary confinement, and may as many more for any evidence forthcoming to the contrary. Deceived by Trochu's very probable statement the Germans relied on the menace of a bombardment—assured the world everything was ready to commence it—and we now learn that some weeks must elapse before it can be attempted. Its success is quite another matter, and about which there are grave doubts. Then Bismarck was deceived in the expectations of the Reds getting up a row. He too like the man of Sedan, built much on the sons of disorder.

For more than three long months, Paris and her two millions of souls have submitted to moral and material privations of which history can afford no parallel, and these the inhabitants have had no doubts, no weakness. They have astonished the world but must have astounded themselves. A city whose activity might be felt in the most distant parts of the globe, decided to live imprisoned within its walls. Paris wished to resist, and she has become impregnable; she has resolved to struggle, and found within herself the elements of a veritable army, she has fabricated Chassepots and manufactured cannons, she awaits the end with confidence, but without fear, and if she does not succeed, it will be necessary hereafter to recommence, that's all.

To describe the passing events of the war, would be by the time my letter arrived, possibly like writing a chapter of ancient history. But there are some fixed points in the struggle, that may be taken as indices of ultimate results. Trochu by his patient energy, and resolve to act cautiously, has not only fortified Paris with new and heavy cannon, but made the city impregnable. He has created an army out of materials that in September last were considered too contemptible even for a laugh; while his troops have been increasing by the force derived from organization, the investing army has remained stationary. Not content with having placed the capital beyond the reach of attack, the French out-works are being so rapidly advanced, that shells will soon fall in Versailles. Strange revulsion of chances. Versailles bombarded before Paris, and all the glories of Germany forced to decamp to St. Germains. There was much natural anxiety to ascertain how the Parisians would take the news of the defeat of the army of the Loire. They have received the misfortune like men, and it has only made them more determined to resist. They cannot divest themselves of the belief, that all France cannot fail to bring succor. There are camps at Conlie and Bordeaux, at Lyons and here—men are in swarms, and are being drilled at a railway speed. Assuming that it takes three months at the very least to make a soldier, each week that elapses frees thousands of men from that apprenticeship. Chanzy, the best general yet turned up by the force of circumstances, is even in his very retreats making armies. His troops are becoming inured to the hardships of campaign life, he is drawing the enemy deeper into the country, diffusing his army, necessitating reinforcements. These the Fatherland can give, but how long the drain will be unmurmuringly accepted, it is for German patience to decide. Rest assured France will produce the last man to continue the strife, to weary and harrass the invader. It is only speculation to consider can the Prussians occupy the entire of French territory. To have this nation of nigh forty millions really prostrate such must be done. The Allies subjugated the Gauls during the First Empire, and the English marched through their country from the Pyrenees to Paris. But France was then divided, hated the organizer of conscriptions more than Blucher or the Cossacks. It is not so now; there is not the slightest symptom of disunion as to the duty of chasing the Prussians. Politically, France was never more free than now. You can establish a newspaper and write as you please. You can hold a meeting and denounce public men till you are tired. Both agencies are resorted to, but "no surrender" is the motto of all.

The fighting now is quite dissimilar from that which characterized the terrible days of August and ended at Sedan. It is now nation against nation. Sidonius, bishop of Clermont, described the Germans of the fifth century thus:—"We have not a more cruel and dangerous enemy, they overcome all who have the courage to oppose them. They surprise all who are so imprudent as not to be prepared for their attack. When they pursue, they inevitably overtake; when they are pursued their escape is certain; they despise danger, a storm is their protection, a tempest a subject of joy." Modern Teutons retain much of this character except that they are not cruel. It remains for a short time to prove, will the French match them. Bourbaki looks like the

"dark horse" is the race of Victory. He meditates a rush on Paris while Chanzy occupies the foe on one side, and Faidherbe on the other. If Bourbaki could reach the Prussian ring around the city, the Germans might well feel more than anxious. But Faidherbe is not a rash man, but his position outside Amiens is not unattended with danger. The Germans are moving on his rear from the south-east, while Manteuffel confronts him. He may win a Coulmiers victory, or may be surrounded, as, were the force, of Sedan. If defeated the army of the North cannot reform in time to aid Havre and Cherbourg. The city of Amiens is between two fires, from the citadel held by the Prussians, and the battles that will rage in its suburbs. In itself, Amiens will be held by the Germans as a point of honor, but Rouen will be held fast, it is the key to fair Normandy, rich in all an army needs for its support. If the Germans still "come on in their old style," they must recognize that the French are becoming very tough to deal with, and although Gambetta issues terrible decrees against soldiers who may become timid, or generals who may prove incapable in presence of the enemy, he will not have occasion to follow in the footsteps of the Convention, which equipped an ambulatory guillotine, under the superintendence of St. Just and Le Bas, to follow the French army, and in all cases of defeat, to set the machine to work.

TO BE CONTINUED.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	.....	4.00 A. M.
" 4 Express	.....	6.30 "
" 8 Mixed	.....	9.45 "
" 2 Express	.....	6.15 P. M.

GOING EAST.

No. 1 Express	.....	11.10 A. M.
" 7 Mixed	.....	9.40 P. M.
" 3 Night Express	.....	12.25 A. M.

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 17.

MISSIONARY MEETING.—Remember the Missionary Meeting at the John Street Church this evening.

HYDRAULIC RENTS.—An order has been issued that all hydralic and other rents are to be collected hereafter by the Collectors of Inland Revenue.

AGRICULTURAL SOCIETY.—The annual meeting of the West Riding Agricultural Society will be held at the Town Hall tomorrow, at noon.

THE ACCIDENT YESTERDAY. — John Emery, one of the men injured at Rathbun's Island yesterday, by a mass of frozen saw-dust falling on him, had several of his ribs broken thereby.

ERRATUM.—In our yesterday's issue the name of S. J. Bull, Esq., was erroneously inserted in the Committee on Fire, Water and Gas, in the report of the Special Committee to strike the Standing Committees.

ONTARIO COMMERCIAL COLLEGE.—W. C. Nunn, Esq., addresses the students of this College this evening, on the "History and Progress of the Electric Telegraph," at half past seven o'clock. Those interested in the subject, would do well to attend.

LECTURE.—Rev. Jos. Wild will deliver one of his popular lectures in Canifton on Thursday evening. Subject: "Individuality." The proceeds are to be appropriated to the repair of the church edifice.

MEETINGS.—The annual tea-meeting in the Wesleyan Church, Tweed, will be held on the evening of the 20th inst.—The Missionary meeting in the W. M. Church, 4th Con. Sidney, will be held on Friday evening, 20th inst.

INMAN STEAMSHIP CO.—By reference to our advertising columns it will be observed that this popular line of steamers have established an agency in this town under the superintendence of Morgan Jellett, Esq.

SOCIAL.—Mrs. J. A. M. Gilbert, Mrs. S. Sills, and Mrs. S. McMullen, will give a Soiree next Friday evening in Mr. Wild's Church. Reading by S. B. Burdett Esq., and Prof's Coleman and Green of the Deaf & Dumb Asylum, will render the piece "Christ stilling the Tempest." Music and Refreshments.

BELMONT IRON MINES.—The Marmora Iron Company are prosecuting the work at the Belmont Ore Beds with more than usual energy this winter. The number of men employed at the shaft and on the works is nearly double the number employed last winter, and preparations for a big summer's business are being made. The quality of the ore is improving, that now being mined being superior to anything before obtained at the ore bed. If the Grand Junction Railway were built so as to tap the Marmora Road a few miles from the mine, there is no doubt the whole of the ore would come by the way of Belleville, as this route would be far the cheapest. Push on the Railway.

THE COUNTY COUNCIL.—The meeting of the County Council for the purpose of electing the Warden of the County, and for the transaction of the usual opening business of the session, will take place on Tuesday next, January 24th.

THE MANUFACTURER AND BUILDER.—We have received the January number of this young but vigorous publication. Its engravings are excellent, and its matter of an interesting nature, evincing careful editorial supervision. This magazine, which consists of 24 large pages, beautifully printed, is published by Western & Co., 37 Park Row, New York, at the low price of $1.50 per year.

THE NEW DRILL.—A class has been formed for instruction in the new drill. Capt. Hulme is the instructor, and the class meets on Tuesday nights at 7:30 p. m. and Friday mornings at 9 a. m. Volunteers ought to avail themselves of such an opportunity to become acquainted beforehand with the changes that have been made. Officers, non-commissioned officers, and men are at liberty to fall in.

BUILDING IN TRENTON.—Amongst the improvements in the village of Trenton during the last summer, the fine brick block of Terrence McCabe, Esq., on the corner of Dundas and Water Streets, is the most noticeable. The block contains three large shops on the ground flour; the second flat is fitted up for offices; while the third story is converted into a large hall 40 by 64 feet which is well adapted to the growing wants of this thriving village. The whole block is 67 by 67 feet, and is an ornament to the place.

ATTEMPTED ESCAPE.—The man Sager, *alias* Johnston, now under arrest on a charge of obtaining money under false pretences, made a bold attempt at escape this morning by walking away from the Police Court while the constables were busily occupied. Constable Downes was soon on his track, and brought him back in triumph. His excuse for bolting was that he wanted to procure a witness. It is almost needless to say that that witness didn't appear.

ORANGE DISTRICT LODGE NO. 3, SOUTH HASTINGS.—The annual meeting of this District Lodge was held in the Lodge Room of L. O. L. No. 295, on Tuesday, Jan. 10th. A large number of brethren were in attendance, and the proceedings very interesting. The following brethren were elected to office for the current year:—

Bro. Robert Wilson, D. M.
" Hugh Conners, D. D. M.
" R. Duffin, D. C.
" John Latchford, D. S.
" Sam. Lawrenson, D. T.
" John Collins, D. D. of C.

ORANGE DISTRICT LODGE NO. 4. SOUTH HASTINGS.—The annual meeting of this District Lodge took place on Tuesday, 10th inst., in the Lodge Room of L. O. L. No. 445, Melrose, Bro. Matthew Hall, District Master, in the chair. The attendance was very large, showing that the Order is still on the increase in this part of the country. The following are the names of the officers elected for the current year:—

Bro. Matthew Hill, D. M.
" James Youill, D. D. M.
" Ferguson Pagan, D. C.
" A. B. Randall, D. L.
" Mitchell McCullough, D. T.
" Seth W. Hill, D. D. of C.

TEA MEETING.—The Ladies' Aid Society, in connection with the Wesleyan Methodist Church, Belleville, held their annual tea meeting in the basement of the Bridge Street Church, on Tuesday evening, January 17th. Though the attendance was not so large as upon former occasions, owing to a variety of circumstances, the meeting in every other respect was a success. The tables were loaded with all that the appetite could wish or desire. After tea those present repaired to the body of the Church, where, after singing and prayer, the Rev. G. R. Sanderson, owing to the illness of J. H. Meacham, Esq., took the chair, and apologized for the absence of the Mayor, owing to indisposition. Short addresses were delivered by the Rev. Jas. Smith, Hev, Mr. Lewis, Rev. Mr. Chambers, Rev. Mr. Cullen, Rev. Mr. McCulloch and the Rev. Mr. Cobb. Some excellent pieces of music were sung during the evening by the choir.

COMPLIMENTARY SUPPER.—The employees of Mr. NEIL MCARTHUR, in his saddle and harness manufacturing establishment, entertained him and a few guests at an oyster supper at Hambly's on the evening of the 17th inst. The supper was prepared in Hambly's best style. In response to the toast of his health and prosperity, Mr. McArthur, at some length, reviewed the relations which had existed between himself and those in his employment, which had been of the most friendly character. He expressed the hope that it might continue, as he was sure it would so long as a fair day's pay was given for a fair day's labor. The success of an employer was always advantageous to those in his employment, and it was to the latter to a great extent, that a man owed his success. He intended to extend his business to its fullest capacity. The company spent a very pleasant evening, and broke up at an early hour.

TEA MEETING.—A tea meeting was held last night in the Demorestville Presbyterian Church. To say it was a success would be using too feeble a term. Every available seat was occupied, the people crowding in from the surrounding country and numbers coming from Belleville, Napanee and Picton. After the refreshments, which were liberally furnished by the ladies, the Chairman, Dr. McLaren, called on Rev. J. Scott, of Napanee, Rev. Mr. Burton, of Belleville, Dr. Wilson, of Picton, Rev. Mr. Thompson and others, who gave amusing and entertaining addresses, which, with music from the well-known and efficient Belleville choir, and talented local amateurs, whiled away a pleasant evening. Among the latter was a quartette by four children under six years of age, and one of them, a child of Mr. Samuel Smith, only four years old, sang alto with remarkable taste and accuracy. This infantile precocity excited general admiration and curiosity. The proceeds amounted to $93, and are to be devoted to repairing the church, which is now trying to regain its former prosperity, and under its present pastor, Rev. Thos. Ritchie, bids fair to do so.

Dr. Ryerson and his Assailants.

The *Globe* and those who take the cue from its editorials, continue to belabour the Rev. Dr. Ryerson for daring to chastise the young giant who leads the Grits in the Ontario Legislature, for his display of ignorance in connection with the School Bill now before the House. The most amusing article appeared in the *Globe* a day or two since, in which the Dr. is taken to task for the tone in which he addresses Mr. Blake. Those who read that paper, certainly could not have suppressed a smile at the cool manner in which this lesson upon propriety was read to the Dr. The closing paragraph of which, though amusing, shows the effect the Dr's. remarks must have had, and the consternation they have created in the ranks of that party. Fancy the *Globe* threatening Dr. Ryerson with being summoned before the Bar of the House of Assembly for a breach of the privileges of the House, in daring to comment upon, criticise, and expose the want of knowledge of Mr. Blake upon the School Law, and the educational interests of the country. Who in this 19th century—in this liberty-loving Canada of ours—would dare think of attempting to muzzle a man and prevent him from expressing his opinion, except a genuine Clear Grit liberal, like him who writes for the *Globe*? But Dr. Ryerson is a public officer, and has no right to resent the insults and abuse of such perfect and immaculate men as Blake, McKeller, *et hoc genus omne*, says the organ of this party. That the Dr. treats such threats with contempt is evidenced by the vigorous letters which he has already, and we doubt not will continue to write, when the defence of himself or the school law, to the perfecting of which he has given so much of his time and talent, requires it; and we are, the threats of a hundred *Globes* will never deter him from enforcing his opinions when he deems it proper to do so.

That Mr. Blake and those who follow him know very little of the question upon which they speak, is evidenced by their speeches. Nor do they desire to know An opportunity presented itself to attack the government over the shoulders of Dr. Ryerson, and it could not be lost. Is it any wonder, then, that the venerable Dr., who has given over a quarter of a century's thought and labor to this question, should feel annoyed and chagrined while listening to the platitudes, special pleadings, and invectives, of those whose only aim was a party triumph, and the gratification of an hereditary hatred of himself? People may condemn the Chief Superintendent of Education for the style and tone of his letters, and moralize over the bitter things which he says, in dealing with his opponents. Those who thus talk and reason have never been the subject of, nor listened to one of Mr. Blake's withering political invectives, or they would reason with more charity upon Dr. Ryerson's style in dealing with him. Let Mr. Blake approach the subject in a manner in which he can do it, and we doubt not he will be treated in a milder way; but that he will be worsted in argument is as certain as his entry in the arena.

The Stratford *Beacon* in commenting upon this School Bill says:—

"Could Ministerial imbecility go further than the proposal made by one of their organs to allow Dr. Ryerson to address the House on the school question in person? As though there was not an occupant of the Treasury Benches capable of explaining even a School Bill!"

Was it "Ministerial imbecility" that induced the late Robert Baldwin and Francis Hincks, to ask Dr. Ryerson to sit between them in the old Legislative Assembly, and prompt them when questions were asked in reference to the School law, when discussed in their time? At that day the great leader of the Reform party, had more regard for the educational interests of his country, than the mere question of party; and the Conservative opposition were quite willing and ready to rise above mere party for the purpose of maturing a measure of such vital interest to Upper Canada. Now unfortunately, all interests great and small sink into utter insignificance, with the present opposition, when "party supremacy" is at stake.

As another evidence of dishonesty which characterizes the Grit Press upon this question, we have the London *Advertiser*. One day it *advocates compulsory* voting at election, and the next *condemns compulsory* education. Why? Mr. Blake advocates the former, and Dr. Ryerson proposes the latter.

The editor of the Montreal *Witness*, after an examination of the School Bill now before the Ontario Assembly, expresses his opinion of it in these few words:—"The "Education Bill of the Ontario Government "is a most comprehensive measure, and, "so far as we can judge from Mr. Cam"eron's speech, it is just what was required "to complete the previous admirable sys"tem in that Province. The chief changes "are that all schools shall be free, and "that attendance shall be compulsory. "It is proposed to introduce into the school "course the study of natural history, chemis"try and Agriculture, and to establish In"dustrial schools. Well done, Ontario!" Nine tenths of the Opposition in Ontario entertain similar views, if they had the honesty to avow them.

—The Canada Temperance Union met in Toronto yesterday, about 70 delegates being in attendance.

—Prince Arthur is making himself very popular at Woolwich and the neighborhood, where he is doing military duty.

—The affairs of the Duke of Newcastle have been satisfactorily settled. An offer of 5s in the pound has been accepted by the creditors.

—The Prince of Wales has accepted the Presidency of the Royal Agricultural Society of Ireland for 1871.

School Trustees.

TUESDAY, Jan. 17.

The first meeting of the new Board, was held to-night for the purpose of organization.

The new members—Messrs. Tennent, Hambly, Falkiner and McAnnany—made the usual declaration and took their seats.

PRESENT—Messrs. McAnnany, Shepard, Glass, Sawyer, Wensley, Falkiner, Tennent, and Hambly.

Moved by Mr. Shepard, seconded by Mr. Glass, That Francis McAnnany be appointed Chairman of the Board of Common School Trustees for the current year.—Carried.

Mr. McAnnany, in taking the chair, thanked the Board for the expression of their continued confidence. The present year would be a most important one, as the Education Bill, which effects great changes in the School system, would go into effect. They should prepare for it, so as to make the Common Schools efficient as feeders to the High School, and the High School to the Colleges and Universities. Experience had taught, in School No. 2, that the system of grading was the most efficient—and indeed the only good way of teaching. Whether the new law passed or not, he apprehended that the Board would be called upon to build a school house in Baldwin Ward, which should be so constructed that the system of grading could be carried into effect.

Mr. Falkiner moved, seconded by Mr. Shepard, That Jno. A. MacInnes, Esq., be appointed Secretary Treasurer for the current year, upon giving the usual security to the satisfaction of the Board.—Carried.

Moved by Mr. Shepard, seconded by Mr. Sawyer, That James T. Bell, Esq., be appointed Local Superintendent of Common Schools for the current year.—Carried.

Moved by Mr. Glass, seconded by Mr. Sawyer, That Messrs. Shepard, Falkiner, Hambly, McAnnany, and Tennent, be the Committee on Internal Management and Organization of Schools.—Carried.

Moved by Mr. Sawyer, seconded by Mr. Shepard, That Messrs. Glass, Wensley and the mover be the Finance Committee for the current year.—Carried.

Moved by Mr. Tennent, seconded by Mr. Shepard, That the following persons be appointed Committees for the Schools in the several Wards:

No. 1—Messrs. Shepard and Tennent.
No. 2—Messrs. Glass, Falkiner, and Hambly.
No. 3—Messrs. McAnnany and Wensley.
No. 4—Messrs. Shepard, Tennent and Sawyer.
No. 5—Messrs. Hambly, Falkiner and Glass.—Carried.

Mr. Shepard said it was usual to provide wood for the schools at this time of year, but he understood that the Chairman of the Finance Committee had already made arrangements for a greater quantity than at present was required.

Mr. Falkiner moved, seconded by Mr. Hambly, That the Finance Committee be empowered to make contracts for the necessary wood required for the Schools for the current year.—Carried.

Mr. Shepard said it would be necessary to consider the report of the Committee appointing teachers and fixing their salaries. It was a question, however, whether it would be wise to discuss it now, as several of the members wished to adjourn early. No harm could result from laying over the report until the next meeting, as this was only a meeting for organization, and as the teachers were already appointed, there could be no change made for the present quarter.

A letter was read from Miss Rankin, resigning her position as assistant teacher in School No. 3.

Mr. Sawyer wished the matter laid over until the next meeting. Miss Rankin would no doubt continue to hold her position until relieved.

Mr. Shepard said the question was whether she would remain.

Mr. Wensley said some dissatisfaction had been expressed by people in the Ward. He spoke to Miss Rankin about it a few days ago; perhaps that might be the cause of her resignation.

The Chairman had learned from the Superintendent that she had not renewed her certificate, and consequently could not teach.

Mr. Shepard understood that Miss Rankin was an efficient teacher, and had always had a large number of pupils under her charge.

Mr. Tennent would like to hear some explanation from the Superintendent.

The Local Superintendent stated that Miss Rankin informed him that she had been suffering from heart disease, and was unable to stand the fatigue of an examination. He had informed her of the proper mode to obtain an interim license for six months, but she had not done so.

Moved by Mr. Falkiner, seconded by Mr. Hambly, That the question of Miss Rankin's resignation be laid over till the next regular meeting of the Board.—Carried.

The Board then adjourned.

DEATH OF A COLORED HERO.—A despatch dated Cornwall, Jan. 17th, says: John Bader, a mulatto, died here this morning at the age, as nearly as can be ascertained, of one hundred and five years. Bader's mother was a slave of Colonel James Grey, who figured in Canadian affairs about the beginning of this century, and in this condition the deceased was born. He was for years before his death understood to be the only one living of the manumitted British slaves. Up to the time of his death he would speak intelligently and with enthusiasm of various historical incidents, from American Independence to the rebellion of '37. He enlisted and accompanied the British forces over the frontier from Windsor to New Brunswick. From the latter place he was with his regiment sent to England and thence to the continent, and took part in the battle of Waterloo. In that engagement he was wounded in the knee. Years afterwards his case was reported in the proper quarter and he obtained a pension which for many years prior to his death was his sole support.

Yankee Insurance Companies.

A writer over the signature of "TRUTH," a cognomen usually employed by those who desire to mislead others, has taken umbrage at a paragraph which appeared in the INTELLIGENCER a few days since, in reference to the Home Insurance Company, and publishes his letter in that journal which is ever ready to extol and defend Yankee Institutions. He says:

"The "Home" has ceased to do business, it is true, and there may be some loss accrue to Policy Holders in the United States; but it is only fair to state that before withdrawing its Canadian deposit, arrangements were made with the Provincial Insurance Company of Canada, to protect all its Canadian interests."

And then winds up with a sneer at the Provincial Insurance Company, because it is Canadian, we suppose, as follows:

"No Canadian insured in the late Home Insurance Company can possibly lose one cent of the Provincial Insurance Campany of Canada does its duty."

How does this tally with the following; which we clip from the Brantford *Courier* of the 14th inst:

"The Home Insurance Company of New Haven, which retired from the Dominion in October, 1870, after transacting an extensive business in Canada for several years, has suspended. An arrangement had been entered into with the Provincial Insurance Company, of Canada, to assume the risks, and to guarantee all existing policies until they matured, but the Dominion Government objected to the transfer of the deposits, as several suits against the Home were pending; *consequently the Provincial never assumed the liability.*"

The *Monetary Times* in noticing these American Companies, gives the following valuable information, which people would do well to bear in mind:

"There are eight life companies from the States doing business here, which have deposited for the benefit of policy holders *generally*. Creditors on this side, in the case of these eight companies, must rank with those on the other side of the lines, and unless the Government requires that the deposit should be applicable to the payment of the Canadian claims only, *the deposit will be quite valueless.*"

The knowledge of a little more "truth" in reference to these Companies would be of value to people insuring.

Ontario Legislature.

In the Legislature, Toronto, Jan. 18th, after routine, the Attorney-General introduced a Bill to define the territorial district of Thunder Bay.

Hon. Mr. Richards introduced Bills to incorporate the Gananoque and Rideau Railway Company, and the Brockville and Westport Railway Company.

On motion of Hon. Mr. Cameron the House went into Committee on the School Bill, Mr. McCall in the chair. The Bill was read clause by clause, and discussed at some length.

To the first clause—declaring that Common Schools, to be known hereafter as Public Schools, shall be free schools, and that Trustees of school sections and municipal councils of cities, towns, villages and townships shall, in the manner now provided, levy the school rate. Mr. Perry moved an amendment, authorizing a rate of not more than twenty five cents per month to be levied, for the purpose of purchasing books and stationery. An amendment was proposed by Mr. McLeod to strike out the latter part of the first amendment, but both were lost. Mr. McLeod moved in amendment that the rate be collected on the aggregate assessment, and not from the taxable property of the school division or municipality. This amendment was withdrawn after debate, and the original clause was carried.

The second clause reads: "Each school corporation shall provide adequate accommodation for all children of school age in their school division or municipality, *in conformity with regulations provided according to law.*" The words in italics were struck out on motion of Mr. Eyre, the Government accepting the amendment.

The third clause was then taken up, and after recess, an amendment of Mr. Rykert's, that the teacher and trustees should decide the method of dealing with refractory pupils, was adopted. Mr. Rykert proposed another amendment—that the words "cities, towns and incorporated villages," be added after the word "inclusive," in the second line of the clause. A long discussion followed. The amendment was lost by a vote of 32 to 36.

Some amendments were made to the third and fourth clauses; then the Committee rose, reported progress, and asked leave to sit again. A Bill was introduced by Mr. Hays to form a new county out of certain townships in Wellington and Grey. The House shortly after adjourned at 10:50 p. m.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 18th.

WAGES.

Alphonse Loderick charged Joseph Rollins with non payment of wages, claiming $3 as the amount due. After a long hearing the case was dismissed with costs. S. J. Bull for plaintiff; Jellett for defendant.

DRUNK AND DISORDERLY.

Albert Brough, who had been at the Court before, was fined $2 and costs, or 30 days, for being drunk and disorderly last night. He was sent up.

FALSE PRETENCES.

A. S. Sager appeared in custody to answer a charge of obtaining money under false pretences, preferred against him by the Chief of Police. Mr. Petrie, who arrested the prisoner, testified that he had arrested him that morning, on information supplied by different parties as to his character. He represented that he was raising money to assist a woman named O'Keefe in getting out of town. Asked where she was, and he said she was at the station. Went there with him and, on asking the woman he pointed out what her name was, she answered that it was Mrs. Bennett. Had also learned from Mrs. David Brennan that the man's name was in reality Johnson.

The Magistrate, after hearing this evidence, remanded the prisoner until to-morrow.

—The schooner Enterprise of Eastport, has been seized in British water for making use of a British flag and register to evade the law.

—Messrs. Crosby & McKean, of St. John, have been declared contractors for the erection of the Moncton station and workshops on the Intercolonial Railway at the price of $85,923. The works are to be on a very extensive scale, as the commissioners have purchased forty acres of land for the purpose.

A Nice Christmas Present!

ONE of the best and cheapest Sewing Machines in the Dominion, which can be purchased from

R. M. CLARKE & SON,

at manufacturer's prices. We have been appointed agents for the HOME SHUTTLE FAMILY SEWING MACHINE.
This machine makes the same stitch as the Singer, Wheeler & Wilson, Lockman or any other high priced machines, and is sold at a great deal lower price, viz.: The Hand Machine, $18; the same, with Stand and Treadle, $26, complete with Hemmer, Gauge, &c. For samples of sewing or any other particulars, address or call on R. M. CLARKE & SON.
72 Front Street, Belleville.
N.B.—Machines taken to the houses of intending purchasers, for trial, anywhere in the County, free of charge.
We are also agents for the Gardiner Patent Sewing and Knitting Machines.
Belleville, Dec. 20, 1870. 4197.t45-tf

To Let,

A SHOP and Dwelling House at Roslin. A good site for a Country Store. Apply to Miss Mowat at Madoc, or John Campbell, Roslin.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer* Office

The War in France.

The siege of Paris is progressing, though slowly. Several new batteries which were unmasked by the French on the 16th, were speedily silenced by the German fire, and there is a report that a grand assault on the works north of the city is contemplated by the Germans.

A despatch from K[illegible]am to his Queen, states that 20,000 [illegible]ners, four locomotives and four hundred waggons were captured at Le Mans.

The Germans have, since the battle, been [illegible] pursuing Chanzy's army, which has also only been greatly demoralized.

Bourbaki continues to advance, and has occupied Montbeliard after a severe fight.

General Von Werder on the 16th was seriously attacked by four French divisions. The battle lasted nine hours, and the French succeed in repulsing the attack at all points.

Faidherbe's army was still cautiously advancing, feeling its way and meeting with no opposition.

Latest by Telegraph.

BY ATLANTIC CABLE.

The War in France.

Morning Despatches.

Despatches from Gambetta.

Republicans urge the use of Greek Fire.

LONDON, Jan. 17.—A Paris despatch of the 13th says: Gambetta's last despatch to the authorities here, which was suppressed by them, called upon them to take the initiative and make vigorous sorties upon the Germans so that they might be prevented from detaching men from Paris to reinforce their armies in the Provinces. Inaction here endangers the cause of France elsewhere.

The violent republicans in the city insist on the adoption of Greek fire for military purposes. Those now in Paris declare that they possess the secret of its manufacture. Troche opposes the atrocity.

GREAT BRITAIN.

SPEECH ON THE WAR AND THE ALABAMA CLAIMS.

LONDON, Jan. 17.—The Right Hon. W. E Foster delivered an address last evening to his constituents at Bradford in the course of which he alluded to the Franco German war and also to the Alabama question. As to the former, he said that at the outset his sympathies were with Germany in her resistance to invasion by the French, and now they were with France which was resisting invasion by the Germans. He, however, deprecated the assumption of any partizanship by the people of England and any interference on the part of the English government. In allusion to the Alabama claims he said he had good reason to hope that the new minister from the United States would be a powerful agent in the removal of the feeling of estrangement which at present divides the people of England and America.

American Despatches.

Steamboat Explosion.

Fifty-Eight Lives Lost.

Election of Senators.

Affairs in Japan.

Civil War Threatened.

Great Fire in Yeddo.

Shipment of Arms to France.

MEMPHIS, Jan. 17.—It is now thought that 58 lives were lost by the burning of the steamboat 'McGill' on Sunday night.

CHICAGO, Jan. 17.—Hon. Wm. Window, Republican, was to-day elected United States Senator from Minnesota.

General Logan was elected United States Senator from Illinois.

SAN FRANCISCO, Jan. 17.—The steamship 'America' from Hong Kong, via Yokohama, arrived to-day. Business was utterly stagnant in Japan. Minister Delong and Sir Harvey Parker had been on a visit to Kyston, where strong dissatisfaction against Satsuma exists. The latter had massed a large number of troops there, and it was feared that civil war could not much longer be deferred. The roads in the vicinity of Yokohama were again becoming unsafe. Foreigners were frequently attacked. On the 30th Dec. half a square mile of houses were burned in Yeddo, and on the same night the premises of Godwie, Walsh & Co. took fire, but the flames were extinguished after considerable damage had been done. On the 29th Nov. a powder magazine exploded and several lives were lost. The shock was so great that some supposed it caused by an earthquake. The rice crops suffered severely in the southern provinces from the unfavorable weather and earthquakes.

NEW YORK, Jan. 18.—France has for the past few months been the principal buyer of arms in the American market, as a rule purchasing the best quality. The shipment of artillery is small. A considerable quantity of harness for artillery purposes appears on the manifest of French vessels which have cleared for Havre during the winter. Over 50,000 knapsacks have been shipped in the same port, with a cargo of arms. In September 500,000 pounds of navy bread were sent, and 4,800 barrels of flour were part of the cargo of military supplies shipped in November. One manufacturing firm is now under contract with the French government for its entire production of weapons of an improved pattern, and is finishing 1,000 daily. Of the guns shipped, about 75,000 were Enfield rifles, which were originally imported from England, and were last fall obtained from the United States government at sales by proposals.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

NEW YORK, Jan. 18.—A London special says that the Parisians are determined to resist the Prussians *en masse*, should Trochu allow the enemy to enter the city. The idea of yielding is repulsed with indignation. The shopkeeping spirit, however, prevails very largely, and many Parisian tradesmen are congratulating themselves that they are still in the possession of articles that will tempt the German Princes to make extensive purchases whenever they enter the capital. All accounts agree that the resistance to the enemy will, however, be shown that will not have been shown in the annals of war. The horrors of a bombardment have so enraged the population that they are furious, and will go out to fight and meet the enemy despite all military caution and all interference of the Government. If this is persisted in, no horrors that civilization has yet heard of will be able to find a parallel.

—The British Columbian Legislature met on the 5th inst., and is now in session.

—The winter weather has been exceedingly severe in England.

—Tommycod fishing in the lower St. Lawrence has, says the Quebec papers, proved very poor this season

—Wm. Lawson, of Hamilton, has a book in his possession printed in 1700, by Thomas Parkhurst, Cheapside, London.

—A mock sun, a common Artic phenomena, was noticed in Quebec shortly after sunrise on Wednesday.

—Mr. Beecher has finally accepted the $20,000 which his congregation has repeatedly offered him We believed he wouldn't.

—Sir Edwin Lanseer, the great painter of animals, has from declining health, abandoned the easel forever.

Butter steady at 12c to 40c for state.
Cheese quiet at 12c to 16c for common to prime.

BIRTH.

In Jersey City, on the 15th inst., the wife of John A. Davis, of a daughter.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Fayselian and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and the millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.
Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations.
47-2m.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will not only supply the waste going on in the brain, but will enable the mind to endure a degree of labor before. It will impart vigor and promote clear conceptions to the intellect, and by its tonic like nerves and give power to all the involuntary as well as the voluntary muscles of the body.
Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 73-2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by th Rev. C. Z. Weiser to the German Reformed Messenger, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will reach our many to say "A Blessing on Mrs. Winslow" for keeping her service and escape the griping, colicking and teething pangs. We confess every word set down in the Prospectus. It performs precisely what it professes to perform, every part of Soothing rest. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is dragged into stupidity, and rendered dull and idiotic for life!

We have never used Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, assist in a physical survivor to the infant Race. 25 cents per bottle. Sold by all Druggists.
Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.
1w-4m

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.
I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.
C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.
Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. EGGLESTON.
It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.
T. DUCHARME,
Chorister French Parish Church, Montreal.
When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
HENRY WILKES,
Pastor of Zion Church Montreal.
Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—
"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * *
I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."
Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, *vs* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1844, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

Belleville, Oct. 6, 1870. 124tf

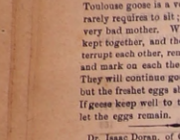

Keeping Geese.

Not more than three geese to one gander ought to be kept for breeding, and they require a wide range, affording plenty of grass and still water. A goose house for four should not be less than eight feet long by six wide, and high enough for a man to stand in upright. A smooth floor and good ventilation are necessary. Over the floor a little clean straw should be spread every second day, after removing that previously used. A compartment about two and a half feet square should be assigned to each goose for laying and setting, and when one is hatching, the gander and other geese must be shut out from her. Wherever a Toulouse goose lays her first egg, she is very particulous in there depositing the remainder. The Toulouse goose is a very good layer, but rarely cares to sit; and if she does, is a very bad mother. When laying geese are kept together, and they are liable to interrupt each other, remove the eggs daily, and mark on each the day it was laid. They will continue good for three weeks, but the freshest eggs should be set upon. If geese keep well to their separate nests, let the eggs remain.

Dr. Isaac Doran, of Ohio, writes that he has used "Allen's Lung Balsam" in his daily practice, and with unbounded success. As an expectorant it has no equal.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Canadian, whose indomitable and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal, have assumed proprietors of the *Gazette*, have greatly enlarged and otherwise improved it, and have issued it as a new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have always been engaged in the higher walks of journalism. Editorials are furnished upon all the lires topics of the day, by experts in the several departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the commercial centre of the Dominion, and have completed arrangements which will secure to the readers of the *Gazette* immeasurably superior to those of fully three times the amount of information given by any other paper published in this city. By the establishment of a first-class branch in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full report of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature, Affording to the reader each week a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal having a large circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 for six months, postage in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) of this spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is procured on a new principle of Medical Chemistry, from the active curative properties of those

Sarsaparillian and other foreign roots existing

Resolvent, and gathered with the greatest care at the proper season, from the native soil, under Dr. Radway's own supervision, by agents—experienced botanists employed exclusively for Dr. Radway & Co.—who, to that all-portious admixture or worthless roots can possibly be mixed with the pure

It costs Dr. Radway over $30,000 (thirty thousand dollars) per annum for the services and expenses of Scientific Botanists in this branch alone to find the wonderful improvements it has recently made in the curative properties of vegetables, especially the

SARSAPARILLIAN RESOLVENT,

over any and all other remedies for the cure of

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Is the only Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishments.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It quickly restores vitality to scrofulic or heat-making properties.
It cures all Erysipelas and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Glandular System.
It increases the weight and appetite.
IT STOPS ALL WASTING DISCHARGES.
It increases the repairs and diminishes the waste.
It eliminates the poisonous matter of decay.
It resolves Tumors, Nodules, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Liver, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Dyspepsia, and will restore to the vigor of manhood those who from weakness and nervous debility are dull and exhausted.
It rescues woman from the perils incident to change of life—cessation of menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or of capable containing the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the process of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the Resolvent, be restored to perfect soundness in five perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the waste and the BLOOD WILL receive that high degree of vitality in which perfect health exists. It is only in healthful nutrition all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, Chronic SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Glands, Bladder or Cellular Tissue; and these diseases can only be cured by the Resolvent that will and curedby the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person afflicted with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in the health for the better after taking the Sarsaparillian Resolvent. As the blood becomes nourished, which is indicated by a healthy feeling, and is resolved to health, the deposits of Tuberculous matter are broken down, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secure their proper healthy secretions. Instead of Cod Liver Oils, the Pancreatic Juice and other Acids being absorbed in the assimilation, these secretions will be directed for expulsion from the system through their proper channels. If medicinal Salts in the Resolvent, as the system, to correct these secretions, and to as eat each organ or secreting gland in discharging its proper functions, health can never be restored; hap pily for suffering humanity, Radway's Sarsaparillian Resolvent secures this important want in the most wonderful manner in all those remedies hitherto advertised as Blood Purifyers.

To matter how deeply seated or engrafted in diseases, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent will soon find it out and effect a cure. Assisted by the living body with repairs, will so change the system with such nutriments as to renew in a short time almost the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By its chemical action with the digestive organs it converts into the substances taken into the stomach during the process of digestion into Thyme and Chyle, which is made blood, as well as the nourishing constituents of the elements that enter into its composition when entering in the circulation, it exterminates every element of disease from the blood, and carries away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, as Mercury, the active Mineral Acids, or the Poisonous Chloride of Mercury, Calomel, and other agents that have been accumulated in the form of Scrofulous sores, or tonics, or from some transmitted taint of Hereditary Disease that may have been for generations.

Scrofula, Consumption, syphilis, uncures and badly treated Venereal in (ts many forms Glandular Diseases, Ulcers in the Throat, Mouth, Tumors, Notes in the glands and other parts of the body, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bloody Urine, Kidneys, Womb, Dropsy Diabetes, and all who are inconvenienced by Stoppage or Wetting in the Bed or Involuntary Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada, had for many years TWO LARGE ULCERS, one on his thigh, the other on his side and received all kinds of medical advice and the skill of the most celebrated doctors in Montreal and other parts of Canada, in vain. Last July he commenced the use of Radway's Sarsaparillian Resolvent, also, with Radway's Pills and Ready Relief. He used only three bottles of the Sarsaparillian Resolvent, and, with a few days' use of Radway's Pills and Ready Relief, was entirely cured. He says he has given a great deal of money to have his wounds healed, but never got cured for nine years, and cured at a cost of less than $2 dollars.

"ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont.

H. Dumont, of the Canada House, Wells River, owner of nearly half the town, besides a num ber of Farms, while Hotels &c., told me of his knowledge of your medicines. For years he was afflicted with one SOLID SCAB, covering the entire body—trunk and limbs—and a sore on his leg in September last, and he was the most revolting object I ever beheld. Some of the best physicians in Canada had treated him for Scrofula, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Scrofulous Sores of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Cholera Infantum, the Bowels, Summer Complaints in children.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally situated on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged in a way to contribute to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to conduct it so as to make it, in every department, a work which every lady would be glad to welcome as a visitor to her parlor, and which every member of the family would be pleased to see. Its steel plate engravings are confessedly unrivalled in the country, and its literature is of a character to interest and improve. Its Model Fashions, Original Patterns, Novelties in Needlework, Music, Receipts, &c., are indispensable to every lady who wishes to be posted in the times.

THE BEST WRITERS

in the literary world have been employed, and will continue to contribute articles for the year 1870. Such names as

MARION HARLAND, MRS. CHURCHILL,
LOUISE B. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK contains fourteen each year, all engraved expressly for this work, and not published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness in the world over.

EMBROIDERY PATTERNS.—We give frequently in each number Patterns of Needlework, usually very pretty, and sometimes very design in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music is engraved expressly for it paper.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the Lady's Book.

DRAWING LESSONS.—In this we are also alone.

We have also a Cookery Department, a Gardening and a Health department.

THE BEST AND MOST VALUABLE RECEIPTS upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

ONE DOLLAR PER YEAR.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the best writers in this department are printed in colors in a style unequal ed.

PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,
FROM
Plantagenet, Ont.
1870. 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it is a certain cure for Stomach and bowels of all sustances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disordered Liver, Digestive Organs, Nausea and Nervousness (caused by Dyspepsia), Rheumatism, Gout, Boils, Loathing of Food, Dostiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Scrofulous Sores of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Cholera Infantum, the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, in consequence of the many of which are truly marvellous. Inveterate cases of Scrofulous disease, which had seemed saturated with corruption, and cured by it, Scrofulous affections and disorders, which were aggravated by the mercurial or iodine contamination until they were painfully afflicting, have been radically cured by its use. In numerous instances, in every section of the country, that the public scarcely need to do more than call attention to the fact that

Scrofulous poison is one of the most destructive agents of our race. Modern science has proved beyond a doubt the organism undermines the constitution, and invites the entrance of insidious and fatal diseases, without existing a suspicion of its presence. Again, it seems to breed in this corrupted humor, and, unless it is expelled from the system by the use of this SARSAPARILLA, it will accumulate, and, sooner or later, in some one of its hideous forms, either on the surface or among the vitals. In the latter, fuber one may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows itself in the form of pimples on the face, or blotches or sores on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable even when no symptoms of any complaint are apparent. Persons afflicted with the following complaints generally find great relief by a fair and thorough, but not violent, course of this SARSAPARILLA: Erysipelas, Blotches, Boils, Tetter, Salt Rheum, Scald Head, Ringworm, Sores, Ulcers, Sore Eyes, Dropsy, and other manifestations of corrupt blood. Also in its more concentrated forms, the *Dropsy*, *Heart Disease*, *Fits*, *Epilepsy*, *Neuralgia*, and Diseases of the Kidneys, Bladder, and Urinary Organs, which require the aid of a cathartic to expel the disease matter from the system. Even when the virus of Mercury or Contagious Blood Diseases has caused necrosis of the bones, and the suffering victim is tortured with rheumatic pains, this SARSAPARILLA will greatly assist the use of IODIDE OF POTASH, in purifying the blood and driving out the disease. The powerful agent in overcoming such obstinate affections as these has astonished the most eminent physicians. For Purifying the Blood, this SARSAPARILLA is the most effective medicine that can be taken. It cleanses the system of the foul humors that make disease, and thereby secures the foundation of health. Its secret is in its power to change the blood in the body, and thus to reach the cause of all complaints that arise from impurity of the blood. This SARSAPARILLA is a great restorative for the strength and vigor of the system. Those who are *Languid* and *Listless*, *Despondent*, *Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find unexpected relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind as the Cherry Pectoral remedy for pulmonary complaints. Through a long series of years, and in every quarter, the record of men it has risen higher and higher in their estimation, as its merits become better known. Its power, character and power to cure the various affections of the lungs and throat have become so well established as to render it unnecessary to publish certificates of its remarkable cures. Although settled *Consumption* is thought incurable, still great numbers of cases in every stage of its advance seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them which we have, but can assure the public that its qualities are fully maintained.

Ayer's Ague Cure

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it is nowise injurious to the most delicate babe, while it counteracts in the most undoubted manner, and in the speediest and surest way, the most inveterate and deadly effects of the Miasmatic poison. Not only will it cure the patient restored to sound health by the *Cherry Pectoral* they subside and disappear.

Fever and Ague when contracted in the most distressing forms, and when the whole system seems literally saturated with the disease, and physicians can do nothing to relieve the victim, a few doses of this Ague Cure will generally suffice to drive out every trace of the disease, and restore the patient to perfect health. Even when the system has been drugged with Quinine until the ears are constantly ringing with its effects, and large doses of it have become necessary to keep off the fever, the use of this Ague Cure will soon enable the patient to dispense entirely with the Quinine, and will thoroughly eradicate the disease from the system. Many remarkable cases of this character have been cured by this Ague Cure, and we believe it will be found to be the most speedy and certain remedy for the cure of Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the Arts and Industries, enters on TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very able conducted, and some of the most popular writers in this country and Europe are constantly employed to write for its columns. Its splendid engravings of Machinery, Steamships, Car Roofs, Bridges, Dwelling House, Farm and Village Architecture, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, must be supported by the liberal patronage of *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with official notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* What inventor or mechanic of this life American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of invention and discovery throughout the world, and with a view to mark the quarter of a century, during which this journal has held the first place in scientific and Mechanical Literature, the Publishers will issue on January firs a large and splendid Steel Engraving of the Centennial Exhibition of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains fifteen likenesses of illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American before the first day of next year can together with a copy of the engraving, on receipt of ten dollars. The picture is not sold except as a premium, for clubs of subscribers.

$1,500 Cash Prizes.

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of names sent in by the first of July, 1870. Persons who want to compete for these prizes should send at once for specimen copies and blank lists.

Terms for Scientific American, one year three dollars; six months, one dollar. Two copies for one year, five dollars. To Clubs of 10 and upwards, terms, two dollars a year. Specimen copies sent gratis. Address, and remit by postal order or draft, to

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Perfect Preservation of Contents.

35 Cents, to Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the same materials, i. e., alcohol as a basis, and which have been started to imitate Radway's Ready Relief. Some of these imitations are prepared with some bartshorn, in imitation of a highly rectified preparation of Ammonia—and in the place of Pepper using the genuine Ready Relief will at once discover the miserable fraud in the imitation. The genuine Ready Relief has India Rubber Stoppers, and every bottle made with the

Fame of Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles 25 cents. Sold at Dr. Radway & Co.'s Office, No. 87 St. James Street, Paul Street, Montreal, and by Druggists and general storekeepers everywhere. Dr. Radway's Goods are in every city and town in the world. Put up in different languages. Ask for Radway's Ready Relief.

New Principles of Medication.

Use *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they are so infallible and secure the most dangerous diseases so rapidly, and with so little pain or inconvenience to the patient, that even contemporaries look in their advertisements, that there is nothing new in their medicines—that the ingredients are all to be found in the old Pharmacopœias, and their published formulas are copies taken from the U. S. Pharmacopœia, &c., hence, they claim impotency of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of impertion, dirty, and worthless compositions. Were it not for the new principles employed in Dissolving Chemical Action upon newly discovered remedial agents, progress in the science of medicine would be at a slow course. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and Iodide of Potash, forming the officinal compound; or of the purgatives, of aloes, jalap, &c. Physicians, chemists, pharmacopolists, physiologists, all, more or less, condemn the use of mercurials in any form or shape. The Materia Medica is deficient of good, sterling, reliable purgatives. The purgatives in the Radway Pills are based on wrong principles, and those who use them are disappointed. Instead of the old formulas prescribed, are contributing nothing or value to the science of medicine. Dr. Radway's Pills are the result of new and modern principles, prepared on new principles, and *Pupa li* ourselves without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers to City subscribers at $4 a year if paid in advance, $6 otherwise. Mail subscribers, $4 a year, $2 50 for six months; $1 50 for three months.

Arrangements have been made with REUTER'S COMMERCIAL AGENCY, for the Telegraphic News, and with Messrs. Sanderson, Morgan & Co., for Commercial Reports. Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in form and appearance, of some eminent originator. There are, however, but very few of these medicines that are entitled to any distinctive exclusive properties. All these common pills are made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Asiatic Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, the countless supplies of *materiales*, (and the most popular, for it is admitted in 300 standard medical books and Medicines) cammony, Antimony, Podyphyllum and kindred poisons, are totally discarded by the scientific medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most perfect remedial agent in the Medical Science. They differ in every respect to all other Pills, and are the only Purely Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine, that

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine,

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For all four of the Reviews, - - 12.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one Review, - 7.00 "
For Blackwood and any two of the Reviews, - - - 10.00 "
For Blackwood and three of the Reviews, - - - 13.00 "
For Blackwood and the four Reviews, 15.00 "

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent to one address for $12. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive one of the Reviews or 1870. New Subscribers to all the five may receive any one of the Reviews for 1869.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This Imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange supposition of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement in the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting papers ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing:

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in which, besides affording a continuous treasure of valuable information The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

AN OFFICIAL LIST of all the Patents issued is published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1.50 half a year; Clubs of Ten Copies for one year, at $2.50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the proprietors conduct the most extensive Agency in the world for procuring PATENTS.

For the last twenty-six years, under the present management, more than 25,000 Patents have been secured through the Scientific American Agency in the business. No charge is made for opinions and advice. A post-paid inquiry, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential.

INTELLIGENCER BUILDING,
BELLEVILLE.

REMOVAL
TO THE
NEW BLOCK.
Henry Rosenberg,

BEGS to announce that he has removed to the NEW BRICK, on the site of the
OLD STAND,
opposite the Wood Market, where he will be happy to see all his old customers and the public generally, and exhibit to them one of the finest and best assorted stocks of
GOLD & SILVER WATCHES,
CHAINS, JEWELLRY,
Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.
All goods warranted what they are represented to be.
All kinds of jobbing and repairing done promptly and at moderate rates.
Call and inspect the Stock before purchasing.
H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker &c.
Front Street, Belleville,

BEGS to appriise those whose duty it may be to arrange for the interment of their deceased friends, that he has a FIRST-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are intimate and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wearing apparel.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the million and ornamentation of the household; the best magazine for literature, original and selected, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving 28 inches, entitled "The Pioneer on the Ground of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed from on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
835 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, well, and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased the proprietary interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada, is specially rural and horticultural resources and progress, need and will ably sustain a periodical devoted especially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. CLARKE, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the press, has become familiar as a household word among the farmers of Canada. During the past year, Hon. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards, and other well-known writers have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Page and Jackson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 344 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, net cash.

GENERAL CLUB RATES FOR 1870.
Club of 6 Subscribers, - - - $ 5.00
Club of 10 " - - - 8.00
Club of 20 " - - - 15.00
And all over 20, at 75c per copy, free of postage.

French Correspondence.

(Continued from yesterday.)

ARRAS, Dec. 24.

Neutrals are getting tired of this war, a very strong proof, that the present object or purpose of it is not very clear. Germany is more than astonished at the sudden recuperative power displayed by France, and which promises to continue, and France cannot clearly see what the Germans demand after Sedan. I have not met with any Frenchman who sees his way out of the present, complication. I find none desiring the convocation of the National Assembly but men sailing under party colors, who are jealous of Gambetta's great successes, and forget the brilliant things he has done for his country. To call an assembly together now, would only dissolve the unity existing to repel the common enemy. Men would fight for power, rather than work for the nation's weal. The fundamental evil of France would be par: mount, a discontented minority, refusing to incline to the decision of the majority, and plotting to undermine it. No party in France could produce another Gambetta. He has every prospect of remaining at the head of affairs, and since no opposition is made against him, it may be accepted, the country approves of his acts. The Bonapartists are extremely active. Agents are traversing every prison in Germany, where French officers are immured, every town where their *parole* gives them liberty to move about. These agents exhibit autograph letters from the ex-emperor, appealing to the fidelity of the army he covered with shame, that his confidants ruined, and his creatures sold. But the conspiracy against the life of France cannot be got up. The officers rally around the Republic, and guard their swords for the nation's will. Napoleon's new journal the, *Drapeau*, has full liberty to circulate in France, every facility is afforded for its entry. The Provisional government finds it a powerful auxiliary to keep alive the hatred against the Napoleons. I believe the French would joyfully vote themselves subjects of King William, rather than have the Napoleon back. His party will still give some trouble before France settles down; but the men of the Coup d' Etat are no more, there is no Morny to conceive the massacre of a Constution, and no Marshal Magnan to execute it. In any case it must not be forgotten, that every Frenchman is now armed, and the twenty years of Napoleonic rule stands no chance of being repealed.

The late balloon mails have brought little news from Paris. What is there to bring? But they confirm much that is valuable: that the people are determined to put up with the worst till the last, that no disturbances exist or are to be even dreamt of, that the abnormal life the inhabitants are forced to yield to is becoming shorn of its drawbacks by being habituated to it. Bread, that was formerly rationed out, is no longer so; each citizen can purchase any amount he pleases. There can be no scarcity of horseflesh, since cabs are very plentiful in the streets, and hiring them to drives around the fortifications is about the only pleasure left to the gay Parisians. There is a rumor that a perfect substitute for gas has been found, by the decomposition of water and the union of its elements with others. It will be a priceless boon! Paris a city of darkness! Why if Prussian shells fall, people will crawl out of their hiding places to see the fireworks. The peace of the city is preserved by a corps of lads from fourteen to sixteen years old, who appear discontented at having nothing to do. The social transformations of Paris will not be the least interesting subjects to be studied connected with the invasion. A friend has written me to observe that since each inhabitant fully comprehends what is expected from him, he feels a sort of improvement in his health, and that even the short commons that every one has to submit to in the way of meat and vegetables are not so very hard after all. By resolving to be contented and satisfied, the stomach is deprived of half its rebellious tendencies.

As a slight indication of the fallen fortunes of royal authors, I have been able to purchase the ex-Emperor's "Jules César" for ten sous, and if given to speculation, or likely to find a market, could "strike it" out of several remaining numbers. You have doubtless heard that the composition of this book does not belong to Napoleon. His private papers which have been seized, prove that he sucked the brains of eminent living authors. He merely gathered the bunch of wild flowers—all that was of his own being the string that tied them.

It is rumored that two leading bankers from Amiens have been ordered to join the French hostages at Hamburg, retained to answer the claims of Bismarck, about his captains of the mercantile marine, captured by French cruisers. Much indignation is felt at the gentlemen having to visit Germany; but as they have no work to do, and are accompanied by their establishments, they ought to be glad of having escaped from that city. Despite all the ravages of the war, it is very remarkable how the farmers are getting on with "field operations." You never can see them at work, never notice a horse, but the ground is cultivated all the same.

It is anything but agreeable living in France at the present time. No matter how well you may be recommended or known, a foreigner is always "looked after." Indeed the execution of spies is becoming so summary and so general, that to be "suspected" is even uncomfortable. The late empire has much to answer for in the social disruption abroad. Dark as may be the

position of France she will fix up her troubles and will eradicate the evils she has inherited. The best "sign of the times" is that France admits her shortcomings, and the most hopeful, that she is firmly resolved to correct them.

The weather is settling down for a hard frost. The poor are well looked after, and warriors are not discontented with the cold. Anything rather than rain.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:30 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:35 A. M.

Montreal Time.

Closing and Arrival of Mails.

Daily Intelligencer.

BELLEVILLE, THURSDAY, JANY. 19.

ARRIVED.—The s'eamship *Moravian* arrived at Portland on the 17th.

DEATH OF J. S. SMITH.—We regret to learn that Mr. John Shuter Smith, ex-M. P. P., died at Port Hope on the morning of the 18th, after a long and severe illness.

SOCIAL.—Remember the Social in Mr. Wild's Church to-morrow evening. The programme is very inviting. All are invited. Admission only 12½ cents.

SCIENTIFIC AMERICAN.—This valuable weekly has been received. Its pages are full of useful and practical matter for the classes to whose interests it is devoted. Munn & Co. 37 Park Row, New York.

SCHOOL TRUSTEES.—In the report of the proceedings of the School Trustee Board in yesterday's issue the names of the Finance Committee were not given correctly. The Committee as appointed was Messrs. Jas. Glass, Wm. Wensley, M. Sawyer, and W. A. Shepard.

CENSUS COMMISSIONERS.—The following are the names of the Census Commissioners appointed for this district: West Hastings, J. S. Huffman, of Sidney. East Hastings, N. S. Appleby, of Shannonville. North Hastings, A. F. Wood, of Madoc. Prince Edward, W. Young, of Wellington.

DOMINION BOARD OF TRADE.—At the first meeting of the Dominion Board of Trade, held at Ottawa on the 18th inst., the following officers were elected:—President—Hon. John Young, Montreal. Vice-President—W. McGiverin, Hamilton. Secretaries—G. M. Daly, Stratford; Jas. Watson. Executive Council—Messrs. H. McLennan, Montreal; Wm. Elliott, Toronto; Hon. J. Robertson, St. John, N. B.; C. P. Smith, London; H. Fry, Quebec; E. McGillivray, Ottawa; John Carruthers, Toronto; Jas. Hamilton, Toronto. Geo. Neilson, Esq., was present as a representative of the Belleville Board of Trade.

DESTRUCTIVE FIRE.—Shortly after two o'clock this morning, fire was discovered in the house occupied by Mr. Meek, of the *Chronicle*, on Taylor's Hill. All attempts on the part of the inmates to subdue the flames proved futile, and the building, with a portion of its contents, was speedily consumed. Both fire engines arrived, but too late to be of any use, the ringing of the fire alarm bells being heard by but few. The origin of the fire is not known, as there was no fire in the room where the fire broke out, and all was right on Mr. Meek's returning home at midnight, but incendiarism is suspected. Mr. Meek's loss is considerable, he having no insurance on his furniture. The house was owned by Mr. Thomas Lakiater.

Y. M. C. A.—We are pleased to learn that the Young Men's Christian Association have almost completed arrangements for the delivery of a course of four lectures by some of our most celebrated provincial lecturers. The first one will be delivered on this night week by the Rev. R. H. Pearson, M. A., of Montreal, a comparatively young man, but one whose eloquence has won for him a high rank amongst our talented lecturers. The other gentlemen who are to follow Mr. Pearson, are the Rev. Wm. Stephenson, of Ottawa, Rev. Joseph Wild, M. A., and the Rev. Wellington Jeffers, D. D., of Oshawa. We understand the price of admission has been fixed at a comparatively low price, so that all may have an opportunity of attending.

GODEY'S LADY'S BOOK for February.—A splendid number of Godey is presented to the patrons of this excellent monthly for February. The embellishments are numerous and of a superior kind, consisting of:—"The Fight Interrupted," a steel plate, Colored Fashion-Plate, containing seven figures. "Our Balloon Post," an extra wood engraving. "Winter," another splendid wood engraving. A beautiful design in Patchwork, printed in blue. A page containing ten designs in bonnets and hats. The other novelties for the month are the usual large Extension Sheet, Drawing Lessons, Cottage, and the various designs to be found in the Work Department. Marion Harland, Mrs. Hopkinson, and other prominent writers contribute to the literature of this number.

SMALL-POX.—Small-pox in London is extending its ravages with fearful effects, solely in consequence of the neglect of the authorities to enforce vaccination. The disease is assuming what is termed the "epidemic influence," and is sufficiently contagious to include persons who have suffered from more than one attack. There is an unreasonable prejudice on the part of the uneducated to undergo vaccination, and that feeling, conjoined with the carelessness of poor-law guardians, are the reasons assigned for the spread of the disease, though poverty, destitution, and slovenly dirty habits contribute their share. The Irish have not the reputation of being remarkable provident, yet small-pox causes less loss of life in Ireland, compared to population, than in any other part of the United Kingdom, the reason being a rigorous system of vaccination, to which the population intelligently submit.

The Lumber Trade.

The trade in the products of our woods and forests—chief among which stands pine, in the shape of squared timber and boards—has long formed a large item in the exports of Canada. Though immense tracts of country have been denuded of their choicest timber by the annual operations of the lumbermen, the forests of the Dominion are still capable of producing a great amount of pine timber. Any fact, therefore, affecting a business which constitutes so large and important an adjunct to our prosperity, must be of interest to a great portion of the community. Albany market, as the mart where our lumber merchants chiefly find a ready sale for their manufactured lumber, is supposed to lead quotations and guide our manufacturers in their operations.

In the annual review of the Albany *Argus*, we find, in reference to the lumber trade of the past year, that the aggregate receipts amounted to 432,363,900 feet, which are the highest figures Albany ever reached by 8,000,000 feet.

The *Argus* continues:—

"When we state that the stock of lumber on hand at the close of the year is estimated at 90,000,000 feet, which is about 2,000,000 feet less than the stock a year ago, and the receipts are about 8,000,000 feet greater than those of 1869, we can claim that the business of 1870 has been the largest since the organization of the district.

"In making this statement, however, manufacturers of lumber, especially those in Canada, must not think that because the trade of the year has been large it has been profitable. The market has been overstocked with most kinds of pine lumber, especially Canada siding, which steadily declined from the opening to the close of the season, and was not realized within $9 to $10 per M the prices of last year. Canada manufacturers will soon learn to their cost, as some have already done, that though a large business has been done it has been far from being profitable, and its continuance of the same overproduction cannot fail of proving disastrous.

"Another matter worthy the attention of Canada manufacturers is the practice of consigning lumber to irresponsible parties. The past season this has been done to a large extent and with disastrous results."

It is stated, as a fortunate fact for the trade, that lake and canal freights ruled remarkably low.

The anticipation is expressed that, unless some unforeseen contingency arises to curtail production, the supply will be in excess of the demand, and manufacturers are urged to lessen production, as the market can never be regulated and kept steady so long as the manufacturers will persist in making too much lumber.

Another very important point, which shows the gratifying increase of our trade with foreign ports, is also noted as follows:

"There is another point worthy of note. It is the transfer of a large line of trade from New York to the St. Lawrence. New York is no longer the cheapest market at which purchases of lumber, the product of Michigan, Pennsylvania, &c., are made for South American ports. Ottawa and other points in Canada now monopolize that trade, 70 to 80 vessels are now engaged in the trade, taking in their cargoes at Montreal."

This one fact shows that, since the selfish abrogation of the Reciprocity Treaty by the Americans, the lumber trade of the Dominion has continued to grow and expand; the efforts of the Government commission to secure the trade above alluded to, having a very appreciable effect. Had Brother Jonathan been less selfish, much of the profit accuring from this trade might have flowed into his coffers.

East Hastings Agricultural Society.

The annual meeting of this Society was held at Roslin on Tuesday, the 17th inst. The attendance was large, and all parts of the Riding was represented. The following officers were elected for the current year:

PRESIDENT—Mr. Geo. Philips.
VICE-PRESIDENTS—Messrs. Jas. Hunter, Jno. Wilson, jr.
SECRETARY—P. R. Palmer.
TREASURER—Mr. Wm. Hudson.
DIRECTORS—Messrs. R. Garbutt, J. Fargy, O. R. Allison, B. Henry, S. S. Casey, John McLaren, Wm. Beatty, John Newton, and John Graham.
AUDITORS—Messrs. F. G. Duncan, and P. R. Daly.

Thurlow Agricultural Society.

At the annual meeting of this Society held at Tarasher's Corners on Friday, the 13th inst., the following office bearers for current year were elected:

PRESIDENT—Mr. A. A. Farley.
VICE-PRESIDENT—Mr. H. D. Ross.
SECRETARY—Mr. P. R. Palmer.
TREASURER—Mr. James Hall.
DIRECTORS—Messrs. N. W. Lazier, G. M. Caldwell, Thos. Martin, G. Sayers, J. N. Diamond, J. O. Huffman, W. Simmons, W. B. Sayer, S. S. Casey.
AUDITORS—Messrs. W. C. Farley and P. Ross.

—The dry goods store of D. McConachie, Welland, was broken into on the morning of the 18th, and about $100, together with a large quantity of valuable goods abstracted.

Missionary Meeting.

The Annual Missionary Meeting of the John St. Presbyterian Church was held in that Church last evening. The attendance was not very large, perhaps owing to the uninviting aspect of the weather. Geo. Keith, Esq., occupied the chair, and after the opening exercises, called on the Rev. Mr. Burton, who gave interesting statistics and details with regard to the standing of Presbyterianism in this country, and the various missionary fields and new enterprises having claims for support. Rev. Mr. Lewis spoke of the fraternal feelings which had always existed between the Presbyterian and Congregational churches in this town, and though the pastors of both had been changed during the past year, he believed the same cordiality would continue. He then referred to the cheering success of recent missionary work, and pointed to the striking results of an enterprise in Turkey and the transformation of the island of Madagascar as evidence that the most sanguine hopes might be indulged of the world being ere long converted to Christ. Rev. Mr. Brethour said this church and its missions had his hearty sympathy, and hoped there would be continued progress. Rev. Mr. Wild was glad to see the cordiality existing between the different ministers of the town. He had a warm sympathy with the Presbyterian Church. There was plenty of room in the world for all denominations, and if one neglected an evil it would be eradicated by another. He was in harmony with all Christian effort. Rev. Mr. Laing, of Cobourg, spoke at some length, showing that all systems of human government were founded on either violence or deceit, the world having comparatively little sympathy with the Christian principles of self-sacrifice and love. The lust of worldly conquest had strewn the hillsides of France with slaughtered men, but to send out a few missionaries for the grander conquest met with no such support. Millions of thalers, and millions of francs had been expended in violent aggression, but no such gigantic financial sacrifice was made in the cause of Christ. Still, an Almighty hand was guiding the desolating struggle, and every turn of it hastened the advancement of religious liberty. The addresses were interspersed with anthems by the choir, which were rendered with precision and effect. The amount realized was $390.

Ontario Legislature.

TORONTO, Jany. 18th.

After routine, and the discussion of one or two unimportant questions,

Hon. Mr. Cameron presented a despatch from His Excellency the Lieutenant Governor, containing Earl Granville's reply to the Address of the House last session; respecting the Power of the Canadian Parliament to pass its Act respecting Nova Scotia. Earl Granville stated that he was unable to advise Her Majesty to accede to the prayer of the address.

Mr. Craig (Glengary) introduced resolutions respecting the granting of assistance in the construction of gravel roads, which, after a long debate, were withdrawn.

Mr. Graham (Hastings) moved the house into Committee, Mr. Coyne in the chair on the bill to enable the Municipalities along the line of the Grand Junction Railway Company to grant aid thereto, and to legalize certain by-laws granting aid to the said Company.

Mr. Blake thought it improper for Municipalities to come here asking for the legalization of a by-law which they knew, when passing upon it, that they had no right nor power to pass.

Attorney General Macdonald said that he heartily supported the bill. If the hon. member for Bruce wished to test the sense of the House on the matter he could do so.

The bill was then reported without amendment.

Mr. Blake's bill for the abolition of imprisonment for debt, received the three months hoist, the vote being 42 to 30.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

THURSDAY, Jan. 18th.

SWINDLING.

A. R. Sager appeared, on remand, charged with obtaining money under false pretences.

S. B. Smith was sworn, and said the prisoner came to his store upwards of a week ago, with a subscription list on which he endeavored to procure some money for a poor woman with two sick children, and had given a dollar himself; gave him 30 cents; saw him next day, and suspected he was an impostor, and put the police on his track.

Richard Elvins was sworn and gave similar testimony as to the subscription list.

John L. Reed, sworn.—Saw prisoner before; he said he was an assistant operator at the Belleville depot; he said there was a woman at the station much in want of aid, and solicited help for her; gave him 25 cents; he did not mention the woman's name; do not know whether there was any such woman or not.

David Brennan was sworn and said prisoner lived in a house of his, and was known by the name of Johnson; he left there on the 17th; tried to get away without paying the rent; he had a wife and child; knew nothing about his getting money; gave no name when he came; never told witness that his name was Johnson.

James Macoun, sworn.—On 28th of Dec. prisoner came to Walker & Co.'s office asking for relief, saying he had been in the employ of Kempster & Bro., in Hamilton and had lost his arm by getting caught in the machinery; he went through the workshop amongst the men and got upwards of $3; gave him 75 cents; he said he was a temperance man, and was seen drunk a few days after.

The Magistrate said to the prisoner that he seemed to be inclined to get his living by begging. He had no doubt in his own mind that the prisoner was an impostor, but as there was no evidence to sustain the charge he would have to be dismissed.

Separate School Trustees.

A meeting of the S. S. Board of Trustees was held on January 17th.

PRESENT.—Old members—Messrs. D. Brennan, Jas. Meagher, P. Fahey, and P. V. Lynch. The new members—Messrs. W. J. Northgraves, M. Mahon, Joseph Grainger and M. O. Dempsey, were duly installed.

It was moved by Mr. Meagher, seconded by Mr. Northgraves, that the Rev. Mr. Farrelly be Local Superintendent.—Carried.

Moved by J. Meagher seconded by M. Mahon, that D. Brennan be Chairman for the ensuing year.—Carried.

Moved by P. Fahey, seconded by W. J. Northgraves, that M. O. Dempsey be Treasurer.—Carried.

Moved by P. Fahey, seconded by M. O. Dempsey, that P. V. Lynch be Secretary.—Carried.

After the formation of some Committees a letter was read by the Chairman from the female teachers, asking for one months salary in advance.

Referred to next night of meeting.

The meeting adjourned till Thursday, January 19th.

Failure of American Insurance Companies.

We commend the following article, which we clip from the Toronto *Telegraph*, to the attentive perusal of those who prefer American to English or Canadian Insurance Companies:

"Judging by various letters received, a good deal of uneasiness is felt in some sections of Canada, more especially in the eastern part of Ontario and in the Province of Quebec, in consequence of the failure of the Home Insurance Company of New Haven, which was announced in our despatches some days ago. This Company did an extensive business in Canada. A large proportion of its policies were on farm and village property. In 1869 the Home took nearly eight thousand dollars in premiums here. The Company was well known, having carried on business in this country for many years, and it enjoyed the confidence of the community generally. This arose partly from the usual promptitude in the settlement of claims, and partly from the large capital of $1,000,000 *which it advertised, but never possessed*. Now it turns out that this Home, which was thought to be so wealthy and honorable a corporation, was, after all, for some time past, at least, *nothing else than a hollow swindle*. In June last, owing to some exposures by the press, it was found necessary to reduce its *pretended capital* by one-half, or to $500,000. At this time the Insurance Commissioner of New York State examined its affairs, as did also the Commissioner of Connecticut, and both pronounced it sound, according to the new showing. *The very opposite*, however, turns out to have been the fact. The old officers were dismissed and new men elected. According to a report made to the shareholders by the new Vice-President, it appears that the concern was bankrupt then beyond all hope of redemption. The *accounts had been cooked so as to show assets which had no existence* as the property of the Company; and these cooked accounts were *duly sworn to* and accepted by the Commissioners. There were outstanding losses of which no account was given, amounting to about $200,000; the value of the real estate was exaggerated; balances said to be in the hands of agents proved entirely delusive when regarded as assets of the Company, and other items were similarly represented. The whole affair is utterly disgraceful to those concerned, if indeed it was not criminal.

Fortunately for Canadian creditors of this bankrupt concern, there is a sum of $70,000 in American securities deposited with the Dominion Receiver General, under the provisions of the Insurance Act of 1868, for the benefit of policy holders in this country. This sum is regarded by those who ought to know as quite sufficient to protect Canadian claimants, though delay and disapointment may be suffered before the deposit can be realized upon.

Besides the Home, two other American Insurance Companies have failed, making three altogether in as many weeks. These facts are of importance to our people. The lesson they teach is that we *should not go to the United States for an Insurance*. There are plenty of good home and British Companies, in whose hands one is perfectly safe, without patronizing companies from a foreign country, which does everything possible to prevent us enjoying any reciprocal advantages. These American Companies come in here, making a parade of certain official certificates of soundness and solvency, which, as in the case of the Home, may not be worth the paper on which they were written. There are, no doubt, exceptions; some of the Companies afford good evidence of soundness and strength outside of the certificates granted them by State Superintendents. But it cannot be denied that those are sadly in the minority.

"In the case of the Farmers' and Mechanics' Life Insurance Company, which failed two or three days ago, it was shown that the books were falsified; fraudulent entries were made of policies that never had been applied for or issued, in order to make an appearance of business. How much farther this kind of trickery and rascality is carried no one can tell.

"If it is desirable to be safe in fire insurance, the argument is doubly stronger in life insurance. The nature of the contract in the latter case is that the money is to be paid to the bereaved heirs of living persons, so that it is impossible for the party insuring to see that his claim is honestly paid to those entitled. In such a case it is most important that one person confiding such sacred interests to others should know something of the character and standing of those in whom so much confidence is reposed. This and other considerations go to show the wisdom of dealing with home institutions as far as possible, or at all events not with foreign ones, for then the perils and risks that attend the practice of insurance in any form are vastly increased without any compensating advantages."

—A number of leading rebels in Cuba lately surrendered to the Spanish authorities.

News Condensed.

—A London telegram states that it is proposed to place the English army under the control of a board similar to the Admiralty.

—The total number of persons in the Asylum at Malden were, on Sept. 30th, 1870, 383, of which 135 were males, 148 females.

—There were 182 prisoners received at the Sandwich gaol last year, 16 of whom came from the United States. Total gaol expenditure was $3,333.90.

—The propriety of registering valuable letters may be estimated from the statement that 1,574 registered letters were stolen last year in the United States.

—Prince Alexander Karagorwich, of Pesth, has been sentenced to eight years' imprisonment for complicity in the assassination of Prince Michael Obrenowitch in 1868.

—Mr. Brassey, the great railway contractor, was worth about nine millions sterling at his death—the greatest fortune ever amassed by a single individual.

—On the retirement this year, after eight years service, of Wm. Cox Allen, Mayor of Cornwall, a resolution was unanimously passed by the Council granting him $600, as a mark of appreciation for his services.

—An exchange speaks of a barkeeper who gives a lump of whiskey as big as a man's hand for ten cents, and gets out of paying a license by claiming that ice is not an intoxicating beverage.

—London papers mention as a specially commendable piece of good manners that most of the new members of the new school board sit uncovered while the board is in session out of deference to the lady members.

—R. Simard, one of the pilots of the Lower St. Lawrence was returning from Liverpool by the Prussian, and who had suffered from *delirium tremens* during the earlier part of the voyage, committed suicide on Sunday by throwing himself into the sea.

—Lady Mordaunt, whose alleged misconduct gave rise to the proceedings in the Court of Divorce, is living in a private asylum at Grove Park, Chiswick. Sir Charles Mordaunt recognizes his wife's insanity, and has placed her under the care of two keepers.

—According to the New York *Tribune*, Canada last year sent about 5,000 head of cattle to the New York market. The best beef used in the eastern cities is fed in this country. What will the New Yorkers do for porter house steak and sirloin roasts should President Grant carry out his threat and not allow Canadian cattle to set hoof on the sacred soil of Uncle Sam?

—The editor of the Guelph Mailies are at loggerheads. One insinuates that the other is a dog, and needs hanging, kindly informing him that he has a rope in the garret, which he will place at his disposal for that purpose. The other, in reply, tries to make out that the rope is a clothes line, stolen from him some time previous. Happy men.

A little boy hearing his father say "there is a time for all things," climbed up behind his mother's chair, and whispering in her ear, asked: "When is the time for hooking sugar out of the sugar bowl?"

To the Editor of the Daily Intelligencer.

Teachers' Certificates.

DEAR SIR,—In Tuesday's issue of your "wood market" contemporary, appears a communication under the above caption signed "Teacher," in which is expressed the writer's decided objection to that part of Dr. Ryerson's proposed School Bill, which provides for the making County Board certificates null and void, and requires the holders thereof who wish to continue the vocation of Public School teachers, to pass the examination under the new Act. As the late lamented Artemus Ward would say, Mr. Editor, "them's my sentiments." "Teacher" and myself are evidently in the same boat, so to speak, and we greatly fear that should the new Act become law, "our occupations would be gone." We trust that your journal will use its influence to prevent the passing of this bill, or at least the obnoxious part referred to.

Heaven knows how hard I worked for the County Board certificate I received two years ago, and now the prospects are that it will be of no more value than the paper upon which it is printed. The standard of qualification will be raised, and for me to attempt passing such an examination would be useless. I will venture to say, Mr. Editor, that there is not a teacher in this or any other county Public Schools, who is not opposed to this part of the bill, and I, like "Teacher," consider it an act of injustice on the part of Dr. Ryerson. It is all very well for those who are well posted in the higher branches and have no fear of such an examination before their eyes, to speak in favor of the new bill and say that it will be the means of doing away with incompetent teachers, improve the Schools, and all that sort of thing, but, like the fable of the boys and the frogs, (you see I have dabbled a little into Esop) what is fun to them may be death (or nearly so) to us, the lower branches being our forte.

Hoping you will use your influence in having this (to us) obnoxious clause of the bill struck off, and that the enlightened members from this county may see it in this same light, is the wish of

Yours very truly,
ANOTHER TEACHER.

Belleville, Jan. 18, 1871.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer* Office

Brown and Christie.

Several of our contemporaries, says the Galt *Reporter*, are amusing themselves just now in unearthing what the *Globe* said in times gone by of the names of the "honored dead" that were hung around the Music Hall in Toronto at the time of the late Reform Banquet. We scarcely think that our friends need bother their brains in hunting up and ransacking old fyles for the purpose of convicting the *Globe* of inconsistency, while they had the fact of the living David Christie and the living George Brown meeting as friends at a Reform dinner, and bespattering one another with fulsome praise. The people of Galt—the people of Dumfries—the people of Berlin—can all well remember the opinion these two worthies entertained of each other but a comparatively few years ago; and it seems but yesterday that the old hills of Glenmorris resounded with the denunciations of "Douce Davie" poured forth by George Brown on the memorable occasion that will yet be fresh in the memories of many of our older readers. But these days are past; and the Reform party has now fallen so low that one of its principal lights at a banquet in the metropolis of Canada is the very same David Christie that George Brown then so energetically denounced. Mr. Christie is the same scheming, tricky politician now that he was then; but George Brown has lost the honesty that led him then to oppose him, and he now sits quietly with him in the same room at a Reform banquet, and listens to the Senator's sleepy drawl about his sacrifices in the cause of Reform. If Mr. Brown ever blushed in his life, he should have done so while David was speaking.

The War in France.

The bombardment of Paris continues with destructive effect, and matters are evidently in a precarious condition for the besieged.

The city of Aleugon has been captured by the Germans.

A New York paper has a de patch affirming that Count Bismarck is seriously ill.

The Eastern Question.

The arrangements for the holding of the Conference have been definitely settled, Earl Granville being selected to preside at its deliberations. France will be represented, M. Favre having received permission to pass through the Prussian lines on his way to London. The business of the Conference will be postponed until he arrives.

THE CATTLE DISEASE.—The cattle disease—a kind of hoof complaint now making such ravages in New England—is thought to be contagious The Legislature of Rhode Island, has been called upon, and, as if that machinery were too slow, the local authorities have been urged to pass acts or ordinances prohibiting the driving of cattle through the streets or highways until after suitable inspection; and it appeared to 'stamp out' the disease, as was done in England with the rinderpest, by the slaughter of all animals showing symptoms of it.

Latest by Telegraph.

BY ATLANTIC CABLE.

American Despatches.

NEW YORK, Jan. 18.—At midnight there were no signs of the steamship 'Cuba' at Sandy Hook.

ST. LOUIS, Jan. 18.—The Missouri Legislature this a. m., elected Frank Blair, United States Senator.

WASHINGTON, Jan. 19.—General Pleasanton, Commissioner of Internal Revenue, in an interview yesterday with the Committee of Ways and Means, very strongly advocated, the immediate repeal of the income tax. His principal argument being that the cost of collecting it is greater than the amount obtained. He also recommended the passage of the law providing for the export of spirits.

NEW YORK, Jan. 19.—Information has been received that guns and munitions of war landed upon the coast of Cuba on the 6th, from the steamer 'Hornet,' did not fall into the hands of the Spaniards as was reported, but were received by the Insurgents.

There is considerable activity in the Brooklyn navy yard preparing ships for sea.

It is reported that Admiral Rouen will be sent to command the European squadron.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4 P. M.

LONDON, Jan. 18, 9:30 p. m.—The investigation of Longwy is complete. The Germans on the 15th dispersed 1,000 Gardes Mobiles near Langres. The German loss in the battles with Charzy is officially stated at 177 officers and 323 men killed and wounded. The French lost besides the killed and wounded 23,000 unwounded prisoners.

LONDON, Jan. 19th, 10 p. m.—A despatch just received from Versailles, says that the French under General Chausery, are retreating from Lavale. The German army is in hot pursuit, and has already passed the crest of Vosges, 14 miles east of Lavale. Two thousand additional prisoners have been taken. Alenlon was occupied by the Germans on the night of the 16th inst. General Von Werder has maintained his position to the southward of Belfort, on Monday, against renewed attacks from the army of the east. The German loss was comparatively small.

A despatch dated at Bruntlint the 17th, reports renewed fighting to-day along the whole line.

The King of Prussia in a letter to Prince Henry, of Luxembourg, counsels him to be prudent and cautious, and asserts that Prussia has never intended to attack the independence of Luxembourg.

LONDON, Jan. 17th.—The 'Journal' of St. Petersburg in a recent editorial criticises in caustic language the reply of Von Beust to Gortschakoff's note, and says distinctly that the policy of Austria is not calculated to secure the friendship of Russia, or that of the western powers.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. "The Civil Service Gazette remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only by Epps, Homœopathic Chemists, London, England. 197-m-Tu.

Cheese quiet at 12c to 16c for common to prime.

Petroleum 14c for crude; 20c for refined.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m:

The mind governs the muscles through the Nervous system, as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of evils. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. 4w-1w

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost trifling and easily put on. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 167, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weiser, to the German *Reformed Messenger*, at Chambersburg, Penn.:

A LADY AND MANUFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Suzy and Lilly to say, "Thank you, Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We cannot say one word yet forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum and all the poisonous stuff by which the sale is dragged into stupidity, and rendered dull and blind for life.

We have never seen Mrs. Winslow—know her only through her experience in one of her Soothing Syrup for Children Teething. If we had the power, we would put her name as a household saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists. Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Roeger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to concur heartily to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

VICE PRESIDENT—G. H. BOULTER, M. D., M. P.
DIRECTORS—Hon. ROBT. READ, M. P., JOHN COOK, Esq., R. W. WILLIAM, B. A., M.D., LEWIS CRUICKSHANK, Esq., ROBERT E. FRASE, Esq., SAMUEL GILBERT, Esq., JOHN ROW, Esq.
JAS. H. PECK, SECRETARY-TREASURER.
BANKERS—THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a BRANCH, at Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, ex James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, ex. J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1854, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

A. S. PAGE & CO.
Belleville, Oct. 6, 1870. 184:tf

—The cities of Massachusetts seem, according to the annual exhibit, to be most nobly endowed with debts. For instance, the city of Boston owes a little over $26,000,000; Chelsea, $781,000; beside $2,000,000 water bonds; Lynn, $700,000; Worcester, $1,200,000; Lowell, $787,100; Lawrence, 417,000; Haverhill, $767,124; Lawrence, 417,000; Haverhill, $148,000; Taunton, $188,450; Fall River, $370,000; New-Bedford, $765,950. It must be said, however, that the bonds of all these cities sell many of them at par, and none of them at more than a trifle below; and that the interest is always promptly met.

—The published statistics of Life Insurance in Canada show a rate of increase which must be satisfactory to those interested in them. The "Monetary Times" gives the following figures for the years 1868 and 1869,

	1868	1869
Premiums rec'd during the year - $	980,331 33	$ 1,314,224
Number of New Policies issued -	3,990	6,308
Amount of New Policies - - - -	8,971,057 86	10,708,838
Total am't of Policies in force -	29,577,188 21	31,845,397
No. of Policies become Claims during the year -	106	146
Am't of Policies becoming the year -	238,482 34	306,125
Claims paid during the year -	210,423 80	231,833

—Tommyrod fishing in the lower St. Lawrence has, says the Quebec papers, proved very poor this season.

—Dr. Isaac Doran, of Ohio, writes that he has used "Allen's Lung Balsam" in his daily practice, and with unbounded success. As an expectorant it has no equal.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only hush any whispers of disloyalty in the Dominion, and show that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable effects) of which this is a part of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the roots whose juices form the principal ingredients of it. The Sarsaparillian and other foreign roots yielding their strength and virtues to the solvent fluids used in the preparation of this medicine, are carefully selected, and gathered each the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious substitutes or worthless roots can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of the scientific botanists in this branch of the business, but the wonderful improvements it has secured to the curative properties of the medicine soon repay especially the

SARSAPARILLIAN RESOLVENT,

which is now, more than ever, and ever again, far more in the history of medicine was such a medicine the so completely build up, regulate and purify the blood, strong, healthy, vigorous, and beautiful without, the weak and broken down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS TISSUE-BUILDING AND FLESH-MAKING QUALITIES.
it supplies the system with calcic or heat-making properties.
it cures all Eruptive and Ulcerated diseases of the Eyes; Ears, Mouth, Throat and Glandular System.
it increases the weight and appetite.
IT TURNS ALL SICKENING DISCHARGES.
it increases the appetite and diminishes the waste.
it exterminates the products of decay.
it resolves Tumors, Nodes, Hard Lumps.
it makes the skin clear and beautiful.
it heals Ulcers, Sores and Ulcers.
it cures Gravel, Gleet, and Stricture.
it makes the urine clear and pure freely.
it cures Barrenness, and invests with the vigor and sexual passions those whom sickness or disease, are deficient or exhausted
it rescues women from the depths of misery & change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, whose vitals are started by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the regenerative influence of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decay can be stopped, and the stamina and vitality that now exist be dismissed from the system.

Regarding the LUNGS, KIDNEYS, as other organs are wasted, ulcerated, and their functions interrupted and sometimes altered beyond the restorative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live and perform their healthy duties for years in the vital forces may be, if the system can be brought into the condition to receive the full benefit of such medicine the repairs will be greater than the wastes and decay, and LIFE restored to its full high degree of strength, purity, and nourishment to enable it to hole in spite of the most dangerous constitutional, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the Kidneys, Incipient Dropsy, Syphilis, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs Throat, Bowels, Kidneys or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured only by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seated with any Chronic disease of the Lungs, Larynx, Kidneys, Spermatic Organs, Bladder, Womb, or Urinary difficulties, will experience a marked change in her health for the better on using the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and life sustaining, and is enabled to hold in solution its nourishing properties, the wasted tissues of Tuberculous matter or other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secure, by proper constituent secretions, Nutritious matter, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and in that each organ or secreting gland in discharging it proper functions, health can never be restored. Therefore for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important result, and was heretofore existed in all these remedial agent celebrated as Blood Purifiers.*

No matter how deeply seated or engrafted in the Lungs, Scrofulous, glands, organs, or bone disease and corruption may be, the influence of this power ful agent in the blood and other fluids thus secured by the living body with repairs, will so charge the system with such constituents as to resolve and expel or eliminate the dead and decomposing matter, and supply in its place with sound and living atoms, and enabled by rich, pure, and strong blood. By this chemical action which the Sarsaparillian Resolvent will produce in the system, there is no disease or waste in the process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action upon the secretions of the organs, in purifying every atom of virus from the blood, and resolving every diseased matter, whether ulcerous, tuberculous matter or other poison, or virulent disease, as in Scrofula, Cancer, Erysipelas, Salt Rheum, Chronic Rheumatism, Affections of the Kidneys, and a sure preventive of those distressing summer disorders, Chosera Morbus, Dysentery, Diarrhœa, Cholera of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

Montreal.

Unsured Venereal—Gleet, Gravel, Stictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Rheumatism, Diabetes, and all who are inconvenienced by Stoppage of Water or Pain in Passing Discharges, are quickly relieved and effectually cured through the use of

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, was afflicted for and for nine years FOUL ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. In fact all he necessary use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills** and **Radway's Ready Relief** used only three bottles of the Sarsaparillian Resolvent, and a little more than three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Radway's Regulator** carefully diluted with water which completely cured him. Here is a man who had previously spent hundreds of dollars, doctoring for this disease, and cured at a cost of less than five dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont!

M. Durant, one of the wealthiest citizens of Wells River, was afflicted nearly half the year, besides a number of Paper Mills, Hotels, &c., sold me of his know with SOLID SCABS, covering the entire body—head, face, arms, legs, &c. He left me in September last, and he was the most revolting animal diseased object I ever saw. He was induced to put under the treatment of **Radway's Sarsaparillian Resolvent, Radway's Pills and Ready Relief.** One month since, on returning to Canada, I saw the father, who then told me that his son was entirely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West, December 11, 1869.

Dr. RADWAY:—This is to certify that I was take with bleeding of the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was arrested, and the night sweats ceased. I continued to use six bottles and now am afree of sickness, disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FERELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicin until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

Business Cards,

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, which kept in first-class style, at the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in it, in such unique manner as to make it, elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and fashionable amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have been employed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, IND CHURCHILL,
LOUISE E. BOSS, MITTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS,

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE

Of these the LADY'S BOOK contains *fourteen* each year (*no* shillings comparison) to any published in this country, and *twelve* of *original* design.

OUR COLORED FASHION PLATES

Have a reputation for correctness all the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet of such patterns, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which such music appears, especially for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs in the Lady's Book.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Toilet, the Nursery, Kitchen, House, and Laundry.

GODEY'S LADY'S BOOK.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

CARRATRACA.

Carratraca Mineral Waters.

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste. It clears the Liver, Kidneys and Bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and by their mild action correct the Thin, invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Dyspepsia, Indigestion, Loss of Appetite Organs, Nausea and Nervousness (caused by Debauch, Headache, Coated Tongue, Piles, Mental Depression, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Impurities of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Chosera Morbus, Dysentery, Diarrhœa, Cholera of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with the foul corruption, have been purified and cured by it. Scrofulous affections and disorders which were aggravated by the scrofulous taint in the blood, or which

they were jointly afflicting, have been radically cured in such great numbers that the public generally in all parts of the country, that the public scarcely need to be informed that it is daily performing

a service more important to the afflicted than any other remedy can possibly render. Every neighborhood is full of proofs of its virtues. Even those who have once been cured of Scrofulous disease, or some of its manifestations, by the use of Ayer's Sarsaparilla, are liable to suffer from a return of the disease, unless they keep the blood pure. Whenever it becomes impure, from any cause, whether from the inclemency of the weather, change of climate, or the irregularities of life, the taint of Scrofula is liable to reappear in some form or other, and will do so, unless thus expelled from the system. Hence, no person can afford to neglect the use of a good blood purifier, especially during the Spring months, when the foul corruptions, which have been accumulating all winter, are ready to burst forth in pimples, boils, or other eruptions, if they are not expelled from the system. Ayer's Sarsaparilla is the best antidote we can obtain for the impurities of the blood, which are the cause of so much suffering. Being concentrated, it is the cheapest blood purifier in the market, and, being perfectly free from mercury or any dangerous mineral, it may be taken by any one with safety. Its cures are public and numerous in every community, and the certificates of remarkable ones, which it would be easy to publish, are withheld only because the originals are constantly required to meet the demands of those who are not yet convinced by the many publications we have already made.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulton, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Colds, Coughs, Croup, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as has this excellent remedy for pulmonic complaints. Through a long series of years, and among most of the races of men it has been brought into use, it has proved its action, as it has become better known. Its uniform character has come to secure the various portions of the lungs and throat, have made it known as a remedy for Coughs, Colds, Croup, Bronchitis, and the milder forms of disease and to young children, it is justly esteemed the most effectual antidote that can be given for incipient consumption, and the dangerous affections of the throat and lungs, with which pestilential seasons abound. *Croup*, it should be kept on hand in every family, as cases of this kind are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases which were to all appearance settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish them in this locality, but only assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Mercury, nor any other mineral or poisonous substance whatever, it is nowise injurious any patient. The early and frequent importance of its cures in the worst districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgements we receive of its perfect success in every form of these cases, and where other remedies had wholly failed. Travellers, explorers, residents, or others who are travelling through miasmatic localities, will be protected by taking the Ague Cure before they go.

For Liver Complaints, arising from torpidity of the Liver, or Biliousness, or Dyspepsia or Liver Complaint, it is an excellent remedy, producing many truly remarkable cures, even when other remedies had failed.

Prepared by DR. J. C. AYER & CO., Practical Chemists, Lowell, Mass., and sold all around the world.

PRICE. $1.0C PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Vocal and Instrumental Music, by such authors as Balfe, Bishop, Rinkel, Bishop, Thomas, Danks, Foster, Hewitt, Fry, Keller, Wyman, etc. Every number contains at least Twelve Pieces new and good Music, printed on fine white paper and from full size music plates, every piece of which is after words printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy or $3 a year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors!

We do not expect PETERS' Musical Monthly to pay us as a magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Any subscription sent, and you the music we give them. Their musical friends hear of it, and they, too, send in their names for it, and so we make our profit. Remember! every yearly subscriber gets during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. PETERS, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next. Every number contains the latest Scientific and Mechanical information, and is worthy a place in every household, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is conducted by one of the most popular writers in this country and Europe, and is unsurpassed. Every number has 16 superior pages, published with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A year's issue of so much interesting value, at the low price of $2.00, ought to have, and will have, a place in *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued by Washington, with copious extracts of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Patent Claims of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequalled facilities for procuring a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to the increase of a century, during which this journal has held the first place in the Scientific and Mechanical literature of the World, will issue on January first, the largest and splendid Steel Engraving by John Sartain, of Philadelphia, entitled

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains fourteen likenesses of Distinguished Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American, the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ $1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for action.

Terms for Scientific American, one year three dollars; six months, a dollar and a half. Clubs of ten copies and upwards, one year, two dollars per copy per annum. Specimen copies sent free; address the PUBLISHERS,

MUNN & CO.,
37 Park Row, New York.

How to get PATENTS.—Any resident of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare her system with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or other disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy good health. Females in all parts of the country should write to us for information, and we will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES,

even the earliest stage of irregularity, suffering from Retention, Incontinence, Catamenia, through all the troubles and dangers of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Ulcerations, Chlorosis, Cachexia, Bad Habit of System, Sickness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured as Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain questions. Are you a sufferer from the ills of infection and its usual accompaniments, Mercurial Contrivances, Quicksilver, Tin means of relief? Are you accomplishing a cure, is to indeed to you in Bristols Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the different passages of the bowels without a pain, and restores to the stomach and bowels their healthy action? Are you in the by day and great apparent never ends exhaustion or organ, or reduced by general strength. In the course of a month it will renews the *natural health* of the digestive and secretive functions. Hardly will it be necessary to call in a physician, where this family medicine is kept in the house, in all cases arising from, or aggravated by impure blood or humors. Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN
STOMACH & BOWELS.
DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA-MEDICA contains in its repertoir many purgative and cathartic agents that for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the feces and other matter, which for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has compiled one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, ALTERATIVE, APPETIZER-TRIPLICANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING MATTER in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes, Glandular Internal Viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are kinds generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to produce either in the vegetable or mineral kingdom. Calomel and the many preparations of mercury, and other mineral substances, and the most popular, for it is almost universally used by the faculty, Blue Mass, Colocynth, Scammony, Antimony, Podophyllum and kindred drastic agents, are totally discarded by the scientific practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In Radway's Pills (which are the only *species Purgative Pills*) you secure a Pill superior in all its kinds and combinations to any Vegetable Pill used in Medical Science. They differ in every respect to all other pills in general use, and are the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have *no* medicine in the world more searching, and which and being vegetable than will be given in *four* times or more dill quantities than of any other pill in use, to produce the same effects, as will be proved by the fact that *one* of Radway's Pills will do more work in the system, and produce more powerful effects upon the health than *four* of any other pill in use, and will be found to be

Two vols. Royal Octavo, 1600 pages, and numerous Engravings Price $7. ☞ Mailed, post-paid, $8.

CONCENTRATED LYE.

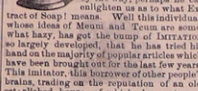

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the same Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose Ideas of Means and Ends are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established article, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in maintaining to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of the patronage.

H. HOGAN & CO.

June, 1870. 44-1y

Scientific American FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most widely circulating journals ever published. Every number is beautifully printed on fine paper, and illustrated with original engravings, representing

New Inventions and Discoveries in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Horticulture, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

In its pages will be found descriptions of nearly all new inventions and discoveries, with numerous engravings, taken from the Patent Office Models, thus presenting a weekly record of the progress of the Mechanical Arts, which cannot be obtained from any other publication. The Editors are assisted by many of the ablest American and European writers and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $30 00 each, $25 with a splendid premium to the person who forms the Club. Commencing at any time. Address

MUNN & Co.,

Publishers of the Scientific American,

37 Park Row, New York City.

Patents are obtained through the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent for my invention?—is to write to Munn & Co., 37 Park Row, N. Y., who have had nearly fifty years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it is may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Gloves, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en rapport of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best periodical that we know.

It is more complete in its departments than any other in its fashions are more unique, because they are authentic and original, and not blind copies of English and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the ablest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the million and monumentation of the household; the best magazine for literature, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising in all respects, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Peace-maker of Peace," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most original and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another work combined so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,

838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont., Messrs. T. & E. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that the region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agriculturist writer in the region and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Wilkes, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and its pages will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its columns.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those unsurpassable stock artists, Messrs. Page and Jarman, of New York.

Special attention will continue to be given to the advancement of Engineering, the promotion of Arts and Manufactures, and as during the past year, the number will contain a choice piece of cyber secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ $34 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

A Warning From Lord Russell.

Earl Russell has written a letter to the 'Times' in which he expresses the opinion that during the five or six weeks which must elapse before Parliament meets the public mind cannot be more usefully employed than in considering our deficiencies in the matter of national defences, and when a conclusion is reached, in asking Government to supply our wants by armaments neither superfluous nor inadequate. He says : We are, unfortunately, a mark for national animosity on many sides. During the South American revolution the United States checked the building and sailing of cruisers to intercept and plunder the trade of Spain and Portugal, according to their own views of their obligations. When remonstrated with for not doing more, they answered that they would allow no interference with their domestic measures. When one notorious cruiser escaped from Birkenhead during the American Civil War, and our Government copied the answer of Mr. Secretary Adams, we were immediately told that our repression was designedly and wilfully inadequate. In the same spirit, when arms are, during the present war, imported into France from England, but in much larger quantities from the United States, in conformity in both instances with the law of nations, the Prussian Ministers, Ambassadors, officers and soldiers, through whose country supplies of arms were carried to Russia during the Crimean war and used by Russian soldiers to kill British troops engaged in a European cause—these same Prussians inveigh against us as enemies and treat the Americans as blameless friends. From the two instances I infer that the envy and hostility which have pursued every wealthy commercial nation in ancient and modern times are now dogging our steps, and will one of these days burst out into open aggression.

The facility with which Prince Gortschakoff and Count Bismarck threw off the trammels of treaties in their own cause and upon their own testimony, shows but too clearly how easy it will be to find a pretext for attacking first an ally of England, such as Holland, or Austria, and then England herself. We have been subject since 1815 to occasional panics, often causeless and generally excessive. But if we have been affected in former days with unreasonable fear, there is no reason why we should now be buoyed up by extravagant hope—

Fear's elder brother, not so sad,
The merrier fool of the two, but quite as mad.

Why should we suppose the British Channel impassable to the ships and boats of an enemy ? Is it impossible that a fleet may be required to relieve from danger our fellow subjects in Jamaica while an expedition is preparing in the Texel for the invasion of England ? Could we send a part of our army to assist an ally while we have so small a force of regular troops, and so few thousands of embodied militia ? Why not raise, by ballot, if necessary, and embody 100,000 militia ? In six months they would be admirable troops. Captain Sherard Osborn holds that a fleet equipped in the Scheldt against us ought to inspire no apprehensions, and at the same time advises us to line our east and north coasts with ships of war. His practical advice proves that he does not feel the security he affects. Lord Derby warns us against an equestrian retrograde step, and at the same time assumes that we shall be called upon to repel an invasion of 100,000 men.

Even were I not an Englishman I should feel what many Germans, many Frenchmen, many citizens of the United States feel, admiration and reverence for a nation which, since 1641, has given her best blood in the cause of liberty ; and since 1688 has furnished a model, often improved and purified, of a State in the enjoyment of civil and religious freedom. Being a member of that State I feel responsible, as one of the public, to Europe and to the world for its preservation. I compare it with the great overwhelming autocracy, or rather aristocracy of Russia, where as I read in your telegram of to-day, "the Moscow town council having in their congratulatory address on the Black Sea question, petitioned the Czar to add liberty of the press, tolerance of all religions, and other reforms to the blessings he has conferred upon his subjects, their address has been returned with a reprimand." I see here what sort of Government is prepared for the Turkish provinces now striving to obtain freedom from their own Sultan. I compare our condition again with the efforts which, since 1789, France has made in vain to combine liberty and order. I compare it with the state of Germany, and I ardently wish success to her new institutions, while I have some fear that her liberty may be stifled by a surplus of Kings, Princes, Lords, and Squires.

In the midst of these examples I wish to see England made impregnable, with the motto of our volunteers, "Defence not Defiance."

"TIRED NATURE'S SWEET RESTORES, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks :—"The singular success which Mr. Epps attained by the homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½ lb., ¼ lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 127-m-Tu.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br, 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:30 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:35 A. M.

Daily Intelligencer.

BELLEVILLE, FRIDAY, JANY. 20.

ARRIVED—The steamship *Nestorian* arrived at Portland at 10:17 last night.

ICICLES—At this particular time, pedestrians ought to "steer clear" of the sides of buildings to the roof of which icicles adhere. Large numbers fell from houses this morning, owing to the mild weather.

LOWER BRIDGE.—After forming an unsightly addition to the lower bridge for a long time, the remainder of the planks encasing the trusses have at length been removed. The appearance of the structure has, in consequence, been much improved.

HASTINGS RIFLE ASSOCIATION.—The above association, at a meeting last night, decided to petition the County and Town Councils for assistance. Many of the County Councils in different parts of the province have generously given $100 to their local associations.

TEMPERANCE UNION.—The Canada Temperance Union adjourned on the 19th, after a two day's session in Toronto, at which several important resolutions were passed. The following officers were elected for the ensuing year: President—Hon. Malcolm Cameron. Vice-Presidents—Mr. J. Roblin, Dr. Holden, Hon. Billa Flint, Belleville; Rev. Mr. Livingston, Dr. Gould, Dr. Cook, Rev. John McLean, Hamilton; Mr. Geo. Young, Trenton: Rev. Joel Briggs, Georgetown; Mr. Peter Pierce, Mr. G. W. Ross, Strathroy; Mr. L. E. Shefford, Ernestown; and Rev. Mr. Anderson. Treasurer—Mr. E. M. Holden. Secretaries—Rev. Mr. Scott and Mr. W. S. Williams.

BRIBERY AT ELECTIONS.—A correspondent writes that the Dundas *Banner* that the chief part of bribery at elections is caused by the hiring of teams; and that a law should be passed making voting imperative, on pain of two days' extra statue labor, to be performed or paid for in due course. Let every elector learn to know that it is his duty to vote—that the law requires it of him—and that he is consequently bound to present himself at the poll—and that, too, without being driven or carried there at the expense of any other person—and you at once do away with the necessity of providing conveyances for that purpose, and one great source of expense and corruption is removed forever.

An Old Adage Verified.

"There has been considerable anxiety to know who *Mr. Carman*, the editor of the *Ontario*, is. The INTELLIGENCER has *referred to the matter* SO FREQUENTLY, and with such evident desire to injure that gentleman in public estimation, that a few chronological facts may not be out of place."—*Ontario, Dec. 21st, 1870.*

"*For nine long months*, he (the INTELLIGENCER) *repudiated our* (Carman's) *very existence*, and the readers of that paper (the INTELLIGENCER) doubtless had *no knowledge* that such a publication as the *Ontario* was *even anticipated*, much less in *actual circulation*."—*Ontario, Jan. 19th, 1871.*

How true the old adage that 'liars should have good memories.' It will be a mystery to many to know how one paper could refer frequently to another, and yet repudiate and ignore its very existence for "nine long months."

Prof. Armstrong's Concert.

The crowd which thronged Ontario Hall last night was a fitting and substantial testimony of the estimation in which Mr. Armstrong, as a musician, is held by the music-loving portion of the community. The various items on the programme were gone through in a very satisfactory manner, Prof. Armstrong's "echo solo" eliciting an enthusiastic *encore*, which was responded to by the Prof.'s son, who bids fair ere long to rival his father. Mr. Wilton appeared to much greater advantage than previously, his Dutch characterizations being very good. Mr. Zabloeki made a successful appearance, singing the "Marseillaise," and a Tyrolese warble. Mr. Blaiod also sang with his usual taste. As on their former appearance in public, Messrs. Deans, Van Norman and Wolever made most excellent music. Mr. S. Sinfield, in his recitation of Hood's poem, "The Lost Child," received a good deal of applause, and Mr. Oswald's violin solo was loudly *encored*. The Band was effective in its performances. As a volunteer band, we are aware of only two in Ontario which stand a chance of excelling it. Mr. Jas. Armstrong, jr., sang the affecting ballad "Driven from Home," with good taste and expression. From the great success of this, his first benefit, it is probable that Mr. Armstrong will repeat his concert at an early day.

West Hastings Agricultural Society.

The Annual Meeting of the West Hastings Agricultural Society, was held in the Town Hall, Belleville, on Thursday, Jan. 19th, John S. Huffman, Esq., President, in the chair. The attendance was smaller than upon former occasions.

The Secretary, D. R. Ketcheson, Esq., read the annual report, as follows, which was received and adopted:—

The Officers and Directors of the West Hastings Agricultural Society beg leave to report:

That it gives them great pleasure to state that the financial position of the Society is in a healthy state, having had a much larger membership as compared with last year; thus enabling them to draw the bill amount of the Government grant, amounting to about $400, by which means they were able to enlarge and increase the premium list. They confidently hope that the membership for the coming year may be still larger, so as to enable them to offer greater inducements to agriculturists and manufacturers in the future.

They also report a decided improvement in cattle, sheep and swine; and are gratified to see the interest taken by some farmers in improving their stock by the importation of improved breeds during the year, an enterprise which they trust will be emulated by others. The important dairy interest which is springing up in all parts of the Riding, renders more attention to the improvement in the quality of cows imperatively necessary, provided our Dairymen desire to make this branch of industry more successful, and to enable them to excel in the manufacture of cheese. They have much pleasure in reporting the success of their first cheese show; there having been over one hundred cheeses on exhibition. This bringing into competition of the different manufacturers of cheese in the Province, and the valuable information received relating to the different modes adopted in such factories, contained in the reply to the questions submitted, (which will hereafter be printed for circulation,) cannot but prove of the greatest benefit to those engaged in the manufacture of Cheese.

In horses we have some fine animals, both for farming purposes and for the road.

The attention paid to the manufacture of agricultural implements during the year, now enables us to compete successfully with any in the Dominion.

Much improvement is yearly taking place in domestic manufactures, and in the fine arts.

The amounts paid out for premiums, awarded at the last Fair and Show are as follows:—

Horses, $89 25; Cattle, $121 50; Sheep, $35 50; Swine, $20 50; Poultry, $12 50; Grain and Seeds, $40 50; Roots and Vegetables, $16 75; Fruit, $10 00; Dairy Produce, $13 50; Agricultural Implements, Carriages, etc., $95 04; Domestic Manufactures, $48 25; Fine Arts, $12 25; Ladies' Work, $22 00; Leather, $15 75; making a total of $564 79. In addition to the above prizes which were paid to competitors within the Riding, $215 were awarded in special prizes for Factory Cheese, which department was open to every factory in Ontario.

They cannot close their report without stating that much praise is due to the Provincial Government for the liberal and extensive aids given to Agricultural Societies.

All of which is respectfully submitted.

JOHN S. HUFFMAN, President.
D. R. KETCHESON, Secretary.

Sidney, Jany. 18, 1871.

W. H. Graham, Esq., Treasurer, presented a statement of the accounts for the past year, which had been duly audited by Messrs. J. R. Brower and Robert Gordon. The account shows a balance on hand of $189.81, after paying all liabilities.

The election of officers and directors for the ensuing year, was then proceeded with, and resulted as follows:—

Alex. Thompson, Esq., President.
Daniel Vandewaters, Esq., 1st Vice-Pres.
John Flindall, Esq., 2nd Vice-President.
Daniel R. Ketcheson, Esq., Secretary.
W. H. Graham, Esq., Treasurer.

Messrs. M. Bowell, R. S. Patterson, John Lewis, B. Gilbert, David Roblin, John. S. Huffman, Robt. E. Grass, Moses Boardman and Wm. Yates—Directors.

Messrs. J. R. Brower, and B. Mallery—Auditors.

A discussion arose as to the propriety of presenting each member of the Society during the present year with a copy of some agricultural newspaper, as heretofore. A motion was made to subscribe for the *Canada Farmer*, and one for the *Ontario Farmer*. A motion was subsequently passed, referring the question to the Directors.

A vote of thanks was then passed and tendered to the retiring President, John S. Huffman, Esq.

The Directors meet on the first Saturday in each month at 2 o'clock p. m., at Hambly's, where a room has been placed at their disposal.

The meeting then adjourned.

Earl Granville's Reply to the Address of the Assembly.

It will be remembered that the House of Assembly at its last session concurred in an address to the Queen, asking to have the Act of Confederation so amended as to prevent in future any interference in the financial arrangements which had been entered into between the Provinces prior Confederation, which arrangement was embodied in the Confederation Act. The reply to that address has been laid before the Ontario Legislature, and is as follows:

DOWNING STREET, Feb. 19th, 1870.

"SIR,—I have the honor to acknowledge the receipt of your despatch, No. 6, of the 11th of January, forwarding an Address to the Queen, from the Legislative Assembly of the Province of Ontario, praying that Her Majesty would be graciously pleased to cause a measure to be submitted to the Imperial Parliament for the purpose of removing all colour for the assumption, by the Parliament of Canada, of the power to disturb the financial relations established by the British North America Act (1867) as between Canada and the several Provinces.

"You will be so good as to inform the Assembly that their Address has been laid before Her Majesty, who has been pleased to receive the same very graciously.

"The British North America Act (1867), embodied the terms of Confederation agreed upon, through their representatives, by the different Provinces in the Union, and Her Majesty's Government would not feel justified in proposing to the Imperial Parliament to deprive the Parliament of Canada of any power which that Act has assigned to them.

"I have been advised by the law officers of the Crown, that under that Statute, the Canadian Parliament had authority to pass the Act respecting Nova Scotia, which was referred to during the debate in the Legislative Assembly of Ontario.

"Under these circumstances, you will inform the Assembly that I have been unable to advise her Majesty to accede to the prayer of their Address.

I have, &c.,
(Signed) GRANVILLE.

Governor-General, The Right Honorable Sir John Young, Bart., G. C. B., G. C. M. G."

Ontario Legislature.

TORONTO, Jany. 18th.

MUNICIPAL LAW.

Mr. Currie moved that the House to-morrow should resolve itself into Committee to consider the following resolution:—"That it is expedient to amend the Municipal Law so that each township may be divided into four wards, and the electors of each ward shall select one councillor. 2. That the electors of the whole township shall elect one reeve, and the township council of any township having the names of over five hundred electors on the last revised assessment roll shall elect one deputy-reeve." He explained that under the present system five or six of the best men often fail to be reeve or deputy-reeve, and as only one can be elected, it often happens that the rest withdraw altogether from the municipal council. As the municipal law was now being consolidated, he thought the present was the most advisable time to see whether the representatives of other constituencies were of the same opinion in regard to a change, such as proposed, as his constituents. Under his plan the best men would be elected and would prevent any undue influence being brought to bear on candidates, besides tending to preserve harmony and to lessen the trouble and expense of elections.

Dr. Boulter said he did not think the proposed scheme would work well in a county where there were new and old townships together. He thought that part of the resolution referring to the division of the township into wards was sound and practical.

Mr. Trow said he had never heard his section of the country make any complaints about the present system. He agreed with the resolution in so far as it advocated the lessening of the number of representatives, for he believed the present machinery was far too cumbersome.

Mr. Graham (Hastings) said he was opposed to wards being established in townships. He thought a councillor elected by the whole township would be likely to attend more closely to his duties than if only elected by a portion of the Township.

Mr. Monteith did not think it would be right to allow any member of the Council Board to have more than his own vote.

Mr. Rykert was persuaded that the old system was the best. There had been no complaints made against the existing system, although in his opinion it caused a great deal of difference in the Townships. He thought the Townships ought to be allowed to divide themselves into wards or not, as they thought fit, but in his opinion it was best to let well alone, and stick to the present system.

Mr. Perry thought the resolution seemed to be a fair solution of many difficulties attending the present municipal law, but still he believed that there were objections in it that would make the present system preferable.

Mr. Sexton said he thought the principle of the resolution was contrary to the principle of the general representative system of the country. He thought the resolution would encourage 'chiselling.' He believed that the division of the townships into wards might be an amendment, but he would object to the main principles of the resolution.

Mr. Galbraith thought the best way would be to give the candidate who had the highest number of votes the reeveship, the next highest the deputy reeveship, and the three next highest the councillorships.

Hon. Mr. Cameron said there was a bill for the purpose of doing what the resolution aimed at. With regard to the Ward system, it had been said that it had enabled candidates to make combinations for the exclusion of others. He trusted that the mover of the resolution would withdraw it, and allow the bill for the consideration of the municipal law to be considered by the special committee, to which it had been assigned.

Mr. Currie proceeded to re-explain the nature of his resolutions.

Mr. Evans thought there would be some difficulty in carrying out the resolution, especially with regard to the election of Reeve.

The motion was then withdrawn.

TORONTO, Jan. 19.

Amongst other petitions presented, was one by Dr. Boulter from James Wilson, Jr., and 161 others of the Townships on the Hastings Road, praying for special grants to schools in that vicinity. The petition was not read.

Bills were introduced for the incorporation of the Town of Walkerton; to amend the act incorporating the Whitby & Port Perry Railway Company; and to amend the act respecting Tavera Licenses.

Mr. Boyd introduced a motion for a statement of any financial irregularities which may have taken place in any of the branches of the public service, and what steps have been taken to prevent their occurrence. After debate the motion was passed with amendment.

A discussion took place on the motion for the third reading of the Bill incorporating the Peterborough and Haliburton Railway. The debate was adjourned.

The Bill to amend the law as to the fees of Registrars was rejected on a division by 44 to 20.

The Bill to amend the Assessment law was read a second time and referred to Committee.

Several other measures were advanced a stage, and the House adjourned.

Fee simple, and simple fee,
And all the fees in sail,
Are nothing when compared with thee,
Thou best of fees—FEMALE.

Manitoba.

DR. SCHULTZ AND MR. DONALD SMITH'S ELECTION.

ST. PAUL, MINN., Jan. 17.—The Manitoba *News Letter*, Dr. Schultz's paper, of January 4th, has been received. It contains this item in relation to the election in St. John's Parish:—"A rumor is in circulation that Mr. Smith has resigned, in consequence of the illegal and scandalous means taken by his supporters to secure his election. The report may be correct, for Mr. Smith must know that he does not really represent St. John; for that Parish did not give him a single vote, and that he now only represents Fort Garry and Point Du Chene. He had sat in an Assembly to which he had been elected by the vote of the very men who kept out Mr. Macdougall last year, and whom the Hudson Bay Company assume to be their greatest enemies."

To the Editor of the Intelligencer.

Grand Junction Railway.

DEAR SIR,—Having given you a few of my views on the proposed route, allow me again to encroach on your columns with a few of my ideas which may be of importance to the projectors of the scheme, and give a little more light to those who are unacquainted with the resources of the country through which it is to pass, and the trade which it can command. I would also say that what you get from my pen is collected from actual observation, not from maps, which very often lead those who trace them astray.

Within the past few days I have driven through the country, crossing and re-crossing the line of the proposed route, commencing at Hastings, to Peterboro, Lindsay, Beaverton and Orilla, on to this point, which is within fifteen miles of the proposed terminus. Between Lindsay and Georgian Bay shore is a fine tract of agricultural as well as lumbering country, dotted all through with Saw and Grist Mills, some of which are the most extensive in the Dominion. The firm of Dodge & Co., employ not less than one thousand men in the timber and lumber trade through the Muskoka district, and their trade alone would go far towards making the undertaking a paying one, and your readers will bear in mind this is only one firm, and nearly all their timber and lumber for Oswego would go through Belleville, as it is the most direct and advantageous route; this is plain, from the fact that one tug can tow from five to seven barges loaded with timber across in less than one-half the time the same number of schooners, which require about five times the number of hands, would take in running from Toronto to Oswego. Then again, Toronto is a roundabout way to get timber or lumber to Oswego from this section.

The most advantageous terminus will be on Hog Bay, although the road would have to be ten miles longer than that first proposed. This forms one of the best natural harbors in Georgian Bay, and will require no land light house, and little or no dredging, as the water is from eleven to fifteen feet deep thirteen yards from the shore, and is well sheltered from the north and northwest winds.

Matchedash Bay is very marshy and would require a great deal of dredging, which, together with the cost of building and supplying lighthouses, would amount to far more than the cost of ten miles of road, and the harbor on Hog Bay being so far superior, it is most decidedly the most preferable. Should the line be run to Hog Bay, I have no doubt some of the lumbering firms would lend a helping hand in running a branch from a point say about 18 miles northwest of Orillia to Waubashine on Matchedash Bay, in order to give them a direct outlet for the productions of their mills at this point.

The terminus of the Muskoka Junction Railway is to be on Mundy's Bay, seven and a half miles west of Hog Bay, but they cannot compete favorably, as can be plainly seen from the facts I stated in reference to the barges.

Wishing Belleville every success in this noble undertaking.

Believe me,
True to G. J. R.
J. W.

Penetanguishene, Jan. 14th, 1871.

THE CONFERENCE.

RUSSIA ON THE POLICY OF AUSTRIA

SESSION ADJOURNED TILL THE 24TH.

LONDON, Jan. 19.—Prussia is urgent for the assembling of the Conference.

NEW YORK, Jan. 19.—A special to the World, dated London 17th, says: The Conference on the Eastern question held an informal session to-day and adjourned until the 24th.

A special to the Herald, dated London 17th, says:—

"At the opening of the Conference to-day there were present the Plenipotentiaries of Austria, Prussia, Russia, Turkey, Italy, and England. Although conference assembled with a great show of formality, it is in reality, a tame affair, owing to the fact that the persons present meet nearly daily in London. The meeting was strictly formal. Earl Granville was called upon to preside. A communication relative to the French representative was read, but no action was taken in the matter. Although the proceedings are kept strictly secret it may be confidently stated that action of conference must be without prejudice to the abrogation of the neutrality of the Black Sea, which has already been accomplished by the act of the Russian Government.

In regard to the rumors of peace propositions being made at the conference, Count Bernstorff is under strict orders from the Prussian Government to oppose any introduction of the subject and to withdraw from the convention unless overtures proceed directly from France.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

FRIDAY, Jan. 20th.

ASSAULT AND BATTERY.

A case of assault and battery, preferred by Edward McMahon against Simon Sheehan, was adjourned for a week, the parties having expressed a wish for a settlement out of Court.

—AMONG its greatest curiosities Wisconsin reckons a woman who has been married six times, twice to the same man, has been divorced three times, twice from the same man, and is now a widow.

News Condensed.

—The roads in the vicinity of Quebec are blocked with snow.

—Thermometer 30 degrees below zero at Quebec on the 19th.

—A fire occurred at Hanover, Ont., on the 19th, by which four buildings were destroyed.

—The favorite Mexican flower is known as the Macpalxochitiquahuitl, and would not smell quite so sweet by another name.

—A Parma amateur has written a letter on "Parolonocepeciaiminy," and clears up all the doubts that surround it.

—The St. James Hotel, Ottawa, was destroyed by fire on the morning of the 19th. The proprietor loses about $12,000.

—M. Auguste Michel, the well known geologist who has been attached to the Canada Commission for the past two or three years, died in Montreal on Saturday.

—A meeting to consider the project of the construction of a railway from Kingston to Pembroke, was held in the City Hall, Kingston, last night. A resolution pledging the city to grant a bonus of $3,000 per mile in aid of the road.

—A great snow storm has lately prevailed at Chicago. About 23 inches of snow fell, which was piled up in great drifts in all directions, prostrating the telegraph for about 100 miles eastward, and blocking up all avenues of communication.

—A merchant in Geneva, N. Y., advertised, stating that he wanted to engage the services of a small boy. The next day his wife presented him with *two* small boys. That man says he don't think advertising is profitable. "You know how it is yourself."

—Mr. Lorenzo Day of Chickasaw County, Miss., having married Miss Martha Weck, a local poet comments:

"A Day is made, a Week is lost,
Each time should not complain—
There'll soon be little Days enough
To make a Week again."

—It is the opinion of a critical writer that the British iron-clad have too light armor, but are splendidly armed; that they draw too much water, run too slowly, and roll too much; yet, taken all in all, are the best fighters probably in the world.

—The night editor of a daily paper wrote the following head line to one of his cable despatches: "The British Lion Shaking his Mane." He was unable to eat his breakfast next morning when he found the printer's version of the matter staring him in the face thus: "The British Lion Skating in Maine."

—The marine losses of the United States for 1870 amount to 489 vessels, valued with their cargoes at $19,657,700. The last three months of 1870 are charged with the loss of 204 vessels, valued at $7,889,800. The total marine losses throughout the world, as returned to the British Lloyds, from January 1st to December 10th, 1870, amount to 1887 vessels.

—A telegram from Montreal received last evening stated that Mrs. McGee, widow of the late Hon. Thos. D'Arcy McGee, died that morning at her residence in that city. Her soul had calmly and without a struggle passed away while she was engaged in her morning devotion apparently, having been found on her knees, in a prayerful attitude, with her prayer book in her hand. What a singular and happy death!

A SHOP and Dwelling House at Roslin. A good stand for a Country Store. Apply to Miss Mowat at Madoc, or John Campbell, Roslin.

December 30, 1870. 205

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer* Office

The War in France.

The midnight despatches report that, in the bombardment of Paris, the German gunners endeavor to avoid striking the public buildings.

Bismarck is reported on very good authority—the correspondent at Versailles of the London *Times*—to have recovered from his recent illness.

De Chaussy's army is still retreating, the Germans being in hot pursuit. The German loss in the recent battles is officially stated at 177 officers and 3,208 men killed and wounded.

Von Werder maintained his position at Belfort against repeated attacks from the French.

The investment of Longwy is reported as complete.

Desultory fighting in various quarters is reported, the losses in each case being trifling, yet sufficient to aggregate a large number of lives lost, without sensible advantage to either of the combatants.

Latest by Telegraph.

BY ATLANTIC CABLE.

GREAT BRITAIN.

Russian Budget.

Von Beust's reply to Gortschakoff.

LONDON, Jan. 18.—The reported Russian budget is very satisfactory. The deficit amounts to only five million roubles, although the military expenditures are increased by ten millions.

There have been additional cases of assassination of policemen in Ireland.

LONDON, Jan. 17.—The *Journal*, of St. Petersburg, in a recent editorial, criticises in caustic language, the reply of Von Beust to Gortschakoff's note, and says distinctively that the policy of Austria is not calculated to secure the friendship of Russia or that of the western powers.

American Despatches.

Disease of Cattle not True.

The Fishery Question.

The Fenians.

CHICAGO, Jan. 19.—The statement a few days ago in a Boston journal to the effect that dressed beef from the west was from diseased animals, is not true. At no time within the past five years have western cattle been in better condition.

PORTLAND, Jan. 19.—The steamer 'Nestorian,' from Liverpool, has arrived.

WASHINGTON, Jan. 20.—It is believed that in the negotiations for a settlement of the fisheries question, Gen. Schenck will be instructed to make a proposition that the Government of the United States shall be put on an equal footing in all respects with those of the British Provinces, that they shall have the same right to fish in Canadian waters, to land and cure their fish, and to rent in Canadian ports. In short, that the difficulty shall be settled at once and forever by the abrogation of all former treaty stipulations and the repeal of all Canadian laws reserving any fishing ground for the exclusive use of Canadian fishermen. In return for such a concession on the part of Canada, some important consideration would, of course, be expected from this Government, and it is thought that the United States could afford to pay whatever reasonable sum may be demanded for the full settlement of the vexatious question.

NEW YORK, Jan. 20.—The 'Cuba' has arrived, but the Fenian exiles have not yet landed. In reply to an official invitation extended to the Fenian exiles on behalf of the city authorities, by H. R. O'Gorman, O'Donovan Rossa, on behalf of the Fenian prisoners, replies that owing to dissension among the delegations, he and his companions refuse to accept any public invitation until the remainder of their comrades arrive here.

The American steamers 'Erie' and 'Ontario,' will probably be placed upon a line between New York and London; the former is now loading at London by Howland & Aspinall, for this port. The 'Ontario' is on the way from France, having landed a cargo of arms for the French Government.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4 P. M.

Parliament Prorogued.

The Conference Adjourned.

Items of War News.

Belgian Troops Moving.

Bourbaki Retreating.

Prussia's Indemnity Accepted by England.

LONDON, Dec. 18, 10 p. m.—The prorogation of Parliament to the 9th of February is gazetted.

The adjournment of the conference on the eastern question until the 24th is confirmed.

General Faidherbe reached Fives on Monday.

Yesterday there was an outpost skirmish near Bapaume. The stores at Arras are being removed to Lille. The French hold St. Quentin.

Belgian troops are moving to the frontier.

There was a great military pageant at Versailles to-day in honor of the restoration of the German empire.

LONDON, Jan. 20th, 3 a. m.—It is said the Duke of Mecklenburg is marching on Rennes by way of Mayence, with the object of getting in the rear of or flanking Chanzey's army.

A despatch from Versailles says that Bourbaki, on the 17th, renewed his attack upon Von Werder's entrenched position south of Belfort, and was again repulsed with great loss, and has commenced his retreat to the southward.

The bombardment of Paris was continued on the 18th with increasing strength.

Earl Granville has accepted the indemnity offered by Prussia for the English vessels sunk in the Seine.

Butter steady.

Cheese quiet at 12c to 16c for common to prime.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do bless her name especially is the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m:

The mind governs the muscles through the Nervous system, as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of evils. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will each our story to say "A Blessing on Mrs. Winslow," for helping her by her timely and soothing counsel, to relieve the fatigue of nursing a sick and teething babe. We confirm every word set forth in the Prospectus. For nothing falsely what it professes to perform, every part of it—nothing else. Away with your Godey, Farrar, Dove, Laudanum, and every other Narcotic, by which the babe is dragged into stupidity, and murdered sleep and gone for life.

We have never seen Mrs. Winslow—know her only through the prosperous success of her Soothing Syrup for Children Teething. If we had the power, we would make her name in a few days a saviour to the infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations. 1d&W-2m

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON,
Editor Christian Advocate.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Editor of the Union Church Monthral.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, ex James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, ex J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of a acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1856. Which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my Office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

A. S. PAGE & CO.
Belleville, Oct. 6, 1870. 134:tf

—Store rents in New York city have fallen far below the rates of three years ago. Thus, it is stated, that a large store which in 1866 rented for $10,000 a year, last year rented for $10,000, and the owners cannot now obtain $8,000 a year, is now held at $15,000, but does not find a tenant.

—Some Portland Me., ladies, now in Paris, have written home that they are not suffering for the necessities of life, but of course they are not over supplied with luxuries. They say that they lately secured a ham, and used the fat instead of butter to make cake, which tasted "positively delicious."

On one occasion a young and zealous lawyer, not over punctilious in his allusions to the court, nor very formal in his manner, was arguing a question before a judge, and in the course of his argument, by way of illustration, wished to suppose a case. 'We will suppose, your honor,' said he, 'that your honor were to steal a horse——' 'No, no, no,' interrupted the judge, 'Not at all; not at all. 'Tain't a supposable case. Suppose Mr. S. 'tain't a supposable case. Suppose Mr. S. begging your honor's pardon,' proceeded the eager lawyer, with more zeal than prudence, 'very well; then supposing that I should steal a horse—' 'Ah, yes, yes, yes,' said the judge; 'that is a very different thing. Very likely, Mr. S., very likely. Proceed.' Mr. S. proceeded to take a seat, amidst the shouts of his brethren, and had the good sense to take the joke in good part, and repeat it often to his friends.

A LABOR VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The authorities say this is a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shishaweos Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

Belleville, December 9th, 1870. 1884

The American Agriculturist,

FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 36 pages, well printed, and filled with plain, practical, original matter, including a hundred choice fine engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to facilitate knowledge and sound principles.

CIRCULATION — TERMS.— The circulation of the American Agriculturist (almost 300,000) is so large that it can be furnished for the low price of $1 a year; four copies for $3; ten copies for $15; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year. ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the facility of C. E. Palmer & Co.

THE EDITORIAL DEPARTMENT is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished on all the live topics of the day, by experts in different departments of literature and knowledge, and on all questions politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accuracy and full details in a commercial paper in a newspaper aspiring to leadership in the great commercial metropolis of our country, and have completed arrangements which will make the commercial columns of the *Gazette* absolutely reliable in all details of quotations and accuracy of information to those of any other paper published in the city. The daily shipping news of first-rate talent in this important department of journalism will be made a necessity to all merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., all prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The Gazette is distinguished for

The ablest Editorials | The best Local News.
The most reliable Commercial Reports. | The most reliable Legal Intelligence.
The fullest Telegraphic Despatches. | The choicest Literature, Anecdotes, &c.

Offering to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is unquestionably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 when paid strictly in advance, and may also be purchased at 1 cent each by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN RESOLVENT.

N.B.—The great medicines (free from all associations or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding the nutritive principles of their strengthening, nourishing, and invigorating properties, and especially the*

SARSAPARILLIAN RESOLVENT,

now for the selling over and over again; for never in the history of medicine was such a medicine this so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful **what, the** *worn and shattered constitutions, of*

Dr. RADWAY'S
SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS THE ELEMENTS OF BONE AND FLESH-MAKING QUALITIES.
It cleanses the system when foul or heat-making properties.
it cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
it increases the weight and appetite.
IT CURES ALL WASTING AND DISCHARGES.
it increases the repairs and diminishes the wastes.
it counteracts the products of decay.
it resolves Tumours, Nodes, Hard Lumps.
it makes the skin clear and beautiful.
it heals Fever Sores and Ulcers.
it cures all Scrofula, Glees, and Stricture.
it makes the water clear and pass freely.
it cures Barrenness, and invests with the vigor and manliness those who from early excesses or diseases, are deficient or exhausted to excuse woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child to whom we are not desirous of their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the point of repair, we guarantee a restoring the *reparative process of* RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the element of decay that now exist be dismissed from the system.

EXTREME CASES, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions destroyed and secretions altered beyond the reparative power of medicine, may, and will, by the use of Dr. Radway's Sarsaparillian Resolvent, have a curative perhaps for years; for no matter how low the system may be sunk, if the vitality is not entirely gone under the influence of this tissue and flesh-making medicine, the nourishment it gives the wasting tissues and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to build up a healthful action in all the tissues, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease of** the KIDNEYS, SECONDARY SYPHILIS, and the poisons of MERCURIAL Disease, are developed through the process of deposits from the blood either in the LUNGS, SKIN, Bladder or Cellular Tissue; and these diseases in their advanced stage can be cured only by the use of the Sarsaparillian Resolvent.

ABLE EDITORIALS, SPICY LOCALS, POETRY, JOKES, AGRICULTURAL AND OTHER MISCELLANEOUS MATTER.

RARE THE CHANGE.

A person recently was cured of **the Worst Cases of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better, by taking the Sarsaparillian Resolvent,** *as the blood becomes more pure, rich, strong, and life-sustaining, and is enabled to hold in solution its natural constituents. All deposits of Tuberculous matter and other elements of disease, decomposition and decay will be dissolved in the Lungs, Kidneys, Liver and other Organs; and each of these Organs will secure their peculiar and constitutional secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging their proper functions, health can never be restored; hap-pily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important* **end the** *has accorded to all these remedial agents advertised as Blood Purifiers.*

No matter how deeply seated or engrafted in the **disease, scrofula, glandular, syphilis, or liver complaint** *and corruption may be, the influence of this powerful agent on the blood and other fluids that course through the living body with repairs, will so change the system* **with such transformation as to expel disease, and eliminate the dead and decomposing matter, and say** *by its purifying, sound and living principles, supplied by rich, pure, and strong blood. By its chemical action upon the tissues, it neutralizes the acids on the substances taken into the stomach during the process of digestion, and forms with the food which is made blood, as well as the nourishing constituents it imparts to the blood, a specific action when entering in the circulation, it expels the deadly poisons of virus from the blood, and restores many all depraved forms of disease, which exist in the system of some specific poison, or virulent disease, a deformity, or from some Scrofulous, Cancerous, Chloride of Mercury, Calomel, and other agent, and long accumulated poisons in the Kidneys, Liver, urethra, or joints, or from some transmitter taint of Scrofula or Consumption through half a dozen generations.*

Scrofula, consumption, syphilis, cancers and badly treated Venereal in its many forms Glandular diseases, Ulcers in the Throat Mouth, Tumors, Nodes in the Breast and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Scurfiness, Ulcers, Erysipelas, Acne, Rinck Spots Worms in the Flesh, Tumors on the Liver, Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of the above forms or disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Stictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Inflammation, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted the skill of medicines and the use of the most celebrated doctors in Montreal and other parts of Canada East. He commenced the use of **Radway's Sarsaparillian Resolvent, side-with RADWAY'S PILLS and RADWAY'S READY RELIEF,** used only three bottles of the Sarsaparilian Resolvent, and five boxes of Radway's Pills, and applied, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water, which completely cured him. Here is a man in the full prime of life, that was given up by doctors for nine years, and cured at a cost of less than 50 dollars. "ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, Vermont, nearly all of the buildings and number of Paper Mills, Hotels, &c., sold: one of his know cases of Scrofula, of fifteen years' standing, was discovered with one SOLID SCAB, covering the entire body—back, limbs, chest, head, face, &c. This was in September last, and he was the most revolting an disease I ever saw. A few days after the use of the first bottle of **Radway's Sarsaparillian Resolvent, Radway's Ready Relief** and **Pills,** was put under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using **Radway's Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FOR 1-Y-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES.
BECAUSE IT IS THE BEST.

IT has always been the care of the publisher to combine, in GODEY'S LADY'S BOOK, whatever is useful, whatever is amusing, whatever is pure, dignified, and virtuous in sentiment, with whatever may adorn, attract and interest amusement. For its Literary Department, in past years,

THE BEST WRITERS

Have a reputation for excellence the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet of our patterns, costing twenty; there are sometimes seventy designs in embroidery.

ORIGINAL MUSIC.—And it is the only magazine in which such a feature is a penny for it appears.

MODEL COTTAGES.—The only magazine in this country that gives such a feature as this.

COLORED FASHION PLATES.—In this we are also alone, as no other gives a colored fashion plate regularly and a really reparative power of medicine, may, and will, by the use of Dr. Radway's Sarsaparillian Resolvent, be restored, even perhaps for years; for no matter how low the system may be sunk, if the vitality is not entirely gone under the influence of this tissue and flesh-making medicine, the nourishment it gives the wasting tissues and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to build up a healthful action in all the tissues, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease of** the KIDNEYS, SECONDARY SYPHILIS, and the poisons of MERCURIAL Disease, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can be cured only by the use of the Sarsaparillian Resolvent.

DOMESTIC ECONOMY.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the above clubs. Specimens to be made up as for clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to REMIT.—In remitting by mail, a Post Office Order or a Draft, payable in the city of New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or draft be lost or stolen, it can be renewed without loss to the owner. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. W. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,
FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity and sale which is unequalled in the history of Mineral Waters. It is not the preparation of mag, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equaled; it is pleasant and palpitatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to create irritate or weaken them; they create a good appetite, and, a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Dyspepsia, Disorganization of the Stomach, Organs, Nausea and Nervousness (caused by Debauch) Habitual Costiveness, Piles, Indigestion, Costiveness, Dyppepsia, Liver Complaint, General Debility, Heartburn, Billousness, Loss of Appetite, Fulness or Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of the Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Diarrhœa of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them, CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.,
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, in which the system seemed saturated with corruption, have been purified and cured by its powerful and thorough alterative properties. Its wonderful power to eradicate this deep-seated disease is daily exhibited in almost every neighborhood in the country, and the public scarcely need to be informed of its virtues or its power over this terrible poison is one of the most destructive enemies of our race. On account of the variety of its action, this compound will thoroughly purify the blood, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and no one can have a sensible occasion to doubt its power over the subtle poison in one of the most destructive forms. Under the influence of this powerful antidote, the scrofulous corruption is expelled from the blood, and the system is left to repair its waste with pure material. Health and vigor succeed disease, and the patient, who was before a prey to painful sores, or the victim of loathsome weakness, is changed into a healthy man or woman. Scrofula seems to be the most universal of all diseases, and there are few families in any part of the country that are entirely free from some of its horrible effects. Many of the worst cases originate in impurities inherited through several generations, and are only developed in middle life or old age. Others arise from the use of mercury, or from low living, filthiness, or bad air. Whatever may be the cause of this disease, it is certainly terrible enough, and the afflicted victim will spare no reasonable effort to get rid of it. Ayer's Sarsaparilla is the best remedy we can employ for the purpose. It is certain, safe, and effectual. Thousands have proved its virtues, and are willing to testify in favor of it. Why suffer from Scrofula, when you can get a cure?

Long Life Secured.

Let every woman verging on the critical period prepare herself with this great Anti-Scorbutic Renovator, and all women masses have ceased that fear sick or suffering from some organic or functional disease, take the Sarsaparilian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life and exemption from the sickness of former years.

ALL FEMALE DIFFICULTIES,

even the earliest stage of female suffering from Retention of or Profuse Menstruation, Ulceration of the Uterus and Organs of the Womb, Uterine, Bladder, Kidneys, Suppressed, Irregularities, Leucorrhœa, Hysterics, Hemorrhages, Sickness, Chlorosis, Cachexia, Bad Habit of System, Sickness or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured see Radway's Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Costiveness. The means of speedy relief, of Relief with them, a cure, is described. Also in the Sugar Coated Pills, the only cathartic and alterative in existence or known, which—opens the obstructed parts of the bowels without a pain, and restores to the stomach and bowels their healthy action. Also in the Ready Relief a great agent to cure sudden any organ, or reduces inflammation, from whatever cause, it instantly removes the natural seats of the digestive and secretive organs, and there is not a remedy in use in any physician where this family medicine is kept in the house. In all cases arising from or aggravated by Costiveness, or Indigestion, Radway's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

These great remedial agents are prepared on entirely new principles, and that is why they stop pain so quick, and cure so many forms of disease, and why they are worth so little inconvenience to the patient. Some of our preparations are but a few drops in water, and there is nothing new in their medicines—that the ingredients are to be found in the U. S. and other dispensatories of the globe; but the peculiar formulas are original with Dr. Radway & Co., and their pharmaceutical skill, knowledge of Pharmacopeia, &c., hence, they claim superiority of power for their preparations, and the wonderful cures discovers the miserable fraud in the imitations. The genuine Ready Relief has the India Rubber trade mark, and every bottle made air-tight.

Dr. Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold by Druggists. Depot for the Provincial Office, No. 439 St. Paul Street, Montreal, and by Druggists and general Storekeepers everywhere. One agent will be found in every city and town in the world. Get up a directions in all languages. **Ask for Radway's Ready Relief.**

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for certain purposes, open the bowels, and through what is called "peristaltic" movement, purge from the all sanitary canal the foulness of mankind, at this excellent or the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has compiled one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING matter from the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are adapted to any distinctive exclusive properties. All these common pills are safe generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom—Calomel and Blue Mass excepted—and they have for centuries supplied *a mineralizer*, (and the most powerful, for it is solely entered in 200 cases out of 500) and Aloes, Gamboge Rhubarb, Colocynth, Antimony, Podophyllin and other vegetable supplies the Cathartic, not only for the medical practitioners, but for the public generally.

DR. RADWAY'S PILLS

IN RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure a Pill superior in all to any other Pill ever compounded by Druggists or Medical Sciences. They differ in every respect to all other Pills in general use, being the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

IN RADWAY'S PILLS you have one medicine that will control every discharge and bodily wastes than will be given in from three or more different preparations of the Materia Medica, and the proof of this: You are seized with a *Bilious attack*, Headache, Nausea, Fever and Pain in the Back, Irritation, alcoholic pill or purgative to work off the effect of the bile, or a Cathartic, Dr. Radway's Pills are given, or a gentle aperient, whereas ONE PILL OF RADWAY'S PILLS will do all that is required, and one or more prescriptions are given for without running any risk from mercurialising or salivating the system.

Why is Purgative Necessary ?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are secreted by the absorbent and lacteals as refuse), the other is that of nutrition. It becomes necessary for the life of the body that the decayed and effete constitutions elements be dismissed and the nutritive adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for his purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and without COMFORT as

RADWAY'S PILLS.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH For 1870. $1,500 CASH
A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the industrial arts, enters its TWENTY-SIXTH year on the first of January next. Its circulation far exceeding that of any other journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 superb plates, embellished with fine engravings of Machinery, New Inventions, Tools and Working Plans and Drawings of Bridges, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have in this thrifting country *A MILLION READERS.*

It is never read the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued in Washington, with explanatory notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors of the world, and have unequaled facilities for procuring a complete knowledge of the progress of Invention and Discovery throughout the country, and with a view to a Ready Relief is good for hundreds of dollars to them every year.

One 25 cent bottle of Radway's Ready Relief is worth a dollar if you are afflicted with pain, and a dollar's worth of Radway's Ready Relief is good for hundreds of dollars' worth of suffering.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will make a liniment equal in quantities to fifty bottles of the 25 cent Pain Killers, Rheumatic Syrups, Lightning Liniments, and other like worthless preparations.

Three remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief will send, as by a process which for the public will secure every household free from pain, and the Ready Relief would cost at least 1,000 times more than the cost of purchasing intermittent fever and ague sickness, or accident takes place.

Painful Attacks which

Radway's Ready Relief

WILL AFFORD INSTANT EASE

In Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysteria,
Croup, Dysphthe[ria],
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague and Fever,

The application of the Ready Relief to the part, parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water, will in a few moments cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHŒA, DYSENTERY,

Wind in the Bowels,
And All Internal Pains.

The above does from extreme minutes will quickly cure

Bilious Colic, Cholera Morbus,
Bilious Colic, Ague,
Pain in the Side, and all Painful Diseases.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purify of the READY RELIEF.

25 Cents, to Large Bottles,

containing 3 and 4 times the quantity of the 15 cent liniments, Pain Killers, Lightnings, &c., and of the common fluid oil alcohol as a basis, and have already started in imitation of Radway's Ready Relief.

Some of these imitations are scented with cinnamon, bitartrate, to imitate the Ready Relief, for protection of Ammonia—used in the genuine Ready Relief, and the Ready Relief is the only one discovers the miserable fraud in the imitations. The genuine Ready Relief has the India Rubber trade mark, and every bottle made air-tight.

Dr. Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold by Druggists. Depot for the Provincial Office, No. 439 St. Paul Street, Montreal, and by Druggists and general Storekeepers everywhere. One agent will be found in every city and town in the world. Get up a directions in all languages. **Ask for Radway's Ready Relief.**

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $3 a year if delivered in Belleville, or by Mail to subscribers $5 a year. $2 50 for six months; $1 50 for three months.

CONCENTRATED LYE.

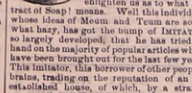

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

ST. LAWRENCE HALL

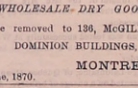

Great St. James Street, Montreal.

St. Lawrence Hall, Cacouna,

The fashionable watering place of the Dominion, and not second to any place in the United States.

H. HOGAN, PROPRIETOR.

May, 1870. 5-1y

OTTAWA HOTEL,

ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

☞ The Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the message will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

June, 1870. 44-1y

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Horticulture, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND PERMANENT INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land. Nowhere else can so much information be obtained. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive agency in the world for procuring PATENTS.

The best way to obtain an answer to the question, Can I obtain a Patent?—is to write to MUNN & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,

Publishers of the Scientific American,

37 Park Row, New York.

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the best talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, gardening, and out-door pursuits; and entertains topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 20 by 25 inches, entitled "The Portrait on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not remove one of these pictures to so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 10 cts.

Address W. JENNINGS DEMOREST, 838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Beckland, Hon. J. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its columns.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those unsurpassable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each member will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—15 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ $34 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-five Cents* per Copy.

GENERAL CLUB RATES FOR 1870.

Club of 8 Subscribers, - - - $ 6.00
Club of 20 " - - - 12.00

A Sterling Old Poem.

Who shall judge a man by his manners?
Who shall know him by his dress?
Paupers may be rich princes,
Princes rich beggars for something less.
Crumpled shirt and dirty jacket
May be of the the golden ore,
Of the deepest thoughts and feelings—
Satin vest can do no more.

There are streams of crystal nectar
Ever flowing out of stone;
There are purple beds and golden,
Hidden, crushed, and overthrown.
God, who counts by souls, not dresses,
Loves and prospers you and me,
While he values thrones the highest
But as pebbles in the sea.

Man upraised above his fellows,
Oft forgets his fellows then;
Masters—rulers—lords, remember
That your meanest hinds are men!
Men of labor, men of feeling,
Men of thoughts and men of fame,
Claiming equal rights to sunshine
In a man's ennobling name.

There are foam-embroidered oceans,
There are little wood-clad rills;
There are feeble inch high saplings,
There are cedars on the hills.
God, who counts by souls, not stations,
Loves and prospers you and me;
For to him all vain distinctions
Are as pebbles in the sea.

Toiling hands alone are builders
Of a nation's wealth and fame.
Titled latitude is pensioned,
Fed and flattered on the same;
By the sweat of others' foreheads,
Living only to rejoice,
While the poor man's outraged feedom
Vainly lifts its feeble voice.

Truth and justice are eternal,
Born with loveliness and light;
Secret wrongs shall never prosper
While there is a sunny right.
God, whose world-wide voice is singing
Boundless love to you and me,
Links oppression with its titles
But as pebbles in the sea.

Sunday Reading.

I would not give much for your religion unless it can be seen. Lamps do not talk but they do shine. A lighthouse sounds no drum, it beats no gong, and yet far over the waters, its friendly spark is seen by the mariner. So let your actions shine out your religion. Let the main sermon of your life be illustrated by all your conduct, and it shall not fail to be illustrious.

THE ALL-SEEING EYE.

One day the astronomer Mitchell was engaged in making some observations on the sun, and as it descended towards the horizon, just as it was setting, there came into the range of the great telescope the top of a hill, about seven miles away. On the top of that hill were some large apple-trees, and in one of them were two boys stealing apples. One was getting the apples, and the other was watching to make sure that nobody saw them, feeling that they were undiscovered. But there sat Professor Mitchell, seven miles away with the great eye of his telescope directed full upon them, seeing every movement they made as plainly as if he been under the tree with them. So it is often with men. Because they do not see the eye which watches with a sleepless vigilance, they think they are not seen. But the great open eye of God is upon them, and not an action can be concealed. There is not a deed, there is not a word, there is not a thought which is not known to God.

CARRYING OUR JOYS TO GOD.

I love to have my children come to me with all their troubles and perplexities. I want them to feel that no friend is dearer to them, none more ready to bear, what can be borne, of their burdens. But I confess I should grow weary if they never came to me except with tears in their eyes; never unless the skeins of their lives were tangled and crossways. I want them none the less to bring me their glad anticipations, their bright hopes, their realized joys, their health, and strength and happiness. I am glad to have my boy bring me his troublesome sum or his hard Latin sentence for my help. But I like, too, to have him bring me his slate when every sum has been conquered, and his Latin book when every difficulty has been solved, and there is triumph in his glad face.

There is a lady in Wheathedge—I will not give her name—who had, and I trust still has, "a little room all her own" where on a stand was always kept the open Bible and a hymn book. Often when the land was rent with war, and our hearts were sore with news of blood shed and of death, she retreated to that room and found refuge there. When the news of the first Bull's Run reached us, there she found solace. When Pope fell and Lee and Washington was threatened, there she still got courage and hope. Neither the first nor the second invasion of Pennsylvania daunted or disturbed her. I never saw her falter, never saw her hope dim or her courage feeble once. But when at last the news came of the occupation of Richmond, and all the country was in a blaze of excitement, and men were hurrying to and fro in a delirium of enthusiasm, and enmities were reconciled, and friends sought each other to obtain in communion that expression of their joy which the solitary heart was not capable of, she hastened home from the thronged streets to that "little room all her own," to pour out her song of thanksgiving in the place where she had so often poured out her prayer and supplication, and to find in the companionship of God, that sympathy in her joy which others found in the hand-shakings and congratulations of their fellow-men. One such Christian I have known—but not many—very, very few!—*Laicus, in Christian Union.*

HOW TO TREAT CHRISTIAN GUESTS.

Rev. Dr. Prime tells the story of Christian hospitality he witnessed in a church he visited recently—how the wealthiest members of the church acted as ushers and took pains to see that all "strangers within their gates" were comfortably seated, he says: These gentlemen acting as ushers or door-keepers, were among the wealthiest and best known of our merchants and business men; any one of them could buy the church if it were in the market. I noticed one of them conducting a poorly-clad young woman, who might be a 'deserted sewing girl,' up the middle aisle. She had come for the bread of life. She had no money to buy the Gospel with anywhere, and why should she not have the crumbs that fell from the rich men's table. Unknown, and perhaps expecting to stand with the gates of Zion, but willing to stand anywhere for the sake of hearing the word, she had come to the church, and was among the crowd at the door. The rich man, in goodly apparel, singled her out from those waiting to be seated, and led her up to one of the most eligible pews in the house; two or three gentlemen came out of their places and let her in, and she was as pleasantly seated to her as any lady in the congregation, and all this was done so much as a matter of course, that the humble individual thus waited upon, would be just as much at her ease as in the homes of her kindred and friends.

"When all the pews were filled, camp-stools were brought in by the sexton, and as fast as they were placed were filled. Every campstool had a back to it. In some congregations a stool is a stool, and nothing more. To put a sinner on such a thing may be well, if you would punish him for his sins. But to put a sinner or a saint on a chair without a back, and expect him to hear the gospel for an hour, with comfort and edification, is too much to expect without miraculous interposition. The human heart may be very hard and the neck of the wicked stiff, but men's and women's backs are not hard nor stiff enough to bear such penance as is imposed when the sufferer is compelled to sit bolt upright for an hour and a half on a stool without support. Having suffered it, I know. A few Sundays ago I was on such a stool of repentance in church; and I did repent—of coming to church—and determined not to go again, unless with a prospect of better things than a stool in the aisle and the sharp point of a pew door scroll sticking against a spinal column. It is a very small matter for a rich congregation to provide comfortable seats for strangers. You would not ask a gentleman coming to your house to take a seat on a backless bench, so you ought not to offer such hospitality to strangers coming to your place of worship."

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

" 4 Express.....	6:30 "
" 8 Mixed.....	9:45 "
" 2 Express.....	6:15 P. M.

GOING EAST.

No. 1 Express.....	11:10 A. M.
" 7 Mixed.....	9:40 P. M.
" 3 Night Express.....	12:35 A. M.

Montreal Time.

Daily Intelligencer.

BELLEVILLE, SATURDAY, JANY. 21.

THE EUROPEAN CONFERENCE.—M. Jules Favre has asked for a safe conduct through the Prussian lines, in order to attend the conference in London.

FREE GRANTS.—The lands in the Townships of Clarendon, Palmerston and Miller, in the County of Frontenac, and Abinger and Denbigh, in the County of Addington, are open for location as free grants, and Elisha Playfair, Esq., has been appointed Crown Land Agent for the district.

LONDON SOCIETY.—The January number of this excellent English Magazine of light literature has been laid on our table by Mr. Harrison. The contents are varied and interesting as usual, the illustrations being profuse and excellent, and an improvement in this latter respect is promised.

THE MACDONALD TESTIMONIAL.—The Macdonald testimonial is assuming magnificent proportions, and is said to have reached already $30,000. Up to the present time but a few places, comparatively, have been canvassed. When the general committee have completed their arrangements the sum to be invested to the credit of the testimonial will reach, in all probability, $125,000.

ILLUSTRATED NEWS.—The outside pages of the *Canadian Illustrated* are this week entirely devoted to illustrations, some of which are of a superior order—that of the ex-Empress of the French being peculiarly beautiful. The other full page illustration of a snow-shoeing party is spirited and life-like. We are glad to see the paper maintaining and even improving upon its former excellence.

BILLIARDS.—A correspondent of the *New Nation*, Paton, gives his opinion of Billiards in the following style: "Our quiz, "town has for several years been peculiarly "blessed with the absence of this most de-"grading, most sinful, most accursed game, "*billiards*. But we can no longer boast of "a town free from this demoralizing insti-"tution." That man has not an exalted opinion of billiards.

REV. R. W. PEARSON, OF MONTREAL.—The press notices in the most favorable manner the above-named gentleman, who is to lecture for the Young Men's Christian Association, on Thursday evening next. The 'Quebec Chronicle' says: "The Rev. R. W. Pearson's popular lecture on 'John Knox' attracted a large and appreciative audience. The lecturer's admiration for the great Reformer has evidently caused him to study his subject thoroughly, to consult the pages of history with the keen analysis of the historian, whilst the language used by him in describing Knox's character at the different periods of his eventful career, was of the most finished and choice description. The peroration was one of the finest bursts of eloquence ever listened to in this city and was thoroughly appreciated."

Dominion Board of Trade.

Much attention has been paid, in commercial circles, to the transactions of the Dominion Board of Trade, which met in Ottawa on the 18th inst. The attendance numbered some 20 gentlemen, representing the following places: Montreal, Toronto, Quebec, St. John, N. B., Belleville, Hamilton, London, Kingston, Windsor, Brantford, and Stratford.

The Hon. John Young, of Montreal, President of the Board, introduced the first subject for discussion—"The best means of cheapening the transport of produce between the West and East, by means of the St. Lawrence route." He strongly advocated the enlargement of the Welland and St. Lawrence canals. The subject was discussed by different gentlemen at great length, the fact being elicited that the above named canals were now worked to their fullest capacity, and that it would be necessary to enlarge them in order to accommodate the growing traffic. Mr. Neilson, of Belleville, gave it as his opinion that the Welland canal only needed enlargement, the St. Lawrence canals being sufficient to accommodate the present trade. A motion was carried, asking the Government to enlarge the St. Lawrence, Welland, and Grenville canals, and to construct the Sault St. Marie canal.

A motion, recommending the compulsory inspection of butter, fish, lard, oil, &c., at the great receiving markets of the Dominion, was carried.

The subject of 'protective duties' was next discussed. Mr. Robertson moved a resolution, "That the necessary revenues required by the Government are so great as to afford all the protection required, and that instead of adding to the present tariff, the duties should be gradually reduced as fast as the exigencies of the country will permit." After considerable debate this motion was carried.

Mr. M. P. Ryan, of Montreal, moved that a petition be presented to the Dominion Government, praying for the repeal of the duty on grain, coal, flour, coke and salt. The resolution was carried, after the word 'salt' was struck out.

Resolutions respecting the difficulty of enforcing judgments endorsed for one Province in another Province; for the assimilation of the currency; respecting the construction of the Caughnawaga canal; urging the necessity for a Dominion Pacific Railway; thanking the Minister of Finance for the removal of the silver nuisance, &c., were carried.

The last sitting of the Board was held on the 20th., the subject discussed being the question of railway freights. After considerable discussion, the following resolution was adopted: "that it is reported to this Board that a great discrepancy exists between our local and through freight and accommodation on the Grand Trunk Railway, and this Board recommend that such action be taken by its council as to remedy the evil complained of, so far as practicable." The Board adjourned, after appointing Ottawa as the permanent place of meeting.

Though the gentlemen assembled at the above meeting are, no doubt, for the most part, clear-headed business men, it must be borne in mind that they mainly represent the chief commercial cities of the Dominion, and show a determination to push their own interests, regardless of the industrial pursuits of the country generally. Their object is to secure an immense import trade by killing off the manufactures of the inland portions of the country by what means the whole business of the Dominion would pass through their own hands. By the repealing of the slight protective duties now imposed, our manufacturers would be driven from their own market by articles imported from countries with which we cannot compete in point of cheap labor, and the farmer would sell his grain just so much cheaper as the Yankees chose to direct. Blind to these consequences—blind to the inevitable drawback to the general prosperity we enjoy, under the present system of moderate protection, the above industrious gentlemen push forward their pet theories, forgetting that only now, in England beginning to realize the losses which, under the specious guise of an increase of trade, she has suffered for a number of years—the coin balance having been greatly against her.

What representation has Ontario, which, above all the other provinces, depends upon its manufactures and its agricultural resources, for its prosperity, upon this free trade convention—for it is practically little else—now sitting in Ottawa? Very little; the Toronto free traders being actuated by similar motives to those which possess the Montreal and other city delegations. In reality, the opinions of the majority of the members of the Dominion Board of Trade will have about as much weight as if they had remained at home, instead of travelling to the capital to express them. The sentiments of these men were known before; and, though often urged upon the Government in times gone by, our statesmen have never acted upon them; and there can be little doubt that such will be the case with the present Parliament, which has so frequently expressed its sense of the necessities and benefits of the present scale of duties.

In one instance only, did the Board seem alive to the interests of the country, in refusing to petition for a reduction of the duty on salt, the manipulation of our market by Yankee manufacturers on the first introduction of Canadian salt, having excited a strong feeling of disgust even amongst the grasping delegates from Toronto. The value of this branch of trade, with protection afforded for a few months, has been enormous, as in the countries of Huron and Bruce we have one of the richest salt regions on the continent, which only requires development to enable our manufacturers to drive competitors out of the markets of the Dominion, and retain the profits of the trade amongst our own people.

—An Indiana mother thought she spied a courting couple by removing the light.

Ontario Legislature.

TORONTO, Jany. 20.

COURT OF CHANCERY.

Attorney-General Macdonald introduced a bill providing for the appointment of a referee in Chancery Chambers.

AID TO RAILWAYS.

In reply to the member for South Bruce, Atty. Gen. Macdonald stated the Government would bring down its promised measure granting aid to railway enterprises as soon as it was definitely ascertained what amount would be required. The estimates he said would be brought down toward the latter part of next week.

ELECTION EXPENSES.

The resolutions providing for the expenses connected with the trial of election petitions, and for more effectually preventing corrupt practices at elections, passed through Committee and were reported.

THUNDER BAY.

The Attorney-General introduced a bill providing for the organization of the territorial district of Thunder Bay.

SCHOOL BILL.

The debate was resumed on the School Bill—clause number five providing for the appoint ment of County Inspectors being taken up. The Hon. Mr. Cameron, to show the necessity of amending the law, in respect to the appointment of Superintendents of Education, read the following letter, which he said he had received from a local Township Superintendent:—

"DEAR SIR,—I have nothing much more favorable to give to my remarks than what I gave you in my last. There is built 3 schools in 1866. Some of them is in a very good state—others seame much retard in their progress owen to the improper teachers and trustees. I cannot prompt neither teacher nor trustees to keep their relistar wright. Some of the trustees has not got any learning and their parents are negligent. I have gave public lectures in seckshuns where they would give attention, if they wouldent give attenshun I lektured the teachers. Sir, I hope the time is not fore distant when the principals of learning will become more prevalent in our favoured land."

There was a very general expression of gratification at the introduction of this clause, which was pronounced to be one of the best in the bill, inasmuch as competent inspectors would succeed the present county and local, or township superintendents, who were not always of the best material. It was decided that the maximum number of schools to be placed under each inspector should be one hundred and twenty and the minimum sixty. The inspector will be paid $10 for each school inspected during the year, one half the amount to be paid by the county and the other half by the Government. The bill was advanced without particular amendment down to the twelfth clause. The latter, which provided for the payment of $4 per annum by each teacher for the purpose of establishing a superannuated fund for worn out teachers, was struck out by general consent.

County Court.

His Honor Judge Sherwood, to-day, gave judgment in the following cases:

ZOLLER vs. MASON.—Judgment for plaintiff on demurrer. Leave to amend pleadings granted to plaintiff.

CASEY vs. FORD.—Non-suit ordered, if plaintiff elects to take otherwise, his rule to set aside verdict for defendant discharged.

JELLETT vs. CHARD.—Rule absolute for non-suit as against defendant, Purly Chard. Verdict against other defendants to stand.

HANNAH vs. ROBERTSON.—Rule to enter non-suit discharged.

DAFOE vs. DRACUP.—New trial ordered.—Costs to be cost, in the cause.—

JACKSON vs. PALMER.—Rule to set aside verdict for defendant discharged.

GILBERT vs. THRASHER.—Judgment reserved.

An old Disinfectant.

The following receipt for manufacturing a disinfectant is worth preserving, because many of the ingredients can readily be procured in any part of Canada. Pine cones, juniper berries and tar, are readily procured. The efficacy of the disinfectant was tried at Moscow during a visit of the plague in 1771. The Government experimented on the criminal class. They were turned to practical use, because instead of being hanged or beheaded they were sent to the plague hospitals with a view of testing the efficacy of the disinfectant thoroughly. It was determined at the close of the year 1771 that ten malefactors under sentence of death should, without undergoing any other precautions than the fumigation of the powder, be confined three weeks in a lazarette, be laid upon the beds and dressed in the clothes which had been used by persons sick, dying, and even dead of the plague in the hospital. The experment was accordingly tried, and none of the ten malefactors took the disorder. The fumigative powder was prepared as follows:

POWDER OF THE FIRST STRENGTH.—Take leaves of juniper, juniper berries pounded, of each six pounds; common saltpetre pounded, eight pounds; sulphur pounded, six pounds; Smyrna tar or myrrh, two pounds; mix all the above ingredients together which will produce a 'pood' (40 lb. Russian, 36 lb. English avoordupois) of fumigation of the first strength.

POWDER OF THE SECOND STRENGTH.—Take southernwood cut into small pieces, five pounds; leaves of juniper cut into small pieces, four pounds; common saltpetre, pounded, four pounds; sulphur pounded, two pounds and a half; Smyrna tar or myrrh, one pound and a half; mix the above well together, which will produce half a 'pood' of the powder of fumigation of the second strength.

ORDINARY POWDER.—Take the root called katmus cut into small pieces, three pounds; frankincense pounded grossly, one pound; Smyrna tar or myrrh, one pound; common saltpetre pounded, one pound and a half; sulphur a quarter of a pound; mix all the above together, which will produce nine pounds and three-quarters of the odoriferous powder.

The following "remark on the power of fumigation" was appended to the above recipe:—"If gulacum cannot be had, the cones of pines or firs may be used in its stead; likewise the common tar of pines and firs may be used instead of the Smyrna tar or myrrh, and mugwort may supply the place of southernwood.

—Miss Motley, daughter of the late American Minister, was married on the 20th, in Frampton Church. There was a great display. Mr. Motley will shortly proceed to Holland.

Around Town.

The ball of the season—a snow ball.

The days are now becoming preceptibly longer.

Sleighing continues good, the influx of travellers and traders to-day being considerable.

The social at Rev. Joseph Wild's church last night was very successful, the church being crowded.

James Taylor, the celebrated comic singer, will probably visit Belleville during the coming week. He is sure of a welcome.

The County Council meets on Tuesday next, at the Shire Hall, for the purpose of organization.

Rev. Mr. Pearson lectures in Ontario Hall on Thursday evening next, subject "John Knox and his Times."

A horse, drawing a sleigh containing several sewing machines, ran away this afternoon and fetched up at Hon. R. Read's office. No damage was done.

The deposit of ashes on the public streets is a bad and dirty habit, and is indulged in to a great extent by some of the inhabitants on the principal streets. The police should see to it, and give the offenders warning to stop it at once.

The third annual ball of the St. George's Society is to take place on the 2nd February. For the past two seasons these popular events have been largely patronized, and it is to be hoped that this year's ball will add a goodly sum to the charitable fund of the Society.

No person who has visited our market on a Saturday but must have been struck with the want of accommodation in the building used as a butter market. This old structure, originally a store and dwelling house, answered well enough for a time; but the growth of trade has been so great of late years, that an improved and larger building is required and the Council take the matter in hand as suggested by the Mayor, and they will find the people willing to support them in any reasonable action they may take. A good butter market would repay the cost of its construction in a very few years.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

SATURDAY, Jan. 21st.

THE FISHERY CASE.

Church vs. Spencer, was brought up for judgment. Mr. Howell again appeared for the defence, saying he had received a lengthy document in reply to his letter to the Department. The Magistrate gave judgment in favor of the defendant, as he had made his net in accordance with the instructions of the Inspector, for the purpose of fishing for herring. Plaintiff to pay costs.

ASSAULT.

Edmund and Mortimer Reid appeared to answer a charge of assault and battery, preferred by their father, A. S. Reed.

Austin S. Reid, sworn.—Has a house and furniture near the Grand Trunk Station, for which he paid rent to Wm. Docter; his son Edmund told him when the rent was due, and it that day; prisoners lived as boarders with him; they are his sons; on Tuesday, 10th inst., found the door shut against him; this was in the evening about five o'clock; knocked at the door and was refused entrance; forced his way into the kitchen door; the two clinched him on entering, forced him out, struck and attempted to choke him; hit Mortimer on the side of the face; afterwards Mortimer threw witness down and jumped on him; did not draw a knife; called out "murder" and they ran; broke his artificial teeth in his pocket.

CROSS-EXAMINED.—Went to this house about the 23rd December; the family were keeping house there before that; never made any arrangements for renting it; Edmund never asked him to go to the house and stay; argued with his wife and she told him afterwards he must go away if he did not sign a deed; Edmund said witness must go away unless he stopped quarreling with his (witness') wife; the furniture was to be given to Mrs. Reid on quitting; on the night he was put out of the house he did not make any threatening demonstration towards them.

As summary procedure was not prayed for, the Magistrate sent the case for trial to the next Court of competent criminal jurisdiction.

Bail was accepted for the prisoners in $100 each, and one surety of $100 in each case. The prosecutor was bound over to appear.

Mr. R. P. Jellett appeared for the prosecution, and Mr. Dickson for the defence.

Profitable Book-keeping.

'Who has bought that handsome saddle, John?' inquired a saddle and harness maker, some time ago of his foreman, upon entering into the shop and finding that a very handsome saddle had disappeared.

'Indeed I cannot tell who it was, and the worst of it is, it has not been paid for. I was very busy this morning when a gentleman came in, asked the price of it, told me to charge it to his account, threw it into his vehicle, and drove off before I could ascertain his name. I am sure, however, he is one of our customers, for he has frequently bought articles here before.'

'That's a rather puzzling case, really,' said the master; scratching his head, 'and some mode must be devised to find out the purchaser and get the pay for the saddle. Aye, I have it, John; charge every one of our customers, who have accounts open, with the saddle, and those who didn't get it will, of course, refuse to pay, and in that way we shall reach the right one.'

John did as he was ordered; a few weeks after the Christmas bills had been sent out, the foreman was questioned as to whether he had found the purchaser. 'It is impossible to say, sir,' he replied, 'for about forty have paid for it without asking a word.'

THE SIEGE OF PARIS.—The complete park of siege artillery at present before Paris, for the purpose of reducing that city is as follows: 50 pieces, 50 lbs mortar, with 500 bombs each, 25,000; 80 do 6 lb breach loading cannon, 750 balls each, 60,000; 120 do 12 lb rifled cannon, 750 balls each, 90,000; 120 do long 24 lb cannon 750 balls each, 90,000; 20 do short 87 lb cannon, 1,000 balls each, 20,000; 50 do 32 lb cannon, 300 balls each, 25,000; total, 440 pieces of artillery, and $10,000 balls and bombs. Also, 6 rifled mortars which throw grenades of a weight of 300 lbs each.

To the Editor of the Daily Intelligencer.

SIR,—In your wood market cotemporary of the 20th inst., I find a learned criticism upon Professor Armstrong's Concert, in which the following sentence appears: "Prof. Arm-" strong then gave one of his *inimical* cornet "solos, which needs no comment." No, I should think "comment" was altogether unnecessary. I turn to Worcester's Dictionary and find that "inimical" means "*adverse*," "*hurtful*," "*pernicious*!" Professor! Professor! what sort of a solo was that which was pernicious? Is this not a "mean" and "spiteful" criticism! How's that, Professor?

QUIZ.

Belleville, January 21st, 1871.

Ever Factious.

The Toronto correspondent of the Montreal *Witness*, speaking of the debate on the School Bill in the Assembly, says:—

The Opposition cannot be altogether exonerated from the charge of factiousness in the course they are pursuing with regard to this measure, and it seems lamentably inconsistent to hear *professed* liberals of the strictest sect arguing against compulsory education, and the introduction of scientific studies in our schools.

But under such circumstances the word "Reform" is only used as a decoy-duck, whereby to gull people who are content with a name, no matter what contrivance it may cover. When the Ontario Opposition comes to be written up it will be found that they have been more steady opponents of reform than were the most inveterate of the historical tories.—*Free Press.*

News Condensed.

—The Pope is said to be an excellent billiard player.

—Base ball on skates is the latest sensation in New York.

Belleville, Jan. 16, 1871. 219-tf

The War in France.

The news conveyed by the midnight report is of an important character, showing that Bourbaki, in attempting to raise the siege of Belfort, had been totally defeated in a two days' battle. The French losses are reported at 7,800 killed and wounded. Bourbaki's army has, in consequence, begun a retreat southward, though without any serious pursuit.

Faidherbe's army is still advancing, having occupied several towns which were evacuated by the Germans on the approach of the hostile forces.

The German Empire.

PROCLAMATION BY KING WILLIAM—PEACE, FREEDOM, AND CIVILIZATION.

LONDON, Jan. 18th (8:30 p.m.)—King William has issued the following proclamation at Versailles on the occasion of his assumption of the Imperial Crown. He says:—"In consequence of the appeal of the German Princes and of the free towns to us to restore to the German Empire after a lapse of sixty years, we announce that we consider it our duty to the Fatherland to accept the Imperial dignity. Henceforth we and our successors will bring to the title of Emperor of Germany the hope that God will vouchsafe a blissful future to the Fatherland and that under our auspices its ancient splendor may be restored. We partake of the dignity, conscious of our duty to preserve with German fidelity the rights of the Empire and of its members, to maintain peace and to support and strengthen the independence of Germany in the hope that the German people will reap in lasting peace within our boundaries the fruits of their bloody battles and be safe against the renewal of French attacks. God grant that we and our successors may protect the Empire not by warlike conquests but by works of peace, freedom and civilization."

Bourbaki's Retreat.

Emperor of Germany.

Prussia and Austria.

Paris Provisioned till March.

French Driven from the Swiss Frontier.

Siege operations at Paris.

LONDON, Jan. 19.—Bourbaki has retreated from Mont Bellard to Clamart. There was no pursuit.

BERLIN, Jan. 19.—The President of the Upper House of the Prussian Diet sent a telegraphic despatch to Versailles, congratulating King William on assuming the Imperial Crown. The Emperor replied by telegraph, returning thanks and predicting a glorious future for Germany. The Lower House adopted a congratulatory address to the Emperor, the Polish members only abstaining.

MUNICH, Jan. 19.—In the Lower House today, Herr Von Bray made a speech, in the course of which he declared he could not but rejoice over an alliance between Germany and Austria, as it was the sole means of realizing the great German idea.

LONDON, Jan. 19.—The Parisians claim that they have provisions sufficient to last into the middle of March.

BERNERET, SWITZERLAND, Jan. 19.—The German troops on the 18th captured the village Abbevillers, which was in flames at the time, and have expelled the French from all their positions on the Swiss frontier. The latter are retreating on Blamont and fort De Hold. The inhabitants are fleeing into Switzerland.

VERSAILLES, Jan. 18.—The batteries on the south-west of Paris advanced to within 800 yards of fort Montrouge, which replied yesterday with one gun on the west front only. They resumed firing with two guns at long intervals.

Accounts from Paris represent terrible damage and suffering caused by the bombardment. Shells have fallen within St. Louis on Liste. There has been no sortie for the last 36 hours. The ground is slippery outside. The lines have been reinforced. The French outwork at Ville Juifu, silenced at the beginning of the bombardment, has broken out again, and four long reaching guns there are doing wild shooting over the batteries, making it uncomfortable for travellers.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 20, (midnight)—The Right Hon. James Stanfield, one of the Secretaries of the Treasury of the present Government, has delivered an address to the electors of Halifax, of which city he is a representative in the House of Commons. He announced therein that a Bill providing for the use of the ballot at elections in England will be introduced by the Government at the approaching session of the Parliament.

Stanfield advocated non-intervention on the part of Great Britain in the Franco-Prussian war.

A balloon has landed in Belgium with advices from Paris to the 18th. The bombardment was causing considerable damage, but the fires occasioned by it were easily extinguished. Some of the mills for the grinding of corn had been damaged, and the supplies of meat were, in consequence, obtained with great difficulty.

A despatch from Ardon says: The bombardment of Longwy by the Prussians continued vigorously for two days. Two hundred shells have already fallen in the town.

VERSAILLES, Jan. 17.—There has been a silence of 24 hours, with the exception of an occasional boom of Valerien. For three days the batteries have been slack. Various theories account for this singular cessation. Some insist that negotiations are pending.

The "Parliamentaires" came out on the 15th. It objects to the secret answer returned yesterday.

It is rumored that the Germans have agreed on a four days' armistice. It seems the only plausible way to account for the almost total cessation of the firing. Rumors insist that the effect of the fire is unequal to German expectations. The batteries being re-armed, a general attack is said to be reorganized for to-morrow. Twenty-two batteries are now in position available for this bombardment. It is said General Trochu decided to commence sorties on the 20th, and to be continued incessantly unless peace is agreed on. On the side of the French Montrouge was active on the 15th; great firing on the 16th.

At the north several sorties were made on the 15th.

Thirty Mobiles wounded were found frozen to death.

The woods in front of Meudon have been cut off by the advance of the Sixth German Corps.

Several large guns on the road were stopped by the weather.

LATEST.

Overtures of some nature are certain, but there is good reason to believe they have failed. A bombardment of increased severity will recommence immediately.

LONDON, Jany. 20.—Severe skirmishing is reported in Franche Compte, in which the French claim the advantage.

General von Glumer telegraphs to Carlsruhe that the advance guard is in pursuit of the retreating army of Bourbaki, and that there would be a general advance along the whole line of the German army on the 19th. The Baden Brigade is marching to Severn.

Cheese quiet at 12c to 16c for common to prime.
Petroleum at 13¾ to 14c for crude and 24c to 25c for refined.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady WHO, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 35 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m:

The mind governs the muscles through the Nerves and Spinal Cord, as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of evils. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 per bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust, in all seasons or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1870. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold or over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A. S. PAGE & CO.
Belleville, Oct. 6, 1870. 134:tf

The Naughty Boy.

Let me spank him for his mother;
He is such a naughty boy;
He the baby tries to smother,
And he's broken Fanny's toy.
Of the doll I gave to Ellen
He has melted off the nose,
And there really is no telling
To what length his mischief goes.

Last night he put a cracker
Neath his Aunt Jemima's chair,
And he told me such a whopper
When I asked how it came there
Then when poor old Mrs. Toodles
Was just starting off by rail,
He tied her two fat poodles
Fast together by the tail.

It really is quite shocking
How one's nerves he really jars;
How he puts flies in one's stockings,
And cayenne in one's cigars.
You may guess that many another
Boyish trick he's daily at,
So I'll spank him for his mother,
As a tiresome little brat.

To Clean a Rusty Plow.

Take a quart of water and pour slowly into it half a pint of sulphuric acid. (The mixture will become quite warm from chemical action, and this is the reason why the acid should be poured slowly into the water rather than the water into the acid.) Wash the mould board (or any other iron that is rusty) with this weak acid, and let it remain on the iron until it evaporates. Then wash it again. The object is to give time for the acid to dissolve the rust. Then wash with water and you will see where the worst rusty spots are. Apply some more acid and rub those spots with a brick. The acid and the scourings will remove most of the rust. Then wash the mould board thoroughly with water to remove all the acid and rub it dry. Brush it over with petroleum or other oil, and let it be until spring. When you go to ploughing take a bottle of the acid water to the field and apply it every day to any spots of rust that may remain. The acid and the scouring of the earth will soon make it perfectly bright and smooth. If all iron work be washed over with petroleum as soon as we put our tools implements, and machines aside for the winter, it will keep them from rusting, and save a great deal of trouble and annoyance, to say nothing about depreciation and loss.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The place has many be a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined patriotism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees, in the remedy for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochnell Herrings, Sea Salmon, Labrador and North Shore Herrings, Cases Herrings, No. 1 and No. 2 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

Belleville, December 9th, 1870. 1884

The American Agriculturist,

FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AMERICAN AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with pla in, practical, original matter, including beautiful and useful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, on the Dooling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and useful educative knowledge and sound moral principles.

CIRCULATION.—TESTIMONY.—The circulation of the American Agriculturist (about 150,000) is so large that it may be furnished for the low price of $1 per year; four copies for $5; ten copies for $10; twenty or more, $1 each; eight copies, 10 cents each.

☞ Try it a year. ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have enlarged and otherwise improved it—it being now printed on new type from the hands of C. T. Palmer & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and science, and on political and commercial policies. Public questions are discussed solely on the public interests and in a tone of fairness and independent criticism.

THE COMMERCIAL REPORTS

The publishers fully recognize the supreme importance of accurate and full Commercial Reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unsurpassed by any in Canada, in point of fullness and accuracy of information to those interested. The paper published in the interest, the enjoyment of first-rate talent in this important department of literature will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, &c., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic News.	The choicest Literature, Anecdotes,

affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 when paid strictly in advance, and will also be furnished in the city, only by News Agents, to whom it is sent by express, at Two Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW,
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap I means. Well this individual, whose ideas of Means and Ends are somewhat hazy, has got the bump of IMITATION largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange supposition of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or business, that they have lately re-opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.
The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals now published. Every number contains sixteen pages of fine paper, and elegantly illustrated with original engravings representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading periodicals and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25. A splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free, on application. All business strictly confidential. Address
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.
For this purpose, no medium is so good as a first-class magazine.
We recommend to ladies, who desire one useful and sensible as well as fashionable,
DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.
It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.
It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and children's clothing.
It is always high-toned, and its contributors include some of the best talent in the country.
Its *Ladies' Club* affords valuable and useful information upon every subject.
It is the best magazine for the utilities and ornamentation of the household. It is the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.
It is the most enterprising of all magazines, and gives more than twice as much for the money.
It also offers a large and magnificent Parlor Steel engraving, 20 by 25 inches, entitled "The Picnic on the Fourth of July," free at $1.00 to each subscriber as a premium.
The engraving is all done in lines and stipple, from the original painting by Lilie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $15.00 will not procure another that will combine so much interest and beauty.
Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary inducements for clubs.
Subscription price, $3.00 per annum. Commence any time.
Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.
Address W. JENNINGS DEMOREST,
473 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont., by Messrs. T. & E. WHITE having purchased a proprietory interest in it. It will be published in the belief that the future of our country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and ably sustains* a periodical devoted specially to the interests of the farming community.
THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and we hope will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.
During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarson, of New York.
Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.
The attention of farm implement-makers, seeds-men, nursery-men, salt-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.
SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.
☞ $34 Large Octavo Pages for One Dollar.
SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies. Send for any number, at *Seventy-Five Cents* each, free of postage.

GABRIEL'S
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S GUTTA PERCHA LEVIGATED STOPPING, for preserving front teeth. Warranted to remain white and a fixture in the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop 20 teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth, and prevents the lime from them decaying their tartar. Price 2s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by Appointment to Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic Douraigin, and Toothache, and forms a most refreshing mouth-wash; has the surprisingly advantageous effect of purifying the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH can have them supplied in partial or complete sets, on Messrs. Gabriel's very system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.
Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Ontario Legislature.

THURSDAY, Jan. 19th.
The Speaker took the chair at 3:15 o'clock.
FREE GRANT TERRITORY.
Mr. BOULTER moved the following resolution:—
1. That in the opinion of this House, it is just that the original settlers in the townships, since declared *Free Grant Territory*, should receive patents for the lands upon which they have squatted, upon as liberal terms as those who have located upon lands under the Free Grant Acts of Ontario.
2. That locatees holding mill sites in such territories, should be compelled to build such mills as may have been agreed upon, within a certain time, or forfeit their claims to such mill sites.
In moving these resolutions, the Dr. said he had done so in behalf of the original settlers who had some years ago gone into the back townships of the province, to seek homes for themselves and their families, and had struggled hard against all the privations and difficulties incident to early settlements. While doing this for themselves, they had demonstrated the fact there were portions of our back country fit for settlement and that a large population could sustain itself there by agricultural pursuits. He stated in reference to the North Riding of Hastings, that it was one of the largest Ridings in Ontario, consisting of 24 surveyed Townships, having about 100 miles in length from north to south, and about 25 in width from east to west, while a few of the front Townships contained fair agricultural lands. Immediately to the rear of these, the mineral portion of the country is reached, which is rough and broken, and uninviting to the agricultural settler, but further to the north there are several Townships containing good tracts of land. These rear townships have been erected into free grant territory by the present Government. While the Free Grant Act furnishes free homes to all settlers locating upon lands in this territory since the passage of the act, it affords no relief to the original squatters who made settlements before the passage of the act. He considered the Government was under an obligation to these settlers, for many of them had emmigrated to this country years ago upon exaggerated reports of Crown Land agents, setting forth in glowing terms the advantages of free grants of land upon the Hastings Road. Many of these settlers after several years of toil upon these rocky free grants, and after having expended all their means, were compelled to abandon their lots, for the simple reason that they could not support life upon them, they were not so fertile and productive as they had been represented to be. In abandoning these old free grants along the Hastings Road, several of these settlers had gone further to the north and made settlements upon lands better adapted to their wants. Now these people having endured all the hardships of double settlement, and having been promised free grants before they came into the country, it is unjust that they should be compelled to pay for their land, just because they settled upon it previously to the passage of the Free Grant Act, while the recent settler comes in now, enjoys the benefit of the roads made by these same settlers, and obtains his patent free, upon performing certain settlement duties. He knew that the government had not been entirely unmindful of that section of the country. The old government of Canada had made the Hastings Road, and expended money on other roads running east and west. And the present Government after some hesitation had repaired these roads to a certain extent, and rebuilt some of the bridges and had extended the colonization road; but he must still contend for a further concession, and ask for patents for the first settlers, upon as liberal terms as are granted to recent settlers. Another grievance to the settlers in that part of his Riding was, that parties had located upon some of the mill sites, who were unwilling or unable to build mills suitable to the wants of the settlement, and prevented others from so doing. He knew of a large tract of good land in the Township of Carlow upon which there were a large number of settlers, and although living in a timber district, it was almost impossible for the settlers to obtain sawed lumber for building purposes, and yet there were two good mill sites on the York River, in the immediate neighborhood, the locatees of which would not build mills themselves, nor permit others to do so. Thus the settlement is greatly retarded while these mill sites remained unimproved. He knew that in more than one instance, the people had been compelled to hew out lumber to make coffins to bury the dead, to lay a floor in their houses, and enclose their barns. Another report reached him that a settler in the immediate vicinity of some lumbering operations, had cut down a pine tree out of which to make shingles for a house he was erecting, and while away to borrow a saw to cut it up, the lumbermen came and cut his tree into saw logs, and took it away from the settler, and as naught often appears to be right, in these remote parts of the country, the settler, as is often the case, being the weaker has to abandon his claim. He mentioned these circumstances in order to show some of the difficulties of the early settlers in obtaining lumber although living in the midst of the forest. He did not expect the Government to enter into the project of building mills, but he was satisfied the Government should insist upon those who build mill sites, erecting mills where they were required within a certain time, or forfeit the claim of the locatee; and tracts of land in the vicinity of saw mills should be withdrawn from the timber limits, and the logs thereon sold for the benefit of the settlers. He thought it the duty of the Government

to encourage the settlement of the country in every reasonable way, and he considered it only an act of justice that the concessions he now asked for should be granted. He had no doubt but that if the Government should concede the spirit of these resolutions, the settlers in all the Free Grant Territories in Ontario would feel that an act of justice had been done to them, and he trusted the House would see the necessity and justice of these resolutions. (Hear, hear.)

Hon. Mr. RICHARDS wished to treat all settlers fairly. With regard to mill sites as mentioned in the resolution, he had heard no complaint from the settlers on that head. He thought the case of the original settlers ought to be looked upon according to the circumstances under which they settled on the land. In his opinion, the men who went into the territory and bought their land and paid for it before the Free Grant Act came into force, had more claim to the consideration of the Government than the mere squatter. It would be unjust to the man who bought his land and paid for it, to be treated only in the same way as the squatter. The only Government regulation was that the price of land when the squatter first went into the bush, was 70 cents an acre. Now it was unjust to think that he should receive the same favor as the original purchaser, considering, moreover, that the price of the squatter's land had in many cases been reduced to 50 cents an acre. If the Government abated the squatter's arrearages, it would end in abating all that was owing to the Crown by settlers on Crown lands. A line must be drawn somewhere between the original purchaser and the squatter, or it would end in a course that would altogether undo the bargains that had been contracted between the Crown and the settlers.

Mr. MCKELLAR thought the motion was contrary to the rule of the House which provided that members shall not interefere in the financial matters of the country.—Were it not for this he would support the motion most heartily.

After some discussion on the point of order,

Attorney-General MACDONALD said that the Government had no objection to having the subject fully discussed, so that they might know the opinion of the members on this important question. The Government could afterwards raise the point of order.

Mr. LOUNT continued the debate. He said that no doubt there were many cases of hardship among old settlers in the free grant lands, but the working out of the proposition made by the hon. mover would bring about great confusion, because every one of the settlers who had paid up his dues had a full right to a refund of all sums paid up. Settlers in other parts of the country could claim the same favor, and there was no knowing where the matter would end. He could most cordially agree with the second resolution respecting saw mills. Great complaints were made by the settlers that they were unable to get their timber sawn, because mill sites were monopolized by large speculators, who did not build on them. He was, in short, in favor of settlers in this territory having their lands entirely free, and when the matter was brought up in such a way as to allow it to be dealt with, he would show his sympathy for them.

Mr. COCKBURN said the House should remember that parties had gone on lands without stipulating to pay anything, but anticipating the passage of a general Free Grant Act. He maintained that the Hon. Commissioner of Crown Lands should discriminate between cases. He had had many cases of hardship brought under his notice. He approved of the resolutions of the hon. member for Hastings. He thought settlers ought to be allowed to dispose in any way they chose of the timber from their clearings.

Mr. CURRIE thought the resolutions calculated to do great injustice to many in the country. It the principle of refunding principal and interest were adopted, the greatest of complications would arise. In nine cases out of ten the man who got behind in his taxes did so because of his laziness and imprudence. He knew of a lot of land on which there now was over $1,100 principle and interest due. If the Government remitted this amount, would they not in justice be bound to pay to the owner of the next lot the amount which he had paid, as well as interest upon money of which the Government has had the use.

Mr. FERGUSON was not prepared to agree with either the hon. member for Bothwell, or the hon. member who had just spoken. He did not think it right to expect the Government to go back and consider the circumstances of all who had gone into the wild woods many years ago. He thought the cases of the settlers in the free grant territory who had not paid up their purchase money or the interest on it, ought to be placed on the same footing as the settlers in other parts of the country.

Hon. Mr. MURRICK said less logic and more common sense would enable us to get along faster and handle the subject now before the House with greater advantage. For instance a merchant will now and again, in the course of business, be compelled to accept 50c in the dollar, being the best he can do. Is he therefore bound to return 50c in the dollar to each of his customers because the force of circumstances compels him to accept of half in some instances, must the same rule apply to all? Admit this principle, and where will it lead to? The Government would be obliged to go back and back to the very beginning. The only way to deal with cases of hardship is to deal with them on their merits.

Dr. BOULTER said he did not want the Government to make any remission. What he wanted was, that it would allow parties who went into the free grant lands a year or two before the Free Grant Act to pay nothing. The fact was, they would not pay anything whether the Goverament wanted them to or not, because they had it in their power now to take advantage of the Free Grant Act by changing farms. All he wanted was that they should be saved this trouble. Perhaps the first resolution was out of order, and, therefore, he would withdraw it. He did not believe the second was, and therefore, he would not withdraw it. Many cases of hardship occurred in this matter of mill sites.

Mr. RICHARDS said if any cases of hardship were reported to him he would deal with them.

Mr. MCDOUGALL bore testimony to the ills arising from the present system of mill sites.

Mr. Corby said that the condition of the small lumbermen on the rivers was that their mills were lying idle, and they could not get lumber to saw. It was a notorious fact that the boards required to help build up the village of Madoc were carted all the way from Belleville, although there was a river running past it.

Mr. Evans thought the surplus ought to be applied to relieving the settlers who were enduring hardships.

The resolutions were then withdrawn.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.	
" 4 Express	6:30 "	
" 8 Mixed	9:45 "	
" 2 Express	6:15 P. M.	

GOING EAST.

No. 1 Express	11:10 A. M.	
" 7 Mixed	9:40 P. M.	
" 3 Night Express	12:35 A. M.	

Montreal Time.

Closing and Arrival of Mails.

Daily Intelligencer.

BELLEVILLE, MONDAY, JANY. 23.

MADOC AGRICULTURAL SOCIETY.—The *Mercury* says at the annual meeting of this Society, the officers of last year were re-elected for 1871.

LECTURE.—Mr. J. B. Anderson will lecture to-night in the lecture room of the Bridge Street Wesleyan Church, on "Christian Temperance."

MADOC CHEESE FACTORY.—We learn from the Madoc *Mercury* that this factory will start in the Spring with 250 cows. The annual meeting on the 14th inst. re-elected the officers of last year. The Company have secured the services, as cheesemaker, of Mr. Tanner, of the Halloway Cheese Factory.

FATAL ACCIDENT.—The *Mercury* records the accidental death of Mr. John Bouck, an employee at Messrs. Page's lumbering shanty, on the 16th inst. He was engaged in loading logs on a sleigh when his crowbar slipped and a log crushed him against the sleigh.

THE CRAFTSMAN.—This Canadian Masonic monthly for January has been received. It contains a portrait of W. B. Simpson, Past Grand Master, and a large quantity of matter interesting to the brethren of the Order. J. J. Mason, publisher, Hamilton.

FOOT RACE.—A running match between N. Connors of Belleville and Jos. Pringle, of Napanee, for a stake of $10 a side came off this afternoon. The course was from 99 Front Street across the upper bridge around by the lower bridge to the point of starting. The contest was witnessed by a large number of people, and was won by Connors by about 100 yards, in 6 minutes.

THE FENIANS.—There is more trouble about the proposed ovation to the released Fenians just arrived at New York, and a Mr. Murphy, Collector of Customs at that port, is said to be in danger of losing that lucrative position. Still worse, a Washington correspondent—clearly no friend of Mr. Murphy's, states that Mr. Thornton has been asking explanations as to whether Mr. M. was to attend the Fenian reception in his official character.

THE CABLES.—The Newfoundland correspondent of the St. John, N. B., *Telegraph* writes as follows: The S. S. *Robert Lowe* has again come into our harbor after another failure in Cable fishing. She has had no trouble in bringing the cable to the surface, but the rough seas and the violent pitching of the ship caused it to part. She has left for a third trial, and has now changed commanders, being sent out this time under the charge of Captain Kerr of the Admiralty Survey, who has been for some years employed in conducting the survey of our coasts. He is an able officer and well acquainted with the soundings in Trinity Bay. Let us fervently hope that he may win laurels by re-establishing connection between us and Valentia, and causing the dumb cables to speak. Now that the cold has set in, there is a much better chance of getting a few days of calm weather than during December.

—Parliament is to be applied to at its next session to extend certain Acts of the late Province of Canada, so as to allow the Provincial Synod of the Anglican Church into reunion with it the Diocesan Synod of Fredericton. Certain rights of the parishes in that Diocese are, however revived.

Notes by the Way.

Within the last few years many of the villages in the back country have made rapid progress in population and wealth, and amongst them none have given more material evidences of prosperity than the village of Tweed. Surrounded by a good agricultural country, and having excellent water power privileges, it only wanted a liberal policy and push and enterprise to make it one of the first business places in the back country. Its present position shows what has been accomplished by this liberal policy and the right kind of enterprise, and if the people take advantage of their opportunities, Tweed is destined to become a place of considerable importance. Amongst the improvements gone on with during the last year or two we notice the following:

The first improvement which strikes the attention just as you come to the village, is a large and substantially built steam saw mill, on the shore of Lake Stoco, erected by Messrs. Jordan, Jellyman & Wright, at a cost of $6,000. The mill at present has only a mully saw, but it is the intention this winter to put in a full gang of saws. To the business of sawing lumber, they add that of making Cheese Boxes, and although the Mill ran only a short time in the fall, and is now shut down for the winter, they have made and sold over 5,000 boxes. The Mill was built under the direction of Mr. Robertson, of Belleville, and is run by a 40 horse power steam engine.

Mr. Jamieson has rebuilt his Saw Mill at a cost of $3,000. It now contains an upright and circular saw, which are running night and day, and is capable of turning out 20,000 feet of lumber every 24 hours. To this trade Mr. Jamieson purposes in the spring to add that of making cheese boxes. The mill was rebuilt under the superintendence of Mr. Ferguson, of Canifton, and reflects credit on the millwright for its great strength and the ease with which it works.

Mr. Wm. Wright has erected a large and commodious store on Front Street, for himself at a cost of $2,000. Its size is 24 x 54 feet, and is fitted up in first class style; it has a large safe erected in one corner of the shop, and for convenience, size and appointments, is one of the finest shops in the back country.

During the year Mr. Thos. McCann, merchant, has erected a neat two-storey double dwelling 36x36 feet, adjoining his shop. Mr. McCann has also within the last few years built a fine shop and dwelling occupied by himself. Both are neatly and substantially built, and are a credit to the place.

The new Wesleyan Methodist Church, of which the corner stone was laid in 1869 by the Hon. B. Flint, was seated and painted during the past summer, and is now in use. The building itself is of stone, 40x60 feet, and is an ornament to the village. It cost about $3,000.

The Episcopal Methodists have erected a new parsonage on Front street, and I am informed it is their intention to put up a new church adjoining the parsenage next summer.

Mr. A. A. McCallum has erected a handsome frame dwelling near his tannery, and has made several improvements to his tannery, amongst which is the addition of a new steam engine.

Adjoining the tannery Mr. William Garrett erected last summer a foundry, the machinery of which is run by the same engine that works the tannery. He has just commenced operations and bids fair to do a thriving business.

Mr. John Downing has removed a large building to the vacant spot adjoining Mr. Reid's store, and has put in a new front and fitted it up as a harness shop.

Mr. Jas. Onderkirk has completed a new dwelling for himself 21 by 25 feet, at a cost of $600.

Mr. Wm. Conner has the frame work of a new store to be completed next summer.

Mr. A. M. Vandusen has put a new and tasty front into the shop he built last year, and has constructed in the rear a first-class bakery, with oven and apparatus complete. He has now one of the neatest shops in the village.

Mr. Jellyman is making arrangements to put up a first-class dwelling for himself next summer, and several other substantial improvements are projected. From the liberal arrangements which Mr. Jamieson is making with those who desire to build or commence manufacturing, and from the very commendable spirit of enterprise manifested, there is no doubt that Tweed will, before many years, be one of the most thriving and prosperous villages in the County.

The "Cold Spell."

The "cold spell" set in in earnest Saturday night, and by 7 a. m. Sunday morning, the thermometer was 12° below zero. The temperature moderated but very little during the day, the thermometer being from 8 to 12° below zero until towards evening when it began to fall sensibly until about midnight, when it reached its lowest point, 25 below zero. Added to the intense cold, there was a piercing nor-east wind this morning, which made travelling either on foot or by vehicle anything but desirable.

The following meteorological statement by Mr. Burdon, furnished us this p. m., will be found interesting:

The temperature on

Saturday, 21st inst., at 9 o'clock p. m., was 27° .5, or 27½ degrees above zero.

Sunday, 22nd inst., at 7 o'clock a. m., was 12° .0, or 12 degrees below zero.

Sunday, 22nd inst., at 1 o'clock p. m., was 8° .5, or 8½ degrees below zero.

Sunday, 22nd inst., at 9 o'clock p. m., was 14° .0, or 14 degrees below zero.

Lowest Temperature during Sunday night was 25° .0, or 25 degrees below zero.

Monday, 23rd inst., at 7 o'clock a. m., was 23° .5, or 24½ degrees below zero.

Monday, 23rd inst., at 1 o'clock p. m., was 14° .3, or 14 3-10 degrees below zero.

The Barometer on Saturday, 21st inst. at 9 p. m., was 30.397.

The Barometer on Monday, 23rd inst., at 7 a. m., was 30.040.

—A car load of California cotton was shipped on the 17th for the Atlantic side.

—The Canadian fisheries are estimated at $50,000,000 a year, employing 80,000 men.

—The people of Bowmanville are discussing the prospects of a railway to Bobcaygeon.

French Correspondence.

ARBEVILLE, Dec. 31.

The circle of fighting and carnage increases daily, and seems to force further from view the prospects of peace. Germany claps her hands at the opening of fire on the outworks of Paris, imagining that this will be the end of the war, while France, exasperated at the commencement of the attack, cries louder for revenge, and brings fresh forces into the field. There are but two parties in France, one marching with the Government and another in advance of it, but both resolved to listen to no peace but on their own terms. 'If,' as George Sand has just written, 'France be doomed to perish she will die erect.' I never did expect this nation could be so united, but it is the truth, they are resolved to save or disappear with the country.

The army of the North has had to retreat from Amiens, where it fought fairly and was initiated into the miseries of a Moscow campaign. It now occupies a position behind Arras, and Manteufiel looks as if resolved to follow it up and strike a final blow. Victorious, the army must either surrender or cross into Belgium, Arras may by this have fallen into the hands of the invader; General Faidherbe has had to leave it to shift for itself. The arsenal is well stocked, and the defences will enable the Germans to defend their position and cover Amiens if not Rouen. In so far as being able to march to the relief of Paris, Faidherbe may be omitted from such calculation. Manteuffel's future movements must depend on the extent of his reinforcements. If numerous, and troops are being drawn in from out-lying places, it is very probable he will continue the offensive up to Lille. At Le Mans, General Chauzey and the Duke of Mecklenbourg will meet again in a few days, as both combatants are, by this, rested and reorganized, after the battling along the Loire. This engagement promises to be of a decisive character. The Duke has the odds against him in numbers and position, but he cannot allow Chauzey to break away to Paris. Prince Frederick Charles, about Orleans, is keeping an eye on Bourbaki and Garibaldi, who appear to threaten General Werder and the German communications on the east. The Prince is sadly in want of aid, and Southern Germany is rapidly sending forward troops. Thus as briefly as possible is the situation of the three sources of relief organized for Paris.

The capital itself is not inactive. Its recent sorties were characterized by great obstinacy and courage, and were undertaken in the expectation of working in with some army of deliverance—possibly Faidherbe's. The French officers fell thickly, and showed a contempt of death, that had its influence on their men. The troops displayed a bravery worthy to be recorded, in bivouacking for two days and nights with a temperature over eleven degrees below zero. But the circle of flesh and steel remained unbroken, and proved that the army of investment was fully prepared for every eventuality. The long-promised bombardment has opened, not on the city, nor yet on the forts, but on the earthworks in front of the latter. Mont Avron has been honored with the first attentions. It is situated about a mile and a quarter in front of the Rosny fort, and is a prominent eminence from the station of that name on the railway to Mulhouse. What is remarkable about the mount is, that the Prussians ever permitted the French to settle there. They must now take it at all cost, but then this brings them to the out-lying forts, which will likely exact a siege *en règle*—a sapping and mining with murderous interruptions. If the authorities at Versailles are convinced Paris has not food to hold out longer than six weeks, this attempt at bombardment is but a tub thrown to the whale,—the army, the Saxons particularly, who of all the allies are most afflicted with nostalgia. Until two of the forts be taken, and line permit the besiegers to escape a cross fire in approaching the fortifications proper, the city will in all probability not be shelled, nor will any decisive opinion of the inhabitants be expressed. Opinion does not change about Paris being impregnable. The story circulated about Trochu provisioning Mont Valerien, as a place of retreat for his picked army, when Paris becomes untenable, cannot hold water. It would be repeating the capitulation of Metz, and the Germans have not the slightest idea of accepting Paris, without the surrender of her encircling forts. They will leave the famine-stricken to arrange this matter with their defenders.

It appears that the frost and snow are favorable to aerial navigation, as the balloon mails have arrived frequently during the past week. Or, it may be owing to the light shed by the various balloon lecturers in the capital. The first item of news every one wishes to learn about Paris, is naturally that about the stock of provisions. The testimony begins to be very divided, if not contradictory, on this important matter—some asserting food is safe till the 1st of February, others extending the date till the end of March. The Government is inflexible in its orders as to rationing the necessaries of life, and resolved to take time by the forelock in being economical. While assuring the population that there need be no anxiety as to the supply of cereals, it announces that the population must henceforth accept brown or household bread. We all know such is nutritive and palatable, but your pure Parisian must have his loaf as white as snow. Another regulation has been put in force, that of not selling flour except on a medical certificate, which is intended for invalids and children. No one yet presumed to call in question the supply of wine and coffee, and the butchers, in addition to selling horse flesh, vend also coals, dried beans and peas, and preserved eggs. It may seem strange why butchers' shops are so transformed, but they are distributed over Paris in a ratio to the population, and are most convenient at the present crisis, as 'distributing offices' for public supplies. All the horses belonging to private persons in Paris in the city have been requisitioned for culinary purposes, and Baron Rothschild was the first to deliver up his magnificent stud. Only turtles have gone and done likewise. It is estimated that 40,000 horses are available for food. A simple question of arithmetic, if as the Government has ordered, the slaughter of 15,000 of the noble animals weekly, to give each inhabitant his allowance of a quarter of a pound without bone—the latter go to the public soup kitchens—fresh horse meat cannot last over three weeks. There is a good deal of oil in reserve, and on which many agreeably dine with bread and wine even now, but when the reserves of food laid in by private families become exhausted, the demand for state rations promises to test the total stocks in a manner not yet witnessed. The times for cat and dog dinners and rat truffins are over—even in itself a consolation for those who will return to Paris indeed all 'extras' and 'luxuries' are fast disappearing. Cold is severely felt. The authorities allow but five tons of coal per family—the permission is liberal—but the fuel cannot be had in such quantity. Never at any time had Paris a total supply of coal equal to five tons per household. Then the corn and gun factories must be supplied, even before frozen citizens. Wood is obtainable, but this is all that can be said of this fuel.—The deaths during the week ending the 14th December, were 2,455, a very high figure, even allowing for the season and the effects of the battle field. Small-pox is not on the increase, but fever and pulmonary disease are; these are the signs of the bad times coming. There is an increase relatively in the number of marriages; this extraordinary result is owing to many men who seek wedlock as the means of escaping marching to the enemy until the bachelors are killed off. Indeed, there are cases where husbands would dispute the position of bachelors to escape from wedded life.

NOTICE!

BY-LAW NO.—

A BY-LAW TO PROVIDE FOR THE AIDING AND ASSISTING IN THE CONSTRUCTION OF THE GRAND JUNCTION RAILWAY AND FOR THE ISSUING OF DEBENTURES THEREFOR FOR THE AMOUNT OF TEN THOUSAND DOLLARS TO BE GIVEN BY WAY OF BONUS TO THE SAID THE GRAND JUNCTION RAILWAY COMPANY BY THE MUNICIPALITY OF THE TOWNSHIP OF RAWDON.

BY-LAW No.—

WHEREAS the Municipal Council of the Township of Rawdon have determined to give as a Bonus the sum of Ten Thousand Dollars to aid and assist in the construction of the said Railway, subject to the provisions and conditions hereinafter mentioned, and it is necessary, in order to provide the said sum of Ten Thousand Dollars, to issue Debentures of the said Municipality to the said amount.

And whereas the amount of the whole rateable property of the Municipality of the said Township of Rawdon, irrespective of any future increase of the same, and irrespective of any income to be derived from the temporary investment of the Sinking Fund hereinafter mentioned, or any part thereof, according to the last revised assessment rolls of the said Municipality, being for the year One Thousand Eight Hundred and Seventy, was the sum of Four Hundred and Sixty-one Thousand Seven Hundred and Nineteen Dollars.

And whereas it will require the sum of Eleven Hundred Dollars to be raised annually by special rate for the payment of the said Debentures and interest thereon, as hereinafter provided.

And whereas the existing debt of the said Municipality is the sum of nothing for principal, and the sum of nothing for interest.

And whereas, for paying the interest and creating a yearly Sinking Fund for paying the said sum of Ten Thousand Dollars, as hereinafter mentioned, it will require an equal annual special rate of 2½ mills on the dollar, in addition to all other rates to be levied in each year.

The Municipal Corporation of the said Township of Rawdon, therefore, enacts as follows:

1. That a Bonus of the sum of Ten Thousand Dollars be granted to the Grand Junction Railway Company subject to the terms and conditions hereinafter specified.

2. That in order to procure the said sum of Ten Thousand Dollars as aforesaid, the Municipal Council of the said Township of Rawdon shall issue Debentures of the said Corporation to the amount or extent of the said sum of Ten Thousand Dollars, to be sealed by the Corporate Seal of the said Municipality and signed by the Reeve and Treasurer, and for one of any such Debentures shall be for a less sum than ($100) One Hundred Dollars.

3. That the said Debentures shall be made payable in twenty years from the day hereinafter appointed for the By-Law to take effect, at the office of the Treasurer of the said Municipality, and shall have attached thereto coupons for the payment of the interest thereon.

4. That the said Debentures shall bear interest at the rate of six per cent per annum, which interest shall be payable half yearly, at the office of the said Treasurer.

5. That for the purpose of forming a Sinking Fund for the payment of the said Debentures, and a fund for the payment of the interest thereon, at the rate aforesaid to become due thereon, an equal special rate of 2½ mills on the dollar shall, in addition to all other rates, be raised, levied, and collected in each year, upon all the ratable property of the said Municipality during the continuance of the said Debentures, or any of them, or any portion thereof.

6. That the said sum of Ten Thousand Dollars shall and may be paid the said the Grand Junction Railway Company as hereinbefore mentioned, in such Debentures, or in such proportion of Debentures and cash, as hereinafter mentioned, as may be agreed upon between the said Company in payment of such Bonus at par value.

7. That in the event of any Trustee or Trustees being hereinafter appointed by the Legislature for the receiving of and holding of moneys or securities for moneys, awarded by way of Bonus towards the construction of the said the Grand Junction Railway, the said Reeve shall within six weeks after the final passing of this By-Law, or within six weeks after the passing of such legislative enactment, whichever shall last occur, hand over and deliver such Debentures to the said amount of Ten Thousand Dollars to such Trustee or Trustees to be by them held and paid over and delivered to the said Company in accordance with, and subject to the provisions and conditions of this By-Law and not otherwise.

8. That no part of the said sum of Ten Thousand Dollars, nor any of the said Debentures, shall be issued until the different Municipalities along the route of the said Railway, with other Municipalities and other subscribers for Stock in said Company, shall, by the subscriptions of Stock or the granting of Bonuses, have lawfully given to, and in aid of the said Railway, a Bonus which, together with the sum hereby granted, shall equal the sum of Two Hundred and Fifty Thousand Dollars.

9. That a Station shall be erected at or near the Village of Stirling; that is to say, within one mile of the Main Street, North of said Village.

10. That the issue of the said Debentures or the payment of any sum to be realized therefrom by the said Corporation to the said Railway Company, shall be subject to the terms, conditions, and stipulations of any act of the Parliament of Ontario in that behalf.

11. That Debentures to the amount of Five Thousand Dollars be delivered to the said Company when the road is graded through the said Township of Rawdon, and the remaining Debentures of Five Thousand Dollars shall be delivered to the said Company when the Rolling Stock is put on the said the Grand Junction Railroad.

12. That the votes of the Electors of the said Municipality of the said Township of Rawdon, shall be taken on the said proposed By-Law on the 20th day of February, in the year of our Lord One Thousand Eight Hundred and Seventy-One, at the Town Hall, in the said Township of Rawdon, the poll thereof opening at nine o'clock in the morning and closing at five o'clock in the afternoon of the same day, said votes to be taken by and before the Returning Officer hereinafter mentioned, who is hereby authorized thereunto; that is to say, Alexander Sills, Township Clerk.

13. That the By-Law shall take effect and come into force on the 23rd day of February, in the year of Our Lord One Thousand Eight Hundred and Seventy-One.

NOTICE.

TAKE notice, that the above is a true copy of a proposed By-Law which will be taken into consideration by the Council of this Municipality after one month from the first publication of the *Intelligencer*, the date of which first publication is Friday, the 20th day of January, A. D. 1871, and that the votes of the qualified electors of the said Municipality, will be taken thereon, on

MONDAY, the 20th day of Feby., A. D. 1871,

Commencing at the hour of 9 o'clock in the forenoon, at the Town Hall, Rawdon.

The War in France.

The latest despatches are nearly all from Prussian sources, and therefore give the most favorable view of the operations of the invaders. From those it seems that while Chauzy is hopelessly cut off from Paris, and Bourbaki foiled in his design for the relief of Belfort, the other French force—the army of the North—has sustained a defeat near St. Quentin. While marching northwards, Gen. Faidherbe was met by Gen. Von Goeben, and after an obstinate battle, lasting seven hours, was forced to retire with a loss, according to the telegram of the Emperor William to the Empress Augusta of 4,000 unarmed prisoners and two guns. The other side of the story says that the French retreated after an obstinate and bloody battle.

It is asserted there was a cessation of firing around Paris during the early part of last week, and there were rumors that an armistice had been agreed upon, or that negotiations towards that end were in progress. Other reports state that the Germans were simply getting new and more powerful guns into position, the results of the bombardment not being up to their expectations. Twenty-two batteries are said to have been fully prepared for the dreadful work.

The batteries of Meudon and St. Cloud have been advanced to the line of fortifications, and heavy mortars have been placed in position. The Prussians state their fire has been very destructive, and has reduced Fort D'Issy to ruins. A Prussian patrol was pushed into that fort and found it unoccupied, but seeing evidences of mines and torpedoes, the patrol prudently returned.

The French made a sortie on the 16th from between Forts De l'Est and Aubervilliers, near St. Denis, on the northern line of the defences, but after fighting two hours they were repulsed. They made another sortie on the 19th in greater force, but the Emperor William states it was "entirely resultless." The French troops are said to be still outside the walls, and another engagement is anticipated.

Tours has at last been occupied by the Germans, the inhabitants quietly submitting to the conquerors. Longwy, a fortified town on the Belgian frontier is reported to be in flames from the bombardment, but it is not certain, as a heavy fog prevailed.

Morning Despatches.

Luxembourg and Prussia.

Faidherbe in Full Retreat.

LONDON, Jan. 21.—Prince Henry of Luxembourg, replying to the despatch of Bismarck, notices the pledge made on the part of the Prussian Government not to base any accusations on irresponsible acts, and he promises to investigate the alleged breaches of neutrality. This note has been sent to the signatories of the Treaty of 1867.

CAMBRAI, Jan. 20.—Faidherbe has arrived here with his staff. The army of the North is in full retreat.

The Prussians shelled St. Quintin before its evacuation, firing the houses in several places, and causing great consternation.

American Despatches.

Sir John Rose in Washington.

The Fishery Question.

More Yankee Buncombe.

Klu Klux Outrage.

WASHINGTON, Jan. 22.—Sir John Rose, formerly Financial Minister of Canada, has been here for the past fortnight as a qual secret agent, for the purpose of ascertaining the views of the Government and public men on the fisheries difficulty, and generally the questions between the United States and Canada. His mission is considered as of very slight importance. Gen. Schenck will be fully instructed as to the views of the executive regarding the fisheries question, and it is not proposed at this time to take the matter out of his hands. Mr. Rose has found a strong feeling here in favor of adjusting the question with Canada by annexation, if the Canadians are as anxious for their settlement as his visit is construed to indicate.

NEW YORK, Jan. 23.—A Washington special to the *Tribune*, says: accounts were received here on Sturday, giving the particulars of a terrible Klux outrage at Louisville, Jefferson County, Georgia, on the 14th inst. A party of masked marauders rode to the jail broke it open, and took therefrom nine colored persons, five of whom had recently been convicted of offences, and were serving their terms of punishment. The other four were awaiting trial. The victims were taken a short distance from town and unmercifully whipped. From seven of them, the ruffians cut off one ear; from the eighth, both were taken off and their ninth was brought back into the town, and there shot receiving nine wounds most of which were fatal. The others were turned loose. None of the marauders have been arrested.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

Montretout Captured by the French

Germans Recover their Position.

National Guards won't Fight.

The French Withdraw into Paris.

French Losses at St. Quentin.

Germans Re-occupy Cambrai.

VERSAILLES, Jan. 20.—Under cover of a dense fog to-day, the French troops were again massed near fort Mont Valerien, but nothing further was attempted.

The Prussian position at Montretout was taken by surprise by the French yesterday, but was subsequently retaken by the Prussian ninth division. The total German loss in both affairs was 30 officers and 200 men.

The prisoners taken by the Germans say there are to be other attacks upon the investing lines, but they assert positively that the National Guards will not fight.

LONDON, Jany. 22, 6 p. m.—The Emperor William telegraphs to the Empress, under date Versailles, Jany. 21: "Yesterday the enemy entirely withdrew into Paris. Fifteen officers and 250 men men were captured at St. Cloud. The number of unwounded prisoners captured at St. Quentin is 9,000, besides 2,000 wounded captured in the town. The total loss of the French is 15,000. The enemy has withdrawn to Valenciennes and Douai. We have again occupied Cambrai."

Pork firmer at $22 75 for new mess; $22 00 for old mess.
Lard firmer at 12c to 13c for steam; 13¾c for kettle rendered.
Butter steady.
Cheese quiet.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has unfailingly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No mother who has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m:

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * *
I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

The mind governs the muscles through the Nervous system, as the telegraph apparatus is influenced by the electric operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of ills. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.
C. H. GARDINER,
Principal of Roager's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.
T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every property holder in this vicinity to patronize Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, vs James D. Davern, Robert Weller and Charles Davis, Defendants; and David Piccadilly and Thomas Kelso, Plaintiffs, vs. J. D. Daverń, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-fourth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1854, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

Belleville, Oct. 6, 1870. 134:tf

The Soldier's Dream of Home.

Tears! tears! they gather as I gaze—
The soldier dreams of home—
The moon shines on his upturned face,
While blessed visions come;
But oh! the heart's light beams o'er all—
He hears his wife and children call.

He sees anear the humble cot—
The harvest sheaves around—
The pet goats browsing on the hill
With purple heather crowned;
The shouts of welcome reach the plain,
The soldier is at home again.

They fly to meet him, to his breast
He folds again his own;
His cheaden's soft and loving arms
Around his throat are thrown;
Her bright lips to his own are pressed;
In dreams the weary soldier's blest.

The pretty bird, his little 'Jean,'
Born since he left the nest,
Stands tiptoe, dimpling by his side,
And waits to be caught;
With outstretched arms we Donald flies:
'Thank God for this!' the soldier cries.

Faded! and was it but a dream?
Did not his spirit meet
The darlings by his mountain home,
And list the welcome sweet?
Oh! when the last long sleep came o'er
Did he not clasp them as of yore?

Surface of Mulch Manuring.

For the reason that nature applies her fertilizers upon the surface and does not plough them under, it is about time that agriculturists should consider whether they or Nature are right when they differ so radically in their practice. Does Dame Nature make a mistake when she sets out to enrich a continent by spreading dead leaves, twigs, trunks, grasses and weeds over the whole surface for years? Does Nature mistake when she interposes a leaf before the beating rain drops, and saves the earth from being pounded into the semblance of a brick—keeps the soil light and porous that the air carrying its ammonia and its carbonic acid may penetrate to waiting roots below? Is she doing wrong when she lays a mat of decaying humus over the soil and only allows the searching June sun to get to the earth as a gentle heat, capable of drying up the moisture held there by the mulch? Or are we wrong when we hide away our fertilizers at the bottom of a furrow, and leave the surface bleak and bare to be beaten down with the rain and baked with the sun, and in that condition to refuse the good gifts which the air willingly to yield up to a mount and porous soil?

"Tired Nature's Sweet Restorer, Balmy Sleep."—But there are times when this "Restorer of Strength" is not, and times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." Dr. Piso's Cure Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Christmas is Coming!

James BROWN has now received his Stock for the winter. Now London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochinvel Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 48 pages, well printed, well filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a calendar of Operations to be performed on the Farm, in the Orchard and Garden, on the Dwelling, etc.

It is prepared by practical intelligent working men, in the Household Department, by a lady of long experience in Housekeeping.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate useful knowledge and sound principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 500,000 copies) is such that it can be furnished for the low price of $1 50 a year; 3 copies for $3; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, having removed to Montreal are now the proprietors of the *Gazette*, have greatly enlarged and otherwise improved it. They have now printed on new type from the foundry of C. T. Palmer & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and Agriculture, American and European politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and early financial reports in a newspaper aspiring to the leadership in the great commercial centre of the Dominion, and have given special attention to this department. Not only will make the commercial columns of the *Gazette* immensely valuable to merchants, but the news and accuracy of information to those of any other paper published in this city. By the use of the Atlantic cable, first-class talent in the important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, police, commerce, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for
The ablest Editorials. The best Local News.
The most reliable Commercial Reports. The most reliable Legal Intelligence.
The fullest Telegraphic Despatches. The choicest Literature,
Allowing to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same, it will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating ingredients of Sarsaparilla) discovered by Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most active principles of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Flesh, Life-making medicine are selected and used in the fresh crystal state in the proper season, from the native soil, under the supervision of the highest skill—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no impurities or effete principles can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the secrets and ingredients of extracting from their roots and herbs that the wonderful improvements it has secured in the curative powers of Dr. Radway's Resolvent, more especially the

SARSAPARILLIAN RESOLVENT,

long for the healing power and over again; for none in the history of medicine was such a medicine that so completely builds up, renovates and makes pure, strong, healthy, vigorous, and beautiful within, the sound and healthy glorious constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Is the wasting body through the
SARSAPARILLIAN RESOLVENT
it supplies the blood with nourishment.
IT CONTAINS THE ESSENTIAL ELEMENTS AND FLESH-MAKING QUALITIES.
it makes the system with caloric or heat-making properties.
it cures all Scrofulous and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin, and body.
it increases the weight and appetite.
IT STOPS ALL LOSES BY EARNING DISCHARGES.
it insures the repairs and diminishes the waste.
it eliminates the products of decay.
it resolves Tumours, Nodes, Hard Lumps.
it makes the skin clear and beautiful.
it heals Fever Sores and Ulcers.
it cures Coughs, Colds, Sore and Stricture.
it makes the water clear and pass freely.
it cures Diabetes, and invests with the vigour of manhood those who, from weakness or disease, are deficient in sexual power.
it excites action from the perils incident to change of life—cessation of the courses.

To those who need a Health.

There is not a man, woman or child, however rested by disease, if their systems are still in a condition to be reached by medicine, and Dr. Radway's LIVER, KIDNEYS, and other vital organs not wasted beyond the point of repair, or if capable of retaining the reparative power of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the process of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions destroyed, cannot always be relieved beyond the reparative power of medicine, may, and will, by the use of Dr. Radway's Sarsaparillian Resolvent, enjoy positive perhaps for years; for no matter how low the vital forces may be reduced, if the powers are not under the influence of this tissue and flesh-making medicine, such a repairs will be greater than the waste and the BLOOD WILL receive that high degree of purity and richness of nourishment to sustain it to hold its healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, ULCERATED STOMACH, and the poison of Venereal, are developed through the process of decay. Those who have Scrofula in the blood, Cancer in the Bladder or Cellular Tissue; and these diseases, in their most rapid stages, can be cured, if not curedby the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will, after a short, marked change in his health for the better after taking the Sarsaparillian Resolvent. The blood becomes more pure, rich, strong, and 'sour stomach' and indigestion, with its long train of consequences, the deposits of Tuberculous matter are either clensed and thrown off, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secure the healthful power to throw off impurities of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to so act each organ or secreting gland in discharging its proper functions, health can never be restored; hap pily for suffering humanity, Radway's Sarsaparillian Resolvent assures this important want that no beneficial effect is all these remedial agents advertised as Blood Purifiers.

Dr. Radway has deeply tested or engrafted in the tissues, cartilages, glands, organs, or bones diseased and corruptive matter may be, the influence of this powerful agent on the blood and other fluids that supply the life-giving and sustaining principle to every system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply in its place wholesome and living structure, nourished by rich, pure, and strong blood. By the remedial agent which the Sarsaparillian Resolvent was on the substances taken into the stomach during its process of digestion and assimilation, changes long as it is made blood, as well as the nourishing constituents of the blood, and its power to act upon and when entering in the circulation, it exterminates the germs of virus from the blood, and the system every all deposits of disease, whether caused by the scrofulous or syphilitic poison, or mineral disease, or Mercury, Corrosive Sublimate, &c., the Corrosive Poison of Mercury, Colomel, and other agents, that may have accumulated in the bones, tissues cartilages, or joints, or from any cause whatever family complaint this may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncures and basely treated Venereal in its many forms Glandular Diseases, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Rheumatism, Fever Sores, Scald Head, Ringworm, Salt Rheum, Scurfiness, Acne, Blotches, Acne, Worms in the Flesh, Tumors, Cancers in the Womb, Stomach and Bowels, and ulcerated Discharges, Night Sweats, Loss of Appetite, all weaken by the Life Principle are within the curative range of Dr. Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person taking it for either of these diseases or disease, its potent power to cure them.

Ducured Venereal—Gleet, Gravel, Stricture and all Diseases of the Urinary and Sexual Organs, Bladder, Kidneys, Womb, Dropsy Diabetes, and all who are incommoded by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Demers, St. Timothee, Cour de Beauharnois, Canada East, had for nine years TWO LARGI ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most eminent doctors in Montreal and other parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, in connection with Radway's Pills and Ready Relief. He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills and Ready Relief, at a cost, in addition, a wash of the Ready Relief and Sarsaparillian Resolvent, which completely cured him. Here is a man that, after suffering for hundreds of dollars, and for nine years, and cured at a cost of less than fifteen dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthy lumbermen of this River, owner of nearly half the town, besides a num ber of Pleasure Boats, Steamers, &c., and well known to leaders of great medicines. His son, aged 13 years, was covered with one SOLID SCAB from the crown of his body—head, trunk, chest, legs, and all. I saw a Physician who was in the habit of visiting the sick diseased object I ever saw. At my request he was put under the influence of Radway's Sarsaparillian Resolvent, Ready Relief and Pills and Radway's Curing Ointment, and joined the Sarsaparillian Resolvent, and a few days' use will prove to any person taking it for either of these forms or disease, its potent power to cure them.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDEN STATION, Ontario, Canada West, March 11, 1870.

DR. RADWAY:—This is to certify that I was afflicted with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use your bottle and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FREELAND.

MR. DEAR: My gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent. GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,
439, ST. PAUL STREET, MONTREAL
☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great wholesale business thoroughfare of the city, commanding a fine view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests in one of the best hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style. the moderate sum of $1.50 per day will be charged as heretofore. The travelling commercial will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT can always boast the rare of the publishers to combine in no pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with what will afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, JNO. CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK contain *fourteen* each year (two full-page contributions) to any publication in the country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness in the world over.

EXPERT PATTERNS.—We give frequently a pattern sheet to our patrons, containing tweezy, thirty, and sometimes forty designs in embroidery.

UNIQUE MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MODEL LITERATURE.—The only magazine in the country that gives these designs in the Lady's Book.

DRAWING LESSONS.—In this we are also alone, We have given a Scrap-Book Drawing Lesson and a HEALTH department.

ONLY ONE OF INVALUABLE RECEIPTS upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give a beautiful effect.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, has been derived from its cures of many of which are truly marvellous. Inveterate cases of Scrofulous disease, where their system seemed saturated with corruption, have been purified and cured by it. Scrofulous complaints and disorders, which were aggravated by the scrofula in the blood, are literally

they were painfully afflicting, have been radically cured. In short, no blood disease is known to exist in the country, that this publicly sincerely need to be afraid of the virtues of it.

Scrofulous poison is one of the most destructive enemies of our race. Often, before any active disease is manifest, it destroys the organism undermines the constitution, and lays the strong foundation for fatal disease, when it does existing a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops itself in one or other of its hateful forms, either on the surface or among the vitals. In the latter, tubercles may be confidently deposited in the lungs or heart, or tumors formed in the liver, or it shoot its putrescence by eruptions to the skin, or fix ulcers on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* in the spring of the year, or when no active symptoms of disease appear, Persons afflicted with the following complaints generally find great relief, and often a speedy cure, by the use of this SARSAPARILLA: *Rheumatism, Gout, Kidney Complaint, Dropsy, Bone or Joint Disease, Tetter, Salt Rheum, Scald Head, Ringworm, Erysipelas, Scurfiness, Sores, and other eruptions.* Also in the more protracted forms of *Scrofulous* disease. Also in the more protracted forms of *Syphilis, Mercurial disease, Ulcers, Pimples, Blotches, Blood Poisons, Pustules, Boils, Carbuncles, Tumors, Tetter, Scald Head, Ringworm, Scrofula, Erysipelas, Dyspepsia, Liver Complaint, Dropsy, Heart Disease, Neuralgia, Female Weaknesses, Uterine Complaints, Leucorrhœa, Chronic Rheumatism, Gout, Kidney Disease, Bladder Complaints, Incontinence of Urine, Diabetes, Gravel, Dropsy, Pimples, Blotches, Boils, Tumors, Ulcers, Sores, Scrofula, Erysipelas, Rheumatism, Gout, Neuralgia, Female Weaknesses, Uterine Complaints, Leucorrhœa, Hemorrhages, Suppressions, Irregularities, Painful Periods, Sterility, Barrenness, Impotency, Sexual Debility, Premature Decline, Involuntary Discharges, Wasting of the Organs, Sick Headache, Impure Blood, Mercurial Diseases, Syphilitic Complaints, Piles, Epilepsy, Neuralgia, Heart Disease, Diseases of the Liver, Stomach, Bowels, Kidneys, Bladder, Womb, Rheumatism, Gout, Dropsy, Erysipelas, Scrofula, Scurfiness, Tetter, Salt Rheum, Ringworm, Scald Head, Sores, Ulcers, Pimples, Blotches, Blood Poisons, Pustules, Boils, Carbuncles, Tumors, Tetter, Scald Head, Ringworm, Scrofula, Erysipelas, Dyspepsia, Liver Complaint, Dropsy, Heart Disease

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap means. Well this individual, whose ideas of Means and Ends are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established brand, of which, by a strange suspension of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $3.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerkon, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is exceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with splendid engravings, representing

New Inventions, Important Discoveries in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

of great VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every if household, Workshop and Factory in the land, besides affording a continual source of knowledge and education. The Editors are assisted by many of the ablest American and European writers, and have access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are consistently enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $1 50 each, $15, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Law, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Call and inspect the Stock before purchasing.

H. ROSENBERG.
Belleville, Sep. 1868. 123-tf 32-tf

UNDERTAKING.

C. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and everything that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique; because they are authentic and original, and not blind copies of the French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its Lady Club affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 20 by 26 inches, entitled "The Period on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spence, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most unique and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure a work that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 3 cent stamp.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont., by Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, with the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted solely to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Province, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and its pages will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each member will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seedsmen, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advert isements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, on Clubs of any number, at Seventy-five cents per copy.

FOR cheap printing, go to "The Intelligencer" Office, Belleville.

French Correspondence.

Continued from yesterday.

ARBEVILLE, Dec. 31.

The absence of news is still keenly felt, but this drawback may soon end, as the Government has issued a decree that they can by a secret means convey letters into Paris henceforth; terms, one franc per quarter ounce. I do not think Gambetta is given to practical joking, but this announcement of the authorities does look very much like a whale. The city had one day's excitement of late, chasing a poor pigeon from roof to roof, reported to be the bearer of numberless diamond-edition telegrams and important despatches for Trochu. But the poor bird never was a mile beyond its cot since hatched. The theatres are all closed at last, and have been converted into hospitals; these latter are getting so crowded that patients, as soon as they can be at all removed, are sent into private houses. The supply of medical necessaries are spoken of as deficient in some essentials, chloroform, &c. The Louvre is about being converted into a convalescent hospital. The principal paintings have been taken out of their frames and rolled away to a very safe place. Connected with the sick and wounded, an engineer has discovered the means of illuminating a battlefield during the night by means of a few portable lamps. A vast area is covered with light, and the wounded enabled to be brought in. Many wounded men have stated that the horror of being left a night on the field without succor was an agony worse than death.

The clubs of Paris are becoming amusing, will it be surprising to add, useful also. In this latter sense, they have adopted the fashion of seeking out, and denouncing all citizens who shirk from the duty of dying for their country. They are amusing; some have decreed, that the duties of masters, officials of every class in the civil service, cannot be more onerous than those of a soldier in the field, and that the clerks, etc., of public offices should for the future receive only a soldier's pay, varying from ten to twenty sous a day, with the recommendation that their hours of work be doubled. Another knot of philosophers carried unanimously a resolution, that disciplined armies were the curse of nations, and the ruin of France. Proof: it was a disciplined army capitulated at Sedan; it was irregulars that conquered the glories of 1792. Q. E. D. Wonder what the Democrats of Berlin would say in reply. The same body gave the Government ten days to raise the siege, or they would be under the necessity of doing it themselves.

What a sad custom Paris observes this year. It is well known that several poor tradesmen devote the spare moments of the current year, to making what comes under the generic title of *articles de Paris*, these little knick knacks at which you laugh, do not want, but always buy. It is their privilege to retail these tempting nothings in temperary wooden huts, allowed to be run up on the principal boulevards for a week before and another following New Year's day. Their shanties are being erected, and the fair is to go on all the same. But where are the mothers, children and money this year?

The Prussians are very wide-a-wake boys. Outside the fortifications of Paris, troops of wandering dogs have for weeks been roaming, seeking their owners who have gone out to battle. The Prussians have taken several of the dogs—all were starving—fed them well, and at night tie them to trees in front of their most advanced sentinels. They bark at the sound of a coming footstep, and thus give warning in good time to Max and Hans.

The Jews have held their festival last week, and had a sort of funeral service for their co-religionists who have fallen in battle—the most eminent being the well-known Franchette. In an address delivered by a member it was stated that there were 100,000 Jews in the German army of invasion of France—that while they did duty as Prussians, their hearts were French, as in the year of 1789, they owed their independence. He added it was in a Jew's house—Rothschilds' at Ferrieres—that the words of peace and good will were first heard—by Jules Favre—and it was in a Jew's house—the same—the God of mercy and humanity was offended, by Prussia rejecting the olive branch. For eight days the Jewish fete of deliverance would be held, and at the end of that time Israel hoped to be able to associate the triumph of the French arms in their traditional *allelvia*. It would be curious to ascertain what the Berlin synagogue has to say on the question of the day—possibly like the poor Gentiles—hating one another for the love of God also.

Fort Rosny, behind Mont Avron of which King William says is now silent, by the bye has among its garrison numerous articles from the theatres, they form a whole "company," and will "appear" without fail before the Prussians. A few evenings ago they gave a "representation" in the citadel, to raise funds, to purchase a souvenir for a young Mobile, who distinguished himself at a late sortie. A young officer recited a stirring piece of poetry, of his own composition, touching the famous charge of the French Cuirassers of Worth, another, "Death ride of the Six Hundred," with the difference that in the case of Worth, not a man escaped. So popular has the composition become, that its author passes from fort to fort, declaiming his work.

The assassins of poor Captain Arnaud, of Lyons are being found, among them several of the vilest women, and some boys. The

unfortunate man's wife has become insane, and his eldest daughter has drowned herself in despair. The Captain refused to beat the *rappel*, as commanded by some "Reds." He was seized by them and put through a mock trial, and ordered to be shot. Twelve 'patriots' doing so, and a boy discharging a carabine in his heart.

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 24.

AN ALARM OF FIRE.—The alarm of fire this afternoon was caused by a chimney in the Bull buildings, Kingston road, burning out.

THE "COLD SPELL."—The cold spell of Sunday and Monday appears to have extended over the whole Dominion. At St. John N. B., the mercury went down to 20° below zero; at Quebec it marked 38° ; Peterboro' 39° ; London 6° ; Toronto 17° below zero.

CHRIST CHURCH.—The annual missionary meeting will be held in the Church on Thursday evening next at 7 o'clock,when addresses will be delivered by a number of clergymen and others. The Bishop will also be present and a collection will be taken up at the close.

JAMES TAYLOR.—This great comic singer, accompanied by a troupe of talented artists, appears at the Masonic Music Hall tomorrow night. Mr. Taylor is well known here, and will doubtless attract a large audience.

ACCIDENT ON THE GREAT WESTERN.—Yesterday morning a collision occurred on the Great Western Railway near Oakville. Two passengers trains met near the switch, neither going at a rapid rate. The engines of both trains sustained considerable damage. Justus Dunn, of Toronto,had two ribs broken, James Stuart, of Toronto, had his face badly cut, and Mr. Holloway, of London, had his head badly cut.

TRAINS DELAYED.—Owing to the intense cold of the last three days, the trains on the Grand Trunk have been considerably delayed. Last night's Midnight Express did not pass the station till 6:30 this morning. After proceeding as far as Ernestown it ran off the track, thereby delaying the morning train coming up, which got here at 2:30 p. m. The down train was also three hours later.

CHRISTIAN TEMPERANCE.—According to the previous announcement, Mr. J. B. Anderson last night delivered a lecture on the above subject in the lecture room of the Wesleyan Church, Bridge Street. The attendance was small, owing to the coldness of the weather and misunderstanding as to the hour at which the doors were to be opened ; but those who did attend were amply repaid for their temerity in braving the severe cold, by the excellent lecture which was delivered. The usual vote of thanks was awarded the lecturer at the close.

SUDDEN DEATH.—The Hamilton *Spectator* of the 23rd says : "A respectable looking middle-aged woman arrived at Finlay's hotel on the 14th inst, and remained there until Thursday last. When she arrived she complained of not being very well, and gradually seemed to be getting worse. On the last day mentioned she was taken to the hospital, and died on Friday morning. She gave her name as Mrs. McNee, and said she came from Belleville,and subsequently from Toronto. She was *enciente* about six months. Some parties whose names she mentioned were communicated with, and it is probable if they arrive here this morning as expected, an inquest will be held during the day."

CHARGE OF FORGERY.—The charge of forgery brought against Judge Lafontaine by Mr. Aylen, barrister, of Alymer, was tried yesterday at that town by a bench of Magistrates, and after hearing the counsel it was decided to dismiss the case. Mr. Ayien alleged that the judgment recorded against him was not the same as that pronounced by Judge Lafontaine in Court, that is, interdiction from practicing for contempt of Court. The judgment was not recorded for fifteen days after delivery, and the alteration was held to be a forgery. The counsel for the Judge maintained that it was only an irregularity at most, and could not be a forgery, as there was no original document to forge. Mr. Aylen combated this view, but without success.

HON. ROBERT READ.—The following scrap which we copy from a London paper will be read with interest by the friends of Hon. R. Read :

HARLESTON.—VISIT OF MR. C. S. READ, M. P.—On Wednesday evening last,Mr. C. S. Read, M.P., paid his annual visit to his constituents in this distsict, and drank tea with a goodly number of them at the Swan Hotel. The chair was ably filled by John E. Lacon, Esq., of Starston Grove, and the pleasure of the evening was much enhanced by the presence of the Hon. Robert Read (elder son of Mr. Robert Read, of Fressingfield), a member of the Canadian House of Commons. The worthy member for South Norfolk, gave an account of his parliamentary stewardship, which was received with marked satisfaction, and the Hon. Robert Read (who has resided in Canada for the past 25 years' much interested his audience by the lucid way in which he shewed the great value of the Colonies to Great Britain, and more especially with regard to the Fisheries' Question now in dispute with the United States. The healths of both honorable gentlemen were received with tumultuous applause.

Notes by the Way.

What a delightful Canadian winter's day was Wednesday, the 18th instant. It had been raining a day or two before, and,freezing while it was still raining the trees were covered with ice, and the bare branches glistening in the sunlight shone like burnished silver. Icicles hung from trees and roofs, and bushes and small saplings and every plant that appeared above the snow, were frosted with snow and ice and presented beautiful and fantastic shapes. The foliage of the evergreen drooped gracefully under its heavy load, and in the swamps the branches of trees hung to the very ground. It was a beautiful winter scene, and the temperature was sufficiently moderate to make a drive over the frozen roads enjoyable. The winter roads thus far have been excellent, and with the exception of a few exposed placeswhere the wind drifted the snow into great heaps, there is very little drift and very few pitch holes. It has often been a wonder that some steps have not been taken by the County authorities to keep the winter roads in good condition. There is far more travel over the roads in winter than in summer. A pitch-hole is a greater nuisance than a rut. Careful driving will avoid the latter, but you cannot escape the former. A heavy drift necessitates frequent upsets, and oftentimes the road is blocked up for a quarter of an hour or more by the sudden spilling of a load of wood or hay. It would require but a very small sum of money to cut down these drifts and fill up these pitch-holes, and we are certain the action of the authorities in appropriating a grant for this purpose would give general satisfaction. It is to be hoped some action will be taken at the present session of the County Council with respect to this important matter.

From Tweed to Bridgewater the road is quickly traversed, and in entering the latter village you are at once convinced that it is a place of no mean importance. The beautiful marble church, the neat school house, the commodious Town hall, the large and comfortable public house, the mammoth stores, the large flouring mill, the extensive saw mill, the numerous factories, and the fine residences, all give evidence of thrift and prosperity. There is nothing dilapidated about the village, no broken-down fences, nor ruined buildings,nor windows stuffed with rags, no evidences of squalor or filth or wretchedness which are the fruits of intemperance, but everywhere the fruits of temperance are visible, for in the government of the place it was decreed that nothing that can intoxicate should be sold within the village. Speaking of the public house, we don't know where, in the County, or in any town out of the County for that matter, a more comfortable house for man or beast can be found. The house has all the appointments of a first-class city hotel, and under the management of Mr. Odell, it is kept in first-class style. All the factories and mills are in full blast, giving employment to a large number of men. Amongst the improvments of last year is a new tannery erected by Mr. Wm. Bragg. Its dimensions are 40x40 feet, the lower storey is of stone ; a new improved water wheel has been put in, and all of the machinery is of the newest and most improved description. The foundry formerly worked by Mr. Garrett, is now under the superintendence of Mr. John Bragg. The water power here is not excelled by any other place in the County, and there is room for additional manufactories. Being the principal depot of the Hon. Billa Flint's lumber traffic, there is always in the winter season a much larger amount of business done than in the summer.

By the way, the lumber business this winter is more extensive than it has been for several years past, and up to the present everything has been favorable for lumbering operations. The number of logs which will be got out by the Hon. B. Flint this winter is about 60,000 ; these with the number got out last year still in the river, will amount to about 115,100 logs owned by this gentleman alone. Add to these the logs belonging to Messrs. Rathbun, Gilmour & Co., Ross, Sutherland, Bleeker, Stinson and Lewis, of last year and this year, and we will have logs enough to fill the river from its mouth to Corby's Mills. To prevent doing damage by the spring freshets, strong booms have been made at different points, so that unless we have such a freshet as last season, no damage need be apprehended.

There is a strong conviction pervading the minds of experienced miners, that the gold region of North Hastings will yet turn out to be profitable. A gentleman named Wheeler, who has had considerable experience in California and British Columbia, has been experimenting for some time back with the quartz found in the mine near the Factories, Bridgewater, and he has produced something very valuable. Further experiments are being made with the same quartz by Mr. John McFee, of Belleville, which, when completed, we will make the result known. Operations are again being carried on at the Barry mine, with, we understand, the most favorable results, and the prospects of a profitable yield of gold at this mine are exceedingly encouraging. Dr. Williams is working away with increased success in Marmora,and there is a growing belief that the Hastings gold region will be extensively and profitably worked.

Passing through Queensboro, we observed that Daniel Thompson, Esq., had erected a very handsome residence for himself, had enlarged his flouring mill,and increased the capacity of his saw mill. Several new buildings have gone up within the past year or two, and amongst the improvements contemplated for next season, is a new English Church for the erection of which a large amount has already been subscribed.

Madoc looks desolate enough after the late disastrous fire, the burnt district covering a spot which at one time was the chief business portion of the village. It is not long to remain in this state, we are happy to say, the land having been purchased by residents of the place, who contemplate erecting a block of brick shops the coming season. Mr. A. Wright has purchased the corner property and purposes building four or five shops of brick, two storeys and a half in height. Mr. C. J. Wilson has purchased the lot where his former building stood, and intends erecting two brick stores of the same height. And adjoining that we understand the Messrs. McLellan of Belleville purpose building a couple of brick stores, so that next fall a handsome row of brick shops will occupy the place which is now a blackened ruin. Amongst the improvements made last year is the new Masonic Hall, which is a substantial frame building, 30 x 60 feet; the upper part of which is used as a Masonic Lodge, and the lower part for a public hall. It cost $1,800, and is a credit to the place. Other improvements are projected next season, which will give employment to a number of skilled and unskilled laborers. Madoc cannot afford to stand still. Being the outlet of the Hastings Road, surrounded by a good agricultural country, and being an important depot for lumbering operations, it must continue to grow and prosper. So mote it be.

County Council.

TUESDAY, Jan. 24.

In accordance with the provision of the Statute to that effect, the County Council assembled to-day at noon for the purpose of organization.

The following members deposited their certificates of election and took their seats :

SIDNEY.—Baltis Rose, Reeve ; Amos Rowe and Clement Armstrong, Deputy Reeves.

THURLOW.—James J. Farley, Reeve; John N. Diamond and Hartford Ashley, Deputy Reeves.

TYENDINAGA. — John White, Reeve; Donald Anderson and Wm. McLaren, Deputy Reeves.

RAWDON.—Andrew Glass, Reeve ; Thos. Walker, Deputy Reeve.

HUNTINGDON.—Thomas Emo, Reeve ; James Findlay, Deputy Reeve.

HUNGERFORD.—James Reid, Reeve.

MADOC.—A. F. Wood, Reeve; P. Vankleek, Deputy Reeve.

MARMORA AND LAKE.—Hugh Jones, Reeve.

ELZEVIR.—Hon. Billa Flint, Reeve.

TUDOR, LIMERICK, WOLLASTON AND CASHEL.—Jacob Caldwell, Reeve.

DUNGANNON AND FARADAY.—J. R. Tait, Reeve.

STIRLING.—Peter Chard, Reeve.

TRENTON.—James Cumming, Reeve.

CARLOW AND MAYO.—James Wilson, jr. Reeve.

HERSCHEL, MONTEAGLE, MCCLURE, BANGOR AND WICKLOW.—Michael Doyle,Reeve.

After the Council had been called to order by the Clerk,

Hon. Billa Flint rose and said it gave him pleasure to nominate Mr. Wood as Warden for the ensuing year. Mr. Wood had occupied the position for some years, and his knowledge of the duties of the position, of the municipal laws, and of the wants of the County placed him in the position of being the most fit and proper person to fill the Warden's chair for the present year ; and he, (the mover) hoped Mr. Wood would be elected by acclamation.

Mr. Anderson could add nothing to what had been so well said by Hon. Billa Flint, but had much pleasure in seconding the nomination.

Mr. White cheerfully supported the motion, as his friend Mr. Emo was not this year a candidate. There were,however, several gentlemen in the Council who had a rigtit to occupy theWarden's chair. If the people of Huntingdon returned Mr. Emo and he (Mr. White) was re-elected for Tyendinaga, he should propose Mr. Emo, as a candidate for the Wardenship for 1872.

The motion was then put and carried amidst applause.

The Warden thanked the Council for this unanimous expression of confidence. He said the Warden being the executive of the Council, it made his position a very difficult one, and in no year since he had been a member of the Council—which extended over a period of fourteen years—had the duties of office been more arduous than during the one just past. But he had the earnest co-operation of the members of the Council, and he was quite satisfied that no Council had more deservedly earned the commendations of constituents than the Council of 1870.

He was much gratified in being elected by acclamation to the Warden's chair, this being the eighth time that the Council had conferred on him that honor. They could rely upon one thing, that he would earnestly endeavour to discharge the duties of office faithfully. He had considerable experience, but no experience could take the place of a proper consideration and hearty co-operation on the part of the Council. This he felt certain he should get, and while he did not for a moment arrogate to himself qualifications superior to those held by many members of the Council, at the same time he trusted that with their assistance he should be enabled to leave a satisfactory record at the close of the year.

It was impossible in looking over the Council not to be struck with the number of new faces. Some old members had given place to new ones and one who had occupied a seat amongst them for years, had passed to that bourne from which none ever returned. New blood was ever essential in representative bodies, and we have a fair proportion this year. Two new municipalities have been added—Dungannon and Faraday and Herschel and Wicklow.

He said that it would not be expected that he could enter into what should be a detailed statement of the financial affairs of the county, as he was elected to-day, but he would do so at the next regular meeting. He would however call their attention to some matters that he thought should have their consideration at this session.

In accordance with their instructions the Reeve of Trenton and himself had had a meeting and sent a communication to the Canal Commissioners, setting forth the advantages and the necessities of building the Murray Canal,and had received an acknowledgment,which would be laid before the Council.

The Municipal Loan Fund was a matter that should have their consideration. It had been changed from the Dominion to the Ontario Government, and it was desirable that they should know how the Sinking Fund was invested. Such information had not been passed to their credit from the Dominion to the Ontario Government. The sooner this knowledge was obtained the better.

The Clerk then handed the Warden the following letter, in answer to an enquiry by Mr. McAnnany, respecting the position of the fund:

"AUDITOR'S OFFICE,
"13th January, 1871.

"F. McAnnany, Esq.,
"Treasurer, Belleville :

"SIR,—I have to acknowledge receipt of your letter of the 3rd inst. In reply to your enquiries I beg to state the following :

"1st July, 1870 : Amount at credit in Sinking Fund, County of Hastings, $81,770 16. Interest charged on original loan, 5 per cent. Amount in Sinking Fund, credited with interest at 6 per cent. Amounts paid in during any half year are credited with interest from date of payment to close of half year at rate of 6 per cent.

"The County of Hastings appears to have paid in annually, either in one sum or more, $12,908—equal to 8 per cent on $157,600, the original loan.

"On the 27th December last, $12,638 was passed to your credit, which will be brought into the accounts in the half year ending 31st December, 1870.

"I am, Sir,
"Yours, etc.,
"WM. CAYLEY, Auditor."

The following letter from Mr. McAnnany accompanied the above :—

"COUNTY TREASURER'S OFFICE,
"Belleville, 24th January, 1871.

"*A. F. Wood, Esq., Warden :*

"SIR,—Herewith you will please find a letter containing an answer to me, from the Hon. Wm. Cayley, Auditor of Ontario, giving a very satisfactory statement of our account with the Municipal Loan Fund, and showing clearly the manner in which that account is managed.

"We therefore, by calculation, know that our indebtedness to that Fund will be entirely wiped out at the close of the year 1876—that is, assuming that our annual payments will be kept up as heretofore.

"I have the honor to be, Sir,
"Your obedient servant,
"F. MCANNANY."

The Warden said this left the matter in a more satisfactory condition than he had previously been aware of.

It would be their duty at this meeting to appoint Auditors and fill the vacancies of the retiring members of the Grammar School Trustees:

He again thanked them for the renewed expression of confidence, and hoped that their labors would be conducted in harmony and with benefit to the County.

His Honor was loudly applauded at the close of his address.

AUDITORS.

On motion of Mr. White,seconded by Mr. Anderson, Andrew Thomson, Esq., was appointed Auditor on behalf of the Council.

The Warden appointed E. W. Holton, Esq., the other Auditor.

The Council then, on motion of Mr. Chard, adjourned until 2:30 o'clock p. m.

Meteorological Statement,

BY MR. BURDON.

The temperature on Monday,23rd,at 9 o'clock, p. m, was 14° .1, or about 14 degrees below zero.

The lowest temperature during Monday night or Tuesday morning, 23rd or 24th inst., was 17° .0, or 17 degrees below zero.

The temperature on Tuesday,24th, at 7 a.m., was 10° .6, or about 10¼ degrees below zero.

The temperature on Tuesday, 24th, at 1 p.m., was 1° .3, or 1 3-10 degrees below zero.

Belleville, 24th January, 1871.

Ontario Legislature.

MONDAY, Jan. 23.

There was but a thin attendance and the House adjourned at half past four.

Several petitions were read, reports presented and returns asked for.

The Grand Junction Railway Bill was ordered to a third reading to-day.

A number of private bills were advanced a stage, and others referred to committees.

For the Intelligencer.

Acknowledgement.

The undersigned acknowledges with pleasure the receipt of $10, from Richard Newton Esq., Treasurer of the Loyal Orange District Lodge No. 3, South Hastings, Huntingdon, for the benefit of the Marchmont Emigration scheme, under the superintendence of Miss Macpherson, London. Sympathy for Miss Macpherson's work can best be shown by the material aid, as above, not only from other Orange Lodges, but from Protestant ladies and gentlemen generally. All sums of money sent to Miss Bilbrough, at Marchmont, or to myself, will be gratefully acknowledged, and be expended according to the donor's wishes, whether for bringing out boys and girls from England, or for the support of the home here.

BY-LAW NO. —

A BY-LAW TO PROVIDE FOR THE AIDING AND ASSISTING IN THE CONSTRUCTION OF THE GRAND JUNCTION RAILWAY,AND FOR THE ISSUING OF DEBENTURES THEREFOR FOR THE AMOUNT OF TEN THOUSAND DOLLARS TO BE GIVEN BY WAY OF BONUS TO THE SAID THE GRAND JUNCTION RAILWAY COMPANY BY THE MUNICIPALITY OF THE TOWNSHIP OF RAWDON.

BY-LAW No.—.

WHEREAS the Municipal Council of the Township of Rawdon have determined to give as a Bonus the sum of Ten Thousand Dollars to aid and assist in the construction of the said Railway, subject to the provisions and conditions hereinafter mentioned, and it is necessary, in order to provide the said sum of Ten Thousand Dollars, to issue Debentures of the said Municipality for the said amount.

And whereas the amount of the whole rateable property of the Municipality of the said Township of Rawdon, irrespective of any future increase of the same, and irrespective of any income to be derived from the temporary investment of the Sinking Fund hereinafter mentioned, or any part thereof, according to the last revised assessment rolls of the said Municipality, being for the year One Thousand Eight Hundred and Seventy, was the sum of Four Hundred and Sixty-one Thousand Seven Hundred and Nineteen Dollars.

And whereas it will require the sum of Eleven Hundred Dollars to be raised annually by special rate for the payment of the said Debentures and interest thereon, as hereinafter provided.

And whereas the existing debt of the said Municipality is the sum of nothing for principal, and the sum of nothing for interest.

And whereas, for paying the interest and creating a yearly Sinking Fund for paying the said sum of Ten Thousand Dollars, as hereinafter mentioned,it will require an equal annual special rate of 2½ mills on the dollar, in addition to all other rates to be levied in each year.

The Municipal Corporation of the said Township of Rawdon, therefore, enacts as follows :

1. That a Bonus of the sum of Ten Thousand Dollars be granted to the Grand Junction Railway Company, subject to the terms and conditions hereinafter specified.

2. That in order to procure the said sum of Ten Thousand Dollars as aforesaid, the Municipal Council of the said Township of Rawdon shall issue Debentures of the said Corporation to the amount or extent of the said sum of Ten Thousand Dollars, to be sealed by the Corporate Seal of the said Municipality and signed by the Reeve and Treasurer, and no one of any such Debentures shall be for a less sum than ($100) One Hundred Dollars.

3. That the said Debentures shall be made payable in twenty years from the day herein-after appointed for the By-Law to take effect, at the office of the Treasurer of the said Municipality, and shall have attached thereto coupons for the payment of the interest thereon.

4. That the said Debentures shall bear interest at the rate of six per cent per annum, which interest shall be payable half yearly, at the office of the said Treasurer.

5. That for the purpose of forming a Sinking Fund for the payment of the said Debentures, and a fund for the payment of the interest thereon, at the rate aforesaid to become due thereon, an equal special rate of 2½ mills on the dollar shall, in addition to all other rates, be raised, levied, and collected in each year, upon all the rateable property of the said Municipality during the continuance of the said Debentures, or any of them, or any portion thereof.

6. That the said sum of Ten Thousand Dollars shall and may be paid the said the Grand Junction Railway Company by instalments hereinafter mentioned, in such Debentures as to be issued as aforesaid, and taken and received by the said Company in payment of such Bonus at par value.

7. That in the event of any Trustee or Trustees being hereinafter appointed by the Legislature for the repairing of and holding of moneys or securities for moneys, awarded by way of Bonus towards the construction of the said the Grand Junction Railway, the said Reeve shall within six weeks after the final passing of this By-Law, or within six weeks after the passing of such Legislative enactment, whichever shall last occur, hand over and deliver such Debentures to the said amount of Ten Thousand Dollars to such Trustee or Trustees to be by them held and paid over and delivered to the said Company in accordance with, and subject to the provisions and conditions of this By-Law and not otherwise.

8. That no part of the said sum of Ten Thousand Dollars, nor any of the said Debentures, shall be issued until the different Municipalities along the route of the said Railway, with other Municipalities and other subscribers for Stock in the said Company, shall, by the subscriptions of Stock or the granting of Bonuses, have lawfully given to, and in aid of the said Railway which, together with the sum hereby granted, shall equal the sum of Two Hundred and Fifty Thousand Dollars.

9. That a Station shall be erected at or near the Village of Stirling ; that is to say, within one mile of the Main Street, North of said Village.

10. That the issue of the said Debentures or the payment of any sum to be realized therefrom by the said Corporation to the said Railway Company, shall be subject to the terms, conditions, and stipulations of any act of the Parliament of Ontario in that behalf.

11. That Debentures to the amount of Five Thousand Dollars be delivered to the said Company when the road is graded through the said Township of Rawdon, and the remaining Debentures of Five Thousand Dollars shall be delivered to the said Company when the Rolling Stock is put on the said the Grand Junction Railroad.

12. That the votes of the Electors of the said Municipality of the said Township of Rawdon, shall be taken on the said proposed By-Law on the 20th day of February, in the year of our Lord One Thousand Eight Hundred and Seventy-One, at the Town Hall, in the said Township of Rawdon, the poll thereof opening at nine o'clock in the morning and closing at five o'clock in the afternoon of the same day, said votes to be taken by and before the Returning Officer hereinafter mentioned, who is hereby appointed thereunto ; that is to say, Alexander Sills, Township Clerk.

13. That the By-Law shall take effect and come into force on the 23rd day of February, in the year of Our Lord One Thousand Eight Hundred and Seventy-One.

NOTICE.

TAKE notice, that the above is a true copy of a proposed By-law which will be taken into consideration by the Council of this Municipality after one month from the first publication of the *Intelligencer*, the date of which first publication is Friday, the 20th day of January, A. D. 1871, and that the votes of the qualified electors of the said Municipality, will be taken thereon,

Railway Accident.

Special Telegram to the Intelligencer.

NAPANEE, Jany. 24.

One passenger car and post office car attached to No. 2 Midnight Express, from Toronto, ran off the track two miles east of Napanee, at half past eight this morning. Several persons were slightly bruised. The line is all clear again, and trains running as usual. The cause of the accident was a broken rail.

Failure of Submarine Cable.

Special Telegram to the Intelligencer.

ST. JOHN'S, N. F., Jan. 24.

The submarine telegraph cable between Placentia, Newfoundland, and the French Island of St. Pierre, belonging to the New York, Newfoundland & London Telegraph Company, failed yesterday. It will be repaired as soon as possible. This accident will not interfere with European business, as that is all sent by submarine cable direct from St. Pierre to Brest, France.

The War in France.

The midnight despatches present a gloomy picture of the sufferings of France. The Germans attacked St. Quentin, and, after an obstinate resistance, carried the place, taking 10,000 French prisoners. Faidherbe's army of the north has been badly defeated, and it is more than doubtful whether anything can be relied upon from the action of the shattered remnant. The news from Paris is gloomy. Trochu's grand sortie having proved unsuccessful, the Parisians are dissatisfied, and it is hard to say whether Trochu can retain the confidence of the soldiers sufficiently to lead them out to another attack on the German lines, which the people demand. It is further reported that he has announced that if assistance does not reach him from without he will surrender the city before the public buildings are all destroyed.

The London Conference.

Bismarck and Favre.

The safe conduct from Paris.

LONDON, Jan. 23.—The rumor that the Conference had been again adjourned is untrue.

Count Bismarck in a note in reply to M. Jules Favre's request for a safe conduct, declined to enter upon any such negotiation. His reasons therefor are given in the following summary of the note: Count Bismarck says, presuming that the authority of the Provisional Government had not been recognized by the French nation, the military Government formerly allowed Favre to pass without prejudicing the question of recognition. It is now impossible to give Favre a safe conduct across the German lines, because of his declaration that an invitation to take part in the proceedings of the Conference would be a recognition of the republic. In conclusion, Bismarck pointedly enquires whether it is advisable for Favre to proceed to London, since the interests at stake at Paris for Germany and France completely overshadow the Eastern question.

Latest by Telegraph.

BY ATLANTIC CABLE.

Morning Despatches.

The War in France.

Bombardment of Paris.

Houses Abandoned.

Women and Children Killed.

Vacant Houses to be Stripped of their Contents.

NEW YORK, Jan. 23.—The 'Herald's' special dated Paris, 20th, says: The whole neighborhood exposed to the fire of the enemy is deserted and abandoned to its fate. Houses are uninhabitable and homes are desolated. Although the journals were silent it was easy to perceive on Wednesday that something unusual was afloat. So accustomed to Government inaction are we now that the fact that the Government had quitted Paris, though only to go to Valerien, was almost startling.

The bombardment on the 19th killed five women and children.

NEW YORK, Jan. 24.—The 'Herald's' Paris special says: A decree of the Government has just been issued, which will startle those who sought their safety out of Paris. The privacy of their houses left behind is about to be violated by authorized plunderers, their cellars sacked of wine, wood and coal, and their storerooms invaded and their contents delivered over to fill the empty public stomach and replenish the public coal scuttles. A small grain of comfort for the absent householders.

American Despatches.

A Naval Engagement.

Two French Gunboats Sunk.

HAVANA, Jan. 23.—An encounter took place in the Pacific, the exact locality not being given, about the 20th December last, between the Prussian frigate *Metus*, and two small French gunboats, the *Curieux* and *Bruix*, resulting in the sinking of both French vessels.

NEW YORK STOCK MARKET.
NEW YORK, Jan. 24.

Gold 110¾.

NEW YORK PRODUCE MARKET
NEW YORK, Jan. 24.

Cotton 15½c.

Flour 10c to 15c better; receipts 9,000 bbls; sales 14,000 bbls at $6 00 to $6 25 for superfine state and western; $6 25 to $7 15 for common to choice extra state; $6 65 to $7 25 for common to choice extra state and western.

Rye flour steady.

Wheat 1c to 2c better; receipts 8,000 bus; sales 55,000 bus at $1 53 to $1 54 for new spring; $1 55 to $1 58 for winter red and amber western; $1 62 for white Michigan.

Rye quiet and firm.

Corn firmer; receipts 23,000 bus; sales 48,000 bus at 84c to 85c for new mixed western.

Barley dull.

Oats firm; receipts 8,000 bus; sales 19,000 bus at 62c to 65c for Ohio state and western.

Pork quiet but firm at $22 50 to $22 75 for new mess; $21 75 for old mess.

Lard firmer at 12c to 13¾c for steam; 13¼c to 13¾c for kettle rendered.

Beef quiet at 12c to 16c for common to prime.

ST. JOHN MARKET.
ST. JOHN, N. B. Jan. 23.

The flour market is firm. The price advanced to $6 75 and $6 95 for ordinary Canada superfine, and $7 to $7 15 for fancy brands. The receipts of the week were only about 1,000 barrels. Oatmeal $5 to $5 25; moderate demand.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—"In very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homeopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 127-m-Th.

Ashes—Pots dull and lower; Pearls quiet at $6 10.

SPECIAL NOTICES.

Who is Mrs. Winslow!

At this question is frequently asked, we will simply say that she is a lady WHO, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-3m'

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*.

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

The mind governs the muscles through the Nervous system; as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of evils. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 187, Lindsay, Ont. 77-2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of suffering peculiar to Asthma.

REV. A. C. EGGLESTON,
Pastor of Zion Church Montreal.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from clergymen's duties in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

Small Talk.

Nobody abuses small talk unless he be a stranger to its conveniences. Small talk is the small change of life; there is no getting on without it. There are times when it is folly to be wise; when a little nonsense is very palatable, and when gravity and sedateness ought to be kicked down stairs. A philosopher cuts a poor figure in a ball-room; unless he leaves his wisdom at home. Metaphysics are as intrusive in the mind of agreeable prattle as a death's head on a festal board. We have met with persons who were too lofty for talk; never condescended to play with a ribbon or flirt a fan; they were above such trifling; in other words they were above making themselves agreeable, above pleasing, and when being pleased they were all wisdom, all gravity, and all dogberry, and all cleverness, which they bestowed upon company with more than Dogberry's generosity. A man who cannot talk has no more business in society than a statue; the world is made up of trifles, and he who can trifle elegantly and gracefully is a valuable acquisition to mankind.

—A street beggar was very importunate with a rich miser, whom he accosted in the following phrase: "Pray, sir, bestow your charity." "Prithee, friend, I have no charity," said the miser, with all the honest truth.

—Senator Sherman has made a careful estimate of the revenues for next year under the new tax and tariff laws. He estimates the total revenue at $320,000,000, and thinks the appropriations can be kept within $300,000,000. Representatives Kelly estimates the revenues at $330,000,000.

—The manifest of the "Granada," the American vessel lately seized by one of the Dominion schooners, showed that she had on board amongst other articles a cargo consisting of molasses, 30 gallons of gin, 2 chests of tea, and 20 barrels of flour, which they were evidently exchanging with the inhabitants on our coasts for fish, etc., which, it may be justly hinted to our American cousins, is smuggling.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—Sleep that comes when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

THE ARCADE.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only head any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming!

☞Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT OF THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palmer & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished daily on the live topics of the day, by experts in different departments of literature and European politics, and on commission politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the Commercial columns of the *Gazette* unsurpassably accurate, in point of fullness and accuracy of information. No paper or other paper published in this city, or by the employment of first-rate talent in this important department, will it be possible to make a necessity to business men in all parts of the Dominion interested in the commercial interests.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is published at
The Most Central Point,
The most reliable Commercial Reports,
The fullest Telegraphic and Literary Despatches,
The Most Legal Intelligence,
Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is unquestionably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Two Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
DR. RADWAY'S
SARSAPARILLIAN RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) offers a spoken of "Dr. Radway's"

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, and contains the curative properties of the sun dried roots of the Sarsaparilla plant. The choice products of the Sarsaparilla and other foreign roots yielding extracts that enter into the composition of this unrivalled blood, Tissue, Head, Pulmonary medicine are selected and gathered from the native soil, under the personal supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co., to find, in spurious admixtures or worthless weeds can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $1,000 per month (three thousand dollars per annum) for the services and expenses of scientific Botanists in this branch alone to find the wonderful ingredients it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for none in the history of medicine have ever attained to such a completely healthy up, repairs, and makes sound and strong. Starting, therefore, from this broad basis, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied in the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS TISSUE-BUILDING AND FLESH-MAKING QUALITIES.
it supplies the system with caloric or heat-producing properties.
it cures all Eruptive and Ulcerated diseases of the Kidneys, Ears, Mouth, Throat and Skin and body.
it increases the vital and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
it increases the repairs and diminishes the wastes.
it exterminates the products of decay.
it cures Scrofula, Tumors, Nodes, Hard Lumps.
it makes the skin clear and beautiful.
it heals Bad Sores and Ulcers.
it cures Barrenness, and invests with the vigor of manhood those whose sexual weakness or disease, are deficient or exhausted
it rescues from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however exalted the station of their position in life, who is entitled to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not sustained beyond the process of repair, or if capable of sustaining the same energetic action as

Sarsaparillian Resolvent,

but can be either restored to health; or the waste and decomposition stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years in a state of misery, but the vital forces may be, if the system can be brought under the influence of the Resolvent, for medicine, the repairs will be greater than the wastes and **DISEASE CANNOT EXIST.** It takes from the strength, purity, and nourishment to enable it to hold its healthful action, **assisting all the constituents, and stop the process of decay and decomposition.**

In consequence of the numerous diseases that are treated by the Sarsaparillian Resolvent, and the many thousands of letters received from all parts of the Dominion, it has become necessary to publish a pamphlet containing a few of the many hundreds of cases that have been cured by the use of this wonderful remedy, and which will be sent free to any address on receipt of a stamp to pay postage.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Throat, Skin, Kidneys, Spermatic Organs, Womb, or Urinary difficulties, will experience a marked change for the better in health after taking the Sarsaparillian Resolvent. As the blood becomes more pure, rich, strong, and vitalizing, and is enabled to hold in solution its natural constituents, the deposits of poisonous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will speedily have prompt evacuations necessary to their health. The Parenchyma Tubes and other fluids being absorbed by the circulation, these secretions will be directed for expulsion from the system through their proper channels. If sufficient vitality is not found in the system, to correct these secretions, and to do so each day, the Resolvent, in discharging them in proper functions, health can never be restored; hap pily for suffering humanity, Radway's Sarsaparillian Resolvent possesses this ingredient which has heretofore existed in all these remedial agents used as Blood Purifiers.

No matter how deeply seated or engrafted in the bones, cartilages, glands, organs, or bones, or diseased and corruption may be, the influence of this power ful agent of the blood and other fluids will reach it, the living body with reputable, will so change the system with, that it transforms it to resolve and eliminate the dead and decomposing matter, and supply its place with sound and living structure, and by which feed, cure, and strong blood. By the chemical action which the Sarsaparillian Resolvent was on the substances taken into the stomach during the process of digestion into Chyme and Chyle, for it is made blood, as well as the nourishing constituents of the healthful blood, and its powers, when entering in the circulation, it exterminates every atom of virus from the blood, and restores to every organ of disease, whether caused by the action of some specific poison, or virulent disease, a Mercurial, Syphilitic Sublimate, i. e. Old Corrupt Chloride of Mercury, Calomel, and other agent, but may have accumulated in the form of bones, diseased cartilages, or joints, or from some transmissible taint in the blood, and is cast out through half a dozen operations.

Scrofula, Consumption, Syphilis, uncures and badly treated Venereal in its many forms or Mercurial Disease, Ulcers in the Throat Mouth, Tumors, Boils in the Breast Neck, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Diseases, Erysipelas, Scald Head, the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Heads, Ringworm, Scurfiness, Erysipelas, Acne, Black Spots Worms in the Flesh, Tetters, Humors in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of the above forms of disease, its potent power to cure them.

Inflamed Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada, had a bad case of Scrofula and Ulcers; ULCERS, one on his thigh, the other on his side last receiving the full blade of 8 medicines and that the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent; also with Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and the three bottles of Ready Relief, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvents**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, and for nine years, and cured at a cost of less than 50 dollars.

"ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont.

H. Dunlap, one of the publishers of the Wells River, owner of nearly half the town, besides a num ber of property, had a fearful, loathsome disease in the ledge of your medicine—His son, aged 13 years, was a SOLID SCAB, SCROFULA, covering the entire body—head, trunk, chest, legs, and arms. He left in September last, and he was the most revolting object you ever saw. Dr. Dunlap called on me, returning to Canada, I saw his father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Windsor Station, Ontario, Canada West, Dec. 1st, 1870.

Dr. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was advised to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle that bleeding was stopped, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully restored. JONATHAN PERELAND.

N.B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicin until he commenced taking your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT.

ALBION HOTEL,

MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 700 guests, it is kept in first-class style, the moderate sum of $1.00 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FOR FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever is refined, artistic and innocent amusement. In its Literary Department, in past years,

THE BEST WRITERS

in the literary world have been retained, and will continue to furnish stories for the year 1870. Such names as

MARION HARLAND, IDO CHURCHILL,
LOUISE S. GORE, META VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the Lady's Book contains *Seven* each year (superior (we challenge comparison) to any published in this country, either in Book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXQUISITE PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which new music is regularly expected for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the Lady's Book.

HOUSEHOLD LESSONS.—In this we are also alone.

We have also a CHILDREN'S, HORTICULTURAL, and HEALTH department.

GODEY'S UNAVAILABLE RECEIPTS

upon every subject, for the Housekeeper, Kitchen, House, and Laundry.

ENTERTAINING READING.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the best articles in this department are printed in colors in a style unequalled.

Terms for 1871.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this extraordinary medicine enjoys is derived from its cures, and from the many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, however long aggravated by the scrofulous constitution into

which they were painfully afflicting, have been permanently cured in such great numbers in almost every section of the country that the public confidence is due to be inferred of its virtues or uses.

Everything is known to be the most destructive enemies of our race. Often, this unseen and unfelt foe of the human family undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Hence it seems to breed infection throughout the body, and then, as some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, its victims may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or the poison may precipitate by eruptions on the skin, or fold ulcers on some vital part. The blood, therefore, is the original source of a bottle of this *Sarsaparilla* is not visible, or even when active symptoms of disease are present. Persons afflicted with the following complaints, generally find immediate relief and, in time, cure, by the use of this **SARSAPARILLA:** *Tetter, Salt Rheum, Ringworm, Sore Eyes, Sore Ears*, and other eruptions of visible forms of Scrofulous disease, and in the more concealed forms, as *Dyspepsia, Dropsy, Pain in the Side, Disease, Piles, Epilepsy*, and through all the various *Uterous* affections of the muscular and nervous system.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though they require a high degree of purifying, and time. Persons afflicted with any disfiguring these obstinate maladies by any medicine that long continued use of this alterative will cure the complaint. *Leucorrhœa or Whites, Uterine Displacements, Female Weakness*, and all *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion of Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the same cause—vitiated the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Nervous Debility*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN'

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of the people, as this antidote remedy for pulmonary complaints. Through a long series of years, and in every quarter of the globe, it has risen higher and higher in their estimation, as it has become more widely known. Its unvarying character and power to cure the various affections of the throat, breast, and lungs, which are the most reliable protector against them. While adapted to milder forms of disease and to young children, it is equally efficacious in the most desperate cases of consumption, which had baffled the skill of physicians, and passed beyond the reach of ordinary remedies. Even when the case seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else can relieve, even then the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need but publish the certificates found here, of which we can assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Strychnine, nor any other mineral or poisonous substance whatever, it is now justly regarded as the most effective and unimpeachable remedy for the numerous and importance of its cures in the ague districts of the United States, where it is used, it is believed without a parallel in the history of Ague medicine. Our pride is gratified by the universal confidence reposed in it by the people affected in climates, and where other remedies had wholly failed. Those who remove to the ague districts, or are travelling through miasmatic localities, will be protected by taking the *Ague Cure* before exposure.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Dyspepsia and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures where all other means had failed.

Prepared by Dr. J. C. AYER & Co., Practical Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.50 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing for Peters' Musical Monthly. It is issued on the first of each month, and pays the best and best ... authors alone. PETERS' Kinkel, Bishop, Thomas, Dana, Smith, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces ... ew and good Music, printed on fine white paper and from full size music plates, every piece of which, in other words printed in sheet form, from the same plates, and sold at from 30 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 a year, $1.50 for six months except we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

We do not expect PETERS' MUSICAL to ... Monthly to ... pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world, that subscribers sing and play the music we give them. Their musical friends hear it, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth of ... Music Store of J. L. Peters, 599 Broadway ... New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 important pages filled with the finest engravings of Machinery and Inventions. Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, a million of readers.

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND FOREIGN INVENTIONS*. The Publishers of the Scientific American are the most Extensively Patent Solicitors in the world, and have unequaled facilities for gathering information, and all inventions illustrated in the Scientific American are published in advance of their introduction into the world; and with a view of making it a complete repository of Mechanical and Scientific Information, during which this journal has held the first place in the United States, the Editors, the Publishers will issue on January first the largest and splendid illustrated Engraving, showing the Patent Office of Philadelphia, entitled

MEN OF PROGRESS—AMERICAN INVENTORS.

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. This will be a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The engraving is also offered as a premium for clubs of subscribers.

☞$1,500 Cash Prizes.☜

In addition to the above premium the Publishers will pay fifteen hundred in *CASH PRIZES* to the first successful competitors in the February 15, 1870. Persons who want to compete for these prizes should send at once for prospectus and blanks for names.

Terms for Scientific American, a year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of ten (or upwards), terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instructions to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period procure their systems with Radway's Sarsaparillian Resolvent, and all whose nervous system is shattered, or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, to the turning of our hairs, all cases of the Womb, Uterus, Bladder, Kidneys, Suppression, Irregularities, Leucorrhœa, Hemorrhages, Ulceration, Chlorosis, Cachexia, Bad Habit of System, Absence or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of sickness peculiar to the female sex, are cured use Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few pain, earnest words to those of you who suffer. Disease is the inevitable accompaniment of Habitual Costiveness. The means of obtaining relief, of permanently obtaining a cure, is to be found in Brizelle Sugar Coated Pills, the only cathartic and alterative in existence, which operates on the secreting passages of the bowels without a pain, and restores to the stomach and liver their vigor action. One pill is a dose. It is the genuine aperient never enepleasany organ, or reduces the great strength. It is mild in its operation, and renews the natural health of the digestive and secretive organs, without causing the least pain. It is used by physician, where this family medicine is kept in the house. In all cases of fevers, or aggravated by impure blood or humors, Brizelle's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called "a peristaltic" movement, cleanse the alimentary canal the fæces *and this is all.* Such agent or the purposes of cure, or removal of any settler disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPURGATION, REGULATION AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive diseases, or in cases where the most malignant of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, a limitation of some common, well originator. There are, however, but very few of these medicines that are entitled to any distinctive exclusive properties. All these properties in Pills are made generally alike, with some active-drastic drug or a base

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and all other preparations of mercury, for certain purposes in alteratives, (and the most popular, for its salts istered in 999 cases out of 1,000 by Allopathic Physicians) Antimony, Podyphyllum and kindred drugs are the only articles that are used by the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

IN RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure in a concentrated form the properties to the most choice remedial agents known in Medical science. They differ from every property of all other pills in general use, and the only Vegetable medicine that supplies a substitute for

Calomel or Mercury.

IN RADWAY'S PILLS you have one medicine that will exert its powers in every part of the body. The results that will be given in from three or more days after taking one of these pills will astonish the patient. Most of their You are seized with a Bilious attack, and a doctor prescribes Blue Pills—you are afraid to use drastic medicine put or powders to work off the effects of the fever. Take RADWAY'S PILLS and in a few hours you will be relieved, and in a few days entirely restored to health. Dose, one pill.

Why is Purgative Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (these humours or elements that are ejected by the absorbents and lacteals as *refuse*, the other is that of nutrition. It becomes necessary

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange suspension of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerikes, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families, while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep en courant of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, what is quite one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY as the very best parlor periodical that we know.

It is more complete in its departments than any other its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It grows with every number full-sized patterns, which accompany, during the year, all the new and novel designs in cutting of her own and her children's wardrobe.

It is more high-toned, and its contributors include some of the finest talent in the country.

Its *Leader Chat* affords valuable and useful information upon every subject.

It is the best magazine for the industries and economies of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all combined to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a very fine premium. Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Potomac," and not second to any plate published in the United States.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Subscription price, $2.00 per annum. Commence any time.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Guelph, Ont., and edited by R. WEITH having purchased a proprietory interest in it, and become its publisher, in the belief that that region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and well ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Wade Rowsell, Professor Buckland, Mrs. W. Allan, Mr. W. Edwards and other eminent contributors have written on the *Ontario Farmer*, and they will not be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those unsurpassable stock artists, Messrs. Page and Jarman, of New York.

Special attention will continue to be given to the advancement of Education, the promotion of Arts and Manufactures, and as during the past years, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-merchants, nursery-men, agriculturists, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 324 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in clubs of every number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

County Council.

TUESDAY, Jan. 24.

Council met pursuant to adjournment at 2:30 o'clock p. m.

PRESENT.—His Honor the Warden, Messrs. Rose, Rowe, Armstrong, White, Anderson, McLaren, Flint, Emo, Findlay, Cumming, Glass, Walker, Chard, Jones, Farley, Diamond, Ashley, Reid, Vankleek, Tait, Caldwell, Doyle, Wilson and Gabourie.

The minutes of the previous meeting were read and approved.

PETITIONS.

Hon. Mr. Flint presented a petition from Col. Campbell and the officers of the Hastings Rifle Association, asking for a grant in aid of the funds of the Association.

Mr. Jones presented a petition from the Council of Marmora and Lake, praying for a grant of $400 for the repair of the road from Marmora Village to the Belmont line.

Mr. Armstrong presented a petition from Hoopple and Marsh, praying that an account of theirs for work on Frankford Bridge, unpaid by the contractor, be paid.

Mr. Jones presented a petition from certain inhabitants of Marmora, praying for a grant of $400 for the repair of the Swamp road, in Marmora.

Mr. Farley presented a petition from W. C. Burd and others, praying for the repair of a road in the 9th concession of Thurlow.

The above petitions were referred to their appropriate Committees.

NOTICES.

Hon. Mr. Flint gave notice of a By law for the appointment of Auditors, Grammar School Trustees and Local Superintendents of Education for the current year.

WAYS AND MEANS.

Council went into Committee on Ways and Means, Hon. Mr. Flint in the chair.

The petition of the officers of the Hastings Rifle Association was taken up.

Mr. Emo thought the County had nothing to do with the matter, and that the petition ought not to be granted, the town of Belleville being alone interested.

The Warden thought this was not a matter to be thrown aside without consideration. If this Rifle Association were of use, and accomplished what the Government desired, it ought to be assisted.

Mr. Chard thought the matter had better be laid over for consideration, and moved to that effect.

Mr. Cumming would have no objection to lay the matter over if any object would be served thereby. He would say in explanation that the object of these Association was to inculcate a knowledge of the new drill, in which experiness as marksmen was an essential and chief feature.

Mr. Anderson thought this Association ought to receive a grant, as it was for the improvement of the Volunteers of the whole County.

Mr. Cumming said that other Counties less able than the County of Hastings encourage their local Rifle Associations by granting larger sums to them than was now asked on behalf of the Hastings Rifle Association.

Mr. Walker would second Mr. Chard's motion, as consideration was advisable in this case.

Mr. Farley moved that $100, as asked be granted. The Association deserved encouragement, and it was better to say at once whether the money was to be given or not.

Mr. Anderson seconded the motion.

Mr. White was in favor of making the grant now, rather than laying the matter over till next session.

Mr. Chard still thought it would be better to lay the matter over till to-morrow. When properly informed respecting the subject, he might support a grant.

The suggestion was agreed to, and the petition was laid over.

The petition of Messrs. Hoopple and Marsh was next on the order of business.

Mr. Armstrong explained that the account was for iron used in the building of the bridge, for which Mr. Bradshaw had never paid. It was hard that poor men should be robbed out of both labor and material.

The Warden said there was but one answer to the prayer of this petition, which was that it could not be granted. It was impossible for the county to pay all the debts incurred by their contractors, and he would move that the prayer of the petition be not entertained.

Mr. White seconded the motion, which was carried.

A number of accounts were presented and ordered to be paid, after which the Committee rose, reported progress and asked leave to sit again.—Granted.

ROADS AND BRIDGES.

The Council went into Committee on Roads and Bridges, Mr. Emo in the chair.

On the petition of the Marmora and Lake Council for a grant to repair the road from Marmora Village to the Belmont line,

The Warden said it was now too early to make appropriations for the repair of roads. It would be better first to see what, it any, damage would be caused by the spring freshets, and would move, seconded by Mr. Chard, That all petitions for grants for the repair of roads and bridges, except the gravel roads and County bridges, be laid over till the next session of the Council.

Hon. Mr. Flint agreed with the Warden. It was desirable first to find out the real wants and to keep up the County roads and bridges, then to apply whatever money was to spare in the localities where it was most needed. Nearly all would require something, and it was much better to allow the

matter to lie in abeyance until the June session, when the necessary appropriations could be made. It was impossible to know in March what was wanted. He would move, seconded by Mr. Armstrong, That all petitions in reference to grants for repairs of roads and bridges, other than gravel roads and County bridges, be laid over until the June session.

Mr. Cumming hoped this was not to apply to the supplying of material, much of which would cost three times as much in summer as it would now.

The Warden said the idea of supplying material for repairs in winter had been carried out. He was willing to withdraw his motion and allow the amendment to be put as the main motion.

Hon. Mr. Flint considered that if these matters were only laid over till March there would then be the same ground to go over again with regard to them.

Mr. White was willing to support the motion so long as the taxes were kept down, and in June the money could be equally apportioned amongst the municipalities.

The Warden would correct Mr. White as to the distribution of any surplus funds for road purposes. The old fashion would not be followed out of giving so much to each Township, whether it needed it or not.—The money would be expended where it was most needed.

Mr. White agreed with what had fallen from the Warden. In that case Tyendinaga would get a good share.

Mr. Emo supported the motion, which was then put and carried.

The Clerk read the bill calling for tenders for the construction of a bridge at Bridgewater, saying that but one tender had been received from Mr. A. J. Thompson, at 10 cents per running foot, and this had not been accepted, as it was considered too high.

Mr. Rose thought this very high, as in Sidney they had got timber for 4½ cents per foot.

Mr. Flint considered this far too high, especially in the heart of the timber country.

Mr. White moved, seconded by the Warden, That the tender be not accepted, but that Mr. Francis and Hon. Mr. Flint be empowered to take other steps towards getting the timber.—Carried.

The Committee rose, reported progress, and asked leave to sit again.—Granted.

ONTARIO RIFLE ASSOCIATION.

A communication from the Ontario Rifle Association, setting forth the desirability of Canada being represented at the Wimbledon matches, and asking the Council to grant $100 in aid of the fund for that purpose, was read.

The petition was not entertained.

THE DEAF AND DUMB.

The Warden read a circular which he had received from Dr. Palmer, Principal of the Ontario Institution for the Deaf and Dumb, proposing a query as to the number of deaf mutes between 7 and 19 years of age, resident in the County, for whose admission into the Institution the necessary steps might be taken.

The Warden said he had received letters from several parents of deaf mutes within the County, and had answered that, as he was empowered by resolution of the Council, he should order deaf mutes, children of indigent parents, to be sent to the Institution, where their board would be paid by the County.

The subject was then allowed to drop.

THE COUNTY GAOL.

Hon. Mr. Flint said he had been requested by the Reeve of Trenton to bring before the Council the report of Mr. Langmuir, Inspector of Prisons and Asylums. This report spoke unfavorably of the gaol and its management, which was unfair on the part of the Inspector, to follow out whose plans the County had several times incurred heavy expense. If the gaoler did not properly do his duty, then he should be discharged. It was time the Government officials showed that respect which was due from them towards the County.

Mr. Farley said the report contradicted itself. In one place it spoke of the prisoners being too jolly, and in another place of their being too gloomy.

Hon. Mr. Flint would correct Mr. Farley. It was not the prisoners who were too gloomy. It was they who were jolly and the officials cooped up in a gloomy kitchen.

Mr. Farley said the prisoners cooked their own food.

The Warden said it would be best to make enquiry of the Sheriff whether the report was correct. If not, let a Committee be appointed to investigate and report to the proper manner. His own experience had not borne out the truth of the report.

Mr. White said it was a curious thing that 24 grand jurors who four times a year, inspected the gaol, reported it clean and orderly. The question with him was who to believe. He would take the report of these 96 men of the County of Hastings.

Hon. Mr. Flint would have the Sheriff give explanations before the Council. He had not much faith in the report of the 96 jurymen, for everything was put in applepie order for the Con.

The matter then dropped.

PEDDLERS AND HAWKERS.

Mr. Cumming brought up the subject of the small licenses paid by auctioneers within the County, who sold damaged goods by gas-light to people seeking bargains, and gave instances where people had been duped by such sales. The fee was but $4 for a three months' license. The result of this was that the legitimate trader was damaged. He wished to know if the law could not be amended to largely increase the fee.

The Warden read the law, showing that the County Council had power to exact as large a fee as they pleased.

After a short debate, Mr. Cumming said he should, to-morrow, introduce a By-law on the subject.

BELLEVILLE MARKET.

Mr. Anderson called attention to the want of heating apparatus in the Belleville butter market. He and his daughter had that morning gone to the market with some articles for sale. The place was very cold, and there was a stove in the room, but no wood. On saying to the Clerk that he should not stay there, that official informed him that he should be fined if he took his goods away. He thought it disgraceful that there was no place at the market where females could warm themselves. If farmers paid 10 or 20 cents for the privilege of selling on the market, they wanted some accommodation.

Hon. Mr. Flint said it was the intention of the Town Council to alter the whole system and build a new market house, with rooms for butter and cheese, also a room where people could warm themselves. He would take it upon himself to draw the attention of the Chairman of the Market and Police Committee to the matter.

The Council then adjourned till 9 o'clock a. m. to-morrow.

SECOND DAY.

WEDNESDAY, Jan. 25.

Council met according to adjournment.

PRESENT.—His Honor the Warden, and all the Councillors.

The minutes were read and approved.

BY-LAWS.

Hon. Mr. Flint introduced a By-law for the appointment of County Auditors, Auditors of Criminal Administration of Justice, Grammar School Trustees and Local Superintendents of Education.

Mr. Cumming introduced a By-law to repeal By-law No. 193, relating to auctioneers' licences.

Mr. White moved, seconded by Mr. Emo, that F. H. Rous and T. S. Agar be appointed Local Superintendents for the South and North Ridings of Hastings.

Hon. Mr. Flint thought this motion premature. It ought to be moved in Committee.

The motion was laid over.

Hon. Mr. Flint moved, seconded by Mr. Vankleek, That J. J. Farley, Baltis Rose, John White and the mover be a Committee to confer with a Committee of the Town Council of Belleville, with respect to the establishment of an Industrial Farm.—Carried.

BY-LAWS.

Council went into committee on By-laws. Mr. Diamond in the chair.

The By-laws introduced were read and adopted.

Messrs. E. W. Helton and Andrew Thompson were appointed County Auditors; N. S. Appleby and Thos. Emo Auditors of accounts for Criminal Justice; T. S. Agar and F. H. Rous Local Superintendents of Education for North and South; Rev. Jas. Stewart, Superintendent for the Townships north of Madoc. Thos. Wills for Belleville; Jas. J. Ryan for Stirling; Capt. Dench for Trenton, were appointed Grammar School Trustees.

A long discussion ensued on the appointment of Mr. Rous, which was finally carried by 14 to 11.

The By-law respecting the Auctioneers' licenses named the fee as $28 per year.

The Committee rose and reported.

Mr. Reid, on the report coming up for adoption, moved that it be referred back to the Committee for amendment, as he considered the license fee too small. He thought for peddlers $75 for one horse and $100 for two horses little enough.

Mr. Cumming agreed with Mr. Reid but it would necessitate the drawing up of a new By-law, with more stringent provisions, which would be done in time for presentation at next session.

Mr. Reid thereupon withdrew his motion and the report was adopted.

The By-law for the appointment of County officers was then read a third time, passed and numbered 245.

Mr. Cumming's By-law was passed and numbered 246.

ROADS AND BRIDGES.

The Committee on roads and bridges resumed, Mr. Emo in the Chair.

Mr. Diamond called attention to the state of a pier at O'Brien's bridge. He had found that the piers were not filled with stone, and if a flood should come, the top of the piers would be carried away. Now was the time to raise the bridge and fill in the piers.

The Warden said there was no providing against the sinking of the bridge, the foundation being bad. He would suggest that the County Surveyor be empowered to take necessary action to make the bridge secure and raise the pier. The piers were filled up as high as was considered necessary.

Mr. White thought another pier was necessary.

Hon. Mr. Flint said that the pier sank and the bridge was not so firm as formerly. Now was the time to raise the bridge, when the people could travel on the ice. He did not consider it advisable to load the piers any more, as the heavier they were made, the deeper they sunk.

The Warden moved, seconded by Mr. Vankleek, That the County Surveyor be instructed to get out the timber for a bridge over Deer Creek, on the Madoc and Tudor Road.

The Warden enquired of the County Surveyor respecting the wood supplied to the Court House.

Mr. Francis answered that he had contracted for wood in the usual manner. It was now cut by the prisoners. The only tender accepted was one for 40 cords at $3.75. They were now short some 60 cords, and there had been a tender for $4 per cord for wood sawn 4 feet long.

This tender was ordered to be accepted.

Mr. Reid asked would it not be well for the County Gravel Road Committee to have drifts levelled and pitch holes filled up in the roads.

Mr. White said every road would require a foreman and great expense be incurred. The parties who lived on these roads ought to clear them, as they performed little statute labor.

After a little further discussion the Committee rose and reported.

The report was, on motion, adopted.

The Warden nominated the following gentlemen as members of the Gravel Road Committee: Messrs. Flint, Rowe, Walker, Emo, Farley, Anderson and the Warden.

Mr. Cumming moved, seconded by Hon. Mr. Flint, That the Warden of this County do ask that the Assessment or Municipal law before the Parliament of Ontario do not now pass.—Carried.

WAYS AND MEANS.

Committee on Ways and Means resumed, Hon. Mr. Flint in the chair.

On motion, the sum of $7 was ordered to be paid to Robert Cosbey, for work done on the gravel roads.

Several accounts were passed.

On motion of Mr. Farley, seconded by Mr. White, the sum of $100 was ordered to be granted to the Hastings Rifle Association.

The Committee then rose and reported, which report was adopted,

The Warden said, with reference to the gaol kitchen, the defective light would be remedied as soon as possible.

The Council then adjourned until the second Tuesday in March, the other regular meetings being fixed for the second Tuesdays in June and October, and the first Tuesday in December.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, JANY. 25

MASONIC MUSIC HALL.—We again call attention to the appearance of Mr. James Taylor and troupe to-night at the Masonic Music Hall.

TO-MORROW NIGHT.—It is unfortunate that Christ Church Missionary Meeting and Rev. Mr. Pearson's lecture occur on the same night; nevertheless we trust that each may secure a good attendance.

TEA MEETING IN DEMORESTVILLE.—The sum realized at the Tea Meeting and Social held last week in Demorestville was $262. It is to be devoted to repairing the Presbyterian Church in that village.

RUNAWAYS.—Several horses ran away on the streets this morning, one of which upset a cutter to which it was harnessed, throwing the occupants—a lady and a gentleman—into the snow.

L. O. L. 838, HUNGERFORD.—Officers for 1871.—Bros. S. McLean, W. M.; Thos. Carlton, D. M.; Chas. McLean, C.; John Thompson, S.; A. Thompson, T.; Wm. Carney, D. of C. Committee—James Coulter, H. K. Waterhouse, John Walker, J. Coulter, Wm. Coulter.

THE COLD SPELL.—The "cold spell" continues, and there is no appearance at present of a change to a warmer temperature. The mercury as will be seen by Mr. Burdon's meteological statement, was 2° below zero at one o'clock to-day. In Quebec on Monday it was 44° below zero. Several severe frost bites occurred in Quebec and Montreal.

GREAT BRITAIN.—The revenue of Great Britain last year amounted to £71,969,958 stg., being an increase of $553,581 over the revenue for the previous year, although a considerable reduction in the duties was authorized last session. The "elasticity" of the Imperial revenue is really wonderful, for so active is commerce that the more the duties are lessened so larger does the national income grow.

TO BE DISBANDED.—The Ottawa *Citizen* says that it is the intention of the Government, about the 1st May next, to reduce the military establishment at Red River from its present strength to a number not exceeding one hundred men, a force quite sufficient to preserve order in the Province. As peace "reigns in Warsaw" there can be no further necessity for so large and expensive an establishment as we have been maintaining in the North-West. A liberal grant of land will be made to each of the discharged Volunteers, in order to induce settlement.

Meteorological Statement,

BY MR. BURDON.

The temperature on Tuesday, 24th, at 9 o'clock p. m., was 7-10 degrees above zero.

The lowest temperature during Tuesday night or Wednesday morning, 24th or 25th, was 11½ degrees below zero.

The temperature on Wednesday, 25th at 7 a. m. was 5½ degrees below zero.

The temperature on Wednesday, 25th at 1 p. m. was 7 4-5 degrees below zero.

Belleville, 25th Jany., 1871.

Ontario Legislature.

TUESDAY, Jan. 25.

The Speaker took the Chair yesterday at 3:15 p.m. After routine business the House again went into Committee of the Whole, with Mr. Lount in the Chair, on the Bill to improve the Grammar and Common School Bill, and clauses 1d to 30 were carried in most cases without any amendments, and in others with very unimportant alterations. These were all the clauses directly bearing on the Common Schools, and the Committee rose and reported progress, and asked leave to sit again.

The House adjourned at 10:30 p.m.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 21st.

FURIOUS DRIVING.

Wm. Power was fined $1 and costs for furious driving on the streets, on a charge preferred by the police.

News Condensed.

—A fine bald eagle was shot on the 10th, near Sparta.

—The Canadian fisheries are estimated at $50,000,000 a year, employing 80,000 men.

—The harvests of indigo, coffee and sugar, have been abundant in Venezuela.

—The ice in Virginia is said to be the best and thickest ever gathered in that State.

—Only one person in half a million railway travelers has been injured by accidents.

—Montreal is grumbling about the stench of bad coal oil in the street cars.

—Three thousand barrels of eggs were exported from Shediac during the last year.

Christ Church, Belleville.

To the Editor of the Daily Intelligencer.

DEAR SIR,—As many of my friends will no doubt wonder why, after accepting the Incumbency of Christ Church, Belleville, I did not undertake its duties, it will save me a great deal of repetition in explaining matters, if you will kindly insert the subjoined statements in your valuable paper.

In the first instance I received the following letter from my Bishop, bearing date Nov. 17th, 1870:

"MY DEAR MR. MOCKRIDGE,—When I was in Belleville, Oct. 20th, a deputation waited on me to request that I should appoint you to the Incumbency of Christ Church, assuring me that the wish was unanimous on the part of the congregation. I said I would consider the matter and I have done so. I should not have hesitated were it not that I was most anxious not to injure Madoc by another move so soon made; but I have at length decided to appoint you, and hereby do so, and wish to know with all speed whether you accept or not.

I am faithfully yours,
T. ONTARIO."

To this I replied that I saw many difficulties in the way of removal, and was particularly anxious to know whether the wish was really unanimous on the part of the people or not; that I would be very sorry to leave Madoc, and that I would rather not accept the position on my own responsibility. I also mentioned that I had heard some of the Montreal clergymen spoken of as being canvassed for.

The answer from his Lordship to these statements was that the Deputation that waited on him consisted of the Church-wardens and a Lay Delegate, who stated that the feeling was unanimous among the congregation: and that this was corroborated afterwards by the Hon. Lewis Wallbridge in a conversation which his Lordship had with that gentleman on the subject, and that I would undertake the Incumbency with the vantage ground of having been *invited to come*. And the Bishop ended by stating that he had written to the Church wardens of Christ Church announcing my appointment. The retiring Incumbent and certain members of the congregation also assured me that I was the one wanted by the people.

After my name was before the Bishop for consideration; after the Bishop's letter of my appointment was received; after the second letter of the Bishop came recommending me to take the post (for I left the matter entirely in his Lordship's hands); after I had accepted the appointment, and made arrangements to leave Madoc; after I had written to friends of mine as to a successor for Madoc; after the Church-wardens of Christ Church were officially informed of my appointment; after all these events there reached me a letter enclosing a copy of the resolution passed by Christ Church Vestry, to the effect that they had resolved to have the Rev. Mr. DuMoulin, of Montreal for their Minister.

Under these circumstances I did not feel called upon to be in a hurry to resign the incumbency of Christ Church; at the same time I felt anxious for Madoc, for it is a struggling parish and requires close attention to keep our work going. Nevertheless, I felt it my duty to stand by the appointment of my Bishop, especially as it was made at the openly expressed wish of the Congregation, and therefore, I resolved to commence duty in Christ Church, believing that a suitable successor would be sent to Madoc. But the people of Christ Church (those of them at any rate who seemed to be managing affairs), threatened to close the doors against me, and indeed a resolution to that effect was passed in Belleville, and a copy of it sent to me. That, of course, would have been illegal, for I, as the lawful Incumbent, could have opened the Church at any time.

Astonished at the extent to which these people could really go in opposition to one in whose favor but a short time previously they had expressed themselves so warmly, I still retained the Incumbency of Christ Church, but services were suspended in it. A petition was then sent to me from Belleville, signed by men, women and (for all I know) children, asking me to resign. In the meanwhile the people in Madoc presented me with a very nice address, asking me to remain. The people's Church-warden also wrote to the Bishop, assuring him that the people of Madoc had the greatest confidence in me.

Being influenced by these proceedings in Madoc, and having (at considerable loss and present injury to myself) held the Christ Church Incumbency till the public had witnessed the great extremes to which the Christ Church people could go, I at length resigned it.

In the whole matter, therefore, I was actuated by the following circumstances:

1. The deputation that asked for me consisted of the lawful officers of the Church, the Churchwardens and Lay Delegate.

2. The Rev. S. Jones and others assured me that I was the unanimous, or 'almost unanimous' choice of the people.

3. The Bishop told me that Mr. Dumoulin was out of the question, and that he did not see how any agitation in his favor could affect me.

4. Mr. Dumoulin told me (when I informed him as I was bound to do, that I was the Incumbent of Christ Church, appointed as stated above) that he had written to the Church wardens and expressed his amazement at the whole occurence, and *forbidden further mention of his name*. How far that was carried out is known best to the parties between whom the arrangement was made.

5. The Christ Church Vestry (when the whole trouble was about at its height) sent me a resolution expressing the high sentiment of esteem and good will that they entertained for me, which Resolution was moved by E. J. SIMSON, Esq., and seconded by Hon. L. Wallbridge.

Such are the facts which led to *my action* in the whole matter, and, as many false rumors are afloat, I am happy to state that I am prepared to prove those facts; for I have kept a copy of every letter on the subject. I am also perfectly willing to have any one of them or all of them published; and indeed I should be pleased to have all the case placed in detail before the world.

Use has been made of some of my letters to a brother clergyman, and one in particular in which it is said that "I lost my temper." That letter, too, (since it has thus been made use of) I am willing to publish that it may be seen how far it gives evidence of loss of temper; to which, if I were subject to that misfortune, I had a strong temptation when I was stormed at in a most uncalled for manner not long since in a public store in Belleville.

I am glad that the whole thing is over, and that I am not in Belleville; for as I never wanted the position so I can prove that I never asked for it, directly or indirectly. I bear no ill to the Christ Church people. I have forgiven them entirely. I wish that they may soon have a good Minister, who will be able to calm down their difficulties; difficulties for which, I may safely say, they have no one to blame but themselves.

Hoping, Mr. Editor, that I have not taken up too much of your useful space, and thanking you for kindly inserting this communication.

I remain,
Very truly yours,
CHAS. H. MOCKRIDGE.

Madoc, January 24th, 1871.

LOST.

ON THURSDAY, the 19th inst., a white Newfoundland Dog, with black ears, and wears a leather collar; answers to the name of "Jack." Any one returning him to the Subscriber or to this office, will be suitably rewarded. Any one retaining him after this notice will be prosecuted.

The War in France.

The midnight despatches contain nothing of special importance. It is rumored that the Garibaldians have won some success over the Prussians; but this wants confirmation. We have a description of the sufferings of the Parisians; yet they are still resolved to fight to the bitter end, and would be glad to try another sortie, only they have lost confidence in Trochu, and the Provisional Government cannot substitute any one in his place.

Died at His Post.

HEROIC CONDUCT OF A LOCOMOTIVE ENGINEER.

The Philadelphia *Age* tells the following story:—A few days since, one of those genuine acts of heroism, so seldom witnessed, occurred on the Pennsylvania RR. It is one indeed which entitles the name of Enos J. Hoopes to be placed upon the record of those who surrendered their lives sooner than desert their post. It appears that a wheel on one of the cars attached to a freight train bound west, had come off, and the car was being carried down a grade by the momentum of the train. The train of which Mr. Hoopes was engineer was coming east, and as he neared the wreck train he thought he saw something wrong. Owing to the darkness, Mr. Hoopes stepped to the fireman's side, which was near the other track. At this moment the engine struck the wreck, breaking his leg in four places, crushing his hip, tearing away half of one of his feet, and knocking him in company with the fireman and one of the brakemen back into the tank. The conductor and the other brakemen were in a rear car, and did not know of the disaster. The train was not so much injured as to delay its progress, and Mr. Hoopes knew that if it was not promptly stopped it must run into the hind end of the one next ahead, which would stop at a station less than three miles off for water. Mr. Hoopes, crushed and bleeding, dragged himself slowly and painfully over the prostrate bodies of his comrades to the throttle-valve of his engine, shut off the steam, whistled "Down brakes," sounded the summons for the conductor, and fell backward exhausted. When the train stopped, and the conductor came forward Mr. Hoopes was trying to stop the flow of blood from his wounds by tying up his shattered leg and said, "It is all up with me; do the best you can for me." He lingered until next day in great agony, which he bore with his usual bravery, and then died, lamented by all who knew him.

—Prussia has expelled all the Poles from Alsace. This is a specimen of that progress of which William and Bismarck are the heralds. The dismemberment of Poland still remains an indelible stain upon the character of those nations which consummated the outrage, and now Prussia has duplicated the act on a smaller scale.

—All the islands in Lake Erie are now reached with teams, the ice being very thick and perfectly safe.

Morning Despatches.

The War in France.

Attempted Revolution in Paris.

Its Complete Failure.

A Bloody Fight

French Repulsed.

NEW YORK, Jan. 24.—The 'Herald's' Paris special of the 21st, speaking of the general gloom and ill feeling pervading that city after the failure of the recent sortie, says: Last night at 11 o'clock, a general summons to arms was sounded in the turbulent quarters of Belleville and Charonne, but so depressed was the miserable population that not more than 500 men responded to the call. It was useless for such a gathering to make a descent on the Hotel de Ville, so they gave up the job with despair and betook themselves to their cold and cheerless beds. To-day the Prefect of Police stationed a strong regiment of National Guards at the Hotel de Ville, and caused the adjacent streets to bristle with mitrailleuses. The unhappy citizens of Paris are too much wasted by misery to be able to initiate a revolution, although it is probable that riots will soon occur in the streets.

I have been told there was a great fight in front of Basanval to-day. It appears General Bellemais threw a large force into the forest of Basanval. They were permitted to approach within less than 300 yards of the looped wall, when from top and slope there presently issued from the Prussian infantry a terrible and deadly fire, which in an incredibly short space covered the ground with dead and wounded. It is impossible to ascertain the exact loss of the French, but by common agreement it is admitted to have been the bloodiest day's fighting, so far as the French are concerned, they have experienced since the commencement of the siege. I am assured that 900 corpses laid on the ground in the front of Basanval; often as many as six together.

Wild rumors are afloat and names of prominent reds are mentioned.

ROME, Jan. 24.—The Prince and Princess of Piedmont left Florence yesterday morning, and arrived at Rome at 4 o'clock in the afternoon.

American Despatches.

Anticipated Civil War in South America.

PANAMA, Jan. 21, *via* Havana.—Central American advices are unfavorable. Civil war was anticipated between five republics. Honduras demands redress from Salvador for harboring political refugee, and if refused will declare war. Guatemala will join Salvador, and Nicaragua and Costarie will join Honduras. An ill feeling still also exists between Costarie and Nicaragua, owing to the abrogation of the canal treaty by the former.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BORDEUAX, Jan. 24.—After the battle of Dijon, the Prussians retreated towards Mesigny, Noyes, and Savigny Le Sur.

In the west, also, the Prussians appear to be falling back. Alenzon has been evacuated by the enemy. The enemy have cut the railway between Lyons and Besancon, at Byans.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething, it operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her, especially in the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd, 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

The mind governs the muscles through the Nervous system, as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the Nerves the muscles of the Stomach, Liver, Heart, Lungs or Genital Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or Debility follows, with their accompanying trains of evils. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by K. Dundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77-2m

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches. I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. G. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

HASTINGS MUTUAL FIRE INSURANCE COMPANY.

Head Office, - - Belleville, Ont.

PRESIDENT—MACKENZIE BOWELL, M.P.
VICE-PRESIDENT—G. H. BOULTER, M. D., M.P.
DIRECTORS—HON. ROBT. READ, M. D., JOHN COOK, Esq., R. W. WILLIAM, B. A., M.D., LEWIS CRUICKSHANK, Esq., ROBERT E. GRASS, Esq., SAMUEL GILBERT, Esq., JOHN ROW, Esq.
JAS. H. PECK, SECRETARY-TREASURER.
BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs.* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Priceally and Thomas Kelso, Plaintiffs, *vs.* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

CAUTION.—All genuine has the name "PERUVIAN SYRUP" (not "Peruvian Bark,") blown in the glass. A 32-page pamphlet sent free. J. P. DINSMORE, Proprietor, 36 Dey St., New York.
Sold by all Druggists.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer* Office

Gibraltar.

The celebrated siege of Gibraltar, which began in 1779, lasted four years, when the redoubtable resistance of its English garrison compelled the united forces of France and Spain to raise the siege, to the imperishable renown of the gallant garrison who this made the northern Pillar of Hercules (as Gibralter was styled in the classic story),an imperishable monument of English heroism, and secured for Great Britain the sovereignty of the Mediterranean sea: Against that small garrison of Gibraltar was opposed the greatest force of artillery ever brought against a fortress. (If we are to except the siege of Paris now going on, and the recent siege of Sebastopol.) It was this disproportion of forces and the unconquerable heroism of the garrison that made this siege so memorable in addition to its vast political consequences. Besides a thousand pieces of heavy artillery blazing away for many successive months by land at the little town that defied them, there were more than forty men of war at the sea-side, which kept up a destructive fire with guns of heavy calibre, along with ten floating batteries reloicing in the name "invincible" which inflicted heavy damages on the walls. Over fifty thousand shells were thrown into the town daily. A single night, however, under the intrepid General Elliott, who led the sortie, destroyed the whole line of the enemy's works by land, while the floating batteries by sea were destroyed by the red-hot shot of the unconquerable garrison. The losses on that memorable night of the enemy in number of men were calculated at $2,-000,000 sterling, which by a singular coincidence, was the exact amount offered to the British Government by Spain in 1737, for the recovery of Gibraltar.

A Large Volume would not contain the mass of testimony which has accumulated in favor of *Dr. Radway's Ready Relief*. It may be as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"Tired Nature's Sweet Restorer, Balmy Sleep."—But there are times when this "Honever of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

The Fenians.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only bush any whisper of Fenian success in the Dominion,and rouse that determined heroism and courage so characteristic of the Dominion,whose instantaneous and chergetic action is sure to prove victorious. Take a dose or two of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

James BROWN has now received his Stock for the winter. The American Agriculturist,

FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

The AGRICULTURIST is a large periodical of 32 to 64 pages, well printed, and filled with plain, practical, original matter, by hundreds of practical engravings in every annual volume.

It contains each month a full record of Operations to be performed on the Farm, in the Orchard and Garden, on the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is equally for every Homekeeper.

The Departments for Children and Youth are prepared with special care to furnish amusement and to Inculcate Knowledge and found among young people.

Circulation—Terms.—The circulation of the American Agriculturist (about 70,000) is so large that it can be furnished for the low price of $1 for 2 years, 81 each; single copies, 15 cents each.

☞Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT OF THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, having retired to Montreal and become proprietors of the Gazette, have greatly enlarged and otherwise improved that paper, now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of Agriculture and Horticulture, Financial and Commercial matters. Political questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports, and have arranged especially to undertake in the great summer and autumn trade of the Dominion, a service of telegraphic reports which will make the commercial columns of the Gazette unquestionably the most full, accurate and trustworthy of information to those of all other papers published in this city. Extra telegraphic attachment in this important department the Gazette will be made a necessity to the merchants of all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the Gazette will comprise a full record of every event of importance occurring in the city, with full intelligence. Sporting news, reports of meetings, etc. prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the Gazette is very full, and includes special despatches from all parts of the Dominion.

The Gazette is distinguished for
The absent Editorials — The best Local News.
The most reliable Commercial Reports. — The most reliable Legal Intelligence.
The fullest Telegraphic Despatches. — The choicest Literature.

Offering to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The Gazette is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the Gazette, the price will still remain the same, it will be sent by mail at $6 a year, or all when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the Editorial and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN RESOLVENT.

N.B.—The great medicine (free from all noxious drug or mineral) which embodies every Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice portions of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Resolvent, are procured, chiefly, from the rich virgin soil of the primitive forests of South America, from the native soil, under the personal and intelligent supervision of experienced botanists employed exclusively for Dr. Radway & Co.—Sole, exclusive and exclusively for Dr. Radway & Co.—so that no spurious substances or worthless roots can possibly be received, and that the

$30,000 (thirty thousand dollars) per annum

is paid to Dr. Radway & Co. over and above the liberal salaries (and expenses of assistants) for the services and expenses of scientific Botanists in this branch alone, whose sole duty is to see that the material is has secured to the curative range of Dr. Radway's Remedies, more especially

SARSAPARILLIAN RESOLVENT,

ways for the outlay over and over again; for here is the true principle of medicine on which to base this so completely builds up, repairs, and makes sound and strong, vigorous and healthful which, its weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-BUILDING QUALITIES.
it supplies the system with caloric or heat-producing properties.
it cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Throat and Skin and body.
it increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
it increases the repairs and diminishes the wastes.
it exterminates the products of decay.
it resolves Tumors, Nodus, Hard Lumps.
it makes the skin clear and beautiful.
it heals Fistulas and Ulcers.
it cures Gravel, Gleet, and Stricture.
it makes the urine clear and free freely.
it cures Barrenness, and invests with the vigor of manhood those who, from early indiscretion or abuse, are deficient or exhausted
it rescues woman from the perils incident to change of life—and all of Secret Diseases.

To those who seek Health.

There is not a man, woman or child, however scared by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs are not gone beyond the process of repair, or if unable or resisting the curative power of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decomposition stopped, and the elements of decay that do not exist be eliminated from the body.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and the functions interrupted and secretions altered beyond the reparative powers of medicine, and will be, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps a few days, or for a matter of hours, but vital forces may be, if the system can be brought under the influence of the Sarsaparillian Resolvent, the repairs will be greater than the waste and the LIFE WILL RECEIVE a new lease of life, strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the Kidneys, Secondary Syphilis, and the poison of Tetanus, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and diseases in their advanced stage can both be checked and curedby the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary Bladder, will soon observe a marked change in her health for the better after taking the Sarsaparillian Resolvent. The blood becomes more pure, rich, strong, and nourishing, the complexion clears, the eyes brighten in natural constitutents, the deposits of Tuberculous matter are either destroyed or checked, digestion and strength will be diminished in the Lungs, Kidneys, Skin are other Organs, and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other Fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through the their proper channels. If medicine fails in its influence in the system, it cannot then accomplish any good, for each organ or secreting gland in discharging its proper functions, health can never be realized: how pity for suffering humanity, Radway's Sarsaparillian Resolvent assures this important point that has heretofore existed in all these remedial agent known as the Blood Purifyers.

No matter how deeply seated or engrafted in the cancer, cartilages, glands, organs, or bones disease and however many by the influence of this powerful agent on the blood and other fluids that supply the living body, will rapidly change the system with such constituents as to resolve and enter minute the dead and decomposing matter, and supply its place with sound and living structure, nourished by pure, rich, strong, and active blood. The chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is mixed with the blood, as well as the separation it exerts it converts into blood, and its operation when once in the circulation, will soon reveals every atom of virus from the blood, and renovate every all deposits of disease, whether caused by the Scrofulous, Syphilitic poison, or Mercury, Corrosive Sublimate, Calomel, or the Corrosive Chloride of Mercury, Arsenic, and other poisonous that may have accumulated in the bones, tissues sacrificing the solids, or from some traumatic or family complaint that may have run through half a hundred generations.

Scrofula, Consumption, syphilis, ancurse and Syphilitic Disease, Mercurial in its many forms Glandular Disease, Ulcers in the Throat, Stomach, Tumors, Nodes in the glands and other parts of the system, Sores, Ulcers, Venereous Discharges from the Ears, and the worst forms of Skin Diseases, Erysipelas, Salt Rheum, Erysipelas, Scald Head, Ringworm, Salt Rheum, Erysipelas, Scald Head, Ringworm, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and unnatural discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle yield to within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, the potent power to cure them.

Caused Venereal—Gleet, Gravel, Stricture and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy Diabetes, which all who are so unfortunate as to be afflicted by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Consulting Chemist, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS on his thigh. No other or medicine that resisted all kinds of medicine and the skill of the most eminent doctors in Montreal and other parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, Radway's Pills and Ready Relief. He used only seven bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and as a result, in about a week of the Ready Relief and Sarsaparillian Resolvents, diluted with water which he washed the sores with, his pain ceased, and previously spent hundreds of dollars, doctored for nine years in vain, was cured in less than five dollars.

"ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont

Mr. Adams, one of the wealthiest citizens of Wells River, had a sore on his neck half the town, besides a number of Paper Mill, Hotel, Store and Farm hands, and scores of your medicine. His son, aged 13 years, was afflicted with SCROFULA, covering the entire body—head, trunk, chest, legs, and all. I saw *A. Adams* and his son, and they are the most prevailing and diseased object I ever saw. At my request he was put under the treatment of Radway's Sarsaparillian Resolvent, Ready Relief and Pills (no tonic), and on returning to Canada I met the father, who then told me that his son was completely cured. A score of many of the diseases have been Fever Sores, Eruption of the skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,
March 11, 1870.

Dr. Radway :—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep, a blessing for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use two bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel myself fully restored. JONATHAN FREELAND.

N. B.—The gentleman was the richest man to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvents. GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT.
439, ST. PAUL STREET, MONTREAL

Geo. Gibson

Manufacturer and dealer in Boots and Shoes, Front Street, Belleville. A select assortment of ladies, gent's and children's boots and shoes constantly on hand and made to order. All work warranted. 1Dec.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

Has for twenty years past been the favorite resort of the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the principal thoroughfare and commercial centre of the city, commanding a magnificent view of the Victoria Square and Custom House on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the Albion will be found most in accordance with the means of the economical traveller, while the moderate sum of $1.50 per day will be charged as heretofore. Those travelling economically will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, THE BEST IN THEIR SPHERE.

"I can always learn the care of the publishers to combine in as pages whatever is useful, whatever is elevating, whatever is refining, and yet virtuous in sentiment, with whatever may afford rational and innocent amusement. For the Lover's Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to contribute. Among the list of such names as

MARION HARLAND, IND CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the Lady's Book contains fourteen each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXTRAORDINARY PREMIUMS are given frequently premium sheet to our patrons, containing twenty fairly, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—Every fifth or sixth number in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the Lady's Book.

DOMESTIC RECEIPTS.—Reliable, and will be found beyond the process of repair, or if capable of restoring the digestive process of RADWAY'S

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Household, Nursery, Kitchen, Toilet, and Sick Room.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted in any magazine. They are a great satisfaction.

LADIES' ART WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal ed.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 00
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making eight copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	30 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 00.

Godey's Lady's Book and Peterson's Magazine will be sent one year on receipt of $3 50.

Godey's Lady's Book and Children's Hour will be sent one year on receipt of $5 00.

☞The many attractive features of Godey's Lady's Book, and additions may be made to clubs at club rates.

☞Canada subscribers must send 24 cents additional for every subscription, as the postage is 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable to the Order of L. A. Godey, is preferable to bank notes, as should the Order or Draft be lost or stolen, it can be renewed without loss to the owner. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address, L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled ; it is pleasant and palatable to the taste ; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them ; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the whole system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Liver Complaint, Dyspepsia (or Indigestion), Hemmorrhoids or Piles, Indigestion, Costiveness, Sick Headache, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Faulness of Blood to the Head, Nervousness, Cold Chills, Jaundice, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing and many disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaint, &c.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville :

G. C. Borrodaile.
E. Chandler,
Charters & Co.
James Hambly.
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Spring every day in sealed wooden oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

And all other kinds of *Job Printing*, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. The record cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been

cured in such great numbers in almost every section of the country that the public generally must be informed of its virtues or near.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of endemic or fatal disease, before the existence of its presence. Again, it seems to breed in the blood, and, without pain or other, or acute development, rapidly develop into some one or other of its dreadful forms on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or sores upon some part of the body. Hence the occasional or chronic ailments, which everybody is subject to, whether, even when no active symptoms of disease appear. Extreme suffering from the loathsome complaints generally, find immediate relief, and, in a quick, sure way, by the use of this

Ayer's Sarsaparilla and Mercurial Diseases

are cured by it, though a long time is required for it to eradicate the last vestige of the foul taint from the system. But long continued use of this medicine will cure the complaint. *Ayer's Sarsaparilla* is also *Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other manifestations of visible forms of *Scrofulous* disease. Also in the more protracted forms of *Neuralgia, Dropsy, Heart Disease, Pile, Epilepsy, Neuralgia*, and the various forms of *Uterine* and *Kidney* disorder and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for it to expel the last vestige of the disease

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Men and Tems are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The St. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of knowledge and information. The Editors are assisted by many of the ablest American and foreign contributors, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent gratis.

TERMS—$3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $2 50 each; $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had nearly twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,

Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.

All goods warranted what they are represented to be.

All kinds of jobbing and repairing done promptly and at moderate rates.

Call and inspect the Stock before purchasing.

H. ROSENBERG.
Belleville, Sep. 1868. 123-tf 32 tf

UNDERTAKING.

O. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and reliable as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributory include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original, practical, comprehensive, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and unprecedented Premium Steel Engraving, 26 by 20 inches, entitled "The Pioneer on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lilly M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in the country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
535 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Weirs having purchased a proprietary interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted especially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the progress, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those accomplished stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Kindergarten, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The situation of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ $34 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at Seventy-Five Cents each.

GABRIEL'S PREPARATIONS

FOR THE TEETH

Sold by Cchemists, Perfumers, and Shopkeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth, nerveless, sound, and prevents decay, no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Powder.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth, to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop 12 teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural color to the gums, whitens the teeth without racing between them any more than a wash, and gives a resiliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence to be used for the relief of the diseases of Tic. Neuralgia, and Toothache, and forms a most valuable wash for the teeth, with the unrivalled advantages of perfuming the mouth and sweetening the breath, strengthening the gums, and a most invaluable to smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parts, or complete sets, on Messrs. Gabriel's principle, by sending particulars of their cases. With a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to fix Sets or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

The late Mrs. McGee.

The following beautiful poem by Mr. McGee will be read with melancholy interest by his many admirers throughout the Dominion, now that the 'Irish wife' as well as her gifted husband, have been removed by the inscrutable will of the Almighty:

THE IRISH WIFE.

I would not give my Irish wife
For all the dames of the Saxon land—
I would not give my Irish wife
For the Queen of France's hand;
For to me she is dearer
Than castles strong, or lands or life—
An outlaw—so I'm near her
To love till death my Irish wife.

Oh what would be this home of mine:
A ruined, hermit-haunted place,
But for the light that nightly shines
Upon its walls from Kathleen's face?
What comfort in a mine of gold,
What pleasure in a royal life,
If the heart within lay dead and cold,
If I could not wed my Irish wife?

I knew the law forbade the banns:
I knew my king abhor'd her race,
Who never bent before their clans,
Must bow before their ladies' grace.
Take all my forfeited domain.
I cannot wage with kinsmen strife:
Take knightly gear and noble name,
And I will keep my Irish wife.

My Irish wife has clear blue eyes,
My heaven by day, my stars by night:
And twin-like truth and fondness lie
Within her swelling bosom white,
My Irish wife has golden hair:
Apollo's harp had once such strings;
Apollo's self might pause to hear
Her bird-like carol when she sings.

I would not give my Irish wife
For all the dames of the Saxon land:
I would not give my Irish wife
For the Queen of France's hand;
For to me she is dearer
Than castles strong, or lands or life;
In death I would lie near her,
And rise beside my Irish wife.

Crops in Red River.

From the Manitoba News-Letter.

We are frequently asked to give data for the general statements made about the extraordinary yield of the crops in this Province, and we are glad to be able now to give a few well authenticated instances. So many of our most practical men have been engaged in politics that we have been unable to get many figures relating to last year's operations; but we have obtained a copy of an article intended for publication a year ago; which will supply some of the desired information. It was prepared by a gentleman whose business led him to visit almost every house in the Settlement, and as he speaks of what he saw himself, his notes are to be fully relied upon.

Mr. Neil Henderson, of Kildonan Parish, sowed 1½ bushels of common Red River wheat, and as two bushels or over are generally sown to the acre in this country, this would be about three-fourths of an acre. Having occasion to use some wheat at once he had this portion of his crop threshed out, and the product was 54 bushels of good clean grain. This is exactly 36 returns upon the bushel sown, or about 70 bushels per acre.

Mr. H. also took up 96 bushels of potatoes from 3½ bushels planted, besides using from the same crop for table use since August.

Mr. Wm. Fraser threshed out 711 bushels of wheat from 34 bushels sown.

Mr. Wm. Vincent obtained 298 bushels from 19 bushels sown.

Altogether the yield has been wonderfully good in Kildonan, and wherever we have enquired we have found no return less than 33 bushels to the acre.

Reports from the Assiniboine country are equally encouraging. One farmer at Headingly reaped 242 bushels of wheat from 12 bushels sown. Mr. Andrew Boyd sowed two quarts of buckwheat as an experiment, and managed to save 7 bushels return. He reports that he lost nearly one-half his crop from some cause which we do not remember. No matter, he should be satisfied with his 7 bushels.

Mr. Morgan, of Headingly, planted one pound of the Early Rose potatoe and gathered a crop of 172 pounds of fine large potatoes; one of which attained the weight of two pounds and an ounce. This yield is within 8 pounds of three bushels from one pound of seed. Mr. Morgan also left with us a couple of cabbages which weighed 32 pounds.

We have also heard of a beet raised near this town, which weighed 17 pounds, and measured at the top 25 inches in circumference.

Our friends in the East will see by the above what Red River soil can do in the grain and vegetable line.

We will take it as a favor from our farmers if they will report the result of their crops to us as soon as they thresh, that we may let the outside public see what Red River can do when it has a fair chance.

—Very rich veins of petroleum have been discovered near Hside, in Hanover, Germany.

—The recent burning of the steamer McGill is likely to call forth very stringent measures for the safety of life on the Mississippi. No more sluices to be strapped down on the safety valves.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 187-m-Th,

GRAND TRUNK RAILWAY.

Daily Intelligencer.

BELLEVILLE, THURSDAY, JANY. 26

POLICE COURT.—There was no business at this Court this morning, the inclinations of those who desire to go to law being apparently under the weather' at present.

SKATING RINK.—The band of the 15th Battalion gave its usual weekly performance in the rink last night. Spite of the cold weather, there was a large attendance both of skators and spectators.

MISSIONARY MEETING.—The annual Missionary Meeting of Christ Church occurs this evening, when, from the number of distinguished speakers who have promised to attend, and the expected presence of the Bishop of the Diocese, a large audience will no doubt be attracted.

TRAINS LATE.—The severity of the weather has greatly impeded Railway traffic. The express from the east due here at 7 this morning did not arrive until 2 p. m. Last night's western express and this morning's express from the west arrived here about 2. 30 p. m.

POSTPONED.—In consequence of Rev. Mr. Pearson's lecture on "John Knox and his Times" having been advertised for the same night as the missionary meeting at Christ Church, a postponement of the lecture until to morrow evening has been decided upon.

TAYLOR'S TROUPE.—Mr. Jas. Taylor and troupe appeared at the Masonic Hall last night. The audience was not large, probably in some measure owing to the weather. Mr. Taylor's performances were as excellent as before, and were well received. The other members of the troupe performed fairly, and received a good share of applause.

CHEESE COMPANIES.—The Ontario *Gazette* of the 21st inst., contains the announcement that the 'Brooke Cheese Company' and the 'Golden Cheese Factory Company' have complied with the formalities prescribed for the formation of such Companies, under Chapter 53 of the Consolidated Statutes of Canada.

THE RED RIVER FORCE.—The Ottawa *Citizen* says: "We understand that the order in Council has been passed, reducing the Volunteer Force now serving at Red River from its present strength to the following:—1 field officer (a Major), 2 Captains, 2 Subalterns, 1 Supply Officer and 2 companies, composed of 40 men each. This force will, we fancy, be amply sufficient for all necessary purposes after the ensuing Spring."

SEVERE COLD AT PARIS.—The intense cold of the present at Paris may be gathered from the statement of the correspondent of the Manchester *Guardian* in Paris, that during the week preceding the 27th December, twelve hundred soldiers have been frozen to death in the trenches. The Government of Paris at that time issued a proclamation respecting the fuel supply, in which they say: "The extraordinary and lasting severity of this winter has caused us great suffering during the last eight days."

A FULL EXCHEQUER.—The Revenue Returns of Great Britain show that Mr. Lowe's estimate has been exceeded in all the most important items of revenue which are received within the first nine months of the financial year. There is every prospect that Mr. Lowe will be able, in April, to show a surplus on his estimate of about a million and a half. This is cheering news, because it shows that the national wealth stands on as solid a basis as ever, and that England can, without resorting to fresh taxes, raise her naval and military forces to such a condition that she can at any moment intervene in continental affairs.

THE WEATHER.—The "oldest inhabitant" in vain taxes his memory to remember a parallel to the lengthened period of intensely cold weather, which has prevailed during the week. Five days of Arctic chilliness, with the thermometer indicating from 25 degrees below zero downward. and no signs of an abatement yet! Meanwhile business is at a stand still, farmers not caring to encounter the inhospitable blasts which prevail. Railway traffic is also greatly impeded, the heavy frost making the iron rails as brittle as glass, and rendering accidents to heavily laden trains common. To-day is no improvement on its predecessors, a heavy north wind prevailing, accompanied by snow which almost blinds the traveller who is forced to battle against its fierceness. Truly this has been a remarkable season, so far.

CANADA'S MILITARY HEADQUARTERS.—Halifax, Nova Scotia will in future be regarded as the military headquarters of the North American colonies both as respects staff and departmental officers. This official statement effectually destroys the hopes entertained that the old capital of Quebec might be considered safe enough for Her Majesty's troops. The advantage Halifax offers to the Gladstone cabinet are that whenever danger of a war with the United States arises, a few transports can remove the troops to a place of safety, while we shall be afforded full opportunity of illustrating the merits of the "self-reliant theory."

The Census of Manitoba.

From the recent census returns of Manitoba we obtain the following interesting statistics. The returns showing the population is scarcely so large as we have been in the habit of supposing it to be. The total population is 11,963. Of these 4,070 are English half-breeds, 5,690 French half-breeds, 581 Indian householders; the remainder, 1,614, being white inhabitants, half of whom are natives of the North West Territory, and the remainder Englishmen, Scotchmen, Canadians and foreigners. Of Protestants there are 5,906; of Roman Catholics, 6,059. 11,903 are British subjects, only 63 being American subjects; 3,928 are married; 6,761 are single; 265 are widows, and 103 are widowers. There are 6,212 males, and 5,708 females in the Province. Of these there are:—

	Males.	Females.
Under 10 years	1,934	1,992
From 10 to 20	1,534	1,492
" 20 to 30	1,040	980
" 30 to 40	689	577
" 40 to 50	469	403
" 50 to 60	245	217
" 60 to 70	70	144
Over 70 years	231	68
	6,212	5,753

Out of the 199 persons over seventy years of age, no less than sixty-two are whites from among a population of 1614, while only 110 are from among the half-breeds, who number 8,770 persons. This seems to indicate that the admixture of white and Indian blood does not promote longevity. Among the sixty-two whites over seventy years of age, there are thirty-one Scotchmen and six Scotchwomen, together with seventeen natives of Canada, and three Englishmen. Out of the 1614 white inhabitants of the Province, 771, or very nearly one-half, were born in Manitoba; only four of these have attained the age of seventy. There are 313 Canadians, 128 Englishmen and women, 247 Scotch, 49 Irish, and 16 natives of France, 67 born in the United States, and 24 in other foreign countries. Among the 581 Indian householders (Christians) are 27 persons over seventy years of age.

The Party Cry.

It is astonishing what efforts are being made by the extreme section of the Grit party to raise the old party cries, and to revive "dead issues." The questions which divided parties years ago have all been settled, the old party lines have faded away, and there is really no perceptible difference in the principles of Conservative or Reformer. The true Reformer and the true Conservative so far as public questions are concerned, stand upon the same platform, their only aim and object being to secure good Government. There will come a time when new issues will be developed, and new lines drawn, but there is now really nothing to divide parties, and these efforts to revive old cries and old feuds, are the most silly which can be conceived. Upon this subject we quote the following sentiments expressed by Senator Sanborn, at a public dinner given him by his constituents in Cookshire, Province of Quebec. They are the opinions of a politician who fought in party battles years ago, and who was one of the leading Reformers in Quebec. It would be well if all were to adopt his suggestion, "let the dead past bury its dead," and cease forever these meaningless howls about parties which have now no existence. The following is the extract from the Senator's speech:—

"However feeble popular sentiment may be—and it is proverbially so—there is an under strata in society where candor dwells; and, in the long run, honest efforts in public men will be recognised. It is not expected that politics of a partizan character should be discussed here to-night. In fact, our political situation at the present time is such that old party lines have almost faded away. Principles remain, but parties, as such, are very much disorganised. We have ventured upon a state of political existence, which devolves upon our political men duties for us somewhat new. We have become something different from a Colonial dependency, and something less than a nation. As to the propriety of this step forward, there was some difference of opinion. It has become a realized fact, and now we have to wait the development of new issues from the circumstances of our new position. Old politicians of the different Provinces sound the old battle cries, but the army has become demoralized, it answers only contemptibly. It does not march in order. The fact seems to have gone forth, in a certain sense, at any rate, "let the dead past bury its dead." There is a looking forward and a gazing for something higher, broader and deeper than we have grasped before."

Ontario Legislature.

WEDNESDAY, Jan. 26.

In the House of Assembly yesterday, Mr. Blake submitted the resolutions of which had given notice respecting the necessity of some important changes in the practice of law whereby the courts of equity and common law might be amalgated—the better to simplify the trial of cases. The Attorney-General fully agreed with the hon. member for South Bruce that a reform was necessary, and said he had decided some time ago to appoint a commission after the close of the session to report upon the best mode of effecting the desired changes. He hoped, therefore, that Mr. Blake would not press his resolutions, but leave the matter in the hands of the Government. After a debate upon the subject, Mr. Blake withdrew his resolutions.

Mr. Carnegie moved the third reading of the Peterborough and Haliburton railway bill. Mr. Blake moved an amendment striking out a certain portion of the second subsection of the bill, which referred to the grouping of townships. After some discussion in which Messrs. Lount, Cameron, Ferrier, Pardee, Grahams, (York), Graham (Hastings), Scott (Grey), and others took part, the amendment was lost by a majority of eight. Hon. Mr. Richards resumed the debate on the question of the Dorchester globes, and said that the Government admitted the principle contained in Mr. Beatty's resolutions, and would deal with the matter at once. Mr. Beatty then consented to withdraw his resolutions. Several private bills were read a second time; after which the House adjourned.

Meteorological Statement,

BY MR. BURDON.

The Temperature on Wednesday, 25th, at 9 p. m., was 10 3-10 degrees below zero.

The Lowest Temperature during Wednesday night or Thursday morning, 26th or 26th, as shown by the self-registering minimum thermometer, was 16 degrees below zero, or 48 degrees below the freezing-point.

The Temperature on Thursday, 26th, at 7 a. m., was 12½ degrees below zero.

The Temperature on Thursday, 26th, at 1 p. m., was 6 degrees below zero.

The Barometer at 9 o'clock p. m., on Saturday, 21st, just before the cold spell began, stood at 29.397. Afterwards, the mercury gradually rose until about 9 p. m., on Wednesday, 25th, it had reached the very unusual height of 30.456 inches.

The Barometer at 7 a. m., to-day, (Thursday, 26th,) stood at 30.199.

The Barometer at 1 p. m., to-day, (Thursday, 26th,) stood at 30.018.

Belleville, 26th Jan. 1870.

News Condensed.

—Mr. Godfrey has been elected Warden of the County of Frontenac.

—The man who gets tick, sometimes cutetick.

—Small pox is spreading in England; the average of deaths is 150.

—A good many ballet dancers have become vivandieres in Paris.

—Marguerite Bellanger, Napoleon's favorite, has committed suicide.

—A country dentist advertises he 'spares no pains' to render his operations satisfactory.

—Hydrate of chloral is recommended as a cure for sea-sickness.

—Mr. Lewis B. Stenson has been elected Warden of Prince Edward.

—Last year the Royal National Lifeboat Institution's boats rescued 503 lives and saved 21 vessels from destruction.

—With a colored glass, one of the spots on the sun can be seen without the aid of a telescope.

—An enormous quantity of snow has fallen in the Upper Ottawa, and seriously impedes the labors of the lumbermen.

—A party by the name of Johnston was arrested in Napanee last night for attempted burglary.

—The North-Western Telegraph Company have made arrangements for extending their line to Fort Garry early in the spring.

—A woman named Hill has been horribly murdered near Sherbrooke. Her husband and a man named Grace are in prison on suspicion.

—Weather in Quebec was still intensely cold yesterday, the mercury being 36 degrees below zero. In Ottawa it was 34.

—British Columbia having accepted Confederation, delegates from that Province are now on their way to Ottawa.

—There are in the state of New York 183 savings banks, with assets amounting to $220,000,000.

—The Montreal import trade for eleven months shows an increase with last year of $7,000,000.

—The Church *Observer*, published in Montreal comes out in its last number much enlarged and otherwise improved.

—At Delphos, Ohio, a hog went into a house where an infant had been left alone in a cradle and tore it to pieces.

—He who loses money loses much; he who loses a friend loses more; but he who loses his spirits loses all.

—Over fifteen and a half millions was realized from sales of real estate in San Francisco the past year.

—The deepest excavation in the United States, is a copper mine in Lake Superior. It is 1,300 feet deep.

—Two-thirds of the rain during 1870 fell in the first six months of the year. During June the rainfall was more than eight inches.

—Among the curiosities of the census is the reported case of a lady who died in Connecticut at the age of seventy-four in childbirth.

—The total quantity of lands granted to the Central Pacific and the Union Pacific Railroad Companies, is stated at 24,361,850 acres.

—The coinage at the Philadelphia Mint in December, was $368,128, of which $358,000 was gold, $119,428 silver, and $35,700 base coinage.

—A woman in Perth gave her child such a dose of Mrs. Allen's hair restorative instead of Mrs. Winslow's soothing syrup, that it won't cry any more!

—Sneak thieves robbed the basement of the Wesleyan Church, Quebec, on Sunday last, while some of the congregation were engaged in religious exercises in an adjoining room.

—Bishop Coxe, of Western New York, has enjoined upon the clergy of his diocese the use of the gown instead of the surplice when preaching.

—Two little boys in Dundas were playing with gunpowder the other day. There was an explosion and one little boy won't want spectacles.

—Josh Billings says that "one of the hardest things for enny man to do, is to fall down on the ice when it is wet, and then git up and praze the Lord."

—Mr. G. F. Train is said to be indifferent as to who leaves his name when he is gone. Like Tennyson's "Brook," men may come and men may go, but he goes on forever.

—Hon. Mr. Holton has just bought a property in Montreal, Nos. 112 and 114 St. James street, for $12,500, being equal to a cost of a little over $17 per square foot.

—In Napoleon, Ark., a man who had been guilty of not less than nine homicides was recently elected constable by an overwhelming majority.

—Hon. Malcolm Cameron is feeling his way in North Lanark, preparatory to offering himself as a candidate to represent the men of the north, in the next Parliament of the Dominion.

—At the Toronto Assizes two men belonging to the Toronto Moulder's Association were convicted of bribing and attempted to intimidate and assault workmen who were not members of the Union.

—The New York *Star* makes the, to us, startling announcement that Mrs. McGee fell dead at her residence in Montreal on hearing of the preparations made for the reception of the Fenian convicts at New York.

—Mr. Blake argues in favor of what he is pleased to term the abolition of imprisonment for debt, but what would be, were his bill to become law, the abolition of *punishment for fraud and downright dishonesty.*

—From the first to the last of January the days increase 28 minutes in the morning and 48 minutes in the afternoon. During February they will increase 53 minutes in the morning and 51 minutes in the afternoon.

—The river opposite Quebec is so full of ice that the crossing is very tedious and difficult. The lower ferry steamer on Wednesday, was carried down to Orleans Island, but succeeded in making port after several hours' hard work.

—There are 2,000 acres of oyster beds in Chesapeake Bay, yielding annually 25,000,000 bushels of oysters. In Baltimore, upwards of $10,000,000 are employed in the business of canning oysters.

To the Editor of the Intelligencer.

The Ontario Wild Land Question.

FIRST LETTER.

SIR,—Your correspondent wishes to bring the subject of the settlement of our back country before the public, more particularly the commercial public and the local members of the Legislature. The importance of the question has never yet sufficiently arrested the attention of the leading men of this county, as a preconceived opinition of the worthless of the whole of the great Ottawa District to support an agricultural population, has prevailed amongst all classes in the settled districts. This erroneous idea has been fostered, extended, and invariably supported by parties whose interest it is to mislead the public mind, so as to keep back emigration and prevent the settlement of the wild lands. We refer to those employed in the lumber business.

Lumbering and settlement are, under the present system of legislation, antagonistic, and these two objects I wish to handle in a series of communications, and as they are too closely connected to be separated, I shall introduce each as it answers my purpose, and shall endeavor to show that these interests are made by an absurd policy to be totally at variance. That the back country may be settled, that it can support an agricultural population, and that if it were settled, it would reimburse the country a thousand fold for all expenditure in making roads and even railways.

By taking a bee line from the city of Ottawa to the town of Collingwood, on the Georgian Bay, a distance of not much over 200 miles, we shall, in a great measure, divide the settled country from the unsettled or wild land. On the south of this line one of the most prosperous, industrious, and pesceful communities exists, that can be found on this planet. To the north of this bee-line we wish to take the reader; this is the rubicon, at which vested interests demand that civilization must stop! We wish to excite an interest in this matter to rouse the intelligence of the country to the truth, and cause it to assail this vast territory with life and vigour. Within the memory of men now living, the Bay of Quinte was the line of demarcation between the settled country and the unsettled; more recently the line was Marmora, Madoc and Elzevir; this was the *ultima thule*, beyond which settlement could not extend. Now, to purchase a good farm in these localities requires a man of capital. The great change that has take place in public estimation in regard to these Townships, will also revert in the same way to the Townships beyond, and the sooner the better for the good of the Dominion. It is unnecessary to say that the whole of the land in the best county in Canada is not all fit for settlement; so with the back Townships; some of the land is of too swampy a nature or too rough and uneven, or too thinly covered with soil to be cultivated profitably, and it has been the misfortune of the country that settlers, ignorant of the quality of land, have wasted time in making clearances that could never repay the labor. On the other hand, many hundred settlers in the face of all difficulty and discouragement, are now in flourishing circumstances, of which, before I conclude this correspondence, I will give ample proof by testimony direct from some of them.—The majority of these are located from 50 to 100 miles North of Belleville, and have emigrated from Renfrew, Pembroke and the Ottawa. In these directions emigrants have not to face the insane clamour that is directed against them as soon as the discovery is made that their destination is for the back woods. Even up to the last summer those who came through the Belleville District were assailed with the most fearful accounts of the terrors of the back country. Now, if the same wise individuals were acquainted with the amount of ridicule, and in fact contempt with which their memory is heated, they would, for their future interests, learn to give reasonable and correct information, or, if as dull and incapable as they are supposed to be, would allow the emigrant to follow better advice.

In my next I will show some of the hindrances to settlement.

AN EMIGRANT.

January, 1871.

THE CONFERENCE.

Second Adjournment for a Week.

The Meeting regarded as a Farce.

NEW YORK, Jan. 25.—A London special to the Herald, dated yesterday, says:

"The Conference has again adjourned for one week. A resolution to confine its discussion to the consideration of the question of the treaty of Paris was adopted. The Conference is regarded as a farce.

Italy and the Pope.

Pio Nono's Terms.

Restitution of its Temporalities.

A despatch dated Rome, Jan. 24th, states that the ambassadors of Austria and the North German Confederation, in compliance with instructions received from their respective Governments, inquired of Cardinal Antonelli what guarantee the Pope would regard as suitable on the part of the Italian Government to remove the distrust at present existing between the civil and religious authorities.

The reply, by order of the Pope, intimated that the Court of Rome wished no guarantees other than the pure and simple restitution of the territories of the Church from the Neapolitan frontiers to the Po, and would accept of no arrangement not based on these conditions.

—Barbecue is derived from the French phrase *de barbe a queue*, which means from snout to tail, and is equivalent to "the whole hog."

"'Tis sweet to court;
But, oh! how bitter
To court a gal
And then not git her.

—A Sacramento paper says that the wild geese are so plenty in California that they give as much annoyance to railroad men as the grasshoppers in summer.

FORTY YEARS' EXPERIENCE have tested the virtues of *Dr. Wistar's Balsam of Wild Cherry*, and it is now generally acknowledged to be the *best* remedy extant for pulmonary and lung disease; embracing the whole range from a slight cold to a settled Consumption. Were it not for its merits it would long since have 'died, and made no sign.'

POSTPONED.

THE Rev. R. W. Pearson having arrived and consented to REMAIN OVER, the

Lecture

To be delivered by him this evening, is postponed until to-morrow.

FRIDAY EVENING.

This arrangement is made to allow all an opportunity of attending the Missionary Meeting in Christ Church.

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 5 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLEAN,
Commissioners.

Intercolonial Railway, Commissioners' Office, Ottawa, 19th Jan., 1871. } 227:6t.

Midnight Despatches.

Defeat of the Prussians.

Bombardment of Longuy.

DIJON, Jan. 23.—The defeat of the Prussians on Sunday was complete. The troops under Ricotti Garibaldi destroyed the 61st Prussian Regiment. The French behaved heroically.

NEW YORK, Jan. 25.—The *Herald's* special, dated Arlon, 24th, says: Last night the bombardment of Longuy was terrific. During the conflagration last night, the shells were bursting without cessation. It was a terrible scene. At least one-third of Longuy is destroyed.

Morning Despatches.

The War in France.

Surrender of Paris Expected To-day.

A Revolt Feared.

Anticipated Outbreak in Alsace.

Resignation of Trochu.

Country around Arras Inundated.

Siege Abandoned.

Germans Shooting the Inhabitants.

The Sick Man to Rely on Himself.

Jules Favre Offers Capitulation of Paris.

Terms Not Admissible.

Bismarck Threatens to Restore Napoleon.

Bourbaki Caught between Von Werder and Manteuffel.

LONDON, Jan. 25.—A special telegram to the "Daily Telegraph" from Versailles dated the 24th, says: There is solid ground for believing that Paris will surrender to-day. There is great scarcity of fuel and provisions.

At Calmart the working men lack employment and a revolt is feared.

The population of Alsace is troublesome, and large German force is required in the Province to prevent outbreaks.

BRUSSELS, Jan. 23.—Letters from Paris by balloon state the council of national defence, on the afternoon of the 21st, accepted the resignation of Trochu, and replaced Admiral Saisset and La Roniere. Trochu remains civil Governor, and Le Flo is succeeded by Darien.

LONDON, Jan. 25.—The German Parliament is expected to assemble at Berlin on the 9th of March.

LILLE, Jan. 24.—The Germans have abandoned the attempt to besiege Cambrai.

The French have inundated the country around Douai and Arras.

The strength of the German army in the north is 80,000.

ARLON, Belgium, Jan. 24, (evening).—The bombardment of Longuy has been suspended in consequence of a heavy fog.

BERNEUT, Switzerland, Jan. 24.—The French corps d'armee is close to the Swiss frontier, and the headquarters of the army of the South are now at Bisruoit.

HAVRE, Jan. 24.—The German evacuated Bailree after making a requisition of 40,000 francs. They shot four of the Nitro Pitants and carried off the Mayor and three members of the council.

LONDON, Jan. 24.—A semi-official declaration has been received from Constantinople that henceforth Turkey will rely on herself for protection, and not on the interests and jealousies of European powers.

LONDON, Jan. 25, 6:30 a.m.—The *Times* has the following special despatch:—

VERSAILLES, Jan. 24.—Jules Favre is here. He proposes the capitulation of Paris and the garrison with honors of war. The terms are deemed admissible. The attack on St. Denis, and the disaster of the 19th, mainly led to the resolution to ask for terms.

Trochu is ill and Vinoy is in command. The arrangement of terms of surrender will take time. The French demands are by far too large.

NEW YORK, Jan. 25.—The *Herald's* London special to-day says: The *Times* says if Favre causes an unconditional surrender and will not exit the whole war on the German terms, Bismarck who has in his possession full acceptance of those terms by the French Emperor and Empress, will threaten to restore Napoleon.

NEW YORK, Jan. 26.—Nothing additional to the special to the London "Telegraph" from Versailles, that there is solid ground for believing that Paris will surrender to-day, has been received.

As already telegraphed, Court Bismarck has announced at Versailles that General Bourbaki has been caught between the armies of Von Werder and Manteuffel, and must surrender.

A despatch from Bordeaux, which admits that the Germans have cut their way to Lyons, and Bourbaki's supposed position, can only be construed to confirm this statement of the German Premier.

At the same time and in the same interview Count Bismarck declared that Paris must submit in a few days. It is also stated as confirmatory of this view of the situation that negotiations for capitulation had already been opened. The despatch which announces this proceeds from a correspondent who has persistently denied the German claims of success. It may therefore be considered entitled to belief.

LONDONDERRY, Jan. 24.—The steamship 'North American,' from Portland, has arrived.

QUEENSTOWN, Jan. 25.—The steamship 'City of Washington,' from New York, has arrived.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 25. (noon.)—No information as to the report of the visit of M. Favre to Versailles, has yet been authoritatively announced. The news is regarded on the stock exchange to-day of a doubtful character, and consols have in consequence fallen off at the opening.

Despatches have just been received announcing the capitulation to-day of the fortress of Longwy on the Belgian border, that has been besieged for a long time by the Germans. Four thousand prisoners of war, and 200 guns fell into the hands of the victors.

LONDON, Jan. 25.—The Versailles correspondent of the Central Press Association telegraphs that there are good grounds for the belief that negotiations for the capitulation of Paris are progressing, and adds that in any event it is impossible for the city to resist the Germans beyond the early part of February.

The "Pall Mall Gazette" is informed that Favre reached Versailles yesterday and started for England. He is expected in London to-day.

The "Echo" prints under reserve a statement that Favre has arrived here.

An official despatch from Versailles on the 24th, says; the French loss in the sortie of the 19th, was 6,000 in killed, wounded and missing, while that of the Germans all told was only 653.

New German batteries have opened fire upon the north side of Paris.

A division of the German army of the South have passed to the south of Besancon, and is threatening the rear of General Bourbaki's forces.

It appears that the Garibaldians after their successful engagement with the German Landwehr, between Pontex and Burgundy, tore up the rails on the line, and so damaged the railroad that it is now impassable.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Troches.
C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Troches. I had no affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.
T. DUCHAMME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * *

Spontaneous Combustion.

The New York *Sun* puts forth a new theory concerning fires. It says spontaneous combustion occurs much more frequently than is generally supposed, and the Boston *Journal of Chemistry* is of the opinion that many fires ascribed to incendiarism have owned their origin to that cause. Such combustion differs from ordinary burning only in that the union of the combustible substance with oxigen of the air is more gradual. When a log of wood rots in the forest, it is as really burned as when it blazes in the fireplace, only the process is so slow that the heat is not perceptible. The rusting of metals is another form of slow combustion; and if the rusting is sufficiently rapid, the use of temperature is readily detected. In inflammable substances, when slow combustion begins, the heat set free causes the oxidation to go on faster, until the mass bursts into flame. Oily rags used by painters, and cotton waste used for wiping machinery, are common causes of spontaneous combustion. Oil spilled on sawdust has been known to take fire in this way. Oils that oxidize readily, like cotton seed oil, are especially liable to take fire without apparent cause. Hay, cotton, tow, flax, hemp, rags, leaves, spent tow, straw in manure heaps, all are liable to take fire spontaneously, when stacked in quantities in a damp state. These are facts which all should understand, as the knowledge of them may in many instances lead to precautions of the utmost importance.

—A firm in England is now making leather belting by sewing the band along its entire length with a pliable metallic wire. This operation is said to increase the strength, durability and adhesion of the belts, without lessening the required flexibility. It is said, however, that the method is only serviceable when applied to leather of the best quality.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"THRED NANES SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only lead any whippers of discontent into the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious. The wonderful cures of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

Christmas is Coming !

Belleville, December 9th, 1870. 1884

The American Agriculturist,

FOR 1871,

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Garden, Orchard, and in the Dwelling, etc.

It is prepared by practical intelligent working men. The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish pleasant reading, and to create knowledge and sound moral principles.

CIRCULATION.—TEXAS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1.50 a year—four copies for $5; ten copies for $12; twenty or more, $1 each; eleven sample copies, 15 cents.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT OF THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palmer & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished on all the leading topics of the city, by experts in different departments of literature and science, and on questions of commercial and political importance. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial department of the Gazette unsurpassed in this respect. To point of fullness and accuracy of information in this department the paper publishes, in this city, by the employment of first-rate talent in the important departments of reporting, will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Tuum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Boyle, Proprietors.

D. C. BURNETT, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal,

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently refitted this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Moutgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families, while the cuisine will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

In its pages suggestions will save hundreds of dollars to every Household, Workshop and Factory. It will double and treble a country's source of valuable information. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1.50 half year; Clubs of Ten Copies for one year, at $2.50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "A Mess of Pottage."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to any question is—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinions and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address
MUNN & CO.,
Publishers of the Scientific American,
37 Park Row, New York.

H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always handsome, and its number for March includes some of the finest talent in the country.

Its *Ladies' Club* offers valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, gardening, insects, arboriculture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Peace on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 10 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Wetts having purchased the property and right in it, and become its publishers, in the belief that this region of country, second to no part of Canada, in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those unexcelled stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of the Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 324 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - -	8.00
Club of 20 " - -	15.00

And all over 20, at 75c per copy, free of postage.

Jim Wolf and the Tom Cats.

MARK TWAIN'S MASTERPIECE—A FUNNY ACCOUNT OF A TRAGICAL AFFAIR.

I knew by the sympathetic glow upon his bald head—I knew by the thoughtful look upon his face—I knew by the emotional flush upon the strawberry on the end of the old free-liver's nose, that Simon Wheeler's memory was busy with the olden times.—And so I prepared to leave, because all these were symptoms of a reminiscence—signs that he was going to be delivered of another tiresome personal experience; but I was too slow, he got the start of me. As nearly as I can recollect, the infliction was couched in the following language:—

We were all boys then and didn't care for nothing, and didn't worry about nothing only to shirk school and keep up a revivin' state of divilment all the time. This yah Jim Wolf I was talking about was the 'prentice, and he was the best hearted feller, he was, and the most forgiven' and onselfish I ever saw—well, there couldn't have been a bullier boy than he was, take him how you would, and sorry enough I was when I saw him for the last time.

Me and Henry was always pestering him and plastering 'boss bills on his back, and putting bumble bees in his bed, and so on, and sometimes we'd crowd in and bunk with him, notwithstanding his growling, and we'd let on to get mad and fight across him, so as to keep him stirred up like. He was 19; he was long and lank, and bashful; and we 15 and 16; tolerably worthless and lazy.

So that night, you know, that my sister Mary gave a cand-pullin', they started us off to bed early, so as the company could have full swing, and we run into Jim to have some fun.

Our window looked out into the roof of the ell, and about ten o'clock a couple of old tom-cats got to ranglin' and chargin' about it, and carrying on like sin. There was four inches of snow on the roof, and it was frozen so that there was a right smart crust of ice on it, and the moon was shining bright, and we could see them cats like daylight. First, they'd stand off and e-you pow-wow, just the same as if they were a cussin' one another, you know, and bow up their backs and push up their tails, and swell around and spit, and then all of a sudden the grey cat he'd snatch a handful of fur out the yaller cat's ham, and spin him around like the button on a barn door, but yaller cat was game, and he'd come and clinch, and the way they'd gouge, and bite, and howl, and the way they'd make the fur fly was powerful.

Well, Jim, he got disgusted with this row, and 'lowed he'd climb out there and shake 'em off'n the roof. He hadn't reely no notion of doin' it, but we everlastin'ly dogged him, and bullyragged him, and 'lowed he'd always bragged how he would not take a dare, and so on, till bimeby he histed up his winder, and low and behold you, he went—went exactly as he was—nothing on but a shirt, and it was short. But you ought to seen him cre-e-pin over the ice, and diggin' his toe nails in to keep from slippin'; and above all, you ought to seen that shirt-tail flappin' in the wind, and them long, ridiculous shanks of his glistening in the moonlight.

Them company folks was down there under the eaves, the whole squad of 'em, under that ornery shed ot old Washington Bower vines—all settin' round about two dozen sassers of hot candy, which they'd set in the snow to cool. And they was laughin' and talkin' lively; but bless you, they didn't know nothin' about the panorama that was goin' on over their heads. Well, Jim he went a sneakin' unbeknown to them tomcats—they was a swishin' their tails, and yow-yowin'—and threatenin' to clinch, you know, and not payin' any attention—he went a sneakin' right to the comb of the roof, til he was within a foot and a half of 'em, and then all of a sudden he made a grab for the yaller cat. But, by gosh, he missed fire and tripped, his heels flew up, and he flopped on his back, and he went off'm that roof like a dart—went a slashin' and a smashin' and a crashin' down through them old rusty vines, and landed in the centre of them company people—sat down like a yarthquake in them two dozen sassers of red hot candy, and let off a howl which was hark from that tomb! Them gals,—well they looked, you know. They see he wasn't dressed for company, and so they left. All done in a second. It was just one little war-whoop and a whish of their dresses, and blame the wrench of 'em was in sight anywhere.

Jim, he was was a sight. He was gormed with that bilin' hot molasses candy clean down to his heels, and had more busted sassers hangin' to him than if he was an Injun princess—and he came a prancin' up stairs, just a hoopin' and a cussin,' and every step he made he shed some chuna, and every squirm he fetched he dropped some candy!

And blistered! Why, bless your soul, that poor creature couldn't reely sit down for as much as four weeks.

—Mackerel fishing employs 2,292 vessels, 587 more than last year.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 187-m-Th.

Daily Intelligencer.

BELLEVILLE, FRIDAY, JANY. 27.

DR. LIVINGSTONE'S SAFETY.—A Cable telegram dated London, Jan. 25th says: Sir Roderick Murchison has received a letter from Africa giving positive intelligence of the safety of Dr. Livingstone.

MILD AGAIN.—The reign of Boreas is over for the present, and a mild temperature now prevails, the wind being westerly, with occasional heavy flurries of snow. The weather for the last few days was severe enough to test the most hardy, and the present change is welcomed by all.

REGISTRAR'S FEES.—A return of the fees and emoluments received by the Registrars of Ontario for the year 1870 has just been published, showing that these gentlemen received $147,891.50, being an average of $3,742.14, quite a respectable remuneration. There are only six who receive less than $1,000; the majority over $3,000.

COUNTY COUNCIL.—The next meeting of the County Council has been arranged to take place on the first Tuesday in March, instead of on the second, as at first agreed upon. After the adjournment of the Council it was agreed that the date, as changed, would be more suitable than as at first settled, for the Reeves of the more distant townships.

THE CANAL POLICY.—The *Leader's* Ottawa correspondent sends the following telegram: The Canal Commissioners have agreed upon a general policy. The details will be laid before Parliament. It is understood that the main lines of interior water communication now existing will be enlarged. The construction of the Sault Ste. Marie and Bay Verte canals and barge canals will be recommended.

TO-NIGHT.—The Young Men's Christian Association deserve a full house to night At great expense the Association is endeavoring to provide entertaining and profitable amusements. The lecture of to-night has won high encomiums from the press. The Montreal *Gazette* says: "Mr. Pearson is great in pictorial power and discriminating judgment." The Montreal *Witness* says: "Mr. Pearson is one of our most popular speakers and always attracts large and attentive audiences."

CHRIST CHURCH.—The annual Missionary Meeting in aid of the funds of the Diocese, which was held last night, was well attended, considerable interest being manifested in the proceedings. The chair was occupied by His Worship the Mayor, and on the platform were a number of the resident clergy and laity, besides His Lordship the Bishop and the deputation. Addresses were delivered by Rev. Messrs Lauder, of Ottawa; Preston, of Carlton Place; Grout, of Stirling; and the Bishop of Ontario, the latter of whom counselled the adherents of the Church to take a deeper interest in its temporal welfare. A collection was taken up the close of the meeting.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

FRIDAY, Jan. 27th.

ASSAULT.

The only case before the Court this morning was a trivial assault, Bushnell vs. Gordanier, in which the defendant was adjudged to pay $1 and costs.

More Railways.

Special telegram to the Intelligencer.

BOBCAYGEON, Jan. 27th.

A large assembly gathered here last night to meet Messrs. Fowler, Cubitt, and Milne, and discuss the project of the proposed Bowmanville and Bobcaygeon railway. The chair was occupied by Mr. Boyd. Speeches were delivered by Messrs. Fowler, Cubitt, Milne, Tupper and Black. A vote of thanks was unanimously tendered to Mr. Fowler and the gentlemen from Bowmanville, and a committe formed to co-operate with the committee at Bowmanville. The proposed railroad will put Bobcaygeon within shorter distance of Lake Ontario than the proposed extension from Omemee would do. Last year the lumber which passed through Bobcaygeon and was sawed there, paid Port Hope $25,000 harbor dues, which would be paid at Bowmanville when the road was finished, while the lumber limits found in Bobcaygeon and neighborhood will last more than twenty years.

Sympathizing with the Fenians.

The New York *Times*, in its account of the arrival there of O'Donovan Rossa and the other released Fenians, publishes the following telegram received on the 21st inst., by Roberts, Secretary to the Fenian brotherhood:—

"Ottawa, Jan. 21.—The Irishmen of Ottawa join in spirit in tendering a *cead mille failthe* to our exiled countrymen on their safe arrival in the land of liberty.

P. A. EAGLESON."

The Ottawa *Free Press*, indignant that a man of Eagleson's reputation should attempt to represent the Irishmen of Ottawa, thus snubs that warm sympathizer of Fenianism and intimate associate of the murderer of the lamented McGee: "We should like to know by what right an individual of Mr. Eagleson's reputation undertakes to speak for the Irishmen of Ottawa. Is it by virtue of having been the intimate associate of Whelan, and suspected and imprisoned for complicity in the murder of Thos. McGee? Or for having so conducted himself as to induce the surveillance of the police since that damnable deed? We feel assured that to the feelings of the loyal Irishmen of Ottawa no greater outrage has been done for years than the sending of such a message by such a person in their name."

School Superintendents.

The heaven-born genius who pumps the thunder of the *Ontario*, is gifted with an intellect so vast and so penetrating that he is able, "on the shortest notice," to decide the fate of an empire or a nation, or to propound upon the amount of qualification necessary for a Local Superintendent or a School teacher. Nothing is too vast for his grasp, nothing too minute for his observation.

Deeply imbued with this exalted opinion of his own powers, and feeling that his "mission is to squelch" every existing arrangement, and to re-organize the world in general, and the County of Hastings in particular upon a plan of his own, he has undertaken to decide upon the positive and comparative qualifications of the two gentlemen who were proposed at the recent meeting of the County Council, to fill the position of County Superintendent for the Southern division of Hastings, and thus vents his *ex cathedra* opinion upon the matter:—

"We have not a word of fault to find with Mr. Rous—he is an educated and estimable gentleman. But it must be admitted that Mr. Johnson, who was nominated in opposition to him yesterday, is, in every respect, his superior so far as the necessary qualifications of a Superintendent are concerned."

"It must be admitted!" By whom, we would ask? Here is the answer in our contemporary's own words: Mr. Rous—"no doubt he will himself confess his inferiority to Mr. Johnson, as regards the more improved and Normal principles of instruction." We should like to hear Mr. Rous' answer to this "no doubt." *Ontario* would, "no doubt," find that he was under a slight mistake in taking the confession for granted; and sure are we that no single person who enjoys that gentleman's intimacy will make any such admission in his behalf, and we scarcely think that Mr. Johnson will base his claim to the position upon the assumption of any such superiority on his part.

Again: *Ontario* asserts his "opinion that when the Bill now before the House becomes law, Mr. Johnson will be found the only man in the County really qualified for the situation."

Hear this, ye Professors and Graduates of Albert University! Hear it, Masters and Teachers of Belleville and Trenton County Grammar Schools! Hear it, ye resident Ministers of all denominations, and hear it, Superintendent and Teachers of the Town of Belleville; and come, bow down and worship the image which *Ontario* the King hath set up, on pain of being consumed in the burning fiery furnace of his displeasure.

But we are informed that "Mr. Johnson is a first class Normal Graduate." Will our contemporary, in pity for our ignorance of his peculiar language, inform us in an early issue what he means by "a first-class Normal Graduate?" Where does it grow, or where is it to be found? Is it a beast, a bird, a fish, or a plant? or is it some imaginary animal, drawn from copious stores of our contemporary's fertile imagination? Or does the expression simply mean that Mr. Johnson possesses a first-class Normal School Teacher's Certificate? We pause for a reply.

Again he asserts that Mr. Johnson is "unquestionably the most thorough and successful teacher in this county." We hope the *Ontario* excepts the town of Belleville; for among the town teachers we have one gentleman whose ability and success in his profession are at least equal to Mr. Johnson's, and whose name is known and respected among men of science in distant lands, where Mr. Johnson has not been, and probably never will be heard of; and to which the shining light of the *Ontario* has never penetrated.

The "older and less popular system," under which Mr. Rous "secured" (*sic*—but probably the *Ontario* means "acquired") his experience, and at which this small critic ventures a sneer, has produced men before whose scholarly attainments Dr. Ryerson, Mr. Johnson, and even our learned friend of the *Ontario* must "pale their ineffectual fires," and it is owing to the intellectual labours of such men that knowledge is now being so widely diffused throughout the mass of the community, dispelling the darkness and the dangers of ignorance, and training the rising generation to be better men and women, better citizens, and we hope, better Christians than the generations which preceded them.

In what we have written, we disclaim all intention of advancing anything derogatory or disrespectful to Mr. Johnson, whom we believe to be a faithful, assiduous and successful teacher, and who we are assured is quite capable of filling efficiently the office of Superintendent or Inspector, but who we are persuaded must be disgusted at the talsome and arrogant manner in which his pretensions were set forth in the columns of our contemporary's yesterday's issue.

In conclusion we advise the *Ontario* to remember that 'a little learning is a dangerous thing,' and therefore a very little must be very dangerous. Let him stick to his politics, where he may express his opinions freely without fear of harming himself or anybody else; and restrain his feet from the thorny paths of educational controversy, lest he find them after a while so mammed and torn as to give him cause to meditate in sorrow upon the adage that "Fools rush in, where angels fear to tread."

Supper to A. F. Wood, Esquire, Warden County of Hastings.

On the evening of the 25th instant, the friends of A. F. Wood, Esq., in honor of his having been chosen by the County Council of the County of Hastings, by acclamation, to preside as Warden over the County for the year 1871, entertained him at an Oyster Supper at the Huffman House, in the Village of Madoc. The cloth had been laid for about fifty guests, but, notwithstanding the inclemency of the weather and the short notice that was given, the Committee were pleasantly surprised by being compelled to provide for about double that number, but thanks to mine host, Mr. A. White, who was able to meet the emergency, and supplied the guests with a most sumptuous repast, which was partaken of with a hearty relish, after which the more important part of the business of the evening was proceeded with.

The meeting was presided over by John R. Ketcheson, Esq., assisted by Jos. Fitzgerald, Esq., as Vice-Chairman. Among those present were Peter Vankleek, Deputy Reeve; Jas. Blair and John Tassie, Councillors; T. S. Agar, Esq., Superintendent of Schools for North Hastings; Capt. G. D. Rawe; Jacob Caldwell, Reeve of Tudor; R. Barry, Councillor, Elzevir; Samuel Bacon, Sr., Chas. Gream, W. H. Tumelty, John H. Dunn, John McCoy, Henry Dingman, Jas. O'Hara, Wm. Leslie, John Nickle, Wm. Blair, C. F. Aylsworth, C. C. Forneri, and about seventy others.

After supper the following toasts were proposed:—

"The Queen"—National Anthem.

"Governor General"—Song, "He is a Jolly Good Fellow."

"Our Guest—A. F. Wood, Esq., Warden, County Hastings."

THE CHAIRMAN in proposing this toast said it gave him very great pleasure to be present and assist in doing honor to a gentleman who had in so many ways deservedly won their highest esteem as a friend, a citizen, and a public man. He (the Chairman) had been associated with Mr. Wood for years in the Township and County Councils, and he knew him to be the right man in the right place as Warden of this County.

The toast was drunk with three times three, and "He is a Jolly Good Fellow."

Mr. WOOD, in rising to respond, was received with hearty applause. He said he felt far more timidity in returning thanks for the kind manner in which they had received the toast, than he did in thanking the Council for electing him as Warden, for the reason that he had no expectation of receiving such an ovation. When it had been intimated to him that some of his friends intended to give him an oyster supper, he thought it would be a quiet party—but when, upon just arriving from Belleville, he had been ushered into the supper room, and found it filled by so many of his friends, he was taken by surprise. He would, however, do the best he could, and trust to their kindness to excuse any short-comings. Mr. Wood then adverted to his long connection with the Municipal affairs of the Township, and County—15 years in the Township, 14 years in the County and 8 years Warden—commented on the various changes, his associations with the Chairman and Mr. Tumelty as Deputies, the financial state of the county, separation from the county, railroads generally, and a railroad to Madoc in particular, expressing the opinion that if the people of Madoc worked heartily together, a railroad was certain, for where there was a will there was a way. He closed by expressing his hearty thanks to his friends for the honor they had done him by not only electing him Reeve, by which he became Warden, but for the manner in which he had been received at this complimentary supper. He hoped that any bad feeling that had arisen out of the late election would be forgotten, for he meant to endeavor to do justice to all parties, irrespective of party or creed. One thing they could rely on—he should never forget the kindness of his friends. He took his seat amidst loud applause.

The Vice-Chairman then gave the following toasts: 'Army, Navy, and Volunteers.' Song, 'Far upon the Sea,' by Mr. Hungerford. Response by Capt. G. D. Rawe, in a very happy manner.

'County Council,' responded to by A. F. Wood, Esq., Jacob Caldwell, Reeve of Tudor, and P. Vankleek, Deputy Reeve. Songs by Dr. Morris and H. Seymour.

'Township Councils of the County.' Responded to by Councilors Barry, of Elzevir, James Blair and John Tassie of Madoc. Song, 'Nora McShane,' by A. Maybee.

"Educational Interests of the County," responded to by T. S. Agar, Esq., Supt. for North Hastings.

MR. AGAR said it afforded him very great satisfaction to be present, for he had the highest esteem for their mutual friend, the Warden. In the discharge of his duties he had always found in the Warden a most willing and active assistant, and he shared in the opinion so generally expressed that he (the Warden) was admirably adapted for the position he occupied. He then referred to educational interests, spoke of the necessary education that fitted every man to labor well and faithfully in the position that providence had placed him in, and referred to the sturdy backwoodsman as the man among men who deserved to be respected and honored. Mr. Agar spoke in his happiest manner, and his remarks were loudly applauded.

'The Farmers of Madoc.' Songs by Jas. Whittick and Louis Weiss. Responded to by W. H. Tumelty, Henry Dingman John Nickle, John McCoy, Wm. Blair and John H. Dunn.

'Mechanics of Madoc.' Song by A. Maybee. Response by Joseph Fitzgerald, W. Bristol, L. S. Griffin and W. Moore.

'Professional Men of Madoc.' Response by Chas. Gream, Dr. Morris, C. F. Aylsworth, C.C. Forneri.

'Business Men of Madoc.' Response by A. Kolgit, John Robertson, and D. McKay. Song by Capt. Rawe.

Volunteer toasts then followed in rapid succession, Capt. Rawe giving in a very happy manner, "The land we left and the land we live in." Responded to by Mr. Hungerford and Mr. Armstrong.

Mr Moore gave "The Chairman," which was well received and responded to. Song by D. McKay.

"The Ladies." Mr. H. Seymour in song and Mr. Boswell.

"The Officers Madoc Council." Responded by D. Ross, Esq.

"Our Host and Hostess," "Capt. Rawe," "W. H. Tumelty," Esq., "Samuel Bacon," Esq., and a large number more. The party did not break up until nearly two o'clock, a. m., "Auld Lang Syne" sending them off, all expressing the feeling that a more pleasant gathering had never taken place in the Village of Madoc.

Meteorological Statement,

BY MR. BURDON.

The temperature on Thursday, 26th, at 9 o'clock p. m., was 5½ degrees below zero.

The lowest temperature during Thursday night or Friday morning, 26th and 27th, as shown by the self-registering minimum thermometer, was 8½ degrees below zero.

The temperature at 7 a. m. on Friday, 27th, was 2½ degrees below zero.

The temperature at 1 p. m. on Friday, 27th, was 35 degrees above zero.

Belleville, 27th Jany., 1871.

Ontario Legislature.

THURSDAY, Jan. 26th.

In the Legislature to-day Dr. McGill's bill to regulate the sale of poisons, and respecting chemists, druggists, &c., was under consideration in Committee of the whole. Messrs. Blake, McMurrich, Boyd, Perry and others opposed the several clauses of the bill on the ground that their object was to establish a close Corporation by which the druggists would entirely monopolize the drug business to the great disadvantage to those country storekeepers at present selling drugs. The fourth clause was struck out by a small majority, after which Mr. Blake moved that the committee rise, but the motion was lost, and several of the remaining clauses were adopted with a few slight amendments. Dr. Boulter stated that when the speaker took the chair he would move to re-insert the clause that had been struck out. The debate was adjourned at six o'clock.

After recess nearly the whole time of the House was taken up in discussing an amendment to a bill introduced by Hon. Mr. Carling to confirm the deed for the distribution and settlement of the estate of the late Hon. G. J. Goodhue. Hon. Mr. Richards, in proposing the amendment, spoke for about two hours and a half in favor of its passage. He was followed by Messrs. Cumberland and Boyd, who took a similar view of the case, and by Messrs. Rykert, Beatty, Scott (Ottawa), McGill, McMurrich and McKellar, who spoke in favor of the measure. On a division being taken there appeared in favor of giving the bill the three months' hoist, 18; against it, 60. The House then went into committee on the bill, which was adopted without amendment and referred to committee.

The Reserve Militia.

PROGRESS OF ENROLLMENT.

This is the time appointed by law when the several officers appointed for the purpose should enroll the militia for 1871. The lists are to be completed on or before the 28th of February. The following clauses of the Militia Act, relating to this enrollment, will be read with interest at the present time:

The Militia shall consist of all the male inhabitants of Canada, of the age of eighteen years and upwards, and under sixty—not exempted or disqualified by law, and being British subjects by birth or naturalization; but Her Majesty may require all the male inhabitants of the Dominion, capable of bearing arms, to serve in case of a *levy en masse*.

The male population so liable to serve in the Militia, shall be divided into four classes:

The first class shall comprise those of the age of eighteen years and upwards, but under thirty years, who are unmarried, or widowers without children.

The second class shall comprise those of eighteen years and upwards, but under forty-five years who are unmarried, or widowers without children.

The fourth class shall comprise those of forty-five years and upwards, but under sixty years.

EXEMPTIONS.

The following persons only, between the ages of eighteen and sixty years, shall be exempt from enrollment and for actual service at any time:—

The Judges of all the Courts of Law or Equity in the Dominion of Canada.

The Clergy and Ministers of all religious denominations.

The professors of any college or university and all teachers in religious orders.

The warden, keepers and guards of the penitentiary, and the officers and guards of all lunatic asylums.

Persons disabled by bodily infirmities.

The only son of a widow, being her only support.

And the following, though enrolled, shall be exempt from actual service at any time except in case of war, invasion or insurrection.

Half pay or retired officers of Her Majesty's army or navy.

Seafaring men and sailors actually employed in their calling.

Pilots and apprentice pilots during the season of navigation.

Masters of public and common schools actually engaged in teaching.

Exemption shall not prevent any one from serving if he desires it, and is not disabled by bodily infirmity.

To the Editor of the Daily Intelligencer.

Christ Church.

DEAR SIR,—In yesterday's issue of your valuable journal I observe a communication from the Rev. C. H. Mockridge, having reference to his appointment as Incumbent of Christ Church, Belleville, in which he expresses his astonishment at the congregation failing to accept of him as their Pastor, thinking that it was only a party who managed affairs who were opposed to his entry.

I feel it to be but just to myself, as a member of that Church, to take the liberty of informing you that the unwillingness of the Congregation to receive him was made known to Mr. Mockridge previous to his acceptance of the appointment; that the reasons for objecting to him were just and sufficient, and that the action of the Vestry in opposing his appointment was endorsed by at least nine-tenths of the Congregation.

What the reasons were for rejecting him I will be happy to explain verbally to any person desiring the information.

Yours very truly,
GEO. ADAMS.

Belleville, January 26th, 1871.

—The Eastern Conference has adjourned to the 31st inst.

—Mr. Rogers, Reeve of Ashburnham, is Warden of Peterboro.

—The camp table of the King of Prussia is graced with the curious, thin, well-worn, old historical plates which the Great Frederick took to the wars with him.

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemow Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

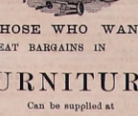

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 5 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

The Eclipse Expedition.

From the accounts received from the astronomers who went abroad to see the eclipse of the 22nd December, it appears that the different parties of observers were not very fortunate. From the Moorish Castle at Gibraltar nothing was seen of the eclipse when total. At Estepona Mr. Buckingham reports there was heavy rain. Mr. Abbott, who stayed at Gibraltar, was able to observe the total phase for about two seconds, and others there appear to have made somewhat fuller observations. At Cadiz Lord Lindsay succeeded in taking several excellent photographs. The American party at Xeres saw the totality for about a minute. At Seville it began to rain at 12.00 p.m., and the sun was lost to sight until the conclusion of the eclipse, which occurred at 1.30 p.m. The eclipse was total for seventy seconds, and the effect was very striking, the whole sky becoming of a lurid purple and very dark. The birds were hushed and frightened, and the charcoal burners' fires in the mountains some five leagues distant, were plainly visible.

A mother, trying to get her little daughter of three years old to sleep one night, said: 'Anna, why don't you try to go to sleep?' 'I am trying,' she replied. 'But you haven't shut your eyes.' 'Well, can't help it; um comes unbuttoned.'

FORTY YEARS' EXPERIENCE have tested the virtues of *Dr. Wistar's Balsam of Wild Cherry*, and it is now generally acknowledged to be the *best* remedy extant for pulmonary and lung disease; embracing the whole range from a slight cold to a set led Consumption. Were it not for its merits it would long since have 'died, and made no sign.'

Terms of Capitulation.

The only information from the seat of war contained in the midnight dispatches, is the following:

NEW YORK, Jan. 26.—"A special despatch to the *Herald*, dated Versailles, Jan. 24th (evening) says:

"M. Favre, it is reported, is discussing the terms of capitulation with Count Bismarck. The German demands are said to be as follows:—The forts to be garrisoned by Germans; the regulars and Gardes Mobile to be sent to Germany; the province of Champagne to be held as a pledge for the payments of war expenses; Alsace and Lorraine to be yielded to Germany; Paris to receive no garrison for its protection; the city to be confided to the National Guards, who will not be disarmed; the Germans will then negotiate the terms of peace, and France will be left to reconstruct the Government. These propositions are combated on the side of the French as too severe. It is unknown at this hour what abatement may take place.

American Despatches.

Great Snow Storm.

Railway Trains Blocked.

Travel Suspended.

The U. S. Tariff.

Prussia and San Domingo.

NEW YORK, Jan. 27.—The snow storm ceased this morning. Nearly two feet of snow has fallen. Travelling is greatly impeded in all directions, and in some cases entirely suspended. All the railroad trains since the beginning of the storm have been greatly delayed. The driving snow in some cases so choked the fires and smokestacks of the locomotives as to seriously impede progress. The storm seems to have extended over the largest portion of the country east of the Rocky Mountains, though it does not appear to have extended very far to the south.

General Schenck, Minister to England, is expected to arrive at the Brevoort House.

WASHINGTON, Jan. 26.—James Brooke will not attempt to get the Tariff Reform question before the House until after the 4th of March, at which time he will propose a general reduction of duties.

Baron Gerolt, the Prussian Minister, denies officially that there is any truth in the report so extensively circulated during the San Domingo debate in the Senate that Prussia was anxious to gain a foothold in the West Indies by purchasing an island there. Prussia is not desirous to obtain any territory which would be so open to attack in case she should become involved in another foreign war.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

German Demands.

No Collusion Between Bismarck and Napoleon.

Surrender of Paris Expected.

Captured German Ships.

Garibaldi Surrounded by the Prussians.

Favre returned to Paris.

LONDON, Jan. 25.—The following is obtained from an official source and believed to be trustworthy: The Germans will insist on an unconditional surrender of Paris, with all its forts and defences. The report in the London *Times* that there is a collusion between Bismarck and the Emperor Napoleon and Empress Eugenie is unfounded.

LONDON, Jan. 25, 1.30 a. m.—It is said the Emperor of Germany has written a letter to his wife, in which he says: The capitulation of Paris is imminent, and that he expects speedily to return to Berlin.

Cherbourg harbor is crowded with captured German ships.

LONDON, Jan. 26th, 7 a m.—The Telegraph has a despatch announcing that Garibaldi and his forces are surrounded by the Prussians near Dijon.

The Daily News says Jules Favre returned from Versailles to Paris on Wednesday.

The bombardment of Paris continues.

Lard quiet at 13¼c to 13¾c for steam; 13¾c for kettle rendered.

Butter steady.

Cheese quiet.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m:

How necessary that the nervous apparatus should be perfect and the brain vigorous; when either becomes exhausted through overwork or other imprudent disease in some is developed. The remedy lies in removing the cause. By USING FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES the tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold or over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

VICE PRESIDENT—G. H. BOULTER, M. D., M. P.

DIRECTORS—Hon. ROBT. READ, M. L., JOHN COOK, Esq., R. W. WILLIAM B. J. M. D., LEWIS CRUICKSHANK, Esq., ROBERT E. GRASS, Esq., SAMUEL GILBERT, Esq., JOHN ROSE, Esq.

JAS. H. PECK, SECRETARY-TREASURER.
BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri
Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, vs. James D. Davern, Robert Waller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, vs. J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer Office*

A Well-Earned Rebuke.

The attitude of Mr. Blake, and the Opposition in the Assembly, on the matter of the School Bill, is severely reprehended by thoughtful Reformers. We have already given the views of the *Witness* on this matter, and now append some structures from the Goderich *Signal*, a thorough reform paper. That journal says:—

"We are always prepared to hail with satisfaction a measure embodying some sound principles, to whichever side of the Legislative Assembly is may owe its origin. The new School Bill, prepared by Dr. Ryerson, is one of those vitally important measures demanding the calmest consideration of every legislator without regard to political partizanship. The fundamental doctrine that it is the duty of the state to provide free education and sufficient school accommodation for every child within its borders, being left intact, while there is a fair and legitimate field for the exercise of individual judgment, opens no question on which the two parties are called upon as parties, to divide. We are therefore compelled to object to Mr. Edward Blake, in his representative character as leader of the Liberal Opposition, considering it his duty to greet the measure with all but unmixed censure.

"We totally dissent from Mr. Blake's position that fresh school legislation must be preceded by popular petitions for it. We look upon our representatives as leading the van of opinion and progress, and not only entitled but bound to conscientiously inaugurate and carry out what they conceive to be improvements in the statute books whether the constituencies have asked them or not. If the men, who, by the responsible position they are placed in, may be supposed to be our best and brightest, like the English Thunderer, follow, and not lead public opinion, then who write M. P. P. after their names are not displaying a token of honor but a badge of servility. Apart from this the teachers of the country have time and again petitioned for further school legislation."

B. A. Michel, of London, Ont., recommends Allen's Lung Balsam for coughs and colds, and says he has used it with wonderful effect.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cases are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies are tasked so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochneil Herrings, Sea Salmon, Labrador and North Shore Herrings, Canan Herrings, Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

Belleville, December 9th, 1870. 1884

The American Agriculturist,

FOR THE
FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including beautiful original engravings in every annual number.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical Intelligent working men.

The Household Department is conducted by a lady Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1.50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year. ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it in size, being now printed on new type from the founts of C. T. Bruckman & Co.

THE EDITORIAL DEPARTMENT.—In under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Independent in politics, it will discuss live topics of the day, by experts in different departments of Dominion and European, Agricultural and Commission policies. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.—The publishers fully recognize the supreme importance of accurate and reliable Commercial Reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and will make the commercial columns of the *Gazette* immediately and permanently pre-eminent in fulness and accuracy of information to those of any other paper published in the city. Arrangements have been completed whereby the most important department the *Gazette* will be made a necessity to every business man in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT.—The Gazette will comprise a full record of every event of importance occurring in the city, including police, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS.—Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The ablest Editorials
The most reliable Commercial Reports
The fullest Telegraphic Despatches
The best Local News.
The most reliable Legal Reports
The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM
The *Gazette* is unreasonably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.—Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same, it will be sent by mail at $6 a year, or $3 for six months, and strictly in advance, and will also be furnished in city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great success of this (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway'

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative principles of the most whole products of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding the sweets that enter into the composition of this wonderful Blood, Tissue, Bone, Flesh-making Alterative are selected and gathered with the greatest care in the proper season, from the hands best, under the supervision of intelligent agents—experienced botanists, employed expressly for Dr. Radway & Co.—so that no spurious substitutes or worthless root can possibly be mixed with the genuine.

It took Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum to search for the several ingredients of the Sarsaparilla Resolvent in this branch alone of Medical Investments in this branch alone and the wonderful improvements it has secured to the curative range of Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

says for the outlay over and over again; for never in the history of medicine was such a medicine discovered for completely building up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitution.

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Is now offered to the afflicted as the most reliable Blood Purifier and Life Restorer that has ever been discovered.

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

is supplied at the blood, nourishment, and CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES

It supplies you with caloric or heat-making properties.

It cures all Scrofulous and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Internal Glands.

It increases the weight and appetite.

IT STOPS ALL WASTING DISCHARGES.

It increases the repairs and diminishes the wastes.

It cures Consumption in its first stages.

It resolves Tumors, Nodes, Hard Lumps.

It makes the skin clear and beautiful.

It heals Fever Sores and Ulcers.

It cures Bowel, Gleet, and Stricture.

It makes the water clear and pass freely.

It cures Rheumatism, and invests with the vigor of manhood those who, from weakness and disease, are deficient or exhausted.

It rescues woman from the perils incident to change of life, and restores her to health.

To those who seek Health.

There is not a man, woman or child, however rated by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wast ed beyond the possibility of repair, but can be restored by retaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and destructions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases of LIVER, KIDNEY, BLOOD and other organs are wasted, ulcerated, and their functions destroyed and seemingly altered beyond the reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, continue for a live perhaps for years; for no matter how low the vital forces may be, if the system can be supported under the influence of this tissue and flesh-making principle, the repairs will be greater than the waste and the BLOOD WILL receive that high degree of vitality, strength, and nourishment that will bring in healthful solution all its constituents, and stop the present progress of disease and decay.

CONSUMPTION, Scrofula, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of decaying tissue, and exist either in the Lungs, Kidneys, Bladder or Cellular Tissue; and these diseases can be arrested when the blood has become thin and corrosive by use of the Sarsaparillian Resolvent.

DARK THE CHANGE.

A person rated with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will perceive a marked change in her health for the better after taking the Sarsaparillian Resolvent, making the blood become more pure, rich, strong, and pour healthy, and if enabled to hold its solution in the constituents, the deposits of Tuberculous matter are then prevented from forming, decomposition and disease will be diminished in the Lungs, Kidneys, Skin and other organs, and such a State of those Organs will soon be their proper constituent secretions. Instead of Urine Bile, the Excrementitious Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels, and medicine fails in its triumph in the system, to correct these secretions, and to as set each diseased secreting gland in discharging their proper functions, health can never be restored; hap pily for suffering humanity, Radway's Sarsaparillian Resolvent accepts this important end and has thousands upon thousands of living witnesses to attest to the substances taken into the stomach during its digestion, disposition into Chyme and Chyle, that it is made blood, as well as the nourishing constituents of the several parts of the system, and when entering in the circulation, it exterminates every disease arising from the blood, and in every day deposits of disease, whether caused by the poisonous effects of scrofula, potash, or mercury, Corrosive Sublimate, i. e. the Corrosive Poison of Mercury, Calomel, and other mineral poisons that may have accumulated in the bones, tissues cartilage, muscle, or from some humiliating family complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, unceres and daily treated Venereal in its many forms Glandular Swellings, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other joints, Fever Sores, Sore Eyes, Pimples, mous Discharges from the Ears, and the worst forms of Skin Diseases, Erysipelas, Fever Sores, Scald Head, Ringworm, Salt Rheum, Scurfiness, Acne, Blotches, Boils, Worms in the Flesh, Tumors, Cancers in the Womb, Ulceration, Unnatural Discharges, Night Sweats, Loss of Sperm, and Wasting Weakness of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Insured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are incommoded by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Howard, of St. Timothée, Beauharnois, Canada East, had for nine years TWO LARGE TUMORS, one on his thigh, the other on his leg, that resisted all kinds of medicine and the skill of the most eminent doctors in Montreal and other parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvent, along with Radway's Pills and Ready Relief. He used one bottle of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills and Ready Relief, in addition, a wash of the Ready Relief and Sarsaparillian Resolvent diluted with water, which completely cured him. Here is a man that had previously spent hundreds of dollars, suffered for nine years, and cured at a cost of less than $5 dollars!

ONE SOLID SCAB,

SCROFULA CURED in Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a num ber of farms, Wells River Bridge, &c., told me of the knowledge of your medicine. His son, aged 13 years, was severely afflicted with SCROFULA. He had a running sore on his right cheek, chest, legs, and all. I saw him in September last, and he was the most revolting diseased object I ever saw. At my request he was put under the treatment of the only physicians in Canada—he received no benefit from any medicine—still he commenced using your Sarsaparillian Resolvent.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. Rates of board will be as low as at any first-class Hotel in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is developing whatever is pure, fugitive, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For the Literary Department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, MRS. CHARLES GODFREY LELAND, LOUISE S. GORR, METTA VICTORIA VICTOR, S. ANNIE FROST, MRS. DENNISON, AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK contain *fourteen* each year; no other (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

have a reputation which surpasses the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, consisting of embroidery, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MUSIC COTTAGE.—The only magazine in this country that gives these designs in the LADY'S BOOK.

CHEAPNESS.—In this we are also almost.

We have also in GODEY'S a Model Post Office, and a HEALTH department.

In the LADY'S INVALUABLE RECEIPTS upon every subject, for the Boudoir, Nursery, Kitchen, Parlor, and Toilet.

TETED LUCRATIVES.—This is a series of engravings that are too startling to commend themselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors on a scale unequaled.

Terms for 1871.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, and has enjoyed for many of which are truly marvellous. Inveterate cases of Scrofulous disease, which have baffled the skill of the most eminent physicians, have been purified and renovated by the use of this powerful antidote, long before the public scarcely need to be told of its virtues or existence.

Every one knows that Scrofulous poison is one of the most destructive enemies of the human race, destroying more lives than any other disease, directly or indirectly. Its corrupting influence permeates, undermines, and destroys the constitution, without exciting a suspicion of its presence. Again, it seems to lurk in the system for years, only to burst forth, on some favorable occasion, rapidly developing into one or other of its loathsome forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or they may form in the liver, or cause a scrofulous affection of the joints, resulting in white swellings, or in ulcers on some part of the body. Nothing but a thorough course of a bottle of this *Sarsaparilla* is adequate to such cases. Even when the disease is not actually present, Scrofula infects the blood, and transmits a taint to offspring, which, though it may not show itself for many generations, will, sooner or later, be developed in some of the children or grandchildren, unless counteracted by powerful alterative medicines. Hence, the importance of purifying the blood, in order to prevent the inheritance of this terrible disease.

Other blood diseases, such as Erysipelas, Salt Rheum, Boils, Carbuncles, Ringworm, Tetter, Scald Head, Sore Eyes, Syphilis, Mercurial Diseases, and Dropsy, are speedily cured by it. Rheumatism, Gout, Neuralgia, and Kidney complaints, arising from impurities of the blood, are always relieved by this remedy, and many apparently obstinate cases of Dyspepsia, Liver Complaint, and Female Weaknesses, yield to its tonic and invigorating effects. Minute Directions for each case are found in our Almanac, supplied gratis. Physicians, and many others, have learned by accumulations of extraneous matters in the blood, which poison the whole system, and also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice*, when arising from this cause, are relieved and ultimately cured by its purifying and invigorating effects. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* is also a disease caused by accumulations of extraneous matters in the blood, which this remedy, and also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice*, when arising from this cause, are relieved and ultimately cured by its purifying and invigorating effects. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* is also a disease caused by accumulations of extraneous matters in the blood, which this remedy will surely expel. Many publishers have been induced to publish testimonials of the cures performed by this medicine, when, in fact, they were entirely ignorant of the nature of the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and all kinds of *Female Complaints* commonly soon relieved and ultimately cured by its searching and invigorating effects. Minute Directions for each case are found in our Almanac, supplied gratis. *Sick Headache*, arising from various derangements of the stomach, is generally relieved and speedily cured by the use of this *Sarsaparilla*. *Piles, Epilepsy, Neuralgia*, and the various forms of *Nervous Diseases* of the masculine and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required in thoroughly rebuilding these obstinate maladies by any medicine. Even *Consumption*, in its early stages, will resist the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and all kinds of *Female Complaints* commonly soon relieved and ultimately cured by its searching

Two vols., Royal Octavo. 1600 pages, and numerous Engravings. Price $7. 75 Mail, post-paid, $9.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything, and rates to be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the manage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement in the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is the most useful and interesting paper ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Agriculture, Land and Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

AN OFFICIAL LIST of all the Patents Issued is Published Weekly.

Its pages are filled with new and reliable practical information. The Editors are assisted by many of the ablest and best writers in the country, and having access to all the leading Mechanical and Scientific journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

AN OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make very splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year. Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the questions, Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinions and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other its fashions are more unique, because they are sensible and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornaments of the household. It has a department for floriculture, original music, architecture, and other topics interesting to ladies—it calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

Every subscriber receives a beautiful Parlor Steel engraving, 23 by 33 inches, entitled "The Pic-nic on the Fourth of July," without additional charge, in addition to the premium as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

OR, it offers a fine Chromo, worth $8.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
335 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870 be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that a work of its country, second to no part of Canada in agricultural and horticultural resources and progress, needs and *only* sustains a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who will conveniently succeeded to be the ablest agricultural writer in the Dominion, and whose name, from long association with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Hon. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, on subjects of vary and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Jarman, of New York.

Special attention will continue to be given to the advancement of Kingsmiths, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, first-class, $1.00 a year, payable in advance.

☞ $34 Buys Seventy-two Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished in Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.
Club of 8 Subscribers, - - $ 6.00
Club of 10 " - - 8.00
Club of 20 " - - 16.00
And all over 20, at 75c per copy, free of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

A Friend.

How genial is the kindly smile
Upon a loving face!
How dear the hand that in our own
Doth warmly interlace!
When bow'd in sorrow—wet in tears
And trials us assail!
How sweet to know we have a friend
Who will not—shall not fail!

To know we have one mighty arm
To battle for our need—
One willing hand to minister,
Our little ones to feed—
To know that still through storm or calm,
He ever is beside,
To solace comfort and to cheer;
Still—still to be our guide!

Oh! take him to thy heart of hearts!
Old friend, be kind and true!
Relinquish not the golden mine
That hath much store for you;
Within there glows the light of truth—
A pure and holy flame,
That still undimm'd, for thee shall burn
Unchangeable the same!

The Brook.

Up in the wild, where no one comes to look,
There lives and sings a lonely little brook:
Liveth and sleeth in the dreary pines,
Yet creepeth on to where the daylight shines.

Pure from their heaven, in mountain chalice caught,
It drinks the rains, as drinks the soul her thought
And down dim hollows where it winds along,
Bears its life-burden of unlistening song.

I catch the murmur of its undertone
That singeth ceaselessly, alone! alone!
And hear, afar, the rivers gloriously
Shout on their paths toward the shining sea!

The voiceful rivers, chanting to the sun,
And wearing names of honor every one;
Outreaching wide, and joining hand in hand,
To pour great gifts along the asking land.

Ah, lonely brook! creep onward through the pines,
Rest through the gloom, to where the daylight shines;
Sing on among the stones, and secretly
Feel how the floods are all akin to thee.

Drink the sweet rain the gentle heaven sendeth;
Hold thine own path, howe'erward it tendeth,
For somewhere underneath the eternal sky,
Thou, too, shalt find the rivers by and by!

The Human Hand.

The human hand is beautifully formed: it *has so fine a sensibility*, governs its motions so correctly, every effort of the will is answered so instantly, as if the hand itself were the seat of that will; its actions are so free, powerful, and yet delicate, that it seems to possess a quality of intellect in itself, and we use it as we draw our breath each moment, unconsciously, and have lost all recollection of the feeble and ill-directed efforts of its first exercises, by which it has been perfected. In the hand are twenty-nine bones, from the mechanism of which results strength, mobility and elasticity. On the length, strength, motion and mobility of the thumb, depends the power of the hand, its strength being equal to that of the fingers. Without the flesh ball of the thumb, the fingers would avail nothing, and accordingly the large ball formed by the muscles of the thumb is the distinguishing character of the human hand.

The Modern Ministry.

From the Advance, Congregationalist, Chicago.

Are ministers of this generation bound to be as like the ministers of the last generation as the crows of to-day are like the crows of last century? If not, how much may they differ? Must religion always be advocated in one way? If not, what may be the range of variation? Specific rules cannot be laid down; but general directions may safely be given. Whatever the changes which occur among the generations, man remains the same in his nature, religion the same in its substance, God the same in his character, the Bible the same in its truth.

Religion is not the gloomy subject which the irreligious fancy it to be, and which some of its unwise professors and advocates cause it to appear to be; nevertheless it has to do with very serious questions and very solemn issues, and he who publicly expounds it should never seem to be a mountebank or a trifler. He should be cheerful, but it were well that he should be known in the community by some higher characteristic than his jokes. He should dread dyspepsia next to sin, and should have faith in the saying that "the outside of a horse is good for the inside of a man;" but he will hardly add to his Christian reputation by having the jockeys say, as the principal item within their knowledge, that "he drives the fastest team in town." He ought to be on good terms with all classes, that he may find his way to their hearts; but to do this it will hardly be needful for him to copy their vices; should seek variety and appropriateness in his pulpit themes and should keep his preaching in closer relationship with the actual wants of his hearers and with the peculiarities of the times; but that does not require that he should study oddity, aim at unnatural eccentricity, imitate the weakness of some strong men, or make the pulpit the very echo of daily newspapers. It does not seem to us, that a minister with a sound head and a pure heart will not go far astray; we cannot answer for such as want both brains and grace. There are respects in which preaching is changing for the better—losing dryness, stiffness, remoteness of thought, unnatural tones and manner, unsouthness of style, and sameness of topic and presentation, and coming popular, direct, appropriate, simple, cultivated, persuasive. It is far better adapted than formerly to interest and win the young, who were too often approached in a way to inspire a dread of the minister, and to repel from a Christian life. Our most earnest revivalists made mistakes in this respect upon which others if not themselves look back with regret. How much wisdom is

required in the pastor, to act gravely yet cheerfully, to preach Christ and not mere theology, to teach men to live as those who are soon to die, and yet as those who have a genuine and blessed work to do in this world. "And who is sufficient for these things?"

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:30 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:35 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a. m.	11:10 a. m.
do do do West	5:15 p. m.	6:15 p. m.
Night Mail going East	9:00 p. m.	12:25 a. m.
do do do West	9:00 p. m.	6:30 a. m.
Stirling, Marmora, Harold, &c	7:00 a. m.	5:00 p. m.
Bridgewater, Tweed, Roslin, &c	1:30 p. m.	11:45 a. m.
Madoc, Tranboe, Halloway, &c	1:00 p. m.	11:45 a. m.
Hillier, Ameliasburg, Redneville, &c., every Tuesday, Thursday and Saturday	6.00 a. m.	5:30 p. m.

Mails for Picton and vicinity are sent via Napanee, and close at 9:00 p. m. daily.

British Mails for Canadian steamers close every Thursday at 9:00 p. m.; by steamers which sail from American ports every Saturday at 9:00 p. m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a. m. to 6:00 p. m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

J. H. MEACHAM,
Post Master.

Daily Intelligencer.

BELLEVILLE, SATURDAY, JANY. 28.

A BLACK HAWK.—Mr. David R. Clapp exhibited a black hawk, a great rarity, which he shot a few days ago in Thurlow. It measured four feet and a half from tip to tip of the wings.

SIR JOHN ROSE AND THE FISHERY QUESTION.—The Ottawa *Times* is authorized to state that there has been no communication between the Canadian authorities and Sir John Rose in reference to the Fisheries, and that his visit to the United States is connected with business only of a private nature.

GRAND JUNCTION RAILWAY.—The By-law which was passed by the people of the County of Peterboro, and laid over from last session, was brought up in the County Council on Friday, the 27th instant, and defeated. The vote was 9 for and 9 against. The Warden declared that the law provided in case of a tie that the motion was lost, so refusing to vote, declared it lost.

QUEBEC STATISTICS.—During the fiscal year which ended on the 30th June, 1870, there were sold 97,640 acres of CrownLands, and 6,579 of Clergy Reserves in the Province of Quebec; 61,129 acres were also reserved for the colonization societies and 5,159 granted free. In all 159,226 were sold and 11,371 given away. The revenue from the sale of lands, Jesuits estate, crown domain, and woods and forests amounted in all to a total of $472,528.

"John Knox and his Times."

The lecture of Rev. Mr. Pearson last night in Ontario Hall was a decided success, though the attendance was not large, the house being a little more than half filled. The Chair was occupied by A. G. Northrup, Esq., President of the Young Men's Christian Association, who, after singing and a prayer by the Rev. Mr. Lewis, introduced the lecturer, who succeeded, in a lecture lasting upwards of an hour, in thoroughly enchaining the attention of the audience, frequent applause greeting his rounded periods. The character of Knox was shown to be that of an earnest, persevering reformer, who sought to free his country from the priestly thralls in which it was held at the commencement of his ministry. For this he suffered twenty months' imprisonment as a galley slave, chained to an oar; soon, however, to return and place himself at the head of the great reformation which swept Popery from the land of his birth. The scrutiny into the life of Knox was close and searching, not a circumstance in the career of that remarkable man being passed over. The lesson sought to be inculcated was that perseverance and earnest effort would accomplish much, which advice he tendered to the Association.

The lecture was one of the most eloquent we have heard in some time, the delivery being marked by an enthusiasm in the discussion of the subject which carried the auditor along without flagging until the last sentence fell from the speaker's lips.

Much applause greeted the lecturer at the close of his address, at the subsidence of which the usual vote of thanks was tendered, and the proceedings were closed by the Rev. J. C. Smith pronouncing the benediction.

Ontario Legislature.

FRIDAY, Jan. 27th.

In the House yesterday the principal matters under discussion were the bills respecting election petitions, the resolutions relating to the master in ordinary and the referee of the Court of Chancery, and also the resolution respecting the accountant of the same court. Mr. Blake intimated his intention at another stage to move amendments to the bills. A number of private bills were advanced a stage. The School Bill came up again for discussion; but as some important amendments were to be made, Mr. Cameron consented to allow the debate to be postponed for two or three days, when the bill is already amended and the amendments proposed to be made will be printed for the convenience of members. The Speaker read a message from the Lieut. Governor transmitting to the House a copy of the Estimates for the current year upon which the House will go into Committee of supply on Tuesday.

Clergy in British America.

From returns furnished to the publisher of the Canadian Dominion Directory, the number of Clergy belonging to the several denominations in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Newfoundland and Prince Edward Island, is as follows:—

CHURCH OF ENGLAND.

Diocese of Montreal	83
" Quebec	52
" Toronto	149

Effect of Cold on Railways.

The Montreal *Gazette*, referring to the recent cold weather and its effects on Railway traffic, quotes the London *Times* of the 6th inst., which states that the running of the London and North-Western Company's trains, especially the fast ones, have been rendered not a little irregular, and we are told that "the delays have been occasioned by the precautionary measures taken during the intensity of the frost for the safety of the traffic, comprising a reduction in the speed of the fast passenger trains, and more frequent stoppages for the examination of the carriage wheels, &c." The *Gazette* says this statement is interesting in the comparison which it suggests between the conditions under which are worked respectively the railway systems of our own and of the mother country, and goes a long way to prove how unreasonable are the captious grumblers who would seek to magnify into a national grievance the occasional detention to which Canadian trains are unavoidably subjected during the Canadian winter. If, with only seventeen degrees of frost it is found necessary on a well constructed English road to considerably reduce the speed of the trains, it is not surprising that with fifty-eight degrees of frost in Canada trains are *not* always able to run on time. It is certainly far better to be a few hours late on a long journey than by a speed excessive for such weather, to run the risk of accidents capable of killing a dozen people at a time!

The *Gazette* finds cause for satisfaction in the fact that the late extreme cold has had no injurious effect upon the steel rails of the Grand Trunk Railway, while the iron rail is found under such conditions to break freely and frequently. Out of the 60 miles of steel rails laid down last year, there has not this winter been a single rail broken. It is, we understand, intended to lay down an additional 85 miles during the present year, and from the very satisfactory results already experienced, it seems probable that all renewals will in future be made with steel rails. It gives us additional pleasure to know that, notwithstanding the persistent efforts of a certain notorious journal to divert, so far as its influence can hope to extend, both passengers and freight traffic from the line, the Grand Trunk is absolutely doing at this moment a larger business than it has ever yet done in the corresponding seasons of former years, the increase in receipts, both from freight and passengers, being very large and marked over those of the winter of 1869-70.

In connection with this subject it may not be out of place to submit the following tabulated statement of the comparative receipts for the mid-winter season of the past five years, which will be found eminently satisfactory:

Week ending.	£	Miles.	£
Dec. 31, 1870	26,500	1,377	
Jan. 1, 1870	26,500	1,377	
" 1869	24,519	1,377	
" 1868	24,701	1,377	
" 1867	21,312	1,377	
" 1866	20,560	1,377	
Jan. 7, 1871	28,400		
" 1870	24,900		
" 1869	27,533		
" 1868	24,412		
" 1867	25,729		
" 1866	23,297		

The four weeks ending January 7, 1871, show an increase of about $50,000, or £117-200 sterling, against £107,400 of the preceding year.

Fire in Kingston.

Special telegram to the Intelligencer.

KINGSTON, Jan. 28.

A fire broke out this morning in the rough cast building on the corner of Sydenham and Queen streets, occupied by Rappe's melodeon manufactory, and Chamberlin's soda water manufactory. The building was insured for $1,000, Rappe for $2,000, and Chamberlin for $600.

Around Town.

The Town Council will meet on Monday night next.

The Division Court sits at the Court House on Monday.

Sleighing is still excellent, and business has begun to revive again.

There was no business at the Police Court this morning.

The market this morning was crowded with farmers' sleighs. Prices remained without change.

The week now closing will long be memorable as the coldest period which has prevailed here for many years.

What about the Town Hall chimneys? The smoke in the Council Chamber is still a nuisance.

St. Andrew's Church annual Missionary Meeting is to take place on Wednesday evening, 1st February.

A meeting of the Belleville Branch Bible Society is announced to be held in the rooms of the Young Men's Christian Association on Monday evening.

A petition to the Town Council for the creation of a system of water works, with a reservoir on Taylor's hill, has been in circulation lately.

Jack Frost has resumed his rule, broken for a short time yesterday. Sellers of wood are the only persons jubilant over the "cold spell."

Persons dependant on the Corporation pumps for their supply of water, are bewailing the scarcity of the liquid caused by the freezing of the pumps.

In the absence of Rev. Joseph Wild, his pulpit will to-morrow morning be occupied by Rev. Mr. Blair, and in the evening by Rev. Mr. Lewis.

One $1,000 is offered to any inventive genius who will devise means of ridding grain elevators of rats. Well, send the grain elevators to Paris and send us your thousand dollars.

The stream of vehicles pouring into town this morning by the principal avenues of communication, was larger than on any Saturday since the holidays; the roads being lined with well-laden sleighs.

The Chairman of the Poor and Sanitary Committee requests parties who know of any cases of distress in their neighborhood to make them known to him, in order that the wants of the deserving poor may be relieved.

At this season, when amusements of all kinds are so plentiful, it will be well for the charitably disposed to remember the St. George's Society's annual ball, which is to come off on next Thursday evening, February 2nd. A liberal patronage will ensure the dispensing of comforts to many poor people who at present stand much in need of aid.

Meteorological Statement,

BY MR. BURDON.

Comparative statement of minimum temperatures in the following years, (generally omitting fractions).

The lowest temperature in

1859, 30 deg. below zero,	occurred	10th January
1860, 14	"	"	5th January
1861, 26	"	"	14th January
1861, 32	"	"	8th February
1863, 7	"	"	4th January
1863, 24	"	"	4th February
1866, 19	"	"	17th February
1866, 22	"	"	13th February
1866, 20	"	"	8th January
1867, 37	"	"	30th January
1868, 19	"	"	28th January
1869, 7½	"	"	22nd March
1870, 17·4	"	"	14th January
1871, 25	"	"	23rd January

The years in which the coldest "spells" occured were 1859, 1861 and 1871. On the 10th January, 1859, the temperature fell to 30 degrees below zero, but on the 14th January, 1861, it sank to 26 degrees, and on the 8th February of same year, to32 degrees below zero, or 64 degrees below the freezing point. The temperatures by which the two last mentioned temperatures were immediately preceded and followed, may be given. Thus the lowest temperature on

9th January, 1861, was 3 degrees above zero.			
10th	"	2·10	" below zero.
11th	"	18	" "
12th	"	8½	" "
13th	"	30	" "
14th	"	36	" "
7th February, 1861, 13 degrees above zero.			
7th	"	25	" below zero.
8th	"	32	" "
9th	"	19	" "
10th	"	3	" above zero.
11th	"	4½	" "

Compare the temperatures in January and February, 1861, with those that provailed during the present week.

The lowest temperature on

22nd January, 1871, was 14 degrees below zero.			
23rd	"	25	"
24th	"	17	"
25th	"	11¾	"
26th	"	16	"
27th	"	8½	"

The lowest temperature during last night was 2 3-10 degrees below zero. The self-registering minimum thermometer is examined daily at 9 p. m., and shows then the lowest temperature that has occurred during the preceding 24 hours.

Belleville, 28th January, 1871.

A Coal Pit on Fire for a Hundred Years.

From the London News.

One of the most curious phenomena in connection with coal mining is exhitted at the Bank Colliery, near Rotherham, the property of Earl Fitzwilliam. This pit caught fire 100 years ago, and all the efforts of the workmen at the time, and subsequently, have been quite ineffectual to extinguish it. A short time ago it was ascertained that the flames were approaching the bottom of the shaft, and it was then resolved, if possible, to stay their progress, so that they might not extend to other parts of the workings. At length the Superintendent of the collieries, Mr. T. Cooper conceived the idea of building a wall to shut in the fire, and in order to ascertain the best site for this wall, several of the officials crept on their hands and knees, through the dense stifling smoke, as far as possible into the workings. Their efforts were successful, and a wall is now completed nearly 1,000 yards in length, and varying from nine inches to five feet in thickness. At distances varying from 30 to 50 yards metal pipes have been inserted in this wall, which are securely plugged at the end, so that any time, by removing the plugs, the state of the air on the side of the fire, and even the position of the fire itself can be ascertained. So intense is the heat arising from this fire that people possessing gardens above the colliery declare that the growth of plants is materially affected, and that they are enabled to obtain two or three crops every year.

—A sermon in four words on the vanity of earthly possessions:—"Shrouds have no pockets."

News Condensed.

Ex-Secretary Seward is now in Canton.

Mrs. Lincoln is in London and in poor health.

An Indian war has broken out in Yucatan.

Brigham Young is said to be worth about $8-000,000.

Preparations are being made for sinking a salt well in Kincardine.

Monograms have broken out fiercely in two new plaids—the corners of gentlemen's collars and the gauntlets of ladies' gloves.

Virginia complains of a scarcity of leaf tobacco, and cigar men are thinking of raising prices five cents more.

The King of Holland's chief accomplishment is reported to be a fine appreciation of champagne.

It is impossible to form an independent character except when thrown upon your own resources.

There was a terrific explosion in the Brooklyn city gas works yesterday, by which three men were killed and the surrounding houses shattered.

A carriage was upset in Auburn the other day by an infuriated animal that was afterwards descriptively referred to by a modest lady as a 'bachelor ox.'

A Puzzled Dutchman

A Wisconsin secular paper contains the following good story: One who does not believe in immersion for baptism, was holding a protracted meeting, and one night preached on the subject of baptism. In the course of his remarks he said, some believe it necessary to go down into the water, and come up out of it to be baptized. But this he claimed to be fallacy, for the preposition "into," of the scriptures, should be rendered differently, for it does not mean into at all times. "Moses" he said, "we are told, went up into the mountain, and the Saviour was taken into a high mountain, etc. Now we do not suppose that either went into a mountain, but unto it. So with going into the water; it means simply going down close by or near to the water, and being baptised in the ordinary way by sprinkling or pouring."

He carried this out fully, and in due season and style closed his discourse, when an invitation was given for any one disposed to arise and express his thoughts. Quite a number of the brethren arose and said they were glad they had been present on this occasion, that they were well pleased with the sound sermon they had just heard, and felt their souls greatly blessed. Finally a corpulent gentleman of Teutonic extraction, a stranger to all, arose, and broke a silence that was almost painful, as follows:

"Mister Breacher, I ish so glad I vash here to-night, for I has had explained to my mint some dings dat I never could belief perfore. Oh I so glad into does not mean into at all, put close by or near to, for I now can pelief manish dings vot I could not pelief pefore. We reat, Mister Breacher, dat Taniel was cast into de ten of lions and came out alife! Now I uefer could pelief dat, for the wilt beast would shust eat him right off; put now it is fery clear to my mint. He was shust close py or near to and tid not get into the ten at all. Oh, I ish so glad I vash here to-night.

"Again we reat dat de Hebrew children vas cast into de firish furnance, and dat all alwish looking like a peep story too, for they would have peen purnt up; put it ish all plain to my min't now, for they were shust cast near by or close to the firish furnace. O I I vas so glad I vas here to-night!

"And den, Mister Breacher, it ish said dat Jonah was cast into the sea and taken into the whalesh belly. Now I never could pelief that. It always seemed to be a peep feesh story, but it ish all plain to my mint now. He wash not into de whalesh belly at all, but shust shumpt onto the his pack and rode ashore. O! I vash so glat I vash here to-night!

"And now Mr. Breacher, it you will shust explain two more passages of Scriptures I shall be, O, so happy dat I vash here to-night! One of them was vere it saish de vicked shall be cast into a lake that purns with fire and primestone always. O! Mister Breacher, shall I pe cast into that lake if I am vicked, or shust close py or near to shust near enough to be comfortable? O! I hopes you tell me! shall be cast only shust by a good yay off, and I vill pe so glad I vas here to-night! The other passage is that vich saish, blessed are they who do these commandments, that dey may have right to de tree of life and enter in through the gates of the city and not shust close by or near to, shust near enough too see vat I have lost and I shall pe so glad I vas here to-night.

—Connecticut has leather weddings. "Two soles with but a single," &c.

—Mrs. Deborah Berry, of Wood County, Ohio, is 115 years old, and not ready to be otherwise buried yet.

—A bar of gold worth about $5,000 was brought to Halifax city last week from the Montague Mines.

THE CONFERENCE.

Latest facts and rumours from Europe.

NEW YORK, Jan. 27.—A London despatch to the 'World says:—

"The conference yesterday had a discordant session of two hours."

VIENNA, Jan. 25.—An official denial is given to the newspaper version of the instructions given to the Austrian plenipotentiaries at the London conference relative to the guarantee by the powers of the free navigation of the Danube.

GREAT BRITAIN.

The Canada Fishery Question.

LONDON, Jan. 26.—The Anglo-American Committee, composed of eminent political, legal and military men, will shortly publish an exhaustive report on the fishery question and other points of difference between the United States and Canada. The conclusions of the report are generally somewhat unfavorable to the Americans; but nevertheless take the ground that the Canadian pretensions on the question of headlands are unfounded.

—In Pesth recently a Hungarian nobleman eloped with his wife's mother. This is a new way of revenging one's self on a mother-in-law.

A jury at Terre Haute brought in a verdict that the deceased died 'by the visitation of God, in the usual way.' The 'usual way' was a delicate hint at kerosene, as deceased had a fire that wouldn't go alone, so he poured on a little.

An Indianapolis German had occasion to bury a large wife, and squabbled with the sexton about the fee. 'Tat ish not a big grave,' said the disconsolate husband. 'Not a big grave!' indignantly responded the sexton; 'why, hang it, that's a cellar!'

A man lost his wife, and had a stone erected over her grave. He married a second wife, and when she died he had the gravestone split, and it then served for the two departed. He proposed to the third the other day, and she quietly remarked, "I do not believe that stone will split again."

Hippography is introduced in London. A man has been arrested and held for trial on a charge of having, by his own confession, been in the habit of slaughtering large numbers of horses to be manufactured into sausages. He has in operation one boiler capable of boiling down two or three horses at once.

Latest by Telegraph.

BY ATLANTIC CABLE.

The War in France.

Midnight Despatches.

LONDON, Jan. 25, 7:34 p.m.—A despatch from Berne says:—

"Since the 23rd French pickets have been posted along the frontier, preventing egress from France into Switzerland and imprisoning strangers. There are many France-tirears near the Swiss boundary, and their pickets are in the vicinity of the town of Villars. The German patrols extend to Abbervillers. The Germans have stormed Gray, Rouhe, and repulsed the French in an attack upon Villars."

BERLIN, Jan. 25.—The destruction of the bridge at Toul does not interrupt the transportation of munitions.

MONTMEDY, Jan. 25.—There was a collision in a tunnel yesterday of trains, one carrying German recruits for the guards and the other French prisoners. Many prisoners were killed and a large number injured. The collision was accidental.

LONDON, Jan. 26, 3 p.m.—On enquiry at the German legation here at noon to-day, it was ascertained that no information of the capitulation had been received there, and at the British foreign office, up to a late hour last night, the reports that M. Favre had made propositions for capitulation remained unconfirmed.

A Lille despatch says that the Prussians are retreating in the direction of the Somme. They have abandoned the siege of Cambrai and other fortresses in the eastern portion of the department of the north. On Monday their headquarters were at Crevecœur.

Morning Despatches.

Empress Eugenie on the Peace Question.

Negotiations continue with doubtful Results.

Bonapartists Active.

Capture of Longwy.

Disturbance in Paris.

Collision between the National Guard and Mobiles.

Vinoy in Command at Paris.

Favre Returned to Versailles.

Gambetta on the Situation.

War will not end if Paris Falls.

NEW YORK, Jan. 27.—The *World's* London special of the 26th, says in correspondence which has passed between Empress Eugenie and Bismarck: Her Majesty invariably refused to assent to any peace terms involving the dismemberment of France.

Negotiations at Versailles still continue with doubtful result.

BRUSSELS, Jan. 26.—Two Belgian Carbineers have been shot by France-tireurs. In consequence of this outrage the local authorities arrest all France-tireurs found on Belgian territory.

The "Independent Belge" says never before has there been such activity among the Bonapartists as at the present moment. There is constant journeying of couriers between Chiselhurst, Wilhemshohe and Versailles, and the Centre of Intrigues is at Brussels. The "Independence" loudly warns France against the danger with which she is menaced by these manœuvers. Pietri, Vandal, and Gen. Fleury, have arrived at Wilhemshohe.

ARLON, Belgium, Jan. 26.—The Germans marched into Longwy at 10 o'clock yesterday morning. The French garrison has been sent to Thionville and Metz. By the terms of capitulation, the National Guard are not prisoners.

NEW YORK, Jan. 27.—The "Tribune" special from Paris, 23rd, says: There was considerable disturbance on the 22nd. A detachment of three hundred National Guards attacked the Hotel de Ville. The Mobiles defended it, and were firm. The affair lasted a quarter of an hour. The official report gives 5 killed and 18 wounded. The attempt to create resution was completely suppressed. A successful attack was made on Mozas prison, and Flourens and others were released.

The "Tribune" special dated London, 26th, says: Vinoy has accepted command in place of Trochu on condition that stern measures shall be adopted to repress disturbances. The radical clubs are closed, *revoil de combat* is suppressed, and numerous arrests have been made.

The deaths last week were 4,465.

The *Tribune's* special dated Versailles, Thursday, states that Favre returned to Versailles on Wednesday evening.

Firing still continues.

The *Herald's* Bordeaux correspondent telegraphs that Gambetta in an interview stated, even should Paris fall it would have no effect whatever in stopping the war, unless the Prussian conditions of peace were altered, but he believed the people of Paris would burn the city sooner than capitulate. He and his colleagues, in and out of Paris, had firmly determined war must continue no matter what the consequences are, sooner than accede to the present terms. They were willing to pay every reasonable indemnity for the crimes of the Empire, and give such security as reasonable men may think sufficient, and not to arm against Germany. Gambetta thought England had made a great mistake in allowing France to be dismembered, and spoke with some bitterness of the first mentioned nation.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4 P. M.

NEW YORK, Jan. 28.—The "Ocean Queen" from Aspinwall, has arrived. Gen. Robert C. Schenck, United States Minister to England, is at the Brevoort House, where he arrived last night from Washington.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied their constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her, especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m:

"How necessary that the nervous apparatus should be perfect and the brain vigorous; when either becomes exhausted through overwork or other improper cause disease in some is developed. The remedy lies in removing the cause. By using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES the lost tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1y

Parties who have used Johnston's Patent Westner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentee and Manufacturers, Box 147, Lindsay, Ont. 77:2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Roeger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have always found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us; times when our minds and bodies have been so overworked and are so worn out, that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 5 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } Two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs.* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitcoathly and Thomas Kelso, Plaintiffs, *vs.* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L., in 1854, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer* Office

The Printer's Hohenlinden.

In seasons when our funds are low,
Subscribers are provoking slow,
And few supplies keep up the flow
Of dimes departing rapidly.

But we will see a sadder sight,
When duns pour in from morn till night,
Commanding every sixpence bright
To be forked over speedily.

Our bonds and due bills are arrayed,
Each seal and signature displayed;
The holders vow they must be paid
With threats of law and chancery.

Then to despair we're almost driven,
There's precious little use of livin'
When our last copper's rudely riven
From hands that hold it lovingly.

But larger yet those bills shall grow
When interest's added on below,
Lengthening our chin a foot or so
When gazing at them hopelessly.

'Tis so, that scarcely have we begun
To plead for time upon a due,
Before here comes another one
Demanding pay ferociously.

The prospect darkens—on, ye brave!
Who would our very bacon save!
Waive patron, all thy pretexts waive,
And pay the printer cheerfully.

Ah! it would yield us pleasure sweet
A few delinquents now to meet,
Asking of a clear receipt,
For papers taken regularly.

Improve your Sheep.

(From Hearth and Home)

Most men who breed sheep are accustomed to isolate the rams about the 1st of August, and then return them to the flock again about the 1st of November, or later, as the latitude may determine.

Through the middle tier of States, the 1st of April is probably the best time for spring lambs. The mothers need green food as soon as may be after their young are dropped, and that is generally ready from the 20th of the month to the 1st of May. Further north, the middle of the month is early enough, as the weather is colder, and the starting of the grass much more backward.

To keep the flock constantly improving, the first necessity is to change bucks frequently.

We would suggest every year if it is possible, to make a selection from a foreign flock that shall equal your own.

Another way is to hire a thorough bred ram at any reasonable cost, and thereby introduce into your flock blood that will improve it, always keeping in mind, when the selection of a sire is made, what you propose to do with the progeny that shall come from this animal. One whose aim is to get good and early lambs for market would not introduce merino blood: or if he wanted fine wool, neither a Cotswold or Southdown.

Not less in importance is breeding from the best ewes. Any flock of sheep will deteriorate unless the best are saved for breeders. Seven seasons are enough for even the best of sheep to be kept as breeders. After nine years old, they lose so much of their vitality and their milk producing qualities, that the lambs are generally below the average. Even as the lambs are weaned—which should be by the middle of September, if they were born in the middle of April—all the ewe sheep in flock that are not of suitable age, or suitable form, and of suitable health, for mothers, should be taken out, and in some way be disposed of. They can generally be fattened in the fall or early winter, and either sold to the butcher, or, if the number is not too large, can be consumed in the family, in lieu of more saleable but not more nutritious meats.

The place of these thus discarded should be always filled from the best of the lambs, if it is desirable to keep the flocks about the same size. Hundreds of farmers who sell early lambs are guilty of the folly of selling the best, and allowing those that will not sell to go through the winter, and eventually become mothers. This would seem to be a saving, but it is, instead, a suicide. When the best are saved for breeders, the flock is constantly improving, when the poorest are permitted to become such, there is a gradual deterioration, and an ultimate (to use an expressive phrase) running out.

No farmer is worthy the name and age who is not always on the alert to make both his farm and the stock upon it better. It does not require capital to do this so much as it does care, and in the end the best farming and the best stock-raising pay the best; and to the bottom line all eventually comes.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—at being now printed on new type from the foundry of C. T. Palgrave, Esq.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Political matters will receive the full and live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS,

The publishers fully recognize the supreme importance of accurate and full Commercial reps in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have organized the departments which will make the commercial columns of the *Gazette* unnecessarily accurate. In point of fullness and accuracy of information to those of any other paper published in this city, the efforts of a staff of first-class talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Ed'orials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immensely superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION,

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 for six months, payable in advance, and will also be furnished, in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.
DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) of this system of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active principles of the vegetable products of the vegetable kingdom. The Sarsaparillian and other foreign and native extracts that enter into the composition of this wonderful Resolvent are the best of the kind—they are selected and gathered with the greatest care and the purest quality, from their native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co., to find no spurious admixtures or worthless roots can possibly be mixed with the genuine.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the mere item of the expenses of scientific Botanists in this branch alone But the wonderful experiment it has secured in the curative range of Dr. Radway's Remedies, vastly especially the

SARSAPARILLIAN RESOLVENT,

says for the outlay over and over again; for none is the learning of medicine so perfect a medicine as to completely build up, repair, and make sound and healthy, when reduced to the lowest ebb, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-giving properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the appetite and digestion.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the waste.
It exterminates the products of decay.
It cures Kidney Tumours, Nodes and Stricture.
It makes the water clear and pass freely.
It cures liver complaint, dyspepsia with the vigor of manhood those who, from weakness and debility, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of menses.

To those who seek Health.

There is not a man, woman or child, however afflicted by disease, if their systems are able to sustain life to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs are not so beyond the process of repair, or if capable of retaining the regenerative power of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay like new added in sufficient quantity.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will be cured by the use of the Sarsaparillian Resolvent, continue to live patient for years; for no matter how low the vital forces may be, if the system can be brought up to the sufficiency of this Tissue and flesh-making medicine, the repairs will be greater than the waste and decay, BLOOD WILL become rich, full of life and strength, purity, and nourishment to enable it to hold in healthful action all the organs of the body, and the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of VENEREAL, when developed through the various deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue, are cured in these diseases in their advanced stage can both be checked and entirely by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Kidneys, Stomach, Bowels, Blood, Womb, or Urinary difficulties, will experience a marked change for the better after taking the Sarsaparillian Resolvent. *In a short time they will become more pure, rich, strong, and sound-looking, and the cough, pain, or other symptoms of the complaint will cease. As the various organs and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will exert their proper constituent secretions. Instead of Urine, Sweat, Sebaceous Matter and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the glandular organs, these secretions, and do not cast each organ or secreting gland in discharging it, proper functions, health can never be restored. Especially for suffering burning, Radway's Sarsaparillian Resolvent secures this important result, and no other heretofore existed in all these remedial agents to accomplish the same thing.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones of disease and corruption may be, the influence of this power is to arouse the living blood and other fluids from the dwelling body with repairs, will so change the system with its healthful influence as to resolve and eliminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By its chemical action which the Sarsaparillian Resolvent has on the blood, it neutralizes those acids which are the process of digestion into Chyme and Chyle, before it is received into the blood, and on the stomach converts it converts into blood, and its specific action when received into the circulation, it destroys every atom of virus from the blood, and resolves every cell of every disease, whether consisting in the action of some specific poison, or virulent disease, a Mercury, Cancerous Substance, &c., &c. Its action on Chloride of Mercury, Calomel, and other agents that may have been accumulated in the bones, glands, cartilages, or joints, or from some transmissible taint or poison that may have run through half's fifteen generations.

Scrofula, Consumption, syphilis, uncures and other impurities of the blood by the use of Radway's Sarsaparillian Resolvent, aided with Radway's Pills and Ready Relief. It used only three bottles of the Sarsaparillian Resolvent, and five boxes of Radway's Pills, and Ready Relief, as a lotion, a wash of the Ready Relief and Sarsaparillian Resolvent, diluted with water, which completely cured him. Here is a man that had previously been given over by doctors, for nine years, and cured at a cost of less than five dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

Dr. Radway—One of the wealthiest citizens of Wells River, owner of nearly 1,000 acres of land, and owner of Paper Mills, Woollen Mills, &c., told me of his knowledge of my medicines. He had 19 years, and was covered with one SOLID SCAB, covering the entire body—head, face, and limbs. He was given up in September last, and he was the most revolting and disgusting object I ever saw. At my request he was put under the treatment of Radway's Sarsaparillian Resolvent and Ready Relief and Pills. One month since, on returning to Canada, I saw the father, who told me that his son was entirely cured. I know of many who have been cured of Fever Sores, Erysipelas of the Legs, Blood Tumors, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding of the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Wesser Station, Ontario, Canada West,
Dr. Radway—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was given over by your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was stayed, and the night sweats ceased. I continued to use six bottles and now am free from all disease, and the threatened Consumption have disappeared. I feel my health fully restored. JONATHAN FIRELAND.
N. B.—This gentleman was well known to have been under the treatment of the best physicians in Canada—he received no benefit from any medicine until he commenced taking Radway's Sarsaparillian Resolvent. GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT.
439, ST. PAUL STREET, MONTREAL.
Sold by Druggists and general Storekeepers at $1.00 per bottle, or $6.00 for 6 bottles.

Geo. Gibson

ALBION HOTEL,
MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate charge of $1.00 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the aim of the Publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, delightful, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For the Lassey Department, in past years,

THE BEST WRITERS

in the literary world have contributed, and will continue to furnish articles for its pages. Such names as

MARION HARLAND, (NO CHURCHILL),
LOUISE S. CORK, METTA VICTORIA VICTOR,
S. ANNE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS,

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE

Of these the LADY'S BOOK gives one every month each year *superior* (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXCELLENCE IN PARTICULAR—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty articles in embroidery.

ORIGINAL MUSIC.—Godey's Lady's Book is the only magazine in which music prepared expressly for it appears.

HOME CULTURE—Our readers and their families are constantly receiving information about the body and mind, which more than repays them for the price of subscription.

THE COOKING RECEIPTS

Are from the pens of those who are known to be thoroughly practical housekeepers, and can be relied on.

GODEY'S INVALUABLE RECEIPTS

Upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TEXTILE EMBROIDERIES.—The finest engravings of this character ever published in a lady's book, and are alone worth the price of subscription.

ORIGINAL DESIGNS.—Godey's Lady's Book is the only magazine in which music prepared expressly for it appears.

LADIES' ART WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1871.

Godey's Lady's Book and Arthur's Home Magazine one year, $4 00.
Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 50.
Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.
Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.
The Three above publications will be sent one year to one address, and additional may be made to clubs at the above rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the LADY'S BOOK, and 12 cents for either of the other magazines, to pay the American postage.

How to REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, payable to the Order of L. A. Godey, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the owner. If a Draft or a Post Office Order cannot be procured, sent United States or National Bank notes.

Address L. A. GODEY,
N. E. corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters
FROM
1870. Plantagenet, Ont. 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its well established merits, its standard position, has gained for itself a high and honored name before all! tained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid he deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the most wonderful Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equaled; it is pleasant and palatable to the taste; it gives the system such a fresh supplies of all substances which are calculated to irritate or weaken; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Rheumatism, Gout, Kidney Complaints, Nausea and Nervousness (caused by Debauch), Headache, Biliousness, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Irritation of Bowels, Sick Headache, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,

E. Chandler,

Charters & Co.

James Hambly.

J. C. Holden & Co.

L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, both at home and abroad, is the result of many of which are truly marvellous. The most inveterate cases of Scrofulous disease, where the blood seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were apparently the result of hereditary contamination until they were painfully afflicting, have been entirely cured in such great numbers in almost every section of the country, that the public cannot be ignorant of its virtues or neces. sity. No other alterative has the power to expel the destructive elements of our race. Often, this unseen and unfelt poison fastens upon the vitals, undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to break out on the body and limbs, and then, on some favorable occasion, rapidly develop itself in the form of the loathsome forms of Erysipelas, Sore Eyes, Sore Ears, and other eruptions of the skin. Frequently deposited in the lungs or heart, or tumors formed in the liver, or it shows itself externally in the form of Rheumatism, or Dropsy, or Scrofula in some parts of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease exist. *Sarsaparilla* is a great help to digestion, imparting generally find immediate relief, and, after a short time, by the use of this A. *Ayer's Sarsaparilla*. *Ayer's Sarsaparilla*. *St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Carbuncles, Sore Eyes, Sore Ears*, and other eruptions of the skin, are literally expelled from the body in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Piles, Epilepsy, Neuralgia*, and the various forms of *Kidney, Urinary, Uterine Diseases*, and *Female Complaints*, will find immediate relief, and continuing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.
NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.
For sale in Belleville by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any remedy been held so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men, it has been in use, it has been the object of attention, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. Hence, in almost every hamlet some of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs, to which a physician is exposed in the performance of his duties, should be provided with this antidote for them.

Although settled, and long established as incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So confident are its makers over the disorders of the Lungs and Throat, that the most obstinate of these yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside, and disappear.

Singers and Public Speakers find great protection in it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is needless to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Dumb Ague, Fever, Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

At its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, nor any form of mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of the cures in the ague districts, are literally beyond account, and we believe there is scarcely a hamlet in the whole Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had failed. Unacclimated persons, either resident in, or travelling through, districts where Fever and Ague prevail, by taking the *AGUE CURE* daily,

For Liver Complaint, and the various derangements that the Liver, it is an excellent remedy, stimulating the Liver into healthful action.

For Bilious Disorders and Liver Complaints, it is the best remedy known to the world. In all cases of remarkable cures, where other medicines had failed, Dyspepsia, Loss of Appetite, Irritation of Bowels, Sick Headache, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of every month, and gives the latest and best compositions of the most popular authors in the country. PETERS' Music, by such authors as Thomas, Danks, Rockel, Bishop, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and neatly bound. Each of the pieces of which is sold at sheet music prices, every piece of which is after words printed on sheets from the same plates, and sold at from 30 to 50 cents each, and all we ask is a trial subscription of 25 cents a copy or $2 a year, $1.50 for six months; and we promise to give more than twice as much music for the money as can be had elsewhere. Specimen copies sent free of charge. Address PETERS' MUSICAL MONTHLY, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH For 1870. $1,500 CASH
A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January, and having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is ably and thoroughly conducted, by one of the most popular writers in this country and Europe are contributors. Every number has 16 superb pages embellished with fine engravings of Machinery New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings, &c.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thrifting country, a MILLION READERS.

Wherever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at the Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS*. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for obtaining a complete knowledge of the progress of Invention and Discovery throughout the world; and obtain more Patents, &c., than those of any other agency in the country. Inventors should remember that these are not

WORTHLESS PATENTS,

but the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains fifteen likenesses of Inventors distinguished in their respective departments. It is a superb work of art.

Single pictures printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

$1,500 Cash Prizes.

In addition to the above premiums, the Publishers will pay fifteen hundred in CASH PRIZES for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes should send at once for prospectus and blanks for same.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies and free address the Publishers MUNN & CO.,
37 Park Row, New York.

How to get PATENTS.—A pamphlet of Patent Laws and instructions to inventors sent free

Long Life Secured.

Let every woman who enters the critical period preparatory systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that period is suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided by Radway's Pills, and they will enjoy such a high state of health that will prolong their days to the utmost limit allotted to the sickness of former years

ALL FEMALE DIFFICULTIES,

Even the earliest stage of female suffering from Retention, Prolapsus, Chlorosis, Cachexia, Bile Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

It seems to bring health and vigor to the whole frame, and restores the counterfeit appearance of health.

Scrofula, Scrofulous Humors, Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate and destructive diseases. Her give great satisfaction.

Syphilis or Venereal and Mercurial Diseases can be cured by it, though a long time is required for subduing these obstinate and destructive. Her give functions. Rarely will it be necessary to call in a physician. Where Radway's Remedies are kept in the house. In all cases arising from, or aggravated by impure blood or humors, Radway's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.
DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the all injurious matter that may be found in the system, or the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has long studied one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a THOROUGH, APPARENT, COUNTER-IRRITANT, ALTERATIVE PURGATIVE, when taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING MATTER in the human body and also safe to take in the most malignant of erysipelatous Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug as a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdoms. Containing not any preparations of mercury, for centuries supplied the alterative, (and the most valuable for it is admistered in 900 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Colocynth, and other drastic drugs supplies the Cathartic, not only for the medical practitioner, but for all parts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all it properties to the most choice remedial agents known to Medical Science. They differ from and expel in all other pills in general use, and the only Vegetable Pill evidence that supplies the

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be found in the three or more different prescriptions of the medical practitioner.—As a proof of this Dr. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold by all Doctor prescribes Blue Pills or Calomel next some Purgative Pills, and in order to secure the effect of the blue pill. This frustrates you; and a tonic is given, to counteract the effects produced by the Calomel. DR. RADWAY'S PILLS *will do all the work that is done in all cases*, where a purgative is required, without any risk from mercurialising or salivating the system.

Why is Purgative Necessary?

There are two principles which exist in every living human body; one is the constant tendency of decomposition, [these humours or elements that are rejected by the absorbents and lacteals as *refuse*, the other is that of nutrition. It becomes necessary for the life of the body that the decayed and putrescentitious elements be *dismissed* and the nutritious absorbed. For the removal of the first the human body is supplied with lungs, kidneys, liver, skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that ever came to that important results as *thoroughly*, HAPPILY, and without COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures in every instance proves it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER.

Bilious Fever

In the world. There is no Ague or Fever Cure Chalybeate or preparation of Quinine, Arsenic, Calomel, or forms of Mercury, or, infact any thing else that will cure this disease so positively so safely as

Radway's Ready Relief.

No, not one. Thousands from every section of the Continent, Europe, and the United States, have tried it. Cures and Fever and Ague, Chills and Fever, Scarlet Fever, Typhoid Fever, Bilious Fever,

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and the travelling public, when for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerliken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is exceptionally reasonable, they hope to obtain a large share of public patronage.
H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

In practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. These Editorials are standard by many of the oldest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

AN OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to twenty four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25. With a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free, on application. All business strictly confidential. Address
MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Call and inspect the Stock before purchasing.
H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 324 tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Shrouds, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know of.

It is more complete in its departments than any other Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the first talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 20 by 25 inches, entitled "The Finish on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lilian M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

In, it offers a fine Chromo, worth $6.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 18 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont., Messrs. T. & H. White having purchased a proprietory interest in it, and become its publishers, in the belief that the region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Sheldon, Prof. C. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and they will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seed-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advert isements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 336 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

Communications intended for publication, Items of agricultural intelligence, &c., may be addressed to

Editor Ontario Farmer, Guelph.

Meerschaum—Its Value and Uses.

There are so many errors prevalent concerning the origin of meerschaum that a few correct particulars may not prove uninteresting. It is a sort of chalky clay, which, owing to its lightness, the Turks call "Kefle Keil," meaning foam, or light earth, and in former times the same suggested the idea that it was formed by the hardening of the foam of the sea.

In its natural condition it is white, or cream colored, and of a soft, fatty or greasy nature to the touch; has a dull earthy fracture, and is so yielding that it may be easily cut. It is found chiefly near Thiva —The antique Thebes—in Greece, but is also produced near Kilakili, and the town of Eskischeher in Lesser Asia, where it is sometimes found in veins 20 feet below the upper stratum of soil.

When first dug up it is white and soft, but readily hardens without exposure to the fire, and, as the miners positively declare, grows in evacuated hollows by a sort of foamy deposit reproduced from below. The meerschaum is found near Paris and Madrid, chiefly in rough, rounded pieces of uneven and shiny surface. Its constituent surface is soft and smooth, in these cases also, yet it is easily split, and clings sharply to the tongue. In Spain it is used chiefly for stone and ovens.

The price of the meerschaum is according to the size of the fragments, which are wrapped in cotton and sent from Asia Minor to Constantinople in boxes borne by pack horses. From the Turkish capital they are forwarded to Semlin, and thence by way of Peste to Vienna, which is the chief market for the article. In the manufacture the so-called inferior pipe bowls are made from the refuse pieces, and are distinguished by connoisseurs from the best by their greater weight and imperfect coloring when smoked.

The commerce in meerschaum is very considerable, not merely in the raw material but in the manufactured article, as the value of the pipe may be enhanced to any value by carving. A plain bowl of superior fineness and beauty will often bring from $10 to $20 while the sculptured pieces may reach $100, without the mountings. The value of the raw meerschaum imported into the States, last year, is estimated at $1,000,000 and the richly carved pipes at as much more.

So long as the practice of smoking is indulged in as at present, the use of meerschaum pipes may be hailed as a useful amelioration, owing to their property of absorbing the nicotine, which forms the most deleterious substance contained in the fragrant weed.

The Fishery Question.

COMMENTS OF THE LONDON PRESS.

The London papers of the 20th ult., reprint the whole of President Grant's message and comment at length again upon it. The *Times*, in the course of its leader, says:

'The fishery dispute with the Canadians is one which, in various forms, goes back beyond living memory. There is nothing more prolific of quarrels than a fishery ground, where the natives of the neighboring coast are the gamekeepers, and all other fishermen are poachers. The President speaks with some bitterness of "the Colonial authority known as the Dominion of Canada," and says that this semi-independent but irresponsible agent has exercised its delegated powers in an unfriendly way.' But we are glad to observe that unfriendliness seems to be, for the most part, potential rather than active. The statutes of the Dominion of Canada, it is said, assume a broad and untenable jurisdiction over the vessels of the United States, and authorize the condemnation of a vessel under certain conditions, but it is not known that any condemnations have been made under this statute.' The President proposes to punish the Canadians by measures conceived in the narrowest spirit of retaliation, and likely as any political economist would inform him to do quite as much harm to the States as to the Dominion. Such is the prohibition of the transit of goods, wares, and merchandise in bond across the territory of the United States to Canada—a prohibition which would ruin the trade of some of the northern ports; such is also the suspension of the laws whereby the vessels of the Dominion of Canada are permitted to enter the water of the United States. We are not disposed to admit either the charge of hostility advanced against the Dominion or that of an abnegation of duty in favor of an irresponsible colony which is implied against the Home Government. On both questions, and particularly that of the navigation of the St. Lawrence, the most liberal views are those which find the most favor among the free-trading statesmen and legislators of this country. Who will believe that we who import yearly so many millions' worth of flour from the Western States wish to hamper the trade of the Great Lakes? In the words of President Grant, we may say, 'to state such a proposition is to refute its justice.' * * * * * * * * * * *

The only cloud on this prospect (future prosperity) is the depressed state of the national marine—a phenomenon which is very insufficiently accounted for by the transference of American vessels to foreign flags during the war. This war has been at an end now nearly six years, and there has been no such recovery as might have been expected if the depression had been due to such merely temporary and external causes. The real causes, we believe, lie deeper, and are to be found in the financial system of the States—a system which a

large minority, containing some of the ablest men in the Union, are now preparing to attack."

The Telegraph holds that a perusal of the document materially alters the view indicated by the telegraphic outline. In the full text, the points of trouble between the kindred nations do not by any means occupy such a prominent space as the telegram might have led us to suppose. There is nothing to justify the suspicion that political devices lurk under the sentences of the document. The chief anxiety aroused by the President's address in all minds that rightly appreciate the importance of continued friendship between the sections of the great Anglican family, springs from the flagrant quarrel; and that untoward complication undoubtedly demands for its settlement, not angry defiance, nor the bluster of ignorant patriotism, but accurate information, cool judgment, and that true courage which is as willing to concede justice as to enforce rights. If the Canadian authorities are right in what they have done and what they threaten to do, we shall sustain them, happen what may. If the interpretation which our colonists put upon the treaty of 1818 should prove to be too forced, too unreasonable, too little consistent with the liberality of the sea, and modern ideas of human rights, to be tenable, we shall frankly say so, with as little fear of consequences in the one case as in the other.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

Daily Intelligencer.

BELLEVILLE, MONDAY, JANY. 30.

TOWN COUNCIL.—A regular meeting of the Town Council will be held at the Town Hall to-night at the usual hour.

I. P. B. S.—A meeting of the Irish Protestant Benevolent Society will be held at the Temperance Hall on Wednesday evening.

CHRIST CHURCH.—This church, after being closed for several weeks past, was re-opened for divine service yesterday. Rev. Wm. Bond officiated, morning and evening.

POLICE COURT.—Matters in this Court are excessively dull at present. As has been the case frequently of late, the Magistrate's duties to-day were *nil*, no suits of any kind coming before the Court.

BIBLE SOCIETY.—It will be borne in mind by members of the Bible Society, that a meeting of the Belleville Branch will be held in the rooms of the Young Men's Christian Association, this evening at 7 o'clock

METEOROLOGICAL.—Of late, the weather has been such an interesting topic, that reference to it daily is looked for. To-day is as mild as could be desired, the thermometer ranging high above zero, with indications of a thaw.

SKATING CARNIVAL.—A grand skating carnival, for which elaborate preparations are being made, will take place at the Victoria Skating Rink on Wednesday evening, 8th February. Particulars will be given shortly.

THE ALABAMA CLAIMS.—The Washington correspondent of the New York *Evening Post* affirms that the question of the settlement of the Alabama claims has been re-opened, with every prospect of its settlement, the United States Cabinet having shown a disposition to accept England's last offer.

EASTERN DISTRICT L. O. L. PRINCE EDWARD.—The annual meeting of this Lodge, for the election of officers for the current year, took place at the Lodge room at Milford, on Tuesday, January 10th. The following officers were elected :— Harry C. Cronk, D. M.; Samuel Walmsley, D. D. M.; Alfred Taylor, D. C.; Cory A. Young, D. S.; James Mosgrove, D. L.; Luke Cole, D. D. of C.

RAILWAY ENTERPRIZE.—Whatever may be said about French Canadian lack of enterprise it is evident that the people of the Province of Quebec recognize the importance of railway communication. We find the following sums subscribed by the respective municipalities named, in aid of railway schemes :—St. Felix de Valois, $35,000; St. Gabriel Brandon, $50,000; Lambton, $10,000 ; St. Sauveur, $50,000 ; Three Rivers, $100,000 ; Quebec, $1,000,000 ; Sorel, $40,000 ; Pontiac, $75,000 ; Ottawa County, $75,000 ; St. Didace, $50,000 ; St. Maurice, $100,000 ; Maskinonge, $100,000 ; Monticalm, $100,000 ; Acton Vale, $10,000.

The War in France.

The end of the devastating war which, since July last, has raged within the borders of France, would at length seem to have arrived, with the fall of her capital city. Paris, after a siege lasting one hundred and thirty days, has been compelled to yield—not so much to the destruction suffered from the guns of the besieger, as to the pangs of that direst and most implacable of all enemies —famine. History will record the sufferings of the defenders of the city, of which we have no thoroughly reliable account as yet ; though the extent of their privations may be guessed at, from the fact that large amounts of supplies are being sent forward from England to the relief of the besieged. We publish, amongst our telegraphic despatches, the terms of the capitulation, which, considering the triumphant feeling of the victors, cannot be considered as harsh or overbearing. The German troops have commenced taking possession of the forts, and the French have begun the laying down of their arms, in accordance with the terms of the armistice.

Though the Republicans madly shout for a continuance of the hopeless struggle, it is probable that but little more fighting will occur, France being too thoroughly exhausted to successfully confront the victorious columns of the captors of Paris.

From other quarters, the intelligence is of but secondary interest under present circumstances. Bourbaki, after his late defeat, attempted to commit suicide, but failed, and has been superceded in his command. The surrender of his army is considered probable, and its retreat is now cut off. The early surrender of Belfort is looked for.

Skinning a Skunk.

Skinning a skunk is a process few people would find pleasure in performing ; and even killing one is an operation which requires the nose to be held during its execution ; though when the filthy animal obtrudes its carcass and its objection able perfume into our presence, we feel obliged, out of regard for our own comfort, to take up a cudgel, knock it on the head, and have done with it.

If, however, it shows signs of recovering from the effects of the first blow, and begins again to squirm and wriggle, and sprinkle its unsavoury secretion, and diffuse its vile and pestiferous odor around, we are mostly impelled to raise our bludgeon a second time and administer a finishing stroke, after which we go quietly away and let the nasty thing lie.

In this spirit we have a few parting words of friendly advice to give to 'Pretty Fanny' of the Wood Market. Go home, Frances ! tidy up your waterfall, adjust your Grecian Bend, attend to your needlework and crochet, and desist from those unseemly exhibitions of the peculiar blue of the stockings which protect your not very shapely underpinning. Apologize to the gentlemen of the South Riding, whom you have now twice grossly and gratuitously insulted. Take your grammar and dictionary, and try to find out a better definition of the 'Normal Graduate' ; your last attempt was a failure. Finally, refrain in future from pronouncing judgment upon matters which are far beyond the grasp of your feminine intellect, and of which you are incapable of forming the most remote approach to a correct conception. And now, 'Pretty Fanny,'

"Fare thee well ; and if for ever,
Still forever fare thee well."

Newspapers and Periodicals.

We learn from the Canadian Dominion Directory, to be published in a few days, that on the 1st of January, 1871, there were 446 publications issued in the Dominion of Canada and the Provinces of Newfoundland and Prince Edward Island, divided as follows :—

	Ont.	Que.	N.S.	N. B.	Nfd.	PEI

School Exhibition, Sidney.

A pleasing and instructive entertainment was given in the Common School, 4th concession of Sidney, on Friday evening, 27th inst., which was largely attended by those residing in the vicinity, also a considerable number from Belleville, the room being crowded to excess. The programme consisted of songs, recitations and dialogues. The different pieces given by the children connected with the school were carefully rendered, reflecting the greatest credit on Mr. Goman, their teacher. Miss Gass, from the Albert College, presided at the melodeon, playing the accompaniments with great taste. The song and chorus "Put me in my little bed," was sung very sweetly by Miss Gass, Miss E. Vermilyea, Mr. R. Costello and Mr. Harry Galbraith. A leading feature in the boys' performance was the amusing farce, "The day after the Wedding," in which Miss Kingsley, as Lady Elizabeth, sustained her part admirably. The duet, "Would I were with thee," followed, by Messrs. Costello and Galbraith, which was heartily applauded. Mr. S. Sinfield appeared to advantage in several pieces and received a large amount of applause. A vote of thanks was proposed by by Mr. Ashael Vermilyea, which was heartily responded to, and the performance then terminated.

Manitoba.

THE NEW GOVERNMENT—MEETING OF PARLIAMENT—DR. SCHULTZ—SMALL POX.

WINNIPEG, Jan. 14th, via ST. CLOUD, MINN., Jan. 27.—The Local Parliament is summoned to meet on February the 2nd. The Government is completed and now consists of the Hon. A. Boyd, Provincial Secretary ; M. Girard, Treasurer ; H. J. Clark, Q. C., Attorney-General ; Capt. Howard, Minister of Public Works and Agriculture ; and Jas. McKay, without office named, but probably will be Commissioner of Indian affairs, and get a seat in the Legislative Council.

The indications are that Dr. Schultz will be defeated for the House of Commons. Also, the Government will be sustained by a handsome majority in the Legislature.

There are fearful accounts from the Saskatchewan of the ravages of the small pox. Whole families are swept away in many instances, despite the efforts of the vaccinators.

Volunteer Militia.

The *Official Gazette* of January 28th contains the following :

CERTIFICATES, BOARDS OF EXAMINERS.

It is stated that Queen Victoria has written an autograph letter of condolence to the widow of Marshal Prim.

There is no prospect now that M. Favre will come to London, and no other person has been accredited to represent France at the conference.

To the Editor of the Intelligencer.

The Ontario Wild Land Question.

SECOND LETTER.

SIR,—In my last letter I stated that I would show some of the hindrances to the settlement of the rear Townships of the County.

One great want is a market for produce ; the only way the settler has of turning his produce to account at present is to dispose of it to the lumbermen. For the first few years this market was an advantage to both parties, particularly to the settler ; the case is now reversed, it is advantageous to one party only, that is the lumbermen. The settlers produce more than the lumbermen can consume. Sometimes one article of produce is abundant one season, then another, according to the harvest. From this point of a superabundance, the battle of interests commences ; the settler wants a price that will remunerate him ; the lumberman will reduce the settler to his own terms. If the unfortunate settler holds out against him, or if a number of them do so, they at once draw their supplies from other places, *eggs if they have to pay a higher figure*, and that which is a mere trifle to the one party is a question of plenty or starvation to the other. The unfortunate settler cannot help himself, he is henceforth a marked man, and the difficulties of his position are vastly increased. Whilst stating this fact as a general rule amongst the lumbermen, there are exceptional cases, as some of them deal on fair terms with the settler, so as to save themselves the trouble of seeking up supplies, and secure to a certainty the amount of produce they require.

Again, as the sage Commissioner of Crown Lands has fixed the law the settler is deprived of the timber advantages of his own land, as he holds them before the institution of the Ontario courts. Then the land, the timber, and all were given to the settler, and now he is promised a Free Grant of land to him and his heirs forever, &c. This indeed, sounds very good, but we think the fact is not generally understood how much real freedom there is in this grant. We will analyze the restrictions and show what is the Hon. Commissioner's idea of freedom. In the first place, the settler must be amenable to 'Orders in Council ;' these may prejudice his interests or not, as the case may be. This is the Crown Lands star chamber, whence issues edicts to suit the times and render the general laws uncertain. 'Orders in Council from time to time,' that is the rule and articles of his fate ! The following reservations are made at present by this institution :

1st reservation—All mines.
2nd reservation—All minerals.
3rd reservation—All pine trees.
4th reservation—Any Government road or roads may be cut through his land without compensation.
5th reservation—All gravel or timber for making roads.
6th reservation—Other materials.
7th reservation—Lumberers to have the right of taking off all his pine trees.
8th reservation—Lumberers to have the right of making roads through his property.
9th reservation—All waters.
10th reservation—The settler has no power to sell under five years if he wished to leave.

So much for 'Orders in Council.' We will now turn to the Free Grant Act for a continuation of reservations :

11th reservation—Any quarry.
12th reservation—Any bed of stone.
13th reservation—Any marble.
14th reservation—Any gypsum.

Hence it must be clearly seen that the settler has a Free Grant of nothing, (how thankful he ought to be) as by a nimble shuffling of the cards all (everything) is reserved, but in case any advantages should have been omitted, we have the saving clause 'other materials.' This is the vaunted Free Grant land of Canada.

We may now perceive, also, that the interests of the settler and the lumberer are thrown into complete opposition ; the lumberer will certainly clear off the pine within the five years allowed him, but how will the system work ? The settler is impressed that he has no interest in preserving the pine, therefore, rather than have his property overrun by the lumbermen, he will destroy the whole by fire—a very simple process in the woods. We are stating facts, and shall not withhold the truth. No sooner does the dry season commence than the whole Canadian atmosphere is obscured with the dense volumes of smoke rolling up from the back woods ; some of these fires originate from the ordinary burning of a 'fallow,' some an accidental (I perhaps) from the smouldering embers left by the hunter ; but many are caused by the felonious act of the incendiary, being the only way in which he can reprise himself on the lumberer, and the amount of valuable timber in the power of one person to destroy, cannot be estimated. This is done annually, and the wealth of the back woods of Canada is dissolved into thin air.

We have previously stated that one drawback to the settlement of the back Townships is the want of a market. This brings us to the great requirement—a good road or a railroad. The Hastings, Road instead of being a thoroughfare, is a barrier, an obstruction, a *via mala* or *mauvais pas*, or any other hard name that can possibly be invented ; and has, in itself, tended to keep out hundreds of good settlers. An amount of outlay has been squandered on this road sufficient to have macadamized it, had it been disposed of with a little judgment. These sums are accurately recorded by the Government, and frequently brought forth and exhibited *in extenso* before the bewildered public, who innocently suppose that something has been done to make an improved road, but the only parties benefitted are the fortunate individuals, who have had the Superintendence. The plan adopted is this :

But I must preface my next communication with the statement, or I shall exceed the limit of a letter.

AN EMIGRANT.

The small-pox has become epidemic in London. The rapid increase of mortality causes alarm. The deaths from the disease, which in the first week in January were 79, in the third week increased to 189.

—The price of firewood is very high in Quebec and much misery exists among the poor.

—Rev. Robert Payne Smith, Professor of Regius Divinity at Oxford University, has been appointed as Alford's successor as Dean of Canterbury.

—A boiler explosion occurred at Seaforth on Saturday morning, which killed two young men and shattered Elder's factory, where it happened, to pieces.

—The Hon. Mrs. Yelverton (Lady Avonmore), has purchased a farm in Missouri, and intends to remain there. Her only companion is her maid.

—A California physician has directed in his will that his skeleton should be 'wired well together' and placed in a medical college, in case his widow shouldn't want it as a mantel ornament.

The London *Shipping Gazette* is alarmed over the fact that during the recent experiments with torpedoes in the Elbe, some of them broke loose and floated into the ocean. It thinks there is a possibility of some vessel coming in contact with one of these stray monsters that 'would not pay the slightest respect to neutral bottoms.'

FRENCH AND PRUSSIAN WAR VESSELS.

MADRID, Jan. 28.—The Government has resolved to warn the French and Prussian war vessels now in the harbor of Vigot to leave, and will fix the exact time for their departure.

DIED.

A National Assembly to Meet.

Prospect of a Speedy Peace.

Full Details of the Surrender.

LONDON, Jan. 29. (4.30 p.m.)—The Emperor King William has sent the following telegraphic despatch to the Empress Augusta :—

"VERSAILLES, (2. p.m. Sunday.)—Last night an armistice for three weeks was signed. The regulars and Mobiles are to be *interned* in Paris as prisoners of war. The National Guard will undertake the maintenance of order. We occupy all the forts.

"Paris remains invested, but will be allowed to revictual as soon as arms are surrendered.

A national assembly is to be summoned to meet at Bordeaux in a fortnight.

"All the armies in the field will retain their respective positions. The ground between the opposing lines is to be neutral.

"This is the reward of patriotism, heroism and great sacrifices. Thank God for this fresh mercy! May peace soon follow!

(Signed) "WILHELM."

WASHINGTON, Jan. 29.—Secretary Fish has received the following telegram from Mr. Morris, *our charge d' affaires* at London, dated London, Sunday morning, Jan. 29th :—

"The German Ambassador here has officially informed me, that the capitulation of all the Paris forts, and an armistice of three weeks by land and sea, was signed about 8 o'clock last evening at Versailles, by Count Bismarck and M. Jules Favre. The army of Paris will remain prisoners of war in the city, but it is not known whether they are to be disarmed or not. No details have yet been received. Count Bernstorff tells me it is an important fact that the armistice extends over the sea, and that it should be known as widely as possible."

"The terms of the capitulation of Paris provide for the possession of the forts around Paris by the Germans, but no occupation of the city by them, and the Prince Imperial to be the future Emperor, with the Empress as Regent. A large force will be immediately despatched in pursuit of General Chanzy.

"M. Favre was in conference with Count Bismarck, and at midnight Bismarck carried his points. The capitulation involves the cession of Alsace and Lorraine and part of the fleet; a money indemnity to be guaranteed by the municipalities; a portion of the German army to return home, and the war to cease. It is necessary that some territory be retained to secure the fulfilment of the compact. The Mobiles are to be sent home. The Emperor will return immediately to Berlin."

VERSAILLES, Jan. 28.—On the 23rd, at noon, a letter arrived from M. Favre addressed to Count Bismarck, requesting permission to come to Versailles. Count Bismarck replied that he might come under the distinct understanding that no mention would be made of the London Conference, that subject having been disposed of. The reply reached M. Favre at half-past one p.m, accompanied by Count Bismarck's private carriage. M. Favre arrived at eight o'clock in the evening and drove straight to the Rue Provence. Count Bismarck had finished his dinner, but sent M. Favre to the royal kitchen where a handsome entertainment was given him. At ten o'clock Count Bismarck applied to the Emperor for an interview. M. Favre spent the night at the quarters of the Lieutenant of Police. A council of war was held soon afterwards to consider M. Favre's mission. The Emperor, Bismarck, Moltke and the Crown Prince were present. The Emperor presided. The Council sat for two hours and the result of its deliberations was announced to M. Favre, who returned to Paris at half-past four. As he was being driven in his carriage down the avenue leading to the Servre road, Count Bismarck, who was taking his daily ride, encountered him, turned his horses head and rode by the window, conversing with M. Favre all the way to the town gates. It is understood that M. Favre asked that the army in Paris should be allowed to march out with full honours and take up a position in some unoccupied district of France under his management, and not to resume hostilities for a term of months to be agreed upon, and that there would be no triumphal entry into Paris by the Germans. These terms were refused by the Council, which informed M. Favre that the only basis of surrender would be the same as at Sedan and Metz.

The state of Paris is terrible. The political clubs are in arms, and a sortie with 200,000 men was demanded, and General Vinoy refusing to allow the useless butchery, Gen. Ledlo was put in his place. The Reds demanded a new government, 210 members of the National Guard have been chosen for that purpose.

The terms of peace offered by Count Bismarck are the surrender of Paris, the cession of Alsace and Lorraine, the payment of one thousand million francs, and the surrender of forty war ships and of one colony. The money indemnity must be guaranteed by the municipalities. If this is refused the property of rich individuals will be held in possession as a guarantee of payment.

LONDON, Jan. 29.—Great numbers of cattle have been collected by the Germans at Rouen, Gonesse and Lagoy, to be driven into Paris as soon as it capitulates.

VERSAILLES, Jan. 29, via London (noon) — The German troops occupied the forts around Paris at ten o'clock this morning. The entire garrison of Paris, except the National Guard, surrendered their arms. The armistice expires on the 19th of February.

LONDON, Jan. 29, (5.30 p. m.)—A Versailles despatch just received says :—

"The twelfth Saxon corps at ten o clock this morning occupied Romainville, Noisy, Rosny and Nogent; the Bavarians, Charenton, Montrouge and Vanvres; and the Silesian corps Avry and Bicetre. Paris is to pay 200,000,000 francs."

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 30, 1:30 p m—A Versailles despatch of to-day says the occupation of the Paris forts by the German troops was unattended by any incident of general interest.

The 'Times' this evening has a Versailles despatch stating that the contribution imposed upon Paris by the articles of the capitulation is fifty-three millions of francs.

BORDEAUX, Jan. 30.—A despatch forwarded from Versailles on the 28th by Jules Favre to the Government at Bordeaux, says the treaty was signed to-day. There is to be an armistice for 21 days. The national assembly is to be convened at Bordeaux on the 15th of February. The elections take place on the 8th of February. A member of the Paris Government is to leave at once for Bordeaux.

LIVERPOOL, Jan. 30.—The steamers City of Paris, Siberia, Nebraska and Abyssinia, from New York, have arrived.

American Despatches.

Change of Gauge.

Capitulation of Paris.

Excitement among the Germans in New York.

Proposed aid to the French People.

German Relief Fund.

CINCINNATI, Jan. 29.—Orders were issued yesterday to prepare for the change of gauge of the Ohio and Mississippi railway to 4 feet 9 inches.

NEW YORK, Jan. 30.—Geo. T. Elliott, the celebrated surgeon, died here yesterday.

The news of the capitulation of Paris, though anticipated for several days, caused considerable excitement among our German fellow-citizens. Most of the public places where the German congregate, were yesterday crowded by men who met their friends to discuss the war. The story of the contemplated restoration of the Bonapartes, by the German Government, is entirely discredited in German circles, but it is believed the French people will be left to form a new government after they have accepted the terms of peace offered by the Germans after the final surrender. The opinion, however, prevails generally among the Germans that the French will not be able to maintain the republic. It is still insisted by many Frenchmen that no peace can be concluded on the basis of a cession of territory.

A prominent metropolitan journal this morning says: Now that the war is virtually, if not formally closed, it is high time for a concerted effort to mitigate the sufferings of ill surviving victims, and suggests a prompt organization in this city for a systematic and vigorous effort to bring the needs of the wounded, the sick, the houseless, the foodless myriads home to every American hearth, adding that if the movement be inaugurated here, almost every city and village in our broad land will generously respond to it. Great Britain and other European countries will doubtless do nobly; but we, too, should promptly send several cargoes of food to the famishing millions of French. Hundreds of thousands must perish of want, unless saved by voluntary contributions of bread and seed from abroad, and European charity will have been exhausted by the time our first contributions can reach a French port.

The receipts at the German general Consulate last week, in aid of the German relief fund, amounted to $113,777; total $13,965,689.

Ashes unchanged.

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870 :—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*.

* * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, } BY VIRTUE of
To Wit: } two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, vs. James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, vs. J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1864, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

A Practical Boy.

Pickerel, a successful dry goods merchant of Boston, was waited upon at his hotel by a gentleman farmer who was desirous of getting a boy for whom he was guardian, "a place"in Boston. Of course, he was an uncommonly smart boy, quick of figures, strong of intuition, and one every way fit, as he should judge, to be a merchant. Pickerel thought over it, and said he would try and make a place for him. In due time the boy arrived at Pickerel's store, his broad face ruddy with health and soapy from morning wash, his hair slicked, his clothes new and uncomfortable, and a stiff dickey cutting his ears. "Ha, you are the boy, are you?" 'I 'spose so," said the youngster. 'Well, come in here, then. I am very busy; but I will examine you in a few practical questions.' The boy came in, and, sitting down on the desk, swung his heels underneath as though he felt entirely at home, awaiting the questions. "Well," said Pickerel, "suppose a lady should come in here to buy a dress of fifteen and a half yards of calico for eleven and a half cents a yard, what would it come to?" The boy looked at his questioner, at the ceiling, and the floor, in a state of great bewilderment. 'How much kalliker I' he asked. 'Fifteen and a half yards.' 'What price?' 'Eleven and a half cents.' 'Well,' said he, 'I'm darned if I believe any woman would want so much cloth for a dress as that.' That was throwing up the sponge, and Pickernel put another question. 'How much would five and a half pounds of tea come to at seventy-five cents and three-quarters per pound?' He received this pretty much the same as the other, and after waiting a minute he asked: 'Was it green or black tea.' Without answering, Pickerel put another question. 'Suppose I should send you home with a two dollar bill, and you should buy fourteen and a half pounds of beef at seven and a half cents a pound, how much money would you have left?' The boy looked at him a moment and then indulged in a low whistle. 'You don't suppose' said he, 'you could get beef anywhere at seven and a half cents a pound, do you?' Pickerel gave up at this. He asked him no more questions, but sent him back the next day with a letter, stating that he didn't think he would answer.

B. A. Michel, of London, Ont., recommends Allen's Lung Balsam for coughs and colds, and says he has used it with wonderful effect.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wister's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

Christmas is Coming !

JAMES BROWN has now received his Stock for the season, New Raisins Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochine Herrings, Sea Salmon, Labrador Salmon, Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish. Also, always a complete assortment of Teas, Coffee, Spices and

General Groceries.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including handsome original engravings in every annual volume.

It includes each month a RECORD of Operations to be performed on the Farm, in the Orchard and Garden; in the Dwelling, etc.

It is prepared by practical Intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound morals and religion.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 30,000) is so large that it can be furnished for the low price of $1 a year; four copies for $3; ten copies for $12; twenty or more, $1 each; eight copies, $10 each.

☞ Try it a year. ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the *Spectator* office. T. Pringle & Co.

THE EDITORIAL DEPARTMENT

In matters of church and sabbath-school interest, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of Canada and European, American and Dominion politics. Public questions are discussed solely in the public interests, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unsurpassed, as to point of fullness and accuracy of information to those of any other paper published in this city. The employment of first-rate talent in this important department of the paper will be found worthy the attention of all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials | The best Local News.
The most reliable Commercial Reports. | The most reliable Legal Intelligence.
The fullest Telegraphic News. | The choicest Literature, Departmental,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is unquestionably superior to any other paper in Montreal, having a larger circulation than any the other English morning papers published in the city contained.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $3 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Two Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

"ONE SOLID SCAB."

SCROFULA CURED at Wells River, Vermont. M. Grimes, Esq., of the firm of Grimes & Wallace, owner of nearly half the town, besides a large interest in Woolen Mills, Hotels, &c., told me of his knowledge of your medicine, and that his wife was recovered with one SOLID SCAB, covering the entire back part of her head, which she had had for a year in September last, and he was the most revolving an one that he could get for the money. I wrote to him to put under the treatment of **Radway's Sarsaparillian Resolvent, Radway's Pills, and Ready Relief.** One month since, on returning to Canada, I saw the father, who told me that his son was completely cured. I know of many who have been cured of Fever Sores, Scrofula of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West, January 21, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding at the lungs and night sweats ceased. I continued to use six bottles and now am signed of sickness, disease and threatened consumption have disappeared. I feel my health fully restored. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent. GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT.
439, ST. PAUL STREET, MONTREAL
☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

Geo. Gibson

NEW
CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most active principles of the vegetable kingdom. The Sarsaparillian and other ingredients entering into the extract that enter into the composition of this wonderful Blood, Tissue, Bone, and Nerve Restorative, are selected and gathered with the greatest care in the present season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co., so that no spurious substitutes or worthless roots can possibly be mixed with the

QUACK

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum, for the services and expenses of scientific Botanists in this branch alone to find the superb materials that enter into the curative range of Dr. Radway's Remedies, most especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for none in the history of medicine can show a parallel to the wonderful blood, tissue, bone, and nerve restorative powers of the

SARSAPARILLIAN RESOLVENT.

It purifies the blood, and thus cures all Scrofulous Diseases, Ulcers in the Throat, Mercurial Diseases, Blood Poisons, Tumors, Cancers, Tetter, Salt Rheum, Erysipelas, Acne, Black Spots on the Skin, Pimples, Blotches, Boils, Carbuncles, Ringworms, Scrofula, Consumption, Glandular Diseases, Chronic Rheumatism, Diseases of the Kidneys, Liver Complaint, Dropsy, Dyspepsia, Female Complaints, Jaundice, Dizziness, Nervousness, Sleeplessness, Sick Headache, Dyspepsia, Biliousness, and all Internal Pains, Aches and Weaknesses in either sex, in children or adults.

It is the only true Blood Purifier and Life Restorative that can be procured, and is the only remedy that will control the Organic Changes of Life, Change of Life, Stoppage, Irregularity, Painful Menstruation, Ulceration of the Uterus, Whites, Female Weakness, Barrenness, Sterility, Prolapsus, or Falling of the Womb, and all Diseases of the Sexual Organs.

It is the only remedy that will control the Kidney Diseases, Bright's Disease, Diabetes, Albuminuria, Gravel, Calculus, Stone in the Bladder, Retention, Incontinence, Inflammation of the Bladder, Ulceration of the Bladder, Stricture of the Urethra, Pain in the Back, Groins, Loins, and Bladder.

*It is the only remedy that will control the Liver Diseases, Jaundice, Biliousness, Hepatitis, Torpidity, Inflammation, Congestion, Abscess, Ulceration, Pain in the Region of the Liver, Dyspepsia, Indigestion, Loss of Appetite, Nausea, Bilious Headache, Fever, Dysentery, Diarrhœa, Cholera, Cholera Morbus, Vomiting, Sour Stomach, Heartburn, Sick Headache, Giddiness, Mental Depression, Fever and Ague, Pain in the Side, Chest, Limbs, and Joints, Rheumatism, Gout, Neuralgia, Pain in the Head, Nervousness, Sleeplessness, Nervous Prostration, Hysterics, Paralysis, Sciatica, Epilepsy, Spasms, St. Vitus' Dance, Tetter, Eruptions of the Skin, Scrofula, Scurvy, Ringworm, Boils, Carbuncles, Ulcers, Syphilis, Mercurial Diseases, Blood Poisons, Fever Sores, Scaly Eruptions, Itch, Mange, Pimples, Blotches, Black Spots, Worms, Tumors, Cancer, Chronic Inflammation, Enlargement of the Glands, Consumption, Glandular Affections, Impoverished Blood, Chronic Rheumatism, Chronic Diseases, Fever, Ague, Chills, Scarlet Fever, Yellow Fever, Typhus Fever, Typhoid Fever, Bilious Fever, Scarlatina, Measles, Whooping Cough, Croup, Influenza, Bronchitis, Asthma, Consumption, Piles, Fistula, Worms, Female Complaints, Kidney Complaints, Bladder Complaints, Liver Complaints, Stomach Complaints, Bowel Complaints, Blood Diseases, Skin Diseases, Nervous Diseases, Lung Diseases, Heart Diseases, Urinary Diseases, Uterine Diseases, Ovarian Diseases, Prostate Gland Diseases, Rectal Diseases, Venereal Diseases, Mercurial Diseases, Syphilitic Diseases, Scrofulous Diseases, Cancerous Diseases, Tumorous Diseases, Glandular Diseases, Cutaneous Diseases, Eruptive Diseases, Constitutional Diseases, Local Diseases, Organic Diseases, Functional Diseases, Inflammatory Diseases, Ulcerative Diseases, Malignant Diseases, Contagious Diseases, Infectious Diseases, Hereditary Diseases, Acute Diseases, Chronic Diseases, Wasting Diseases, Debilitating Diseases, Nervous Debility, Physical Debility, Mental Debility, Loss of Power, Impotency, Nervousness, Sleeplessness

The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00
For any three of the Reviews, - - 10.00
For all four of the Reviews, - - 12.00
For Blackwood's Magazine, - - 4.00
For Blackwood and one Review, - - 7.00
For Blackwood and any two of the Reviews, 10.00
For Blackwood and three of the Reviews, 13.00
For Blackwood and the four Reviews, 15.00

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus: Four copies of Blackwood or of one Review, will be sent to *one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted direct to the Publishers. No premiums will be given to Clubs.

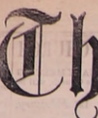

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are some what hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that "the genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Gerkins, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families while the table service will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and profusely illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture and Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

In its columns are published a number of dozens to every household. Workshop and Factory in the land, besides an almost endless array of valuable information. The Editors are assisted by many of the ablest American and foreign writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of letterly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year. Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conducts the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pamphlet, sent free, of information description of the invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, &c., &c., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,

CHAINS, JEWELLERY,
Clocks, Electro-Plated Spoons, &c., &c., ever brought to Belleville.

All goods warranted what they are represented to be.

All kinds of jobbing and repairing done promptly and at moderate rates.

Call and inspect the Stock before purchasing.

H. ROSENBERG.
Belleville, Sep. 1868. 123-tf 22-tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville.

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not lifted copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the millinier and dressmaking of the household; the best magazine for floriculture, original music, crochetting, and other topics interesting to ladies—all calculated to assist in making our home pleasant and attractive.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel Engraving, "Washington Crossing the Delaware on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost several thousand dollars. It is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 10 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & E. Wrigley having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country deserved to no part of Canada in agricultural and horticultural resources and progress, needs and will ably sustain a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose articles, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, the Hon. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, M. V. Edwards and other eminent writers have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in aiding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carman, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 324 Large Octavo Pages for One Dollar.

Special Club Offer.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 5 Subscribers,	$ 3.50
Club of 10 "	6.00
Club of 20 "	11.00

And all over 20, at 50c per copy, free of postage.

Communications intended for publication, items of agricultural intelligence, &c., should be addressed to

W. F. Clarke,
Editor Ontario Farmer, Guelph.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY
MESSRS. GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for restoring front teeth. When used to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and pa...tes decay. Will stop in a minute.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without injuring the enamel as any acid powder, and gives brilliancy to the enamel. Price 2s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and preserves the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing wash—both has the unrivalled advantages of perfuming the mouth and teeth, and of retaining the fragrance during the gums, and is most invaluable to smokers. Price 2s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in parts of or complete sets, on Messrs. Gabriels' new system, by sending particulars of their cases, with a measure of the mouth will be forwarded, with all necessary directions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, which do not prove satisfactory, at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

French Correspondence.

ARDEVILLE, Jan. 7.

Have events marched too quickly to force into forgetfulness the New Year's day's at the Tuileries, when the great "medicine man" of Europe delivered his annual allocution to the diplomatic body, and the world expected with a palpitating anxiety the imperial utterances? Since he gave the Austrian Ambassador that famous political box in the face, people looked forward to the "meet" on the 1st of January, as an occasion where something suprising might turn up. Napoleon's smile—seldom he did so, and in such a sort, as if he mock'd himself—enchanted the world; his knitted brows consterned it. To-day he is sombre and solitary in a luxurious prison, reflecting, perhaps, on the ruin he has left as a legacy to France. This New Year's day our thoughts are still fixed on Paris, but the season's discourse comes from Bordeaux, where Gambetta denounces to 50,000 patriots that the Empire fell because it was an imposition and lacked for base, truth, and virtue. He expressed thoughts that breathe and words that burn—a belief that France will yet shake off her invader and become greater from the miseries and disasters she has passed through, and must yet perhaps undergo.

To day is the one hundred and tenth of the siege of Paris, and it is only now the real crisis begins to surge. The darkness is thickening, the circle of events narrowing in. The excitement is intensifying. How long will the bare citizens hold out—will the capital be bombarded, can the Moltke chain be broken, can the Provinces come to the rescue. No other questions are ever thought of being put; it is a theme which no one ever becomes fatigued in talking about; the oftener it turns up the fresher and more interesting it becomes. The most monstrous *canards* are gravely discussed, things well-known to be as idle as they are extravagant; panting time toils after the telegraph in vain for later, still later news; we battle in spirit, renew the mental combats, make imaginary peace treaties, tear them up, fight, argue, assert, and hope over again, impatient that the tragedy is prolonged, yet not wishing the curtain to fall on Paris, either in mourning or in grave clothes.

The ominous rumors are again coming thickly, that the position of the capital is sadder, than an optimist could wish. It is not so much how long will Paris hold out, as when she will surrender. The cordon is not so firm in the extent of her food resources, it is felt the sorties can only swell the lists of death, and the besiegers' fire is considered *trap*. Two sorties have failed, but have not cowed the inhabitants nor dispirited them—and they still hope against hope, for armies of relief from the provinces. But what is more painful than all, is the news that Trochu is about becoming "one more unfortunate," in the history of the unsuccessful. He has never been held to be a brilliant man, but no one questioned his being an honest one. He was rash enough to announce long ago, he had a "plan" for raising the siege, but he miscalculated the force of German tenacity and dogged resistance. Opinion in Paris is rapidly changing against him, and the *Temps*, one of the few serious journals in the city leads the attacks. Pamphlets are handed about the streets denouncing him. He is governor of Paris, and president of the provisional government. He finds well with the National Guard, but General Vinoy who appears to be the rising sun, is the darling of the Mobiles and the regulars. Vinoy differs from Trochu in not being a politican—he is a brave old soldier and would be severe where his rival is mild, bold where he is prudent. It would be a sad finale to the heroic endurance of the Parisians, if civil and military anarchy divided them. In such a calamity, the supply of food, and the Prussian shells would become ciphers in the period for a capitulation.

Bourbaki, with his formidable army of 200,000 men, intending to march from Nevers to Versailles, appears at present the most favorable chances for doing what can be done for Paris in the way of relief. He seems inclined to leave to Garibaldi the defence of his right wing, keeping the enemy employed with the east. Chanzy has won successful skirmishes in assuming the offensive before Le Mans, but it is surmised, the Germans, under the Duke of Mecklenburg, are too strong for his young troops—and Prince Frederick Charles promises to follow in the wake, both of Bourbaki and Chanzy. It is a great thing for Faidherbe, to have moved out to meet Manteuffel—"since the enemy will not come to him." No good result the French have had successes in the battles about the south and east of Arras. At the affair of Hapaume, their artillery is admitted to have been more than a match for the Germans. Indeed the latter are getting it very hot from the army of the North, and if Manteuffel cannot fight numbers at the rate of two to three, he may have doubts as to his invincibility. He is opposed by a general as cool as himself, equally as cautious and as *brave*. We always depend on the foreign journals for the information of Abbeville being taken; up to the present residents in the town know nothing of the capitulation. A few Uhlans occasionally pass by to demand—"Stands Scotland where it did"? For a month the invader will have to face some serious encounters—the days for easy victories have disappeared. Thousands upon thousands of men, are being rapidly manufactured into soldiers, they are young, and have the drawbacks of all raw troops, till practice makes

them veterans. The Germans are being largely reinforced also, the Landwehr men are occupying the conquered districts, and setting free the men of battle. Everywhere there is a pushing forward of contingents. The Moscow winter which has settled down on France, is trying to both camps, but more severely to the French. They are not accustomed to it as the Northmen, nor like them even, so well prepared for the rigors of the season—the more glory is theirs for braving fresh hardships.

The situation respecting the spirit of the people remains unchanged, or if at all altered, it is in the fiercer determination to prosecute the war, a stronger belief in ultimate triumph, and an increasing readiness to voluntarily subscribe to the burthens and expenses of the struggle, into which not only the life but the soul of France is thrown. At Lyons the ladies of rank and wealth give their jewels for lotteries, the poor workmen their little trinkets. At Boulogne-sur-Mer, the fishermen's wives and daughters, whose long, bright gold earings are as much an institution as the snow white caps that set off their pretty faces, ungrudgingly give the mode of Joseph. No.1 France could accept her defeat in 1814-15, when united Europe bore her down, but to be crushed by one nation, and that the German she ever despised, is what she cannot yield to except with her last sigh.

The bombardment of Paris is advancing. The fall of Mont Avron is a mystery, the more mysterious as the French account says only one cannon was dismounted and a few men killed. Thus Trochu has a chance of escaping by that side and attacking the depot of the Germans at Chelles, and interrupting their communications, is lost. Then the pounding at Rosny and the other forts is telling. Their slackened replies, in some cases absolute silence, can have but one explanation—the superiority of the besiegers' fire; if not in heavier metal, at least in continuity, method and directness. Every shell is calculated to do its duty, and appears to do it. If these forts be silenced and the Prussians advance their batteries towards the city, it will lie at their mercy. Versailles is about putting the enormous Strasbourg peace-makers into position to try a contest with Mont Valerien. There remains to Trochu to at last make a vigorous sortie. It is to be hoped it is not too late. But his men will require to use the pickaxe and the spade as well as the rifle, and what can be done when the soil is like a rock for nearly two feet in depth owing to frost thirteen degrees below zero, which kills sentinels, and fills the ambulances with frost-bitten patients by the hundred?

The Parisians hold bravely out, they may find fault with the government for not making more vigorous onslaughts on the enemy, but they do not complain of the cold, the growing want, the increasing sickness. Warm clothing fairly exists, but fuel is not forthcoming. The Clubs—some hold their proceedings openly others secretly—demand the trees in the gardens of the Tuileries and the Champs Elysees to be felled and given to the citizens—better trees perish than human lives. The Committee of Defence are cutting down the trees in the Bois de Boulogne, Vincennes, &c., and the axe will soon be heard among the ornamented trees of the Boulevards. Wooden paling, garden seats, door frames and window sashes are being used up for firewood. The poor crowd more closely together, they are welcome to deserted mansions, once halls of dazzling light, now cold as they are cheerless. No wonder fever is showing, pulmonary affections also attest cold and insufficient food. The troops obliged to camp out, cannot have fires, or the stoves used, only make a mockery of heat. Their bread and wine they find to be frozen, when sought for.

The government by its late census of the number of domestic animals in each house, found an unexpected supply of asses and mules. The latter were retained for work, the former sent to be slaughtered. A new article of food has appeared during the last ten days, nothing less than "wolf," which is sold under the name of "Bismarck chicken." The only remaining camel has been killed, and by this, eaten; its flesh as savoury as shoe leather. A few English *escutrices* had a dinner on Christmas day, at the *Cafe Voisin*, among the delicacies of the season, figured "wolf-cutlets," "roast cat garnished with roast rats," "roast camel" and plum-pudding. The *menu* is true, but the company sent away dish number two, it served its purpose to be talked about. It is not necessity that forces these extras to be patronized by the well-to-do strangers. There was a "wood lottery" lately held in Paris, and where poor Rochefort distinguished himself by his munificence, in buying in several articles, and putting them up again for the benefit of the charity. A turkey fetched 200 francs twice, and was sent to the hospital, and equally divided between a selection of the most severely wounded French and Prussians; a box of cigars produced 100 francs; a large potato was knocked down to a well-known banker for 10 francs; a "pet lamb" brought 500 francs, and was presented to the sick ward of the asylum for deaf and dumb children.

One of the favorite pastimes with Parisians too old or too lazy to work, is fishing in the Seine for gudgeon. I have often lounged a long time to study the philosophy of patient resignation displayed by the Waltonites, in catching nothing. But the sewers of Paris have been taken by the *Gamins*, who with a morsel of appetizing greasy bait, and a small hook, turn some sous by this *modus operandi* of rat-catching in flowing water. It is only the application of every "night" system preserved in Paris, before the house piping.

There are persons who would botanize upon a mother's grave, and there are people in Paris, who are doing a brisk business in selling the family letters rifled from the German dead. If it be an epistle from some *Fraulein* so much the more valuable. As Paris has never failed to be equal to demands for everything, the number of letters already sold, as picked up on the battlefield, would represent the investing army killed three times over. Another, may I call it amusement, is the visiting of the apartments occupied by the Empress at the Tuileries, especially her dressing rooms. These communicate with each other by an *ascenseur*, and the sovereign people go up and down in the lift, the merry go-rounds, go round no longer in the Champs Elysees be it remembered—then in the rooms are a series of "cabinet railways, the carriages of which are occupied by mannikins, on which were placed the wardrobe glories of her ex-Majesty, and "shunted off," when not required into what may be called a wardrobe. The visitors decorate the lay figures with their coats and mantles, and push the little waggons "home," out again etc.

The forts now being bombarded are garrisoned chiefly by lawyers, editors and solicitors, all volunteers. I hope they will all "cover themselves with glory."

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

Daily Intelligencer.

BELLEVILLE, TUESDAY, JANY. 31.

DEATH OF HON. JOHN ROSS.—We learn by telegram just received at the hour of going to press, that this gentleman died this morning in Toronto, after a lingering illness.

RAIN.—The chief feature in the weather to-day is the rain, which has been falling since morning. Everything is sodden, damp and disagreeable in consequence.

DOMINION HOUSE.—This well-known hotel has changed hands, Mr. Clark Edwards having purchased Mr. Borrodaile's interest in the establishment. From our knowledge of Mr. Edwards, we should predict for him a successful career as a landlord.

MISSIONARY MEETING.—The annual Missionary Meeting of St. Andrew's (Presbyterian) Church, will be held in the church to-morrow evening, commencing at 7:30 o'clock. Rev. Principal Snodgrass, D.D., Rev. Professor McKerras, M.A., of Queen's University, and several of the resident ministers will be present and deliver addresses.

ST. GEORGE'S SOCIETY'S BALL.—This annually recurring event, one of the most eagerly anticipated of the season, is to be held in the Masonic Music Hall on Thursday evening next. The Society has hither. to been highly successful in all entertainments gotten up under its auspices, and it is to be hoped that this year it will be not less so, as the labors and expenditure of the past season were alike heavy, and the funds require replenishing, in order to afford a generous measure of relief to indigent Englishmen, their wives and families. The names of the Committee are a sufficient guarantee for the care taken in the management,

PROVISIONAL DIRECTORS OF THE KINGSTON AND PEMBROKE RAILWAY.—The following are the names of the whole of the provisional directors of the Kingston and Pembroke Railway:—A. Livingston, Esq., Mayor; Hon. A. Campbell, Messrs. J. Carruthers, George A. Kirkpatrick, John Fraser, Richard J. Cartwright, D. D. Calvin, C. F. Gildersleeve, James O'Reilly, J. Grant Macdonald, John Breden, William Ford, and G. M. Kingsmill, Kingston; Messrs. Day, Playfair, Boyce, Joyner, Donaldson, Dawson, S. Shibley and Leahey, County of Frontenac. The gentlemen chosen from Pembroke are Mr. White, jr., Reeve of Pembroke; Mr. Moffat, Reeve of the township of Pembroke; Mr. Carswell, Reeve of Westmeath; Mr. Watson, Reeve of Brudenell; and Mr. Queally, Reeve of Grattan.

THE DOMINION DIRECTORY.—Mr. Lovell, the publisher, informs us that on or about the 8th of February next the Dominion Directory, in the preparation of which he has expended so much time and money, will be issued to the public. We congratulate Mr. Lovell on the near completion of what we know has been an arduous undertaking. The Dominion Directory is a work of national importance, and whether or not the publisher derives the amount of pecuniary recompense he deserves, he will at all events have the satisfaction of knowing that he has rendered an important service to the country. The Directory will contain over 3,500 pages, the names of inhabitants in, and descriptions of, 4,914 places, together with a variety of useful and interesting information of a miscellaneous character. The Canada Directory, published by Mr. Lovell some years since, was acknowledged to be the most complete work of the kind ever seen on this continent, and we have no doubt that the present work will be equally useful and reliable.

New Postal Regulations.

A general circular will shortly be issued from the Post Office Department, giving effect to the decision arrived at last year relative to the new mode proposed for compensating the postmasters of all offices, except the several city offices, throughout the Dominion. Hitherto, in respect to compensating postmasters, the system prevailing in Ontario and Quebec has differed in principle from that followed in New Brunswick and Nova Scotia, whilst in practice the two latter Provinces differed from each other in this matter. There has now, though, been authorized an uniform system, which will have the effect of placing all postmasters and way office keepers on a common footing as regards the scale of compensation under which they were to be paid. The new scale will be as follows:—A minimum salary of $10 will be allowed to all offices where the postage revenue for the year does not exceed $25. A salary equal to 40 per cent. (instead of 33⅓ as heretofore) on amount of revenue to an office from both letter and newspaper postage not exceeding $800 per annum, graduated at the rate of $2 per annum for every $5 of revenue, so as to avoid fractions. When the revenue arising at an office exceeds $800 per annum, salary on the excess of the first $800 will be paid at the rate of 25 per cent. Where night duty is performed, the salary on the first $800 of revenue, or lesser amount, will be 50 per cent. on such amount. An allowance will be made in aid of office rent, fuel and light, where the revenue exceeds $2,000 per annum. The money order and savings bank commissions will remain as now. Special allowances will continue to be made for forward and distribution duties. The salaries thus determined will be raised every two years, and will be in lieu of the commissions heretofore charged, as well as of the stationery allowances, which will be discontinued. A general simplification in the forms of post office accounts is also to be introduced.

Town Council.

MONDAY, Jan. 30.

Council met in accordance with adjournment.

PRESENT.—His Worship the Mayor, Messrs. Henderson, Smith, Patterson, Reed, Hope, Fahey, Bull, Vandusen, Flint, Legate, and Foster.

The minutes of last meeting were read and approved.

The Clerk laid before the Council a copy of the Municipal Act, forwarded by K. Graham, Esq., M. P. P.

PETITIONS.

Applications for the office of Assessor were received from Thomas L. Todd, Henry Finch, James Clarke, Thomas Rutherford, John Northcott, William Wright, R. M. Clarke, Thomas McIntosh, William Davy, Walter Ross, and E. Dolan jr.

For License Inspectors, the following persons made application: J. P. Huyck, J. C. Phillips, Parker Mills and John P. Macdonnell.

Samuel Maybee petitioned for the removal from his house of Ann McGunion, an old woman left there by the Chief of Police, also for remuneration for her board.

Petition of Hon. Billa Flint and other lumberers, praying that Messrs. Rathbun be not allowed to continue sinking piers and extending their booms westward, as this would impede the navigation of the harbor.

From Alexander Robertson and others, praying the construction of a storage reservoir on Taylor's hill, that in case of fire water might be had.

From C. L. Coleman and others, praying that pipes be laid from the springs at the foot of Meyers' hill, for the conveyance of water, to some point in Samson Ward.

From John N. Gordon, for the office of Inspector of Weights and Measures.

From A. H. Coleman, for remission of taxes on personal income, he not being a resident of the town; also, for remission of taxes on some lots improperly assessed to him.

Several accounts were also presented, which, with the petitions, were referred to their appropriate Committees.

The Auditors deposited their declarations.

Dr. Hope brought forward a number of accounts, which had been presented to the Finance Committee without being certified. These were read and referred.

FIRE WATER AND GAS.

The Committee on Fire, Water and Gas reported in favor of Walter Fanning's proposal to draw the engine, &c., to fires at $4 each trip.

COLLECTION OF TAXES.

Mr. Bull gave notice that at the next meeting of the Council he should move for the appointment of a Committee to examine and inquire into the state of the Collector's rolls from the time of the appointment of John Kerr, until he ceased to be Collector. Such Committee to have power to examine and investigate all receipts for taxes, also to call for papers and make such remission as they may think proper. Committee to consist of Dr. Hope, Messrs. Flint, Legate, Patterson and the mover.

WAYS AND MEANS.

Council went into Committee on Ways and Means. Mr. Foster in the chair.

The monthly pay list, Street Surveyor's pay list and a number of other accounts were passed.

Mr. Henderson brought forward a recommendation of Mr. Ackerman, Collector, that the taxes of Mrs. P. Shevlin and Mrs. Wilson be remitted one-half. Also, that errors in the cases of Messrs. Phippen and Nosworthy, double assessment, be remitted. Mr. Henderson, seconded by Mr. Flint, moved the adoption of the recommendation.

Mr. Flint, in looking over the books, had found a great number of errors. He did not know whose fault it was, but he desired to strike at the root of these mistakes. Last year the errors had been more numerous than ever before. This was said to be due to the person who copied the rolls. He had found the same property assessed to different persons, once at $500, and in another place at $700.

Dr. Hope considered that these matters should be referred to the Committee on Finance and Assessment.

Mr. Henderson did not think the Finance Committee could interfere in these matters. It was the Court of Revision which had to deal with them; that body alone had power to make remissions.

Mr. Bull did not think Mrs. Shevlin entitled to remission, as she had property. Some eight or ten different heads of families had applied to him as Chairman of the Poor and Sanitary Committee, for relief, who all stated that they lived in Mrs. Shevlin's property and paid rent to her.

After some further discussion the motion was carried.

The Committee then rose and reported.

HARBOR AND TOWN PROPERTY.

Mr. Vandusen moved that the name of Samuel J. Bull be added to the Harbor and Town Property Committee.

Mr. Henderson objected; the motion was out of order, no notice having been given.

The Mayor sustained the objection.

Mr. Vandusen moved, seconded by Mr. Flint, that the rules of the Council be suspended, in order to allow of the introduction of his resolution.

The motion was put and lost.

COLLECTOR'S ROLLS.

Dr. Hope moved, seconded by Mr. Bull, That the rules of the Council be suspended to allow of the collection of the taxes of 1870 till the 27th February; and that the present Collector be continued as Collector of the same.—Carried.

MURRAY CANAL.

Mr. Foster moved, seconded by Mr. Flint, that the Mayor name a Committee to act in conjunction with Committees of the County Council and the Trenton Council, in memorializing the Government in relation to the Murray Canal.—Carried.

The Mayor subsequently named Messrs. Henderson, Foster, Bull, Legate and Lewis, as said Committee.

INDUSTRIAL FARM.

Mr. Vandusen moved, seconded by Mr. Flint, that Messrs. Flint, Patterson, Bull, Lewis and the mover, be a Special Committee on Industrial Farm, with leave to choose their own Chairman.

Mr. Henderson objected that no notice had been given, and the motion was ruled out of order.

BY-LAWS.

Mr. Henderson introduced By-Laws for the appointment of Assessors and License Inspectors, which were read a first time.

Council went into Committee on By-Laws. Mr. Vandusen in the chair.

Messrs. James Harrold and Jas. Smith were re-appointed License Inspectors.

Mr. Henderson moved that Wm. Davy be one of the Assessors.—Carried.

On motion of Dr. Hope. Thos. Rutherford was appointed another Assessor.

Mr. Reed proposed Richard Taylor as the third Assessor.

Mr. Bull proposed Henry Finch.

Mr. Foster proposed John Northcott.

Mr. Finch's name was carried.

Mr. Henderson moved that the remuneration be the same as last year—$140 each.

Mr. Foster moved, seconded by Mr. Smith, that the remuneration be $100 each.

The original motion was carried and the Committee rose and reported.

The By-Laws were then read a third time, numbered 235 and 236, and passed.

COMMITTEES.

Mr. Flint moved that the rules be suspended, in order to allow of the introduction of a resolution to add another member to The Harbor and town property Committees. He made this motion, as but four members had been left on this Committee and on that on Market and Police by the motion of Messrs. Henderson and Lewis at the last meeting.

Mr. Henderson objected, as the object was to take his name off the Harbor and Town Property Committee. His resolution referred to, had not taken his name off the Committee.

The motion was lost.

THE HARBOR.

Mr. Flint called attention to the petition of the lumber merchants in reference to the extension of Messrs. Rathbun's booms.

After a short discussion the matter was allowed to drop, the petition having been referred to the proper Committee for action.

The Mayor stated that, as it had been reported that he gave Messrs. Rathbun permission to sink the piers, he wished to say that he had never done so, directly or indirectly.

NOTICE OF MOTION.

Mr. Vandusen gave notice of motion for the appointment of a fifth member on the Harbor and Town Property Committee.

RULES OF COUNCIL.

Mr. Foster inquired respecting the printing of the rules of the Council.

The Mayor said he had heard nothing of the matter since the resolution passed.

The Council then adjourned.

A POETICAL ADDRESS.—A newspaper passed through the Hamilton post office lately bearing the following superscription: "Where the sweet-scented coal oil spreads perfume around.

In the city of London resides Thomas Brown; Where, for fifteen years past, he has made his abode.

Near to Adelaide street, on the Hamilton road. Not rich, yet not poor, one of earth's honest toilers.

A maker of stills and all kinds of boilers; This paper's for him, and I may as well state His post office box is 'E'—*one twenty eight.*"

Police Court.

(Before A. DIAMOND, Police Magistrate.)

TUESDAY, Jan. 31.

VAGRANCY.

Emma Wilson, well known in Court, was sent to gaol for 60 days, on a charge of vagrancy preferred by the police.

Andrew McDonald, another well-known habitue of the Court, was fined $2 and costs or 60 days.

—The house in which Napoleon Bonaparte was born, at Ajaccio, in 1769, is still standing, and is one of the best in Corsica.

—In the little Canton of Freiburg, Switzerland, there are no fewer than 19 monasteries or convents for men and women.

News Condensed.

—The Siamese twins have 15 children.

—Chicago has 539 miles of sidewalks, lighted at night by 5,833 lamps.

—The Ottawa Curling Club play the Caledonians of Montreal next week.

—Fodder is very scarce on the lower St. Lawrence; hay $20 per hundred pounds.

—A Buffalo editor mourns over the demise of a "proud and sensitive dog."

—A Western editor represents money as close but not close enough to reach.

—A bachelor friend compares a shirt button to life, because it too often hangs by a thread.

—J. F. Taylor, Clerk of the Senate, has been superannuated, and Robert Lemoine succeeds him.

—Lavater could always tell whether a man was a miser, by the way in which he pursed up his mouth.

—An ice bridge has formed over Niagara river, below the falls, and it is said to be frozen so hard that it may remain for weeks.

—If her poem tells the truth, a Buffalo woman has buried her love 'on the stormy strand of the deep, dark ocean of mid despair.'

—Naturalists of the first class generally estimate that the big trees of California are about eighteen hundred years old.

—The province of New Brunswick ships annually from five hundred to one thousand tons of frozen smelts to the United States.

—Early in life, Peter Cooper broke down in three different trades, and then tried the manufacture of glue. That stuck.

—A Michigan man sold his wife, after eight years of companionship, for $10 to a young man who took her and her children to his home.

—There is a machine in operation in Essex county, Maine which can make 13,000 toothpicks in a minute; yet the demand is greater than the supply.

—Members of the Dominion Parliament from a distance are telegraphing to secure rooms for the session. Accommodation is said to be more ample this season than before.

Belleville, Oct. 6, 1870. 178-tf

Trade and Commerce.

About $250,000 worth of lead was raised from the Dubuque mines in 1870.

The daily consumption of coal in New York city in winter is estimated at 20,000 tons.

There are already 2,500,000 mulberry trees in California, for the use of the silk worms, and more are constantly being planted.

England derived a revenue of £285,000 last year by taxing dogs. The number exceeded 1,100,000. Ireland, with one-quarter as many inhabitants, supported more than half a million dogs.

The United States Senate last week passed Mr. Boutwell's amendment to the funding act, authorizing an increased issue of the five per cent bonds of $300,000,000, thus making the total amount $500,000,000; interest payable quarterly.

The first knitting mill ever put up in the United States, was erected and operated at Cohoes, N. Y., in 1832. The place has now 18 of these mills, which each turn out an average of about $100,000 worth of knitted shirts and drawers annually.

The total product of sugar in the world is estimated to be 2,800,000 tons, in the following proportions: sugar cane, 2,000,000 tons; beet, 630,000 tons; palm, 140,000 tons; maple, 30,000 tons. Beets furnish one quarter the sugar product of the world.

Mr. J. T. Alexander has sold his 27,000 acre Champaign county (Ill.) farm to some Eastern gentlemen for the sum of $650,000, but Mr. Alexander still has a farm in that county of 3,000 acres, which, with the stock on it, is worth over a million of dollars.

Wooden labels for plants to be inserted in the ground, may, it is said, be preserved for an indefinite time by first dipping them into a solution of one part copper, vitriol and twenty-four parts water, and subsequently immersing in lime mater, or a solution of gypsum.

There is a great deal of excitement in Nova Scotia as to the alleged discovery of petroleum at Lake Aisalie, Cape Breton. Nova Scotia is well stocked with coal, and where there is coal there is generally petroleum. She is also doing quite a thrifty business at gold mining. In one County seven gold mining companies are in active operation.

In consequence of the war being carried into France, the silk and velvet manufactories of Germany have temporarily usurped the trade which once was almost monopolized by Lyons and other French towns. At Crefeld, Prussia, the impetus given to this branch of manufacture is greater than ever before, and there are more orders from England and America than can be filled.

Last summer a Boston establishment tanned fifty anaconda skins for boot leather. The boots are valued at fifty dollars per pair. The largest of these skins was forty feet in length. The tanning processes were similar to those observed in the manufacture of alligator leather, the product being a very beautiful and highly finished quality of leather, glossy, mottled, pliable, and, from the appearance of the grain, exceedingly durable.

Butter at 12c to 60c for State.

Cheese at 12c to 15¾c for common to prime.

SPECIAL NOTICES.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady Who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of the race; children certainly do rise up and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations.
47-3m:

How necessary that the nervous apparatus should be perfect and the brain vigorous; when either becomes exhausted through overwork or other imprudent excesses in some is developed. The remedy lies in removing the cause. By using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES the tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches a speedy relief.

HENRY WILKES,
Pastor of Zion Church, Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE 1m

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circulas. The rendezvous may be a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

CANADA LIFE ASSURANCE COMPANY

ESTABLISHED 1847.

THE principal features of this Company are

RATES LOWER than any other Company.

PROFIT BONUSES LARGER than any other Company.

ABSOLUTE SECURITY, and

LIBERALITY in its dealings with its assured.

The Company has, in the past 23 years, paid $700,000 for death claims, and has never contested one.

A comparison of the Company's Profit Bonuses, and its Rates for Assurance, with those of other offices, is invited.

Intercolonial Railway OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 5 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McCLAY,
Commissioners.

Perilous Adventure.

A DELIRIOUS WOMAN LEAVES HER BED AT MIDNIGHT AND DESCENDS A WELL FIFTY THREE FEET DEEP—HER SINGULAR RESCUE.

(From the Muncie (Ind.) Times.)

A strange occurrence took place on last Friday night, at a neighborhood two miles southeast of Granville.

Among the families residing in the neighborhood mentioned above, is that of George Stafford, among the most respectable in that section. Mrs. Stafford has a young babe, and since its birth has been in very poor health, suffering at late most intensely from a gathered breast.

On the night in question a number of friends and neighbors had assembled at the residence of her husband, as it was feared that night would be her last on earth. In the fore part of the night she suffered the most excruciating pain, but about midnight she became so much better, and felt so much easier that all retired. During the evening, however, there was some conversation about a well one of the neighbors had been digging, and after events showed that the conversation had deeply impressed itself on her mind.

After all had been asleep for two hours or perhaps more, some one awoke and made the astounding discovery that the patient was missing—gone, when or where no one could tell. The household were at once aroused, and the entire vicinity was searched without finding the least trace of her. The night was a bitter cold one, and nothing less than her speedy death was anticipated unless she was speedily rescued.

At length some one suggested that she might be in the well already mentioned. Scarcely expecting it to be the case, and fearing that if it was they would only find her mutilated, corpse, they proceeded thither. A pumpstock had been put in the well. In the bottom of the well a barrel had been sunk, which was full of water and some eighteen inches of water above that. A rope with a lantern attached to it was let down into the well. As it neared the bottom one of the party saw a hand reach out and clutch at it.

A larger rope which had been, used in drawing dirt out of the well, was procured, and one of the party descended to her rescue. This person found her in her night-clothes, standing on the edge of the barrel in about eighteen inches of water. She was speedily brought to the surface and taken home. Subsequent investigation showed that she must have left her home in a spell of delirious unconsciousness, made her way to the well spoken of in her hearing, and descended to the bottom of it by means of the pump. It is simply impossible that she could have jumped into the well without meeting a horrible and speedy death.

A subsequent examination showed two severe wounds, one below each knee, and both penetrating to the bone, and both looked as if they had been made by the edge of the barrel. She probably had fallen part way down the well. At present her condition is very precarious.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies are worn so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

The American Agriculturist.

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of fine engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, and in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is under the charge of a Lady Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to facilitate knowledge and sound morals.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new paper from the founts of C. T. Palmer & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished on the principles topics of the day, by experts in different departments of Scientific and Engineering, Agricultural and Commission politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full financial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* unsurpassed by any in point of fullness and accuracy of information to those of any other paper published in the city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to every merchant in the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, whether of a grave, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal and Financial Intelligence.
The freshest Telegraphic Despatches.	The choicest Literature,

affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $3 a year, or $2 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

171 St. James Street.

NEW
CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN RESOLVENT.

N.B.—The great medicines (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle—Medical Chemistry, from the active principles of vegetables—the choice products of the vegetable kingdom. The Sarsaparillian and other medicinal virtues which entrance the composition of this wonderful remedy, are extracted by a chemical process, carefully selected and gathered with the greatest care to the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed and retained by Dr. Radway & Co., so that no spurious admixtures or worthless rootcan possibly be mixed with the pure.

It costs Dr. Radway & Co. over $20,000 (thirty thousand dollars) per annum, for the chemical and other expenses of scientific Botanists in this branch alone. But the wonderful curative powers which are secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for none in the history of medicine have ever been endowed with so completely building up, repairing, and making sound strong, healthy tissues, and bringing about health, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

it supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND BLOOD-MAKING PRINCIPLES.
it supplies the system with caloric or heat-producing properties.
it cures all Eruptive and Ulcerated Diseases of the Kidneys, Bowels, Throat and Skin and body.
it increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
it increases the repairs and diminishes the waste;
it exterminates the products of decay.
it cures Scrofula, Scrofulous Sores and Humors, Rheumatism, Gout, Hard Lumps.
it makes the skin clear and beautiful.
it heals Fever Sores and Ulcers.
it cures Gravel, Gleet, and Stricture.
it makes the water clear and pass freely.
it cures Barrenness, and invests with the vigor of manhood those who from weakness or disease, are deficient or exhausted
it rescues woman from the perils incident to change of life, and cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, or their system still in a condition to receive nourishment, and LIVER COMPLAINT, KIDNEYS, and other vital organs not wholly destroyed beyond the process of repair, or if capable of sustaining the necessary amount of

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now are at work, removed from the system.

Extreme cases, where the LUNGS, KIDNEYS, are either rendered, by their structure, unable to perform its usual functions, and secretions altered beyond the reparative power of medicine, may and will, by the use of the **Sarsaparillian Resolvent**, continue to prolong life for many years; for no matter how the vital forces may be, if the system can be brought under the influence of the Sarsaparillian Resolvent medicine, the repairs will be greater than the wastes and the **BLOOD WILL REMAIN RICH**, full of strength, purity, and nourishment to enable it to be healthful and sustain all its functions, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poisons of the Kidneys, transported through the blood, and deposits from the blood either in the Lungs, Skin, Muscles, Bladder or Cellular Tissue, and all the diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Spermatic Organs, Spermatorrhœa, Seminal Weakness, or Urinary difficulties, will experience a change as soon as her health from bitter effects of taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, and the system begins to gain, and is enabled to build in addition to nature's wastes, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin or other Organs; and each of these Organs will secede their pus-producing secretions, instead of trying to make the Pulmonic Juice and other fluids being absorbed in the circulation, those secretions will be directed for expulsion from the system through their proper channels. Inasmuch as the blood is purified in the system, to correct these secretions, and to as-sist each organ or secreting gland in discharging its proper functions, health can never be restored; hope will be for suffering humanity, Radway's Sarsaparillian Resolvent will have accomplished more than all other remedies has heretofore existed in all these remedial agent known as Blood Purifiers.*

No matter how deeply seated or engrafted in the nature, constitution, glands, organs, or tissues disease and corruption may be, the influence of this power-ful agent of the blood and other fluids of the body, the living body with repairs, will so change the system with healthy constituents as to resist and eliminate the dead and decomposing matter, and supply its place with sound and living material, producing blood rich, pure, and strong blood. By its marvelous influence the Sarsaparillian Resolvent was on the substances taken into the stomach during the process of digestion into Organ and Gland, so as to be made blood, as well as the nourishing constituents of muscle, nerve, blood, and bone, and when entering in the circulation, it exterminates every atom of virus from the blood, and renders every sore and deprayed disease, no matter what action of some specific poison, or virulent disease, as Mercury, Mercurial Poisons, the Active Principle of Chloride of Mercury, Calomel, and other agent that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted taint, or poison in the blood, whether it has existed for years or generations.

Scrofula, Consumption, syphilis, mucous and bodily tainted Venereal in its many forms Glandular Affections, Ulcers, Sores, Mercurial Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the most worst forms of Skin Diseases, Eruptions Fever Sores, Scaly Skin, Tetter, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Scurvy, Cancers in the Womb, and all weakening and painful Discharges, Ulcerations, Sweetts, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of the above forms of Disease, its potent power to cure them.

Vacuum Venereal—Gleet, Gravel, Strictures and all the Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all other are incon-venienced by Stoppage of Water, the Sarsaparillian Resolvent, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Demosthenes, Lincoln, County Beauharnois, Canada East, had for nine years TWO LARGE HUMORS, one on his thigh, the other on his side that resisted the skill of the faculty, as well as the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of Radway's Sarsaparillian Resolvents alternate with Radway's Pills and a few bottles had used only three bottles of the Sarsaparillian Resolvent, and all three Humors, or Tumors, as they seemed, as a solution, a wash of the Ready Relief and Sarsaparillian Resolvents, diluted with water, which completely cured him. Here is a man that had spent over one hundred dollars, and suffered for nine years, and cured at a cost of less than 2*s*. 6*d*.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

H. Durant, Esq., of Wells River, on the Connecticut River, owner of nearly half the town, besides a num ber of Cheese Mills, Farms, etc., and for a long time Judge of your neighbor. His son, aged 13 years, was covered from head to foot one SOLID SCAB, and body—head, trunk, chest, legs, and all—[illegible] years' standing. He had spent hundreds of dollars in the best counsel, and he was pronounced incurable. His case was given up by the faculty. Mr. Durant procured a bottle of the Sarsaparillian Resolvent, Ready Relief and Pills. One month after returning to Canada, I met the afflicted object I ever saw. At my request he was put under the influence of the Sarsaparillian Resolvent, Ready Relief and Pills. One month after returning to Canada, I met the afflicted object I ever saw. At my request he was put under the influence of the Sarsaparillian Resolvent, Ready Relief and Pills. One month after returning to Canada, I met the father, who then told me that his son was completely cured. I knew of many who have suffered a Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Thousand Consumption, Night Sweats Bleeding from the Lungs, cured by one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Windsor Station, Ontario, Canada West, March 17, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep. A bottle for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continue to use your medicine and now all signs of sickness, disease and threatened Consumption have disappeared, and my health is fully restored. JONATHAN FREELAND.

R. B.—The gentleman was well known to have been under the treatment of the best physicians in Canada—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent. GEO. MORETMAN,
Commercial Agent for Ontario

PRINCIPAL DEPOT.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public; public in the United States, as well as in Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, with a table kept in first-class style, the moderate sum of $1.00 per day will be charged heretofore, and the travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,

BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine as in pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford relaxed and entertainment for the Literary Department, in past years.

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for 1870. Such names as

MARION HARLAND, IRS CHURCHILL,
LOUISE S. OORR, METTA VICTORIA VICTOR,
S. ANNA LEWIS, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE

Or theoretical LADY'S BOOK contains each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EXPERIENCE PATTERNS—We give frequently a prescription sheet to our patrons, containing twenty patterns, and numerous receipts in cookery, confectionery, etc., etc., which are found invaluable.

MODEL COTTAGES—The only magazine in this country that gives those designs in the Lady's Book.

DRAWING LESSONS—In these are also unique.

We have also a GARDENER'S & HORTICULTURAL and a HOUSEHOLD DEPARTMENT.

GODEY'S UNRIVALLED RECEIPTS

Upon every subject, for the Household, Kitchen, House, and Laundry.

INVALUABLE TO ALL.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1871.

One copy, one year,	$ 3.00
Two copies, one year,	5.00
Three copies, one year,	7.00
Four copies, one year,	10.00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14.00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21.00

Every copy, one year, and an extra copy to Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4.50.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5.00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $4.00.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5.00.

☞ The money must all be sent at one time for any of the above clubs.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order is preferred. Bills on Philadelphia or New York; *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

CARRATRACA

Carratraca Mineral Waters,

FROM

Plantagenet, Ont.

1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established reputation, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the generation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken the body; creates a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a powerful purifying and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by bad) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, Jaundice, Dizziness, Headache, Loss of Appetite, Fullness of Blood to the Head, Cancerous Humors, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer complaints, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,

E. Chandler,

Charters & Co.

James Hannah,

J. G. Holden & Co.

L. W. Yeomans & Co.

Our Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofula, in which the system seemed saturated with corruption, have been overcome by it, and the scrofulous contamination until they were entirely eradicated. Personal testimonies of this character, publicly given, are familiar to all. Indeed, there is hardly a community in which some one is not publicly known to have been cured of disease by the use of this powerful alterative.

Scrofulous humors in the blood are the cause of more than one-half the diseases that afflict mankind. Of these, Salt-rheum, Boils, Pimples, Blotches, Tetter, Ringworm, Scald-head, Erysipelas, Sore Eyes, Sore Ears, and other eruptions of the skin, are the visible indications. Internal organs are also filled with concealed sores, as in Consumption, Dropsy, Kidney Disease, Piles, Epilepsy, Neuralgia, Rheumatism, Pains, Aches, Giddiness, and in fact every condition of suffering proceeds from impure blood. Expel the corrupt matter from the blood, and health follows as a matter of course.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and Debility, resulting from change of Constitutions. The means of obtaining relief, and permanent cure, is to obtain a bottle of Brandreth's Sugar Coated Pills, the only cathartic and alterative in existence which can operate on the diseases of the bowels without a pain, and restore to the stomach and nervous organs sufficient tone for them to digest a general aperient never embellesmy organ, or reduces the strength in the slightest degree. It is said they renew the natural health of the digestive and secretive organs, and will be found a perfect substitute for all physicians, where this family medicine is kept in the house. In all cases arising from, or aggravated by, impure blood or humors, Brandreth's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION!
APPLIED TO THE
LIVER, KIDNEYS, SKIN
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinar purposes, open the bowels, and through what is called "peristaltic" movement purge from the alimentary canal the fæces *and this is all.* Such agent be the purposes of cure, or removal of any setting disease, are utterly useless.

DR. RADWAY has completed one of the most extensive and costly chemical discoveries in medical chemistry—in the combination of the healing and balmy, but powerful, vegetable principles of these

PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILLS, that can be taken or administered with the absolute certainty of securing

THOROUGH EVACUATION OF ALL DECAYING AND DECOMPOSING elements in the human body and also safe to take in the most malignant of erup-tive fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all much alike, in fact, the same medicine, but originator. There are, however, but very few of these medicines that are entitled to any distinctive exclusive merit. All the so-called pills are made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the long list of the so-called Mineral Purgatives, *Mercurius, Mercurius, Mercurius*, (and the most popular, for it is admitted in 999 cases out of 1000 by physicians), Antimony, Podophyllum and kindred drugs supplies the vocabulary of the entire medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure the full properties of all the remedies in the most choice remedial agents known to Medical Science. They differ as much from the pills in general use as the diamond and the coal, or the Sun and the Moon. They are entirely vegetable, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have in one medicine the best Purgative, Diuretic, Alterative and Tonic results than will be given in from three to five ordinary pills of the usual kind now in general use. Read the following proof of this: You are seized with a violent Bilious Attack, Doctor prescribes Blue Pills or Calomel next morning. Drastic alcoholic pill or powders to work off the effects of the blue pill. This process is severe; and a dose is just given, or a gentle aperient, whereas a dose of from 25 to 30 RADWAY'S PILLS will do more than all these or more prescriptions are given for, without producing any risk from mercurialising or salivating the system.

Why is Purgative Necessary?

There are two principles which exist in every living human body; one is the product of decay of decomposition, (those humors or elements that are selected by the absorbents and lacteals as *refuse*, while the other is that of nutrition. It becomes necessary for the life of the body that the decayed and *waste* conditions elements be *dismissed* and the nutritive elements be *retained*. Hence the first thing to be adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is necessary that a cathartic or assistance in supplying assistance, and if all medicines ever given to the human race for his purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly, HAPPILY, and* without such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures the most severe proves it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,

Bilious Fevers

In the world. There is no Ague Cure Chalybeate preparation of Quinine, Arsenic, or Mercury, in the world, that will cure this disease so positively as Radway's Ready Relief.

Radway's Ready Relief

No one, however, should [illegible] Quinine Arsenic Bitters, Sarsaparilla, Blood Purifiers, Pills, Pain Killers, Rubefacients, Panacea, Renovators, Elixirs, Cures and Preventives, [illegible] ordered and used by hundreds of other remedies of distress. These agents never cure, but [illegible] disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixtures, Blood Purifiers, Chalybeates, or anything else in the world. Ready Relief is good for hundreds of [illegible] and therefore you

One 25 cent bottle of Radway's Ready Relief, diluted in one quarter of its weight of water, is equal in quantity, and superior in [illegible] to 24 bottles of the best Bitters, Sarsaparillas, Pain Killers, Rubefacients, Panacea, Renovators, Elixirs, Cures and Preventives, [illegible] Ready Relief.

One Bottle of Radway's Ready Relief, 25 cents, as a Pain Remedy, and for Family [illegible] will secure great benefit from its use in Rheumatism, and can be used for the same [illegible] liniment, and a few drops in a wineglass of water will cure at least 1,000 twenty-five cent doses. Be sure to purchase prescriptions or drugs every time pain sickness, or accidental take place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Diphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills,

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford instant ease.

20 Drops to a Teaspoonful in Water will, in a few minutes, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHŒA, DYSENTERY,

COLIC,

Wind in the Bowels,
And All Internal Pains.

The above does taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Diseases.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

Certainly cheaper than the quantity of the 15 cent Liniments, Pains, Killers, Rubefacients, Panacea of the common kind sold, should be, as a basis and have always been started to imitate Radway's Ready Relief.

Some of these imitations are reented with common barbarism, in imitation of the Ready Relief preparation of Ammonia—used in the genuine. Persons who have used Radway's Ready Relief will at once detect the miserable fraud in the imitations. The genuine Ready Relief has John Radway's Signature, and every bottle made air-tight.

Dr. Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold by Dr. Radway & Co., No. 87 Princess Street, Montreal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One trial will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

(This *Radway's Ready Relief, Regulating Pills* and *Renovating Resolvent*)

Dr. Radway's Remedies are prepared on entirely new principles, and base their action on the laws that govern the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our remedies require six hours to their subversion of pain, or nothing sear in their medicines—that the ingredients are all in a state of perfect chemical correspondence their published formulas are copies taken from the U. S. Pharmacopeia, &c., and other correspondence, prepared for their pills, pectorals, and sarsaparilla, for their popularity is for of imperfect, crude, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicines would soon come to a halt. Take for instance, the most popular remedial agents of the day—Sarsaparilla, and Dr. Radway & Co.'s Sarsaparillian Resolvent, one of the purgatives, of aloes, jalap, &c. Physicians, chemists, pharmacopeists, physiologists, all, more or less, condemn the drastic agents of the past, and the Materia Medica is deficient of good, sterling, reliable purgatives. The former of your Ayer's, Wistar's, official pills are based on wrong principles, and those who claim to put up scientific remedies on the old uncertain rules prescribed, are contributing nothing of value to the healing art. *Ready Relief, Regulating Pills* and *Sarsaparilla* are new medines, prepared on new principles, and Pyah ll sarsens without delay or incon-venience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carrier in the city at $3 a year if paid in advance, $6 otherwise. Mail subscribers $3 a year, $2 50 for six months, $1 25 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS at Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full reports of meetings of the Municipal Councils, Agricultural Societies, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,	$ 5 00
do	12 do	9 00
Half square,	6 months,	12 00
do	12 do	20 00
One square,	6 months,	20 00
do	12 do	35 00
Two squares,	6 do	35 00
do	12 do	50 00
Three squares,	6 do	40 00
do	12 do	60 00
Four squares,	6 do	50 00
